MORE RIOTING.

A Serious Riot in Belfast—Policemen and Others Injured.

BELFAST, Aug. 1.—Serious rioting took place here last night and to-day. A band of music yesterday marched to meet a party of Protestant Sunday school children who were returning from an excursion. The crowd with the band groaned at a number of Catholics who were assembled on Carrick Hill. The latter replied with stones and the others retaliated.—Wild rumours spread throughout the city and a large body of Orangemen gathered. The police tried to disperse the crowd, but their efforts were useless, and the Orangemen continued to increase. The mob attacked and wrecked a tavern owned by a Catholic named McKenna. The police frequently charged the mob, but were repulsed with stones. The rioters then wrecked a number of houses believed to be inhabited by Catholics. They uprooted pavements and fired stones at the police. The latter were finally ordered to fire buckshot and the command was obeyed. A boy named Knox who was going on an errand was shot dead. Many persons were wounded, some of them seriously. The riot had now reached such proportions that it was deemed necessary to call out the military. The rioters were apparently awed by the appearance of the soldiers and soon dispersed. The fighting was renewed however to-day and the police were again compelled to fire on the mob. Many of the rioters were wounded. Subsequently the mob wrecked several buildings and the military were again summoned. Many policemen were badly cut by the missiles thrown at them by the rioters. Forty-six arrests have been made. The police and cavalry are patrolling the streets.

FISHERIES PROTECTION.

The Canadian Cruisers to be Supplemented by a fast Steamer.

OTTAWA, July 30.—During his three weeks' visit to the Maratime Provinces, Hon. Mr. Foster, Minister of Marine and Fisheries, was not idle. His time was spent mainly in inspecting important light stations and in personal investigation of the complex fisheries question in the Bay of Fundy. As a result of the personal investigation several measures will at once be put into operation for the more thorough enforcement of law upon the border waters of New Brunswick and Maine. The Minister reports the service of the protection cruisers very efficient, but that owing to the great extent of coast to be patrolled and the difficulty encountered by sailing vessels in calm weather a fast steamer was found necessary in addition to the present fleet. The steamer will be placed on duty within a few days, and with a maximum speed of 20 miles per hour will make the service very complete.

The people of the Maritime Provinces are loud in their praises of the vigorous and efficient policy of the Government, and wish it maintained. Mackerel have been plenty, and with slight exceptions have kept close in shore. The United States schooners give the cruisers a wide berth. The purchase of bait and supplies has been effectually stopped, and no transhipment of cargoes has been allowed.

Freight Rates on Flour.

CHICAGO, July 31.—The general freight agents of the Northwestern lines have decided upon the following rates on flour: Eastbound from Minneapolis and St. Paul to Chicago, destined for a seaport, 7½c. per 100 pounds.; to Chicago, locally, 10c., and for interior points in Iowa and Illinois, 12½c. These rates will go into effect on Monday, and are made as an experiment. A large portion of the traffic is being diverted to Lake Superior ports, owing to the action of the St. Paul and Duluth road, which refuses to come into the pool.

DEVOURED BY BEARS.

Fresh Reports of Starvation Horrors in Labrador.

ST. JOHN'S, Nfld., July 31.—Fresh reports of starvation horrors in Labrador have reached here. It is said that in one settlement of about twenty-eight families, the inhabitants have been rendered so weak by forced short rations that there was hardly a man who was strong enough to raise a spear in self-defence against the bears. About one hundred and fifty bears made a clean sweep of the place, devouring every man, woman and child, excepting four young men, who succeeded in clambering to some neighbouring rocks. Where they remained forty-eight hours, watching the beats at their horrible repast.

After the bears moved away a pack of wolves, which had been hanging around, finished what the larger animals had left. By the time the forty-eight hours had elapsed two of the young men had perished from cold, while a third died shortly afterwards. The fourth succeeded in reaching the deserted houses and the terrible sepulchre which had once been his home. He found some other articles of clothing and a few scraps of food, which had been stored away. Armed with these he reached White Bear, a neighboring settlement twenty-three or twenty-four miles away. The very lowest estimate of those who perished from starvation and exposure he places at 3500. All these died since June 1st.

The winter stores have long since been exhausted, and the inhabitants of many settlements have been compelled to eke out a slow existence by devouring their few ponies and dogs, while every piece of leather and sealskin has been carefully utilized to deaden the pangs of hunger. The average temperature along the coast throughout last month was about zero. The sea has been covered with ice for 300 or 400 miles from the shore, hence fishing is impossible. Frequent appeals have been made for help, but with almost incredible inhumanity, they were disregarded. With the fresh danger caused by the advent of hordes of wild animals on the coast, there may not be a single soul left to tell the tales. Cape Chidley, Cape Mugford and White Bay are said to be the centres of the greatest destitution at present known, although other districts are believed to be in a worse condition.

ALL HUMBUG.

LONDON, July 31.—In answer to a telegram from the Colonial office proffering aid to the inhabitants of Labrador, the Governor of Newfoundland telegraphs: "I have reason to believe that the report of the starvation in Labrador is altogether unfounded."

HALIFAX, N. S., July 31.—The Rev. Moses Harvey, one of the best informed and most trustworthy men in Newfoundland, telegraphs: "The reports of starvation in Labrador and Northern Newfoundland are false. No such reports have reached St. John's, although vessels are arriving from those places daily. The fisheries are improving."

STARVATION IN LABRADOR.

A Whole Settlement, Except two Persons, Starved to Death.

ST. JOHNS, Nfld., July 30.—Hergenatis Yer, one of the Esquimaux who arrived here on the Nancy Barrett from Okkah, Labrador, says the population of that settlement was nearly 130, but when he left with his wife not a soul remained. Early in March the food gave out, every drop of oil and bit of seal skin was utilized, and at rare intervals a bear was killed, but finally the supplies were quite exhausted. On June 3 they had eaten nothing for six days, and goaded by hunger they feasted upon the corpses of several of the whites and a few Indians that had been killed by the cold. When one of their own party died the body was cut open, the entrails were taken out, and the remainder was frozen up for use. From this food terrible dysentery set in among the survivors, and on July 7 there were but sixteen persons left alive. The bodies of over twenty-five were eaten. The sixteen survivors started down the coast in sledges drawn by four dogs, the only living creatures left them. The bodies had been sacrificed to appease hunger long before. When about twenty-four miles from Cape Mugford a heavy snowstorm set in, and while the party were endeavoring to find their way they were attacked by white bears to the number of twenty-five or thirty, which killed all of the party but two, the survivors being among the number at Cape Mugford.

It is reported that more than one half of the entire population have died of hunger. Thousands of bears have crossed over from Pennyland, ransacked the shores of Okdah, dug open the graves and devoured the dead and attacked the living. They have devastated an immense district. The inhabitants, abandoning the smaller settlements, have flocked to the larger fishing ports, where they have been followed by hordes of bears and devoured in great numbers. The neighborhood of Hopedale, the centre of a considerable sealfishing tattic, has also suffered from lack of food and the ferocity of the bears and wolves. Within the last two months over 150 persons have perished from cold or hunger, or by falling a prey to the wild beasts. Men driven mad by hunger have fought with the bears over the remains of the dead companions, the bears being usually successful, and securing a double repast.

An answer will be sent to Mayor Howland's despatch from Toronto informing him of the destitution prevailing and requesting assistance.

A Narrow Escape.

ECHO, Utah, July 31.—An exursion train from the east, carrying General Logan and Governor Alger and their families, and delegations to the Grand Army of the Republic Convention from Iowa, Michigan and New Jersey, collided with a helper engine just as it emerged from Echo Canyon, wrecking both engines. Fortunately not a passenger was injured.

To Investigate the Fisheries.

WASHINGTON, D.C., July 31.— Senators Edmunds, Frye, Evarts, Morgan and Saulsbury have been designated as a sub-committee of the Senate Committee on Foreign Affairs to visit the principal New England and other ports during the recess to investigate every phase of the fisheries difficulties and complications and report at the next session.

BAYREUTH, Aug. 1.—Abbe Liszt died at midnight last night.

GEN. MEAGHER'S PORTRAIT.

WATERFORD, Ireland, Aug. 1.—The unveiling of the portrait of Gen. Thomas Francis Meagher by the mayor in the council chamber was the occasion of a great demonstration. An immense procession, headed by the mayor, marched through the principal streets, across which triumphal arches had been erected. The city was profusely decorated with flags. At the unveiling ceremonies addresses were made by a number of Nationalist members of parliament and others.

WHAT WILL THEY DO?

Eager to Know the Conservative Policy —An Epoch in History.

LONDON, July 31.—Everybody is a tip-toe for some hint as to the new Government's Irish policy. It is noteworthy that all the men now living who have held the position of Viceroy of Ireland, with the exception of Earl Cowper, are more or less committed to Home Rule. Lords Kimberly, Spencer, Aberdeen and Carnarvon all are as much Home Rulers as Mr. Gladstone or Mr. Morley. The Marquis of Salisbury in his appointment to that office has chosen a man who, when he was Lord Castlereagh, was elected to the Commons in the spring of 1878 by the Home Rule vote in County Down. The others were partly for Home Rule and against Lord Beaconsfield's insufficient measure of land reform. But Londonderry's past record will render him a suitable tool in Salisbury's hands, should the latter, as is far from possible, execute a strategic movement to the rear. Home Secretary Henry Matthews, besides being a Roman Catholic, was elected for Dungannin in 1868 as a Lideral by strong support from the Fenian Brotherhood, whose aim, it is true, was to overthrow a personal enemy by making use of Matthews, but the fact remains that he also was borne into political life by Liberal and Home Rule votes. His selection by Lord Salisbury, to fill this most important post marks, an epoch in English history. It is the first time since the Reformation that a Roman Catholic has been entrusted with one of the secretaryships by a Tory Premier. The only other Catholic who has held office since the Emancipation is the Marquis of Ripon, who was first Lord of the Admiralty of Gladstone's Cabinet. Up to the time when Sir Robert Peel passed the Catholic Emancipation Act in 1828, the members of the sect were not only prohibited from entering Parliament, but were also debarred from holding any of the higher appointments in the civil service or staff appointments in the army.

SEVEN PERSONS DROWNED.

Six Ladies and a Gentleman Lost by a Yacht Capsizing.

HIGHLANDS, N.J., July 31.—The schooner-yacht Sarah Craig, from Philadelphia, upset near the Government dock at Sandy Hook during the storm last evening, and six ladies and a young man was drowned. Seven of the yacht party were found clinging to the rigging after she capsized and were rescued by tugs. The names of those lost were:—Mrs. T. H. Stevens, her two daughters, Miss M. Stevens, and Mrs. Asken two sisters, Emma and Bessie Merritt, Maud E. Rettod and Chester Clark.

MONDAY, AUGUST 2, 1886.

RIEL AND BLAKE.

MR. BLAKE has at Chambly won the first election for the House of Commons since his corrupt bargain to support the Rielites in return for their votes, to advocate rebellion and murder in consideration of assistance to regain place and power. Mr. Blake will find it a very costly victory.

In his first public speech after his return to Canada Mr. Blake said that he would not make the Regina scaffold a political platform nor cement party with blood. If this was his intention he speedily relinquished it at the instance of his brother Rielite, the accomplice Privy Councillor Laurier. In the House of Commons he took his stand with the friends of rebellion and murder, and became the head of the Rielite coalition. His indiscreet allies in the Province of Quebec let the fact become public that in return they were to drive the Macdonald Administration from power to avenge Riel, and were to strive to restore Mr Blake to office as a reward for his services to the memory of the French Roman Catholic "martyr!"

Mr. Blake has drawn the first instalment of his pay. He has gone to the constituency of Chambly with the cry of vengeance against those who dared to hang a rebel and murderer in spite of his being French by race and Roman Catholic by creed. He has succeeded in gaining a parliamentary supporter on the issue of immunity to a criminal who is a French Roman Catholic. Mr. Blake cannot avoid the responsibility; his colleague, his candidate, his supporters and his organs, all made this their sole policy and staked the event of the contest wholly on the ground that one of their race and creed should not be amenable to justice. That Mr. Blake had agreed with them in aiming at vengeance for Riel's execution was the only claim they urged why his candidate should be supported.

It is very sad that such consideration's should be imported into Canadian politics. But it is not we who are choosing the ground of quarrel and if we are attacked on this point we must prepare for the defence. It is well indeed that we should know for what cause the leading statesman of Canada is to be driven if possible from power. As Mr. Blake's friends in Quebec claim that all Frenchmen should resent the execution of a criminal who is even half French, we in Ontario know what we have to meet. Since Mr. Blake's friends in Quebec claim that no Roman Catholic criminal is to be executed, even though he became one only on the scaffold, after causing the ill-treatment and murder of priests, and being censured by priests as a foe to religion, Ontario must face the situation. Quebec arrays itself against the rest of the Dominion on this quarrel, and will be emphatically taught that the privileges, which it has been so liberally and generously allowed, do not include a license to rebel, rob and murder with impunity.

That Mr. Blake should have allied himself with such a cause in the hope of deriving a personal advantage from it, is a melancholy proof of his unscrupulous and insatiable ambition. With his characteristic trickery he may endeavor to profit by the alliance in Quebec, and at the same time to keep it in the background in Ontario. The attempt would be vain. He has gone into his first parliamentary election since his blood-stained compact, with the cry of vengeance for the punishment of a French Roman Catholic rebel and murderer, and it will re-echo through the country.

DEFEATED MINISTERS.

THE very able and well-informed correspondent of the Montreal *Star* in England, who signs himself "Norman," in his despatch of July 29th says:—

"The meeting of the Cabinet yesterday was more pathetic than last meetings usually are. Since the Government was already practically out of office and important documents in all the departments of state were being submitted to the Conservative leaders, there was nothing to do yesterday, except to draw up a final list of honors to be bestowed by the retiring Ministry."

This is an emplification of the constitutional rule and custom that a Ministry, having lost the confidence of the people, as signified by their representation in the House of Commons, should rigorously abstain from dealing with matters of importance, leaving all such decisions to their successor, and only carrying on the necessary routine business. The exception mentioned, the drawing up of a final list of honors to be bestowed, is an old custom warranting returning ministers to advise the "fountain of honor" as to the bestowal of honorary titles upon those quitting the public service, the defeated cabinet being supposed to be the best judges of the individual merit of those who served their country according to the policy it favoured at the time when the services were rendered.

This is the constitutional rule at Ottawa as well as at Westminister. Mr. Mills had therefore no excuse when he took Indian moneys that had been entrusted to his charge, and after he and his colleagues had been rejected by the country, bestowed them on a flimsy excuse upon a political friend, whose chief merit in Mr. Mill's eyes was that as he unblushingly boasted he had spent enormous sum corruptly for the party benefit. Even if the transaction had been in itself a legitimate one, instead of being utterly unjustifiable, Mr. Mills should have felt himsely precluded from dealing with the matter at that time. No honest man would have done so, but would have relegated it to his successor possessing that popular confidence which he had himself forfeited.

THE NEW CABINET.

The Liberals Not Pleased—Lord Randolph Churchill a Protectionist.

The London, Eng., correspondent of the Montreal *Star* telegraphs as follows on July 31st:—Public interest in the new Tory Cabinet focuses on three figures. First, of course, comes Lord Randolph Churchill. His appointment has aroused indignation among the Liberals, and it is seriously proposed that the Liberal party should refuse to recognise him as leader of the House till he has apologized fully for

THE GROSS INSULTS

to Mr. Gladstone contained in his electoral address. Even among the Conservatives not a little disgust is privately expressed. The *Standard*, however, whose leading article on Lord Churchill published exactly a year ago to-day [illegible] and in which it described him as "incredibly ignorant," as "taking boyish delights in insulting men who had been half a century in the service of the State," as "thinking himself witty when he was only impudent," as "not even possessing sufficient knowledge to fathom the depths of his own ignorance of anything worthy the name of statesmanship," as "having done the Conservative party almost irreparable injury, now describes him as "an orator and a wit," declares he "possesses the debating power and the boundless spirit indispensable to a successful leader." Churchill has pledged himself in the strongest manner to a policy of immediate protection, therefore his appointment to the Chancellorship of the Exchequer is doubly disgusting, the more so, indeed, because of the rumored appointment of Mr. Richie to the Board of Trade, which is now regarded as probable. He also is a protectionist of the deepest dye. In his last election address he referred expressly to the unfairness of countries sending their manufactures to England free, while levying a heavy duty on English goods. The third figure is Henry Matthews, the Queen's counsel who conducted Mr. Crawford's case against Sir Charles Dilke with such relentless ability. He is in many respects the ablest man at the English bar. He is a Roman Catholic, is over sixty, and was the co-respondent in a divorce case twenty years ago. I know for a fact that his surprising translation straight into one of the highest offices of state was done by the Marquis of Salisbury at Lord Churchill's special, urgent request. Lord Churchill declared that he must have somebody on the front Conservative bench who could be counted on at any moment for a rattling and effective party speech. He personally guaranteed Matthews' ability to do this.

Now that the last election return is known, it ought to be possible to state exactly the condition of parties in the House of Commons. That this is not quite so easy as may be supposed is evident from the fact that different totals are given by almost every authority which undertakes to exhibit them. The discrepancy arises from the existence of the so-called Independents and the uncertainly concerning the return to the Liberal fold of several dissident Liberals. Counting the Independents as they always vote after carefully going over the list the following are the final totals: Conservatives, 318; Liberals, 194; Parnellites 85; Unionists, 73.

Mr. Blake's Platform.

During the campaign in Chambly, which closed yesterday, Mr. Prefontaine's supporters indulged in extraordinary appeals to prejudices of race and religion. One of the speakers gave an account of the Province of Ontario, where he said, nearly all the male adults are Orangemen, and where "women and children attend the Orange Lodges on Sunday afternoons." In the lodges, it appears, the principal obligation is one binding members "to wade knee-keep in Papist blood." When Riel's capture was announced the lodges were hurriedly called together and "secret petitions" were prepared and forwarded to Sir John Macdonald, calling upon him to "hang the French-Canadian Papist at any cost, whether guilty or not guilty, sane or insane," and of course Sir John had to obey. Though all Protestants in Ontario are not Orangemen the vast majority are, for "the Protestant ministers preach Orangeism from the pulpit and attent the orgies of that secret society." "I ask you, therefore," said this stump speaker, "to vote for the punishment of the Ministry that represents Orangeism and that sacrificed a French-Canadian Catholic, as in times past it sacrificed Irish Catholics who stood accused wrongfully of capital offences, to the fury of the intolerable bigotry of Ontario. Down with them! They murdered our brother; let us avenge him and teach these hangmen and the bloody-minded people for whom they act that we French Catholics are a great living power in our hand."—*Toronto Mail.*

DON'TS FOR FRUIT GROWERS.

Don't be afraid to ask advice of those who are skilful and successful, especially if you have had no experience.

Don't think you can learn everything at once.

Don't begin the business of growing fruits for market on too large a scale, or without sufficient capital.

Don't buy plants of irresponsible parties.

Don't plant all the fancy varieties; only a few of the tried and most reliable.

Don't select varieties of berries not firm enough to stand transportation safely.

Don't mix different varieties.

Don't neglect to set out all fruits (except, perhaps, strawberries) in rows which will permit horse cultivation both ways.

Don't plant grape vines less than nine feet apart—at least one way—in order to allow a waggon to pass easily between the rows.

Don't set strawberry plants too deep.

Don't plant corn among small fruits; it will shade the plants and rob them of needed moisture. Beans, potatoes, or most any hoed crop will do no harm the first year or two, provided the whole ground is properly fertilized.

Don't stint the soil of a sufficient amount of plant food in the way of stable manure, bonedust, ashes, phosphates, etc.

Don't trim raspberry and blackberry vines before the hard freezing weather is over. If grape vines are not trimmed in the autumn don't put off doing it until the buds have started in the spring.

Don't plow or cultivate too deep among small fruit.

Don't let the weeds get the start of you. Keep them in check by constant cultivation.

Don't allow the soil to become hard and baked after a rain. Keep it well stirred up.

Don't allow berries before shipment to get over ripe. Most varieties of strawberries and raspberries are better picked every day.

Don't pick blackberries oftener than every other day.

Don't put all the best berries on top of the boxes.

Don't allow pickers to gather any unripe berries or leave any that are ripe on the vines.

Don't be discouraged if returns are sometimes smaller than you expected.

Don't be idle; don't leave too much responsibility to hired help.

Finally, don't expect to succeed except by perseverance and much hard work, and without first meeting with many reverses and disappointments. Only "screw your courage up to the sticking point," and you'll not fail.

PORT HOPE.

CLEVER.—The other day Eliza Sexsmith, a ten-year-old daughter of Mr. T. Sexsmith, of Hope, called at this office. This young lady can spell any word given her as readily backwards as forwards, and if too hard for her to master by simply spelling it right for her, she will quickly repeat it, and even more rapidly reverse the letters in proper order. She can take any month on the calendar [illegible] upon what day of week the 1st occurs and follow the column down thus: 1, 8, 15, 22, 29, until the last week is reached, without, of course, seeing a calander, and doing it as rapidly as she can talk, without apparent mental effort and without a single error. This has not been drilled into her mind, but it seems to come naturally by the ability. There are some persons to whom is given the ability to read and add figures readily without any labor, while others would work hard at a much simpler task.—*Guide.*

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Horsford's Acid Phosphate—For Lemons or Lime Juice.

Is a superior substitute, and its use is positively beneficial to health.

Fluid Lightning.

All sufferers from that terrible torment, Neuralgia, can be made happy in one moment by a single application of Fluid Lightning briskly rubbed on painful parts, and without using any disgusting medicine day after day without any apparent result. Fluid Lightning also cures as effectually Toothache, Lumbago, Rheumatism, Headache, and is only 25 cents per bottle at John McKee's Drug Store.

Scott's Emulsion of Pure Cod Liver Oil With Hypophosphites,

In General Debility, Emaciation, Consumption and Wasting in Children,

Is a most valuable food and medicine. It creates an appetite for food, strengthens the nervous system and builds up the body. It is prepared in a palatable form and prescribed universally by Physicians. Take no other.

A THRILLING EXPERIENCE.

A Steamer Chased from Manitoulin Island by Forest Fires.

DETROIT, Mich., July 31.—A Chicago special says: The Canadian steamer Isaac May staggered into harbor at a late hour on Thursday night without fuel and almost destitute of provisions Captain Muir her master, relates a thrilling experience. The May left Chicago three weeks ago, towing three barges. After a run of five days they arrived at the Manitoulin island on the Canadian side of Lake Huron, the largest island in the great lakes, covered with cedar trees. When the vessel arrived the inhabitants were badly frightened. For weeks not a drop of rain had fallen. The steamer and her tow began to take on cargoes of posts and ties, when the woods suddenly burst into a great blaze. No sooner had the fire started than a severe wind storm swept over the island driving the flames in every direction The people fled in terror to the beech and sought shelter on board the vessels, which pulled out into the lake. Scores of bears, roaring with pain, ran out of the woods, with the hair singed from their hides, and plunged into the lake. The flames raged for five days, burning over acres of valuable timber and destroying a vast amount of stock piled on the beech for shipment. Then a drenchi g rain storm set in, and continued until the fire was put out. It was ten days from the time the vessels reached there before they were ready to leave, and their stock of provisions was almost exhausted in caring for the people who took refuge there. Still Capt. Muir thought he could make his provisions hold out until they reached Chicago but he did not count on having head winds all the way.

The vessels left the island last Saturday morning, and as dense clouds of smoke from the burning timber had settled down over the water, the vessels had to pick their way slowly through the darkness. The steamers passed the Straits on Monday, but hardly had entered Lake Michigan when they ran into another band of smoke that shut out everything from view. So thick was the atmosphere that the first barge of the tow could not be seen from the decks of the steamer. On all sides could be heard the fog signals of passing steamers. By moving slowly and sounding whistles at frequent intervals, the steamer made her way through the smoke in safety. Her progress had been so greatly impeded however that when one hundred miles north of Chicago the engineer reported the coal bunkers empty, and the steward informed the captain that nothing was left to cook on board. The crew were put under short rations and the deck load posts were drawn on to feed the furnaces but the cedar was so green that the boilers could hardly be kept warm. Finally the steamer cut her consorts adrift and came to Chicago under sail without them. The experience of the steamer at the Manitoulin island during the fire was thrilling. The scene from the vessels as told by a spectator was grand beyond description The flames shot into the air for hundreds of feet and turned night into day, while the heat was so intense that the vessels were obliged to push out into the lake The noise was deafening, and amid all the din and confusion thousands of birds fluttered around their late homes, until, tired with constant flight, they dropped into the lake or fell into the flames. Deer and bears rushed from the woods together, and threw themselves into the cooling waters of the lake. For five days the flames held their sway before the lumbermen could return to island to finish loading the vessels. The barges were found off Racine and towed into port yesterday.

MORE FIGURES.

A SHORT time ago some figures were quoted in the CANADA LUMBERMAN from the Bay City *Gazette* as to the quantity of logs United States lumbermen proposed to carry across the lakes in the rough. The *Gazette* then said that one Saginaw firm only intended to export logs, and only 12,000,000 feet, and Alpena people probably 12,000,000 more, which caused it to come to the conclusion that the export duty was silly. In its issue of July 16th, however, it says:—

"The Emery Lumber Company having invested in 100,000,000 feet of pine in the Spanish river region of Ontario, propose to bring the logs to this district—their mill be at East Tawas—to cut, if they have to pay the $2 export duty. At any rate they propose to see if there is any money in the business."

Besides, the *Gazette* says that F. E. Buswell, of Grand Rapids, owns 100,000,000, and "Saginaw and Bay City men a lot more." Of course the export duty was a trifling matter—unnecessary, silly! And the fact that one of these firms has decided to manufacture the lumber on the Canadian side, instead of exporting the logs in the rough, only shows still more plainly how intensely silly the increasing of the export duty was! Probably Canada could stand more such silliness without a collapse, and perhaps the United States will see that reciprocity would not be such a bad thing after all.—*Canada Lumberman.*

After Many Years.

LANCASTER, Pa., July 31.—Seven years ago Jas. Gallagher left his young wife and two children in this city, apparently without cause. A year or two after his disappearance Mrs. Gallagher read an account of the death of a man whose description corresponded with that of her husband, and believing him dead, she married B. F. Kiel. Children resulted from the second union, and the family were living very happily together until yesterday, when Gallagher put in an appearance. He has been in Kansas and Colorado, and declares that he wrote to his wife, but that his letters were not answered, while she declares she never received a letter from him. She denounces her first husband in unmeasured terms. The case will probably be taken before the courts.

Ford Visits Blaine.

AUGUSTA, Me., July 31.—Mr. Patrick Ford, of the New York *Irish World*, has been down to see Mr. Blaine. The two gentlemen were closeted together at Mr. Ford's hotel for several hours. What transpired is only known to themselves.

AGRICULTURAL NOTES.

Sulphur sprinkled over a nest destroys vermin.

As a rule, farmers eat too much and do not bathe often enough.

Dark eggs are richer than light, it is said now, and command a higher price.

F. D. Coburn thinks that the flavor of the pork depends on the last month's feeding of the pig.

The Tewksbury Winter blush is a small, late-keeping Winter apple that has very valuable qualities.

At the Wisconsin Farmers Institute last Winter one of the standing mottoes was: "Clover—the red-plumed commander-in-chief of the manurial forces."

Of course the chickens help the orchard in every way—by scratching, insect killing and all that—and then the orchard helps the hens, giving them range and food.

The season for budding is here once more and every farmer's boy should sharpen his jacknife, or what is better, get a keen budding knife and practice until he becomes expert in the art.

A mare served with a thorough-bred horse will go longer with foal than one served by a cold-blooded one, and longer with a mule than a horse colt. The period of an ass is longer than a mare.

Any man who will half try can grow good quinces. After they are grown there is no trouble in disposing of them. I once talked with a man who made his living out of a quince orchard and was one of the most independent of happy souls.

A new species of boxwood—closely resembling *Bucus sempervirens*—has been discovered near the Cape of Good Hope. It promises to be valuable for engraving blocks, being almost as hard and close-grained as the species generally known and now growing scarce.

The following remedy for cabbage worm is given in the Germantown *Telegraph*: "Bruise a quantity of tansy in a wooden bucket, over which pour cold water and let stand until the water is quite bitter, and then sprinkle it over the plants, being sure to reach the worms with it. It is absolutely necessary that the water should be quite bitter."

The music of a guinea hen is not ravishing, but the bird sets up no claim as a musician. She is great as a forager, however, and destroys many insects that the common hen does not touch. She doesn't scratch in the garden, raises a brood without cost, frightens away hawks and other marauders, and is a stylish and handsome fowl withal.

Pumpkin Seeds for Feeding.

This is a question on which, as on many others, there are various opinions given by practical feeders. And therefore, to give an intelligent understanding of the matter, I will show the peculiar properties of the seeds. One effect of pumpkin seeds is their action upon the kidneys. They are given as a diuretic medicine, as stated by Wood & Bache in their Dispensatory, and also used to expel tapeworm.

Those who have watched their effect upon milch cows, believe that this action upon the kidneys reduces their yield of milk. And this is certainly the natural effect the extra action of the kidneys must have upon the secretion of milk. Strong action like this must also unfavorably affect fattening animals—hogs or cattle. Pumpelly, in his work "Across America and Asia," says, the Chinese eat pumpkin seeds between the courses at dinner. This may be as an appetizer or digester.

These seeds are rich in nitrogen and oil. They are certainly very nutritious, and cattle and hogs are often eager to eat them. Some feeders of swine have been very successful in feeding pumpkins as a large part of the ration in fattening them. Experience seems to have been contradictory on this matter, but the explanation is simply this: The seed in small quantity are not deleterious to animals in good health, but when it happens in breaking or cutting up the pumpkins that the seeds get separated from the body of the pumpkin, and these accumulated seeds are thrown to the animals in a mass, and an extra quantity is eaten by a few, it produces a bad effect.

It is to be presumed that if hogs or young cattle eat only the common portion of seeds—that is, if it eats a pumpkin and the seed that belongs to it, no harm will be done, unless the pig or steer is in an unhealthy condition. But as the seeds are so liable to get separated from the body of the pumpkin, it is safer to separate them, and, if fed, give them in very small quantity. It is the seeds alone that act deleteriously upon the kidneys.

The pumpkin is a profitable crop to raise for feeding all the animals upon the farm. Two or three tons per acre may be raised with very little labor in the corn field, and the food value per ton is greater than the best corn fodder. But it is not advisable to feed the seeds to milch cows—the danger is greater than the advantage.—*In Country Gentleman.*

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

P. P. FLOUR for Pastry, $2.75 per Hundred.

BAKER'S FLOUR, (ground from Manitoba Hard and Ontario Spring Wheat), $2.50 per Hundred.

FACTS

Concerning Dr. Dorenwend's

It is the only preparation in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

☞Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

The Daily Review.

MONDAY, AUGUST 2, 1886.

THE CITY AND SUBURBS

Fixing It.

The street Inspector is having the deep hold which was washed out at the corner of Simcoe and George streets filled up.

Not Among Them.

John Bradley was not among the boys who were charged with rifling the carpenters tool chest, as was reported.

Paid.

John Condon, who was convicted at the Police Court a short time ago for an infraction of the Scott Act, and who has been missing since, was arrested this morning. After his arrest he paid the fine and costs, amounting to $72.

Lively Business.

The large staff of clerks employed at C. Bon Marche were kept busy on Saturday waiting on the crowds of customers who thronged the store during the whole day. The rush continues, and the public will do well to call early and secure some of the bargains that are being offered. M. CARTON.

Mr. Bogue's Operations.

Mr. James Bogue, contractor, is in town to-day. He reports that he is through with his contract on St. Andrew's Church, Lindsay, for some time past and that the building of St. Michael's, Belleville, is progressing favorable. Mr. Bogue is making a high reputation for himself as a builder of ecclesiastical structures.

Acknowledgement.

The ladies committee of the P.P. Home thankfully acknowledge the following donations for July: Mrs. Wm. Walsh, parcel clothing; Mr. Greenhow, currants; Mr. Hamilton, Douro, bag potatoes; Mrs. Wm. Hamilton, spring mattress; Ladies Baptist Church, bread, cakes, etc.; Mrs. John Breckenridge, Westwood, 10 lbs. cheese.

St. John's.

At both morning and evening services there were large congregations in St. John's Church. The musical part of the services was rendered more attractive by new music being set to the *Nunc Dimittis* the *Magnificat*, the *Te Deum* and the *Gloria Patria*. During the offertory in the evening the anthem "Guide Me O Thou Great Jehovah," was sung, Mr. A. D. Browne taking the tenor solos.

The Finest lot of Gent's Furnishings in Peterborough, at ANDREW MCNEIL'S.

A Disideratum.

Mayor Stevenson has purchased a very novel and very serviceable and handy conveyance from Messrs. Porter Bros., the carriage makers. This rig is either a one horse or two horse one. It can be made into a pretty top buggy or a neat little two seated carriage at will. This is done by means of movable seats constructed on an ingenious plan. The vehicle was built throughout at Messrs. Porter Bros.' factory, and is a model of both workmanship and ingenuity. Already another order has been received for this kind of rig.

Captured his Man.

On Saturday night at about twelve o'clock P. C. McGinty gave another evidence of his efficiency as a policeman. While on his beat down George street he overtook a gang of men, mostly river drivers, opposite Comstock's furniture store. The whole crowd seemed to be the worse of liquor. Some were singing at the tops of their voices and others were conducting themselves in an unbecoming manner. The P. C. ordered them home, but they refused to go, and, instead, several threw off their coats and assumed a menacing attitude. P. C. McGinty laid hold of the first man he got his hands on, but when he did this the others tried to rescue their chum. The constable drew his baton and administered a few good hard knocks on his nearest assailants, and, having cleared the way, marched off with his man. The latter was placed in the cells and the constable went off again to see if he could rope another in. The others had profited by the example and had made themselves scarce.

Boating Club.

The regular monthly meeting of the Peterborough Boating Club will be held this evening at 7.30o'clock.

Temperature.

The thermometer readings to-day at the hours mentioned were as follows:—8 o'clock a.m., 63; 1 o'clock p. m., 67; 3 o'clock, p. m., 74.

Gladstone and Salisbury

are both willing to concede Ireland a certain measure of self-government. The question is how much? Rev. Dr. Burns will answer it at the Opera House next Wednesday evening. Secure your seats early and avoid the rush.

An Arctic Enterprise.

Mr. John Hurley has handed in a novelty in the shape of a newspaper. It is called *The Glazier* and is published at Fort Wrangel, Alaska. It is a four paged sheet, the pages being about the size of those of Webster's unabridged dictionary. It is published in connection with the Flinkit Training Academy, Fort Wrangel. In a leading article it is announced that *The Glazier* will shortly appear in a new dress of type.

Town Talk.

Ha, ha! I run him in—P. C. McGinty.

Not us though—Who discreetly fled.

Deucedly dusty—The alliterative water cart driver.

Somewhat—The dust clouded pedestrian.

If I only knew who they were—George Harvey.

I dont think he recognized us—The disappearing drivers.

We'll have to try to get them on our list—The P. C's.

Personal

Mr. C. W. Sawers, who has been suffering from an attack of inflammatory rheumatism is recovering. He will spend some weeks at a summer resort.

Mr. D. W. Dumble, Police Magistrate, has returned to town from his short holiday trip. He spent a pleasant few days at Lakes Muskoka and Joseph. The islands and shores of these lakes, he says, are well dotted with pretty lodges and camps.

Corp. A. Nicholson and Lieut. F. F. Mason, 57th Battalion, who attended the School of Infantry, have secured certificates.

MORROW, TIERNEY & Co. are now offering special inducements in TEAS, SUGARS and General Groceries. Call and inspect.

The Nicholls Hospital.

The Lady Superintendent thankfully acknowledges the following donations for July:—Mrs. D. Smart, Mrs. Alexander Smith, Mrs. Valentine Best, Mrs. George Burnham, old linen and cotton; Mrs. Brown, of Goodwood, 2 parcels of books and papers; Mrs. Morrow, milk and lemons; Mrs. Weller 4 jars preserves; Mrs. T. Rubidge, money to buy fruits; Mrs. Manning, gooseberries; Mrs. Nicholls, preserves; Mrs. Wallis, buttermilk; Mrs. Price, old cotton; Mrs. Green, books and papers. Mrs. Wallace, clothing; W.C.T.U., flowers weekly.

Sporting Notes.

The Riverside Lacrosse Club will play the Hastings team in the Riverside Park on Tuesday.

The Port Hope papers are gloating over the drubbing the Port Hope baseball team gave the Cobourgs.

The Cobourgs say that they played local men against professionals.

And the Port Hopes say that it was quite fair to play professionals.

Port Hope is now hunting after the Lindsays, the titular champions of the district.

The Macdoc lacrosse team will come here on the civic holiday to play the Riversides.

The Checkers of Beaverton and the Orillias will play for the Central District Championship at Orillia on Wednesday.

Upset.

The north part of George street, from London street to Smith street, seems to have been turned into a race course. Scarcely a night passes but, under cover of the darkness, horses are trotted up and down at a three minute gait. It is not long since some of those who preferred racing on this part of George street to patronizing of the Driving Park were brought up before the Police Court and fined. This had a good effect for a time, but now His Worship's correction seems to be forgotten. Saturday evening was a "field day." Up and down the street the trotters coursed while the drivers gave quite audible evidence of their appreciation of the fun. Mr. George Harvey, of Nassau, however, did not see where the fun came in. While one of the pairs of trotters was passing him when he was driving his buggy along the rig was driven into his, upsetting it. He was considerably bruised and one of his hands were cut. If this practice is not put a stop to some very serrious accident will result for it.

POLICE COURT.

Before D. W. Dumble, P. M.

LARCENY.

MONDAY, August 2.—The charge against the three Bradley boys and Earnest Johnston was dismissed without costs.

DISORDERLY.

John Canton was charged by P. C. McGinty with being disorderly on Saturday night.

He pleaded guilty.

A fine of $2 and costs was imposed.

A TIGER LILY.

The "Lily" of the "Pall Mall Gazette" Revelations Suing for Damages.

LONDON, July 30.—The *Evening News* says the parents of Eliza Armstrong, the young girl who figured so conspicuously in the *Pall Mall Gazette* exposures, have arranged to bring suit for $40,000 damages against Mr. Stead, the former editor of the *Gazette*, its publishers, and General Booth, of the Salvation Army. The claim will be for libel on the girl's parents and for assaulting the child. The defendants, it is said, are endeavoring to compromise.

The action threatened by the Armstrongs embraces six suits. Eliza proposes to sue Mr. Stead for $5,000 for libel, assault and false imprisonment, and Mr. Thompson, the proprietor, and Mr. Lambert, the printer of the *Gazette*, together, for $5,000 for libel. The parents of the girl threaten to sue Messrs. Thompson and Lambert for $7,500 for libel, and Mr. Stead for $8,500 for libel and the loss of the daughter's services. Mr. Armstrong and Eliza will jointly sue Bramwell Booth for $5,000 for assault and wrongful detention or imprisonment of the girl and for loss of her services. Then Eliza will sue Dr. Smith for $5,000 on a charge of assault and causing distress both of mind and body. The preliminary steps in the suits have all been taken.

More Safe Robberies.

KINGSTON, July 31.—During last night Napanee was visited by burglars and three safes were examined. The combination and lock in the safe in Burrell & Co's office was secured. Next J. J. Perry's safe was opened, but nothing was taken, but from a till $2 was secured. The burglars went to the office of R. S. Shipman, agent for the Rathburn Co., and blew the safe open. After boaring a hole in the door they put in dynamite. The inside of the safe was blown to pieces. They opened the drawers and scattered notes and papers all over the office, only getting $2 50 in coppers. These robberies were evidently committed by the same crackmen who damaged safes in this city on Wednesday night. The impression is that discharged convicts are the guilty parties. The bit used at Tyner's is said to have been purchased at Muckleston's hardware store. The ex-convicts, Isaac Slotts and William Murphy, were from Brockville, and had served terms in the prison for burglary. One of them is a blacksmith, the other a machinist. The police have descriptions of the pair and warrants have been issued for their arrest.

Into the Canal.

MONTREAL, July 31.—The South Eastern Boston and Portland Express had a narrow escape from a very serious accident this morning. This train consists of four passenger cars and a baggage car is drawn out from the Bonaventure depot every morning at 9 o'clock by the suburban train to St. Lambert. This morning as the train was approaching the Grand Trunk Railway Company's iron drawbridge over the Lachine canal, at St. Henri, the engine driver, notwithstanding that the semaphore was against him and a barge passing through the bridge at the time, ran past the semaphore, and being unable to haul up the train, the engine was precipitated ever the bank into the canal. The coupling fortunally snapped, and only the front boggie of the first car went over. The engine driver and the firemen both jumped from the engine when they saw it was going over.

Poisoned by Bad Water.

POTTSTOWN, Pa., July 31.—The Glasgow Iron Works, where upwards of sixty men were stricken with serious illness, on account of bad drinking water, closed yesterday morning. There were not enough men left for a single turn of duty. Half a dozen are reported in a dying condition. The physicians state that several more have succumbed to the disease. The water of the spring where the employees drank copiously during the oppressive heat has been analyzed, and pronounced totally unfit for drinking purposes. Yesterday the spring was thoroughly cleaned, and a huge copper head snake, completely decomposed, was brought to the surface. This, it is believed, solves the mystery.

Poison at a Picnic.

HALIFAX, N.S., July 30.—Twelve hundred people, including 300 children, attended a Band of Hope picnic at McNab's Island today. An hour after dinner men, women and children took seriously sick, and fifty of them had to be taken to the hospital. It is not known whether it was the meat, which had been kept a day, owing to a postponement, ice-cream or the water. Most of those who are ill are adults. None are expected to die, but some are terribly exhausted by vomiting.

The Bellerophon.

CHARLOTTETOWN, P. E. I., July 31.—The presence of the flagship Bellerophon is infusing some life into Charlottetown. Band concerts, lawn tennis, cricket, exhibitions, the electric light, and general flirtation are all the rage. The ship remains here till after the Caledonia games on Tuesday, when she leaves for Quebec. Admiral, the Earl of Clanwilliam, and the principal officers will visit Montreal.

Abundance of Fish.

BARRINGTON, N.S., July 31.—Codfish along the shore are abundant and closer inshore than usual. The coast is swarming with squid, and immense quantities are being taken for bait. The schooner Myrtle is home from her second trip to the Banks. She caught an average of eighty-five quintals of fish daily. Captain Kenny says he never saw the fish more plentiful or of better quality.

Murder.

BATHURST, July 29.—Emanuel Chiarez, a boy of 16, early this morning slew his stepmother with an axe while she was sleeping. Her head was almost severed from her body. The boy was found by her corpse weeping. He said he had become enraged because she would not let him go to the circus, and that when he awoke this morning the devil told him to cut her head off. He is now in jail.

Garden Party and Sale of Work at Hazel Brae.

The Ladies' Committee (Mrs. Jas. Wallis, President), intend holding a Sale of Work and Garden Party at Hazel Brae on the evening of the 5th of August. Particulars later.

RECEIVED this week a job lot of ladies fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

FENELON FALLS.

DIPHTHERIA.—The *Gazette* says that a daughter of Mr. John St. Lawrence died on Monday night of diphtheria, being the second of his children carried away by this disease. On Thursday Russell Jewell, aged 13, and on Friday morning Ida Jewell, aged 17, children of Mrs. Jewell, died of diphtheria.

FINE SCOTCH GINGHAMS, regular price 25c., reduced to 12½c. per yard at FAIR'S.

A Cargo of Beet Root Sugar.

HALIFAX, N. S., July 31.—The steamer Khrweider sailed from Montreal this morning. She landed 1,700 bags of beet root sugar here.

Raid on Hotel-Keepers.

MERIDEN, Conn., July 31.—Considerable excitement has prevailed here over a wholesale raid on saloon keepers, which has resulted in nearly fifty being arrested for violating the Sunday laws.

A Wonderful Old Women.

BERWICK, N.S., July 31.—Mrs. James Taylor will celebrate her one hundred and ninth birthday next month. She reads without spectacles, enjoys remarkable health, and her hair is only slightly tingled with gray.

The Morrison Surplus Bill

NEW YORK, July 31.—The *Times'* Washington special says: "What little prospect the Morrison surplus resolution ever had of becoming law has been ruined by the Senate. It is now hard to find a person in Washington who believes the President will have a chance to veto the measure this year."

An Accomplice to be Arrested.

PHILADELPHIA, July 31.—The managers of the American Baptist Publication Society have decided to have a warrant issued for the arrest of Edward Feldsberg, a young man who was assistant book-keeper and an accomplice of Cashier Pearson in his $30,000 embezzlement.

Belshazzer's Warning.

"Tried in the balance and found wanting," is the general verdict rendered against most of the so-called cures for lung troubles. Such a decision has never been given against Dr. R. V. Pierce's "Golden Medical Discovery." On the contrary, it is conceded by thousands who have tried it, to be the only remedy for consumption (scrofula of the lungs) and scrofulous diseases generally. It will not cure when both lungs are most gone, but if taken when the disease is in the first stages it never fails It is also specific for such scrofulous affections as fever-sores, white swellings, hipjoint disease, and great eating ulcers, and for blood taints generally, from whatever cause arising. By druggists.

THE DISCOVERY of the instantaneous proce s of taking photographs has been quickly followed in the medical world by a perfect and instantaneous remedy for all acute aches and pains as Neuralgia, Toothache, Rheumatism, etc. This valuable remedy is called Fluid Lightning, and is sold at 25 cents a bottle by John McKee, Druggist.

A Sensation.

An unparalleled sensation is being created all over Ontario by the wonderful and unequalled manner in which Neuralgia, Toothache, Rheumatism, Backache, Headache, is removed by but one application of Fluid Lightning. No offensive, digusting drugs need be taken for days. It is an instant cure. Try a 25c, bottle from John McKee, Druggist.

Some Miraculous Results

Have followed the use of Dr. Dorenwend's "Hair Magic." It has saved many from becoming bald, and has produced good heads of hair on bald heads where the roots are not all gone. It has relieved hundreds of per sons from dandruff, and restored crops of gray and faded hair to their original color. A. Dorenwend, sole manufacturer. For sale everywhere. J. D. THE FOUR WORTHIES.

AN OPERETTA BY J. A. F.

Dramatis Personæ.

Mr. Micawber .....Mr. E. Blake
The Good Old Rebel.....Mr. W. E. Laurier
The Gas Man.....Mr. J. D. Edgar
The Organ Grinder .....Deacon Cameron

Scene: A bosky dell. As the curtain rises the Four Worthies are discovered. Mr. Micawber sits despondently, the Gas Man droops; the Organ Grinder is arranging new tunes on his machine; and the Good Old Rebel is loading his little musket.

Micawber:

For years I've lurked amongst these chilling shades,
And waddered wearily amongst the glades
Of Opposition. Oh! my soul is sad;
Come, sing to me my rebel, make me glad.

The Good Old Rebel (sings):

I am a Good Old Rebel, yes, that's just what I am,
For this Confederation I do not care a—cent;
I wish I'd fought against it, I also wish they'd won;
They need not ask for pardon for anything they've done.

I hate the Loyal Canadians and everything they do,
I hate their British connection, I hate the Orange too,
I hate sir John Macdonald, he reeks with Riel's gore;
The lying, thieving Tories, I hate them more and more.

Two hundred Loyal Canadians lie stiff in prairie dust,
We killed a crowd of soldiers before they conquered us;
They died of rheumatism, of rebel shell and shot,
But I wish it was a million instead of what we got.

The Gas Man: Hoo—ray! Bully!

Mibawber: 'Tis excellent!

My soul serene and intellect so vast,
Sigh for thy song—it was too sweet to last;
My greedy ears once more those strains would sup,
So sing agaip, till something else turns up.

The Good Old Rebel (sings):

I can't take up my musket to fight the Orange more,
But I'm not going to love them, no, that's certain sure;
I see no cause for blushing at what I was or am,
And I hate the Loyal Canadians, and don't, care a—cent

The Organ Grinder (slapping the Rebel on the back): Losh, mon! But you's a grand sang—I may even gae sae far as tae say a Grit sang. I'll learn tae play it on the pipes first, and then I'll set it tae the organ. Hech! but I'll tickle the lugs of a' the Cawtholics; and oor freen Tim Anglin 'll be that delighted an' th' Archbishop, they'll no ken what ails them.

Micawber: That song, my friends, will live in the history of this country. It is grand and lofty, like my own serene soul. It is the something, the turn-up of which I have been awaiting.

The Gas Man: I wrote it, I am the poet. Hoo—ray! Bully! How do you like my gas metre? But have you nothing in the way of a song? Surely the lofty soul of Micawber is one infinite poem.

[The Rebel drops his musket with a bang, and the Deacon changes the tune of his organ to "The Mad house in the Air."]

Micawber: I am weary with my march to Durham; but as we are almost there, I will raise your spirits with a little song of my own composition.

(He warbles to the accompaniment of the organ.)

Since I was but a little boy, unto this very hour,
It has been my ambition to attain to place and power;
And day by day, and year by year, in face of all behoiders,
I've climbed o'er many an obstacle on other people's shoulders.

I sacrificed Mackenzie thus and Gordon Brown threw over,
I rather think Sir Dickie's time is not all spent in clover;
There's not a thing I wouldn't do to gain my pet ambition;
I'd spill a sea of loyal blood, and traffic in sedition.

I'd cut the throats of all my friends, I want them but to use them,
And when they have each served their turn,
I'm but too glad to lose them;
Their sufferings are nought to me, my heart's entirely callous,
So now I'll try to climb to power and place o'er Riel's gallows.

(At the conclusion of this ditty, Micawber waits for the applause of the three Worthies, and is surprised he doesn't get any.)

The Gas Man (aside to the Organ Grinder): He intends to throw the machine over. If I thought that I'd—

The Organ Grinder: Dinna fash yersel, laddie, dinna fash. Remember the Young Leeberals. He canna kick against the pricks, and by the time he's done wi' the machine, the machine will be done wi' him. [To Micawber.] Wha's yon bodies coming up the road?

Micawber: By my stainless honor, it is a deputation of my constituents to bid me welcome. Go, good Gas Man, and see if it be so? [Exit the Gas Man.]

The Good Old Rebel: My little musket is loaded.

Micawber: There will be no need of that, good villain.

[Re-enter the Gas Man hurriedly]. What now, varlet?

The Gas Man: We're dished. Our entertainment has been heard by some of the horny-handed. The people advancing are fifteen fathers who are anxious to hang us to the nearest tree. Fortunately they knew me not, or I had not survived to tell the tale. Hasten! Away! fifteen fathers!

The Organ Grinder: Fifteen deevils.

Micawber: Who are these men?

The Gas Man (retreating): The fathers of fifteen men of the Midland Battalion, killed and wounded at Batoche. Fly!

The Rebel: I am brave, and my musket is loaded, and I would stay with you; but, alas! the climate of Durham is bad for me. Farewell, Micawber, I will see you in the next county. [Exeunt the Gas Man and the Rebel.]

The Organ Grinder: Ye'll no stop here, Mister Micawber, oh, ye'll no stop here. Think of your fawmilee—think of the boys at No. 9, and dinna do it. Come, awa, mon, and cheat the gallows!

Micawber: Can I not explain it away?

The Organ Grinder: Are ye daft, mon? Explain it awa? Why they *heerd* ye sayin' that Riel was a martyr. Ye'll hang surely, if they catch ye.

Micawber: But something may turn up.

The Organ Grinder: Oh, aye, your taes will turn up tae the daisies if they catch ye.

Micawber (going):

I've seen my fondest hopes decay
And that is what has made me sour—
My chances always slip away.

The Organ Grinder: He's mad! Weel, I'm away. [Exit.]

Micawber (aside): I'll make a speech if I swing for it. [Noise heard of an approaching mob.]

Quebec is pleased, Ontario's mad,
And mad because I say I feel
(To please Quebec) an interest in
The stringing up of Louis Riel.

What though their sons have fought and bled
In putting that rebellion down?
Can they not see I'm votes ahead
Through sneering at the bauble crown.

[Shouts of "Down with the martyr maker," "Send him to join Riel," etc.]

I hate the people, coward fools,
They cannot see the game I flip;
And now I'll fall between two stools—

[Cries of "Hang him" growing nearer.]

Good gracious me, it's time to skip.

[Exit Micawber.]—*The Arrow.*

A BIG STRIKE BEGUN.

Building Operations in Detroit, at a Standstill.

DETROIT, Aug. 2.—The difference between the Bricklayer's Union and boss masons has finally culminated in open war. The bosses, at a meeting on Saturday evening, unanimously rejected the terms subjected by the union, and declared a lock-out to go into effect at once. The men employed on all contracts which the members of the Builder's Exchange have under way paid in full on Saturday, and told them their services were no longer required. The lock-out throws thousands of men out of work, for not only are the bricklayers affected, but also helpers and laborers, carpenters, stone masons, pencilers, plasters, and other skilled workmen, who cannot get on with their job where the brick work is in an unfinished state. The cause of the trouble commenced some weeks ago, when two or three men were discharged by Knapp & Avery, a prominent firm of stone cutters. The Stone Cutters' Union met, fined Knapp & Avery $150, and demanded the return of the men, claiming they were discharged because they acted on the committee. The demand was refused and the men in the shop struck. All the stone cutting bosses in the city then ordered a general lockout until the fine was remitted and the men at Knapp & Avery's returned to work. After two weeks the fine was remitted and an apology to the Union was demanded. This was refused and the lockout was declared at an end. The stonecutters all went to work except at Knapp & Avery's yard. The latter firm filled its yard with non-union men. This act aroused the ire of the Bricklayers' Union, and they formed an alliance with the Stone Cutters' Union and refused to lay brick on Knapp & Avery's stone. Then the Masons and Contractors' Union espoused the cause of Knapp & Avery and for several weeks there has been a division between the bosses and bricklayers. Building came to a standstill on jobs where Knapp & Avery's stone was used. All negotiations for a settlement failed and, on Saturday, when the workmen quit for the day they were notified of the lock out.

Belshazzer's Warning.

"Tried in the balance and found wanting," is the general verdict rendered against most of the so-called cures for lung troubles, such a decision has never been given against Dr. R. V. Pierce's "Golden Medical Discovery," on the contrary, it is conceded by thousands who have tried it, to be the only remedy for consumption (scrofula of the lungs) and scrofulous diseases generally. It will not cure when both lungs are most gone, but if taken when the disease is in the first stages it never fails. It is also specific for such scrofulous affections as fever-sores, white swellings, hip-joint disease, and great eating ulcers, and for blood taints generally, from whatever cause arising. THE LABRADOR LIES.

The Starvation Stories Denied on Good Authority.

ST. JOHN'S, Nfld., July 31.—A telegram from Ottawa, in your issue on the 24th inst., representing great destitution in Newfoundland, is utterly false. Give the same an unqualified contradiction. Though hitherto the fishery has been unsuccessful, Newfoundland has no destitution requiring extraneous assistance. There is no such person as Hon. Mr. Widdell. The whole statement is a disgraceful *canard*, circulated widely to torment this Colony.

ALEX. J. W. MCNEILY,
Acting Attorney General.

OTTAWA, Aug. 2.—Last evening your correspondent chanced upon a gentleman from the Maritime Provinces, who had spent several years in the Gulf and Newfoundland fisheries. During that time he had also made two or three trips to the Labrador coast, as master of a trading schooner. Each of these voyages, he said, usually lasted over two months, and gave him pretty good opportunities of learning the ways of the inhabitants with whom he was thus brought into intimate intercourse. "From my knowledge of the native and white inhabitants of that coast," said he, "I was quite ready to believe the first reports of destitution amongst them, which appeared in the papers more than a week ago. But of the latter stories of cannibalism and other attendant savagery of starvation, I only say that they are fearfully and wonderfully exaggerated. Why, in the whole coast country, from Belle Isle to the Hudson Straits, I'm satisfied not 200 white inhabitants winter there. And the stories of thousands of Polar bears: to anyone who knows anything of the white bear and his growing scarcety south of Hudson Strait, the idea is absurd. Anyway, a thousand bears, even if they could be got together, would be more apt to devour each other than go prowling about in armies to ransack Eskimo grave yards. Why, if bears were half that plenty the natives would fare well. These dumpy little fellows are not armed now-a-days with whalebone pointed spears and such other antiquated traps as old whalers are wont to yarn about. They find powder and ball a good deal more convenient, and a percussion gun a much more effective weapon against the bear and hood seal than their harpoons ever were. A very important item of the stock on our coasting trips used to be converted muskets and sealing guns, pretty formidable weapons in the hands of a Eskimos, every mother's son of whom is a born hunter. Ho! depend upon it, the bear story is as big a yarn as ever a greaser spun to a credulous landsman. Besides, too, much reliance [illegible] of the unusual severity of the weather. I've never been quite to Hobedale, but around Hamilton Bay, not far south of that, the days are pretty warm; about this time the great snowstorms are said to have taken place, that is along the first week of July. As to "settlements in the interior" there are none that I ever heard of in that part of the country and while a late Summer very often entails suffering and want up on the natives, the arrival of the first vessel with supplies brings relief. These get there mostly in June, and if the coast remained so completely blocked with ice so late as the beginning of July, the Newfoundland people would have been the first to hear of it, and relief would have been sent by the Government. Most of the fishermen on the Labrador coast are Newfoundlanders from the north and western shores, and these usually leave for the scene of their summer's work about the first of June. Distress is not uncommon on the coast of Labrador, but the people of the adjoining colony have ever been quick to hear the cry of the hungry on those inhospitable shores, and to nourish the needy. Depend upon it the tale of "Hergenatis yer" is a myth; and in a week or two at most will be contradicted by the Newfoundland authorities when they get their first authentic reports from the north, which won't be long now. It't a pity such exaggerations get abroad, rivalling in ghastliness of detail the worst authenticated honors of Arctic experience. Heaven knows the Eskimo's lot often makes him a grave, taciturn being enough without such mockeries being told about him as much tend to close the pitying ears of civilization against the store of his real distress."—*Montreal Star.*

C. P. R. EARNINGS.

Great Increase in Traffic Earnings Over Last Year.

The earnings of the C.P.R. for the month of June show a most satisfactory state of things, the gross receipts reaching $895,923.01; the working expenses $519,473.42, leaving a net profit of $283,490.95 in 1885 or a gain of $92,958. In the first six months of the current year, January to June, the gross earnings have been $4,160,342.98, operating expenses $2,866,727.23, and the net profits $1,293,615.05, as against net profits of $1,114,407,96 in the first half of 1885, a gain of $179,207,09. The gross earnings for June of this year include nothing for carriage of construction material, while last year $70,548 was included. The month of July it may be seen has been noticed did not in some weeks show so large an increase in gross receipts over last year as some preceding months, the reason being that in July 1885 the troops were transported back from the North-West, and a large item of revenue thus created. The fixed charges of the company are, in round numbers, of $3,200,000 annually, and on the basis of the business of the half-year the net earnings of 1886 will much more than suffice to cover this obligation.—*Montreal Star.*

The Piggott murder sensation has been revived by the finding on the first concession of Malahide a human skeleton. Mr. James E. Chute plowed up the body in one of his fields. It is alleged, however, that the remains have been buried for a quarter of a century or more, and, therefore, can hardly be identified as those of Marshall Piggott.

A dude was walking up and down the railway station at Hamilton impudently gazing into the faces of the ladies seated near the car windows. A young lady demolished him by putting her head out of the window and calling to him as he was going by:—"Say, sonny, are you selling apples or peanuts?" The remains will be put to rest in an egg shell.

MUNICH, Aug. 2.—Prince Bismarck yesterday visited the Prince Regent Luitpold and the other Princes and members of the Council, who returned the visit. All were present later at a banquet given by Prince Luitpold.

VILLAGE DESTROYED BY FIRE.

PARIS, Aug. 2.—The village of Villard, in Upper Savoy, has been destroyed by fire, rendering the inhabitants without shelter.

FRENCH ELECTIONS.

PARIS, Aug. 1.—To-day began what promises to be an exciting series of elections throughout France. The departments elect 1,500 members of the Councils General and eighty-six arrondissements elect 800 Councillors, d'arrondissements. The contest in all the districts is ardent between the Monarchists and the Republicans. The Monarchists were never so active and apparently never so sanguine as now. The manifesto of the Comte de Paris and the Duc d'Aumale's letter, together with other Royalist brochures, have been distributed by millions throughout the country. Monarchist candidates will contest every district, even where there is no likelihood of success. The Republican press declares that to-morrow is to be the first day of a decisive struggle between a republic and a monarchy.

A ROUSING SECTIONAL PREJUDICE.

The chief end and aim of the "Conservative Party" is to put Mr. Mercier and his friends in office, and the means to be used are the destruction of all national sentiment among the people of this country and the development of sectional prejudice. Pretending friendship for, and sympathy with the half-breeds of the North-West, they are using arguments among the electors of this Province that would be scouted in the North-West Territories.—*Montreal Star (Indep.)*

THE PARNELLITE PARTY.

DUBLIN, August 2.—The Parnellite party at their meeting on Wednesday will appoint delegates to the convention at Chicago of the National League of America. They will at the same time arrange to secure seats in the House of Commons, for Messrs. Healey and O'Brien, who were defeated in the recent elections.

AGAINST PAYMENT OF RENTS.

DUBLIN, Aug. 2.—The National League has ordered its branches in County Kerry to prepare for a general strike against the payment of rents.

MR. GLADSTONE WAITING.

LONDON, Aug. 2.—Mr. Gladstone, who is preparing for a yachting trip, has resolved to remain here a while longer to see which way the political cat will jump, and will probably take up his residence at the mansion of Lady Frederick Cavendish, 21 Carlton House terrace, after his return from his annual cruise.

BELFAST RIOTS.

More Shots Fired—The Streets Cleared by Bayonet Points.

BELFAST, Aug. 2.—The court, after sitting seven hours, disposed of 107 charges growing out of the recent riots, sentencing the accused to various terms of imprisonment and to pay various fines.

There was more rioting here this evening. Crowds assembled on York-street and waited the return of the Catholic excursionists, upon whom they made a fierce attack. The sufferers were chiefly women. A detachment of police charged the attacking party, who stoned and wrecked a number of houses. The mob rapidly increased and drove back the police. The latter then fired upon the mob, killing a young man and wounding seven more. A detachment of soldiers charged with bayonets and cleared the streets. The police suffered severely. Some shots were fired from the mob but without fatal result.

BELFAST, Aug 2.—Mr. Kine, Grand Master of Orangemen for Belfast, has issued an address in which he congratulates Orangemen upon the fact that they were not mixed up in the recent riots, urges them to make united efforts to maintain peace, and promises an inquiry by Royal Commission to prove that Orangemen were not to blame for the rioting.

THE EXTRADITION TREATY.

The Senate Not Expected to Take Any Action Before Adjournment.

NEW YORK, August 2.—The *World's* Washington despatch says: "The Senate will not take any action on the dynamite treaty before adjournment. It is not popular. It has not attracted much attention, and the majority of the Senators on both sides appear to be indifferent to it. Many of them have not taken the trouble to get a copy of it to read. It is believed the administration is not pleased with the way in which the treaty has been received, a high official said yesterday, and he thought the President also regretted that the treaty had been sent to the Senate. It had been the subject of misconstruction. He thought the public regarded it as an instrument to secure the punishment of people for purely political offences. The President, during the last campaign, did not receive much support from the Irish-American element, he thought, and this treaty would have a tendency to further alienate them from him and his administration."

TUESDAY, AUGUST 3, 1886.

RIEL & CO.

COMMERCIAL firms sometimes retain the names of a leading and influential partner even after his death in the hope of profiting by the prestige thus given to the concern. This is the course adopted by the Reform party or rather by those Reformers who still follow the lead of Mr. Blake. The late lamented Louis Riel, the Reform martyr, but Canadian rebel and murderer, is still retained as the head of the Company, the name with which to attract support.

The other members of the company are content to assume this secondary position, to continue to adopt the policy of their deceased partner. At Ottawa during the last session of the Canadian House of Commons, Messrs. Blake and Laurier, the joint Reform leaders, with the war cry of "Riel and Revenge" voted to turn the Macdonald Administration out of office for permitting the execution of the Reform martyr. In the recent election at Chambly they and their journals made this their only cry and called upon all friends of the race and creed of the executed criminal to vote against the Conservative candidate in order to punish the hangmen. This is the official policy of the Reform party, though happily by no means of all Reformers, and Sir Richard Cartwright because he refused with others to fall into line on such a quarrel is for the time receiving the cold shoulder on making advances to the Reform organizers in any constituency.

But besides the Dominion firm of Riel & Co., there are branches in the Provinces. In Quebec Mr. Mercier, the local Reform leader, with most of his colleagues, and his new allies of the "National Party," is preparing for the provincial campaign wholly upon this line. Some honest men formerly of his party have left him in disgust, but it seems not improbable that the Quebec branch of the firm of Riel & Co. will have some success in gaining sectional support on the platform of impunity for French Roman Catholic criminals, or revenge for their punishment. As however the *Minerve* points out, if the minority in Canada unites on the ground of race and creed, it must expect the majority to concentrate its forces against them.

Strange as it may seem Riel & Co. have also a Provincial branch in Ontario. Mr. Mowat and his colleagues are subservient junior members of the subsidiary firm and follow the policy dictated by the heads of the organization. Mr. Mowat has for his candidate in Essex and for his paid subordinate in the public service, one Pacaud, who is thus rewarded by the Premier of Ontario for lauding Riel as a martyr and vituperating the civil, military and judicial authorities of Canada for suppressing and punishing rebellion and murder. Mr. Fraser in his admiration for the murderous rebel, even went the length of suggesting a statue in his honour. And their colleagues and chief supporters followed this disgraceful lead.

Riel & Co. with such an organization may have some local and partial successes, but their blood-stained, traitorous policy can only result in their ruin. The people of Canada are too loyal, too honest and too law abiding to rank themselves under the flag of a murderous and venal rebel in order to dismiss the authorities who maintained law, peace and order, and supplant them with the friends and allies of rebels and murderers. Patriotic Canadians feel that they must resist the demands of Quebec Frenchmen for vengence for the execution of a criminal even if he is of their race in part and of their creed when on the scaffold.

THERE is little wonder that Nova Scotia desires to secede, there are a thousand good, sound reasons for it.—*Port Hope Guide.*

We have no desire to be unreasonable, so we will not ask what those thousand good reasons are; but will the *Guide* kindly state a couple of dozen of them?

QUEBEC CORRUPTION.

THE Reform members in the Quebec Legislature and the journals in sympathy with them some time ago stoutly opposed Mr. Mercier's lead suddenly withdrew Mr. Senecal's Tunnel Bill, and then under their opposition. Mr. Chapleau has lately stated in a public speech that Mr. Senecal had foretold this result without indicating the means by which he would secure their support, now shown to be purchased through Mr. Prefontaine, the new parliamentary supporter at Chambly of the Riel-Blake combination. Some Reform journals are arguing from these facts that Mr. Chapleau, then one of the Quebec Administration, was cognizant of the corruption of Mr. Mercier and his friends and was therefore the guilty party. This is utterly illogical on the face of it. It was not till the recent revelations as to Mr. Prefontaine that Mr. Chapleau had information that the Quebec Reformers had succeeded in blackmailing Mr. Senecal by blocking a public improvement, until they were provided with money, part of which they confess was added to the party election fund, while part was devoted to purchasing Reform journals, the particular ones being unknown as Mr. Prefontaine declines to make public the names of the recipients.

Something leads the Brockville *Recorder* to say:—

"As for our truthfulness we can only say that it has never been said of us that we made an affidavit declared by the judge to be an attempt to impose upon the court."

That may be true; we will not dispute it. But the *Recorder* tried to impose on the public by stating that the Conservative Government had added to the public debt four times the amount that was added by Mr. Mackenzie. That was untrue, and the *Recorder* has not had the honesty to make a correction.

THE Brockville *Recorder* commends some remarks of the Cornwall *Freeholder* on the McLachlin customs affair to the REVIEW. The point of the remarks are that $4,060 was too large a retaining fee for that firm to give a lawyer. We are not aware that such a sum was given by them as a retaining fee, and, if they did pay a lawyer that amount, it might be thought their own business. The *Recorder* may have observed that the *Trade Bulletin* now says that it does not believe that any of the fee paid was given to Cabinet Ministers, as it was led to state at first.

ANOTHER BIG DOWNFALL IN CLOTHING.

REVIEWS.

HARPER'S MONTHLY.—The August number of Harper has for a frontispiece a portrait of Joseph Jefferson as "Bob Acres," and W Winter sketches the career of the celebrated comedian. E. Kirke gives a full account of the growth and present appearance of Detroit, "The City of the Strait," while a number of beautiful illustrations make even a stranger feel acquainted with it. F. W. Burbidge, of the Botanical Gardens, Trinity College, Dublin, describes in a fascinating manner the lovely and curious orchidaceous plants, which appear to bloom on the pages. C. A. Dougherty has a timely description of "The Transatlantic Captains," whose acquaintance many readers will be making otherwise than by their portraits in Harper's. Other summer resorts are described by C. D. Warner, and both his characters and his readers find "Their Pilgrimage" brought to a satisfactory climax. In this instalment of "The Home Acre," E. P. Roe discourses pleasantly and practically on currants. Dr. Ely in his present "Social Study" deals with the "Economic Evils in American Railway Methods" in a manner that makes his paper well worthy of consideration in Canada. Dr. Coan discourses pleasantly and learnedly on "Some French Mineral Springs." Blackmore's novel, "Springhaven," includes a vivid account of a naval engagement. Some tales and poems, well up to Harper's standard, and the editorial miscellanies, contribute to make up an admirable number.

BOBCAYGEON.

LIGHTNING.—On Monday morning about nine o'clock, clouds hug heavy over the village, and there was a sharp shower of rain. There was no lightning or thundering, but suddenly a bolt shot through the air, which was immediately followed with a crack of thunder that made every living thing in the neighborhood involuntarily start. Young master Covert ran down street to his father's shop to inform him that the house had been struck. On going to the house, which is the residence belonging to Mr. Howson, it was found that the bolt had struck the ridge of the roof, about the middle of the building, making a hole, and knocking out a rafter. It shot down the roof to the eave where the ridge of the kitchen joins, and there seperated, one shaft following the inside of the wall and entering the corner of the parlor, knocked over a what-not, and set fire to some wool work, and then went straight through the wall, making a hole as if a bullet had gone through. The other shaft tore along the kitchen roof, down to the metal trough along the front of the verandah, melting the soldering, and apparently passed to the ground through every post of the verandah. One post had a quarter taken out clean, one was scattered around in splinters, and the others, though they looked all right, yet on examination they were found to have been split into matchwood. Mrs. Covert was standing at the time under the verandah, within three feet of the post that was scattered, and was more than surprised to see the post fly to pieces. She felt no effect or shock, though the lightning tore the shingles over her head and passed beside her. Miss Covert, who was in the kitchen at the opposite side of the room, was stunned for several minutes, but recovered uninjured, and several children about the house were fortunately unaffected.—*Independent.*

Fluid Lightning.

All sufferers from that terrible torment, Neuralgia, can be made happy in one moment by a single application of Fluid Lightning briskly rubbed on painful parts, and without using any disgusting medicine day after day without any apparent result. Fluid Lightning also cures as effectually Toothache, Lumbago, Rheumatism, Headache, and is only 25 cents per bottle at John McKee's Drug Store.

OPINIONS OF THE PRESS

NOT BOTH ALIVE AND DEAD

It is about time for the better class of Liberal organs to repudiate the *Globe's* disreputable tactics on the Riel question. If the issue is to live in Quebec it cannot be treated as dead in Ontario. We demand fair play for both sides.—*Toronto World (Indep.)*

THE CHIEF PROP.

Whilst Mr. Chapleau was addressing a meeting in Chambly a person in the crowd shouted out "Riel must be revenged," "He has been revenged," replied Mr. Chapleau, "for is he not to-day the chief prop of the party which offered a reward for his head?" —*Toronto Mail.*

AN INSULT TO SOUTH BRANT.

Hon. A. S. Hardy never made a more huge mistake in his life than when he sought to raise the "race and revenge" cry in South Brant at the Indian Picnic last week. If the Provincial Secretary imagines for one moment that the intelligent electorate of this Riding will subscribe to such sentiments as he uttered there, he promises to find himself very much mistaken. Poundmaker and his life crushed out of him by a cruel tyranny, asserted he. The halfbreeds have been pardoned, but the Indians were hanged without mercy by Sir John Macdonald, the "great hangman," eight of them strung up one morning before breakfast like pigeons on a tree. By these and many other similiar sentiments the great scissors manipulator sought to inflame the worst passions of this audience. We repeat that the hon. gentlemen never fell into a more serious error than in making such sentiments as these, an electoral cry for South Brant. The intelligence of the whole Riding will repudiate such tactics and the Provincial Secretary could not have offered a deeper insult to the electorate than to imagine that for one moment he could address such words to them with approval. —*Brantford Courier.*

A Sanguinary Affray.

PLYMOUTH, Ind., July 31.—At the Lake Maxinkunkee, 16 miles south of this place, a bloody fight took place this afternoon. Two excursion trains, one from Mexico and one from South Bend, were there. The railroad crews as well as the Mexico band members became involved in a quarrel, and it was finally agreed between the two parties that the principal opponents should fight it out. One of the brakesmen named McGuire rather worsted Leslie, the leader of the band, who cried, "Enough!" When he was released he drew a revolver, but before he could use it McGuire knocked him down. In falling Leslie's neck struck a rail and was broken. A general row then took place. McGuire was fatally injured by being struck on the head with a club in the hands of Conductor Taylor, and several others whose names cannot be learned were badly injured. The sheriff and coroner left for the lake this evening. Taylor gave himself up.

Advice to Mothers.

Mrs. Winislow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

A European Opinion.

La Correspondance Polit, of Vienna, speaks of the completion of the Canadian Pacific Railway and of its importance to England and Canada from a military point and commercial point of view. "Since the road was completed," says *La Correspondance*, "England has not the same interests in the occupation of Egypt. The fact is that the completion of the Canadian Pacific Railway, which connects the Atlantic and Pacific oceans, has, from the English point of view, taken a portion of its importance from the Suez Canal route, which is no longer England's only route to India: troops sent by sea from British ports to Halifax and then by rail to Esquimault can, in case of need, reach India more quickly than by the Suez Canal; but without passing through any foreign territory."

THE DAILY EVENING REVIEW is delivered to subscribers at 10 cents a week.

For the past quarter of a century West's Cough Syrup has given relief to thousands, and no medicine compound can show such a vast number of unsolicited testimonials. Ask your neighbor as to its merits. It is an unfailing cure for coughs, colds, hoarseness, asthma, bronchitis, consumption in its early stages, and all throat and lung diseases. Price 25c. 50c. and $1.00 per bottle. Sold by J. D. Tully.

Some Miraculous Results

Have followed the use of Dr. Dorenwend's "Hair Magic." It has saved many from becoming bald, and has produced good heads of hair on bald heads where the roots are not all gone. It has relieved hundreds of per sons from dandruff, and restored crops of gray and faded hair to their original color. A. Dorenwend, sole manufacturer. For sale everywhere. J. D. AUSTRALIAN WOODS.

A correspondent of the Montreal *Herald* writing from the Colonial Exhibition says:—

Queensland shows 427 specimens of timbers, of every size, quality and kind. There is the Bunya-Bunya (or "Monkey Pussle"), the pine cone, which produces a delicious nut, and which the natives will travel miles to procure. Here too are the "biggest" logs in the entire exhibition, from the district of Moreton. One of these measures in girth 20 feet 5 inches and another 18 feet 8 inches, and each weighing five tons. Their grain is exceedingly pretty and the wood will bear the highest polish. These are named the Karri tree and some of them measure over 400 feet in height, and in some cases the stems are 300 feet high, measured from the ground to the first branch, and the circumference around the base measured 60 feet. Canada is proud of her birches, her oaks, maples and pines. But for greatness and grandeur she is excelled by this little colony in the Pacific.

The entrance gateway to the Western Australia Court is made of Jane wood, shingled with the oak or Ca-narina. To the right of this porch may be seen a grove of Jarrah trees, and to the left the Karri woods. Here you stand in the presence of three giants of the forest, 300 to 400 feet in height, rivalled only by the Eucalyptus and the monsters of the grove of Mariposa. Jarrah is a very heavy wood, weighing one and a half ton to the 50 cubic feet, and is impervious to the sea worm and the white ant. Amongst the splendid specimens of this timber to be found in this court are a slab which had lain on the Bunbury beach for the last 36 years, washed by the waves, heated by the sun, and showered by the sand, and a huge block which had been absolutely under water for twenty-two years. There is a trophy, too, of massive beams, 21 feet high of Jarrah wood, surmounted by specimens of "Tuart" wood nearly as hard as iron. On this trophy there is a star with numerous rays composed of various colored woods marvellous to behold, and adorned with shields in white and red—woo-ma-gahs, dowarks boomerangs, kyleys—the latter arranged as river rays. On either side of the arch are two large blocks of yellow sandal wood, a marked contrast to the bright red of the Jarrah tree. Here, also, is a staffed-fern grass tree, 20 feet high, called a "Black-boy," and a lawyer's hat made of curious paper bark impervious to rain, as well as other grass trees, with the Kingees in flower, and a fine display of woods such as gum, morrel, tuart and native pear, well adapted for coach building and furniture. Conspicuous is a splendid wood vase, elegantly widows made of a variety of native woods, and containing about three hundred beautiful specimens of the fauna of the colony and a most interesting exhibit of its birds and mammals.

MATTAWA.

Mattawa is the Indian name for the "meeting of the waters" and nestling in a vale, or glen at the junction of the Mattawa and Ottawa rivers is the pretty village of Mattawa. The Hudson's Bay Company has had a post here for upwards of sixty years and Mr. Colin Rankin, one of its most experienced servants, is now in charge. Mr. Gorman of the firm of Messrs. Timmins & Gorman, one of the largest establishments, and Mr. A. M. Earl are, after the Hudson's Bay Company, the oldest settlers in Mattawa. The last named gentleman informs me that in 1869 there were only two white families in the village. To day I counted seven first-class stores, besides many others in smaller way, and all doing well. There is a population of perhaps 900. Mr. Earl, who seems to know the territory thoroughly, tells me that the country for hundreds of miles is practically surrounded by beautiful water systems. Twelve miles away is the Amable du port, then there is the Montreal river, and then again the Beesfrind, not yet fully explored, which is in fact a series of small lakes running for many miles north and northeast and draining a vast area of country. All these waters eventually find their way to the Ottawa. According to the same authority there is a large tract of good farming land yielding thirty bushels of fall wheat to the acre and other crops in proportion. A road is being constructed to these lands. Then the growth of timber is immense, and yields large supplies. White oak, four feet through, and cherry twenty inches diameter are common. There is timber enough in this district equal to the demands of many years to come. Silver mines have also been discovered; asbestos too, besides mica and other valuable minerals. Except in one instance, that of a silver mine, nothing has yet been done towards developing their resources.—*Monetary Times.*

That Monster Raft.

HALIFAX, N. S., July 31.—The launch of the monster timber raft at Two Rivers, Cumberland, advertised for to-day, attracted the largest assemblage of people ever seen in that part of the country. At one o'clock all available vantage ground from which a view could be obtained was fully occupied. The shores were quickly severed by axemen and amidst almost breathless anxiety the last one was cut away, but the raft did not show any signs of moving. The foreman gloomily shook his head and declared the first attempt a failure. Bitter disappointment was depicted on every face and the launch declared by many an impossibility. The superintendent of the launching, Isaac Oliver, of St. John, did not lose confidence, however, and at once set to work to get things in readiness for another attempt. At midnight it is generally believed that this will be successful. The cause of the failure is variously conjectured. The most plausible reason advanced is that grease was put on the launchways too early and evaporated. This great raft has been under construction since January 1st. It is 420 feet long, 55 wide and 50 feet deep, weight 8 000 tons, and contains two and a half million superficial feet of piling and other timber. It is cigar-shaped, was designed by H. R. Robertson, and built under contract by B. B. Barnhill, of Two Rivers for Wilson Godfrey, of New York. The timber is estimated to be worth $30,000.

Her Majesty the Queen has presented the 3rd Battalion of the Royal Welsh Fusiliers with a fine white goat from the famous herd in Windsor Great Park. This regiment is always preceded in its marches by a goat.

THE CHOLERA.—Possibly the cholera may not reach our locality this season. Nevertheless, we should take every precaution against it. Dr. Fowler's Extract of Wild Strawberry is a sure cure for Cholera Morbus, Colic, Cramp, Diarrhœa and Dysentery.

On Saturday last a lad named Samuel Jewell, about fifteen years of age, engaged in drawing lumber at Durham, fell from the load, and a wheel of the waggon passing over his neck, nearly severed the head from the body.

KNOWN BY THESE SIGNS.—Dyspepsia may be known by Heartburn, Sour eructions of food, Wind Belching, Weight at the Stomach Variable appetite, Costive Bowels, etc. Burdock Blood Bitters will positively cure Dyspepsia, although in its worst chronic form.

IS IT ACTING RIGHT.—If you are troubled with inactive Liver, your complexion will be sallow, frequent sick headache, aching shoulders, dizziness, weariness, irregular bowels, and many other serious complaints. Burdock Blood Bitters regulate the Liver and all the secretions to a healthy action.

At Whitby 17 candidates out of 88 were successful at the High School entrance examinations, at Oshawa 18 out of 66 passed, at Bowmanville 18, at Port Hope 21, at Lindsay 14, at Port Perry 7 out of 52, at Campbellford 17 out of 77, at Brighton 13 out of 47, at Colborne 5 out of 43, and at Cobourg 24 out of 54.

KEEP YOUR HOUSE GUARDED.—Keep your house guarded against sudden attacks of Colic, Cramps, Diarrhœa, Dysentery and Cholera Infantum. They are liable to come when least expected. The safest, best and most reliable remedy is Dr. Fowler's Extract of Wild Strawberry.

The most deadly foe to all malarial diseases is Ayer's Ague Cure, a combination of vegetable ingredients, of which the most valuable is used in its composition. This remedy is an absolute specific, and succeeds when other remedies fail. Warranted.

A daughter of Mr. Jonathan Henderson, of Bairie, was badly bitten on the hand by a large dog, which came into the yard and attacked a dog belonging to Mr. Henderson. The girl was bitten while trying to separate them. The wound was promptly attended to by a physician, and it is thought no serious results will follow.

The curative power of Ayer's Sarsaparilla is too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of its marvelous cures are to-day living in every city and hamlet of the land. Write Dr. J. C. Ayer & Co., Lowell Mass., for names.

AN OLD FAVORITE.—An old favorite, that has been popular with the people for nearly 30 years, is Dr. Fowler's Extract of Wild Strawberry for all varities of Summer Complaints of children and adults. It seldom or ever fails to cure Cholera Morbus, Diarrhœa and Dysentery.

A QUADRUPLE FORCE.—The reason why disease is so soon expelled from the system by Burdock Blood Bitters is because that excellent remedy acts in a four fold manner—that is to say, upon the Bowels, the Liver, the Blood and the Kidneys, driving out all bad humor, and regulating every organic function.

Hall's VEGETABLE SICILIAN Hair Renewer.

Hall's Hair Renewer restores gray hair to its original color; makes the scalp white and clean; cures dandruff and humors; prevents the hair from falling out, and renders it soft and brilliant. The editor of the "Ocean Foam," Cape May, writes: "We speak knowingly, when we assert that Hall's Vegetable Sicilian Hair Renewer is the best of its kind. The article is an elegant and cleanly one, without which we think no toilet complete." Thos. D. Jones, Middle Granville, N. Y., writes: "I have used

Hall's Hair Renewer,

about ten years, with satisfactory results." E. G. Perkins, Oberlin, Ohio, writes: "I consider Hall's Hair Renewer the best hair preserver in use. I have used it for the past twenty years, and my hair is in as vigorous and healthy a condition as when I was 30 years of age. Not a sign of gray hair to be seen anywhere." Dwight L. Chamberlain, Oakland, California, writes: "My hair, which was nearly white, has been restored to its original color and luxuriance by the use of Hall's Hair Renewer."

The advance of time is heralded by bleached, thin, and falling hair. By the use of Hall's Hair Renewer, the hair may be restored to its original color, lustre, and vitality. M. N. Johnson, Fitchburg, Mass., writes: "My hair was weak, thin, and full of dandruff. Hall's Hair Renewer has removed the dandruff, and caused a vigorous growth of new hair." Abel H. Smith, Portsmouth, Va., writes: "My hair had nearly all fallen out, and that which was left was dry and dead. I used one bottle of Hall's Hair

Hall's Hair Renewer,

and now rejoice in the possession of hair as abundant as ever." E. J. Adams, St. Paul, Minn., writes: "A diseased scalp caused my hair to fall out, and, after using a number of preparations without avail, I finally tried Hall's Hair Renewer, which caused a vigorous new growth. I am still using it, and could ask for no better results." Mrs. R. H. Corning, Battle Creek, Mich., writes: "By the use of Hall's Hair Renewer, my head, which was quite bald, has been covered with a fine growth of young hair."

FACTS

Concerning Dr. Dorenwend's

It is the only preparation in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

THE CITY AND SUBURBS

The Temperature.

The thermometer readings to-day at the hours mentioned were as follows:—8 o'clock a.m., 55; 1 o'clock p. m., 65; 3 o'clock, p. m., 66.

The Finest lot of Gent's Furnishings in Peterborough, at ANDREW MCNEIL'S.

The Demand

for tickets for Rev. Dr. Burns' great lecture on the Irish question has been very great. Ticket holders are requested to take their seats early and avoid confusion. The lecture will commence at 8 p.m. sharp.

The Rush Continues.

The large staff of clerks employed at the new store were kept busy all day waiting on the crowds of customers who thronged the store during the whole day. The rush continues, and the public will do well to call early and secure some of the bargains that are being offered. M. CARTON.

The Gospel Army.

Capt. Geo. Carswell and Cadet Gates will arrive in Peterborough this evening to take charge of this station of the Gospel (Saved) Army. They will conduct the meetings in the old Music Hall this evening, assisted by Lieut. Payton, who has been here for a time. The public will be welcome to the meeting.

Gun Club.

The regular meeting of the Gun Club was held in the Riverside Park on Monday, resulting as follows:—

Anonymous Letters.

During the past few days Capt. Cooper has received a number of anonymous letters pointing out where the police should do their duty. If the writers of these letters would sign their names the Chief would be glad to avail himself of the information, but as it is, he says, he cannot be expected to take action in the dark.

Another Campaign.

On Wednesday the following cases will be heard at the Police Court, the defendants all being charged with infractions of the provisions of the Scott Act:—Queen vs. Snowden, second offence; Queen vs. Kenneally, second offence; Queen vs. Lipsett, second offence; Queen vs. Lipsett, third offence. On Thursday the following cases will come up:—Queen vs. Clancy, second offence; Queen vs. Cavanagh, third offence; Queen vs. Daly, first offence; Queen vs. Reynolds, first offence; Queen vs. Roddy, third offence.

Resigned.

A meeting of the congregation of the Baptist Church, Murray street, was held on Monday evening to consider the resignation by the Rev. A. H. Munro of the pastorate. After discussion it was decided to ask the Rev. Mr. Munro to reconsider his resignation. The London *Advertiser* of August 2nd says:—"The Rev. A. H. Munro, of Peterborough, has accepted a call to the pestorate of the Centre Street Baptist Church, St. Thomas, and will begin his duties in October." The Rev. Mr. Munro sent in his resignation before leaving on his holidays.

The Driving Park.

A grand two day's meeting will be held in the Peterborough driving Park on Thursday and Friday, Aug. 26th and 27th. The programme for this two day's event will be highly appreciated by all. It comprises a three minute trot, half-mile running race, two thirty-five trot, two forty-five trot, mile running race, open race and carter's race. The management are determined to make this the grandest sporting affair ever held in this section. The money prizes, which will be announced from day to day, are sufficiently large to bring the best horses in Canada to our town.

CHEMONG LAKE HOTEL.

Peterborough's Prospective Summer resort—A visit to the Park.

For a long time the building of a summer hotel at Chemong Lake has been talked of, but till now nothing further than drawing the plans has been accomplished. At the time the Chemong Lake Park property was owned by the late D. C. Hatton, the owner, who was enthusiastic as to the summer resort scheme, went so far as to bring a landscape gardener from the United States to lay out the grounds. The measurements were made, soundings taken of the lake, and a plan prepared.

The Chemong Lake Park property has now passed into the hands of Messrs. Elliott & Fortye and they propose to make use of it. To show how they propose to make use of it Mr. Elliott invited the reporters of the REVIEW and *Examiner* to take a drive out and see it. Mr. John E. Belcher, who came along made matters quite clear by giving a lucid explanation of everything pertaining to the plans.

Arriving at the grounds, Mr. Belcher unrolled the time worn plans prepared under the late Mr. Hatton's instructions, and then the party, among which was Mr. E. Brown, commenced a two hours' stroll over the grounds. Those who have not been any further than the usually picked upon picnic grounds have but a faint idea of the extent, the varied nature, and the beauty of the Park. In all there are seventy-three acres in it. Commencing at the north part, where, by the way, the neat little lodge, built by Mr. Henry Denne, was pointed out, (One of the party here mentioned that the lodge complete cost only eighty dollars.) a fence divides it from the adjoining property. Here the ruggedness of nature is to be looked at and admired. The hillside, thickly lined with oaks, pines and undergrowth of various sorts, precipitates itself directly into the lake in places. The next minute the banks are high, so that you can stand looking down at the dashing and splashing of the waves, without danger of being wet with the spray. As the walk is resumed southward a narrow ravine has to be crossed. It is thickly shaded with tall trees from each side, and clothed with bushy undergrowth and shrubbery. This ravine inclines slowly into the lake, so slowly that Mr. Belcher, who spoke from actual experienc, said that it was possible to walk out as far as a stonethrow without fear of being overtaken with deep water. At here he unrolled the plan and it was seen that the Yankee had intended to build a ladies' bath house at this spot. By the aid of easily reached branches the side of the ravine is scaled and once more a view of the lake is to be had. But before the spot whereon the proposed hotel is to be planted is reached another gully has to be crossed, this one wider and not so deep. After crossing this the grounds are clear of all entangling bushes. The slope from the brow of the little eminence is gradual until quite close to the lake, when it suddenly darts straight down almost. This slope is covered with a green sward and just thickly enough shaded with beaches, maples and oaks as to keep it cool, and, at the same time, not to shut out the view of the lake. At the brow of the eminence the original plan says the hotel is to be built. A fountain will fill a large circulcr space to the north with its spray. Then a walk will lead from the hotel down the slope, under the trees, to the edge of the little precipice, where a stair case will go down to the landing for canoes, and other small crafts. Another walk will go straight from the hotel to the band stand, which is situated on a faintly outlined peninsula. For acres along here a beautiful view of the lake is obtainable. Across the lake a mile away the golden wheat fields, bowing and smiling in the breeze and sunlight, the green meadow, the strips of woodland, slope down to the water's edge. To the north the floating bridge, the steamboats puffing away through the glittering waves, and the woodland fringed shores attracts the attention. To the south the view is more broken.

After looking at this pretty picture for a little while the party walked on. When a dent in the land which some one called a bay is reached the plans are again consulted. The water is deep close up to the shore here, and this is the place where the wharf was to be situated; a row of gentlemens bath houses further up. From this point south every now and then the stream issuing from springs at the hill side has to be forded. And this is sometimes quite difficult, though it will not be, of course, when the water is kept to the limits prescribed by civilization.

It is the intention of the owners to sell out this section of the park in lots for the purpose of erecting lodges on. The prices will range from $50 to $100, according to location. The lots will have a fifty or seventy-five feet frontage, a little garden, and a yard behind, say a depth of two hundred feet. A drive connected with the network (to be noticed further on) will be run along the edge of the water, about 20 feet from it and the lots will face on the drive. The object of this is to allow all the use of the lake frontage. Several of these lots are spoken for. There are but a limited number of these lots for sale, and those would like to get one should lose no time securing it—first come, first served. The grounds now narrow gradually to a point and are covered with pine thickets which give place to cooling influence of cedar chapparals.

The drives for the grounds are laid out most tastefully and beautifully. There will be two main entrances, one leading directly to the hotel and the other around the hill to it. The principal drive will be along the lake side, extending nearly a mile in gentle curves and windings. At the first spring it turns off to complete a circle, while an arm projects to nearly the utmost end of the park.

Negotiations are now opened for the erection of the hotel, and it is likely that by next season it will be in full operation. Among the attractions will be games and sports in front of the hotel; boat races on the lake, which can be seen from the hotel balconies from start to finish; open air band concerts on the lake and on the shore; moonlight excursions up the lake, etc.

POLICE COURT.

ASSAULT.

TUESDAY, Aug. 3.—Robt. Redman charged Thos. B. Brophy with having committed an assault on him on Saturday, July 24th.

The defendant pleaded not guilty.

Mr. J. Green appeared for the complainant and Mr. J. O'Meara for the defence.

The complainant was examined. He said: I am employed by Messrs. Hall, Innes & Co. While passing through Burleigh on Saturday, July 24th, the defendant came out of his shop and grabbed the horse by the head compelling me to stop. When asked what was the matter he replied that it was none of my business. Then he called another to hold the horse till he had satisfaction out of me. I said that it was against the law to stop my horse on the highway. The man he shouted to came up and took hold of the beast. "Get out of that buggy," said he. "I won't get out for you or anyone else," said I. "D—n you, I'll lick you," said he, "you killed my dog." "No," said I, "He was following my dog and I just hit him a cut to drive him away." He told me to go on as fast as I could and not to come there again or he would lick me. I am afraid to go back there. He put his foot on the buggy step and made a strike at me. He touched me with his hand.

The MAGISTRATE held that there had been an assault committed. The dog business had nothing to do with provoking it. It was the competition which had provoked the defendaut to commit the assault. Mr. Redman was pursuing a lawful business and had a right to be protected. He found the defendant guilty, imposed a fine of $5 and costs, and bound him over to keep the peace at $500, two surieties at $250 each.

Boat Club.

A regular meeting of the Boat Club was held on Monday eveving. The principal business before the meeting was of a financial nature—the payment of current and old accounts, or certain percentages of them. The matter was left in the hands of the secretary to do as he deemed best in the club's interest.

FINE SCOTCH GINGHAMS, regular price 25c., reduced to 12½c. per yard at FAIR'S.

It May be Remarked.

—That another Scott Act crusade is pending.

—That some people expect startling developments.

—That a habitually pious baker is said to have shocked two ladies on Bethune street on Monday.

—That the cause of their shock was the manner in which he expressed himself.

—That the reason why he used such language was, his horse assumed a stationary posture while a train was nearing.

—That a meeting of the Board of Education will be held this evening.

Personal.

The Toronto *Labor Reformer* "says:—The *Irish World* now devotes nearly the whole of one of its large pages to news of interest to workingmen and labor reformers. This department is carefully edited by one who thoroughly understands what he is doing, and whose heart is evidently in his work. The consequence is a page peculiarly interesting and readable." The gentleman in charge of the department referred to is the Hon. David Healy, a native of Asphodel township.

Mr. Aaron F. Hoover, pianist, and Mrs. Hoover, have arrived in town and have taken up their residence here. Mr. Hoover will at once enter upon the practice of his profession.

The Parry Sound *North Star* of July 30th says:—"Messrs. Geo. A. Cox and John Bertram, of the Midland and North Shore Lumber Company, are in town inspecting their property here. Mr. Cox has brought his family and intends to spend some time at the Belvidere Hotel."

LINDSAY.

SERIOUS ACCIDENT.—A very serious if not fatal accident happened on Monday at the G. T. Station, Lindsay. An employee of the Company, named William Keefe, was carrying a plank across the track in front of an advancing passenger train. The plank was struck by the train and the unfortunate man instantly thrown down with his right arm across the rail, the train passed over it, mangling it in a horrible manner.

Arab Chief Shot.

BLOOMINGTON, Ill, August 2.—While Barnum's circus men where shooting at a board yesterday, tossed up by Abdallah Ben, said to be a chief of the Arabs, Abdallah was accidentally shot in the neck by Orrin Hollis the bare back rider. The chief will probably die.

KIDNAPPED AND KILLED.

Mexican Authorities Accused of Foully Murdering an American Citizen.

AUSTIN, Texas., July 31.—In regard to Francesco Arresures, an American citizen who was kidnapped on the 26th, taken to Mexico, and murdered by Mexican troops, Gov. Ireland writes to secretary of State Bayard as follows:—"This man, Francesco Arresures, has been most foully murdered by the Mexican authorities. It is but a repetition of the insults and outrages committed upon American citizens by the people and authorities of the right bank of the Rio Grande. While no possible excuse can be given for the part taken by Texan officers for Arresures' illegal arrest and delivery to the Mexican authorities, still no palliation of the foul murder has been or can be offered by the Mexican authorities. The persons, whoever they are, engaged in the illegal arrest will be prosecuted, and I demand in the name of the State that this wrong by Mexicans be attoned for and punished. If this State and her people must depend upon themselves for protection, the necessary redress can and will be obtained."

Symptoms of Cholera.

CHIPPEWA FALLS, Wis., August 2.—Two men have died here within the past 24 hours with symptoms of cholera. The absence of a sewage system and the continued dry weather has left the city in a very bad sanitary condition.

Congress Favors the Embezzlers.

WASHINGTON, Aug. 2.—Senator Sherman tried to call up the ratification of the extradition treaty with Great Britain favorably reported from the Committee on Foreign Affairs, but the proposition was voted down by a majority which made it seem improbable that any action will be reached.

Living Without Brains.

HALIFAX, July 31.—An extraordinary case of prolongation of life has occurred at Eastern Passage, near Dartmouth sugar refinery. Last evening a four-year old lad named Hornton was running through a field when he was kicked in the head by a horse and fell insensible to the ground, a portion of his brains being knocked out and scattered around his body. During the night the boy recovered consciousness, and to a late hour this evening he was still living. He talks freely and sensibly, and at present gives no appearance of being in a dying condition, but the doctors declare he cannot live.

Drowned at Ranney Falls.

CAMPBELLFORD, Ont., July 31.—A riverman named Joel Redden, working for Gilmour & Co., was drowned at Ranney Falls, half a mile below Campbellford, this morning. After the gang had finished "tailing" the logs through, it seems that he and a companion attempted to shoot the rapids on the boat filled, [illegible] being unable to swim, was drowned. The companion got ashore. The body has not yet been recovered.

A FIENDISH DESIGN.

An Anarchist Plan of Poisoning Capitalists with a Syringe.

BOSTON, Aug. 2.—Supt. Cornish, of the Pinkerton detective agency, furnishes a long expose of the secret workings of the Anarchists of Chicago, which, he says, have been thoroughly explored by the Pinkerton force. Parsons, Mr. Cornish says, was one of the first to blossom out as a red-hot anarchist. While in Greif's saloon one night he heard Mrs. Parsons make a violent speech in which she advocated hurling booms at the residences of the wealthiest citizens of Chicago. Spies told them that he had a better plan, which was as follows: Every man arm himself with a syringe, just large enough to be concealed in the closed hand. The point of the syringe should be as small and fine as that of a needle, so that it can easily penetrate clothing and skin. Armed with this you can walk up alongside of the capitalist to be removed, quickly insert the needle point into his flesh and at the same time squeeze the bulb, sending the prussic acid into his veins. The victim would not mind the attack more than he would the prick of a pin, but the poison would kill him in a very few minutes, and his death would be a horrible one. He would not know, and if he did he could not tell, what had been done to him.

This suggestion was greeted with acclamations of approval and applause by all who were present, including Parsons, Fieldon and Dusey. Cornish gives the history of the various groups in the city, details of the experiments with dynamite and gives the place of meeting of each of the thirteen regularly constituted groups which, on May 4, were in existence in Chicago and the town of Lake, as well as of the cigarmakers' revolutionary society and a half dozen other organizations, which he says are Anarchist societies.

THE NEW PARLIAMENT.

Writs for the Re-election of Ministers to be Issued Immediately.

LONDON, Aug. 3.—Both Houses will meet at two o'clock on Thursday. In the House of Commons, Mr. Peel will be re-elected Speaker. The House will adjourn till Friday after the costumory, antiquarian ceremonies. The members will commence being sworn in on Friday, and after a quorum of forty is reached the writs for the re-election of the Ministers will be issued. The House will then adjourn till Monday or Tuesday, and will further adjourn till the 19th to complete the re-elections. When it reassembles, a short, formal Queen's Speech will be presented. The members of the new and old Cabinets will pass each other on the waters of the Solent. Lord Salisbury will probably remain the Queen's guest till to-morrow.

The completion of the appointments calls for no special comment, except that Mr. Chaplin, who has been most active in endeaouring to bring pressure to bear on Lord Salisbury for the exclusion of the "old gang" and the inclusion of the new in a Government formed on his own lines, with, of course, a prominent place for himself, is left out altogether.

The first council of the new Government will be held to-morrow. Till then nothing will be known with regard to the financial acumen of the new Chancellor of the Exchequer. It may be interesting to recall a letter of his, printed not so long ago in the *Times*, in which he proposed, amid the inextinguishable laughter of the economists, an increase of the alloy in half sovereigns to defray minting expenses.

Mr. Gladstone has issued a specific denial in the *Daily News* to the statement that he regarded Lord Randolph Churchill's appointment as a proper recognition of his talents.

Snow in New York.

CHALOTTETOWN, P. E. I., August 3.—The shooting match between the Bellerophon's officers and the citizens, yesterday, was won by the latter by 100 points. The Bellerophon sailed for Quebec to-day.

Pensions for Confederates.

ATLANTA, Ga., August 3.—A constitutional amendment will be voted on at the State election in October, to pension soldiers who were injured in the Confederate service. There is no opposition to the amendment.

Street Cars and Funerals.

HAMILTON, Aug. 3.—A hack driver was today fined for obstructing a street car. He was driving at the head of a funeral procession. The magistrate decided that street cars had the right of way over funeral processions.

A Rielite's Jaw Dislocated.

MONTREAL, Aug. 2.—Simon Goulet was taken to the General Hospital to-night suffering from a dislocated jaw. Upon inquiry it was learned that Goulet, who is a prominent Rouge politician, was relating the triumph in the recent Chambly election when he laughed so heartily that he dislocated his jaw.

Advance in Hops.

CANAJOHARIE, N.Y., Aug. 2.—The utter destruction of the hop plants throughout New York State by lice has created a sudden advance. Growers in this vicinity have refused 25 cents for 85's, preferring last year's crops at 40 cents, the highest price paid in three years.

Around the World.

SAN FRANCISCO, Aug. 3.—The yacht Brunhilde, owned by J. J. Phelps, of New Jersey, a member of the New York Atlantic, Yale and New Haven Yacht Clubs, has arrived here from Yokohama on her cruise around the world. With the exception of a heavy gale in the Red Sea, Mr. Phelps reports having had a pleasant trip.

Damage by Storm.

WILKESBARRE, Pa., August 3.—Reports from various parts in the Wyoming valley show that the storm yesterday caused serious damage. At Huntsville, Trucksville, Harveys Lake and Luzerne the storm raged fiercely, carrying away saw and grist mills and stone and iron bridges. Railroads and carriage roads were washed out for miles.

A War of Rates Probable.

NEW YORK, August 3.—The agreement entered into last year by the European and Continental Steamship Companies to charge a uniform rate of $25 for the outer trip expired last Saturday, and will not be renewed. The Red Star Line refused to send a representative to the meeting to arrange a renewal of the agreement. A war of rates, it is believed, will ensue.

Five Children Drowned.

OTTUMWA, Ia., Aug. 3.—Monday afternoon three children of Wm. Hauck, living three miles from Keosauqua, a grandchild of Hauck and two children named Gillette, went to the Desmonies river and five of them went in bathing. One fell in a deep hole in the river, and in trying to exiricate the struggling one all five were drowned. The children's ages ranged from 2 to 12 years.

Yellow Fever on Shipboard.

BILOXI, Miss., August 3.—The Norwegian barque Agnes Campbell, Captain Neilson, has arrived at the ship island quarantine station from Aspinwall with yellow fever on board. Six men out of the crew of crew of twelve have died from yellow fever, while four are now down with the disease, leaving only the captain and two men on duty.

Fatal Mock Marriage.

ROMNEY, W. Va., Aug. 2.—Miss Ann Offner, the eighteen-year-old daughter of a farmer living near here, yesterday shot and killed Benjamin Brooks, a dissolute fellow 43 years of age. About a year ago Brooks induced the girl to accompany him to Cumberland, Md., where a mock marriage ceremony was performed. The couple returned home and lived together as man and wife until the facts became known and they were indicted by the grand jury for illicit cohabitation. While the case was pending Miss Offner returned to her parents. She says that while riding horseback yesterday she met Brooks who endeavoured to persuade her to dismount. On her refusal he put his hand behind him and threatened to kill her unless she did he wished, whereupon she drew her revolver and shot him in the forehead, killing him instantly.

A Funeral Sensation.

CLEVELAND, Ohio, Aug. 3.—The Irish Americans of Cleveland are greatly worked up over the action of Bishop Gilmour, who refused to permit the remains of the late P. K. Walsh to be taken into the Catholic Church. Walsh was a noted Irish orator and organizer. For several years he and Bishop Gilmour were not on the best of terms. On his death bed Walsh was attended by Father Maloney, who administered the usual Sacrament. The plan of the family included Father Maloney and Father Thorpe as officiating clergymen at the funeral. Father Moloney was present, but Father Thorpe, it is claimed, remained away at the request of the Bishop. The largest Catholic choir in the city had also been engaged to attend the funeral, and were ready to do so, but were ordered to remain away by the Bishop.

BOULANGER'S AWKWARD POSITION.

PARIS, Aug. 3.—General Boulanger's position is becoming awkward. He has published a statement in which he denies that one and admits that the other letter is genuine, wherein he thanks the Duc D'Aumale. It is rumored that if he persists in his denial the Duc DeChartres will challenge him to a duel.

THE ELECTIONS IN FRANCE.

NEW YORK, Aug. 3.—A Paris despatch to the *Courier des Etats Unis* says:—The very general success of the Republican candidates, even in those departments where the Monarchists still exercise an influence, has surpassed the expectations of Republican journals.

EUROPE'S WHEAT CROP.

LONDON, August 3.—The wheat crop of Europe is slightly under an average one. In France it falls 12 per cent. below last year. In Russia spring wheat is a poor yield, but winter wheat is excellent everywhere. Oats and potatoes are big crops. The brewers are watching the hop news from America with great interest. The yields in England and Germany are very good, the vines having been freer from vermin and rust than for years back.

THE SILVER QUESTION.

LONDON, August 3.—The issue of the legislation promoted by Mr. Morrison regarding the standard and functions of silver is awaited here with keen interest. Henry R. Greenfell, Governor of the Bank of England, writes, denouncing the absurd comments of certain English and American newspapers from the American silver movement as in some way threatening repudiation. Mr. Greenfell frankly declares his belief that the United States Government has as absolute [illegible] as India, and that it was India is doing.

THE GLADSTONE MEMORIAL.

LONDON, August 3.—The *Observer* states in an editorial note that the New York *World*, in instituting a Gladstone memorial fund, has done the late Prime Minister doubtful service only less damaging than that rendered by those who were responsible for the pitiable fiasco of the people's pence election fund for Gladstone candidates After many weeks of puffing by the Democratic organ of New York, the memorial fund has struggled up to £100, and there its expansive powers seem pretty well exhausted. Now whatever may be said of the American love of dollars, they are the most lavish subscribers in the world when once their sympathies are aroused. Their conduct on this occasion is a more crushing demonstration that, as a nation, they have no sympathy with Mr. Gladstone's scheme. The Irish in the United States, even of the better class, undoubtly desire Irish independence. Accordingly they subscribe largely to the Parnellite fund, while the ragged dynamiter, in his zeal for the destruction of the Saxon, casts his mite into the treasury presided over by Patrick Ford.

OFFICES SURRENDERED.

LONDON, Aug. 3.—The members of the Gladstone Ministry surrendered their place of office to the new Ministers. The members of the two ministries lunched with the Queen. Lord Salisbury will remain a guest of the Queen until to-morrow.

A CASE OF BOYCOTTING.

DUBLIN, Aug. 3.—The nationalists of Castle Blayney, Monaghan, are boycotting the recently opened local branch of the Great Northern railway, because a nominee of the League was not appointed station master. The present station master is receiving threatening letters, and employes are afraid to resume work.

LORD LIEUTENANT'S LEVEE.

DUBLIN, Aug. 3.—The farewell levee given by the Earl of Aberdeen and his wife at the Castle to-day was attended by a large number of the members of the Irish National League.

DYNAMITERS CO-OPERATING.

LONDON, Aug. 3.—The police have been informed of the existence of extensive intrigues by Irish and Russian dynamiters against the English Government. Detectives will be statioined at the different Russian ports, and all arrivals from Russia to Great Britain will be closely watched and the vessels searched.

SIR CHARLES DILKE.

LONDON, August 3.—The *World* says: "Mr. Gladstune's cabinet will leave the perplexing question of Sir Charles Dilke's future to the consideration of their successors. Sir Charles Russell has declined to assist Sir Augustus Stephenson, the Government solicitor, with his opinion on the ground that he was counsel in the case. Sir Horace Davey pleaded inexperience in criminal law as his excuse for non-interference. Sir Charles Dilke himself still loudly proclaims his innocence and defies his foes to do their worst."

WHO IS HIS MASTER?

To the Editor of the Review.

SIR,—Will you please insert the following as questions for Dr. Burns' consideration:

What affinity has the Gospel of Jesus Christ with Home Rule?—or does he pose himself as an ambassador for Christ? When a certain Jew asked Jesus to make his (the Jew's) brother divide the inheritance with him, what did Jesus reply?

What is the exhortation of Paul to the believer in 2 Cor. vi. 15-18? What did Paul mean in 2 Timothy iii.? Can Dr. Burns find no work in the Master's vineyard, if, as is indeed doubtful by prese t appearances, he is a labourer? When Christ is so needing help in this world, is it a time to find D. D's. mixed in such a question and what is the conclusion to be drawn from it? Alas well might the Apostle John warn believers before believing in every Spirit to test them, for the Spirit of Antiehrist was already in the world—1 John iv. Come out in true colors. What are you?

Yours truly,
CHRISTIAN.

WEDNESDAY, AUGUST 4, 1886.

CAVALRY HORSES.

WE have called the attention of our farmers to the desirable opportunity afforded them of supplying horses for the British cavalry, and now in a recent issue of the London *Daily Telegraph* we find the same subject discussed. The article is one describing Glynde Place, near Rottingdean in Sussex, the property of Lord Hampden, better known as Speaker Brand. This nobleman keeps in his hands the Home Farm, and besides making it a model, derives from it a handsome profit, largely attributable to his Southdown sheep and Jersey cattle, though the arable land also contributes to the satisfactory result. After its description of the property the *Daily Telegraph* continues:—

"There needs but one element to make Lord Hampden's farm perfect in the eyes of North-countrymen. If he could but be induced to breed horses as well as Jerseys and Southdowns, and were able to breed them with profit, the Glynde Farm would be a model for imitation by agriculturists all over the world, and would become a familiar word wherever the English tongue is spoken. The ex-Speaker has always been an ardent supporter of the open-air sports which have done so much to make Englishmen what they are, and stands in no need of being reminded that hunters, hacks, cavalry remounts, and artillery horses are produced in much smaller quantities by his fellow-countrymen than is to be desired. Not many weeks have passed since Colonel Ravenhill read a paper well calculated to attract the attention of the authorities presiding over the War Department and the Horse Guards. In it—following the lead given on a former occasion by Colonel Russell—he showed that in the event of a sudden outbreak of war this country, if confined to its own equine resources, would be in an alarming state of destitution. Such was the impression produced by Colonel Ravenhill's statements and arguments that he has himself been despatched by the War office to Canada with a view to ascertaining how many horses might be picked up on the banks of the St. Lawrence by English military purchasers were the storm of war to burst suddenly upon us. Fortunately, the reports, furnished by competent authorities as to the abundance and quality of Canadian horses are of the most encouraging kind, There is, for instance, no finer cross-country rider in the world than Lord Melgund, the eldest son of Lord Minto. Lord Melgund—who served long on General Sir Frederick Roberts's staff, and was wounded in Afghanistan—has lately returned from Ottawa, where he ably discharged the office of Military Attache to the Marquis of Lansdowne, the Governor-General of the Dominion of Canada. We learn, therefore, with much satisfaction that Lord Melgune entertains the highest opinion of Canadian horses, both as hunters and machiners. His testimony is confirmed by the experience gained during the American Civil War. During that long-sustained and exhaustive struggle the drain upon the horseflesh necessary to keep the Federal armies going was so tremendous that, but for Canada, it could hardly have been met. Drawing however, upon the Canadian reserves, General Rufus H. Ingalls, the Quartermaster-General of the United States army, was able to respond to a demand which required a supply of five hundred head of horses and mules every day during the last two years of the war. Many years has passed since this country was engaged in hostilities with one of the great military Powers of the adjacent Continent. How soon our turn may come no human eye is far-sighted enough to presage. That it may come any day was anticipated by Lord Wolseley in a recent speech: and when it does, many anxious eyes will be turned to Australasia and Canada. In the meanwhile, it is much to be desired that practical and successful farmers, like Lord Hampden, would devote their attention to the scarcity of English-bred horses, as to which the War Office has lately received so many warnings."

These remarks which we have quoted show on excellent authority that there is really a good opening for our farmers to supply cavalry horses. The success of Lord Hampden might also suggest to some of our moneyed men that they might find combined profit and pleasure in rearing the style of horse that is required. There are some who have at least as much leisure as a Speaker of the British House of Commons and who might gratify their tastes with advantage to themselves and an indirect benefit to the public.

FOR RIEL AND BLAKE.

THE FRENCH CANADIAN ALLIES OF BLAKE DECLARE THEMSELVES.

The Canadian Authorities to be Dismissed for Allowing the Execution of a French Roman Catholic.

We quote from the French Canadian press the following declarations of the Riel-Blake platform. They have openly made war upon all English-speaking Protestant Canadians, who will not aid them like Mr. Blake in obtaining revenge upon the Macdonald Administration for the execution of their martyr. That the alliance is as well understood on the other side, which accepts the responsibility, is proved by the following telegram from Mr. J. D. Edgar, Mr. Blake's personal representative and political lackey:—

"TORONTO, Oct. 30.

"The Liberals of Toronto congratulate you on your splendid victory. Welcome to our colleague.

"J. D. EDGAR."

Thus Mr. Edgar and his master welcome the Riel representative and his disloyal "race and creed" claims.

A SET OF FANATICS.

This little French Canadian people that they had sworn to grind down, that they had thought to deprive of their last breath, and on whom a sect of fanatics had been called on to trample, has once more shown its pluck by raising its head and biting in the heel the cowards that wished to crush it.—*La Patrie (Ref.)*

WHO HANGED RIEL.

Mr. Chapleau, once the idol of the people, fought like a lion, stopping the electors and trying to bring them to the poll. This time Mr. Chapleau, despairing of finding support amongst his own countrymen, appealed to the English, as everyone knows, and this will be a heavy responsibility for him. We have no reason to say that his appeal to race antagonism was not successful. Out of 320 English electors over 130 Liberals voted as Mr. Chapleau asked them, not for the Conservative Government, but for the Minister who hanged Riel.—*La Presse (Rielite.)*

ORANGEISM BEATEN.

Orangeism is beaten in Chambly; yes! The national cause triumphs there; true! But can we possibly lose sight of the fact that more than three-fourths of the votes given to ratify the criminal policy of Sir John in the North-West, and the national apostasy of Mr. Chapleau, are the votes of French Canadian Catholics? Mr. Prefontaine is not the man of our choice; we have said so several times. In our action in favour of him, we have aimed at the defeat of the Ministerial candidate rather than Mr. Prefontaine's victory.—*L'Etandard (Rielite.)*

THE SCAFFOLD PLATFORM.

The scaffold of Regina [illegible] a sonorous hustings, whence to preach their hatred of the constitutional power and the justice of their country.—*Le Canadien (Conserv.)*

REBEL BALANCE OF POWER.

With the election of Nova Scotia and New Brunswick the French Canadian patriots will hold at Ottawa, at the coming elections, the balance of power.—*La Presse (Rielite.)*

THE FRENCH ELEMENT.

The net result of yesterday's election is that the influence of the Province of Quebec is sensibly diminished. Sir John Macdonald can govern even if he should have a minority in the Province. What was done under Mackenzie can repeat itself. If the French element coalesces to a certain extent for a so-called national end, the English majority will not fail to concentrate against us. And this concentration is very visibly taking place now. One must be blind not to see it.—*La Minerve (Conservative.)*

THE POLICY OF SLANDER.

THE *Globe* and the globulites are now charging with immorality the ladies in the civil service at Ottawa. As most of these ladies were appointed by a Conservative Administration, these cowards think them fair game for their vile slanders.

The story appears to have been started by one of those Rielite Conservatives, who, from their fondness for criminals, have joined those Reformers who have Messrs. Blake and Laurier for their leaders and the *Globe* for their chief organ in Ontario. It was, however, eagerly seized and circulated by their press.

In recuring to its base calumnies of these ladies the *Globe* says:—

"The charges, although made by a member of the Civil Service, might not have created so great a sensation in Canada if rumour had not for some years been busy with the names of some members of the Cabinet."

This is a plain betrayal of the whole system on which the miscreants work. Day after day they invent slanderous rumours against the leading statesmen of Canada, and persist in so doing in the face of proof of their falsehood. As the *Globe* now admits, the object is to make people more ready to believe any new charge, because "rumour," that is the *Globe* and its fellow slanderers, has "for some years been busy."

No regard for truth restrains them in their vile career. In fact truth and honesty seem to be exploded ideas with them. We have just witnessed the spectacle of one of the *Globe* staff being shown by Mayor Howland's report, to be a thief and a liar, who stole information from a too confiding alderman whom he had hoodwinked by false promises, and he seems to be only a specimen sample.

These criminals and friends of criminals find it easy to fraternize with the admirers of the murderous rebel Riel and to form with them a compact for mutual assistance. But that Mr. Blake should lead them, that Mr. Mowat should favour them, are facts that are astounding, and that are estranging from them all honest and loyal Reformers.

Tragedy at a Wedding.

HARLETON, Pa. Aug. 3.—On Sunday a party of Hungarian and Italian lumbermen went to Nescopre to attend a wedding. They got drunk, and while a number of them were sleeping off the effects of the spree in a barn, a Hungarian named Kolowskei deliberately whipped out a heavy revolver and shot two Italians through the head. Then throwing the revolver aside, he seized an axe handle and pounded a third Italian to a jelly. The three victims died within half an hour. Kolowskei then took to the mountains, but officers and farmers are in hot pursuit.

HER LAST ACT.

A Prima Donna Becomes Insane Through Grief at the Theatre.

LONDON, Aug. 2.—A tragic story is told by the *Cologne Gazette* of the sad experience and cruel fate of the favorite Italian prima donna Zairia Gattini. A short time ago Zairia, her mother and two brothers went to Bard, where the prima donna was to fulfil an engagement. While there the mothre became ill. Physicians were called, but the parties steadily grew worse. Zairia attended at the bedside of her mother during the day and generally appeared at the theatre each night, leaving her brother to watch over the sick one. One night while Zairia was absent at the theatre, the physicians informed her brothers that their mother was in a hopeless condition and could live but a few hours at the most. The elder of the brothers, crazed by grief at this announcement, seized a pistol and shot himself dead in the presence of his mother, who expired almost immediately afterward. The younger brother hastened to the theatre to inform his sister. He was admitted, and met her as she was leaving the stage, burdened with flowers and her ears ringing with the applause of the audience. In a few words he told her what had happened, when with a scream that was heard all over the house, she ran to a window and attempted to throw herself to the ground. She was restrained by friends, who, attracted by her cries, rushed towards her and she was immediately conveyed to her apartments. When her paroxysm of grief had subsided, it was found that the shock had deprived her of her reason permanently, the physicians fear, and she is now confined to an asylum.

Typhoid Fever Epidemic

PITTSBURG, AUGUST 2.—Typhoid fever has almost assumed epidemic proportions in South Pittsburg. Of 135 cases in the city, 75 are in two wards of the south side. Six deaths occurred within the past 24 hours and eight new cases were reported yesterday. The physicians attribute the epidemic to impure water.

For the past quarter of a century West's Cough Syrup has given relief to thousands, and no medicine compound can show such a vast number of unsolicited testimonials. Ask your neighbor as to its merits. It is an unfailing cure for coughs, colds, hoarseness, asthma, bronchitis, consumption in its early stages, and all throat and lung diseases. Price 25c. 50c. and $1.00 per bottle. Sold by J. D. Tully.

Fluid Lightning.

All sufferers from that terrible torment, Neuralgia, can be made happy in one moment by a single application of Fluid Lightning briskly rubbed on painful parts, and without using any disgusting medicine day after day without any apparent result. Fluid Lightning also cures as effectually Toothache, Lumbago, Rheumatism, Headache, and is only 25 cents per bottle at John McKee's Drug Store.

Some Miraculous Results

Have followed the use of Dr. Dorenwend's "Hair Magic." It has saved many from becoming bald, and has produced good heads of hair on bald heads where the roots arenot all gone. It has relieved hundreds of per sons from dandruff and restored crops of gray and faded hair to its natural color. A. Dorenwend, sole manufacturer. For sale everywhere. J. D. Tully, agent for Peterboough.

Scott's Emulsion of Pure Cod Liver Oil With Hypophosphites,

In General Debility, Emaciation, Consumption and Wasting in Children,

Is a most valuable food and medicine. It creates an appetite for food, strengthens the nervous system and builds up the body. It is prepared in a palatable form and prescribed universally by Physicians. Take no other.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

P. P. FLOUR for Pastry, $2.75 per Hundred.

BAKER'S FLOUR, (ground from Manitoba Hard and Ontario Spring Wheat), $2.50 per Hundred.

FAMILY FLOUR, (ground from Ontario Wheat), $2.25 per Hundred.

LOW GRADE FLOUR, $2.00 per Hundred.

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our **genuine Coraline**, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

BOARD OF EDUCATION.

THE POSITION VACATED BY MR. HORNING FILLED.

Complimentary Remarks by the Public School Inspector as to Mr. Smith's Success—Miss Robinson Resigns.

A regular meeting of the Board of Education was held on Tuesday evening.

There were present: Mr. Jas. Stevenson, Chairman, and Messrs. Burnham, Weir, Rutherford, Kendry, Wrighton, Denne, Henry, Errett, Dumble, McWilliams, Stratton and Sproule.

Mr. W. H. Dayman, acting as Secretary in the absence of Mr. Morrow, through illness, read the minutes. The minutes were confirmed.

ENQUIRIES.

Mr. ERRETT asked how much money was received from the Town on account of the 5 per cents.

The CHAIRMAN said that as Mr. Morrow was not here no statement could be laid before the Board.

Dr. BURNHAM asked if the joint meeting of the Board and the Council had been called.

The CHAIRMAN replied that the matter was lying in abeyance.

COMMUNICATIONS.

Communications were read as follows: —

From Miss Fair, asking for an appointment to the public school staff should a vacancy occur and enclosing testimonials—Received.

From Miss Robinson, expressing her thanks to the Board for their kindness and tendering her resignation—Received.

From the Secretary, stating that the Collegiate Institute fees for the month of July was $103 and for public schools $12.75—Received.

From the Head Masters of the South and West Ward Schools enclosing a statement of the attendance as follows:—West Ward School, average attendance 139; on roll 188. South Ward School, average attendance, 182, on roll 214.—Received.

ACCOUNTS.

REVIEW Printing and Publishing Co. sent in an account for $1.90 which was ordered to be paid when certified to.

INSPECTORS REPORT.

The Inspector of the Public Schools reported verbally. He stated that a large number of pupils wrote at the Entrance Examination. A great improvement was noticable in penmanship. The percentage of successful candidates was very fair considering the severity of the papers. He did not think sufficient time was given to the answering of the questions on the papers and suggested adding one more day to the examinations. The town passed 17; the county, 11; and outside places 5. The pupil geting the largest marks came from town, the next from Lakefield, and the next from the county. He congratulated the Head Maater of the Public School with passing so many of his pupils under such a severe test.

In answer to Mr. Rutherford, Mr. Stratton stated that our school had done remarkably well as compared with other schools throughout the country. From all he could gether our school stood at the head. The Head Master of the Public Schools had certainly done well. He asked to be allowed to publish a new programme.

APPOINTMENTS.

Mr. DUMBLE read the report of the Committee on Appointments as follows:—

To the Chairman and Board of Education:

GENTLEMEN,—The Committee on Appointments beg leave to report that they have considered the various applications for the position of teacher in the High School in the department of mathematics and science and beg to report:

That Mr. Ellis, having in his application stated that he would, if appointed, require a salary of $1,000 per annum, his application was not considered for the purpose of reporting, the Board having fixed the salary at $900.

Your Committee, therefore, report that Mr. Beans has the required qualifications and is in every way well fitted to fill the place, and they beg to report in favour of his appointment.

With reference to Mr. Horning's salary, your Committee find that it has been the habit of the Board to pay a retiring teacher for the vacation ensuing the term through which he has taught. Your Committee, therefore, instructed the Treasurer to pay Mr. Horning the full salary to September 1st, and we learn that he has been so paid.

All of which is respectfully submitted,

D. W. DUMBLE,
Chairman.

July 27, 1886.

Mr. DUMBLE moved the adoption of the report.

Mr ERRETT moved in amendment, seconded by Dr. BURNHAM—That the name of Mr. Ellis be inserted.

Mr. RUTHERFORD moved as an amendment to the amendment, seconded by Mr. SPROULE—That Mr. Lee, of Lindsay, be appointed.

Mr. ERRETT spoke in high terms as to Mr. Ellis' ability. He had unquestioned recommendations—a very strong one from Mr. Seath and a flattering one from Dr. Nelles. Both of these testimonals should carry weight.

Dr BURNHAM announced that Mr. Ellis had agreed to accept $900 a year.

Mr. DUMBLE remarked that a recommendation for Inspector Hodgson was among Mr. Beans' testimonials. He had no doubt Mr. Beans would fill the position with credit.

Messrs. RUTHERFORD and SPROULE both urged Mr. Lee's appointment. He was a man of excellent abilities, and one who would well fill the position.

The vote was taken. Five voted for the amendment to the amendment, five for the amendment, and eight for the original motion. The report was therefore adopted and Mr. Beans' appointment made.

FEES.

Mr. STRATTON moved, seconded by Mr. DUMBLE,—That the Principal of the Collegiate Institute be instructed to insist on the payment of fees the first three days of each month, pupils not complying to be sent home until the fees for the month have been paid, thereby preventing pupils from attending school for a week or more in each month and leaving without paying the month's fees. Carried

PROMOTION.

Mr. DUMBLE moved, seconded by Mr. ERRETT,—That with the sanction of the Principals of the several public schools, teachers are permitted to allow pupils whose scholarship and abilities warrant it to be advanced to higher rooms without waiting for the regular promotion, this liberty to be only used when the interests of the pupil would suffer without such promotion.

SPECIAL MEETINGS.

Mr. MCWILLIAMS moved, seconded by Mr. HENRY,—That no special meeting of this Board be held without at least three days' notice.

This motion was allowed to stand as a notice of motion.

NEW PROGRAMME.

Dr. BURNHAM moved, seconded by Mr. SPROULE,—That the Committee on Supervision be authorized to cause the new programme of studies for the public schools to be compiled and printed.—Carried.

SEATS.

Mr. WRIGHTON moved, seconded by Mr. SPROULE,—That the Property Committee be authorized to purchase and procure such seats or desks as may be required for the rooms to be occupied by the Collegiate Institute.—Carried.

The Board adjourned but the members had scarcely gone to the door when they came back and took seats again.

It was moved and seconded that Miss Robinson's resignation be accepted and that the Secretary advertise for another teacher to fill the vacancy.

FROM ALL OVER.

A Scandinavian National Union has been organized at Winnipeg.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

Petroleum of good quality has been found oozing from a hole in a river bank in the Duck Mountain District.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

A Guelph gentleman and his horse were attacked by a swarm of bees belonging to a prospective customer and severely stung.

THE CHOLERA.—Possibly the cholera may not reach our locality this season. Nevertheless, we should take every precaution against it. Dr. Fowler's Extract of Wild Strawberry is a sure cure for Cholera Morbus, Colic, Cramp, Diarrhœa and Dysentery.

A Hampstead cat, whose kittens were drowned in the spring, secured in the woods two young squirrels, which she reared successfuly.

KNOWN BY THESE SIGNS.—Dyspepsia may be known by Heartburn, Sour eructions of food, Wind Belching, Weight at the Stomach Variable appetite, Costive Bowels, etc. Burdock Blood Bitters will positively cure Dyspepsia, although in its worst chronic form.

IS IT ACTING RIGHT.—If you are troubled with inactive Liver, your complexion will be sallow, frequent sick headache, aching shoulders, dizziness, weariness, irregular bowels, and many other serious complaints. Burdock Blood Bitters regulate the Liver and all the secretions to a healthy action.

A two-year-old child of Mr. Malcolm McMillan, of Regina, has been missing since July 12th, and it is feared that Indians have kidnapped it.

KEEP YOUR HOUSE GUARDED.—Keep your house guarded against sudden attacks of Colic, Cramps, Diarrhœa, Dysentery and Cholera Infantum. They are liable to come when least expected. The safest, best and most reliable remedy is Dr. Fowler's Extract of Wild Strawberry.

A Chinaman named Ah Lung, landed at Port Arthur the other day and was much disgusted at being compelled to pay the statutory fee of $50.

The most deadly foe to all malarial diseases is Ayer's Ague Cure, a combination of vegetable ingredients, of which the most valuable is used in no other preparation. This remedy is an absolute specific, and succeeds when other remedies fail. Warranted.

They have been enjoying hot weather at Prince Albert. For two or three days the mercury stood at and over 100 in the shade—one day marking 105 at sunset.

The curative power of Ayer's Sarsaparilla is too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of its marvelous cures are to-day living in every city and hamlet of the land. Write Dr. J. C. Ayer & Co., Lowell Mass., for names.

The Canadian Pacific Railway will probably build a handsome passenger station at the foot of McGill-street, Montreal, as the terminus of the Transcontinental route.

AN OLD FAVORITE.—An old favorite, that has been popular with the people for nearly 30 years, is Dr. Fowler's Extract of Wild Strawberry for all varities of Summer Complaints of children and adults. It seldom or ever fails to cure Cholera Morbus, Diarrhœa and Dysentery.

At the Brockville market a lady purchased a pail of raspberries at what she considered a bargain, but changed her opinion when she found the pail half filled with basswood leaves.

A QUADRUPLE FORCE.—The reason why disease is so soon expelled from the system by Burdock Blood Bitters is because that excellent remedy acts in a four fold manner—that is to say, upon the Bowels, the Liver, the Blood and the Kidneys, driving out all bad humor, and regulating every organic function.

Antoine Aubertine died on Thursday last, at Boucherville. He was one of the few remaining veterans of 1812, and had reached the age of 98 years. His wife, to whom he was married in 1813, survives him.

A Lecture

Upon "The Labour Question" will (D.V.) be delivered by the Rev. Walter M. Roger, M.A., in the lecture room of St. Paul's [illegible] Tuesday, Aug. 10th, at 8 p.m. A collection will be taken up in aid of the building fund of the lecturer's church in London, Ont.

Died in British Columbia.

The Victoria, B. C., *Colonist* of July 28th records the death of Mr. Wm. Poole, who died at Connell Ranch, on the North Thompson river, on July 19th. Mr. Poole, who was a brother of Col. E. Poole, left Peterborough on March 12th, 1862, with a company of about twenty, for British Columbia. For a number of years he drove the stage between the Yale and Cariboo mines, and was well known in that country.

The Finest lot of Gent's Furnishings in Peterborough, at ANDREW MCNEIL'S.

Working this Way.

It looks as though the burglars who cracked the safes in Kingston and Napanee were working this way. The Belleville *Intelligencer* says that the safe at the banking house of E. D. O'Flynn, Madoc, was drilled on Sunday night. Up to the present writing it has not been ascertained whether the burglars gained an entrance to it or not. The door has been operated on in such a manner as to leave it so that they cannot open it.

The Two Days Meet.

Year after year, large numbers of our townspeople and the country people as well are in the habit of taking trips to Rochester and other places to see a good horse race. You will save all this time and money this year by attending the two days races to be held in the Peterborough Driving Park on Thursday and Friday, August 26th and 27th. Over $1.100 in cash prizes will be awarded, and the management are arranging to bring the best horses in Canada here to compete in the races.

Death of P. J. Brennan.

The Cleveland *Plain Dealer* of August 2nd says:—"Mr. P. J. Brennan, well known in hotel circles, died on Suuday, in the Huron street hospital of Bright's disease of the kidneys. At one time he kept the Ashtabula house at Ashtabula and the Cowles house at Painesville, but of late has been connected with the Brazil house of Buffalo. The funeral services were held in St. John's cathedral on Wednesday, and the remains were sent to Peterborough, Ont., for interment. The deceased reached the age of 34 years." The funeral took place from the railway station here on Tuesday to the Roman Catholic Cemetery.

Lacrosse.

The following are the names and positions of the Riversides against Hastings in the lacrosse match, which takes place to-morrow afternoon at 3 p.m.:—

J. Phelan	Goal
E. Rogers	Point
W. Walsh	Cover Point
T. Maher	Defence Field
J. Begley	"
W. McAvella	"
F. Larone	Centre Field
F. Pakenham	Home Field
H. Neil	"
R. Begley	"
R. Duncan	2nd Home
D. Rose	1st Home

The grounds have been newly trimmed up, both teams have been in steady practice, and the match will be doubtless well worth seing.

No. 3. Company.

A meeting of above Company will be held at 7.30 o'clock this evening. Every member is particularly requested to be present.

Appealed.

Mr. Brophy has given instructions to have the case Redman vs. Brophy appealed. The case will come up at the next session of the County Court.

Excursion to Toronto.

On the civic holiday, August 19th, a cheap excursion will be run to Toronto per C.P.R. Return tickets, good for two days, $2.00. Train leaves at 8.39 a.m. Tickets at Elliott's, George street.

Garden Party.

A garden party will be held at the residence of Mrs. Orde, Robinson street, Ashburnham, next to Mr. H. Calcutt's, on Tuesday, August 10th. Admission ten cents. Proceeds for St. Luke's Church. The Fire Brigade Band will be in attendance. All made heartily welcome from 5 o'clock.

For their Benefit.

For the benefit of the ladies who are so kindly interesting themselves on behalf of the Fire Brigade Bund to pay off the debt incurred by getting the new uniforms the following information is supplied: The full outfit consists of a uniform, cross belt, forage cap and busby, costing altogether between $750 and $800. Very little provision has been made as yet to meet this debt. There are twenty four complete suits.

The Site Selected.

A meeting of the Building Committee of the West Peterborough Agricultural Society was held on Tuesday evening for the purpose of letting the contract for the erection of the new exhibition buildings. The contract was awarded to Mr. Wm. Lasher, he to commence work at once. This morning Messrs. McClelland, Gabutt, Collins and the contractor went to the grounds and laid out the site. The site chosen for the building to be now erected will render the erection of the main building directly facing the end of George street when opened through to the boundary. The contractor will commence work at once and the building is expected to be ready for occupation by the middle of September.

At Banff Springs.

A Winnipeg despatch says that the Hon. Thomas White stopped at Banff Springs in connection with the establishment of a national park there. The grounds, about 20,000 acres in extent, are being laid out by Mr. Geo. A. Stewart, C. E., (formerly of Peterborough), who has about forty men under him. They are surveying roads and planning bridges. The land is grandly picturesque, being wild and mountainous, and affording grand climbing for those who enjoy exercise. The Cascade mountains tower about 5,200 feet above the valley, and the Split mountains are nearly as high. There are a great many islands in Bow river, and the whole country is one where great enjoyment may be had.

Wanted His Pay.

After submitting patiently to the searching examination by Mr. Edwards at the Police Court this morning for about an hour a witness announced that by coming there to attend he had lost his day and wanted pay for it.

The MAGISTRATE looked at his watch and remarked that there was time yet to put in three-quarters of a day, and added that if he would go down to Mr. Macdonald he would get 50 cents.

WITNESS.—But I can earn $3 a day.

The MAGISTRATE informed the witness that this was a poor place to come with the expectation of earning a large salary in the capacity of a witness and explained that the law allowed him nothing; it was merely an act of grace on the part of the court that he got this 50 cents.

WITNESS (resignedly)—Well, the next time I come to this court, I won't come, that's all.

Personal.

The Kingston *Whig* of Tuesday says:—"John Miller, B. A., Peterborough, and friends, who have been down to Quebec on the steam yacht Dot, returned here last evening. To-day they proceeded to Belleville. The yacht will be taken to Peterborough on a freight car."

Judge Dartnell, Junior Judge of the County of Ontario, has been in town during the past few days. During his stay he was the guest of Mayor Stevenson.

Mr. John Brydon has gone to Buffalo to fill a two month's engagement in the Orchestra of the 65th Regiment band, of that city.

Mr. F. W. Millar, Master of the Fire Brigade Band, is on a holiday trip down the St. Lawrence.

Mr. Rufus Stevenson has returned from the eastern Provinces. He spent a pleasant time in Halifax.

The Rev. Dr. Burns, who is to lecture on the Irish Question at the Opera House this evening, arrived in town at noon. He was met by a reception committee and conducted to the residence of Dr. O'Sullivan.

SCOTT ACT.

The Opening of Another Campaign at the Police Court.

At the Police Court this morning several Scott Act cases came up. The court room was crowded.

The first case was that of the Queen vs. Lipsett. There were two charges against him, one for selling liquor between May 28th and July 28th, and one for selling liquor between 28th July and the 2nd of August.

By the consent of both parties it was agreed to withdraw the former charge and incorporate the two charges in one. He pleaded guilty to the charge, and admitting a previous conviction, was fined $100 costs, to be paid in ten days, in default of payment distress, and in default of distress imprisonment for three months.

Mr. Edwards appeared for the prosecution and Mr. Stratton for the defence.

QUEEN VS. KENNEALLY.

Wm. Kenneally was charged by Henry Rossiter with having between the 1st and 31st July sold intoxicating liquor contrary to the provisions of the Scott Act.

The defendant pleaded not guilty.

On account of the absence of witnesses the case was left over.

QUEEN VS. SNOWDEN.

Wm. Snowden was charged by Henry Rossiter with having between the 1st and 31st of July sold intoxicating liquor, contrary to the provisions of the Scott Act.

Mr. STONE, acting for the defendant, pleaded not guilty.

THOS. WELSH said that he had drinks at Snowden's during July. He had what was called ginger ale. What he got did not taste as if it had intoxicating liquor in it. Others with him drank the same stuff as he did.

JAMES MCMARTIN said that sometimes he drank whiskey. He drank at Snowden's several times during July. He called for Moxie and got it. He couldn't say for certain that there was intoxicating liquor in it There might have been. He got his drinks from the bartender.

To Mr. STONE—Was in several times during July. The Moxie I got was kept down below the bar. It is not unusual to keep bottles there. I never had the Moxie analyzed. What I got didn't make me drunk.

To Mr. EDWARDS—When I asked for Moxie I expected to get intoxicating liquor. What I got tasted hot. It was not like whiskey; it was too hot.

WM. SNOWDEN said that he kept a temperance house. There is a bar in it. He bought his Moxie in Montreal. He sold lemonade, ginger ale, cold tea, and other temperance drinks. He declined to say whether anything stronger was sold. He declined to say whether he sold intoxicating liquor during the month of July on the ground that the answer might tend to incriminate himself. He declined to answer the question, "If anyone swore that he got liquor at your hotel would you deny it?" He declined to say whether he had kept brandy or absintbe. He declined to answer all such questions.

JOHN GUTHRIE got nothing intoxicating to the best of his knowledge at Snowden's during July.

JOHN HUSTON got nothing but pop and ginger ale at Snowden's during July.

HENRY MANLY gave similar evidence. He was positive there was no intoxicating liquor in what he drank.

JOHN DONOVAN did not know the taste of whiskey since Sept. three years ago. He got ginger ale, but nothing else, at Snowden's during July.

The case was adjourned till 2.30 p.m.

QUEEN VS. KENNEALLY.

The Kenneally case was heard.

ADAM DAVIDSON said that Moxie was not intoxicating so far as he knew. He sold it for Mr. Kenneally and that was all he knew about it.

MARK CURTIS said that he got ginger ale at Kenneally's in July, but got no beer or Moxie.

JOHN SWANSON drank twice at Kenneally's during July. He asked for something strong but was refused. He got nothing there but ginger ale.

FRANK HAGGART got nothing intoxicating at Kenneally's.

WM. KENNEALLY stated that he kept a Temperance House, formerly a licensed hotel. He declined to say if he had on hand the same stock of liquor he had on May 1st, on the ground that the answer might criminate him. He declined to say, for the same reason, whether he had sold intoxicating liquor during the time specified. He sold Moxie. He didn't think there was anything spiritous in it. He didn't put whiskey in it. He declined to say whether he kept liquor for sale during July.

The case was adjourned till the afternoon.

A Practising Barrister.

Mr. STONE (at the Police Court just before the first case is called)—Mr. Moore, are you a witness in one of these cases?

Mr. MOORE (ironically.)—I have not been practising at that bar of late.

The MAGISTRATE—Call the first case.

Down by the River Side.

Those who want to spend a really enjoyable outing should at once decide to accompany the Court Little John Foresters to Campbelltown to-morrow. RECEIVED this week a job lot of ladies, fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

Garden Party.

A meeting of the ladies of different churches was held on Tuesday afternoon in the Y. M. C. A. rooms, when it was decided to hold the Fire Brigade Garden Party on the evening of Thursday, August the 12th, from 7 to 10 o'clock. St. Peter's Cathedral and St. John's church will supply ice cream and cake, the Charlotte Street Methodist church lemonade; George Street Methodist Church, cake and coffee; St. Paul's Church, a donation; St. Luke's Church, Ashburnham, cake and flowers; Baptist Church, fruit. Contributions will be thankfully received in the St. John's Church grounds on the afternoon of the party. Admission to garden party 10 cents.

The Gardens.

On Tuesday evening the people who crowded the park in expectation of hearing the band concert were delighted to find the Gardens brightly and beautifully lit up with electric light beaming from two lamps from the top of a fifty foot pole. This light is placed in the Gardens by the free gift of the Electric Light Company for the benefit of the band and the people. The company deserve the thanks of the public for their generous gift. The public are indebted to others, and more especially Mayor Stevenson, who has spent a large amount of money in beautifying the park. But for him the Horticultural Society, which is already in debt, could not have carried out the improvements lately made in the park. Besides paying out a large amount last year, presenting the fountain and providing gas light, he has kept two men steadily at work in the park this year and paid their wages. And now he has his men at work on the Central Park. Mr. Stevenson deserves the public thanks, the more because he has done all this unconcernedly and without saying anything about it. Mr. Dunlop is to be thanked for his generous gift of the stone steps, and the Water Company for supplying the water. Were it not that private persons take an interest in the Gardens the town's $300 and the county's $75 would not go far towards making these grounds the beautiful place they are.

Take a Pill

To regulate the bowels and drive away the sick or billous headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

THTRSDAY, AUGUST 2, 1886.

LABRADOR FABLES.

IT is now clearly established that the harrowing tales of the people of Labrador having been driven to canibalism, starved to death or devoured by bears and wolves have no foundation in fact. They were diabolical inventions of some one who was inspired by love of ill-gained money, a desire to give a bad name to this country and its adjacent seas, or a mere gratuitous pleasure in the infliction of pain and horror upon his readers. It is probable that no punishment commensurate with the offence can be inflicted, but this is all the more reason why his identity should be ascertained and made known, so that he may be held up to public scorn.

These fiendish forgeries appear not to have originated in Newfoundland. They were first published in New York and thence repeated to the press of the continent. Some of them, at least, were evidently concocted at Ottawa, but that is all that can be ascertained at present.

The authorities of the telegraph companies and of the Associated Press should be able to throw some light on this subject. They, and all others who can aid in the exposure of the culprit, should give any information in their power, unless they are willing to rank as accomplices in this wicked outrage.

SOME of the Rielite journals are asserting that the Conservatives, in reply to any charges made against the Macdonald Administration, have no defence but the cry that Riel was hanged. Neither Conservatives, nor those honest Reformers who are now uniting with them, boast of the sad necessity of executing the murderous rebel. It was not the Administration, but the laws of our country that punished Riel for his crimes. It is the friends of Riel, and those Reformers banded with them, who are hoping to dismiss from power the Macdonald Administration as a punishment for not saving their dead chief from justice. That was their sole campaign cry in their first electoral contest.

THE *Globe* describes the success of the Rielite candidate at Chambly as "the beginning of the break up" of the Conservatives. The organ of the Riel-Blake combination will find that it is the beginning of the break up of the present Reform party, for the honest and loyal Reformers in the Province of Ontario will refuse to follow their degraded leaders, as did their brethren of the Province of Quebec. And there are not in Ontario enough friends of rebellion and murder to outweigh the loss that Messrs. Blake and Mowat will thus sustain.

At no time in the history of lacrosse has the national game been so popular throughout the Dominion as it is to-day. Every centre of population above the rank of a village has its lacrosse club and practice ground.—*Ottawa Journal.*

A MASCOT.

The Hotelkeepers Counsel says He's a Detective—He says He Isn't.

The hearing of the Queen vs. Snowden case was resumed at 2.30 p. m.

ALEXANDER POLLARDS, sworn, stated that he got liquor at Snowden's. It was pure whiskey. He got it from Mr. Snowden.

To MR. STONE—I come from Toronto. I sell patent sleeves and curry combs. I am not a patent whiskey informer. When I went to Mr. Snowden he did not buy anything from me. The first time I saw Mr. Edwards was in court this morning. He heard me say that I got a drink and subponed me.

MR. SNOWDEN sworn, stated that he did not give the last witness any liquor at his hotel.

The MAGISTRATE reserved judgment.

QUEEN VS. KENNEALLY.

The case of Queen vs. Kenneally was resumed at four o'clock in the afternoon.

ALEXANDER POLLARDS was called. He stated that he was in Kenneally's hotel in July. He got something strong, similar to what he got at Snowden's. It was spirituous liquor. He asked for Moxie.

To Mr. Moore—I got Moxie at Orillia. Its more like bitters than anything else. It is sweet, more sweet than bitter. I got no whiskey at Morgan's. What I got at Kenneally's was white. It was whiskey I got there. I saw Mr. Flavelle one day. He asked me if I was around the hotels. I said yes. I did not know that I was speaking to the Right High Boss of the Scott Act Association. I don't know any of the members of the Scott Act Association. He asked me where I had been and I told him. I got a bottle of this stuff at Kenneally's on Saturday night.

Mr. MOORE—Where is the bottle.

WITNESS — Mr. Edwards will know, I guess. (Laughter.)

Mr. MOORE—Did you drink the contents?

WITNESS—No.

Mr. KENDRY—I can produce the bottle if necessary.

WITNESS—I gave the bottle to Mr. Kendry. I was going [illegible] to see him a curry comb (laughter) when he took it from me. He asked me what I had in my pocket and took the bottle. I did not know him.

The MAGISTRATE—Oh, there's no use of making any bones about it; you're a detective, are you not?

WITNESS—No. I am not a detective.

WM. RUTH said that the Moxie and Richileau Water Company supplied the Moxie he purchased. He supplied hotels with it. He supplied Mr. Kenneally. He didn't think there was any liquor in it.

ADAM DAVIDSON, recalled, said: The last witness was in the hotel off and on during the last two weeks. He got Moxie several times. The Moxie I sold I thought had no liquor in it. Sometimes I put water in it, but never whiskey. This man got a flask from me. It was Moxie I gave him. I poured it from the Moxie bottle into the flask. I am sure there there was no liquor in it.

WM. KENNEALLY, recalled, said that the statement made by Pollard as to his selling whiskey for Moxie was false. There was no spirituous liquor put in the Moxie which he sold—none whatever.

To Mr. EDWARDS—I have had no whiskey for sale in my hotel since I was last convicted. My bartender has charge of no intoxicating liquors.

The flask give by Pollards to Mr. Kendry was produced.

Pollards testified that he gave it to Mr. Kendry as he got it at Mr. Kenneally's.

Mr. KENDRY testified that it was the same as it was when Pollards handed it to him. He further stated that he had no understanding with Pollards as to pay or anything of the kind. Pollards met him on the street and said that the hotels were openly breaking the law. He asked Pollards to get a bottle of the so called Moxie and Pollards did so.

The flask was opened and it was found to contain spirituous liquor.

The Magistrate reserved judgment.

QUEEN VS. CLANCY.

The case Queen vs. Clancy was heard this forenoon. It occupied the attention of the Court until noon. Though the witnesses were subjected to close scrutiny no evidence sufficient on which to found a conviction was elicited. The case was dismissed with costs to be paid by the informant.

REVIEWS.

ST. NICHOLAS.—The young folks' favorite magazine will be more welcome than ever this month. "Little Lord Fauntleroy" has a tumble, but bears it like a man. "The Kelp Gatherers" find something more interesting than seaweed to save. "Man's Revolt" continues, but Bert gets the start of her friends. Salmon fishing, the animals of the Rockies, a lot of sailor lore, tales, games, pictures, and a host of other attractions make a number that will be hailed with delight.

Two Fatalities in Ottawa

OTTAWA, August 4.—John Murphy, laborer aged 23, was buried by the cave-in of a drain on Daly street to-day. He was dead when extricated. He leaves a wife and two children. The first fatality in connection with the erection of the new parliamentary building occurred this morning, when Robert Ferry fell a distance of twenty feet, from the top of the wall, and fractured his skull and both arms. He died while being removed to the hospital. He was aged 42 and leaves a wife and family in England.

A GLOOMY PICTURE.

DUBLIN, Aug. 4.—*United Ireland* says:—"We have now to begin again the ghastly task of convincing the English that no other terms than the concession of Home Rule can result in anything but an affair of bayonets and manacles. The Castlereaghs who choose to try to rule must do so by gibbets and bullets. The only thing possible for the Irish to do is to hate, resist and thwart them with all their hearts and all their might."

DUBLIN, Aug. 4.—At the Parnellite meeting to day Messrs. John E. Redmond, M. P. for North Wexford, and William O'Brien, editor of *United Ireland*, were appointed delegates to represent the Irish National League at the League convention in Chicago on August 18.

A SIGNIFICENT LETTER.

LOLDON, Aug. 4.—Mr. Gladstone, in a letter to Mr. Arnold Morley, says:—"Even apart from the action of permanent causes, the strain of the last six years upon me has been great, and I must look for an opportunity for some change and repose, whether in or beyond England. But in one important respect I feel that relief must be sought forthwith and be made permanent. It has been my fate to be charged with personal correspondences in part highly interesting, but I think far greater than has ever fallen to the lot of any other individual. My private secretaries, when I was in office, by hard labour carried on what I may call the work of the entire department. I shall be unable henceforth to maintain the establishment or promise the devotion of time and surrender of personal liberty which the efficient conduct of intercourse by letter with not less than twenty thousand persons each year requires." Mr. Gladstone then addresses a notification to all concerned of his inability to reply to letters, return manuscripts, etc. Some persons believe that the ex-Premier's letter foreshadows retirement from public life.

POLICE FEAR THE MOB.

LONDON, August 4.—The Radicals of Birmingham will oppose the re-election of Mr. Matthews.

ATTEMPTED ASSASSINATION.

LONDON, Aug. 4.—Advices from Constantinople report an attempt to assassinate the Grand Vizier. That official was out driving on Sunday afternoon in Haliliaghia and two shots were fired at him by a Tartar. Neither of the shots struck its mark. The assassin then pursued the carriage with a drawn sword, with which he endeavored to strike the Grand Vizier. He was arrested and taken before the Sultan at the Yildizkiosk. To His Majesty the Tartar declared that the Grand Vizier had prevented him from securing justice, and impored him to hang the Vizier.

MEETING OF PARNELLITES.

DUBLIN, Aug. 4.—The Parnellites re-elected Mr. Parnell as chairman and Mr. Justin McCarthy vice-president. The members pledged themselves to maintain the rights of the Irish people to govern themselves, and it was resolved that no measure offering less legislative and executive control over Irish affairs than does Mr. Gladstone's bill be accepted. Mr. Parnell proposed that heartfelt thanks be offered to their fellow-countrymen and friends throughout the world for the generous sympathy and splendid moral and material support given to the Irish people at home towards sustaining the movement to obtain a National Government. The motion was carried by acclamation. The members present received ovations on their arrival and departure.

For the past quarter of a century West's Cough Syrup has given relief to thousands, and no medicine compound can show such a vast number of unsolicited testimonials. Ask your neighbor as to its merits. It is an unfailing cure for coughs, colds, hoarseness, asthma, bronchitis, consumption in its early stages, and all throat and lung diseases. Price 25c. 50c. and $1.00 per bottle. Sold by J. D. Tully.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

THURSDAY. AUGUST 5, 1886.

HOME RULE DISCUSSED.

A SYSTEM OF LOCAL SELF-GOVERNMENT ADVOCATED

For England, Ireland, Scotland and Wales, Together With an Imperial Council at Westminster wherein All would be Represented—A Step Towards Imperial Federation.

On Wednesday evening a lecture was delivered in Bradburn's Opera House by the Rev. Dr. Burns, of Hamilton, on the Irish Home Rule question.

At eight o'clock the hall was crowded. Those who took seats on the platform were: Mayor Stevenson, D. W. Dumble, Police Magistrate, Councillors Rutherford, Cahill, and Davidson, Thos. Blezard, M.P.P., the Rev. Fathers Conway, Peterborough, Keilty, Ennismore, O'Connell, Douro, and Condon, Minnesota, the Rev. Mr. Wilson, Ashburnham, E. J. Toker, J. W. Fitzgerald, J. R. Stratton, J. O'Meara, and J. Crough, Reeve of Ennismore.

Dr. O'SULLIVAN occupied the chair.

The speaker was received with applause, after being happily introduced by the chairman, in whose remarks the old college days, when he was pupil and the speaker of the evening was professor, were pleasantly recalled.

Dr. BURNS, after paying a compliment to Peterborough and its people, and commenting briefly on the days gone by when he ruled the chairman, proceeded to his lecture by stating that time had worked wonders, and that to-night he was bound to obey his old pupil.

He rose with feelings of pleasure to address the people present. As the subject was a ticklish one he would take the liberty to read what he had to say. There were too many Irishmen who would, when charged with being an Irishman, either turn pale or reflect all the rays of a prism in his face, but he was thankful that he could say at the outset that no such

UNPATRIOTIC BLOOD

coursed through his veins. Whenever he heard the name of anything Irish his heart beat with a nyitor and kindlier pulsation. He could not remain quiet and hear the sons of Ireland being charged with chronic discontent without saying something in their behalf. The song of freedom had long been sung by the Irish with the fond fancy that it included them. The Irish had ever helped to fight England's battles—from Bannockburn to Trafalgar. But those hopes of freedom with which that grand old song was sung seemed vain. The five millions of Irish know what it is to live on in anticipation

OF A BRIGHTER TO-MORROW

in their own land. For peace and favoring fortune they turned westward. Death, or a steerage passage to America, gave many a happy release from their misery. What was it that caused this misery? Was it because the Irish were improvident? No! A lazy Irishman was a rare thing, and an improvident, shiftless Irishwoman was rarer. There were many of the Irish who spent their last shilling to get a passage to the continent to work for his family at home, but there were thousands and thousands of the Irish, painful though it might be for him to relate, who never from one year's end to another tasted meat in any form,—beef, mutton, pork or poultry, and there were Irishmen in this house who knew this to be the case. To these poor people butter and eggs were a luxury. All these go to pay the rent for their plot of ground and the miserable hovel which pretended to shelter the pitiable inmates. He had seen Irishmen, brave fellows, work for 6 pence a day, and Irishwomen toil throughout the long harvest day for 4 pence.

What was the cause of this? Dissipation? It was not dissipation which caused this misery. The lower classes, where the misery existed, could not afford the money. A modern authority declared that the present misery of the Irish was

MORE INTENSE

than the misery of the lower classes in pagan lands. Gladstone and Bright declared as to the destitution of the Irish, and a London newspaper, whose representative was sent to Ireland for the express purpose of contradicting, if possible, the reports of this suffering which seemed to be such a standing reflection on Great Britain, bore testimony to it. This misery was not caused by the country's being too densely populated. At article had appeared in the *Westminster Review*, the most critical journal on earth, that if the land of Ireland were properly tilled it could support from 20,000,000 to 25,000,000 people in comfort. No; Ireland's misery could be attributed to no other cause than its mode of government. With a government selected from the people, by the people and for the people Ireland might be made to

BLOSSOM AS THE VERY GARDEN

of the Lord (applause) and produce a people as happy as the day is long and as merry as a joyful heart. Ireland has her right to self government. Home Rule in no way implied separation. It might be taken for granted that self government was best for all people except uncivilized tribes. What do Canadians believe about self-government? Did they feel like being ruled by anyone but themselves? He believed in self government as it existed in Canada, and the neighboring republic, where the people were quite as free as, but no freer than we are (applause). This system England had recognized as a good system when given to Canada and Australia—when she declared for it herself. The sons of Britain were fairly surcharged with the spirit of freedom. When at the time of the American Revolution the inflamatory literature set the people of Europe in such a blaze that the monarchies conbined to crush out revolution, England never once joined in their councils to prevent the people from changing their form of Government if they chose to do so.

There was no people in the world who exulted more in their sense of being free than the English. And would Canadians be in favor of enslaving a people, or being enslaved themselves. But the greater part of the Irish were slaves. There the minority, instead of the majority, ruled. The greatest good to the greatest number was not sought for. He briefly traced the constitutional history of Ireland from the time of Henry II. Pope Adrian IV. gave Henry sovereignty over the land provided he would bring the people into obedience to the Church. The land was secured and divided among ten English families, all except two with no claims whatever, and the land was usurped. To aggravate further the dissensions of race the religious strife came afterward at the time of the Reformation. But both priests and people resisted Henry VIII.'s effort to change the creed of Ireland, and clung resolutely to the religion of their fathers. It was found to be impossible to change a people's religion by Act of Parliament. Matters were not improved by the accession of Elizabeth. He enumerated the restrictions placed on Roman Catholics. Rewards were given for the apprehension of bishops, priests and clerks. Catholics were forbidden to sit on grand juries; a Catholic could not even be a barrister. (Laughter.) A barrister could not marry a Catholic, and the priest found guilty of solemnizing such a union was condemned to be hanged. No Papist was allowed to marry a Protestant. And yet Catholic Ireland submitted without a word to all these indignities, and even at the time of the Stuart rebellions not a sign of an uprising was made. In 1763 an attempt was made to remove some of these strictions. A measure was brought in to allow a Catholic to hold a mortgage on land. After repeated rejections it was finally passed, providing that the mortgagee could never possess the land, but must sell it to get his own from it.

THE FIRST RELIEF

which Ireland got was at the time of the American revolution, when all the troops were withdrawn, 100,000 volunteers, voiced by Gratton, asked for redress. Even at this crisis, when all Europe was at England's throat the Irish demands were moderate. They commenced by declaring that Great Britain and Ireland were inseparably united under one sovereign. They also declared that the King and the Lords and Commons of Ireland were the only power to make laws for Ireland. The Bill, however, was not passed. In 1782 200 delegates from the volunteer force passed thirteen resolutions, all admitting of perfect unity with the Empire. The Poynings Act which had been in operation for 288 years was the first removed, and the restrictions put upon the the Irish Parliament by the English Parliameat were done away with. But it was made obligatory for members of Parliament to subscribe to the declaration of his disbelief in transubstantiation before taking his seat. This, of course, debarred Roman Catholics from sitting. Besides, only 72 members out of the 300 were actually elected, the rest being appointed in various ways. In 1791 the United Irishmen, was formed. The founders were Protestants who decried the restrictions that were put upon their "Roman Catholic brethren." Fifty Protestants signed the bill calling the first meeting. Officers of this Society were declared traitors and in many cases were executed. Out of 12 Presbyterian clergymen who were labouring in the cause five of them were hanged. It was not a disgrace to Presbyterian ministers to labor in the cause in those days. Six priests shared the same fate. The agitation was kept up principally by Protestants at that time and mostly Orangemen, whose prominent principle, so far as he knew seemed to be "fair play to everybody," (applause). The union was simply a sale of the members controlled by landlords and others. £15,000 a seat was given and the national debt was increased £6,000,000. It was the nobility who did this. He trusted that the day would soon be here when no nobility would be recognized but that of true heart and head and hand in the sight of God. (Applause).

He went on relating of the gradual reform of abuses—the disestablishment of the Irish Church, the repeal of the marriage code, the repeal of the Test Bill, etc. He spoke of the difficulty of getting a bill for Irish relief through the House of Lords, as the landed interests were solid against anything which infringed on their interests. Between 1871 and 1881 31 bills for

IRISH REDRESS

were withdrew but 7 bills were without any difficulty passed to hold the tenantry in subjection.

Ireland submitted to what the yeomanry of England, Wales or Scotland would never have borne. Surely there had been enough of this experimenting in the mode of governing Ireland. A man who had been watching these experiments for the last fifty years was now convinced that Ireland should have Home Rule. Yes; the form of W. E. Gladstone loomed up the colossal figure of the century. And the cause now, though the Ministry is defeated, is not in danger since right is right and

GOD IS GOD.

Home Rule and the Land Purchase were sure to come. The fight of the politicians stimulated by bigotry had to come to an end, and the struggle between privileged classes, which challenged the rights of free born Irishmen, and the people would end in victory. A Primrose Club had been formed not long ago. At the first meeting Lord Salisbury received an ovation. The papers said that the nobility was largely represented. He had no doubt it was. And what nobility was not there in person was there in spirit. The object of this club was to "secure a united opposition to the flood of infidelity and Socialism which was at present menacing the world." What was it that produced this coldness and infidelity in various countries but the establishing of churches. The Church of England would be infinitely stronger to-day if it were disestablished. Look at the fruits in Ireland! The church lives in the hearts of the people. And the hot bed of Socialism—was it not in the European countries where the people's rights were usurped? But the lords spiritual and the lords temporal were set in one solid body against relief in these matters. The privileged classes parted very grudgingly with their privileges. The day was dawning when Ireland would have her own Parliament, Scotland her own Parliament, Wales hers and England her own despite all unnatural means used to prevent it. Then would each country transact her own local business and blend harmoniously to look after Imperial affairs in Westminster. At the time of the disestablishment a great howl was made that Protestantism was failing. This is because a bill was repealed that compelled Catholics and others to pay a minister not their own and who sometimes had not a congregation. And the Bill was passed and Protestantism had not yet fallen. Now the cry was made that the whole empire would be disintegrated if Ireland got Home Rule. It would be found that the Union Jack would

FLOAT AS SERENELY

the day after Home Rule is granted as it did the day before, and that the ties binding the two lands into one would be indefinitely strengthened. The most humiliating spectacle he knew of was that of an Irishman opposing the freedom of his own country. And yet he knew some of these. They asked, "Do you think that Ireland is oppressed?" What ignorance! And, again, "Are the land laws in Ireland any worse than those in England?" The Prime Minister of England declared that they resembled each other but in skeleton. So long as one people who did not understand another tried to legislate for them, such rule would be a constant and ridiculous muss. The Teuton could never legislate for the Celt, no more than the Roman Catholic of Upper Canada could make laws for the *habitant* of Quebec. He quoted land statistics and stated that if the land, three-quarters of which was held by families not numbering 30,000, were subdivided, 600,000 Irishmen would

REJOICE IN THE OWNERSHIP

of 20 acre farms. Irishmen were willing to not only take back the land taken from them by their Norman robbers without charging any rent in the meantime, but they are willing to pay a good price for it. He looked on local self-governments in the United Kingdom as a step toward Imperial Federation, when English, Irish, Scotch, Australians, East Indians and Canadians would all meet in one Parliament. The Irish question was not a question of a day. It had been agitated a long time now, and was coming more and more forward. He quoted a long list of prominent men who had been converted to the Irish cause—Gladstone, Calderwood, four hundred English Methodist ministers and even the great Spurgeon himself. It had been said that Ireland would use her power of Home Rule for religious oppression, but surely anyone could not reasonably think that Ireland was going to fulfil the prediction of her enemies; such would lead to reconquest, and the last spark of hope would die out.

What was wanted now was the unity of Irishmen to accomplish the great end. Let not the enemy run in and take advantages of petty differences. As the shades and colors nicely merged produced the pure white, so should all of such shades of difference, including the Orange and Green, be merged into one happy unit. (Hear, hear, applause.) This was their strong hope. Priest and Presbyter should be bound closer together. Instead of making much of the points of religion, where they disagree they should dwell on the great principles which both believed in. The Boyne should be bridged, and the Orangemen and Catholics should meet each other with a patriotic hand shake.

The disestablishment of the Welsh, Scotch and English Churches, and the wiping out of the Primogeniture sucession will come next. With these changes the people would be happier, the Church stronger, the Empire mightier. The artist from the antipodes sketching the ruins of St. Paul's need not be looked for, but in the future, a grand and glorious Empire. (Loud applause.)

Dr. KINCAID moved a vote of thanks in an enthusiastic speech.

The Rev. Father CONWAY rose and seconded the motion, and amid an uproar of applause announced his intention of bridging the Boyne in the manner described by the learned doctor. This he proceeded to do while the applause continued. He paid a very high compliment to the lecturer and broke off short in case, he said, that he might let himself go, and keep the people waiting all night. It gave him the heartiest pleasure to "bridge the Boyne," and he only wished there were more men like Dr. Burns.

The motion was carried by cheers and waving of hats and hands.

Mr. Fitzgerald, the Rev. Mr. Wilson and Mr. Blezard spoke a few commendatory words and the meeting closed with three rousing cheers for Her Majesty the Queen.

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods. Without which none are genuine.

Custom Officers Attempt to Seize a Vessel at Louisbourg C.B.

LOUISBOURG, C.B., Aug. 3.—This historic port was the scene of great excitement yesterday. The schooner Ada Ann, lying in the harbor, was boarded at daylight by preventive officer Townshed and seized for having contraband goods, liquors and tobacco on board. As the officer got on board the captain ordered the anchor to be hoisted and the vessel put under weigh, but it being calm she made no headway. He then put a boat off to tow the vessel. In the meantime boats from shore, with the Customs officers, surrounded the vessel, and as the captain refused to give her up the men opened the hatches and took out the contraband goods, but the schooner was proceeding out of the harbor at the time, only part was captured. The "broad arrow" was put on the vessel, but as the captain defied the officer to take charge, the vessel escaped. She will be seized at the first port she enters, and the captain will be arrested on the criminal charge of resisting Customs officers and stealing the vessel from their custody.

HASTINGS.

A TORNADO.—A regular tornado struck this locality about four o'clock on Thursday afternoon of last week. For thirty minutes rain in dense sheets fell continuously; hailstones, some of which were from one to one and a half inches in size, apparently fragments of ice, rattled against the walls and windows like a fusilade of musketry, and many panes of glass were broken. The photographer's tent and the dime show were blown down. The loss to the former in the destruction of a large number of negatives, and damage to camera and chemicals, is estimated at seventy dollars. The end wall of Mr. Tough's new brick building had a narrow escape from being blown down, and which was only averted by Messrs. John Carey and R. Hughes working through the storm securing it with stays. The wall sways two feet from the perpendicular, and is now slightly out of plumb. The damage south must have been great. The track of the storm was about five miles in width, as two miles south and three miles north of this place, little or no rain fell. Judging from the density of the clouds it it appeared to be most severe south of us. Some of our fishermen who were down the river got the full benefit of the tornado.—*Star.*

BELLEVILLE.

A FARMER DIES IN HIS BUGGY.—On Saturday afternoon between four and five o'clock Mr. Hermon Bleecker, son of Wm. Bleecker, Esq., of this city, was driving homeward along the Madoc road in a canopy top phaeton, accompanied by his wife. Shortly after leaving Belleville he complained of faintness and dizziness, but as he had been in fair health no thought was given of the awful end so fast approaching. As they were passing through Foxboro, Mr. Bleecker gave a few gasps and expired. The remains were taken to Squire Palliser's Hotel, where they were examined by Dr. Faulkner, who pronounced it a case of enlargement of the heart. The deceased was about 30 years of age, and was a well-to-do farmer in the 7th concession of Thurlow, in the Turner settlement. —*Intelligencer.*

IRELAND.

Spamount Church, Belfast, was partially destroyed by fire on July 9th.

At Armagh Assizes, Hugh Daley, a farmer, charged with having murdered his wife, by kicking her to death at Black Watertown, on May 24th, was sentenced to penal servitude for life.

Lord Templemore has made his Dunbrody tenants an offer of fifteen per cent. reduction.

The new public swimming baths erected by the Corporation of Dublin in Tara street were opened on July 12th.

Not for many years have the crops in Athlone and surrounding districts looked so well as they do at the present time.

Extra police, to the number of 85, have been drafted into Killarney, and a large number have also been drafted into Kenmare.

Everywhere in Carlow the harvest prospects are most encouraging. Potatoes and oats are likely to be exceptionally heavy crops.

On July 3rd an armed party of moonlighters attacked the house of a respectable farmer named John Moloney, Silvergrove, and fired three shots through the windows. None of the inmates were injured.

A lamentable occurrence is reported from Spiddale, about fifteen miles from Galway. Dr. Brodie, a dispensary doctor, shot his wife while suffering from the effects of drink, to which he had been addicted.

The following resolution was unanimously adopted at the Kerry Assizes by the grand jury: "Resolved, that the grand jury of the county of Kerry regards with horror the long list of malicious injuries, numbering over 40, which has come before it, the applicants claiming and having been awarded compensation to the amount of over £700 for wilful, malicious, and in many cases most cruel injury done to their cattle and other property, the perpetrators of the outrages in no cases having been brought to justice, and this grand jury desires to express the hope that the Government will take such steps as will prevent the recurrence of such lawlessness, which involves ruinous taxation on the farmers and is inconsistent with the prosperity and civilization of any country."

Perils of the Police.

PITTSBURG, Pa., Aug. 3.—Lieut. Foster, Police Clerk Whitten and Officer Carr were seriously injured while making a raid on a disorderly house kept by a man named Carlisle, his wife and two daughters. They refused to admit the officers, and when the latter attempted to enter through a back window they were assaulted and terribly beaten. Whitten had his skull fractured, and will probably die. Foster was beaten over the head and is unconscious. Carr was badly injured, but escaped and returned with reinforcements and arrested the assailants. Whitten and Foster are in a precarious condition.

To Restore Colors.

Ammonia is a well-known neutralizer of acids that have destroyed the colour of fabrics. If applied immediately it is usually very effective; if not the colour is only imperfectly restored. An application of chloroform is unfailing in bringing out the colours as bright as ever. Plush goods and all articles dyed with aniline colours, faded from exposure to the light, will be completely restored by sponging with chloroform. This is realy a useful thing to know.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

THE CHOLERA.—Possibly the cholera may not reach our locality this season. Nevertheless, we should take every precaution against it. Dr. Fowler's Extract of Wild Strawberry is a sure cure for Cholera Morbus, Colic, Cramp, Diarrhœa and Dysentery.

Milton has a four-legged chicken whose extra legs and feet are perfectly formed, but are not used in locomotion.

KNOWN BY THESE SIGNS.—Dyspepsia may be known by Heartburn, Sour eructions of food, Wind Belching, Weight at the Stomach Variable appetite, Costive Bowels, etc. Burdock Blood Bitters will positively cure Dyspepsia, although in its worst chronic form.

IS IT ACTING RIGHT.—If you are troubled with inactive Liver, your complexion will be sallow, frequent sick headache, aching shoulders, dizziness, weariness, irregular bowels, and many other serious complaints. Burdock Blood Bitters regulate the Liver and all the secretions to a healthy action.

An infant son of Mr. John Latam, a farmer living near Godend, died on a M. C. R. train, of convulsions, caused by teething troubles.

KEEP YOUR HOUSE GUARDED.—Keep your house guarded against sudden attacks of Colic, Cramps, Diarrhœa, Dysentery and Cholera Infantum. They are liable to come when least expected. The safest, best and most reliable remedy is Dr. Fowler's Extract of Wild Strawberry.

Mr. Wm. Rowden, who lives on the Cranberry-road near Port Hope, killed in his barn a female snake and her interesting family of 75.

The most deadly foe to all malarial diseases is Ayer's Ague Cure, a combination of vegetable ingredients, of which the most valuable is used in no other preparation. This remedy is an absolute specific, and succeeds when other remedies fail. Warranted.

The wife of George Basseville died suddenly in Montreal on Saturday evening of heart disease. Basseville was serving out a six month's sentence for larceny, and the woman had four children to support.

The curative power of Ayer's Sarsaparilla is too well known to require the specious aid of any exaggerated or fictitious certificate. Witnesses of its marvelous cures are to-day living in every city and hamlet of the land. Write Dr. J. C. Ayer & Co., Lowell Mass., for names.

The dry season has turned the attention of farmers in the North-West to irrigation. In some places steam engines are driving wells, and it is said that one pump and windmill would be sufficient to irrigate 360 acres.

AN OLD FAVORITE.—An old favorite, that has been popular with the people for nearly 30 yeats, is Dr. Fowler's Extract of Wild Strawberry for all varities of Summer Complaints of children and adults. It seldom or ever fails to cure Cholera Morbus, Diarrhœa and Dysentery.

A thousand black fish passing through Port Hood Harbour, C. B., proved too strong a temptation for the residents of the town, who rushed out of houses and churches to capture the fish, which are valued at $50 each.

A QUADRUPLE FORCE.—The reason why disease is so soon expelled from the system by Burdock Blood Bitters is because that excellent remedy acts in a four fold manner—that is to say, upon the Bowels, the Liver, the Blood and the Kidneys, driving out all bad humor, and regulating every organic function.

On Sunday a M. C. R. emigrant special of fourteen coaches and four cars of baggage, with between 700 and 800 emigrants on board made the run from St. Thomas to Windsor, 110 miles, in two hours and sixteen minutes including several stops.

The farmer who had a large woodshed had trouble in hiring men, while his neighbor, who left his wood uncovered, was sought by the laborers. Men who are thoroughly lazy prefer places where no work is provided for rainy days. Take a Pill

To regulate the bowels and drive away the sick or billous headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

Horsford's Acid Phosphate—For Lemons or Lime Juice,

Is a superior substitute, and its use is positively beneficial to health.

THE DISCOVERY of the instantaneous process of taking photographs has been quickly followed in the medical world by a perfect and instantaneous remedy for all acute aches and pains, as Neuralgia, Toothache, Rheumatism, etc. This valuable remedy is called Fluid Lightning, and is sold at 25 cents a bottle by John McKee, Druggist.

A Sensation.

An unparalleled sensation is being created all over Ontario by the wonderful and unequalled manner in which Neuralgia, Toothache, Rheumatism, Backache, Headache, is removed by but one application of Fluid Lightning. No offensive, digusting drugs need be taken for days. It is an instant cure. Try a 25c. bottle from John McKee, Druggist.

Fluid Lightning.

All sufferers from that terrible torment, Neuralgia, can be made happy in one moment by a single application of Fluid Lightning briskly rubbed on painful parts, and without using any disgusting medicine day after day without any apparent result. Fluid Lightning also cures as effectually Toothache, Lumbago, Rheumatism, Headache, and is only 25 cents per bottle at John McKee's Drug Store.

Some Miraculous Results

Have followed the use of Dr. Dorenwend's "Hair Magic." It has saved many from becoming bald, and has produced good heads of hair on bald heads where the roots are not all gone. It has relieved hundreds of persons from dandruff, and restored crops of gray and faded hair to their original color. A. Dorenwend, sole manufacturer. For sale everywhere. J. D. Tully, agent for Peterborough.

Scott's Emulsion of Pure Cod Liver Oil With Hypophosphites,

In General Debility, Emaciation, Consumption and Wasting in Children,

Is a most valuable food and medicine. It creates an appetite for food, strengthens the nervous system and builds up the body. It is prepared in a palatable form and prescribed universally by Physicians. Take no other.

Hall's VEGETABLE SICILIAN Hair Renewer.

Hall's Hair Renewer restores gray hair to its original color; makes the scalp white and clean; cures dandruff and humors; prevents the hair from falling out, and renders it soft and brilliant. The editor of the "Ocean Foam," Cape May, writes: "We speak knowingly, when we assert that Hall's Vegetable Sicilian Hair Renewer is the best of its kind. The article is an elegant and cleanly one, without which we think no toilet complete." Thos. D. Jones, Middle Granville, N. Y., writes: "I have used

Hall's Hair Renewer,

Renewer about ten years, with satisfactory results." E. G. Perkins, Oberlin, Ohio, writes: "I consider Hall's Hair Renewer the best hair preserver in use. I have used it for the past twenty years, and my hair is in as vigorous and healthy a condition as when I was 30 years of age. Not a sign of gray hair to be seen anywhere." Dwight L. Chamberlain, Oakland, California, writes: "My hair, which was nearly white, has been restored to its original color and luxuriance by the use of Hall's Hair Renewer."

The advance of time is heralded by bleached, thin, and falling hair. By the use of Hall's Hair Renewer, the hair may be restored to its original color, lustre, and vitality. M. N. Johnson, Fitchburg, Mass., writes: "My hair was weak, thin, and full of dandruff. Hall's Hair Renewer has removed the dandruff, and caused a vigorous growth of new hair." Abel H. Smith, Portsmouth, Va., writes: "My hair had nearly all fallen out, and that which was left was dry and dead. I used one bottle of Hall's Hair

Renewer, and now rejoice in the possession of hair as abundant as ever." E. J. Adams, St. Paul, Minn., writes: "A diseased scalp caused my hair to fall out, and, after using a number of preparations without avail, I finally tried Hall's Hair Renewer, which caused a vigorous new growth. I am still using it, and could ask for no better results." Mrs. H. H. Corning, Battle Creek, Mich., writes: "By the use of Hall's Hair Renewer, my head, which was quite bald, has been covered with a fine growth of young hair."

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

What's in a Name?

A correspondent of the Hastings *Star* refers to the "lakros match between de Riverdrifers of Peterbora and the Ironklods of Hasteen." He writes from Keene, but says nothing about the Excellsirs of that village, perhaps because he thinks they are, like the Belleville club, O.K.

A Lecture

Upon "The Labour Question" will (D.V.) be delivered by the Rev. Walter M. Roger, M.A., in the lecture room of St. Paul's Church, Tuesday, Aug. 10th, at 8 p.m. A collection will be taken up in aid of the building fund of the lecturer's church in London, Ont.

Accident.

On Monday last Mr. D. McMartin, Mr. T. G. Hazlitt's foreman, had the misfortune to suffer a painful accident. While driving a piece of shafting to Hamilton's foundry to get it repaired the seat of the waggon broke. Mr. McMartin was thrown out, breaking his right leg about midway between the knee and the ankle.

$1,100!

This is the amount of money that will be paid out in hard, solid cash, to the successful competitors in the two day's races that come off at the Peterborough Driving Park on Thursday and Friday, August 26th and 27th. Don't leave home this year to see good horse races, as some of the fastest and best horses in Canada will be here on the above dates to take part in the meeting. Everything fair, square and honest! Nothing of a fraud about these races.

A Solution.

The problem is solved! At one decisive cut the Gordian knot is divided! The question "What is Moxie?" is answered. While the Queen vs. Snowden case was in progress at the court the witness in the box had some doubts as to what was pure Moxie and what was not. Accordingly (as is the custom) the remains of what Mr. Wood bought some time ago was produced. The witness said it was not the color of the stuff he got. The Magistrate evinced a curiosity to see what Moxie really *was*. He poured out some in a glass, carefully tasted it once or twice, laid the glass down and sat contemplating it for some time. Suddenly he decided and ejaculated "Sarsaparilla!"

The Kingston Camp.

The Kingston *News* says that on the 7th of September the following corps will go into camp at Barriefield common, Kingston:—Durham field battery, Kingston field Battery, Picton troop of cavalry, Napanee troop of cavalry, Loughboro troop of cavalry, 16th battalion, Prince Edward's 45th battalion, West Durham and Victoria, 49th battalion, Hastings. The 14th, 15th and 57th battalions, being city corps, will drill at headquarters. The camp staff will be as follows: Commandant, Lieut.-Col. Villiers, D.A.G.; Brigade-Major, Captain Adjutant S. Hughes, 45th battalion: Camp Quartermaster, Capt. Clemes, 46th battalion; Musketry Instructor, Lieut.-Col. Graveley, 40th battalion; Orderly Officer, Lieut.-Col. H. C. Rogers, Peterborough cavalry.

Matrimonial.

The friends of Mr. J. McDonald, formerly an employee in the Porter Bros. carriage factory, will be interested to know that he has departed from the ranks of the batchelors. Particulars may be seen by reference to the marriage notice in this issue.

Timber Movement.

Mr. J. M. Irwin has sent forward from Lakefield to Quebec by all rail communication eight hundred and fifty pieces of square timber during the past week. This is the first time the all rail route from here has been utilized by lumbermen for the transhipment of square timber. This mode of transport has the advantages of being quicker, less risky, and the insurance on the stock is less. Mr. Irwin will send more square timber by the same route.

A Robbery.

This morning at about eight o'clock Mrs. Elizabeth Boswell, who lives near the Roman Catholic Cemetery, locked the door and left her house to go down the railway track a short distance to pick berries. When she returned she found that the window had been opened, and entering the house saw that a purse containing about $8, which she had left on the sideboard, had been carried off. She has no suspicion as to who the thief is. Mr. Morrison, who lives in the neighborhood, says that tramps are continually hovering around that part of the town.

Who is this Mascot?—Everybody.

He slept in the cells last night, we're told—The hotelkeepers.

I come from Toronto and sell curry combs—The Mascot.

RECEIVED this week a job lot of ladies, fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

A Holiday Trip.

Messrs. DeBotham, M. Lane and W. Mason, of New York, and Mr. H. Davis, of Hamilton, who are here on a visit, were seized upon by several old friends on Wednesday and taken down the river on a yachting excursion. The party consisted of the gentlemen just named and Messrs. J. J. Lundy, Commodore, R. R. Lundy, Harry Winch, Fred Winch, Geo. Webber, H. Best, H. Phelan and W. English—a jollier lot could not have been got together. The "Pearl" took the party down to Campbelltown, where a camp out was made for the day. Several abandoned themselves to fishing, among whom was Mr. DeBotham. All at once wild excitement prevailed. Shouts, now indescribable and at last exultant, were heard from the fishing grounds lurked upon by the specified fishermen. When all gathered around in breathless suspense it was found that a fifteen pound maskinonge had been hauled in. While this was going on Mr. Mason was unravelling the mysteries of canoe paddling, and though he navigated up and down the pellucid stream he never once succeeded in taking a bath. The party left the scene of their pleasant day weighed down with regrets and several good strings of bass. A circumstance which created even more eagerness and excitement than the encounter with the fish happened while coming up. The little yacht sighted the Golden-Eye coming up and at once trimmed herself for a race. For about five miles up the little "duck" and the over-towering "swan" sailed "neck and neck," the race being watched by those aboard with delight. The party reached home at about 11 o'clock.

MORROW, TIERNEY & Co. are now offering special inducements in TEAS, SUGARS and General Groceries. Call and inspect.

The Lansford Explosion.

TAMAQUA, Pa., Aug. 4.—The latest information received from Lansford, the scene of yesterday's explosion in the machine shops, is that five men are dead and twenty seriously injured, and that at least seven of the wounded are likely to die. The shops employed over two hundred men, and it is almost a miracle that more were not killed or injured. The loss to the company cannot be estimated, for the machinery is covered with *debris* caused by the explosion. The force of the explosion was felt for miles, and the head of the boiler was thrown fully two hundred feet in the air. Many of the injured were buried beneath the ruins, and it was some hours before they were rescued.

To Settle the Difficulty.

LONDON, August 3.—The *Daily News* suggests that a committee be formed of leading statesmen of the Tory, Whig, Radical and Nationalist party to discuss the best form of Home Rule for Ireland, which, the *News* says, no reasonable person doubts will soon be conceded in some form or other.

NORWOOD.

PRENEVEAU'S STOCK.—The *Register* says that Mr. J. B. Pearce purchased, last week, the bankrupt stock of Mr. N. Preneveau, of Havelock. It amounted to about $2,000.

CRICKET.—A game of cricket was played in the park on Monday between Norwood and Campbellford elevens. Campbellford won by 5 runs, the score being Norwood 112 and Campbellford 117.

A REVOLVER USED.—Samuel Newall was fined $50 for violation of the Scott Act. A warrant was placed in the hands of Constable Jones, of Norwood. On Thursday night the constable saw Newall, his brother and a man named Sharpe, and he attempted to make the arrest. Newall ran, the constable pursued and Sharpe and the other Newall ran after them. The constable turned on the two men following him and warned them not to advance, at the same time firing a shot out of his revolver. Newall fled on and escaped, and the constable was brought before Messrs. Drain and Stephenson, Justices of the Peace, charged with shooting with intend to kill. Several witnesses were examined and the case was adjourned until Saturday, Aug. 7th. The constable admits shooting, but denies the "intent to kill."

ENGLAND.

In the first half of the present year the value of the fish of all description landed on the English and Welsh coasts was £1,761,812.

Lord Henry Lennox's creditors on the 15th July accepted a sum of £2,500 in full satisfaction of his Lordship's debts, which are returned at £11,500.

A remarkable spring of brine has been discovered in a meadow at Marton, near Northwich. The salt geyser shoots up about six feet, and flows with great force.

At the Lancaster Assizes sentence of death was passed on Alfred Bligh, an ex-policeman, for the murder of his three children at Kirkham on the 15th of May last.

According to *Truth*, Lord Granville will in consequence of illness, retire at once from public life. For the same reason Lord Spencer will also cease to take an active part in affairs.

Though an election was held in great Britain less than a year previously, 136 of the 670 members of Parliament returned to the new Parliament have never sat in the House before.

London is going to celebrate the 1000th anniversary of the restoration of the city by Alfred, King of the West Saxons, in 886, after it had been destroyed by the Danes and other barbarians in 780, A. D.

Gaird & Co., Greenock, have contracted to build 15,000 tons of shipping for Peninsular and Oriental Company.

In Orkney and Shetland the crops are looking well, compared with last year, and the farmers are looking forward to a good harvest.

The Portree fishermen have been very unsuccessful at the East Coasts. The majority had not the means of defraying their expenses homewards.

Pleuro-pneumonia has broken out in the valuable herd of Galloway cattle at Chapelton, Dalbeattie, the property of Mr. Biggar. Several deaths have occured.

Cullen Harbor, which was handed over to a board of Management by the late Earl of Seafield, is about to be enlarged and improved at a cost of £4000.

The Dundee Tramway Company have obtained permission to use steam-power on the eastern section of their system, and the engineer superseded the horses on July 8th.

The Local Management Board of Queensferry have resolved to build a strong sea wall opposite the the new shops at the East Terrace, in order to reclaim land from the sea. Earl Coseberry has given £50 towards the expense.

The lands of Edinville, Kingermony, and others, in the parish of Aberlour, have been purchased from the Earl of Fife by Mr. J. R. Findlay, of Aberlour. This beautiful estate embraces the extensive range of grouse shooting rented by Mr. Findlay from Lord Fife, together with upwards of two miles of salmon fishing on the Spey.

On Tuesday afternoon, July 13th, the fishing boat "Go Lightly," with 13 persons on board, left Dunbar Harbor with the view of going to the Tyne Sands to gather bait. They had just got out beyond the entrance to the old harbor, with the sail set, when a strong gust of wind capsized the boat. Only four persons were saved.

WHAT CHAMBLE WAS.

"Smashing" or otherwise, the result yesterday (in Chambly) was a defeat; a defeat not only for the Government, but for all true patriots. It was a triumph of sectionalism and humbug, and we fear will give a mischievous prestige to the "National Party."—*Montreal Star (Indep.)*

BRAVE AND HONORABLE.

We have frequently felt under the necessity of criticizing the Secretary of State unfavorably; but there is no denying that his attitude upon this question has been that of a brave and honorable man. He has not attempted to evade the issue, as, unfortunately, many nominal Conservatives have done, but has fairly and squarely condemned the Riel cry. The electors of Chambly are asked to condemn Mr. Chapleau and his colleagues for refusing to interfere with the due course of the law in the Riel case.—*Montreal Star (Indep.)*

THE REAL ISSUE.

The result of the Chambly election which takes place to-morrow will be watched with interest. Mr. Prefontaine is the Liberal candidate, and the Government candidate is Mr. Jodoin; the personal qualification of the two candidates, however, count for little if anything in the struggle. The real issue is the Riel question. To-morrow's election will show whether the French people will resist execution of Riel as strongly as they are supposed in some quarters to do.—*Montreal Witness (Ref.), July 29.*

Arrested for Forgery.

Thomas E. Chancey was arrested and committed for trial at Belleville on Tuesday for forging the name of Mr. George Sprague, of Prince Edward County, to a note for $18. The note was purchased by Mr. G. E. Huff, of Ameliasburg.

Samuel J. Tilden Dead.

TORONTO, Aug. 4.—A telegram from New York says: "Samuel J. Tilden died at 8.45 this morning."

"The Fishery Trouble" appears as a heading to articles in various of our esteemed contemporaries. In this section the fishery trouble is how to account for an empty basket at the end of the day's fishing.—*London Advertiser.*

THE emptiness of the bottle might in a few cases account for the vacuum in the basket.

FACTS
Concerning Dr. Dorenwend's

It is the only prepration in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

☞ Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

RIOT AT SOMERVILLE.

Locked out Knights Attack Employes—A Fight with the Police.

BOSTON, Mass., August 5.—A serious riot occurred about six o'clock last evening near the pork packing establishments of John B. Squire & Co. in Somerville and Cambridge, the result being probably fatal injuries to one policeman and one rioter, more or less severe injuries to a large number of policemen and rioters and the arrest of several of the latter. Early yesterday a committee of the locked out employees of the firm waited upon Mr. Squire to inquire upon what concessions they would be allowed to return to work. Mr. Squire refused to make any concessions. The report of the committee enraged the strikers, and during the afternoon they assembled in the street adjacent to the works. Just before 6 o'clock several teams belonging to the firm approached the works, under a guard of police. The strikers, who numbered nearly one thousand, and who were encouraged and aided by many more roughs and rowdies, made a rush for the teams and attacked the workmen on the waggons. The police at first repulsed the mob. The rioters then returned, armed with bricks and stones, with which they pelted the teamsters and policemen. One officer fell unconscious, with his head cut open. Several workmen received bad bruises from a volley of missiles. The police then began clubbing heads right and left. The riot had assumed such proportions that the riot alarm sounded on the fire bells, bringing the entire police force of Cambridge and Somerville to the scene. The reinforcements succeeded in rescuing the teams and teamsters, and in forcing the mob back some distance. At six o'clock as the hands at work in the packing houses came out, the rioters rushed for them, but were held in check by the police. One workman named Valleyley was struck by several stones, and received probably fatal injuries. He was carried home, followed by the mob who nearly wrecked his house with stones and tried to set fire to it. The police, after using their clubs freely, finally succeeded in dispersing the mob, after arresting a number of the leaders.

WOODBINE HOTEL ABLAZE.

Details of the Fatal Fire at the Toronto Race-Track.

TORONTO, Ont., Aug 5.—Woodbine hotel, near Woodbine race track, owned by Joseph Duggan and occupied by Joseph Braun, was burned to the ground early this morning. A boarder named Alexander Brown, base and football manufacturer, fell a victim to the flames, his charred remains being found among the debris. The servant girls had to jump from the second floor window. They were uninjured. The horses in the stables were saved, but the buildings were consumed. L. Campbell, whose race horses were in the stables, narrowly escaped with his life. He was found lying insensible on the floor of his bedroom and was thrown out of the window to save him from the flames. He soon recovered, but has received severe contusions.

Braun's loss is estimated at $3,000 insured for $2,000 in the Western. The loss on the buildings is estimated at $10,000 insured for $3,500 in the Western. Five valuable dogs were burned to death. The origin of the fire is unknown.

Highwaymen at Belleville.

BELLEVILLE, Aug. 5.—Robert Dalton and Thomas Badgley were brought into court this morning on a charge of highway robbery. James B. Masey, a commercial traveller from Montreal, positively identified them as the men who snatched his watch and chain from his vest, Wednesday night, outside the Hub Hotel. They were committed to the Crimnal Court for trial. The city is infested with a gang of thieves.

FORESTERS' EXCURSION

The Members of Court "Little John" hold their Annual Pic-nic.

Court "Little John" C. O. F. of Peterborough, held their annual "outing" yesterday. The steamer Golden Eye conveyed the party to those picturesque grounds on the banks of the Otonabee, Campbelltown, a most desirable location for recuperation. The weather was fresh and exhilarating, and the passage down the river, highly pleasureable, dancing being vigorously kept up till the party reached its destination. Here groups soon extended over the plateau, all refreshing the inner man from baskets well filled with substantial edibles thoughtfully provided by the very attentive ladies of the party, who certainly deserve praise for their ready co-operation in all the duties which make an affair of this kind a success. Though the attendance at the excursion was not large, yet the day was happily enjoyed by everyone present, all engaging heartily into the various sources of amusements provided by the energetic committee of the Foresters, the archery contest, being a novel one, having quite a number of entries, while a keen interest was evinced by all the contestants, the main prize falling to the good shooting of Mr. Hiram Lithgow. The lady archers did some very good shooting. Boating, fishing and quoiting also occupied the attention of a number of the party.

The homeward trip was remarkably pleasant, as the evening was bracing, the music excellent, the dancers in good spirits, the scenery and surroundings charming, while all generally were contented and happy.

The courtesy and attention of Captain Carson and his admirable crew were worthy of notice and received commendable comment from not only the excursionists, but also from the numerous camping parties now enjoing their holidays on Otonabee's banks. The boat was skilfully managed, the trips up and down the river precisely on the time agreed upon, and were made without the least delay or annoyance of any kind.

Some Sporting Items.

Toronto beat Syracuse at baseball by 14 to 3, and Hamilton defeated Oswego by 15 to 6, on Thursday. If that sort of thing goes on long the United States will be flooding Ottawa with petitions to be annexed to Canada.

Beaverton tried to take the Central Championship lacrosse medal from Orillia on Thursday, but failed, Orillia winning by three goals to one.

At the Oswego yachting regatta on Thursday the Atalanta, Aileen and Cygnet took the prizes in the first class race, and the Iolanthe, Katie Gray and Mollie in the second class race. These are all Canadian yachts.

Mr. Robt. Dinwoodie, of Campbellford, writes as follows to the *Mail*:—"Sir,—In your report of the cricket match between the Toronto and Peterborough clubs, played at Peterborough on July 24th, you state Peterborough won the match by one innings and thirty-two runs, and in your comments on the match you say that the Peterborough club is able to hold its own with any club on this side of the Atlantic. Their record does not confirm this statement. The Campbellford club beat them last season by ten wickets, and this season, on the 11th day of June, by six wickets. Query,—If the Peterborough club can beat the Toronto club by one innings and 32 runs, how much should Campbellford beat the Toronto club, seeing that they have beat the Peterborough club in two matches by ten and six wickets?"

Thursday was a great day for Canada. Canadians won in baseball and yachting over the United States, and in artillery firing at Shoebury, England. And Peterborough defeated Hastings at lacrosse.

A Cruise.

On Thursday Mr. G. B. Sproule invited his assistants at his photographic establishment and a few friends to take a trip down the river. The steam yacht Pearl was chartered and at seven o'clock in the morning was moored in readiness at the Sherbrooke street wharf. The party boarded and went off down the river for a good day's outing. The yacht was propelled leisurely along, stopping here and there along the route, and finally arrived at Rice Lake at one o'clock. The dinner was done justice to, as only those braced with sharp appetites can do it. After making a digression in the way of sailing around for a while in canoes, fishing, etc., the mariners once more embarked on the Pearl on the homeward trip. The sail up the winding river fringed with trees lit up by the golden sunset was delightful. The party reached home at about nine o'clock.

LATFST BY TELEGRAPH.

THE SPEAKER.

LONDON, Aug. 5.—Arthur Wellesley Peel, Liberal member for Warwick and Leamington, was re-elected speaker.

THE LIBERAL LEADERS.

LONDON, Aug. 5.—When Mr. Gladstone saw Mr. Chamberlain in the House the ex-Premier arose and went over to the Radical dissentient leader, shook hands with him and cordially held a conversation with him and Lord Hartington.

CHOLERA RETURNS.

ROME, Aug. 5.—The cholera returns yesterday were:—Bologna, 11 new cases and 5 deaths; Ravenna, 16 new cases and 13 deaths; Verona, 14 new cases and 6 deaths; Trieste, 7 new cases and 4 deaths; other places, 101 new cases and 34 deaths.

PARLIAMENTARY PROGRAMME.

LONDON, Aug. 5.—The *Standard* says:—"The Liberal leaders propose that if Parliament vote the supplies without delay the Government shall undertake to convene Parliament at the end of November."

IMPERIAL PARLIAMENT.

LONDON, Aug. 5.—Parliament met at 2 and proceeded with the usual formalities to re-elect a Speaker. No Parnellites supported the nomination, it being understood that Mr. Gladstone represents them on such occasions. The chief feature of interest was the presence of Lord Hartington and Mr. Chamberlain by the side of Mr. Gladstone in the front Opposition bench. This was rendered possible by the decision of the meeting at Lord Hartington's to-day, postponed from yesterday, to abandon at once any attitude of hostility. Mr. Gladstone looked extremely well this afternoon. His voice wes fresh and clear. It is said he will go to Ireland in the Autumn and visit the principal cities.

A TEMPORARY REST.

LONDON, Aug. 5.—The *Daily News* believes Mr. Gladstone means to take only a temporary rest, and has no idea of retiring from political life.

ANOTHER RIOT IN BELFAST.

BELFAST, Aug 5.—Rioting was resumed here yesterday. Two parties of working men engaged in a serious conflict. The police, in attempting to disperse the rioters, were turned upon by both parties and received a heavy shower of stones and other missels, to which they responded by firing into the crowd. Several rounds were necessary to disperse the mob, which was only accomplished after many of them had been [illegible] The police suffered very seriously. Magistrates Keough and Miller were severely wounded with stones while engaged in reading the riot act to the mob.

WILL RAISE THE QUESTION.

LONDON, Aug. 5.—Although the reception of Mr. Gladstone in the House of Commons to-day was undemonstrative, he was lustily cheered in the palace yard both on arriving and leaving. In the Gladstonian circle it is represented that Mr. Gladstone will raise the Irish question in the debate on the address in reply to the Queen's speech, demanding of the Government an explicit statement of its policy. The Liberal Unionists are not ready to support the Gladstonian proposal to limit the time of the Government in which to prepare an Irish measure to November. The Cabinet will insist that after the estimates have been granted Parliament be prorogued till February. The Queen's speech will be read on August 19.

MEETING OF BONAPARTISTS.

PARIS, Aug. 5.—*Le Paris* announces that a meeting of all the Bonaparte family except Prince Victor will be held on the 15th inst. at Prangins. Prince Jerome Bonaparte will preside. The object is to unite the Royalist party. Prince Victor declines to attend, on the ground that he alone represents the Empire.

A CANADIAN VICTORY.

The Canadians Win the Montreal Challenge Cup at Shoeburyness.

LONDON, Aug. 5.—The contest for the Montreal Challenge Cup, between a detachment of Canadian Artillery men and various British detachments, has taken place at Shoeburyness. The Canadians won, with a score of 66. The Middlesex team was second, with a score of 36. Much enthusiasm was shown over the Canadians' victory, and their team was warmly applauded.

CAMPBELLFORD.

CIVIC HOLIDAY.—The Civic Holiday will be on August 16th.

A DECREASE IN TAXATION.—Ratepayers will be somewhat comforted to know that the rate of taxation is less this year than it was last year by half a mill on the dollar. It has been fixed at 17½ mills; it was 18 mills in 1885 and 1884.

BARN BURNED.—One night last week, a barn belonging to Mr. Hubble, at the "Forks" of the River Trent, in Seymour township, was destroyed by fire. There was a quantity of farm produce in the barn, and a number of tools and other articles. Our informant was unable to give the cause of the fire. The building was insured for $400.

Serious Damage by Storm.

MONCTON, N.B., Aug. 5.—The crops in parts of New Brunswick, Prince Edward Island and Nova Scotia are greatly injured and in many places destroyed by the disastrous hail storm yesterday. Hundreds of panes of glass in houses were broken. One hundred panes were broken in the Catholic Chapel at St. Mary's, N.B. The hailstones were an inch to an inch and a quarter square.

Natural Home of the Negro.

WASHINGTON, D. C., Aug. 5.—Frederick Douglass has accepted the presidency of the National Emigrant Aid Association. In his letter of exceptance he declared the South to be the natural home of the colored race, and that any wholesale exodus would be unwise. He thinks in some localities the Negroes are so oppressed as to justify emigration.

Killed by a Game Cock.

QUEBEC, Aug. 5.—Aug Langlois, a farmer of Point Aux Trembles, while feeding his fowl a day or two ago was attacked by a game cock. In lifting his hand to push the bird away it was pierced by the bird's spur. Langlois took ill the following day and after terribly agony died from lockjaw.

The Daily Review.

FRIDAY, AUGUST 6, 1886.

LOYAL LIBERALS.

SPEAKING of the Chambly election, with its triumph for the Riel-Blake combination, that staunch Reform journal, the Montreal *Witness*, says:—

"It must be remembered, however, that the majority of English Liberal votes were recorded on this issue for the Conservative candidate."

This, of course, is only the natural result. When a number of French Canadians of both political parties combined with Mr. Blake in an attempt to punish the Macdonald Administration for refusing to interfere with justice in the case of a French Roman Catholic criminal, English speaking Canadians, without regard to party, felt that they were forced to stand shoulder to shoulder in order to repel such an attack in which their liberties were at stake. No doubt many of them regretted the necessity, but it was thrust upon them by this preposterous claim in the name of "race and creed," for if such a claim were successful they would be deprived of all the safeguards of law. To vote against their old leaders would be hard, but they felt that those leaders had forfeited their allegiance by their degrading alliance with the friends of rebellion and murder.

This was the course taken, under compulsion, by the loyal and honest Liberals in the Province of Quebec. It is not surprising then that honest and loyal Liberals in the Province of Ontario state that they are constrained, however reluctantly, to adopt the same means of defence when thus unscrupulously attacked. It is true that they do not have the evil of this claim of immunity for criminals of a particular race and creed so immediately brought home to them as their fellows in the Province of Quebec, but on the other hand they have still greater cause to feel indignation at the claim that the Dominion of Canada must submit in all public matters to the dictation of those who hold that a French Roman Catholic is so superior to all other Canadians, that even if a blood-stained criminal, he should be free from the control of the laws of our country. If this claim were admitted who can say where the pretentions of the "National Party" would stop, or what liberties they would leave us?

That Mr. Blake should tamper with such a principle, upon the maintenance of which the very existence of responsible government depends, for the sake of party unity must be a cause of regret to all honest and loyal Reformers, but they also feel that it is a ground for just indignation and for their refusal to be led by him into such a degrading and suicidal abnegation of their rights as freemen.

Mr. Mowat and his colleagues may argue that this is not a Provincial question, but many of their old supporters cannot forget that the Mowat Administration have made it their question by rewarding and accepting as their candidate, Pacaud, one of the most foul mouthed of the assailants and slanderers of the Canadian volunteers, the judiciary and the constitutional authorities, and even suggesting a statue in honor of the murderous rebel, who is the martyr of the "race and creed" faction.

Loyal and honest Reformers therefore withdraw their support from Messrs. Blake and Mowat who are ranging themselves under the Riel standard.

BLAKE THEIR CHIEF.

MR. Prefontaine, the Rielite, who has just been elected to represent Chambly in the House of Commons, has been interviewed by the Montreal *Star*. We quote one of the questions put to him and his answer as follows:—

"What positisn do you intend taking in the House?"

"That of a staunch Nationalist. I will oppose Sir John all along the line. When he has been overthrown, of course, we will decide as to who will compose the new Cabinet. But you can rest assured that the Hon. Edward Blake will be the chief. The Nationalists and Independent Conservatives are willing to accept him as such."

This plainly states the position that the Rielite candidate, who was successful on the sole cry of vengeance for Riel's execution, is to help in punishing Sir John Macdonald for not tampering with justice by opposing him "all along the line." On the other hand the Rielite members and his allies choose the Hon. Edward Blake as their chief, in reward for his support of rebellion and murder. Rielite Reformers and the Bolters the whole National Party, with their cry of "Race and Creed," unite in placing Mr. Blake at the head of their combination. Yet at London Mr. Blake declared that he would not make the Regina scaffold his platform nor cement party with blood.

More Anarchist Threats.

CHICAGO, August 5.—Apropos of the now daily crowded attendance at the trial of the Anarchists, it is stated that some days ago, a well known Socialist, who is not under arrest, boldly declared to an official at the Criminal Court building that if the jury should bring in a verdict of guilty, the building would be then and there blown up, and that even a well guarded building such as it is both on the inside and outside may be blown up by dynamite. In the case of the Criminal Court building the precautions against anything of this kind occurring are being daily multiplied. Increasing care is being exercised to secure the jury in the case from being approached, and to prevent even a note being surreptitiously thrown to them as they pass from the court-room, cross the street, and enter the hotel to take their meals. Police are stationed at intervals across the street.

Diptheria in Hamilton.

HAMILTON, Ont., August 5.—Diptheria continues to be very prevalent in the city. Four new cases, with two deaths, have already been reported this week.

ANOTHER WIN.

The Riversides take Three Straights from the Hastings Team.

On Thursday the Riverside Lacrosse Club met the Ironclads, of Hastings, in a return match in the Riverside Park, Ashburnham.

At about fifteen minutes past three o'clock the teams took their positions in the following order:—

Riversides.		*Hastings.*
J. Phelan	Goal	Dr. Coughlin
E. Rogers	Point	A. Butler
W. Walsh	Cover Point	F. Hill
T. Maher	Defence Field	J. Berry
J. Begley	"	J. Knox
W. McAvella	"	J. Wilson
F. Larone	Centre Field	P. Howard
F. Pakenham	Home Field	J. Mills
H. Neil	"	T. Coad
R. Begley	"	W. Soles
R. Duncan	2nd Home	H. Fowlds
D. Rose	1st Home	G. Hill

C. Howard captained the Hastings team, and M. Tierney the Riversides. J. Coughlin acted as referee.

The centres knelt and the ball rolled out on Howard's side. It was tossed around for a moment then Maher made it captive, passed it to Pakenham, who made a goal shot. Hill, who showed himself a good defence man through the game, returned it. After a few minutes field play it was thrown under the grand stand. A face followed, and immediately after fifteen minutes of red hot play. The game proceeded in the liveliest manner. J. Knox distinguished himself by a long semi-circular run down the field and a goal shot. Larone was everywhere. Buttler and Coughlin were worked hard. At the close of the game the ball stayed around the Hastings goal continually. It was bad policy for all of the Hastings men except their goal and point to crowd around the goal, for the ball was not thrown from it till it was returned by the Riverside fields. At last the game was secured for the Riversides by a side shot by Begley. Time, 1 hour and 10 minutes.

The second game lasted sixteen minutes. Some fairly good field play was shown in this game and also a large amount of terrible wild throwing. The players, however, kept their places in the field better, which was somewhat to their credit. The ball was dropped by Duncan and swiped between the stakes.

The third game was short. The Hastings' centre got the ball again. It paid a brief visit to the Riverside end. Then it went up to centre again, in which vicinity it remained a minute or two. Begley took possession, passed it to Giroux, and Giroux followed up by giving it over to Larone. Brigham, with it on his stick, ran straight up and sent it through swift. Time, 9 minutes.

NOTES.

The Hastings men are all good runners, but are greatly deficient in team play.

For the Hastings, Butler, Hill, Howard and Berry played well.

The two field captains declined to act after the first game. They modestly put on their coats and stood under an elm tree.

M. McDonald captained the Riversides during the last two games, and Dr. Brennan took charge of the Hastings team.

There are several rising lacrosse players in the Riversides, notably young Begley, Giroux and Larone. Maher, Pakenham and Walsh did themselves credit.

The accidents which occurred were in the first and second games. Harry Fowlds was cut on the left side of his face during the first game, and P. Howard was badly cut on the lip and left eye-brow during the second.

Let Canadians take Heed.

An International Exhibition, to be held in June, 1887, is announced for Adelaide, the capital of South Australia.

This will furnish an opportunity for American manufacturers to make headway with their wares in Australia which should not be neglected. At the Melbourne exhibition in 1880 there were three hundred and sixty-six American exhibitors, and the proportion of medals and diplomas awarded to them was very large At the Sydney exhibition in 1879 the Americans also secured a large share of the symbols of merit.

We already compete with Great Britain in the markets of her colonies for many important articles, particularly in hardware, prints and woodenware. These exhibitions should be utilized to the fullest extent for the purpose of fostering and extending our trade. If Congress can do anything to help this along it would be a good idea.

Of the Adelaide exhibition it is said the Prince of Wales will be president, Sir Samuel Davenport executive commissioner, and Mr. George Collins Levey (who represented Victoria, Australia, at the Centennial) secretary. The whole matter of exhibitions has now become so systematized that nearly all large manufacturers are able at slight expense and with little trouble to place a full line of samples en route for any city on the face of the earth. It is well-known that exhibiting anywhere pays, and Adelaide will be no exception to the rule.—*N. Y. Herald.*

Thirty Miles an Hour.

TORONTO, August 5.—The *Mail's* Winnipeg special says that the second load of tea, direct from Yokohama, consisting of thirteen cars, arrived here at 2 o'clock on Tuesday. The train left Donald, B. C., at 19.40 on Sunday and made the run from that place to Winnipeg, a distance of one thousand twenty-two miles, in about 48 hours, including an hour lost at Broadview by the change of time. This was pretty fast time, being an average of thirty miles per hour Ten cars go to Brockville, two to Montreal, and three to Chicago. Another train of ten cars left Donald last night for Montreal, and there are two or three more on the way from the coast. The Canadian Pacific Railway Company are sending out cars to bring in the cargoes of three ships which recently arrived at Port Moody.

The Callandar Extension.

TORONTO, Aug. 5.—A party of Northern and North-Western railway officials returned here last evening from an official inspection of the Callandar extension. They report the road complete and ready for local traffic on all points north. Stations and tankage are in course of construction. Orders will be issued almost immediately for traffic to commence between South River, Powassing, Callandar, Lovaser and South-East Bay. This will open the road for through traffic by the short line from Toronto and Western Ontario points to Winnipeg at the great North-West.

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

EVERGREEN WIND-BREAKS.

The following is from the Ontario forestry report by Mr. R. W. Phipps :—

We know from long experience that the summer storms, the early frosts, and the fierce unrelenting winter blizzards do pass by fields surrounded by growing trees, uninjured and unscathed.—*Judge C. E. Whiting.*

Throughout a large extent of Ontario, considering how much is already cleared of the original forest, with the exception here and there, of some small portions, and the decaying condition of many of these, where cattle have been allowed to destroy all chance of forest perpetuation, it is plain, that unless trees be planted, the surface of the country must soon largely resemble a wind-swept plain. The resultant evils, agricultural and other, of this state of affairs cannot be too frequently impressed on our minds.

In our latitude, one of the principal of these, is necessarily the additional cold experienced in winter. Every Canadian has observed, that in the absence of wind a low thermometer is comparatively little noticed. In the deep forest where wind was not, and four feet of snow overlaid the ground, I have passed days, time and again, working without gloves at twenty degrees below zero. "In the Arctic regions," says Dr. Kane, "I can stand a journey at forty degrees below zero, but remember, no wind."

An evil to agriculture, perhaps even greater in a treeless country, is found in the injurious dryness occasioned in the soil by an uninterrupted wind-course. When the reviving showers of summer fall on the thirsty ground, the beneficial result to vegetation is easily seen —it is well-known and undeniable, and the farmer is apt to calculate how great would be the benefit if, for a week or two, his wheat and clover would thrive as they appear to have done within the past twenty-four hours. The fact is they would continue so to thrive, had we not interfered with those operations of nature, which, in this our climate of extreme heat and cold, are needed for the growing plant. When the protection afforded by forests is altogether destroyed, in a country like Ontario, the course of the wind over the surface of the land withdraws the moisture too rapidly from the soil. The moisture given by a summer shower in conditions favorable to agriculture should remain near the surface for a length of time, until dissipated by slow descent to the water courses below or gradual uprising to the air above. During this process of slow movement of moisture through the warm summer soil, growth proceeds with its utmost vigor, and one the chief objects of [illegible] ground in this favorable condition during the growing period.

When the earth is deprived of the natural shelter given by portions of forest and the natural moisture too quickly absorbed in the following way: The soil parts with a portion of its moisture to the stratum of air passing immediately above, which passing on, is immediately succeeded by another body of air equally dry, which absorbs another portion, and this in its turn is succeeded by another. As long in fact, as the wind blows briskly across the soil, so long the process of evaporation continues, occasioning necessarily great loss of fertility, compared with that obtainable in better sheltered grounds. This cause has much to do with the often observed fact, that growth is by no means so strong, vigorous, or lucrative to-day, even on new land, in the same locality, as it used to be on similar soil, when the country had been recently settled, and sheltering forests existed in all directions

We cannot at once expect to see a general commencement to replace those portions of woods, which, long since cut down, experience teaches us had better been allowed to stand. The work of replanting many thousands of acres would be vast. But there is a method whereby, without expense beyond a sum quite within the means of most agriculturists, much of the benefits formerly obtained by the forest shelter might be again secured, and yet the husbandman retain his acres for plough or pasture almost in undiminished extent. This method is simply the use of evergreen windbreaks.

Whoever chooses to take a little time now for this purpose can, in a few years have his fram protected on the north, west, or whichever are its most exposed sides, by beautiful walls of verdure giving the property an additional value twenty times in amount that which the necessary time and labor will cost him, and giving a shelter from wind, a warmth in winter, and an increase in the return of many of his crops, far beyond what is generally imagined.

It is now that this pains should be taken, for our trees are not increasing Many small forests, now giving shelter, are yearly being cut down, some because want of care has rendered them impossible now to preserve, some through a mistaken idea of getting more land for farming operations. Be it as it may, we have been finding year by year, the country become more and more destitute of shelter, and he who begins to protect his farm now, will certainly, in a few years, find such work the best investment he ever made, whether in view of the better crops to be obtained, the greater comfort in a farm so sheltered or the additional price to be had if he choose to sell

It is not as if this was a new, an untried, or a but lately tried method. Letters have been received from nearly three hundred well informed residents in different parts of Ontario, stating that such protection is always in their experience, beneficial and often in the case of winter crops, increasing the yield one-half over those obtained close by, but in unsheltered parts of the same or other farms

The planting of evergreens has not been so general as that of other trees in Ontario, as they have been considered more difficult of growth. This has arisen mainly from one fact connected with their planting, that is the roots must not be allowed any chance of drying These trees have a resinous sap, which, once dried kills the life of the tree It requires but little exposure to do this. If you bring an evergreen, in apparently good condition, to the place where you want to plant it, and leave it exposed to sun and wind while you dig the hole, even that amount of drying will sometimes destroy its chance of strong life, or of any life. These roots are often hair-like in their size, and wind or sun chokes the tubes at once with solid resin, which no watering will soften or vitalize. Yet they can be and are, often carried with perfect safety long distances, even round the world, well packed in damp moss. If you so receive them, plant them the instant you take them out of the moss. If you dig them, cover instantly with some cloth or rug, choosing, if possible, a cloudy still day, and keep them closely covered till the time of planting. It is well to dip them in thin mud, as elsewhere advised. With this care there is absolutely no difficulty in planting eve greens. It is being done every day—is done in the States I am glad to say, by the hundred thousand plants, and failure is rare.

As for the time to plant them, the first week in June is an exellent time—so is the first week in August. Yet they have been and are planted at all seasons, when the ground is workable, and with success. But reason must be observed in planting. For instance, if you go to a deep poor sand for your plants. There they send in their long hair-like roots far down—perhaps three feet—for nourishment. It is hard to transplant this lengthy mass so as not too greatly shock its habit of growth The moral is, if you go there, take the plants thence very young, before they can have sent out deep roots transplant them into your garden, and in a couple of years you will have fine stocky plants fit for any purpose. But do not let this discourage you from taking them from any forest. In many localities you will find them —take those near the outskirts always—with excellent roots. I know many beautiful groves of pine in Ontario—many long stretches of wind break now fifty feet in height—the pride of the farms they beautify—which were taken when two or three feet high from the forest without one per cent of failure. I knew one instance where nearly eight hundred young pines were moved in early spring one morning after a sharp frost, which had re-frozen the ground, previously thawed, an inch or so deep These then cut round, brought up circular masses of earth three or four inches thick and eighteen inches wide, containing within plenty of root fibres. This was on loam, not sand, so there was much surface root Of the 800 scarce half a dozen failed.

A very important matter is the preparation of the ground, and when our plantation is of such narrow proportions as a windbreak this is easily done A few furrows of the plough in fall and spring, or in [illegible] properly, and the work is done. This statement is applicable to most farm soils in ordinarily good condition, but where the soil is rather intractable other means may be necessary. We must consider, that it is only one long narrow row of plants we are preparing for. If the soil be a hard, apparently poor red or white clay, it is undoubtedly difficult even with two ploughings to bring about exactly the condition of mellowness which we should desire for the reception of tender roots of young evergreens. They can be planted there, and they will grow and succeed there but it will take time. There is a quicker method, and when we can, it is well to employ one, for life is short. This hard clay soil is not poor, it is too close and dense. If you have within reasonable distance some sand, whether it be sharp and white, apparently only fit for mortar, or whether it be red and mixed with humus, so that it be but sand. A few waggon loads of this drawn along the proposed line of windbreak, and scattered two inches thick before your plough, would change your hard clay to soil soft enough for tree roots. Two waggon loads will do a hundred yards, or if the land be poor sand, and clay be near white, red, or blue, though it be the hardest and poorest, applied in the same quantities, (break the lumps) it will do as much for the sandy soil, as the sand does for the clay one. But most soils will grow trees without.

There are different methods of rapidly planting these windbreaks. In the case of young plants, one is to run a furrow, two men then pass along, one with a bundle of plants under his arm, the other with a spade. He first places the plant in position, presses and spreads its roots against the upright side of the furrow and holds it there, while the second throws earth again at it and presses it firmly and evenly with his foot. Another, still in the case of small plants, is to run no furrow, but set a line, along which, at proper intervals one throws out a spadeful, the other sets the tree therein and holds it, while the first throws earth against it and presses it firmly. The third is in the case of larger plants. Here, three men are better employed, one in advance digs larger holes along the line, the second places a tree, spreads its roots more horizontally than in the former methods, while the third fills it up and treads it down.

It must be remarked that the time occupied depends on the side of the roots and the state of preparation of the soil. Farmers must judge whether the roots need more or less time to place them at the level they stood in their nursery or forest and with their roots properly in contact with the soil Some soils would need much more careful handling than others. But do the work well; it will pay.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

FRIDAY. AUGUST 6. 1886.

THE CITY AND SUBURBS

Personal.

The *Herald* says that Mr. G. Pope, of Peterborough, has purchased the stock of the business lately conducted by W. J. Vrooman, Campbellford. It will be sold by auction.

The Battery.

The west division of the Durham Field Battery commenced drill on Thursday evening preparatory to going to camp Two detachments were drilled by Sergeant-Major Metheral and Sergeant Snyder.

The Riversides.

The members of the Riverside Lacrosse Club burn with an ardent desire to cover themselves all over with glory. Having worsted the Ironclads, of Hastings, on Thursday, they girded their loins again [illegible] strong—to check sticks with the Norwoods.

Ho! for Bon Marche.

Follow the crowds who are making Bon Marche headquarters for bargains in teas, sugars, coffees, spices, etc. A first-class stock of staple and fancy dry goods. Everything is being sold away down. Don't let this golden opportunity pass. It won't pay you to do so.

MORROW, TIERNEY & Co. are now offering special inducements in TEAS, SUGARS and General Groceries. Call and inspect.

A Baseball Challenge.

The Cobourg *Sentinel-Star* says:—"We have been authorized by a gentleman resident in Peterborough, who seems to have faith in the Cobourg team, to challenge the Port Hope club to play a game in that town with the Cobourgs for $500 a side, every man of both teams to be a bona fide resident or native of the town he represents for at least one year previous to the 1st of July. Now, Port Hope, put up or shut up."

The Greatest of Them

The two days' races, to be held on the Peterborough Driving Park on Thursday and Friday, August 26th and 27th, will doubtless be the best sporting event ever held in this part of the country. The large prizes offered (over $1,100) will be the means of bringing many of the best trotters and runners in Canada here to compete. Make a note of the dates, and don't allow anything else to deter you from witnessing these fine races.

Gospel Army Notes.

An officers convention will be held at the Gospel Army camp meeting in Crawford's Grove. The camp meeting will last a week, from August 11th to 18th.

A staff band recently organized by the Gospel Army in Toronto, will attend the camp meeting.

Speaking of the camp meetings held at Thousands Islands, the *Trumpet* says that "Capt. Boyler won all hearts by the manner in which she sang "The Beggar'."

Gladstone-Parnell.

Mr. F. W. Gibbs is about canvassing our town and its neighbourhood for subscriptions to a new work by T. Power O'Connor, M. P., with an introduction by Mr. Parnell. It is entitled "Gladstone-Parnell and the Great Irish Struggle." Its frontispiece is a fine steel engraving of Mr. Gladstone, and there are numerous illustrations throughout the volume. The Rev. Dr. Burns, who has just been lecturing here on this subject, writes a very appreciative introduction for this Canadian edition.

New Butcher Shop.

Mr. J. J. Howden has let his contract for building a new butcher shop on George street to Mr. T. Rutherford, who will commence building at once. The ground has already been broken. The new shop will be situated a few feet north of the present one. It will be built of red brick, will have a frontage of twenty-five feet, a depth of fifty feet and will be two storeys high. A very useful ornament in the new shop will be a huge and handsome refrigator as wide as the present shop and fronted with plate glass.

GONE.

The Mascot Disappears as Suddenly as He Appeared.

The Mascot, Pollards, who gave testimony on the Kennedy, Roddy and Snowden cases, has left town.

This gentleman is low in stature, dresses plainly, has blue eyes, ruddy complexion, and gives his testimony in the most good humored way. He turned up in the court room on Wednesday, and was unguarded enough to say in Mr. Edwards' hearing that he got a drink of whiskey at Snowden's. When in the box he said that it was merely a matter of chance that he happened to say this where Mr. Edwards could hear him. Of course Mr. Edwards had him subpœnaed. Then when he was torn to shreds by Mr. Stone, and closely questioned by Mr. Moore, it came to light that it happened, just by mere chance, that he made unlucky disclosures where other members of the Scott Act party heard him. The hotel-keepers could not help wishing that these coincidences had not occurred.

The mascot has not half the courage that Rossiter has—in fact he has no courage at all. He slept in the cells on Wednesday and Thursday nights and never left the police headquarters during the day. On Thursday evening he discovered that a ladder was lying at the outside of his cell. He also heard that a charge of perjury was being prepared against him. This made him nervous. He didn't rest well on Thursday night.

This morning at five o'clock he suddenly came to the conclusion tha it would be more healthy for him to depart. He immediately acted upon this resolution and asked P. C. Adams, who was on duty, to supervise him as far as the O. & Q. station. As no charge was laid against him and as the police had no right to keep him in custody, P. C. Adams complied.

And the mascot went back to Toronto, where there is a large field for selling curry combs.

THE RODDY CASE DISMISSED

On Account of the Proprietorship Not Being Proved.

This twin case of Queen vs. Reynolds and Queen vs. Roddy was heard at the Police Court on Thursday afternoon.

Mr. MOORE, appearing for Mr. Roddy, pleaded not guilty.

ALEXANDER POLLARDS swore that he got whiskey and beer at the Canadian Pacific Railway Hotel several times during the month of July. The latter was drawn [illegible] and got refused.

WM. BOWMAN, sworn, stated that Mr. Reynolds was managing the bar at the C. P. R. hotel.

DAVID KNOX, sworn, stated that Mr. Reynolds was running the bar at the C. P. R. hotel.

R. N. RODDY, sworn, stated that Wm. Reynolds had been running the bar for the past few weeks. Reynolds is the man who is responsible for the business done there.

Mr. EDWARDS closed his case.

Mr. MOORE submitted that there was no evidence on which to convict.

Mr. Edwards wanted to open the case again, but Mr. Moore objected, his objection being sustained.

The MAGISTRATE delivered judgment as follows:—"In this case the result of a finding of guilty would be imprisonment for two months. It is a criminal charge, and in any court to sustain such a charge the strictest evidence would be required. Now, in this case, the drinking of the whiskey at Roddy's is clearly proved, but the prosecution has put Roddy in the box and he has proved that Reynolds is the lessee of the bar room at the time of the sale. The evidence is that Reynolds, not Roddy, sold the liquor. It cannot be questioned but that Roddy, who holds the lease of the entire building, may re-let a part of it, as he proves he has. The *bona fides* of the letting is not impeached; there is no evidence on which I can question the *bona fides* of the letting. Here the prosecution has closed his case. In a former trial the evidence before me satisfied me that the letting was only for the purpose of evading the law, but in this case I cannot take notice of evidence given at a former trial. Such new and additional evidence might be given now as would lead to a conclusion different from that then arrived at. Every case must be tried on its own evidence. I shall do in this as I have tried to do in all cases, where the evidence is such as compels me on my judgment and under the obligation of my oath of office to convict, I will do it no matter what the result may be, but I will on the other hand in all cases require such strict legal evidence as would be required to convict in any other court. The prosecution asks now for leave to open the case. I must refuse it, especially as if he put Roddy in the box to impeach the lease, he could not do it as he would not be bound to answer. In the former case Roddy was a witness for the defence and the lease was impeached on the cross examination. The charge is dismissed with costs."

The charge against Reynolds was laid over till Saturday.

The Race.

The four-oared race looked forward to with so much interest since the last fortnightly regatta will take place this evening. A barrel of flour, which the losing crew must pay for, will give additional zest to the race—from the oarsmen's point of view. The race will take place at 7.30 o'clock.

Forepaugh's After Evidence.

The immense Forepaugh show, which gives exhibitions here on Saturday, August 21st, has more deeply impressed the public with its merit and magnitude than any other tented colossus of the time. The *Boston Daily Globe*, after it and exhibited a week in that city, throws the following hearty approval after Mr. Forepaugh and his wonderful show:

"The final performance of Forepaugh's circus was given on the Union and Coliseum grounds last night to an attendance that filled nearly every seat under the spacious canvas. The performance was even better last night than heretofore, and every specialty was given a commendation that only a successful rendition could justify.

Captain Bogardus and sons went through their wonderful feats with the rifle in a manner that was as marvellous as it is unequaled, while the wild West border show, typifying the life of the border men, the pony express, Indian war dance, the attack upon the United States mail coach by Indians and rescue by cowboys were all given with a realism that was admirable. Daisy Belmont as the dashing rider was one of the features of the entertainment, while Annie Carroll, Sam Watson and William Showles were excellent in their respective acts. The performance of the trained elephants under the management of Adam Forepaugh, Jr., was truly wonderful, their remarkable docility, combined with an intelligence that would do credit to a higher order of beasts, reflecting no little credit upon their trainer, to whose exertions the one was attained and the other exemplified. Blondin, the only horse ever trained to walk tight ropes and climb ladders, received his meed of public praise [illegible] deservedly. Perhaps the most exciting part of the entire presentation was the Roman hippodrome races, four-in-hand, the chariots being driven by competent performers, and the teams whirling round and round the ring with a speed which, unless practically proven, might be reasonably doubted, drew forth round upon round of applause. Pickaninny, the clown elephant, and Sullivan, the boxing elephant, were most comical, and a visit to them alone would well repay one. Of the remainder of the performances it is only necessary to add that each artist was admirable, the show running without a hitch and it is safe to say that never has such an entertainment been given the reception and patronage as has the deservedly popular Forepaugh's show.

FACTS
Concerning Dr. Dorenwend's

It is the only prepration in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

☞Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

MURRAY CANAL

Notice to Bridge-Builders.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Bridges, Murray Canal," will be received at this office until the arrival of the eastern and western mails on FRIDAY, 20th DAY OF AUGUST, next, for the construction of swing bridges at several places on the line of the Murray Canal. Those for the highway are to be a combination of iron and wood and the one for railway purposes to be of mild steel or wrought iron.

Plans, specifications and general conditions can be seen at this office on and after FRIDAY, 6th DAY OF AUGUST, next, where forms of tender can also be obtained.

Parties tendering are expected to have a practical knowledge of the class of works required, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures and nature of the occupation of each member of the same. Further, a bank deposit receipt for the sum of $250, for each bridge for which the offer is made, must accompany the tender, which sum shall be forfeited if the party tendering declines to enter into contract at the rates stated in the offer submitted.

The deposit receipt thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

CONTINUED VICTORY.

The Riversides Making a Brilliant Record—Norwood Defeated.

On Friday at noon the first twelve of the Riverside Lacrosse Club left town by the Canadian Pacific Railway for Norwood, where in the afternoon a match was played with the club of that place.

The Riversides were registered at Drain's hotel, formerly the McGreggor House, and at about three o'clock went to the grounds, where they faced the Norwoods in the following order:—

RIVERSIDES.		NORWOOD.
Phelan	Goal	Pearce
Canning	Point	Stephenson
Walsh	Cover Point	Eaton
Maher	Defence Field	Wessels
Begley	"	Nichol
McAvelia	"	Jury
Larone	Centre	Hendren
Giroux	Home Field	Waters
Neil	"	Hill
Pakenham	"	Robal
Duncan	2nd Home	McKelvy
Scott	1st Home	Stephenson

Mr. W. A. Sanderson captained the Riversides and Mr. S. Hendren the Norwoods. Mr. R. Tierney was the Riversides umpire and Mr. W. Rutherford acted in the same capacity for the Norwoods. Mr. A. Freeman was appointed referee.

The first game was compartively short. The team play of the Riversides showed off to better advantage than it did on Thursday and but nine minutes had elapsed when the ball, which had worked down to the Norwoods goal was put through by Pakenham.

The second game was contested with much determination. The wind of both teams was put to a severe test. At length after one hour and seven minutes play Pakenham carried off honors by swiping it through.

The third game was so quickly wound up that it was scarcely started before it was finished. After sixty seconds play Harry Neil decided the game and the match.

CAMPBELLFORD.

NARROW ESCAPE FROM DROWNING.—On Friday last, as Mr. W. Bakes was proceeding home to dinner, he noticed a man struggling in the river, in an eddy at the rear of his house. He went down the bank to the water's edge and soon discovered by a call from the man and his movements that he was drowning. Mr. Bakes immediately pushed out a canoe which was near him at the time, got into it and went to the assistance of the perishing man and rescued him as he was about going down the third time. On reaching the shore Mr. Bakes learned that the fellow was one of the river-drivers, and that while attempting to wade through the rapids he slipped and was carried down the stream. Had his rescuer been two minutes later in reaching him the fellow would have crossed the river in death. We did not learn his name.—*Herald.*

The Parnellites' Warning.

DUBLIN, August 5.—At a meeting here yesterday the following motion was proposed by Mr. Parnell, and seconded by Mr. Hartington: "We deem it our duty to warn the Government that the depreciation in the prices of farm produce since judicial rents were fixed mades it impossible for tenants to pay their rents. We suggest the immediate revision of such, and the remodelling of the rent-fixing clauses in order to secure protection for tenants. We also recommend the suspension of evictions."

YACHTSMEN DROWNED.

A Party of Prominent Young Men from Sarnia and Watford Lost.

LONDON, Ont., Aug. 6.—A holiday party of yachtsmen, including Messrs. Telfer, Manager of the Bank of London, Watford; Wm. Vidal, station agent, Watford, and son of Senator Vidal; W. C. Morrison, of Jarvis, formerly of Sarnia; Wm. J. Sinclair, law student, and secretary of the West Lambton Reform Association; Hope Mackenzie and Fleming Mackenzie, nephews of the Hon. Alex. Mackenzie, left Sarnia three weeks ago in a pleasure yacht for a cruise to the Manitoulin Islands and the Northern waters of Lake Huron. They started on the return trip last week, and on Saturday afternoon last reported by telegraph from Southampton that they were on the homeward run and would reach Sarnia on Monday morning. Since that time nothing has been heard of them. Mr. Vidal, an expert and daring yachtsman, was sailing master for the cruise, and as he was to be on duty at Watford on Monday morning, it is supposed that from Southampton he laid his course for Sarnia straight through the lake instead of coming down the shore; that the storm of Sunday caught the yacht in the middle of Lake Huron; that she was swamped in the gale, and that she was lost with all hands.

LATER.

SARNIA, Ont., Aug. 5.—The yacht Cruiser, with a party of excursionists, returning here from a trip to the Manitoulin Islands, was wrecked near Port Franks, and all hands are believed to be lost. The bodies of Telfer, of Watford, and the two Mackenzies have already been found. A tug has gone out in search of the others.

RIOTOUS BELFAST.

Another Tumult and Seven Persons Wounded by the Police.

BELFAST, Aug. 6.—The city is to-day placarded with a proclamation by the Mayor forbidding unlawful assemblages in the streets, threatening all who attempt to form them and all who participate in them with arrest and calling on all law-abiding citizens to assist the police in suppressing disorder.

BELFAST, Aug. 6.—While 500 workmen were going home this evening a bottle was thrown among them from a window. The workmen retorted with iron bolts and a furious tumult ensued. The police and soldiers charged upon the crowd, but the rioters without dispersing them. The police then fired upon the crowd. Seven persons were wounded.

DUBLIN, Aug. 6.—Sir Michael Hicks-Beach, Chief Secretary for Ireland, gave audience to-day to Mayor Harland, of Belfast, with reference to the enforcement of strong, repressive measures in that city. It is expected a proclamation will be issued in Belfast forthwith.

The Dublin *Gazette* announces the appointment of eleven additional resident magistrates in Antrim. This step is supposed to have been taken in consequence of the Belfast riots.

ANOTHER TELEGRAPHIC DEAL.

The Canadian Pacific Assumes Control of the Canada Mutual.

The latest deal of the Canadian Pacific in its gigantic telegraph operations is the assumption by it of the Canada Mutual wires, a company which was organized as the attachment in Canada of the Mutual Union across the border. When the Western Union gobbled the Mutual Union the little Canadian branch shared the same fate as the parent institution. How it has passed into the hands of the Canadian Pacific is not known, Mr. Hosmer, the general manager, merely admitting that such a thing has taken place. The wires of the Canadian Pacific are now connected with the Mutual Union, and the business of the latter has been practically taken over by the former. Mr. Hosmer Pringle, late manager of the Canada Mutual at Toronto, has been appointed superintendent of the C.P.R. system in Ontario, his jurisdiction extending from Smith's Falls westward to Detroit. The officers employed here by the Mutual Union will also enter the service of the C. P.R.—*Montreal Star.*

Attempt to Steal a Millionaire's Body.

MONTREAL, Aug. 5.—The inhabitants of Richmond, in this Province, are described as in a state of great excitement over a deliberate attempt of grave robbers to exhume the body of the late Mr. George K. Foster, formerly a bank president and reputed to be a millionaire, who died leaving his wealth to his family two years ago, and was interred in the Anglican Protestant Cemetery there. In the early part of the present week the caretaker found a hole four feet deep had been dug in the ground close to the monument, where it was supposed the body had been buried. The scoundrels, however, were not successful in finding the remains, as the body had been buried some distance away from the monument, with no indication on the surface of the exact spot. The cemetery is in a very public spot, and the thieves must have become afraid and decamped. The object of stealing the remains is supposed to have been the same as in the case of the late A. T. Stewart, of New York, to get a ransom from deceased's two sons, who inherited their father's great wealth, after discharging some benevolent and educational bequests. Two men have been placed on guard at night since the attempt was discovered.

Malfeasance in Office.

New York, Aug. 5.—It was announced this afternoon that charges malfeasance in office have been formulated against Mayor Grace, and are now on their way to Governor Hill, his consideration of them being demanded by citizen complainants. Such consideration the Governor is required under the law to give, as the law makes him the authority to entertain and decide all charges against Mayor of New York. The subject matter of the charges could not be obtained, but they allege gross abuse of the appointed power and collusion with others in its exercise against the public interest. Great excitement prevailed in quarters where the intelligence became known.

Struck by a Cyclone.

TOPEKA, Ks., August 6.—A cyclone struck Hartland last evening and demolished twenty houses and did great damage to crops. No one was seriously injured. The storm reached other towns in the vicinity.

LATEST BY TELEGRAPH.

THE PANAMA CANAL.

PARIS, Aug. 6.—One hundred and fifty thousand new subscribers have applied for new bonds issued by the Panama Canal Company. The number has exceeded the most sanguine hopes of the company.

TORPEDO BOATS FOR CHINA.

BERLIN, Aug. 6.—The Marquis Tseng has given the Schiran Company at Elbing an order for more torpedo boats for China.

THE DANGER FEARED.

LONDON, August 6.—The *Times* says:—"While it must freely be conceded that the Unionists if they succeed in their bold effort to re-convert the Liberals to the old principles will be doing the country the greatest service, it is vain to ignore the dangers to which their attempt will expose them. The Separatists being numerically larger, the tendency will be to absorb the smaller body. Although Lord Hartington and Mr. Chamberlain will co-operate on the Irish question, the ulterior debatable questions that are certain to be raised will divide them."

THE CHAOS OF PARTIES.

LONDON, Aug. 6.—After a consideration of Lord Hartington's speech yesterday, the conversation of members returned to town goes to show that there is little clearing up in the chaos of parties. Mr. Chamberlain has declared that he will oppose the Liberals upon any subject which might have the effect of returning Mr. Gladstone to power, so long as the latter remains unchanged on the Irish question. Thus, if a characteristically radical measure arises, Mr. Chamberlain cannot vote against it, except at the risk of stultifying himself, nor vote for it without helping Mr. Gladstone's return. Lord Hartington announces that the Unionists will not help the Liberals to force a premature expression of their Irish policy from the Conservatives. On the other hand, Mr. Chamberlain's new caucus, the so-called Radical Union, has decided to support Alderman Cook, a Home Ruler, against Harry Matthews in seeking re-election for East Birmingham on his appointment to the Home office. In the face of such contradictions, no one knows what to expect.

Fifteen Thousand Dollar Fire.

WALLACETOWN, Ont., Aug. 6.—Fire broke out in Robb's dry goods store about 2 o'clock this morning, which spread eastward to C. G. Henry's hotel, and westward, destroying W. Allen's shoe store, Monson's tailor shop, occupied by J. T. Sifton as a store room for farming implements. The fire was with difficulty confined to this block. The loss will exceed $15,000; partially covered by insurance.

Traces of a Bloody Tragedy.

HALIFAX, N.S., Aug. 6.—While emptying ashes in an ash dump late last night, two men found the left arm of a woman, with the shoulder blade attached. It had not been cut or bruised and looked as though it was torn off or twisted out of the body. It was very little decayed. It is believed a bloody tragrdy has been committed in the city, and that the rest of the body is hid in the vicinity or where the ashes came from.

Judgment in the Sproule Case.

OTTAWA, Aug. 6.—Judge Henry to-day delivered judgment in the case of Sproule the British Columbia murderer, ordering his unconditional release by the Sheriff of Vancouver. In his judgment Judge Henry finds the Sheriff's return of the writ of *habeas corpus* as irregular, and stated that "Hereafter it may be found that subordinate officers, such as sheriffs, cannot treat the writ of *habeas corpus* with contempt."

The Week's Failures.

NEW YORK, Aug. 6.—The business failures occurring throughout the country during the last seven days, as reported to R. G. Dun & Co., number, for the United States, 137, and for Canada 17, or a total of 154, as compared with 192 last week and 184 the week previous. The decrease in the casualities reported is pretty generally distributed throughout the country.

A Gold Mining Boom.

HALIFAX, N.S., Aug. 5.—A gold mining boom is again setting in. The Whiteburn mine, in the newly discovered gold districts in Queen's county, reports 200 ounces of gold from 20 tons of quartz, the product of eight men in three weeks. This record has only been equalled once before in Nova Scotia gold mining history.

Death From Paris Green.

KINGSTON, August 6.—Yesterday the infant son of Charles Brady, Storrington, swallowed two spoonfuls of Paris green, found in a keg in the yard, and, after great agony, died from the effects of the poison.

Notice to Quit.

SCOTTHAFEN, Pa., Aug. 6.—The striking miners at Scott's mines have been notified to vacate the companies' houses on Tuesday or be evicted. The men say they will not leave until forced out by law.

Cutting Found Guilty

EL PASO, Texas, August 6.—Cutting was tried yesterday and pronounced guilty. The judge has fifteen days in which to pronounce sentence.

The Typhoid Fever Epidemic.

PITTSBURG, Pa., Aug. 6.—Five new cases of typhoid fever were reported at West Elizabeth yesterday. There are no signs of the epidemic abating.

Scott's Emulsion of Pure Cod Liver Oil With Hypophosphites,

In General Debility, Emaciation, Consumption and Wasting in Children,

Is a most valuable food and medicine. It creates an appetite for food, strengthens the nervous system and builds up the body. It is prepared in a palatable form and prescribed universally by Physicians. Take no other.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

The Daily Review.

SATURDAY, AUGUST 7, 1886.

MR. BLAKE'S PRACTICE.

We have previously shown that Mr. Blake's theory as to the power of disallowance was different and much more elastic when he was in power, as compared with his theory now that he is out of power. We will proceed to show that his practice was in accordance with his theory. His claim that he and his colleagues never interfered with Provincial legislation except by reason of its being *ultra vires*, is simply an impudent falsehood, to which one in his position should not have descended.

We will give a few specimens of the dealings of himself and of other Reform Ministers of Justice with Provincial Legislation.

As to a Manitoba bill respecting Land Surveyors and the Survey of Lands, passed in 1875, Mr. Blake, Minister of Justice, reported as follows:—

"The undersigned has caused communication to be had with the Minister of the Interior, who expresses the opinion that the bill is *at present premature and unnecessary.*"

On Mr. Blake's recommendation the Mackenzie Administration refused assent to this bill.

As to a Quebec Act passed in 1875 to incorporate the musical band of the village of Lauzern, Mr. Blake, Minister of Justice, in reference to the penalty of fine or imprisonment for non-return of instruments reported as follows:—

"It seems *extremely inconvenient* to confer upon such a corporation as this, the power of passing a by law under which the subject may be imprisoned for a period of thirty days, such a power, if delegated at all should it would seem, be delegated only to municipal bodies."

Accordingly an amendment was required before the expiration of the time for disallowance.

As to a Manitoba Act passed in 1875 to amend the Halfbreed Land Grant Protection Act, Mr. Blake, Minister of Justice, reported among other things as follows:—

"The present Act modifies the provisions of the former one in some material particulars; but *not to the advantage* of the halfbreeds."

On the recomendation of Mr. Blake, the Mackenzie Administration disallowed this Act.

As to a Quebec Act dividing the Registration Division of Montreal into three, passed in 1875, Mr. Blake, Minister of Justice, referring to petitions from Mr. Ryland, the Registrar, and from citizens of Montreal, reported that Mr. Ryland seemed to have strong claims for compensation from the Imperial, Dominion and Provincial Governments, but that they appeared to have ignored them. He, therefore, recommended that the Provincial Legislature should be given an opportunity of re-considering their legislation before the expiration of the time for disallowance. Thus threatened the Province gave assurance of doing Mr. Ryland justice, and Mr. Blake then recommended that the power of disallowance be not exercised.

As to a Quebec Act to compel assurors to take out a license, passed in 1875, Mr. Blake, Minister of Justice, reported as follows:—

"The undersigned, however, feels bound to point out that in one particular this Act appears *specially objectionable.* * * * This Act, however, requires payment by the companies of the tax of one per cent. upon the premiums for the renewals of life assurance policies, although *made before* the passing of the Act. * * * This seems objectionable in principle and *calculated to produce a feeling of insecurity abroad* with reference to Provincial legislation; and the undersigned recommends that the attention of the Lieutenant-Governor should be called to the provisions with a view to its amendment during the ensuing session, at any rate, in so far as it affects contracts made before the passing of the Act."

As to a British Columbia Act, passed in 1876, to amend the Licenses Ordinances, Mr. Blake, Minister of Justice, reported among other things that it was "opposed to the spirit of the Union Act, *in violation of sound principles* of taxation and of *mischievous tendancy.*"

By Mr. Blake's advice the Mackenzie Administration required its repeal with the alternative of disallowance.

As to a Nova Scotia Act respecting the Provincial Legislature, passed in 1876, Mr. Blake, Minister of Justice, reported among other things as follows:—

"Whatever view may be taken of so much of this subsection as applies to members or officers of the House, it seems obvious that its application to the subject in general would be to *put the subject at the mercy* of either House, no matter what might be the nature of the rule, order or resolution which it passed. * * * These provisions give, in the opinion of the undersigned *objectionable) powers* to each House, and he recommends that the attention of the Lieutenant-Governor should be called to them with a view to their being repealed before the time within which the question of disallowance may be determined."

As to a British Columbia Crown Land Act passed in 1874, Mr Fournier, Minister of Justice and colleague of Mr. Blake, reported among other things that:—

"The undersigned feels that he cannot do otherwise than advise that the Act in question is *objectionable*, as tending to deal with lands which are assumed to be the absolute property of the Province, an assumption which completely ignores as applicable to the Indians of British Columbia, *the honor and good faith* with which the Crown has in all other cases, since its soverignty of the territories in North America, dealt with their various Indian tribes."

For this among other reasons the Act was disallowed a year later.

As to a Prince Edward Island Land Purchase Act passed in 1874, Mr. Fournier, Minister of Justice and colleague of Mr. Blake, reported as follows:

"The undersigned is of opinion that the Act is *objectionable* in that it does not provide for an *impartial arbitration*, in which the proprietors would have a representation, for arriving at a decision on the nature of the rights and the value of the property involved and also for securing a *speedy determination* and settlement of the matters in dispute."

For these reasons the Mackenzie Administration refused assent to the Act.

As to a Prince Edward Island Act, passed in 1876, to amend the Land Purchase Act, the Hon. R. W. Scott, Acting Minister of Justice and colleague of Mr. Blake, reported as follows:—

"He is of opinion that the reserved bill is *retrospective* in its effect; that it deals with *rights of parties now in litigation* under the act which it is proposed to amend, or which may yet fairly form the subject of litigation; and that there is an *absence of any provision saving the rights and proceedings* of persons whose properties have been dealt with under the Act of 1875."

Accordingly the Mackenzie Administration refused assent to the bill.

This is far from being an exhaustive list, but it is sufficient to show the dishonesty of Mr. Blake's claim that he and his colleagues did not interfere with Provincial legislation unless it was *ultra vires.* He was ready enough with such interference whenever legislation was not to his taste. His objection is not to interference with Provincial legislation, but to the decision of the people of Canada not to allow him to interfere with their public affairs either in that or any other manner.

LINDSAY.

Changed Hands.—Mr. George Stewart, of Valentia, has purchased the celebrated imported Clydesdale stallion, "Young Enterprise" from Messrs. Graham & Fair, Cavan, for the sum of $2,300.

Horse Drowned.—On Wednesday afternoon last Mr. Henry Gain, butcher, drove his rig into the river and backed into the stream to wash. The horse backed in farther than was intended when he reared, breaking a shaft, which penetrated the animal's side, causing death. Mr. Gain escaped by swimming ashore. The horse was worth $175.

A Whopper.—On Monday afternoon last as Mr. P. Meagher, foreman of Irwin's drive of logs, was hauling in the anchor near Sturgeon Point hotel, he noticed the horses on the capstan drawing harder than usual. The mystery was soon explained when anchor and cable were thrown high in the air with a monster maskinonge attached. Then the sport began, and ended in the presence of nine men, who all express willingness to back up the foreman's story. A 38 lb. fish was landed, having seized the anchor far a bait.—*Warder.*

Sent Them Brain Food.—The editorial staff of the *Post* are indebted to some as yet unknown friend for a magnificent maskinonge. It was a splendid fish.

[illegible] the case against John McCormack was called at the police court on Monday morning, but was adjourned on account of non-attendance of witnesses for defendant. On Wednesday morning the case was resumed. Mr. Workman appeared as witness for the defence and gave evidence that the lease of the hotel property was in favor of Mrs. McCormack. On this ground the case was dismissed. On Thursday last an information was laid against Wm. Hasiam, of the Lindsay brewery, for selling beer against the provisions of the Act. On Saturday night Mr. Haslam saw Police Magistrate O'Leary and, admitting the charge, was fined $50 and costs, fine to be paid on or before August 20th.

Flowing Wells.—While Mr. W. Draper, of lot 4, con. 1, Ops, was deepening his well a couple of weeks ago he made a scientific or rather a geological discovery. He digged for about eighteen feet and then began to pound down a bar of iron through a stratum of blue clay. The bar presently entered gravel and water began to rush up in great quantities. Mr. Draper realized that something had to be done and clambered out of the well without the formality of removing the bar. Next morning the well was full of water and flowing over the ground adjoining. On the adjoining farm owned by Mr. W. W. Partington is another flowing well.—*Post.*

BOBCAYGEON.

Failed.—A short time ago, Mr. J. H. Thompson went away on what was supposed to be a holiday. It is now understood that Mr. Thompson will not return, and that his business affairs are in an unsatisfactory state. For many years he was held in high esteem by the public, and had several positions of trust. Up to the moment of the disclosure, there was not the slightest suspicion of any embarassment. The liabilities are given at about $2,000 and the assets at about $1,200. The bulk of the liabilities, however, are secured by bordsmen.

Light House.—The light house, or what is by courtesy called such, which marks the mouth of the Scugog, is under a course of repair by Mr. Wm. Kennedy. Some years ago an unruly scow ran into it and left it in a dilapidated condition, and more recently the ice, when breaking up in the spring, had given it a lift over. It was not carrying itself with that degree of plumbness which might be expected of it whilst in the midst of such tectotal surroundings. It is understood that the lakemen have petitioned the Department to make it a real light house and not a sham one, by having a light placed on it on dark nights. It certainly is needed, and there should a so be a light placed on Jackson's island. The lake would then be navigable at night with safety.

Shot.—Mr. T. Norgate had a narrow escape from being killed, on Saturday. Mr. Norgate had been out camping with a party of friends, and the camp material had been placed in the rear of the house. Among the material was a rifle of small calibre, used at short range for small game. At this point in the story our local skirmisher has got horribly mixed, and it is difficult to make out exactly what did take place, for he speaks of a falling pitchfork, and a barrel, and a hayloft and a self-cocking trigger on which the pitchfork fell, and the muzzle of the rifle slid down Mr. Norgate's waistcoat from the shoulder to his belt, passing over his heart, the pitchfork being astraddle of the self-cocking trigger. Then Mr. Norgate made a spring to clear him self of the muzzle, and there was a bang, and the bullet entered Mr. Norgate's left arm. The fun in shooting depends very largely upon which end of the gun you are at. Strange to say the bullet, which was a small one, buried itself about an inch deep into the arm, witnout doing any serious injury, and Mr. Norgate extracted it himself, with his pen-knife. The wound is healing favorably.—*Independent.*

Keep Your House Guarded.—Keep your house guarded against sudden attacks of Colic, Cramps, Diarrhœa, Dysentery and Cholera Infantum. They are liable to come when least expected. The safest, best and most reliable remedy is Dr. Fowler's Extract of Wild Strawberry.

The Columbia River salmon fishing season has not been prosperous. On the Fraser it is said that the fish of the fourth year were never so late in coming.

An Old Favorite.—An old favorite, that has been popular with the people for nearly 30 years, is Dr. Fowler's Extract of Wild Strawberry for all varities of Summer Complaints of children and adults. It seldom or never fails to cure Cholera Morbus, Diarrhœa and Dysentery.

In Bedford Basin a large shark followed up a row boat with such affectinate closeness that the occupants landed and tramped the rest of their journey.

A Quadruple Force.—The reason why disease is so soon expelled from the system by Burdock Blood Bitters is because that excellent remedy acts in a four fold manner—that is to say, upon the Bowels, the Liver, the Blood and the Kidneys, driving out all bad humor, and regulating every organic function.

EVERGREEN WIND-BREAKS.

Continued from Friday.

The distance at which such evergreen trees should be planted is a matter for consideration. If you take the pines, planting even twenty feet apart would undoubtedly give, after a number of years, an efficient windbreak, for, say in twenty years, their branches would interlace. But by planting closer we may have a windbreak in a much shorter period. If we plant, say three feet apart, we can well, in a few years, take out and plant elsewhere every second tree, and this is preferable to planting them six feet apart at first, for each closely neighboring young tree helps the growth of the other. Where plants are small, it would be better to plant them yet closer, and depend on the future for proper thinning. Then you can indefinitely extend your lines of trees, as you will have a number of well grown plants five or six years old with fine large masses of fibrous roots, which, properly dug and planted, will then give you in a very short time, as many beautiful rows of sheltering evergreens as your farm shall need, or, if you have more than you will then consider requisite, you can sell them for good prices to such of your neighbors as have been less provident. And there is too good reason to believe that by that time considering the present process of tree denudation, the value of shelter will have so impressed pressed itself upon the minds of the surrounding farmers that you will have a remunerative market for all you can spare.

With regard to the after treatment of these windbreaks, an evergreen never should be trimmed up that is to say, it should always be allowed to throw out its branches close to the ground at will. Its lowest branches are naturally the longest when grown in the open, and its tendency there is ever to shade by its lower branches and to much the earth below them by the covering of its fallen needles.

As has been said, the planting of even a very long row of evergreen windbreak is a matter of but slight expense. The young trees can, in many instances, be procured from our forests, or the seed can be sown, the young plants the second year planted out in nursery beds and the fourth in the windbreak, or the seedling can be procured for a few dollars per thousand from nurserymen.

In planting windbreaks of cedar, the best specimens I have seen were planted much more closely than the pines or spruces, being left at two feet or even a less distance apart.

Following this will be found a list of pines, cedars and spruces best calculated for this purpose, their distinctive methods growth, their favorite soil, and their means of propagation and culture. Where these are not fully stated in any instance, full particulars will be found in the list of trees at the end of the book:—

Pinus Resinosa (Red pine).—This tree delights in a dry, sandy, or gravelly soil, or in one formed from the debris of rock. It will, however, and does frequently in our forests, grow in others. I have seen large trees on clay loam. —B.

Pinus Austriaca (Black Austrian pine).—We have not found this tree at all particular in regard to soil, if it is not stiff and wet. The best specimens we have seen of it grew upon a sloping bank, where the soil was a light loam, and deep and porous. We have, however, seen thriving plantations of it on most kinds of land, but there were always made dry by drainage, if not so naturally. It is a tree well adapted to produce a great degree of shelter, as its massy foliage forms a great protection from winds, and its rapid growth insures this within a very short time after planting. This tree is readily known from all other pines introduced into this country by its very strong and robust habit of growth, by the stiffness and strength of the leaves, by their prickly points, and by the very decided dark appearance of the foliage over the whole tree.—B.

Pinus Sylvestris (Scotia pine).—Leaves in pairs, rigid. Cones conico ovate, acute, as long as the leaves, generally in pairs. We have seen the Scots pine growing on almost every variety of land; but we are of opinion that a light, sandy, or gravelly loam, is above all others, when perfectly dry, the most appropriate for the tree. As to situation, suffice it to say, that if the land on which the Scots pine is planted be dry, it will prosper in any site not too elevated and exposed for trees to succeed in this country.—B.

Pinus Strobus (White pine).—The white pine will grow rapidly on light, poor, sandy soils, and there are millions of acres of such lands that could not be put to a better purpose than planting it with white pines.—F. The branches are in regular whorls; and in young trees, and where openly exposed, they form a beautiful pyramid; the foliage is pliant leaves slender, from three to four inches long of a light bluish green.—W.

Pinus Ponderosa (Heavy wooded pine).—This tree has leaves from nine inches to a foot long. Branches are regularly whorled, horizontal, and inclined to droop. This tree has a noble appearance, even when young. It is from the northwest coast of America. Hard, and grows rapidly.—W. The soil of this species as for most others of the pine tribe, should not be of a rich nature, as under such circumstances the pines generally grow too luxuriantly, and consequently do not ripen the points of their shoots sufficiently to resist the frosts of our winter.—B.

Pinus Pinaster, (Cluster pine).—Leaves twin, roughly at edge. Cones oblong, conical, shorter than leaf, narrow at base; scales echinate.—B. It thrives in deep, sandy land, and is said to perish in calcareous soils. Immense tracts of barren, drifting sand have been covered with this tree in France which now yield abundant crops of inferior lumber, fuel, and pitch.—W. Propagation from seed; sow at the end of April; transplant in one and two years.

Pinus Benthamiana (Bentham's Pine).—Leaves three in a sheath, thickly set on the branches, drak green; generally from eight to eleven inches, stout somewhat flat with a slightly elevated rib running along their inner side. One of the hardiest, and most ornamental pines. Propagation same as the Scotch pine. Deep, free soil.

Pinus Laricio (Corsican pine).—Leaves two in a sheath, lax, from five to seven inches long, dark green, often twisted, sheaths short. A beautiful tree of a pyramidal and open-branched form. Will grow on most soils. Hardy, but unsuited to high winds. A very rapid grower, making two or three feet a year. Propagation from seed.

Abies excelsa (Norway spruce fir).—Leaves scattered, quadrangular. Cones cylindrical, terminal, pendant, scales naked, truncate at the summit, flat. It flowers in May; its cones are ripened in the spring of the following year, soon after which they commence shedding their seeds. One of the best trees for shelter belts, on account of its tendency to spread out its lower branches, assuming naturally the pyramidal form; and it is also found that this plant bears clipping very well. Nothing can be more beautiful or more effective as a shelter than the Norway spruce. The seed is propagated in the same manner as that of the P. Sylvestris, the seeding plants remain two years in the seed bed, but they they generally require three years in the nursery rows before they are fit to be put in their final situations. They grow best in a moist, and moderately rich, but not wet soil.

Abies Canadensis (Hemlock spruce fir)—Grows well, and makes a fine spreading shelter tree on tolerably good soil but will not succeed as well in the open, on poor hard clay, as it did in the original forest.

Abies Nigra (Black spruce fir)—Will form a rather tall, slender tree, with branches spreading horizontally, and frequently drooping at the ends, in the case of old trees. The stem is generally smooth, with a blackish bark, very straight, and diminishing regularly from the bottom to the top. The whole tree has an open and airy appearance, from light being admitted between the whorls of branches which are never of a massy or heavy character, like those of the common spruce fir, but light and pointed each tier showing the outline distinctly.—B. Both this tree and the one preceding stand the shears well; but so far as I have seen, they must not be cut down to small hedges of six or eight feet high. They are trees for shelter belts, and the effort to treat them as hedge plants I have known to kill them.

Abies Alba (White spruce fir).—This species is easily distinguished from all the other species of the family by the lighter color of its leaves, which are of a somewhat hoary grey color; forms a beautiful small tree. The proprietor who wishes to produce a rich coloring of foliage in any particular part of his grounds, has only to plant some dark-leaved pine in the background, the scarlet maple in the front of it, and the white spruce in front of the maple; and when these trees have attained some size he will find the autumn colorings admirable—the yellow, red, and crimson of the maple, the very dark green of the pine, and the hoary grey of the white spruce blending so as to produce an effect indiscribable, and beyond the art of the painter.—B.

Thuja Occidentalis, (White cedar).—The trunk tapers gradually from the ground, and the branches are so arranged as to form a pyramidal tree with a broad base; the twigs are drooping, and all the branches have a flattened character. This is justly considered one of the best American evergreens for general planting, on account of its adaptability to general situations. Since its native habitats are peaty swamps, and rocky cliffs, it will thrive in almost any situation; and its conical figure and rather free growth make a good effect. One of the characters that recommend this tree is, that it bears clipping, and hence it is well suited for ornamental hedges, and wind screens, for which purpose it is generally used.—W.

Juniperus Virginiana (Red cedar).—Red cedar is one of our own most valuable evergreen trees; nothing can exceed its value for purpose of shelter. As an ornamental tree or large shrub it is of great value for grouping. This plant is highly esteemed in Europe, but quite too much neglected in our own country; perhaps because it is so common; its growth is rapid, and it is very hardy. The shelter and food which this cedar affords to the feathered friends of man are a great recommendation to it, and should induce every planter to plant the tree.—W.

Take a Pill

To regulate the bowels and drive away the sick or bilious headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

A RELIC OF THE DEAD.—The hat of Ewart Lowe, drowned with his brother Frank on the 29 of June, was picked up near Presqu'ile Bluff on Saturday last. No tidings have yet been received of the recovery of Frank's body. A bag containing the best clothes of the unfortunate lads is also missing.—*World.*

THE SCOTT ACT.—On Wednesday morning Mr. Plunkett of the Queen's, and Mr. M. B. Williams of the Dunham House, appeared before Police Magistrate Dumble to answer to the charge of violating the provisions of the Scott Act. Both pleaded not guilty. The witnesses for the cases not appearing, the magistrate was instructed by Mr Kerr, the Crown prosecutor, to issue warrants compelling them to attend. The cases were consequently adjourned, the former to Saturday, and the latter to Monday.—*Sentinel Star.*

Captured by Cupid.

OTTAWA, Aug. 5.—Considerable gossip has been caused by the recent desertion of two nuns from the religious community in this city, of which they had been worthy members for upwards of fifteen years. The two, who are twins and part of a family of five children whose parents established them in convent life when, it is said, they were altogether too young to fully understand the gravity of the step they were taking, had been sent out to a country house of the order. A young bachelor farmer on the property adjoining managed to form their acquaintance and win the affections of one of them, and a marriage being agreed upon the twins together abandoned their religious life and returned to the house of their father, a well-to-do resident of this city. The wedding will take place shortly. The prospective bridegroom is a Roman Catholic also.

Forewarned

of danger by the condition of your blood, as shown in pimples, blotches, boils, or discolorations of the skin; or by a feeling of languor, induced, perhaps, by inactivity of the stomach, liver, and kidneys, you should take Ayer's Sarsaparilla. It will renew and invigorate your blood, and cause the vital organs to properly perform their functions. If you suffer from

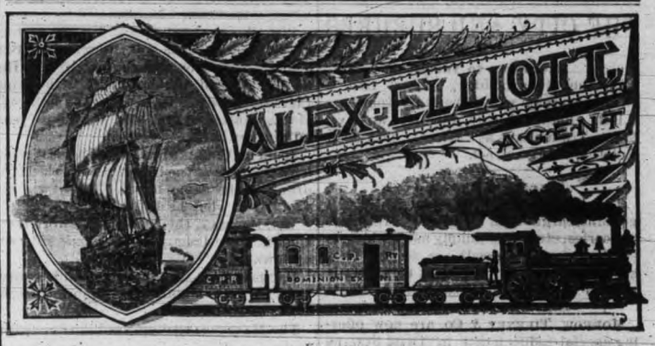
Rheumatism,

or Neuralgia, a few bottles of Ayer's Sarsaparilla will relieve and cure you. Alice Kendall, 218 Tremont st., Boston, Mass., writes: "I have been troubled with Neuralgia, pain in the side, and weakness, and have found greater relief from Ayer's Sarsaparilla than from any other remedy." J. C. Tolman, 336 Merrimack st., Lowell, Mass., writes: "In no other remedy have I ever found such a happy relief from Rheumatism as in

Ayer's Sarsaparilla

saparilla." It instils new life into the blood, and imparts vitality and strength. Being highly concentrated, it is the most economical blood purifier.

Forearmed



with Ayer's Sarsaparilla, there need be no fear of Dyspepsia, Rheumatism, Neuralgia, Salt Rheum, Tetter, Eczema, Catarrh, Liver troubles, or any of the diseases arising from Scrofulous taints in the blood. Geo. Cox, 32, Big Springs, Ohio, writes: "Ayer's Sarsaparilla has been used in my family for a number of years. I was a constant sufferer from

Dyspepsia,

but Ayer's Sarsaparilla effected a permanent cure. Seven years ago my wife was troubled with Goitre: two bottles of Ayer's Sarsaparilla cured her, and she has never had any return of the disease. I regard this preparation as the best medicine in use for the blood." B. Barnard Wair, 75 Adams st., Lynn, Mass., writes: "For many years I suffered terribly from Indigestion, Dyspepsia, and Scrofula. Almost hopeless, I took Ayer's Sarsaparilla, and am a well man to-day." Be sure and get Ayer's Sarsaparilla, the most thorough and effective blood purifier. The best is the cheapest.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

THE CITY AND SUBURBS

Excursion to Toronto.

On the civic holiday, August 19th, a cheap excursion will be run to Toronto per C.P.R. Return tickets, good for two days, $2.00. Train leaves at 8.30 a.m. Tickets at Elliott's, George street.

Excellent Bargains.

The Bon Marche is the place to go for genuine bargains in Dry Goods, Millinery, Groceries, etc. It is simply astonishing to see how fast the goods are going. They are very cheap. If you want bargains do not fail to attend this great benefit sale.

MORROW, TIERNEY & Co. are now offering special inducements in TEAS, SUGARS and General Groceries. Call and inspect.

Information Wanted.

Any information as to Gabriel Faubert, who left home twenty-three years ago, at the age of 17, and was employed on the rivers of this district, will be thankfully received by Gabriel Faubert, Basin du Lievre, P. Q.

Personal.

Mr. Ed. Tierney, of the New York Fire Department, and Miss Tierney, of New York, arrived in town on Friday evening to spend a couple of weeks' holidays at home.

Mr. F. W. Millar has returned, fully recovered from his recent illness.

Caricature History.

The "Caricature History of Canadian Politics," from 1840 to date, illustrated by 400 full page engravings by Bengough and others, should certainly command an extensive sale, as will no doubt be found by Mr. T. W. Gibbs, who is now canvassing the town and neighborhood.

Garden Party.

A garden party will be held at the residece of Mrs. Orde, Robinson street, Ashburnham, next to Mr. H. Calcutt's, on Tuesday, August 10th. Admission ten cents. Proceeds for St. Luke's Church. The Fire Brigade Band will be in attendance. All made heartily welcome from 5 o'clock.

Some Sporting Items.

The Lindsay *Post* says:—"Mr. George Carr meditates placing 'Careless Dick' under the charge of Mr. Robt. Reid, of Peterborough, to be trained on the track in that town. 'Richard' is himself again."

The Port Hope *Times* replies to the baseball challenge in the Cobourg *Sentinel-Star* as follows:—"It is not necessary to 'put up or shut up!' Let Cobourg put up its money and we have no doubt it will be promptly covered, but we rather doubt the existence of the 'gentleman resident in Peterborough.' One thing is certain, it will be a long time before Port Hope will again go to Cobourg to play a game of ball. The *Star*'s childish talk about 'professionals' is very fine for a team which refused to join an amateur league, because they intended to have paid men!"

The Irish lacrosse team is expected to arrive at New York to-morrow. The Torontos' team is in New York.

Toronto beat Oswego at baseball on Friday by 8 to 0. Toronto stands second in the International League and Hamilton fourth.

The Lachine four-oared crew defeated the Argonauts, at Lachine, on Friday, for the Lachine Challenge Cup.

The Hastings Ironclads Lacrosse team roturned from Millbrook on Friday evening. They stated that the match with Millbrook resulted in a draw. Only one game was played, that lasting about two hours without being decided. A match in the Riverside park here between the two clubs is spoken of.

The champion nine of the Central District—according to the Lindsay estimate—played a game of ball at Port Hope on Friday. The champion nine were worsted by a score of only 27 to 3 in favor of Port Hope. Query: Can Lindsay play ball a little?

THE CAMPAIGN CLOSED.

THREE OF THE DEFENDANTS IN THE SCOTT ACT CASES FINED.

The Charges Against Messrs. Clancy, Halpin, Daly, Roddy and Cavanagh Dismissed.

At the Police Court during yesterday afternoon and this morning there was a crowded room, and much interest was evinced. A summary of the cases is as follows:—

On Friday Wm. Reynolds was charged by Henry Rossiter with having sold intoxicating liquor between the 7th and 31 days of July.

The defendant did no appear.

CAPT. COOPER stated that the summons had been served.

ALEX. POLLARD swore that he got whiskey and beer from Reynolds.

No evidence being offered for the defence the Magistrate imposed a fine of $50 and costs to be paid forthwith, and in default of payment distress, and in default of distress imprisonment for two months.

THE HALPIN CASE.

Michael Halpin was charged by Henry Rossiter with having between the 1st of July and the 2nd of August sold intoxicating liquor.

The defendant pleaded not guilty.

Mr. Edwards appeared for the prosecutor and Mr. O'Meara for the defendant.

The only evidence which was given in this case was that of Pollards, given on Thursday afternoon. He swore that he got moxie mixed with whiskey.

WM. WILSON stated that he was at the hotel when Pollards was there. Pollards asked for moxie and took a drink. He (Wilson) asked the bartender to let him taste the moxie as he had never tasted it. He then tasted it and said that there was NO whiskey in it.

JOSEPH CREVIER stated that he drank with Pollards at the American Hotel. They drank of the same bottle. There was no whiskey in what he drank.

WM. BOWMAN, the bartender, swore that what he gave Pollards was moxie diluted with water.

MICHAEL HALAIN, the defendant, swore that he gave Pollards no liquor, though asked to do so.

The MAGISTRATE dismissed the case with costs.

THE DALY CASE.

F. J. and J. J. Daly were charged by Henry Rossiter with having between the 7th and 31st days of July sold intoxicating liquor.

The defendants pleaded not guilty.

Mr. Edwards appeared for the prosecution and Mr. Moore for the defense.

Several witnesses were called, giving testimony, but no evidence was obtained. Some got Moxie, others ginger ale, and so on, but none stated that intoxicating liquor was given them.

The Magistrate dismissed the case with costs.

JUDGMENT DELIVERED.

This morning Judgment was delivered in the Snowden and Kenneally cases. Both of the defendahts were found guilty and, on their admitting a first conviction were fined $100 and costs to be paid in five days, in default of payment distress, and in default of distress imprisonment for two months.

THE CAVANAGH CASE.

Henry Rossiter charged Timothy Cavanagh with having, between July 1st and Ausust 2nd, sold intoxicating liquor.

The defendant pleaded not guilty.

Mr. Edwards appeared for the prosecution and Mr. Moore for the defense.

The testimony given in this case was similar to that given in the Daly case. Six or seven witnesses were called. Some got one drink and some another, but all agreed to stating it was "soft stuff" which they drank.

TIMOTHY CAVANAGH was called. He stated that no liquor was kept for sale at his house between July 1st and August 2nd.

Mr. EDWARDS—Was any sold there during that time?

WITNESS—I decline to answer on the ground that my answer may tend to incriminate me.

The charge was dismissed with costs.

The Biggest Thing on Ice

Will not be seen in Peterborough until next winter, but the biggest affair by long odds that has ever taken place here will be the two days' race meeting at the Peterborough Driving Park, on Thursday and Friday, August 26th and 27th. The fastest horses in Canada are expected, the purses are large, the judges competent, the track one of the best on the continent, and the whole affair strictly honest. Don't forget that.

SECOND MONTHLY MATCH.

The Riflemens' Scores—Poor Shooting—A Windy Day.

The second monthly rifle match of the season, under the auspices of the County of Peterborough Rifle Association, was held at the Association range on Thursday.

The day was anything but what could be wished for. When the aim was taken it was likely to be a dead calm, and when the trigger was pulled ten chances to one a gust would sweep across the range and spoil the shot. Even Cameron's shooting was bad till it came to the six hundred yard range. He made 16 on the 200 yard range, while several others went up to 20; but he distanced all by putting in 20 at the six hundred yard range, while several subsided to scoring eight and ten, and so forth.

The shooting was done at 200, 400 and 600 yards, five shots to each range. Four hundred rounds of ammunition were distributed in prizes.

The score is as follows:—

D. Cameron	52
W. H. Hill	43
F. Hall	39
Major Bell	36
W. Reynolds	36
W. A. Bell	36
A. Blade	36
G. Fitzgerald	35
Lieut. Brennan	27
W. Bunting	22
T. Rutherford	20

THE RACE.

The Stevenson Crew Have the Honor of Presenting the Barrel of Flour.

The four oared race pending for the last two weeks came off on Friday evening. The weather was delightfully calm and the lake unruffled by as much as a dimple. At half past seven o'clock Geo. Stevenson, A. Stevenson, G. Lech and J. Sheehy appeared in one boat, and H. W. Kent, W. Matthews, F. Mercer and J. McDonald in the other.

As will be noticed, two changes are made in the make up. Lech took the place of R. Sheehy and Mercer the place of Howden, both of these being unable to row on account of indisposition. After an argument as to who would stroke the first named crew it was agreed that the old stroke perform that duty.

Mr. R. E. Wood, President of the Club, acted as starter. At the word "go" all oars dipped in the placid water and both boats shot away, if anything with the Stevenson crew leading. The Stevenson crew turned the buoy first, gaining about a length. But the crew had run into the others course and a collision took place, the bow of the rear boat struck the stern of the leading one. This so affrighted the coxswain that he commenced to trace a rail fence in the water. At first the boat struck out for Peck's brewery and then a sudden change came and both boats were almost locked together. The advantage gained by the Stevenson crew at the start was lost. The Kent crew led a full length when the courses were shaped again, though both were in the wrong courses. Towards the finish the Stevenson crew pulled up and shortened the gap by half a length and in this way the two boats passed the wining pier.

The coxswain of the Stevenson crew, who played so erratically with their chances of a win, fled as soon as his boat touched dry land. The members of the crew don't know his name. Master Earnest Cooper was the coxswain of the wining crew.

The time of the race was 5½ minutes.

HOG BALL.

A Match Played in the Riverside Park Between Indians.

A game of hog ball was to have been played in the Riverside park on Friday afternoon between the Mud Lake and Rice Lake Indians, but at the appointed time the latter did not appear. Sides were chosen among the Mud Lake Indians and a game was played. The teams were composed as follows: Jack Knott, captain, Jonny Taylor Richman David, Robt Brown, Thos Quinguish, Jas. Mc ue, Henry Taylor, Ed. Taylor, Andrew Anderson, Moses McCue, captain Geo. Taylor, Willie Taylor, Dan Whetung, Jacob Irons, Amos Johnston, Sampson Fawn and Jim Crow.

The teams appeared on the field before a grand stand full of people at three o'clock They all wore every day habiliments, except that most of them chose to dispense with their boots.

The game was a mystery to many who looked on, but it is quite simple. The pitcher stands at the bat and tosses the ball. If the batsmen hits out a fly and it is caught the side retires, or if the pitcher catches the ball as it bounds up when missed by the batsman the side is retired.

Another way to retire the side is to hit a base runner with the ball. The batsman may run the base, which is one hundred yards out and the same back, as soon as he hits, or he may stand at a side post till he sees his opportunity. If the fielding is sharp, and no opportunity is afforded till the last man goes to bat, all are compelled then to run. It is very amusing to see the whole nine start off, like a numerous "field" on a race track. When a base runner is threatened with a bolt from the ball, he twists and dodges in a remarkable manner, and very often evades the true aimed shot of the thrower.

There was no noise and no disputes during the whole match. The umpire was not threatened with extermination—one reason, because there wasn't any—and the players contested very agreeably. Only once was any remonstance made, and that was when Moses expostulated with a base runner. His remark sounded like this: "Wha tyo udot hatfor," with additional caution words.

The match is decided by the winning of two games out of three, a game being made up of ten runs. Knot's side won the first two games.

A Mysterious Disease.

SPRINGFIELD, Ill., August 7.—A mysterious disease, thought to be Texas fever, is reported raging among the cattle near Cautreil.

Canadian Cricketers Defeated.

PHILADELPHIA, Aug. 7.—The L. Zingara Canadian cricketers played a one inning match yesterday with the first eleven of the Merion Club, and suffered defeat by six runs.

Mysteriously Killed.

KINGSTON, Aug. 7.—An unknown man was mysteriously killed near Collins Bay last night. It is supposed he was struck by a freight train while sleeping on the track. The man told a laborer that he was from Watertown.

Found on the Shore.

JARVIS, Ont., Aug 7.—The body of Harry Grover was found on the shore of Lake Erie, about two miles west of Nanticoke, yesterday afternoon. He was a travelling sewing machine repairer and agent, and has lived in this vicinity for several years.

Asiatic Cholera.

OTTAWA, Aug. 7.—A proclamation has been issued putting in force regulations supplementary to the quarantine regulations established in 1868 and 1873 in view of the existence of Asiatic cholera in ports of the United Kingdom and Europe.

A Son Murders his Father.

CLEVELAND, Aug 7.—A Noble county farmer named Thomas Rogers quarrelled with his son Jacob yesterday, while both were intoxicated. The son attacked the father with a pruning knife and disembowled him. The murderer was gaoled.

Two Bodies Recovered.

KINGSTON, Aug 7.—The bodies of Cliff and Sheely, of A. Battery, drowned a few days since, were recovered yesterday. Cliff's body was forwarded to London, where his friends reside. Gunner Sheely's remains were interred yesterday afternoon with military honors.

North-West Central.

OTTAWA, Aug. 7. To-day's official *Gazette* contains an order in-council granting the charter for the construction of the "Great North-West Central Railway" from a point on the Manitoba and North-Western Railway via Rapid City to Battleford. The capital stock is $2,000,000. Messrs. Francis Clemow, C. T. Bate, W. A. Allan, Ottawa; James Murray, St. Catharines, and A. Charlebois, Quebec, are the company.

Fatal Accident.

SUDBURY, Aug, 7.—Last Friday J. B Francoeur, line repairer, while at work was accidentally killed at Chelmsford. He was very much regretted by those that knew him. An inquest was held on the body next day by Coroner Doran, of North Bay, and a verdict of "accidental death" rendered. The body was taken to St. Auris, in the vicinity of Montreal, for burial. He was a married man.

The Nurse was Killed.

SUDBURY, Ont., Aug. 7.—A little girl some 8 or 9 years old was killed on the C. P. R. track near Biscotazing a few days ago. Her father and mother occupied a boarding house car which used to be moved from place to place, and to which were attached a couple of flat cars, on one of which the little girl was seated when she was knocked off by a shunting engine and run over. At the time of her fall she had a little baby in her arms, which she was nursing, and which she held firmly in her fall, and, strange to say, it escaped unhurt.

RIOTING AT BELFAST

More Bloodshed and Death The Military to Supercede the Police.

BELFAST, Aug. 7.—A riot took place this morning between the Orangemen employed in the Queen's Island ship yard and the Catholic navvies employed by the Harbor Commissioners. The fight was very severe for a time and resembled in character that which occured between the same element of June 4, when the Orangemen, greatly outnumbering the navvies, overpowered and beat them and drove them into the water, when one was drowned. A number of men on both sides were so badly injured in to-day's fighting that they had to be removed to the hospitals.

To-night the conflicts were resumed. The fighting was the most desperate that has taken place during the recent troubles. The mob was infuriated and fought with savage energy. Fifty persons were injured, some of them, it is thought, fatally. Terrible struggles occurred on the Shank Hill-road. The police quartered in McKenna's tavern on the Old Lodge road were attacked by the mob with stones and revolvers, and were compelled to fire from the windows of the belenguered house. During this attack eighteen persons were injured, and were subsequently taken to the hospitals. A youth named Jackson is said to be dying from his injuries. Four policemen were badly injured.

DUBLIN, Aug. 8.—In responce to urgent telegrams from Belfast this evening, four hundred infantry soldiers, some of them being on furlough, were summoned by bugle in the streets, and were despatched by special train to Belfast. A body of two hundred dragoons and infantry will leave for Belfast at 4 o'clock to-morrow morning. The police of Belfast will be superseded by the military.

BELFAST, Aug. 8.—The excitement here is unabated. This morning rioting broke out in Old Lodge road and the police were obliged to fire in order to disperse the rioters. This afternoon the rioting was resumed with great violence in Old Lodge, Grosvenor and Springfield roads. Many persons with gunshot wounds have been sent to the hospitals. There are rumors of many fatalities, but it is difficult to obtain accurate accounts. A panic is seizing the peaceable inhabitants.

Midnight—The rioting showed no sign of abatement. The McKenna incident, which was principally the sacking of wine shops and other public houses, was repeated to-night, the result being that two persons were killed and another was fatally wounded. The latter was sent to a hospital, where he was treated, and then discharged, when [illegible] night. Twenty-six cases of serious injury are reported, one of the sufferers being a boy, who has since died.

THE CUTTING CASE.

Americans Living in Mexico Express Disgust at the Action of Cutting.

CITY OF MEXICO, Aug. 7.—An associated press correspondent yesterday interviewed all the leading American residents with reference to the Cutting case. Their opinions seem to be reflected in the following statement of the case made by Chas J. Seeger, the publisher of the *Mexican Financer*, the organ of the commercial, railway and mining interests: "I do not think our government and the people at home realized the disagreeable and dangerous position in which the business interests of Americans living here are placed by the conduct of an adventurer on the border, who tries to use the American flag to protect him in order to obtain a little notoriety. I am convinced that an international conflict, based on this pretended outrage, would be an act of folly. In the case of Rasurse, the naturalized American citizen who was brought to Piedras Negros and shot by order of chief of police Mondragon, the opinion is expressed in government circles here that Mondragon will be convicted of murder and suffer the highest penalty, it is also thought that the Texas officials who gave up Rasurse without a preliminary examination will receive condign punishment."

Killed by a Locomotive.

PRESCOTT, Ont., Aug. 7.—A fatal accident occured here yesterday. J. Flyn, son of Michael Flyn, proprietor of the Prescott house, Prescott, and well known to sporting men, was amusing himself in the Canadian pacific depot. He got on the cow-catcher of an engine, which was shunting in the yard. In leaping off he fell across the rails. The wheels of the engine passed over both his legs and severed them from the body. One of his arms was also cut off. The lad, who was only about seven years of age, lived but a short time. The lad's father left for the east, but returned at Iroquois, and arrived a little after the accident occured. Mrs. Flyn, who had not been away from home for two years or more, was also absent. No fault is attributed to the railway employees. An inquest was not considered necessary.

The American Coast Laws.

CHICAGO, August 7.—The "Canadian propeller "California" arrived here yesterday from Montreal with forty passengers. Among them were five who came from Cleveland. The carrying of the passengers on foreign vessels between two American ports is in violaton of the American coast laws, the penalty for which is a fine of $2 for each passenger. The master of the "California" was brought before Collector Seeberger, charged with violating the law, but was discharged. The master did not not violate it, inasmuch as the passengers bought tickets to Windsor, Canada, where their baggage was landed and inspected by customs officers, and the passengers then purchased tickets from that port for Chicago.

Struck by a Train.

BROWNSVILLE, Pa., Aug. 7.—A berrying party of seven persons were struck by a train on the Lehigh Valley Railroad near here yesterday. Mrs. Wilkoffs, aged 60, was cut to pieces. The other six, one of whom was her son, were scattered beside the track all unconscious. They were taken to their residences in Smoky Hollow and all may die from their injuries.

Horsford's Acid Phosphate.

Unequaled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

LATFST BY TELEGRAPH.

MR. PARNELL TO TAKE A REST.

LONDON, Aug. 7.—Mr. Parnell looks pale and worried, and he will take a fortnight's rest at Wicklow before returning to London. The National party will not meet till after the delivery of the Queen's speech.

IMPERIAL FEDERATION.

LONDON, Aug. 7.—A deputation from the Imperial federation league will have an interview with Lord Salisbury on Wednesday next, to ask him to appoint a royal commission, composed of delegates from the United Kingdom and the colonies, to suggest practical means for a defence of ports and commerce in time of war, and for the closer federation of all parts of the empire. Forty members of the House of Commons will accompany the deputation.

HEAVY ACTION FOR LIBEL.

PARIS, Aug. 7.—Preliminary writs have been served in a libel action by Sir John Brennan against Mr. Ridgway, publisher; Mr. Smith, railway bookseller, and the proprietor of the *England* newspaper, supposed to be Mr. Ashmead Bartlett, for £5000 for a libel for publishing an imputation in phamplet entitled "The repeal of the Union Conspiracy," that Brennan was an accomplice of the Phœnix Park murderers.

THE COLONIES AND BRITAIN.

LONDON, August 7.—The British Colonial delegates were formally introduced yesterday to Mr. Stanhope, the new Colonial Secretary, at the Colonial office. Sir Charles Tupper acted as spokesman. He congratulated Mr. Stanhope on his accession to office, and assured him that there had never heretofore existed among the colonies a stronger desire to cement their union with the Mother Country than existed at the present time. There were important questions pending affecting Canada and Australia and requiring the attention of England and earnest co-operation on her part. England could always rely upon the cordial co-operation of the colonies in all matters concerning her. The secretary thanked the delegates for the honor of their visit. He assured them he would do his utmost to maintain the colonial connections with Great Britain and would never lose sight of the rights of the colonies in any of the pending questions.

IRISH EVICTIONS.

LONDON, Aug. 7.—If the Government decline to deal with evictions Mr. Parnell will ask permisssion to introduce a bill dealing with the subject.

THE LIBERAL UNIONISTS.

LONDON, Aug. 7.—The official report of the Liberal Unionist meeting held yesterday, at which the Marquis of Hartington presided, confirms dispatches already cabled, announcing acceptance by Mr. Chamberlain of Lord Hartington's leadership, and proves that the Unionists are resolved not to allow Mr. Gladstone to force the Irish question upon Parliament.

THE CHOLERA.

LONDON, Aug. 7.—The *Times* correspondent at Venice says that from all the enquiries he has made he believes that the epidemic now raging in Italy is now Asiatic cholera. The great panic which prevails is paralyzing trade.

THE POPE SERIOUSLY ILL.

PARIS, Aug. 8.—The *Journal des Debats* sas the Pope is seriously ill, and that his life is despaired of.

THE FISHERIES.

LONDON, Aug. 8.—Admiral Lord Clanwilliam, commander of the North American squadron, has been ordered to Quebec to confer with the Canadian fishery authorities regarding the present difficulties.

BELLEVILLE.

HORSE STEALING.—Chief McKinnon has been notified by Wm. Kemp of Newcomb's Mills, that three horses were stolen from that place on the night of Aug. 3rd. Two were black horses, with star on their foreheads. The other is an iron grry mare 15 hands high.

A CHILD SCALDED.—A two year old child of Mr. Richard Potter, of Huntingdon, District Master of South Hastings Orangemen, was playing about the kitchen on Tuesday, 3rd inst. The child in its play, backed against a tub of hot water and fell in. Assistance was at hand but before aid could be rendered the child was frightfully scalded. Dr. Hudson, of Roslin, was summoned, and dressed the burns. It is thought the injuries are not fatal though serious.—*Intelligencer.*

Murdered With a Scythe.

QUEBEC, Aug. 6.—The coroner left town last night for St. Sylvester, to hold an inquest on the remains of a man murdered by his neighbour. The murder, as far as can be learned, was done with a scythe, and grew out of rival claims to the same piece of land. The names of the parties have not reached town, but the two men are, it seems, of different nationality. The reported murderer is in custody, and High Constable Gale and Sergt. Harper, of the Provincial police, have gone up to bring the prisoner to town. One of the claimants to the land was cutting the hay on it when claimant No. 2 went to forbid him. High words ensued, and the murderous scythe in the hands of a passionate man did the rest.

An Extensive Seizure.

EASTPORT, Me., Aug. 7.—On Thursday J. D. Bonness, special Canadian Custom officer, seized at Deer Island twenty-two fishing boats, valued at $200 to $400 each, for smuggling. The boats were released upon the owners depositing a penalty in each case, amounting to the boat's value. They are charged with smuggling the boats themselves. This will prevent New Brunswick boatmen bringing sardines to Eastport without paying duties on this side.

Excitement in Texas.

EL PASO, Tex., Aug. 8.—The wildest rumors are flying about in El Paso. One is that war is to be declared against Mexico on Monday. People are brushing up their rifles and revolvers. Alarm is now felt for the safety of the city, which is peculiarly exposed and almost undefended. It is believed here that if the government does not move quickly a raid will be made into Mexico to rescue Cutting. The war feeling is at fever heat.

Not Yet Recovered.

SARNIA, Ont., Aug. 8.—Nothing further has been heard of the other three victims of the yachting disaster. It is possible their bodies may never be recovered.

The Daily Review.

MONDAY, AUGUST 9, 1886.

THE LABRADOR SLANDER.

THE scoundrel who has been inventing the horrible tales of starvation, cannibalism, and destruction by wild beasts on the coast of Labrador, has been traced not only to Ottawa, but to the *Free Press* office. This is only what might have been expected, for these harrowing reports, though utterly without foundation, were quite as truthful as much of the information published by the *Free Press* or sent by its staff to Reform journals in other localities as news from the capital of Canada. The *Free Press* and the Ottawa correspondence of the Toronto *Globe* incessantly contain paragraphs that are as false, though not so startling, as these diabolical inventions as to Labrador. Many indeed of these daily fictions do comparatively little harm, at least in Canada, for when the *Free Press* or Ottawa Reform correspondents invent some new fiction to the disadvantage of Canadian statesmen, no belief is given to their statements, or if credited for a moment by some prejudiced partisan, the clear disproof follows almost immediately. Abroad this Reform practice has a tendency to lower Canada in the eyes of foreigners, but even they are beginning to understand that a Reform attack on a statesman merely means that the writer hates and envies the men to whom the people of Canada have given their confidence.

This new specimen of Ottawa Reform journalism is, however, still more widely mischievous. From the comparatively slight knowledge of the region in question, and the scanty intercourse with it, an authoritative denial could not at once be given. Thus all the feelings of the humane were harrowed, and charity was invoked from those who, after being thus played with, might well hesitate in some future genuine case of suffering, when timely relief would be most valuable. Abroad there would not only be the same feeling, but among the badly informed Labrador would be associated with Canada, and our Dominion would be represeated as icebound at midsummer and overrun with destructive wild beasts.

What motive could the disgrace to journalism have in concocting and circulating such vile fabrications? Judging from the past we may surmise that the main object was to obstruct the development of the North-west through the opening of the Hudson Bay route by detering capitalists in the great money markets from supporting the Hudson Bay Railway as a project which they would do well to avoid. To give the world a bad opinion of Canada and its enterprises is an old trick with these slanderers, as has been seen in the case of the C. P. R. If this is not their motive we can only suppose that through the practice of slandering Canadian statesmen and attacking women, if connected in any way with Conservatives, these slanderers have acquired such a depraved appitite for hurting the feelings of their opponents and those nearest and dearest to them, that they have come to revel in exercising their ingenuity in inflicting mental suffering and horror generally.

We would advise our readers when reading any Reform reports from Ottawa to remember the Labrador bears, and judge the Reform journalists of Ottawa by this latest development.

REVIEWS.

THE CENTURY.—The midsummer holiday number of the *Century Magazine* is well fitted to the occasion. Descriptions of localities of note form an important feature: "Algiers and its Suburbs" are depicted both with pen and graver. "Heidelberg" is well described by Mr. Mitchell with the aid of profuse illustrations, and B. Hook shows us "The Sea Birds at Farne Islands," his drawings of the feathered inhabitants being admirable, and he also gives us a portrait of the heroine, Grace Darling. The number is also strong in fiction; Howell progresses in his best style in "The Minister's Charge." Stockton contributes the opening chapter of a new tale, and Julian Hawthorne gives us a lively tale. In "The Western Art Movement," R. Hitchcock shows the surprising advances made in this direction in the newer commercial cities. The war series has for its theme the battle of Fredericksberg with his terrible slaughter as viewed from either side. The relations of capital and labor are discussed by Dr. Gladden in "Is it Peace or War?," by the editor in "The Falsehood of Extremes," and by A. E. Mason in "A Dutch Success in Co-operation." C. G. Leland gives an account of "A Gipsy Beauty," Charlotte Cooper, whose portrait by Leslie accompanies the paper. Miss Thomas contributes a description of "John Burroughs and his last two books," his portrait forming the frontispiece. Some good poetry and bric-a-brac complete the table of contents.

America's Aid to Ireland.

DETROIT, Aug. 6.—Rev. Dr. Reilly's July report, as Treasurer of the Irish National League, shows a balance of $60,415 on hand. This morning Dr. Reilly sent the following telegram:—

"*Mr. Parnell, House of Commons, London:*

"I have this day transmitted to trustee $60,000. The League in America relaxes no effort—knows no dismay. REILLY."

Contributions to the fund still come in freely. Another election is expected in November, and the National Leaguers are preparing for another hard fight on the issue of Home Rule.

While Mrs. Atkinson, of Newport, was washing clothes, her infant son pulled down a pail of boiling water and died from the effects of the scalding he received.

HAS THE CHOLERA COME?

Startling Stories of Deaths from the Plague in Wisconsin.

MILWAUKEE, Aug. 7.—Reports of Asiatic cholera cases having reached this city from Madison, Chippewa Falls and Miladore, members of the State Board of Health made preparations to start out immediately upon receipt of reliable confirmation of the intelligence to make personal investigation. From Madison it was reported that Alva C. Orvis, a railway engineer, was attacked while on his engine and within four hours was in a critical condition, having lost his power of speech, his muscles being terribly knotted and his limbs drawn up. His physician said he was suffering from Asiatic cholera, though from other sources learned Orvis is merely suffering from cholera morbus. At Miladore eight people died from the alleged cholera. Some of these reports are from official sources and state that the board of health is inclined to doubt their accuracy while admitting the possibility that cases exist.

CRACKSMEN AT WORK.

A Safe Blown and Seven Thousand Dollars Taken in.

GLENGARY, Ont., Aug. 7.—A daring robbery was committed in Dunvegan the other night, when the premises of Mr. Angus McIntosh, general merchant, were broken into and the safe blown open and robbed. The door was drilled by expert cracksmen who inserted a quantity of powder and ignited it by a fuse stolen from a shelf in the store. The explosion completely shattered the door, twisting and breaking the thick iron plates as though they were pieces of thin lead. The rush of fire when the explosion took place burnt the wall at the side, which was evidently extinguished by the thieves. Besides money, there were in the safe two new gold and three silver watches. It is supposed that the thieves got away with $7,000 worth. Mr. McIntosh had for safe keeping, however, $200 belonging to the Orange lodge of Dunvegan, the net proceeds of the Orange demonstration held on the 12th of last month. This, of course, was taken.

Three suspicious characters were seen loafing around the village for some days previous to the robbery, but no clue has yet been obtained to establish the identity of the thieves.

THE LATE S. J. TILDEN.

Funeral of the Great Democratic Statesman—The President in Attendance.

YONKERS, N. Y., August 7.—Samuel J. Tilden's remains were placed in the blue room this morning, and the general public were admitted. The people came by scores, and among them were many prominent persons. The body was attired in a suit of black dress, with a pink flower in the button hole. The features, while showing some emaciation, did not suggest that the dead man had undergone any extended or considerable physical suffering.

The revised list of pall bearers are: Samuel J. Randall, John Bigelow, Daniel Manning, Smith M. Weed, Charles A. Dana, Dr. George L. Miller, Wm. Allen Butler, Daniel Magone, J. B. Trevor, Dr. Charles E. Simmons, Aaron J. Vanderpoet. At 9.30 o'clock President Cleveland reached the mansion. He was accompanied by the Secretary of War, Mr. Endicott, and his Private Secretary, Mr. Lamont. Rev. Dr. Tucker, from Andover, Mass., read the prayers of the Presbyterian Church. The choir of the Madison Avenue Presbyterian Church sang "Abide With Me." Rev. Dr. Tucker delivered a short address on the personal qualities of the deceased. He said he would not undertake to speak of Tilden's great public qualities, but he could not help thinking of and referring to Tilden's generous hospitality.

TWO FRANCHISE BILLS.

"The bill that is now upon the statute book of the Province was placed there before Sir John Macdonald's measure was introduced."—*Globe.*

The above is a sentence taken from an article in the *Globe* in reply to the Peterborough REVIEW. The REVIEW had made the following statement:—

"The truth, as the *Globe* well knows, is that Sir John Macdonald had introduced a bill for the extension of the franchise, and, though it was not carried, its introduction the following year was promised."

The *Globe* calls this a "misstatement," and in the course of its remarks uses the language quoted at the head of this article. Now, the *Globe* knows well that the REVIEW did not make a "misstatement," but, on the contrary, it is the *Globe* that deliberately misstated. Let us see what the facts are. On the 9th of Feb., 1883, in the speech from the throne, it was announced that a measure would be submitted to Parliament dealing with the electoral franchise, and on the 13th of April next, thereafter, bill No. 107 was introduced by Sir John Macdonald, and it received its first reading. That bill involved the main principles of the Franchise Act, as it eventually passed. It was not proceeded with any further during that session. Mr. Blake found fault because it was introduced that session at all, being the first session of that Parliament, and, at any rate, it ought not, in his opinion, to have been left to so late in the session. He thought there was no reason why it should be forced on, and that full opportunity should be given to discuss it, and also to ascertain the sense of their constituents. There was much in these objections, and a general election was so far off that the government did not press on the bill that session. In the following session almost the first thing done was to reintroduce the bill somewhat amended as to the details. This took place on January 23, 1884, by bill No. 7 and it was read a first time. There being still plenty of time the bill was not passed through that session, but in the session of 1885 in the speech from the throne on the 29th January it was again announced that the bill would be presented to parliament, and accordingly on the 19th of March, 1885, Sir John introduced bill 103, which was the bill which finally passed into law. The three bills thus brought in during the years 1883, 1884 and 1885 were practically the same, differing only in matters of detail. Now let us see when the "Bill (sic) that is now upon the statute book of the Province" was in fact "placed there." It was first introduced during the season of 1885 and became law on the 26th March of that year. So that it was placed on the statue book nearly two years after Sir John's second bill was first read, nearly two months after the last bill was announced in the speech from the throne and just seven days after the last bill received its first readings at Ottawa. But for the extraordinary and factious opposition raised to it the Dominion bill would in all probability have passed its third reading before the Ontario bill became an act of the Provincial Legislature. Now we know we are not telling the *Globe* anything new; it was well aware of the facts, but clearly misstated, trusting that the general reader would have forgotten the history of the franchise bills and accept its statement as fact.—*Kingston News.*

Treed by a Bear.

Philip Kenalley, of Admanston, while walking through the woods was met by a she bear and her two cubs. The old one advanced towards him, and he climbed a tree; but the bear followed him, and got so close that she could paw the souls of his boots. Just when Kenalley had given up all hopes the bear paused, apparently unable to climb any higher, he placed his handkerchief around his hat, set fire to both, and dashed the blazing mass in the face of the bear, which retreated, followed by her two cubs.

Take a Pill

To regulate the bowels and drive away the sick or bilious headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

Some Miraculous Results

It is the only prepration in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

A NEW LUMBER MARKET.

The brigantine Georgia, now anchored in the Delaware river, has been chartered to load a cargo of hardware and lumber for Port Madryn, Patagonia, a place heretofore unknown to American custom officials. It is believed that the Georgia will be the first vessel to sail from this country to Port Madryn, as the existence of the place is practically unknown in maritime circles. Capt. Morris, of the Georgia, says that his vessel will sail to-morrow for her destination via Wilmington, N. C., where the greater part of her cargo will be loaded, after which he expects to be not more than seventy-five days in reaching his destination. The offer to carry the cargo was made to several ship owners, who refused even to consider the charter, not being willing to risk their lives and property in an unknown country.

The settlement of Port Madryn has been comparatively recent. Several years ago a colony of farmers from the vicinity of Cardiff, Wales decided to leave their native land for the river Platte, expecting to settle along that river. but, finding the Spanish language an insurmountable obstacle to them, the people left for Patagonia. This little colony now numbers over seven hundred souls, and their farms stretch inland for a distance of over 23 miles. The settlers are in constant intercourse with the Indians, with whom they barter tobacco and flour for ostrich feathers and guanaco skins. No American vessel of any kind has ever visited there, and but very few ships from other nationalities have made the port. Lieut. C. B. Brent, of the English war ship Volca, which visited the place in 1876, describes the country as healthy, without fog, and very little rain, water being carried from the interior, a distance of twenty miles, on mules. If the settlement continues to flourish, and its existence becomes generally known, it will be a convenient port of call for vessels bound around the Horn.—*Philadelphia Record.*

Wood Wool.

For some time past attention has been directed to a very interesting product consisting of extremely thin and slender shavings of wood that are comparable to paper cut for packing. It is known by name of "wood wool." This product was first introdueed into France as a packing material. It weighs about 40 or 50 per cent less than the materials generally used for such a purpose. Its beautiful appearance, its fineness and its extreme cleaness at once brought it into favor with shippers. It was afterward found that the material was well adapted for the manufacture of mattresses, for bedding for cattle, for the filteration of liquids and for stuffing horse collars, &c., the most suitable species of wood being selected for each of these purposes. Its elasticity causes it to be considered as the best material for bedding after horsehair, and it is even preferable to any other substance when it is derived from resinous wood since it does not absorb moisture. In workshops wood wool is tending to replace cotton waste for cleaning machines, and it has likewise found an application on the rolling stock of railways for lubricating car axels. While it has the same property that cotton-waste has of absorbing oil it costs ten times less than that material. Its use is said to be rapidly growing in Austria and Germany and also in France.

A Big Poplar.

The Cornersville (Tenn.) correspondent of the Marshall *Gazette*, writing to that paper says:—"The big poplar tree in Dogget's cove has been a noted landmark for nearly 70 years, and is more talked of, perhaps, than any tree in the State. Its size has from time to time been given all the way from 29 to 33 feet in circumference. Passing that way recently I went to the tree, viewed it and measured it carefully. The bark, which was three or four inches thick, had most of it fallen off, and I found it to be 26 feet and, perhaps, two inches in circumference, clear of any spurs. It has the appearance of being slightly hollow, and is in dying condition. The trunk is fully 50 feet to the first limb. It is a monster tree and there is a vast amount of good timber in it, but it will soon be ruined. Thie section has always been noted for its large trees. A beech tree standing on the old country line, about five miles north west from this place, and which was blown down some six or eight years ago, had a perfectly straight trunk of nearly 60 feet, clear of limbs, and was 5 feet 5 inches in diometer, and in consequence, difficult and hard to handle."

Ash for Carriage Work.

An authority on carriage building says, in seasoning ash, we must take into consideration the large quantities used in carriage building, also the bulky nature of the timber whilst in its unconverted state, which compels us to use the simpliest and readiest means in seasoning without sacrificing the qualities of the timber. The best way to do this is to convert the bulk into plank as soon as possible, and, whilst seasoning to assist nature in every way without forcing, and when nearly seasoned to cut into sizes for use. For instance, brougham pillars, brackets, beds for under carriages, and especially the heavier seizes. Before stacking ash, it is well to see the character of the timber, for if it is of a twisted nature it must be stacked one plank over the other, if not it may be placed on edge or on end, which will season it better and quicker. Besides being used in framing and such parts, it is largely used for bent work, such as steamed rims for wheels, futchels for carriages, top-sall's in white chapel's segment pieces in brougham fronts. But the action of steam in disolving the gummy matters within it deprives it of its native toughness.—*Timber Trades Journal.*

CANOES of wood pulp are now being constructed in Sweden, by a patented method, very nice-looking and handsomely shaped, and costing about 50 to 60 kronor each. The pulp is waterproof, and is put layer by layer on to a wooden model, where it dries; the model is then withdrawn, and deck, keel and rudder are added. It is furnished with water tight bulkheads, and in the middle of the deck there is an opening in which the canoer sits and paddles.

FROM ALL OVER.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

A turkey gobbler in Grantham hatched out a brood of eight turkeys which the hen had deserted.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

It is said that with the aid of a divining rod oil and salt have been discovered in Sunnidale, on the Nottawasaga River.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infailable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

In Roarey's Bay, Round Lake, Renfrew, a pike weighing 25 lbs. was caught on a small troll. The fish had to be shot before he could be landed.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

At Mr. O'Brien's request, Mr. Parnell has consented that Mr. Leamy should accompany Messrs. O'Brien and Redmond, the delegates of the Parnellite party, to the Irish League convention at Chicago. The delegates will sail from Queenstown on Monday.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

A couple of Acton boys amused themselves by firing a broadside of revolver bullets through the public school windows. 39 window panes were fractured.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

Mr. Henry Osborne, of Limehouse, was drowned in a barrel containing a spring from which he was drinking. He is supposed to have fainted while stooping over the barrel.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

Mr. Samuel Hammill, Jr., tried to drive a strange bull out of his field, and was attacked by the intruder and also by his own bull. He was knocked down, but escaped without serious injury.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

The French Journals which support M. Ferry and bitterly attacking Gen. Boulanger. The *Univers* says DeFreycinet has decided that it will be impossible for Gen Boulanger to retain his post at Minister of War.

WHY SUFFER from that annoying cough when it can be perfectly cured with West's Cough Syrup. Do not hesitate, as it is exceedingly dangerous, as it may prove the forerunner of a severe lung complaint. It will cure asthma, bronchitis and all throat and lung complaints. Price 25c., 50c. and $1.00 per bottle. Sold by J. D. TULLY, druggist.

The Texan Away From Home.

Bartender—I can give you some powdered glass and arsenic, sir, with pepper sauce and furniture polish.

Stranger—No live hornets?

Bartender—Not a live hornet in the place.

Stranger—Well, gimme what you've got. A man can drink most anything, but I did want suthin ter warm me up. I start for Texas ter-morrer, stranger.

Postponed.

A Cincinnati youth, fourteen years of age, called upon a lawyer a few days ago and asked what sort of an offence it would be if boy kept $600 which a firm gave him to put in the bank.

"My son," replied the lawyer, "let me give you some advice gratis this time. Wait four or five years and then cabbage at least $10,000 and come to me for guidance."

The boy went off whistling and banked the money.

Lynching in Texas.

BROWNSVILLE, Texas, Aug. 7.—At dawn yesterday a strong escort of Mexican cavalry stopped at Matamoras and took Juan Saldava, the leader of several revolutionary bandits recently captured, and Trinidad Ortez, a wild youth of good family, who is implicated in the killing of a young rancher named Garcia, from the barracks of the fourth infantry out into the country and hanged them. Saldava was formerly a horse thief, and Ortez had been a rural guard and a policeman. He had a bad name.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

SPECIAL ANNOUNCEMENT.

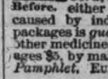
MESSRS. S. U. NELSON & CO'S. Literary Association, of Toronto, is now represented by

MR. R. S. COOK,

AT THE

Dominion Express Company's Office,

George street, where a full line of standard and miscellaneous works can be seen and all information given. Trusting you will favor our agent with a share of the patronage so liberally extended to us during our short stay,



Respectfully,

S. U. NELSON & CO

THE GREAT ENGLISH PRESCRIPTION

Before. After.

Sold by JOHN McKEE, Peterborough, and druggists everywhere.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

NEW FALL GOODS

that will bear a good square look, both for prices and material.

New Jersey Dress Goods.
New Plushes in all Colors.
New Ribions in all Colors.

MONDAY, AUGUST 9, 1886.

THE CITY AND SUBURBS

Ladies' Jerseys.

A full assortment of the newest styles in plain and embroidered Ladies' Jerseys at R. FAIR'S.

Drill.

There will be a drill of all the companies except No. 3 this evening at the drill shed. All members of No.1, 2, 4, 5 and 6 companies are requested to turn out.

The Party.

No person should fail to attend the Garden Party in St. John's Church grounds in aid of the Fire Brigade Band on Thursday evening, Aug. 12th. Admission 10 cents.

A Lively Run.

A camping party of young men who came down from the back lakes on Saturday reported a lively run on the steamer Fairy from Young's Point to Lakefield. The Cruiser and Fairy left Young's Point together and a trial of speed followed. The Fairy came in a little ahead.

Shoots the Owner with his Finger.

The Whitby *Chronicle* says:—"They call it a 'legal point' when a Peterborough policeman points his revolver at a dog that he finds untagged. In Whitby the legal point is when the police magistrate points his finger towards the owner of an untagged dog and says: '$2 or 30 days.'"

Rescued.

On Sunday afternoon at about half-past four o'clock another drowning accident was prevented, near Sandy Point. Several were in bathing when one of the number, not a swimmer, while wading along quite a distance from the shore, sank in a hole. A canoe was taken out and the rescue was effected.

The Band.

The Fire Brigade Band will meet for practice this evening. Owing to an engagement no open air concert will be held on either Tuesday or Wenesday evenings. On Thursday evening, however, the people will have the opportunity of attending a lawn social, in the interests of the band, to be held in St. John's Church grounds. These who have attended the open air concerts during the season should not miss this one.

Belmont Iron.

A gentleman from Belmont township who was in Peterborough on Saturday reports that the iron mine on lot 19, con. 1, of that township, is likely to turn out well. Men have been engaged for some days in stripping the earth off the ore, and Mr. T. D. Ledyard, of Toronto, its owner, accompanied by mining experts and others, will shortly pay the mine a visit. It is about four mile directly north of Blairton village, where iron mines were worked for some years. If the mine is developed the old Blairton track, with an extension to lot 19, will probably be used in shipping the ore, carrying it to the Canadian Pacific line.

The Finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

Oak Orchard.

A syndicate composed of His Honor Judge Weller, Messrs. R. E. Wood, County Attorney, G. W. Hatton, H. A. Hammond, J. E. Hammond and Dr. Boucher, have purchased the beautiful resort on Pigeon Lake, Oak Orchard. Judge Weller and Mrs. Weller and Mr and Mrs. Hatton left town to-day to take possession of the place. The grounds, which border on the lake and extend a considerable distance back, comprise about ninety acres. On this there is an oak grove of fifteen acres. The summer residence, erected at a cost of over $2,000, is elegantly finished throughout with hardwood, and is a story and a half high. It is large enough to give comfortable accommodation to fifteen people. On the beach are situated two boat houses, and in a pretty locality a pavillion for dancing. The excellent stables and coach house are an acquisition. The proprietors intend building bath houses, and these added the resort will be all that could be desired.

RECEIVED this week a job lot of ladies fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

No. 1 Company.

The members of this company will meet at 8 o'clock this evening for drill.

Council Meeting.

A regular meeting of the Town Council will be held this evening at half-past seven o'clock.

An Inducement.

Mr. F. W. Miller has received a flattering offer to take charge of the Cornwall band. If Mr. Miller accepts this offer the Fire Brigade Band will suffer a loss.

Export.

Mr. D. Belleghem shipped to-day seven sets of walnut, mahogany and cherry bedroom furniture to Mr. N. Ingram, Fenelon Falls.

Admitted.

The thirty-six candidates who wrote at the recent entrance examination and were provisionally admitted by the local board of examiners, have been all approved of by the Educational Department at Toronto.

The Sarnia Yachting Fatality.

On Saturday an account was published of the drowning of six young men belonging to Sarnia. One of them, Mr. Vidal, son of Senator Vidal, is a brother-in-law of Mr. D. B. Gardner, of Peterborough. Up to latest accounts his body had not been recovered.

A Lecture

Upon "The Labour Question" will (D.V.) be delivered by the Rev. Walter M. Roger, M.A., in the lecture room of St. Paul's Church, Tuesday, Aug. 10th, at 8 p.m. A collection will be taken up in aid of the building fund of the lecturer's church in London, Ont.

A Delighted People.

The splendid bargains given to all who patronized the Bon Marche on Saturday both satisfied and delighted them, especially the ladies, who were immensely well pleased to get such excellent value for so little money in Dry Goods and Millinery. Sale every day. Don't miss it.

Civic Holliday.

Be sure and go to the P. A. A. A. excursion to Orillia and Sturgeon Point on the Civic holiday, Aug. 19. First class coaches. Special train leaves G.T.R. station at 7.30 a.m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

FINE SCOTCH GINGHAMS, regular price 25c., reduced to 12½c. per yard at FAIR'S.

The Coming Races.

Interest in the coming races is growing apace, and as the time draws nearer the management are growing more and more confident of the success of the meeting. The Secretary-Treasurer is in communication with a large number of gentlemen who own fast horses, and it is confidently expected that there will be some of the best and fleetest horses in Canada take part. Don't forget the days and dates, on Thursday and Friday, Aug. 26 and 27.

Forepaugh's Show.

The uncommon success of the Boston engagement, both financially and artistically, of this great entertainment are unparalleled in the history of tented amusements, and in the lavish praise bestowed upon Mr. Forepaugh's features and peformances by the critical press of that city establish his pre-eminence over all competitors beyond a doubt. The coming here of the show on Saturday, Aug. 21st, is arousing enthusiasm. The staid and usually reticent Boston *Daily Advertiser* of June 16 has this to say:—"In spite of the threatening weather yesterday two large audiences were in attendance on Forepaugh's Circus at the Coliseum Grounds. Everything was in fine working order, and the performances ran as smoothly as though they had always been given there. The numerous features—so numerous as almost to bewilder the spectators by their rapid changes—were presented in the most satisfactory manner, and received the emphatic approval of the thousands present. The marvellous shooting of Captain Bogardus and his four son pupils, and the pictures of lawless frontier life, as presented by the Indians and cowboys, are among the most popular entertainments in the show."

Changes.

Important changes are soon to be made in the Court House. As the county has to furnish, among other things, chambers for the Judge and for the County Crown Attorney, and as the old judge's chambers are too small and the county is called upon to pay rent for more spacious apartments, that body considered it cheaper to provide His Honor and the County Crown Attorney with a suite of offices at the Court House. Mr. J. E. Belcher, County Engineer, has drawn the plans, which are likely to fill the bill very satisfactorily. The suite of offices will be situated from the main entrance to the Court House, southward as far as the southern end. The room next the main enterance will be 25 feet 6 in. x 24, and will be used as a division court room. The next apartment south will be the County Crown Attorney's office, 12 x 24, fitted with a vault, the next the Judge's private room, 15 x 24, and the next the Judge's chambers, 17 x 24, fitted with a vault. All of these offices, except the Judge's private room, will have entrances leading from the west. The old gaol, a solid stone structure long in disuse, is to be converted into a residence for the gaoler. Bay windows will be thrown out, the whole internal partitioning re-adjusted, and the house made a very convenient one, commanding a view of Ashburnham and the country beyond. Tenders are now called for, and by the end of the season it is expected that the proposed changes will be made.

THE finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

The Temperature.

The following are the readings of the thermometor to-day at the hours mentioned:—8 o'clock, 66; 1 o'clock, 82; 3 o'clock, 83.

Personal.

The Winnipeg *Manitoban* says:—"Mr. John Kennedy, eldest son of the late Col. Kennedy, who is now in this city, will leave shortly for England to accept a commission in the Royal Engineers."

Mr. Harry Thompson, of Toronto, formerly of the firm of R. Thompson & Son, photographers, of this town, is here on a visit.

Mr. Sowder, theological student, Bobcaygeon, preached in the Baptist Church, Murray street, on Sunday.

An Appointment.

Mr. J. C. Hughes, formerly of Peterborough, has received from the Dominion Government the appointment of Indian agent for the Northwest coast of British Columbia. His headquarters will be at Meteakahtla, and all the Indians of that region, as well of Queen Charlotte Island, will be under his supervision. Mr. Hughes is well qualified for such a post, having an intimate knowledge of the country and of the people with whom he is to deal. Leaving here twenty-five years ago Mr. Hughes went to San Francisco and there accepted the position of express messenger on a line of steamers between that point and New Westminster. Afterwards he went into the lumbering business at Port Moodie. For some years he has been crown land agent and city clerk at New Westminster. With years of experience in these offices he has had ample scope of getting acquainted with different phases of life. Mr. Hughes is a cousin of Mr. J. J. Hall, of this town.

Some Sporting Items.

The Toronto Cricket Club have asked the Peterboroughs for a game on August 16th. This request cannot be granted, as arrangements have been made to play Campbellford on that day.

The Ottawa cricketers have arranged to come here for a match on August 28th.

"Amuse" writes the following somewhat sarcastic letter in the *Mail*, in reply to Mr. Dinwoodie, of Campbellford:—"Sir,—Campbellford is a sink hole on the Grand Junction Railway, chiefly noted for eel-fishing in the 'main thorboughfare.' The *Mail* saw fit to publish some very encouraging and flattering remarks about the Peterborough Club which the 'rude inhabitant' of that back country has imagined are too pleasant for an envious tongue to be silent over. Hence Mr. Dinwoodie's effusion. Poor Tommy Jones's terribly by comparison. What men from the village wish to get on the International team? Their batting style reminds one of the Australians, that is, the native Australians who handle boomerangs. There, there, now don't cry, Campbellford! Still, if Campbellford can really beat Peterborough, Mr. Dinwoodie is right—the latter club is no good."

The Troublers and I. X. L. baseball clubs, of Belleville, played a match in which the scores was 38 to 27. The Lindsay club might play with one of them.

On Saturday Oswego defeated Toronto, and Hamilton beat Syracuse, at baseball.

In the championship lacrosse series, the Shamrocks took three straight games from the Ontarios at Montreal on Saturday.

The recent baseball match between Cobourg and Port Hope, is still going on—in the newspapers.

The Orillia *Packet* says: "Canoeing is becoming more and more popular here, and a number of fine Peterborough and Rice Lake canoes have been added to the Couchiching fleet this season. Canoe-fanciers are greatly taken with the "Ontario" cedar ribbed, lately patented at Peterborough, and now on exhibition at Mr. F. J. DeLany's. It is made entirely of cedar ribs, one inch and an eighth wide, tounged and grooved, but together with oil, and thoroughly kiln-dried, to preclude the possibility of shrinkage. The price is necessary high, but those who can afford it can hardly resist the temptation to buy."

The Riverside Lacrosse Club plays Millbrook on Friday at Millbrook and Madoc, in the Riverside Park on civic holiday.

There is a probability of the Peterborough Lacrosse Club being re-organized, even at this late stage of the season. Several of the old players have signified their wish to play again. Joyal, now in Boston, has hinted at returning soon and Yelland says that he will play for the rest of the season. With these two returning a good team can be put into the field—good enough, with three weeks practice, to bring back the medal. Joyal in his letter says that Kelly is going to Montreal to play with the Shamrocks on inside home.

Small-Pox in Chili

SAN IAGO DE CHILI, Aug. 7.—Nine hundred persons died here from small-pox in July. Eighteen new cases were reported on Thursday. There are forty-four new cases in hospital at Valparaiso. Orders have been issued for the immediate vaccination of the crews of all Chilian men of war.

Note Raising.

SARNIA, Aug. 7.—While looking for stolen goods in the house of a farmer named Wetherall, Detective Rogers found a plant for raising notes. Joseph and Justice Wetherall, two young men, decamped when they saw the officer.

PRESERVING OUR FISHERIES.

As sooner or later the fishermen of the United States, when they find that they cannot steal our fish while denying us any equivalent, must come to some agreement whereby they can pursue their avocation under a treaty between the two countries, it is well to call attention to one very important side of the question. Whatever other stipulation the treaty may contain, it should be clearly laid down, far more clearly than before, that United States fishermen in our waters must adhere like Canadian fishermen to any regulations established for the maintenance of the fisheries and the prevention of their deterioration.

The very source of the whole trouble is that the United States fishermen, by their wasteful improvidence and reckless destruction, have so impaired their own fisheries that if they would live at all they are driven to invade our waters, not thus depleted because of the more prudent and sensible course of Canadian fishermen. And if this invasion were permitted our fisheries would soon become exhausted like those of the Maine and Massachusetts pirates.

The so-called "sardine" incident is a typical specimen of these Yankee practices. In Maine they are very indignant because they have been prevented from taking Canadian sardines over to the canning factories in their State. Even some Canadian journals, with the habit of assailing the Canadian authorities on every opportunity, have condemned this as a vexatious and petty restriction. Why should not sardines be taken and sold to Yankee canneries, they ask, if Canadians can make any profit out of it or even allow it to foreigners? The fact is, however, that these marine "sardines" are really herring fry, and by netting them in millions Canadian waters would soon be rendered as barren as those of New England. Now, swindling people by imposing upon them Canadian herrings as Italian or French sardines may be a very laudable development of Yankee ingenuity, but we really cannot see that we are bound to foster it at the destruction of Canadian fisheries.

With regard to lobsters there has been the same reckless improvidence, till it now takes six of these crustaceans to fill a one pound can. Salmon have been rendered very scarce in most New England rivers, while in those of Canada they are still plentiful.

Any laws or regulations that are made to preserve our fisheries should be as strictly enforced in the case of the fishermen of the United States as of Canada. Otherwise our fisheries would really become as barren and valueless as they are represented to be by the marine pirates when they do not want to give an equivalent for their use.

REFORM papers have alleged that Gen. Strange's report on the Northwest rebellion was changed before being published, and insinuated that the Minister of Militia had manipulated it. Gen. Middleton, however, says that the report was handed in by him just as he received it, and that it was published exactly as he handed it in, not a comma being changed.

CANADIANS WIN AGAIN.

Another Brilliant Victory by Artillerymen at Shoeburyness.

SHOEBURYNESS, Aug 9.—The Canadians again won the first prize in the sixty-four pounded competition, beating ninety-two teams.

They also won Sir Richard Wallace's prize, nine silver cups and £45 in money.

VOLCANIC DISTURBANCES.

Further Details of the Remarkable Phenomenon in New Zealand.

SAN FRANCISCO, August 9.—A steamer from Australia brings further details of the volcanic disturbances in New Zealand. Heavy earthquakes continued in the Farawera sulphur springs and the Rotoli districts. A relief party reported that Lake Farawera had fallen considerably. The oil bath at Whakaxewareda was throwing up stones and mud to the height of 20 feet. The great boiling lake would suddenly rise as much as two feet, and then as quickly fall. Similar phenomena were observed at the Kuirran Cauldron, which would rise two feet in half an hour, and then as suddenly return to its normal level. Mr. Deasey, the telegraph officer in charge of the Rotorva station, near where the eruptions and earthquakes were the heaviest, reported on June 25th that volcanic number one was dead, and numbers two and three steaming. Number four was still throwing up mud.

A NEW MARKET.

Where to Send Canadian Fish and Other Goods.

Mr. Alexander Woods, agent general from Canada to Australasia, has returned to the city after a most successful visit to the Maritime provinces. "My visit, more especially to Halifax," said Mr. Woods to a *Star* reporter this morning, "will certainly result in the opening up of a large fish trade with Australia. Like all hot countries, they consume an enormous amount of fish, and what Canada has lost across the line she will gain in Australia. An exhibit of boneless fish from St. John, at the Colonial exhibition, was seen by an Australian buyer, who was so much pleased with it that a large trade at very profitable prices has already resulted. Heretofore this trade has been confined to Scotland, but I feel confident that Canada can monopolize the market to Australia."

"I estimate that I will require six or eight weeks before I can complete my tour of the principal industrial centres in Canada. I will remain at the Windsor during the week and will be glad to give any information."

"How do the business men of the places you have visited view the idea?"

"They are all enthusiastic and willing to try the experiment. When they learned that Great Britain exports annually to Australia $135,000,000, the United States $10,000,000 and Canada only $160,000, they realize that there should be some chips from such a stick."

"In what lines do you anticipate the largest trade?"

"In wooden ware, leather, fish and machinery."—*Montreal Star.*

Through Niagara Rapids.

NIAGARA FALLS, Ont., Aug. 8.—William Potts and George Hazlett, aged respectively 22 and 25 years, made the perilous trip through the Niagara rapids this afternoon in the presence of 10,000 spectators. Excursion trains were run in from all directions. The men entered their curious craft, made barrel shape, ten feet long, with an air tight compartment in the bow. The stern had a small propeller wheel and rudder attached to work from the inside. They were tossed out into the river from the Maid of the Mist landing at 4.35 p. m., and 20 minutes later they were dashed about in the furious breakers of the rapids. The bank was lined with people from in front of the Prospect House to the whirlpool, everyone fully expectant to see the barrel, with its occupants, tossed into eternity, but such was not their fate. In five minutes they had passed through the dangerous waters. Making one circuit of the whirlpool, they were shot out into the river through the lower rapids, badly shaken up, but safely landed 55 minutes after starting. They propose to repeat the feat next Saturday if they can make satisfactory arrangements with the railway companies to run excursions.

Died of his Injuries.

TORONTO, Ont., August 9.—William Smith, the well known baseball player, a member of the Toronto club, who was injured in the neck yesterday, died at 3 o'clock this morning. While bathing at the island he placed his hands upon the shoulders of a companion, leaning his whole weight upon him. His companion suddenly dived and Smith went down head foremost, striking the bottom heavily with his head. He was pulled out in an unconscious condition and brought to the city. Medical attendance was summoned and it was found that his neck was dislocated and his spine seriously injured. He was taken to the hospital where, as stated, he died of his injuries.

The League Delegates.

QUEENSTOWN, Aug. 8.—Three thousand persons assembled to-day to bid good-bye to the delegates of the meeting of the Irish National League of America. Mr. O'Brien, in reply to an address, said he was going to confer with the greater Ireland across the ocean on the political situation. Should coercion be attempted he said Ireland would be ready to meet it undaunted. In the meantime he advised every Irishman to do his utmost to maintain peace in order not to give a pretext for coercion. Mr. Redmond in a speech said nothing less than Mr. Gladstone's measure would satisfy Ireland.

The Crofters.

LONDON, Aug. 8.—The Duke of Argyll is prosecuting his warfare against the crofters of Tiree. To-day six crofters under arrest were removed from Tiree to Oban, all handcuffed. The populace encouraged the prisoners with enthusiastic cheering and by hooting the Duke.

Michael Davitt.

NEW YORK, Aug. 9.—Michael Davitt arrived here yesterday on the Germanic from Liverpool.

LATEST BY TELEGRAPH.

GLADSTONE CHOOSES MIDLOTHIAN.

LONDON, Aug. 9.—Mr. Gladstone, who was returned to the House of Commons by both Midlothian and the Leith Burghs, Scotland, has chosen to sit for the former district.

PROTECTING THE FISHERIES.

LONDON, Aug. 9.—The Government has decided to reinforce the fleet on the American station to allow of more vessels being employed in the protection of the Canadian fisheries. The corvettes Pylades and Tourmaline will leave for that station shortly.

THE CHOLERA.

ROME, Aug. 9.—Yesterday there were 165 cases of cholera, and 68 deaths in Banetta, 29 new cases and 13 deaths in Ravennasi, 13 new cases and 6 deaths in Bologna, and 52 new cases and 15 deaths in other districts in Italy.

TRIESTE, August 9.—There were six new cases of cholera and two deaths here yesterday.

FRANCE AND THE VATICAN.

ROME, Aug. 9.—The Pope has written a letter to President Grevy, in which he says that the China incident will rather promote than prejudice French interests, and expresses the belief that good relations between France and the Vatican will be maintained.

THE POPE'S HEALTH.

LONDON, Aug. 9.—The *Chronicle's* Rome correspondent that the Pope had two fainting spells on Saturday. He is much exhausted, but continues to perform his usual duties. Physicians have no fear of a fatal result, and have every hope of his speedy recovery.

IN FAVOR OF THE REPUBLICANS.

PARIS, Aug. 9.—The second elections for members of the Consuls-General were greatly in favor of the Republicans.

JOINED THE UNIONISTS.

LONDON, Aug. 9.—Messrs. Chamberlain, Caine, Collings and Henneage have joined the Unionist Association.

MEETING OF THE EMPERORS.

GASTEIN, Aug. 9.—The Emperor Francis Joseph warmly welcomed the Emperor William on his arrival here yesterday, twice embracing the German Emperor. The Monarchs remain here for a conference. The Emperors conferred for half an hour yesterday. Emperor Francis Joseph, on leaving, was enthusiastically cheered.

THE RED FLAG.

BRUSSELS, August 9.—Yesterday 1600 workmen marched in orderly procession through the principal streets carrying red flags and singing "La Marseillaise." The demonstration is preliminary to that to be held on the 15th inst.

GLADSTONE ENTERTAINS BEECHER.

SIR R. HAMILTON TO RESIGN.

LONDON, Aug. 9.—The *Telegraph* says Sir Robert Hamilton will shortly resign the Under Secretaryship in Dublin Castle, owing to the opposition against him.

DE LESSEPS' LATEST PROJECT.

LONDON, August 9.—Though M. De Lesseps has the Suez and Panama canals on his hands, he has engaged in another enormous enterprise, no less an undertaking than the fertilization of the Tunisian desert. The Government of Tunis refused to accede to M. De Lesseps' proposal to construct a canal from Mittelmeer turning the desert into an inland sea. He is authorized, however, to sink artesian wells for irrigation purposes, and also to construct so much of his proposed canal system as would lie between the Gulf of Gabes and Rasmahares. If the expected supply of water is found M. De Lesseps will receive a grant of 100 hectares of State land for every cubic meter of water raised per minute.

A DYNAMITE ALARM.

LONDON, Aug. 9.—The Home Office has, it is announced, been informed from New York that a number of dynamitards have left the United States for the purpose of making attacks on the English Government. Conspirators, the report says, will go from New York to Paris, and there await a favorable opportunity for entering England. The Home Office has notified the French Government. Some of the Home Department officials declare they believe the whole enterprise as reported from New York is merely a renewal of O'Donovan Rossa's demonstrations to raise money.

THE OLD TWELVE.

To the Editor of the Review.

SIR,—I was greatly pleased to read a paragraph in your issue of Monday, in which it was stated that there is a likelihood of the old twelve of the Peterborough lacrosse club being brought together once more this season. You also stated that there was a probability of Joyal again visiting Peterborough. In this connection I might say that I have in my possession a letter just received from "Joe," in which he states that he will come back and assist the boys to bring back their old medal once more if they only say so. I sincerely trust as one of the "old stand-byes," that there will be no delay in sending for Joyal immediately, and at once getting the old dozen (or as many of them as possible) together for practice. I am willing to do my share in the matter, and I feel confident that before the season closes we will have wholly, or partially at all events, regained our lost laurels, and let us hope, be once more in possession of the District Medal.

Yours Truly,
ONE OF THE OLD TWELVE.
Peterborough, Aug. 10, 1886.

REVIEWS.

GODEY'S LADIES' BOOK.—Godey for August is styled the "Midsummer Holiday number" and the title is appropriate. In fiction there is a thrilling instalment of J. Y. Pritchard's serial nood, "The coronet of thorns," and a profusion of lively tales. Poetry, fashio plants, music, hints for dressmaking and the household are among the contents of this magazine so deservedly popular with the ladies.

MUNICIPAL MATTERS.

THE COUNCIL'S FORTNIGHTLY COGITATION ON THE TOWN'S AFFAIRS.

Complaints Against the Grand Trunk and C. P. R.—The Street Inspector Gives Some Work to do.—Hydrants and Drains—Reports, Communications and Accounts.

A regular meeting of the Town Council was held on Monday evening.

There was present His Worship the Mayor and Councillors Kendry, Menzies, Moore, Kelly, McNeil, McNaughton, Davidson, Cahill, Hartley and Yelland.

The minutes were read and confirmed.

COMMUNICATIONS.

Communications were read as follows:—

From the Superintendent of the Water Company applying for further information in reference to the placing of hydrants according to the last order—Fire Water and Light Committee.

From Wm. Bennet complaining of the encroachments of the Canadian Pacific Railway Company on the rights of private citizens—Received.

From Krugg & Hibner, in reference to the establishment of a furniture factory here and stating that Mr. Krugg would visit the town—Finance Committee.

From Wm. Croft complaining as to the water running from the motor driving of the St. John's Church organ and stating that it was a nusiance—Received.

From T. B. McGrath and others asking for gravel on Stewart street and other street improvements—Street and Bridge Committee.

From John Sharp asking sidewalk accommodation—Street and Bridge Committee.

From Wm. Gunn asking for street improvements—Street and Bridge Committee.

From Capt. Cooper, asking for an increase of salary, according to understanding.—Received.

From Geo. Schneider, asking for street improvements.—Street and Bridge Committee.

From John Corkery, in reference to the annual Mechanics' Institute grant—Finance Committee.

From [illegible] of the Little Lake Cemetery, asking that a sidewalk be built along Crescent street, from George street to the cemetery, and some cribbing be done.—Received.

From E. B. Edwards, Town Solicitor, submitting his opinion in reference to the Scott Act matter brought before the Council at the last meeting. He held that the town had no right to refund any Scott Act fines.—Received.

From W. H. Burland, of Montreal, stating that he was going to England, but that as soon as he returned he would visit Peterborough to see if arrangements could be made as to the proposed paper mill.—Received and referred to the Finance Committee.

From the Grand Trunk Railway Company, asking the town to bear a portion of the expense in erecting a new bridge on Bethune street.—Received.

ACCOUNTS.

Accounts were presented as follows:—

Salisbury & Bros	$ 5 50
W. H. Law	48 10

REVIEW Pt. and Pub. Co.	16 68
J. Mervin	1 00
Fortye Bros	29 35

The accounts were all referred to the Finance Committee.

FINANCE.

Councillor Davidson read the report of the Finance Committee as follows:—

To the Mayor and Council of the Town of Peterborough.

GENTLEMEN,—Your Finance Committee beg leave to report and recommend the payment of the following accounts:—

Henry Best	$ 19 05
Breeze & Bain	2 00
Wm. Lech	15 00
W. A. Sanderson	20 00
R. R. McKee	28 00
Canadian Rubber Co.	10 40
Charity orders from Messrs. Yelland and Hartley	34 00
Geo. Hilliard	111 31

Your Committee would also recommend that the Treasurer draw a cheque in favor of the Collector for the amount of taxes on the office occupied by the solicitor in 1886.

All of which is respectfully submitted.

R. S. DAVIDSON
Chairman.

Peterborough, Aug. 6th, 1886.

Councillor McNEIL asked why it was that the Committee recommended the payment of the Solicitor's taxes.

Councillor DAVIDSON stated that according to law the Committee had no alternative. The building was given at a nominal sum, and no agreement was made as to taxes.

The report was adopted.

BETHUNE STREET.

Councillor MOORE reported verbally as to the condition of Bethune street. After a number of communications the matter was referred to Mr. Macklin. Mr. Edwards had given him to understand that the Company would accede to the recent demand made by the town, and that the grade would be struck and the necessary planking done.

HYDRANTS.

Councillor RUTHERFORD, Chairman of the Fire, Water and Light Committee, submitted a statement of the location in detail of the hydrants already set. The total set on George street is eighteen; on Water street, seven; on Aylmer street, three; on Stewart street, one; on London street, three; on Rubidge street, three; on Charlotte street, three; on Reid street, two. The total number is forty. The distance between the hydrants put down of late is 540 feet.

Councillor CAHILL stated that the information given was valuable. He held that the hydrants to be put down should be put down within the line adopted by the people; but if there were a surplus of hydrants to be put down the whole town should be fairly dealt with.

Councillor CAHILL moved, seconded by Councillor DAVIDSON,—That in placing the hydrants be strictly adhered to as provided for in the by-law submitted to the ratepayers and passed by them, and that if the whole number of hydrants so passed be not required within the said limits the surplus hydrants do and shall be disposed of by the Council locating the same.—Carried.

STREETS.

Councillor KELLY moved, seconded by Councillor MCNAUGHTON,—That the Street Inspector be authorized to have a sidewalk laid down on the east side of Downie street, from Charlotte street north for a distance of about 100 feet, and also to have Charlotte street water tabled from Downie street to Reid street.

Councillor KENDRY moved in amendment, seconded by Councillor MENZIES,—That the Street Inspector be authorized to repair the north side of Edinburgh street from T. W. Robinson's to the railway track.

Both resolutions were referred to the Street and Bridge Committee.

ST. JOHN'S CHURCH ORGAN MOTOR.

Councillor MCNEIL moved, seconded by Councillor KELLY,—That the Health Inspector be instructed to take legal proceedings to abate the nuisance at present existing from the water coming from the English Church motor.

Councillor MOORE moved in amendment, seconded by Councillor RUTHERFORD,—That the Church Wardens of St. John's Church be required to provide means of disposing of the waste water from their motor on the church premises and that it be carried away so that it shall not flow down any street.

Mr. CROFT was heard. He said that 12 months ago he presented a petition signed by the ratepayers of Water street from George to Brock street east, complaining of this nuisance. The water often stood stagnant before his door, and the officers of this municipality knew it. One month ago he had spoken to His Worship, and His Worship had promised to have the nuisance removed. He had paid taxes a good many years, and had been a law abiding citizen and if the Council did not take action he would, for he would not put up with it any longer.

Councillor MCNEIL withdrew his motion and the amendment was carried.

STREETS.

Councillor HARTLEY moved, seconded by Councillor KENDRY,—That the Street Inspector be instructed to put down proper approaches to Mr. Bate's property on Smith street.

Councillor DAVIDSON moved, seconded by Councillor MCNAUGHTON,—That the petition of Mr. Bennett *re* Wolfe street be referred to the Town Solicitor, he to notify the Company that they are required to open the street and make the proper approaches to the track.

Councillor DAVIDSON moved, seconded by Councillor MCNAUGHTON,—That the petition of T. B. McGrath and others *re* Stewart street be referred to the Town Solicitor to notify the C. P. R. Company to have the obstacles removed off the streets as required by law, and also to have the street planked between the rails.—Carried.

BETHUNE STREET GRADE.

Councillor KELLY moved, seconded by Councillor MCNEIL,—That the Town Solicitor be instructed to take such action against the Grand Trunk Railway as he may deem proper in reference to the grade of Bethune street.—Carried.

CHARITY.

Councillor KENDRY moved, seconded by Councillor KENDRY,—That the Clerk issue his cheque for the amount of John Newton's taxes for 1885, as he is unable to pay the same.—Carried.

MORE IMPROVEMENTS.

Councillor YELLAND moved, seconded by Councillor MOORE,—That the Street Inspector be instructed to put down an approach on Brock street at Mr. John Gibbs' entrance.—Carried.

Councillor MCNEIL moved, seconded by Councillor KELLY,—That the Street Inspector be instructed to put down a sidewalk in front of Mr. Hutcheson's residence on Sheridan street.—Lost.

THE ROLL.

Councillor MOORE moved, seconded by Councillor DAVIDSON and ordered—That the Town Collector do within one week from this day return the collector's roll and all other rolls in his charge to the Town Treasurer, and that Mr. Beavis be requested to pay in the dog tax money in his hands, together with the book of receipts.

DRAINAGE.

Mr. DOUGLASS addressed the Council in reference to constructing a drain on Brock street west down Donegal to the creek. He held that he was demanding his rights when he asked the Council to build this drain. He had spent a large amount of money in building and but little had been spent in street improvements in that locality. Some one had suggested a frontage tax. He objected to it on account of his having had to help to pay for other people's drains.

Councillor RUTHERFORD advocated adopting the frontage tax system for drainage in the future.

Councillor KELLY spoke in favor of holding to one system. Either have the drain building done by local tax or general tax.

The matter was left to the Street and Bridge Committee.

CAPT. COOPER.

The communication of Capt. Cooper was referred to the Committee on Appointments.

CRESCENT STREET.

Councillor MOORE moved, seconded by Councillor MCNEIL,—That the Street and Bridge Committee be requested to meet the members of the Little Lake Cemetery Company, and discuss the matter of cribbing, building a sidewalk on Crescent street, and obtain an estimate of the cost, and report to this Council.—Carried.

MR. LEWIS' DRAIN.

Councillor RUTHERFORD, replying to Councillor McNeil said that something had been done in reference to Mr. Lewis' drain. Sir John being at Winnipeg had nothing to do with it, because the post office drain had not been settled upon on account of his absence.

Councillor MCNEIL was not satisfied with the reply. He said that the chairman was lax in his duty.

Councillor MOORE said that, while the two honorable gentlemen were having a cross fire he would, seconded by Councillor YELLAND, move the following:—That the Street Inspector be instructed to place a crossing on McDonald street at or near the point where Stewart street crosses said street.—Carried.

The Council adjourned to meet in three weeks.

Not Likely to be Executed.

OTTAWA, August 9.—Mr. McIntyre, counsel for Sproule, the British Columbia murderer, in an interview to-day said that whatever the result of pending litigation, it is scarcely likely that the prisoner will be executed. His guilt seems to admit of doubt, inasmuch as some of the witnesses who appeared against him at the trial, have since made affidavit that their testimony was untrue.

Enveloped in Clouds of Smoke.

EAU CLAIRE, Wis., Aug. 9.—The city is enveloped in clouds of smoke, caused by burning cinders and smut along the Wisconsin Central and Omaha railroads. The fires are working towards the city.

The Forestry Report.

Philips Wilder writes to the *Globe*: "I should like, through your columns to state to the numerous correspondents who writing for this years forestry report, ask that the two former reports be sent them, that those editions have been distributed and that copies are now hardly obtainable. Some of the present edition are still on hand, and I should be glad if those farmers who desire them would send their addresses within the next two or three weeks when copies will be sent them free. Those who obtain this number would do well to have it bound as an account of the list of trees and other new forestry matter, it will be very valuable for reference."

Drowned at Ranney Falls.

CAMPBELLFORD, Ont., July 31.—A riverman named Joel Redden, working for Gilmour & Co., was drowned at Ranney Falls, half a mile below Campbellford, this morning. After the gang had finished "tailing" the logs through, it seems that he and a companion attempted to shoot the rapids, but the boat filled, the men were precipitated into the water and Redden, being unable to swim, was drowned. His companion got ashore. The body has not yet been recovered.

THE Monetary *Times* says:—The demand for all the product of our forests is dull at present, but there is good reason to suppose that the United States, before the season closes, will buy an increasing quantity of sawed lumber. The demand from England is dullness itself. The trade of the mother country—in the great staples at least—and including agriculture as a trade—has settled down into a position of hopelessness and serious reduction of profit. This is the case, notwithstanding the fact that the volume of England's production and trade goes steadily on, and represented by figures of prodigious dimensions.

THE freight agent of the Canadian Pacific railway, Mr. G. M. Bosworth, states that within the past two months the lumber merchants in the districts around Georgian bay and Lake Nipissing have forwarded to Montreal no less than 3 500 car loads of square timber, representing two million square feet.

Take a Pill

To regulate the bowels and drive away the sick or bilious headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Complaint, Indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

FACTS
Concerning Dr. Dorenwend's

It is the only prepration in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was ailing, from becoming bald.

Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

SWAMP LANDS BEING RECLAIMED.

There are very many of the older residents of Bay City, who well recollect when all the land from the southern limits of Bay City to the northern limits of East Saginaw on the east side of the Saginaw river, and also all the land on the west side of the river from the northern limits of Saginaw City to the southern limits of Wenona, now West Bay City, was one continuous swamp for miles in width and the railroads on either side of the river were built on embankments thrown up by the dredge or shovel, and the ditches were constantly filled with water on both sides of the tracks.

Very few passengers on these railroads, as they viewed the vast waste spread out before their vision, ever supposed these lands would possess any value for agricultural purposes, and in fact hundreds of acres were purchased by sportsmen to be retained as duck hunting privileges

But mark the change! Hundreds of acres of these lands have been reclaimed, by a peculiar process, which was conceived by Judge Albert Miller of this city, one of the oldest settlers in the valley still living, and quite active, considering his years, and William Daglish, deceased. These parties became possessed of a lot of these lands, which was a continuous swamp, and on which the water stood the year round to a depth of from one to four or five feet. They dredged a deep and wide channel around several hundred acres of this swamp land, the channels being several feet below the lowest surface of the land The ground dredged from the immense ditches was thrown up, and formed a heavy and high embankment on the outside of the ditches, on which several teams abreast might be driven, and which was of sufficient width to be proof against leakage; and when this was completed steam and windmill pumps, which combined threw 2,000 gallons of water per minute out of the ditch and over the embankment were set at work In a very short time time the water was all pumped out of this immense territory which now resembles a great basin. Lateral ditches were run into the main ditch, and these drained the land constantly, and the pumps kept the ditches dry. The result is that the land has been found exceedingly productive, and enormous crops of corn and other farm products have been harvested each year.

The Holland farm on the west side of the river, containing 700 acres, has also been made after the same method, and a brickyard established thereon, which is now furnishing the brick for the new opera house here, and other mammoth brick blocks which are being built, McGraw & Co. have 2,000 acres of land from the same land, and W. A. Beebe & Co. are progressing at present in good shape with the two and one-half miles of dredging on the east side of the Flint & Pere Marquette track for T. H McGraw. The work when completed will reclaim over 1,000 of prairie land in Bay county. Mr. McGraw will put in a separate pump, and in less than three years will have a fine farm on land that has been considered almost worthless. The work this season on the and will cost over $6,000. About 300 acres of land on the west side of the Flint & Pere Marquette railroad, also belonging to T. H. McGraw, along the river, will be dredged around and put in shape for cultivation as soon as Beebe & Co. get through with the job they are at now. Mr. Azure, who has charge of Mr. McGraw's big farm, has clearly demonstrated that there is no better land in the United States when properly drained and cultivated, than what was formerly a frog pond along the river.—*Bay City, Mich., Gazette.*

THE oldest and largest tree in the world is said to stand near the foot of Mount Ætna. It is 212 feet in circumference, and is a chestnut of course.

MR. BEAUMONT has sold the point adjoining the Rathbun property on the Gananoque river front; price $1,600. This gives the Rathbun company the whole river frontage.

THE H Witbeck Company has had 10,000,000 feet of standing pine on Sturgeon river, Menominee district, scorched by recent forest fires, and it will be cut as soon as possible—probably the coming winter.

A FEW weeks ago, we learned that a leading Australian brewer had placed a large order in London for casks. We now learn that the same man wishes to buy or contract for quantities of white oak staves.

IT is estimated that 40,000,000 feet of lumber will be used at Duluth in building operations, including the Manitoba elevator, the Lehigh coal dock at West Superior, the Omaha, Northern Pacific, St. Paul and Duluth and private docks.

W. J. BAXTER, of Saginaw, Mich., has completed the inspection and shipping of 250,000 feet of white pine sawed timber 7x14, and 26 feet long for Flatt, Bradley & Co., and goes by rail to Quebec, and thence to Liverpool, England, which point it is expected to reach September 1st next.

THE *Boot and Shoe Recorder* says:—Hardly had it been discovered that paper could successfully take the place of leather as a substitute in many cases, before the hatters were notified that, by a new process of manipulation with wood pulp (which is the base of certain kinds of paper); hats can be produced Thus extremes meet with wooden hats and wooden shoes, especially if there is a blockhead uniting them.

FROM ALL OVER.

Mr. W. A. Howard, clerk to Mr. McGalvin, Arnprior, is said to have fallen heir to an immense fortune.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

As Mr. Everingham, of Canboro, was scraping a water hole for his cattle he came upon the remains of a mastodon. One of the vertebrae was in a good state of preservation.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

Mrs. Jackson was walking near the edge of the woods on her son's farm, near McKellar, when a dead tree, which had been loosened by a gale on the previous night, fell upon her and killed her instantly.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

Nothing has yet been heard of Mr. David Blair, the artist, who went up the Chalk River in a bark canoe. A careful search of the river for fifteen or twenty miles failed to find any trace of the missing man.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

The Lynde Homestead, in West Whitby, has an apple tree which measures nine feet around the trunk, and covers a distance of sixty feet from one extremety of the limbs to another. It was planted sixty-five years ago.

For its soothing and grateful influence on the scalp, and for removing and preventing dandruff, Ayer's Hair Vigor has no equal. It restores faded or gray hair to its original color, stimulates the growth of the hair, and gives it beautiful, glossy, and silken appearance.

Mrs. Currie, of Fredericton, recently received a cable message informing her of the death in India of her husband, Rev. G. F. Currie, who was laboring there in the missionary cause under the direction of the Ontario Baptist Board.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. Its record of forty years is one of constant progression in the good opinion of the people. [illegible] more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

For the benefit of the pigs belonging to a Whitby man a pail of feed was placed upon the platform of his well, which was covered over by boards. The pigs went up to eat the feed, shifted the boards, and fell into the well one by one.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

Robt. Vennard, of Bruce township, is 76 years old, and has been an Orangeman over 57 years. He has 11 sons and 4 daughters; 10 of the sons belong to the lodge, the husbands of the 4 daughters are Orangemen, and the eldest daughter has six sons Orangemen.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

At Prince Albert, Ont., a man was sprinkling a field of potatoes with Paris green. The day was hot, and as he prespired he would rub his hand over his face. All at once his vision failed, and he fell to the ground powerless. He recovered, but felt the effects of the poison for some time.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence recommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John McKee's Drug Store. Trial bottles given free.

Cholera Preventative.

In order to wishstand Cholera and such like epidemics a perfect purity of Blood, and the proper action of the stomach are required. To insure that end, in the cheapest, most available and complete manner, use McGregor's Speedy Cure for Dyspepsia and Impure Blood. There is no purer, safer or more reliable remedy in existence for Indigestion, Dyspepsia, Costiveness, etc. Ask your neighbors or any person who has used it. Sold by John McKee. Trial bottles given free.

Some Miraculous Results

Have followed the use of Dr. Dorenwend's "Hair Magic." It has saved many from becoming bald, and has produced good heads of hair on bald heads where the roots are not all gone. It has relieved hundreds of per sons from dandruff, and restored crops of gray and faded hair to their original color. A. Dorenwend, sole manufacturer. For sale everywhere J. D. Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form, Prescribed universally by Physicians. Take no other.

Forewarned of danger by the condition of your blood, as shown in pimples, blotches, boils, or discolorations of the skin; or by a feeling of languor, induced, perhaps, by inactivity of the stomach, liver, and kidneys, you should take Ayer's Sarsaparilla. It will renew and invigorate your blood, and cause the vital organs to properly perform their functions. If you suffer from

Rheumatism,

or Neuralgia, a few bottles of Ayer's Sarsaparilla will relieve and cure you. Alice Kendall, 218 Tremont st., Boston, Mass., writes: "I have been troubled with Neuralgia, pain in the side, and weakness, and have found greater relief from Ayer's Sarsaparilla than from any other remedy." J. C. Tolman, 336 Merrimack st., Lowell, Mass., writes: "In no other remedy have I ever found such a happy relief from Rheumatism as in

Ayer's Sarsaparilla

Forearmed with Ayer's Sarsaparilla, there need be no fear of Dyspepsia, Rheumatism, Neuralgia, Salt Rheum, Tetter, Eczema, Catarrh, Liver troubles, or any of the diseases arising from Scrofulous taints in the blood. Geo. Garwood, Big Springs, Ohio, writes: "Ayer's Sarsaparilla has been used in my family for a number of years. I was a constant sufferer from

Dyspepsia,

but Ayer's Sarsaparilla effected a permanent cure. Seven years ago my wife was troubled with Goitre: two bottles of Ayer's Sarsaparilla cured her, and she has never had any return of the disease. I regard this preparation as the best medicine in use for the blood." B. Barnard Wair, 75 Adams st., Lynn, Mass., writes: "For many years I suffered terribly from Indigestion, Dyspepsia, and Scrofula. Almost hopeless, I took Ayer's Sarsaparilla." It instils new life into the blood, and imparts vitality and strength. Being highly concentrated, it is the most economical blood purifier, and am a well man to-day." Be sure and get Ayer's Sarsaparilla, the most thorough and effective blood purifier. The best is the cheapest.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

A Professor's Purchase.

Prof. Watkins, the veterinary dentist, returned to town on Monday. During the afternoon he closed with Messrs. Daly Bros. for their fine grey bus team and their bay driving mare. The purchase was effected on behalf of a business man in Belleville. The price paid is withheld. Prof. Watkins will be here on a professional visit in a few weeks.

Journalistic.

The venerable Kingston *Whig* appeared on Monday in a new dress of type and an eight page form. The form is neat and handy, the type is small and clear, and the reading matter is well arranged. The *Whig*, as becometh its age and experience, is more moderate than most Reform papers. It was first established in 1834, by the grandfather of the present proprietor, and the daily was begun in 1847.

Big Preparations.

Extensive preparations are going on for the the Grand two days races that are to be held on Thursday and Friday, August 26th and 27th, at the Peterborough Driving Park. The large purses offered will bring some very fine horses here on the above dates, and the fair and honest dealing with all will help to make this meeting the most successful ever held in this part of the country. Remember, Aug. 26 and 27.

Quick Work.

The Port Hope *Times* says:—"On Friday evening last a man calling himself Peter Rooks (alias Ruth), arrived in Port Hope, from Peterborough, and having a woman he called his wife with him. Between Saturday night and Sunday morning, they were caught stealing coal and wood at the G. T. R. station, and arrested. They appeared before P. M. Holland on Monday morning and sentenced to three months in Cobourg jail. Thieves have but a poor field in Port Hope, and the 'previous' manner in which this couple undertook to get in their winter's fuel should be a warning to all of their class. They arrived Friday nights, caught Saturdry night, spent the day in the lock-up Sunday, and Monday found them in the counties' jail."

Will Need Re-Stocking.

It really must stop! Mr. Cochrane will have to devise some plan to head them off, or lead them off to some lonely pond that knows not the finny tribe, or something of the sort. Only a short time ago Messrs. Tob. Fitzgerald and George Walker, of Hall, Innis & Co.'s, accompanied by two others, went to Stony Lake and in a couple of days fished out over one hundred and ninety bass. Now the same two principals have come back from Stoney Lake stating that, assisted by Mr. Harry James, of Rochester, they have hauled out of the deep one hundred and eighty-six black bass and one maskinonge; and this was accomplished in two days. No wonder is it that a good many would-be fishers patiently dangle the line for whole days with only evolving a miserable mudcat or a perch!

A Lecture

Upon "The Labour Question" will (D.V.) be delivered by the Rev. Walter M. Roger, M.A., in the lecture room of St. Paul's Church, Tuesday, Aug. 10th, at 8 p.m. A collection will be taken up in aid of the building fund of the lecturer's church in London, Ont.

Garden Party.

A garden party will be held at the residence of Mrs. Orde, Robinson street, Ashburnham, next to Mr. H. Calcutt's, on [illegible] Proceeds for St. Luke's Church. The Fire Brigade Band will be in attendance. All made heartily welcome from 5 o'clock.

Revolver Practice.

Two local crack shots, who, by way of amusement, sometimes go out on hot days to the cool, shady woods in the country and there standing 10 paces off revolver in hand from a five cent piece fastened in a twig, send the leaden bullets knocking out the silver circle at every round—these two went out on similar pleasure bent on Monday. The horse that took them out got tired waiting and started home. They followed—on foot.

The Gospel Army.

Commissioner Lindsay, Capt. Geo. Carswell and Lieut. Gates, of the Gospel Army, arrived in town this morning. They will conduct the army meeting to-night, and Commissioner Lindsay will "farewell" for a time, as he is going to England. The other officers will remain to take charge of this station. The soldiers will give them a welcome this evening, and the public are invited to be present. Owing to Com. Lindsay's departure for England the camp meeting has been postponed.

By C. P. R. Route.

On Monday, August 2nd, a ship load of tea, direct from China, arrived at Vancouver. The ship contained six hundred and fifty car loads of the precious leaf, to be distributed through different parts of America. On Sunday night a train of twenty cars filled with a part of the cargo passed through Peterborough on route for Chicago, having accomplished a journey of three thousand miles in six days. The railway officials here state that this route to Chicago is even quicker than the more direct Union Pacific route. The reasons given are (1) that the route from China to Vancouver is shorter than that to San Francisco and (2) that the Canadian Pacific Railway freight trains move much faster than those of competing American lines. The train which passed through here on Sunday night made an average speed of thirty miles an hour from starting. The Canadian Pacific carried the tea as far as St. Thomas, when it was taken by the Michigan Central. It is expected that this is only the first of a large volume of through freight.

RIOTING IN BELFAST.

FIERCE CONFLICTS BETWEEN MOBS AND THE POLICE.

Many Killed and a Large Number Wounded—Two Mobs Retire to a Field and Fight—Juries and the Police.

LONDON, Aug. 9.—The *Daily News* bitterly attacks Lord Randolph Churchill as being the instigator of the unreasoning religious hatred manifested at Belfast.

LONDON, Aug. 9.—A Belfast despatch to the *Times* says:—"At least a dozen persons were killed in Sunday's riots. The stone throwing was in some instances so heavy that the soldiers were obliged to clear the streets by charging with bayonets, the Riot Act having previously been read. It is reported that there is scarcely a house on the Shank Hill road lacking injuries. The riotous mob having charged the police with drunkenness, Inspector Reed paraded the street at the risk of his life, and satisfied himself of their sobriety."

BELFAST, Aug. 9.—The city, owing to the wreck and ruin of houses, presents a deplorable aspect. Its appearance is similar to that of Paris after the Commune. It is feared that numerous deaths resulting from the riots have taken place, which will never be heard of. The hospitals are taxed to the utmost to accommodate the great number of wounded persons in need of attention. A painful feature of the riots is the number of children wounded. Yesterday a boy was shot while returning from Sunday school. A soldier shot at the boy at close quarters. He was arrested. To-day a little girl was shot on the streets, it is thought fatally. She was carried away apparently lifeless.

The aspect of affairs was so threatening at noon to-day that the authorities ordered all taverns in the city to be closed until to-morrow evening. Groups of men are assembled everywhere, excitedly discussing the situation. The military early this morning dispersed several rival mobs at the point of the bayonet.

RIOTING RESUMED.

BELFAST, Aug. 9.—Rioting was renewed this morning, and desperate fighting between the mob and the police, assisted by the military, has been going on since an early hour. At this writing the fighting has been growing fiercer and assuming large proportions. The police fire into their ranks and remorselessly shoot them down as though they were wild beasts. So far this morning thirty persons have been brought to the hospitals for treatment of gunshot wounds. Thus far the police reports show that eleven persons have been killed and fully 160 seriously wounded since Saturday evening. A majority of the wounded are suffering from gunshot wounds.

BELFAST, Aug. 9.—If rioting breaks out again it is likely that martial law will be proclaimed. During the day two opposing mobs in an outlaying district managed to elude the police and retired to a sheltered field where for an hour there was a desperate melee. Both parties claimed a victory. It is believed that two persons were killed and that their bodies were smuggled to their homes. One witness declares that sixty persons fell, many of whom were dead. It was evident that each party intended to annihilate the other. The mobs were dispersed by the military and police. It is reported that during a collision in Shankhill the police were about to fire when they were confronted by the military and ordered to desist. The police sullenly lowered their rifles and the military commander succeeded in urging the rioters, most of whom it is believed were Protestants, to their homes. A certain man was chased four hours by a mob thirsting for his blood, but he eluded his pursuers after a desperate effort when nearly succumbing to exhaustion. The police rescued him by chasing his sursuers at the point of the bayonet. A boy was chased by a mob on emerging from the back entrance of a factory and badly beaten. The girl who was wounded at noon to-day is dying. The town is apparently quiet to-night, but mischief is smouldering, and it is thought the rioters are watching their chance to renew hostilities. The military occupy the streets. Further reinforcements have been requested. The Orangemen are bitterly incensed against the country police, whom they allege to be in sympathy with the Catholics. Fifty rioters have been sentenced to terms of imprisonment ranging from one to six months.

BELFAST, Aug. 9.—At a peaceable meeting of artisans to-day resolutions were adopted strongly condemning the police. At the Methodist ministers' conference a resolution was passed expressing regret at the needless sacrifice of life. At two inquests verdicts were rendered reflecting on the conduct of the police. Nine more inquests will be held to-morrow.

BELFAST, Aug. 10.—There are now 5,500 extra military and police quartered in the city, and more are coming. At 2 o'clock this morning a mob made a desperate attack upon the police with stones, badly wounding some of them. In Ballymacara, a suburb, the police were attacked, and a police inspector was seriously injured.

Saved Army.

Commissioner Lindsay, of the Gospel Army, is in town to-day making arrangements for the reorganization of the army here. Capt. Corswell, of Cobourg, and Lieut. Gates, of Ottawa, will be the officer in charge. An effort is being made to get the Parlor Roller rink to hold the meetings in.

Inspection.

Dr. Clarke, Medical Health Officer, and Capt. Cooper went out on Monday afternoon on a tour of inspection, visiting the slaughter houses. Some were found to be in a creditable state of cleanliness and others not so free from objectionable taint. It is probable that two small slaughter houses will be removed out of town altogether in a short time. Then all will be out of town except two which are already near the boundary, and which are isolated.

THE LABOR QUESTION.

The Rev. Walter Roger views it from the Christian Standpoint.

A lecture was given in St. Paul's Church lecture room on Tuesday evening by the Rev. Walter Roger entitled "The Labor Question viewed from a Christian standpoint."

Sheriff Hall acted as chairman, introduced the lecturer, after the usual devotional exercises.

The audience was small, the ladies forming the largest part.

The lecturer commenced by giving a number of instances of men and women, honest and upright, who could not earn enough to support themselves. In his own charge in London, he knew of a man, a good Christian, sober, willing to work, who could not gain enough to support himself and family. The Church people had helped him. In London he knew of women who worked 17 hours a day for one shilling and it had been actually found that a little child at the tender age of three years had supported herself by making matchboxes. The distress in many cases was enough to cause one to shudder.

Why did these things exist? Surely it was never meant that man should suffer thus! God had promised that every man should be sure of his bread. How was it that in the wealthy country like Great Britain a large part of the people were in positive distress?

Some people said that the distress was caused by over-production by the factories, resulting in the closing up of the factories and throwing the hands out of employment. Others held that the workingmen were not properly paid, but if they were then there would not be that over-production, because the well paid workmen would buy more freely. Manufacturers said that the over-production was caused by excessive competition. They were compelled either to close down their factories or pay low wages. There was a good deal of truth in this, though the excuse was often used as a pretext to suit the convenience of manufacturers. Then the Socialists and Communists said that it was the preposterous custom of holding property that caused the evil. In their opinion no man had a right to property; there should be an equal division among all men. They even went so far as to say no man had a right to any particular woman as his wife; that all should be free to pick and choose at pleasure; that the fireside was a myth; that children should be handed over to committees to rear and educate; that religion was a delusion and morality was a notion. Philosophy and self-interest would regulate all things. But after abolishing the present social system they supplied nothing, nothing but anarchy and chaos. It was these Socialists that stole in where strikes were going on, when the blood of the employee was up against the employer, to make hellish suggestions and incite the men to deeds of violence. And then the Knights of Labor—who openly denounced the principles of Socialism—held that the future hope of workingmen lay in organization. They attached great importance to trades unions, organization, arbitration, legislation, co-operation, education and industrial copartnership.

He did not blame the workingmen to organize. They said that the capitalists organized to fix the rate of wages, and they had as much right to do so. But a natural outcome of organization was strikes. These strikes embittered the feeling between employer and employee. Whichever party gave in, gave in sullenly, with the intention to watch the chance for establishing the former order of things, and more often than not the workingmen were the losers. During the Gould railway strike the men lost $105,000 per week in wages and then had finally to give in. A number of questions were sent out by a Boston journal to the learned men of the country to answer. It was held that, though strikes were not necessary, they would be unavoidable under the present state of things.

As to arbitration the workingmen were favorable but the employers were not, chiefly on account of having to disclose their financial standing to outside parties. Theortically this was a hopeful measure but practically it was not.

Legislation also fell far short of the need. It might settle difficulties, but only for a time. Such was the general history as to making laws for the working classes.

Cooperation was a signal failure. The co-operative street omnibus company established in Toronto a short time ago was but an example of the way such things end. It needed experiance, education, keen business tact, and sometimes real genious to manage large business enterprises, and even then the capitalist is running great risk sometimes.

Of all these the industrial co-partnership plan was the best. Where the employee had an interest in the business things worked, in nearly every case, smoothly and harmoniously. There were one hundred and fifty industrial establishments in Europe now working on this basis. The men took a personal interest in the business. Instead of dodging the boss and killing time they applied their labor to the best advantage.

But all of these methods for solving the difficulty were only partial and superficial. What was wanted was a change to go down to our [illegible] naturally selfish, and habit increased it. What was wanted was a restraining power, something to reach the consciences of men and curb their abnormal desire for wealth. This something was to be found in Christianity. Christianity pierced to the roots of the evil. It was a regenerative power—a power that changed the man completely. It taught universal brotherhood, brotherly kindness, and held that no one part of society could suffer without the other part mutually bearing its share of the burden. It taught that God reigneth, and what more convincing proof of the final equable adjustment of things was there than the selling of crown jewels of France, which were bought at the expense of the peoples poverty and hunger, and the millions realized being applied to the building of cottages for the aged poor. Christianity had a special mission to let its precepts be known to the poor. Christianity had done much in the amelioration of the poor when it abolished the slave trade—it would work more miracles yet. The hope of the solution of this great labor trouble was the widespread and deep routed belief in christianity.

A collection was taken up in behalf of the Building fund of Mr. Rogers church in London.

THE AMERICAN WARCLOUD.

Secretary Bayard Demands the Immediate Surrender of Cutting.

NEW YORK, August 10.—The *Sun's* Dallas, Texas, special says:—At four o'clock yesterday afternoon a telegram passed through Dallas from an official at Washington to an officer at El Paso, which read as follows: "Secretary Bayard has just made a final demand on the Mexican Government for the immediate surrender of Cutting."

NEW YORK, Aug. 10.—There was considerable activity at army posts in and around New York yesterday, and communication with Washington was continuous. Fort Hamilton's serviceable amunitions of war were inspected, and it was determined just how much could be depended upon from that quarter upon a sudden call. Fort Wadworth, Willet's Point and David's Island have already reported. Ten gun carriages for field batteries were delivered to the Mallory Steamship Company for immediate shipment to San Antonio, Texas. It is said more carriages and some cannon will be put aboard the steamer to-day; that arms are being shipped from Washington and Rock Island and also from Watervleit arsenal.

The *Sun's* Washington despatch says:—There are rumors of impending naval and military movements against Mexico, but they cannot as yet be construed into anything definite or startling.

WASHINGTON, August 10.—Mr. Porter, First Assistant Secretary of State, said last night: "No serious trouble is at all likely to arise between this country and Mexico Neither country wants any trouble. When that is the case it is generally difficult to get up a broil."

A Priest's Advice.

MONTREAL Aug. 9.—Cure Marecaal, of the parish church of Notre Dame de Graces, at the morning service yesterday advised his flock earnestly at the approaching elections to vote for the best candidate, and expressed a sincere hope that no other considerations would weigh with them than a solemn desire to do their duty to the Almighty. He took occasion to revert to the fact which he extremely regretted, that some of the parishioners had a picture of Louis Riel with a rope around his neck in juxtaposition to sacred pictures. He also stated that Louis Riel could not be a martyr, as he had persecuted both the priests and the Church.

THE BELFAST RIOTS.

Pitched Battle at Springfield—Temporary Quiet.

BELFAST, Aug. 10.—A serious melee has taken place on Park street. The furniture in many houses has been broken up to make weapons for the mob.

The heaviest fighting on Sunday night occurred in Springfield. It is stated that the battle was waged in regular, guerilla fashion. The Roman Catholics held the field, protected by trees, while the Protestants occupied an embrasure opposite, in which they lay down. The contestants aimed with remarkable coolness, picking each other off as if they were so many targets. They were not interfered with by the police or the soldiers, who were fully occupied in the city. It is rumored that sixty rioters were shot down, many of whom were killed. The previous conflicts were mainly between the populace and the police, but yesterday the battles assumed the character of religious fighting. Most of the casualties happened in collisions between rival mobs, which are now well provided with firearms and ammunition.

LONDON, August 10.—A special correspondent of the *Central News* at Belfast telegraphs that temporary quiet has been restored there through the tactical distribution of the military forces. The persons wounded in the riots are making fair progress towards recovery, except Inspector Bell, of the Royal Irish Constrabulary, who is dying. Inquests are being held on the bodies of those killed, and the funerals of some of the victims will be held to-day.

LONDON, August 10.—A report has been received here that a desperate riot took took place this morning in Springfield, Belfast.

A later despatch says only a few persons were wounded in the riot in Springfield this morning.

BELFAST, Aug. 10.—While the funeral of some of the victims of the riot was being held to-day several shots were fired from a crowd of onlookers. Constables rushed into the crowd and arrested ten of the supposed culprits. Two other funerals which were held were conducted in an orderly manner. Elaborate precautions enabled the Island men on leaving work to march home in a body quietly under military protection. The inquest on the bodies of three victims of the riot resulted in an open verdict.

A [illegible] says that while going home through a quiet street he was stopped by six constables, who rudely searched him, ordered him to give an account of himself, and then imperatively commanded him to go home at once. Another writes that the constables, who drifted into a respectable tobacconist's shop, upon seeing a pouch engraved with a likeness of Mr. Chamberlain, flung it down, cursing Chamberlain for "going against them." One of them addressing the lady behind the counter, said, "You're afraid of the Tipperary boys; I put six bullets into an Orangeman last night and I'll give them double to-night. If I had my own way I wouldn't leave one."

DUBLIN, Aug. 10.—The *Gazette* announces that Belfast and Londonderry have again been proclaimed. There had been no more rioting in Belfast up to midnight.

BELFAST, Aug. 10.—The magistrates dealt severely with the rioters who were tried to-day. Throughout the day and evening sullen crowds were gathered on the streets. A desire to renew the rioting was evident, but fear of the troops prevented an outbreak. The Queen's Island men rejected the magistrate's appeal to return to their homes in small bodies instead of in a compact crowd. They carried a good supply of missiles for use in case of attack. Bands of youths and girls continue to indulge in rowdyism. Clergymen of all creeds are visiting the worst districts in the city, and are trying to persuade the people to preserve the peace. Shops and other places remain open as usual. Notice has been served on the wholesale spirit and beer dealers warning them that a penalty of $10 will be inflicted for selling drink for consumption in the vicinity of their premises.

LONDON, Aug. 10.—A despatch sent from Belfast at 3 p. m. says during the morning a few minor disturbances occured. There was some spasmodic firing of revolvers in the streets, enough in fact to make walking out of doors more or less dangerous. An unoffending lamplighter was set upon and so brutally beaten by a small mob in one part of the town that he had to be removed to the hospital, where he lies in a critical condition. No disturbances had attended any of the funerals of the victims of recent disorders. On the Falls road a mob was assembling at 3 o'clock. The magistrates were in conference discussing measures for preservation of the peace. The military occupy the route usually traversed by the men who work on Queen's Island ship yards.

Geronimo Heard From.

TOMBSTONE, Ariz., Aug. 9.—Three reports have been received of Indian raids near Ures last week. One was that the Indians killed eleven teamsters, Americans, and 40 mules. Another said seven Mexicans and two Americans were killed. The last and probably the most reliable report is that they attacked a train of four waggons and killed the Mexican teamsters, then made a raid on Mineas Prietas and killed two Mexican wood choppers. They then made another detour and raided round back towards Mowlans, stealing horses as they went. The country is terrorized. The Indians are supposed to be a portion of Geronimo's band.

MUNICIPAL TAXATION.

In an article on "Income and Personal Property Tax" the *Monetary Times* speaks of an income tax being equitable, because a man's income is "the measure of his ability to pay taxes." If this is examined it will be seen that it is but an approach to communism, or to Robin Hood's old practice of taking from the rich to give to the poor. In the case of national taxation the assessment of income may be plausibly defended on the ground that the organized community enables the individual to obtain and retain his wealth, but it is of municipal taxation that our contemporary is speaking.

Many fallacies of the recent discussion on this subject may be cleared away if we consider the question, What are taxes? Is it not evident that they are the contributions of individuals to a common fund, for objects that can be managed better by the community than by the individuals separately? The majority are willing to bear their fair share of these expenses, and they compel the minority to do so even though unwillingly. The difficulty is to determine that fair share. A moment's reflection will show that it ought to be measured by the benefit derived by the individual from the common expenditure.

If this is clearly understood it will remove one class of difficulties with which some of the disputants are wrestling. But the difficulty remains and always must remain of ascertaining what is even the approximately fair share of each individual. A tax on real estate, or at all events on land, may well form the chief source of municipal revenue, for the real estate gives a rough measure of the benefits derived by the resident from the corporation expenditure, and land, even though unoccupied, increases in value through such expenditure. As to the buildings this is by no means clear, and it is often objected that it is unjust that a man should be fined for erecting a handsome dwelling or an extensive store or factory, that is an improvement to the town, while he would have escaped being mulcted if he had let his lot lie idle. Personally each inhabitant benefits by police protection, street lighting, sidewalks, &c., and therefore should equitably pay a poll tax. Some forms of personal property also benefit by police protection and should therefore pay for their insurance. Business carried on in a town can hardly fail to be facilitated by the municipal expenditure and therefore should contribute by means of a tax or license, though not to an excessive amount, as there is a benefit conferred in return on the community. The assessment of personal property for carrying on a manufacturing or mercantile business has the defects of being unequal in its incidence, having a tendency to check enterprize, being an incentive to dishonest evasion, often unduly burdensome, and above all as being objectionably inquisitorial. Many a struggling merchant submits to over-assessment rather than own that he has made no profit or that his personal property very little exceeds his liabilities, while the prosperous merchant has no hesitation in claiming exemptions to the fullest extent.

It would seem on the whole to be fair that land should bear the chief burden of municipal taxation, as that burden adjusts itself with tolerable fairness; that buildings should not be so over-taxed as to discourage improvements; that every individual should pay a moderate sum for personal services; that business men should pay a reasonable license; and that personal property should contribute something for the safeguards afforded it. Some forms of personal property, such as bank stock, really receive little benefit, if any, from municipal expenditure, and, therefore, logically, should not be taxed, but the fortunate possessors would probably not object very vehemently to contribute on a moderate scale, just as they voluntarily assess themselves more heavily than their less fortunate neighbour for the support of churches, charities and other objects.

If it is granted that individuals should contribute to municipal expenditure in proportion to the benefits they derive from it, we know what we have to aim at attaining. The difficulty remains to devise a practical and not too complicated method of determining the fair share to be contributed by each person. This can never be done with absolute exactitude, but some plan could surely be devised less objectionable, unjust and unequal than the present system.

REFORMERS AND RIEL.

A Quebec Reform Journal Protests Against the Party's Course.

The Huntingdon, P. Q., *Gleaner*, the leading Reform paper in the English counties in Quebec, says:—

Among the congratulations showered upon the Rielite committee of Chambly was this telegram:—

TORONTO, July 30.—The Liberals of Toronto congratulate you on your splendid victory. Welcome to our colleague. J. D. EDGAR.

Mr. Edgar is a member of the House of Commons and reputed to be Mr. Blake's adviser in party movements. Whether he has authority to speak on behalf of the Liberals of Toronto we cannot say. If he has, are we to understand that they endorse the late rebellion in the North-West, that they consider that their gallant fellow-citizens, Colonel Otter and his brave regiment, fought on the wrong side, and ought to be punished, and Big Bear, Dumont and his brothers in arms rewarded? Is it their private opinion that, instead of having honorable sepulchre, the bodies of Lieutenant Fitch, Private Moore, Bugler Foulkes and others of their former acquaintances, should have been hung in chains, and that a monument should be erected to Riel in Queen's Park? If Mr. Edgar and the Liberals of Toronto, on whose behalf he speaks, do not mean this, what do they mean? They know perfectly well that the election in Chambly turned solely on the points we have indicated; that the rebels were justified and lauded as martyrs, and the Dominion Government and its officials branded as tyrants and persecutors. In such a controversy we would expect, as a matter of course, to find the Liberals of Toronto giving their sympathies to the loyal side. Instead of that, if Mr. Edgar is to be believed, they rejoice exceedingly over the defeat of the loyalists in Chambly. Knowing nothing personally of of Mr. Edgar, we are not disposed to be surprised at his "welcome to our colleague" Perfontaine, for it may be that Mr. Edgar is that sort of a man that he would have found Riel a kindred spirit, would kiss Dumont and hug O'Donovan Rossa, for of the character of the associates his soul yearns after we have not the slightest connection; but we are more than surprised, we are dumfounded, if it really be the case that the Liberals of Toronto regard the triumph of the treason at Chambly as a "splendid victory." If they do, we warn them [illegible] the Liberals of this province part company. We would like to see the reign of Sir John Macdonald at an end, but we will not march to defeat him under the flag of treason, nor fight against him in the same ranks with rebels. If the Liberals of Toronto and of Ontario at large cannot defeat Sir John at the polls on the broad issue of his general policy and his administration of the affairs of the Dominion apart from the North-West troubles, we are not going to share in their disgrace in uniting with bigots and rebels to drive him from office for an act we unanimously approve—his permitting Riel to receive the punishment the law adjudged for his crime.

CROPS IN MANITOBA.

The Most Profitable Crop for Many Years—Farmers Hopeful and Cheerful.

WINNIPEG, Aug. 9.—Hon. S. C. Wood and party have returned after travelling five or six hundred miles in the Province. They report that they found the crops in Springfield and north-east of Winnipeg pretty light in the straw and well-headed, and an average as far as the yield is concerned. In Birtle and Shoal Lake districts and around Minnedosa they found the grain well headed, good length of straw and more than an average yield. In Portage la Prairie district they found a very large average under wheat and the crop very good. It was a little shorter in the straw than usual, but will undoubtedly yield well. The same remarks would apply to the Carberry district. In the neighborhood of Brandon, north and south of the track for about four miles, the wheat crop is very poor, the straw being very short. Passing on to Plum Creek settlement the crops are very good, the wheat crop especially. From Plum Creek to Delaware they found an average crop, the grain being well headed, and the yield will doubtless be large. The crops around Boissevain and vicinity are good, and also at Nelson and vicinity, where they will be better than an average. Around Morden and on the Mennonite reserve they are light, the straw being very short, but the head is good and the yield will be fair. They noticed wherever they went that where wheat was sown on backset land or summer fallow the crop was good and little damage had occurred from the dry season, the only injury being the shortness of the straw. Wherever wheat was sown on stubble land the straw was very short. In districts where they saw the best crops they also found a very large acreage of summer fallow being prepared for next year. They unanimously reached the conclusion that this year's crop will be the most profitable one that this Province has had for many years. They found the farmers wherever they went hopeful and cheerful.—*Mail.*

A Mixture of Names.

Various trades and professions, ancient and modern, will be well represented in the new House of Commons. There are two Fowlers, two Gardners, two Smiths, two Websters (Scotch for weaver), a Fisher, a Hunter, a Cooke, a Clarke, a Sexton, a Beadel, a Chaplin, a Tanner, a Shepherd, a Potter, a Hozier, a Tyler, a Taylor, and a Barbour. The animal kingdom is represented by a Fox, a Finch, a Schwann, a Peacock, two Basses, two Frys, and a Hogg. The vegetable kingdom is represented by a Flower, a Heath, a Grove, a Moss, a Cotton, a Reed, a Caine, a Leake, and a Pyne. As to party colors; the Gladstonians have a Brown and a Gray, the Parnellites, too, have a Gray, but the Conservative have a Gray also, as well as a White, and three Greens, to say nothing of Greenall.

FOREST FIRES.

Science has recondite theories to account for very common things. Some of these theories seem to the unscientific to be absurd, but others cannot be disregarded. Here is something from a druggist in Maine, with regard to forest fires: "It is reasonable to assume that many fires originating in the woods are not caused intentionly by boys, gunners, &c., but by natural cases and the sun. It is a fact that most of our forest fires occur when the resin or gum is exuding in the warm season, and in forests composed chiefly of soft woods of resinous trees—the pine spruce, hacmatack and hemlock. It is often observed that these species of tree exude a resin that, in losing its volatile element, hardens, and for a short time before becoming opaque makes a very good magnifying lens, and powerful enough to set fire to very dry punky materials. Admitting these conditions, then to start a forest fire in the dry season among resinous woods, we require the sun shining on one of those natural sun glasses, and back of it in the focus some suitable material, as dead bark, wood, or best of all, that dead, dry, mealy condition of soft woods caused by insects." One can hardly deny Dr. Roche's statement of these conditions; the resinous forest, the dead bark, the "punky" and susceptible wood. But the lens made of resin is something new to the non-scientific woodman and indeed to the non-scientific reader. However, when one reads in the *Chronicle* the doctor's account of the fire set in his window by the rays of the sun passing through a show bottle filled with colored alcohol, he is impressed with the notion that there are a good many agencies contributing to the annual fire-waste. There is this to be said, however, that if this theory of the origin of forest fires be correct "what we are going to do about it" is not easily seen. It seems as if the forces of nature with her myriads of burning glasses in the depth of the forest, were too much for any efforts of man.—*Monetary Times.*

Mackerel Schooners Seized.

BIDDEFORD, Me., Aug. 9.—Last evening Fish Warden whitter, at Old Orchard, observed the mackerel schooners fishing within the three mile limit. He seized two of the vessels and sent them back to Portland. The captured vessels were the Dreadnaugh and James M. Dyer, both from Portland. The other schooner, hailing from Provincetown, escaped. The penalty of fishing within three miles of the shore is $500 and forfeiture of the cargo, one third of which goes to the officers. Each schooner had taken about fifty barrels. The fishermen intend making this a test case.

CHEESE MARKET.

Regular Fortnightly Meeting—Nearly All the Cheese Sold.

The regular fortnightly meeting of the members of the Peterborough cheese market was held on Tuesday afternoon in the market buildings.

The buyers present were: Messrs. W. Cook, Belleville; H. O'Leary, and J. D Flavelle, Lindsay; W. H. Wrighton, W. H. Cluxton and B. Green, town; and three more buyers, W. Bensley, for Hodgson Bros. of Warkworth, A. H. Brentnell, of Orono, for Jackson Elliott, of Guelph, and Mr. Dingwall, of Morrisburg.

The Liverpool market, according to cable despatch, stood at 42 shillings. Utica market quotations were from 7⅞ to 8⅝.

The cheese boarded was as follows, all July make and all colored:—

PETERBOROUGH SECTION.

LINDSAY SECTION.

North Ops	65
Downeyville	75

The bidding started off brisk. The following are the bids which were made:—

Flavelle	7½ for the board
Green	7½ do do
Flavelle	7¼ for selections
O'Leary	7¼ for the board
Cook	8 do do
Bensley	8¼ for selections
Cook	8¼ for the board
Bensley	8¼ for selections
Green	8¼ for the board

Mr. Cook asked the President who Mr. Green was buying for.

Mr. Green asked the President if that was any of Mr. Cook's business.

Mr. Cook said that it was this much his business, that he did not want to bid against a buyer who, when bidding for the board, would simply select when he came to take the cheese.

Mr. Dingwall said that he supposed that was meant for him. Mr. Green was buying for him.

Mr. Cook laid the same accusation at Mr. Dingwall's door.

Mr. Dingwall stated that he had always done what he agreed to do.

After going back and dwelling on last year's proceedings for some time, Mr. Brentnell put a stop to discussion by bidding 8⅝ for selections. He was just about to make his selections when Mr. Cook went an ⅛ higher for selections, taking Norwood and Westwood.

Some of the buyers and the Secretary muttered objections to so small a selection.

Mr. COOK—If I had taken Otonabee it would have been all right, Mr. Secretary.

The SECRETARY—No it wouldn't, Mr. Cook, even if you had taken Otonabee and Otonabee alone.

Bids were called for when Mr. Brentnell fell back on his last bid, 8⅝. He selected Keene, Warminster, South Dummer, North Smith, Trewern, Lakefield, Myrtle, Normanhurst.

Messrs. Cook and Green bid up to 8¼ for selections, that being Mr. Green's bid.

Mr. Green chose Central, Warsaw, Lakehurst, Otonabee Union, Downeyville and Ops.

Some others which were selected refused to accept the price.

NOTES.

Mr. Galvin presided at the new blackboard.

One buyer who didn't make a bid was heard to say that he thought the buyers were decidedly hungry for cheese.

FROM THE ROCKIES.

Arrival of Rev. John McDougall and Three Indian Porteges.

Rev. John McDougall, the well-known mission worker among the North-West Indians, arrived in town last night by the Canadian Pacific railway from Morley, his station in the Rocky Mountains. Mr. McDougall has been a missionary among the North-West Indians for 27 years, 13 of which he has passed in Morely and its vicinity. He comes to Toronto principally to attend the Methodist General Conference, which opens here on September 18. Mr. McDougall brings with him three Indians. They are Chief Pakan, of White Fish Lake, Chief Samson, of Bears' Hill, Alberta, and Jonas, a Stony Mountain Indian from Morley mission itself. Mr. McDougall's object in bringing them is to show to them the objects of Christianity and civilization, and also to give them a chance of placing their petition for increased aid to their schools before the Ottawa authorities. The three Indians were perfectly overpowered by the varied sights of Toronto, and although they are noted hunters and would laugh at the idea of losing their way on the prairie or in the bush, they confessed that without a guide they would speedily get lost in this city. These Indians remained loyal last year during the rebellion troubles, and Chief Pakan, Mr. McDougall states, saved the Government much money, and probably many lives, by exerting his influence for the Government when he and his tribe were strongly urged to join Big Bear and his hostile braves. Mr. McDougall's mission at Morley is prospering, and he has there a training school at which the Indian children are doing excellent work. He will accompany his Indians to Ottawa to act as interpreter between them and the authorities there.—*Toronto Mail.*

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of Infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

MYSTERIOUS OUTRAGE.

A Brantford Woman Shot at Her Own Door by a Stranger.

BRANTFORD, Aug. 7.—Yesterday afternoon, between five and six o'clock, a man called at the residence of Mr. Geo. Massecar, Wellington street, rang the bell, which was answered by Mrs. Massecar, and enquired if Mr. Massecar was home. Mrs. Massecar replied no, but she expected him shortly, and requested the stranger to wait till he came. He said he would call again, and asked for a glass of water. Mrs. Massecar turned to get the water, but no sooner had she turned than the stranger shot her. She fell to the floor unconscious. On regaining consciousness she found the door closed and the man gone. She managed to alarm one of the neighbours, who came to her assistance and a doctor was immediately summoned. The ball struck the thick part of the left arm between the shoulder and the elbow. No serious result is anticipated. The stranger was about 35 years of age, dressed in black clothing. None of the neighbours nor children playing around the house saw the man nor heard the shot fired.

FROM ALL OVER.

Halifax and St. John expect to have street railway systems shortly.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

Gen. Sherman, of the American army, will visit Victoria, B. C., shortly.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

Mr. VanHorn, of the C. P. R., told a Calgary stockdealer that he would give orders for the immediate construction of stockyards in that town.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

The Pickering *News* holds up the admiration of the world a bean pod eleven inches long.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

Excellent brick is manufactured at Calgary. The color is a cream and the price $13 a thousand.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

A baby carriage in Stratford was blown down a hill and dashed to pieces against a tree at the bottom. The baby escaped with a few scratches.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

From Glamorgam township a story comes that three wolves chased an old horse until it was tired and then ate it.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

The magnificent Rocky Mountain eagles, each measuring 17 feet from tip to tip, were exhibited at Port Arthur recently.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

A Prince Edward Islander has a horse which has lost one of his eyes, and can breathe through the place occupied by the missing optic.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Hot-Weather Fancies.

The Estelline fire company was called out in great haste at about 4 o'clock yesterday afternoon by a conflagration raging in the Big Sioux river west of here. The run to the river was made in four and one half minutes and by hard work the fire was extinguished after about six rods of the river had been destroyed. No insurance. A man has been hired to draw water down in a barrel and repair the brake. It is expected that navigation will be resumed in a few days.—*Estelline Bell.*

We do not say it on our own authority, but a subscriber has just dropped in to tell us that the sun was so hot on State street yesterday that a cake of ice which the ice man was taking into a store caught fire while he was crossing the sidewalk.—*New Haven News.*

Civic Holiday.

Be sure and go to the P. A. A. A. excursion to Orillia and Sturgeon Point on the Civic Holiday, Aug. 19. First class coaches. Special train leaves G. T. R. station at 7.30 a. m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

The Market.

At this morning's market butter sold at 15 cents per pound; eggs, at 13 cents per dozzen; raspberies, at 90 cents per pail; black currants, at 8 cents per quart; choke cherries, at 5 cents per quart; green peas at 5 cents per quart; new potatoes, a 75 per bag. Lamb sold at 10 cents per pound for the hind quarter and 8 cents per pound for the fore quarter.

The Races.

As the time of the two days' races draws nigh the management are becoming more assured of the success that is almost sure to attend their venture. A large number of horses are already entered from a distance, among others some noted flyers. The Committee are sparing neither time nor expense in perfecting arrangements, and the public will have the pleasure of witnessing two of the best days' sport ever held in Peterborough.

Some Sporting Items.

The Whitbys play baseball here on the 25th of August against the home team.

The Bowmanvilles want to play here on Aug. 20th. The Secretary would like to see the members of the club this evening to arrange about it.

Norwood and Hastings played lacrosse on Tuesday. One of the Hastings men says it was an awful game, and that the Norwoods went in for slugging. After 30 minutes' play one of Hastings' homes was hit on the head, laying it open. Norwood then left the field, saying that the Hastings men slugged them. The referee decided in favor of Hastings. Both Hastings and Norwood played very gentlemanly matches with the Riversides. Why could they not do so with each other?

The Lindsay and Port Hope baseball nines commenced play in Lindsay at half past two o'clock this afternoon. The Port Hope crack nine have to face the Lindsays strengthened by a battery from Hamilton. It's likely the score will be low.

An Old Warrior Excited.

They had lots of fun up at Burleigh on Tuesday. The party was from here, among whom were Messrs H. Lebrun, C. H. Clementi and others. Capt. Mason, of New York, and Mr. Lane, formerly of Peterborough, were with them. The former very much interested the party by telling how he went through thirty battles in the American wars, and giving graphic accounts of Bull Run, and telling all manner of campaign stories. Capt. Mason went out and left the rest at their pipes in the hotel thinking what an old veteran he must be. All at once the captain broke in upon them in breathless excitement and in disconnected speech called for guns, axes, crowbars, —any weapons whatever. He had the ferocious animal treed and a paid Frenchman was watching it. John Holmes armed himself to the teeth and went out followed by the Captain and the rest. The Captain led the way and brought the party up to where the vigilant Frenchman lay. They found the animal—to be a ground hog.

The Party.

No person should fail to attend the Garden Party in St. John's Church grounds in aid of the Fire Brigade Band on Thursday evening, Aug. 12th. Admission 10 cents.

Acknowledgment.

The lady managers of the Peterborough Protestant Home gratefully acknowledge the receipt of a barrel of flour from A. and G. Stevenson's boating club.

The Police.

At a meeting of the Committee on Appointments held on Tuesday evening it was decided to recommend the buying of new uniforms for the police force.

Garden Party.

A garden party was given in Mrs. Orde's lawn, Ashburnham, on Tuesday evening. The grounds were beautifully decorated and lighted by chinese lanterns, while flower stands, refreshment stands, etc, additionally ornamented the place. The Fire Brigade Band was present during the evening and discorsed choice music. The proceeds go towards the St. Luke's Church.

W. C. T. U.

At a special meeting of the Women's Christian Temperance Union held last Monday afternoon it was decided to hold a public meeting next Monday evening in the Y. M. C. A. Hall, commencing at half-past seven o'clock. Also to organize a Band of Hope next Saturday afternoon at three o'clock in the same place, to which all children are cordially invited.

Fire.

The emigrant sheds situated in the "Priest's field," on the gravel road, were burned this morning at one o'clock. The fire bell was rung and the brigade went out. The water was not turned on, however, as the place was nearly all consumed in a short time. The loss is about $400; insured in the Royal Insurance Company, $300. It is supposed that the fire was the work of some boys.

Doubly Generous.

A week or two ago the electric Light Company placed two lamps in the Agricultural Gardens. These lamps made the Gardens quite light and on the Tuesday evening, when they were first lit, the people were loud in their praise of the Company's generosity. But the Company have doubled their liberality by placing two more lamps on the little tower, and last night the whole four blazed forth making the Gardens as aright and beautiful as a fairyland dream. The people fully appreciated the Company's kindness, for the place was well patronized by promenaders till late in the evening.

Lacrosse Talk.

We hope the "old dozen" will get together once more.—The Lacrosse enthusiasts.

And take their first crack at us.—The Riversides.

We will play you a game, boys, and perhaps we may take three "straights" as well.—The old dozen.

I will come back and help you if you only say so.—Joe Joyal.

And I will bet, with Joe in goal, and two or three week's practice, we will bring back the medal.—Mike.

ATKIN & SON'S Panel, Hand and Rip Saws are *fully warranted*. GEORGE STETHEM.

LACROSSE.

To the Editor of the Review.

SIR,—There seems to be a bright prospect of reviving the lacrosse club once more, or, at all events, of again getting the first twelve together. It is really too bad to see a town like Peterborough with so many first-class players in it standing comparatively still in lacrosse matters. This is Canada's national game and we should always have (and support it too) a first-class club. Will not our old friend Mr. H. LeBrun, take hold of the team for the balance of the season? He could greatly assist Mr. Calcutt, the President, to bring matters to a state of perfection again.

Yours truly,
LACROSSE.

Assault on a License Inspector.

PALMERSTON, Ont., Aug. 10.—License Inspector Fisher paid an official visit to town to-night. While putting his horse up at one of the hotels a stranger came up and asked him if he was the License Inspector. Being answered in the affirmative, he dealt him several blows with a club, cutting him on the head and shoulders. His injuries are not serious. The stranger, whose name is at present unknown, escaped.

Spring Wheat Returns.

WASHINGTON, D.C., Aug. 10.—The spring wheat returns of the Department of Agriculture for Aug. 1st show an improvement in condition in Iowa, a small decline in Wisconsin and Nebraska and a heavy production in Dakota. The causes of deterioration are drought and clinch bug. The heat has been excessive in many districts that have produced a fair yield.

Cutting's Appeal.

ST. LOUIS, Aug. 10.—An El Paso special says: Cutting was brought before the Court again yesterday and told that his attorney had appealed his case to the Supreme Court of the State, and that the appeal had been granted.

RECEIVED this week a job lot of ladies fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

BROUGHT TO TIME.

The Cruiser Terror Enforces Compliance with the Law by a Cannon Shot.

HALIFAX, Aug. 10.—Yesterday while the American schooners Shiloh, Capt. Nent, and Julia Ellen, Capt. Barns, were proceeding up Liverpool harbour they were ordered by Capt. Quigley, of the cruiser Terror, to come to. This order not being complied with, a gun was fired across the bow and the vessel immediately came to anchor. Capt. Quigley kept a guard on board both vessels till they sailed, not allowing any communication with the shore. The Julian Ellen was from North Bay, with a cargo of mackerel, bound home.

PORT HOPE.

ACCIDENT.—A serious accident happened to William Burt (son of Mr. Thos. Burt, Mill street), on Monday while polishing a scythe on an emery wheel in Mr. Thos. Hayden's foundry, where he is employed. The emery wheel from some cause broke, the handle of the scythe striking Burt on the right leg, causing a very ugly bruise, and one of his hands was severely burned. A portion of the wheel went through the roof. Burt had a very narrow escape from much more severe injury than he sustained. —*Times*.

Fired by an Incendiary.

KINGSTON, Ont., August 10.—At midnight the Salvation Army barracks was discovered on fire, and half an hour afterwards was destroyed. It was a brick edifice, 160 by 60 feet, and sealed inside with oiled and varnished wood, valued at $6000 and insured for $5000. The Army had wiped out the debt, excepting $700. The fire was undoubtedly started by an incendiary, as no fire existed in the building, and the electric light was put out half an hour before the fire broke out. Mrs. Coy's house, occupied by three tenants, was also destroyed; loss, $1000; insured for $500. The tenants had no insurance. R. Wright's house was damaged to the extent of $800; insured for $2000. The Salvation Army barracks will be rebuilt.

A Suspicious Death.

CHICAGO, Aug. 6.—The sudden death of Major Wm Durrell, a prominent member of the Illinois Division of American wheelmen, was announced yesterday. The *Inter-Ocean* says: "While it is a fact that apoplexy was the cause, it has been ascertained that the stroke was the result of injuries he received Tuesday evening in a well known sporting resort on Clark street, where, during the evening, numerous fights occurred between Paddy Ryan, an "unknown" and several others. The fighting became general and almost everybody in the place was embroiled. An examination showed that deceased had received numerous kicks and blows on the right side. The Major was a gentleman by birth and education, and served in the Confederate army with distinction."

Drowned in Rice Lake.

COBOURG, Ont., Aug. 10.—A party of young men left here yesterday for a week's camping in Rice Lake, and to-day one of them, named Joseph McCulloch, of this town, took his boat out into the lake with the intention of having a swim, and after jumping into the water was unable to reach the boat, and was drowned before help could reach him. His body was brought in by train to-night. This is the fifth drowning accident in this vicinity this season.

Heavy Failures.

BOSTON, Mass., Aug. 10.—P. F. Williams, Russel, Sheen, & Co., lumber dealers have failed, and the following firms have failed in consequence: Allen & Noble, hard-ware dealers; Gerrish & O'Brien, furniture dealers; Thos. F. Brown & Co., furniture; L. E. Pierce, furniture, all of Boston; and the Lewiston steam mills, of Lewiston, Maine. The combined liabilities are $500,000.

The Rate War.

CHICAGO, Ill. August 10.—There is a prospect that by the end of the month the fare to Boston and New York will be lowered to nominal figures. The Chicago and Grand Trunk says it will not recall its $13 round trip rate, for which it has contracted with the oddfellows, and competing lines say they have deterimed to make the business unprofitable.

Sir John's Retort.

Sir John, in addressing an audience in Victoria, B.C., gave an evidence of his readiness in retort. While speaking of the proposal to the British Government to grant a subsidy to vessels running to China, he interrupted by the interrogation, "What is Gladstone doing now?" Sir John immediately answered amid roars of laughter: "I fancy he is practising the virtue of resignation."

Scene at the Zoo.

Keeper—Stand back their, gents! That monkey is vicious and might claw you.

De Twitlinger—Aw! no fear, deah boy. The beggah won't claw me.

Keeper—I don't believe he will. Them monkeys are very peaceful with their own kind.—*Philadelphia Call.*

Murder and Suicide.

OMAHA, Neb., Aug. 10.—John Bochow, living six miles south of Stanton, shot and killed his step-daughter, Mrs. S. W. Helliwell, yesterday, and then went upstairs and blew out his own brains. Jealousy is the cause.

Prince Bismarck will remain here until the end of the Emperor Francis Joseph's second visit, and will then go to Alsace to witness the army manœuvres.

TOWN DESTROYED.

LONDON, August 20.—The town of Skein, in Norway, has been burned; loss £200,000.

THE HOME SECRETARY SPEAKS.

LONDON, Aug. 10.—Mr. Mathews, the new Home Secretary, speaking at Birmingham last night, said that Ireland's great want was peace and order, and freedom from the political agitator, so that bad men might be punished, and good be permitted to follow their avocations unmolested by a tyrannous organization. These ends the government would try its utmost to achieve.

The Daily Review.

THURSDAY, AUGUST 12, 1886.

BY comparing the REVIEW to the New Zealand volcanoes the *Globe* acknowledges its vigor; but if the Reform organ thinks that a charge of "mud throwing" is sufficient to suppress or offset exposures regarding the Blake-Riel alliance, and the vagaries of the leader of the avengers of the "martyr," it is mistaken.

THE Brockville *Recorder* says that "the issue in Chambly was not Prefontaine or Jodoin, nor was it Riel, but Sir John, Chapleau, et al." It is strange that those who took an active part in the election did not know what issue was involved. The Montreal *Witness*, a Reform paper, said the Riel question was the main issue, and at the nomination Hon. W. Lawrier, one of the leaders of the Reform party, who sits beside Mr. Blake in the House, said:—

"I will confine myself principally to the Riel question, as that is almost *the sole issue* * * * In the graveyards of this county are found the bones of those who were not afraid to face English bullets, and it is for you, gentlemen, to follow their patriotic example and *to dvenge* in a constitutional way *the unfortunate Metis leader.*"

A TORONTO SENSATION.

Five Persons Arrested on a Charge of Conspiracy to Swindle.

On Wendesday afternoon a sensation was caused in Toronto by the arrest of Patrick Burns, a coal dealer, T. C. Johnston and B. McCarthy, employees of Burns, and J. H. Venables, mechanical engineer of the Toronto waterworks. Afterwards Quartermaster-Sergeant Swanson, of "C" Company, School of Infantry, was also arrested. The charge against them was conspiracy to defraud the city of Toronto of the sum of $8,000, and the Dominion Government of the sum of 2,000. The alleged fraud arises out of contracts made by the water works department, and to the new fort where "C" Company is in barracks. The fraud is said to have taken place between March, 1883, and May, 1885, by the short delivery of coal and the collection of money from the corporation and Government for coal never delivered. There is another person said to be implicated still at large. Mr. Burns maintains that he is entirely innocent of any wrong doing.

THE PREMIER SPEAKS.

Lord Salisbuy Foreshadows a Policy Coercion.

LONDON, Aug. 11.—A banquet was given by the Lord Mayor this evening. Sir. A. P. Caron, Canadian Minister of Malitia, who responded to the toast of the "Army and Navy," referred amid loud cheers to the Canadian assistance sent to Egypt.

Lord Salisbury congratulated those present on the result of the elections. He expressed his pleasure at Lord Rosebury's consistent continuance of a foreign policy that raised England in the estimation of nations. He regretted that there still remained a subject for painful meditation. "Every day's news," he said "reminds us that Ireland is not yet inhabited by a concordant and homageneous people. It is the duty of every government to devote its whole energies to freeing the loyal people of Ireland from the constraint exercised upon them, whether in the form of riot or in the more dangerous, insidious and effective form of outrage and intimidation. While admitting the great difficulty and responsibility of the task—which are so great that previous governments equally anxious with ourselves only succeeded temporarily and to an imperfect extent—we possess an advantage over our predecessors which we hope to turn to good use. We bear a mandate from the people deciding finally, and, in my opinion, irrevocably, the question which has wrecked the peace of Ireland. (Cheers.)

"The question of an independent government in Ireland, after deep discussion and advocacy by the most powerful statesmen this country has ever seen, has been rejected emphatically and equivocally by an enormous majority of the people of the Kingdom. (Loud Cheers.) It is not unworthy to remark that most of the voices in favor of separation have been obtained by the personal influence of the great statesmen and upon other considerations apart from the merits of the question. I believe that our opponents will eventually admit that this is England's final decision, armed with which it is our duty to restore in Ireland that social order, the loss of which is the only cause of its discontent. I am convinced that in such a policy we shall find the strongest support in the enormous population of which you are the true representatives."

The *Daily News* says the speech shows only too plainly that the only medicine for Irish disorder is a good dose of drastic coercion.

The Sault Ste. Marie Fire.

DETROIT, Aug. 11.—A Sault Ste. Marie despatch says:—"Monday's fire destroyed thirty-one buildings, comprising twenty-two business houses, six dwellings, two hotels, etc. But for the prompt and efficient services of Captain Hinton and his command, of Fort Brady, in addition to the excellent fire department, the business part of the town would have been destroyed entirely. The estimated loss is $75,000, on which there is only $18,000 insurance.

Horrible Domestic Tragedy.

ALBANY, N. Y., August 11.—James W Davis, yesterday afternoon, murdered his wife and terribly injured his mother. He also attempted to take the life of his sister, but was prevented. He is evidently insane, having been some months ago released from Utica lusane Asyium. The skulls of the unfortunate women were crushed in with a hatchet. His mother is badly injured, but has revived. Davis horribly gashed his own arm. He was arrested.

The Finest lot of Gent's Furnishings in Peterborough, at ANDREW MCNEIL'S.

A CHICAGO MYSTERY.

The Body of a Comely Young Woman Found Murdered on the Prairie.

CHICAGO, Aug. 11.—The body of a comely young woman was found on the prairie, near the town of Jefferson, yesterday morning. She had been shot twice in the head. There were indications of a struggle and that the victim had been unsuccessful in defending herself from assault. She was seen late last night in company with two men, who were subsequently observed leaving the vicinity in some haste. Detectives discovered one hundred yards from the body a note book. It had several addresses in it. Another find was a card, on which was written "Telephone 3,061." This is the number of the telephone in "Mentone," a fashionable French flat building on the corner of Dearborn avenue and Erie street. The body has not been identified.

IMPERIAL FEDERATION.

A Deputation Urge Lord Salisbury to Appoint a Commission.

LONDON, Aug. 11.—The Marquis of Salisbury to-day received a deputation of impederal federationists, who called upon him to urge the appointment of a royal commission or summoning of a conference to inquire into the best means of accomplishing a closer federation of the states composing the British Empire, to secure concerted action in time of war, and to promote direct intercourse by a system of commercial and postal telegraph. Peter Redpath spoke for Canada. The Marquis of Salisbury said it would be difficult to overrate the importance of the subject. He promised to carefully consider the suggestions made by the deputation with the exception of one to the effect that the Government should enter into negotiations with Germany for the evacuation by the latter of New Guinea, and France for the evacuation of New Caledonia. This suggestion, the Premier said, was outside of practical politics. He hoped the colonists would be able to contribute materially to the defence of the empire and that men who devoted their lives and their careers to that defence would in future be drawn more together. He expressed hearty sympathy with the general idea of federation represented by the deputation.

LAKEFIELD.

From Our Own Correspondent.

LOW WATER.—The water has been suddenly lowered, so much so that the boats had hard scraping up to Young's Point on Wednesday. Now that camping is at its height it will be too bad if we are going to have the same old trouble over again. When the new dams were built we were told that there would be a standard height fixed to which the water would always be kept, and now the water is lowered so much as to interfere with navigation, and for what reason it is hard to say.

BATHING.—Owing to the bathing that is going on, more or less, all day, it is impossible for a lady to go up the river in a boat. Some steps should be taken to prohibit bathing except before a certain hour in the morning or after a certain hour in the evening.

COUNCIL MEETING.—A meeting of the Village Council was held on Monday evening, Aug. 9th, the Reeve in the chair. All the members were present. It was moved by Councillor McWilliams, seconded by Councillor Cox,—That this Council do grant the Band the use of the Council Chamber for practice.—Carried. The following accounts were ordered to be paid:—

Dumble & Henry	$35 00
Village Assessor	3 00
Village Clerk	3 00
W. H. Casement	5 94
J. Madill, meals for prisoners	1 75
Isaac Watson, wages	5 40

It was moved by Councillor Cox, and seconded by Councillor Moore,—That the clerk is hereby instructed to pepare a by law by next regular or adjourned meeting cancelling clause 3 of By law No 108 and that he insert a new clause in accordance with the instructions of the Village Solicitor.—Carried. It was moved by Councillor Moore, and seconded by Councillor Cox,—That the amendment to By law No 9 prohibiting the drum on Sunday be rescinded as asked for in the the petition signed by Messrs John Sherin and others, and that the clerk be instructed to prepare a Bye law accordingly.—Lost. The council then adjourned until Saturday, the 14th, at 8 o'clock.

STONEY LAKE NOTES.—The Syndicate Camp has erected a house on Syndicate Island, Bochinck, which they lately purchased from the Indian Department through Mr. R. C. Strickland. Mr. Geo. Goodwin is excavating Sandy Point for sand to be used at the Burleigh works and the workmen have dug up many Indian relics, consisting of pottery, arrow heads, tomahawks, etc. The other day Mr. A. Hall was paddling two ladies, both of them trolling, when they each hooked a maskalonge at the same time. After a good deal of trouble Mr. Hall managed to secure both the fish. Mr. E. B. Edwards is building a house on Gin Island. The Rev. V. Clementi, Mrs. Clementi and Miss L. Barlee went up on the Cruiser on Tuesday. Mr. T. Hewson, D. L. S., is camped at the mouth of Eels Creek, and is engaged in surveying the islands on the upper lake. A large camping party from Millbrook went up on Tuesday. Mr. Geo. Hilliard, M. P., and a large party are living in his floating house near Salmon Island, between Eels and Jacks Creeks. Mr. Z. Burnham has erected a very pretty little cottage on the main land, near Christy Crowe's landing, in the upper lake.

THE ARMY.—A public meeting is to be held on Monday evening next for the purpose of discussing the Salvation Army question.

COMMITTED TO GAOL.—R. Podger, the defendant in the late Salvation Army trial, was taken to gaol last Saturday by Constable Cochrane.

Gold in Wisconsin.

EAU CLAIRE, Wis., August 11.—There is some excitement here caused by the exhibition of specimens of gold discovered seventy-five miles north of here. It assays $80 to the ton.

Military Activity

ST. LOUIS, August 11.—Unusual activity prevails at the Jefferson barracks, fifteen cars down the river, and also at Fort Leavenworth.

LATEST BY TELEGRAPH.

MR. MATTHEWS RE-ELECTED.

BIRMINGHAM, Aug. 11.—Mr. Matthews, the new Home Secretary, was re-elected to the House of Commons for East Burmingham without opposition. The Liberals, at the last moment, withdrew their candidate, Alderman Cooke, leaving the field clear for Mr. Matthews.

ALL QUIET IN BELFAST.

BELFAST, Aug. 11.—The city was quiet last night. The wounded are improving. A petition, which has received numerous signatures, has been handed to the Mayor, demanding the appointment of a Royal Commission to investigate and report upon the causes of the disorders which nave occurred here since June. John Malonan died in the hospital to-day from a gun shot wound received in the riots.

THE NEW HEBRIDES.

PARIS, Aug. 11.—The *Republique Francaise* says it is certain that diplomacy will effect the annexation of the New Hebrides islands to France.

MONUMENT TO BLUCHER.

BERLIN, Aug. 11.—A movement is on foot for the erection of a monument to Blucher, the celebrated Prussian general, at Caub.

LIBERAL UNIONIST WHIPS.

LONDON, Aug. 11.—Lord Edward Cavendish and Mr. U. S. Caine have been appointed party whips by the Liberal Unionists.

ATTITUDE OF THE LOYALISTS.

LONDON, Aug. 11.—The Irish Loyalist members will meet on the day on which Parliament adjourns to decide as to their course in the coming session. It is thought they will generally support the Government, but maintain an independent attitude on Irish measures.

NEWFOUNDLAND AFFAIRS.

LONDON, Aug. 11.—Sir Ambrose Shea and Messrs. Bennett, Mare, Rowning Ridley, Munn, Hall and Newman had a long interview yesterday with Mr. Stanhope on Newfoundland affairs.

SIX MEN KILLED.

DUBLIN, Aug. 11.—Six men were killed by the collapse of a railway tunnel in process of construction New Ross to-day.

RUSSIAN OCCUPATION.

LONDON, Aug. 11.—Advices from Tien Tsin say that great excitement prevails there over the report that the Island of Lazarell, in the Japan ocean, has been occupied by Russia.

CHINA AND THE VATICAN.

ROME, Aug. 11.—The French Ambassador had a long interview with the Poye yesterday on the China question. It is reported a satisfactory arrangement was effected.

CHOLERA IN TONQUIN.

PARIS, Aug. 11.—Cholera of a most virulent from prevals among the French troops in Tonquin. The chief of the medical staff has succumbed.

GRAIN ROTTING IN THE FIELDS.

LONDON, Aug. 11.—Owing to the rainy weather in Russia during the past fortnight grain is rotting in the fields and farmers are greatly depressed.

MURDERED IN A CEMETERY.

BELFAST, Aug. 11.—The man who was killed while in a Catholic cemetery yesterday attending the funeral of a victim of last week's rioting, and who was supposed to have been shot by the police, was, it is learned, killed with a pitchfork by a man now under arrest, and who has been identified by several persons who saw him engaged in his murderous work.

HEAVY DEFALCATIONS.

LONDON, Aug. 11.—A sensation has been caused by statements made in court to-day in connection with the affairs of the Briton Medical and General Assurance Association. The hearing on a petition to wind up the business of the Association was in progress, and during the course of the proceedings the judge stated that the failure of the concern was due to defalcations which would exceed $500,000. He declared that every effort would be made to unearth and punish the miscreants who had caused the ruin of the Association.

MINISTERS ELECTED.

LONDON, Aug. 11.—All the new ministers have now been elected to the Commons. Everyone was unopposed, and the withdrawal of Alderman Cook, the Liberal candidate against Mr. Matthews in the East district of Birmingham, is said to have been due to the Radical Union's opposition aroused by the Cook correspondence with Arthur Chamberlain.

COMING TO CANADA.

DUBLIN, Aug. 11.—The Dungannon Patriotic Union will send a deputation of Loyalist orators to the United States and Canada to address public meetings throughout both countries in the interest of the Irish opposition to Home Rule. The orators will leave Ireland as soon as Parliament adjourns in the fall, and among them will be Major E. J. Sanderson, Tory member for North Armagh, and Mr. Russell, for Tyrone.

The Mexican War Talk.

NEW YORK, Aug. 11.—Consul-General Navarro, the Mexican representative in this city, regards the current war talk as nonsensical. He admits that his country would be an easy prey for the United States. The Cutting affair, he says, is a subject for discussion and arbitration. He is positive that President Diaz and the Minister of Foreign Affairs are anxious to adjust the matter amicably, and feels sure an understanding will be reached that will be satisfactory in every respect.

MASTER OR MAN.

It appears that Mr. J.D. Edgar's capabilities for evil have been somewhat underrated. When he went on his mission to the Province of Quebec to assist in the organization of the "National Parti" by the union of the Quebec Rouges with such Bleus as they were able to beguile by this false cry and of those Ontario Reformers who were willing to sympathise with rebellion and murder, if they could thereby gain a political advantage, few thought that he would have any success in his dirty work.

It appears, however, that he has obtained at all events a qualified success. At Chambly, Mr. Edgar's Rouge allies have in a somewhat fickle constituency deluded a sufficient number of French Conservatives to elect a Rielite Reformer, the standard bearer of a murderous rebel, and the chosen intermediary of his party in corruption. Mr. Edgar has also succeeded in leading by the nose his patron and master, Mr. Blake, whose personal representative by an unconstitutional arrangement Mr. Edgar is. Either master or man also persuaded the majority of the Ontario Reform leaders and a large number of Ontario representatives into the degradation of joining in the attempt to overthrow the Macdonald Administration for permitting justice to be done to a murderous rebel, for whose blood they had howled, when that cry seemed likely to suit their purpose.

We have said that Mr. Edgar's was only a "qualified" success. At Chambly his allies and fellow conspirators failed to shake the loyalty of many French speaking Conservatives, and by their criminal sympathies they drove so many English speaking Reformers to oppose them, as to afford an indication of the similar effect that may be expected where it will be more effective. In the House of Commons, too, the alliance that Mr. Edgar had manipulated, and Mr. Blake had accepted, was repudiated by Mr. Mackenzie and Sir R. Cartwright, by the Reform leaders, in fact, who had any self-respect. Many other Reform members also refused to vote with the Rielites, showing either that they spurned such degradation or that they knew their constituents would do so.

It must remain, of course, a doubtful question whether Mr. Edgar had the evil triumph of leading Mr. Blake into this move, or whether throughout he only acted as the tool of the Reform leader. It must be remembered that Mr. Blake put Mr. Edgar as his personal representative into the constituency that had been sold to him like an old Whig pocket borough. Therefore this political lackey might be expected to act as the useful tool of the patron whose mere creature he is. On either supposition Mr. Blake occupies a very degraded position. At London, when he had just returned from the Mother Country, he was either speaking the truth when he asserted that he would not make a political platform of the Regina scaffold, or cement a party with blood, and then he must have been led astray by his own creature; or he must then have been uttering a hypocritical falsehood, conscious all the time that his chosen tool had, on his behalf and his connivance, organized an alliance with crime in return for political support. Mr. Edgar boldly speaks for Toronto Reformers in his message of congratulation to Mr. Prefontaine, the successful rebel candidate, and no doubt he has some right to speak for Mr. Blake, whom he personally represents, though assuredly thousands of Ontario Reformers repudiate him and his works.

Mr. Blake's apparent plan of figuring as a Rielite in Quebec to gain blood stained support, and to ignore Riel as much as possible in Ontario, where it is well remembered how he formerly made political capital out of the murderous rebel by a very different cry, will hardly prove effective. Mr. Blake will find that any gains he may make it Quebec on account of his sympathy for crime and his patronage of the "race and creed" movement, will be more than counterbalanced by the repudiation by honest and loyal Reformers of this attempt to implicate them in the worship of Riel.

HOME RULE SUGGESTIONS AND HISTORIC FACTS.

To the Editor of the Review.

SIR,—The recent lecture on Home Rule for Ireland delivered by the Rev. Dr. Burns, was, it is said, very able and eloquent; evincing the great abilities and Irish warm-heartedness of the distinguished lecturer. The writer had not the pleasure of hearing the lecture, but in perusing it, as reported in the papers, the following thoughts have been suggested as meriting public consideration:—

First, as to the nature of the question itself. One of Ireland's truest friends, and England's greatest tribune, Mr. Bright, said: Home Rule might be fraught with good or evil according to its nature. And though the ally of the Hon. Mr. Gladstone, and for long years his associate and friend, he nevertheless condemned his Home Rule measure as unwise and fraught with the greatest peril. When Dr. Burns lectured in Toronto he conveyed to the public mind the idea that he favored Home Rule as propounded by Mr. Gladstone. But the writer is glad to see that the Home Rule he now advocates is the same as that which Sir John A. Macdonald favors, and Mr. Chamberlain suggested, corresponding to what we enjoy in Canada. "Every people," says Dr. Burns, "have a right to decide how they should be governed." He believed in self government such as we enjoy in Canada. So, it is presumed, we all do. But this is not the Home Rule that Mr. Parnell and his associates desire. They desire such, as will render them independent of British legislation and the British Parliament altogether, and constitute Ireland an independent Irish nation.

When Mr. Chamberlain suggested a Home Rule measure such as we have in this country, it was so opposed by Mr. Gladstone and Mr. Parnell, and was regarded as so fatal to *their measure*, that it became necessary for Mr. Chamberlain to separate from them, which he did and his party. He saw that it was not a question of "Home Rule" merely, but of *such* "*Home Rule*" as involved disunion with the Empire. When this great question loomed into view, of union or disunion with the British nation, then such Liberals as Jno. Bright, Hartington and others, and the Radicals led by Chamberlain, forsook the Gladstonian and Parnell party, and like true patriots, stood for their country and their Queen.

It is a comfort to the writer to think that Dr. Burn's views have so altered since he lectured in Toronto, and that he and the audience to whom he lectured on Wednesday evening, judging from the hearty cheers given for the Queen, are in full unison on this subject now, with Sir Jno A. Macdonald, the Unionists of England and the voice and majority of the British nation. It is grateful to observe the proofs of evolution and development going on, not only in the material world, but in the minds of great men, even of such as the lecturer Dr. Burns.

With respect to the historical statements advanced it has been suggested that they corresponded too much to the party statements made in the political papers of the day. They represent truth, but only partially so. The invasion of Ireland by Henry the second is alluded to as the occasion of her spoliation and the division and confiscation of her lands. What are the real facts? At the time of this invasion Ireland was divided into petty Kingdoms. The kings or chieftians were always quarrelling and involving their people in fratricidal wars and bloodshed and misery. On one of these occasions Dermid, King of Lienster, sought the aid of the English King, and secured the assistance of certain English or Welsh nobles and their troops. He thus triumphed over the opposing Irish princes. Dermid was exultant, and rewarded his English friends with extensive donations of lands. Who was to blame in all this? An impartial judge would say: "The King of Lienster, Dermid, and the other Irish Princes who quarrelled with him." Certainly not the English. Afterwards, when King Henry invaded the country, he confirmed the titles of the English nobles to their lands so acquired. This was neither robbery nor confiscation. But why did King Henry invade the country at all? No doubt partly from ambitious motives. But let it be remembered, he was a Catholic King, and the Irish people at this time were somewhat insubordinate to Romish ecclesiastical authority; and, to bring them into due submission, a bull from the Pope was issued, *authorizing* the King of England to invade and subdue the country. The English people were not to blame for this; nor the Protestants; for this was long before the Reformation. Whatever then may have been the results of the invasion, be it a matter for blame or otherwise, it is an undoubted fact, and which our Catholic friends themselves do not and cannot deny, it was an invasion authorized and sanctioned by Pope Adrian IV.

It will be seen from this that historical facts, as well as politics, have two aspects, and both must be contemplated to form a just judgment. After Dr. Burns, of Hamilton, therefore, the people in Peterborough should now hear Dr. Potts, of Toronto.

Yours respectfully,
AMICUS.

WEATHER NOTES.—July came in with every indication of a hot spell. At 3 p.m. on the 2nd the thermometer rose to 86° in in the shade, on the 3rd to 91°, on the 4th to 94°, on the 5th at 4 p.m. to 98°, being the hottest day of the season, on the 6th at 3 p.m. to 96°, and on the 7th to 88°, after which it kept more comfortable to the 25th, when it again rose to 90°, on the 27th to 90°, on the 28th to 84°, on the 29th to 86°, leaving the average for the month at 63 22-31°. Rain fell on 13 days to the depth of 3 inches, and 57-100 of an inch, being above the average rainfall for July. The severest storm was on the 14th, when in 24 hours it fell the unusual depth of 2 inches and 23-100 of an inch. We had six thunder storms during the month. Wheat and barley was first cut on the 12th and 13th respectively. The following are the different points from which the wind was blowing at sunrise during the month, namely, south-west, 8 days; west, 5 days; south, 2 days; north-east, 4 days; east, 3 days; north 2 days, and north-west 7 days.

PLEASANT ITEMS.—The Humming Bird, Rattler, Sweepstakes, Farmer's Choice, Champion and Erin-go-Bragh are now on the war path, making more barn room available, while the pleasant old farmer and his smiling good wife listen with delight to the old veteran threshers counting over the hundreds of bushels of fine fall wheat and splended turnout of barley. Long may peace and contentment remain.

MECHANICAL EXPANSION.

Every way has been studied out, and carefully tested, to make an arbor or a mandrel a little larger in diameter, and the screw tap and expansion reamer have been very successful in this respect, and if the same features could be applied to the driving pulley of a machine it would make one of the best means for making a variation in speed. It has been applied to the cross-head pin made to expand by internal wedge-key work, that will take up for wear at this end of the connecting rod, but the cross head pin only needs a small portion of an arc on opposite sides to be provided for. Something of this kind may yet be applied to the crank pin, as it is said that this portion of an over hang crank is likely to get out of round and pinch in the boxes if keyed up to take out all the thump and pound. When a plug tap and a fluted reamer is made so as to be expanded, they must be handled with care, as the most of them, when in one solid piece, are none too strong for the average workman, yet they are handy tools, and the reamer needs grinding on centres to keep it anywhere near accuracy. If the expanding mandrel was not subject to such a heavy duty it would be just the thing around a repair shop to handle the different gear wheels that must be provided for; then a wheel blank could be bored out at once just the exact size and held on centres without turning down an arbor for the occasion. A slight degree of enlargement is all that is required to meet the demand of a number of sizes that are used. One trouble has been to make one size do all the work, making a very compact device for a small bore, and a very inaccurate machine for heavy work. It is much better in providing for the enlargement of every appliance to expand a little, and do it well, than to be spreading all out of semblance with no dependence to be placed on anything. If an expansion shaft pulley were to receive some such attention it would be received with welcome, as as it would put an end to soft-wood lagging, and the demand for old belting to test some of the recipes for cementing leather to cast-iron pulleys, or the paper mache arrangement for winding on a lagging in a moment.—*Boston Journal of Commerce.*

IRON THAT WILL NOT RUST.

James S. C. Wells, in *Popular Science Monthly*, for July:—The liability of iron to rust is a great drawback to its use for many purposes, and the practical value of a process which will protect it, at a slight expense, is self-evident. That the process is successful in accomplishing such ends, is no longer a matter of doubt, and at less cost than galvanizing or tinning. The color on cast and wrought iron is a bluish-grey, which to some may be objectionable, but, as the coating takes paint far better than untreated iron, this object is easily overcome, and with the assurance that the paint will remain, and not soon be thrown off as it is generally. For polished work the color is a lustrous blue-black, adding greatly to the beauty of the article treated. This process seems peculiarly will adapted for gas and water pipes. Any one has had occasion to use water which has passed through a new iron pipe, or one that has not been used for some time, knows how full of rust it is, and that only after months of constant use does it become clear again. With pipe coated with the magnetic oxide by the Bower-Barff process, no trouble of the kind can occur. The water runs pure from the first day, and if for any reason the pipes are emptied, and left so, there is no danger of their becoming coated with rust. Another important fact is, that the water coming through one of these rustless pipes is just as pure as when it entered, for the water can dissolve none of the coating of oxide, as it always does with lead or galvanized pipes. It is a well known fact that water running through lead pipes is very apt to contain lead in solution, and the continued use of such water causes lead-poisoning, for, although the amount of lead dissolved may be very small, still it accumulates in the system and finally causes sickness and disease.

Forest Fires in Michigan.

BAY CITY, Mich., Aug. 11.—Despatches to this city announce that terrible forest fires are raging along the entire line of the Michigan central railroad, from Mackinac city to Pinconing, in Montmorency and Otsego counties, standing timber has been destroyed and the fires are prevailing continually. Villages are threatened unless rain comes soon. The conductors report the scene at night both fearful and interesting.

ISHPEMING, Mich., Aug. 11.—The forest fires have done great damage in various parts of the upper peninsula. At Barraga, Choicolay and other points along the Chicago and Northwestern railway, there have been terrible fires. Nearly a million feet of standing pine have been destroyed. Unless rain comes soon there will be no more greater devastation.

Black Birch.

A writer in the Hamilton *Spectator*, who have been visiting the Muskoka Lakes, says:—Lumbering is at present the most important industry in the whole of the Muskoka country, but the lumbermen interest themselves only in the pine. The woods are, however, filled with timber destined to be of very great economic importance to Canada. The black walnut of Ontario is nearly exhausted. When it is gone back birch must take its place. This wood has already attracked the notice of cabinet makers and builders; and it value for furniture and house furnishing in very great, while its beauty is remarkable. Several members of the party secured specimens; and Mr. Hoodless, of Hamilton, who takes great interest in the matter, is making arrangements to show the capabilities of this wood in fine furniture. A fine field is before it.

A TRACT of pine, comprising 24,000,000 feet, situated on the west fork of Chippewa river, Wis. has been sold to the Mississippi Logging Company for $74,000. Another purchase of H. C. Putman was made by Fred Weyerhauser for the Mississippi Logging Company, for $70 000. The same company is reported as buying heavily on the west fork of the Chippewa.

FROM ALL OVER.

Fredericton, N. B., will probably soon have the electric light.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

There were 479,300 pounds of tea on the first C. P. R. tea train.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

There are very encouraging returns from the new gold minds in Nova Scotia.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

The Synod of Ruperts Land has adopted a scheme for superannuation of ministers.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

It is likely that a street railway will soon connect St. John, N. B., with the neighboring city of Portland.

For its soothing and grateful influence on the scalp, and for removing and preventing dandruff, Ayer's Hair Vigor has no equal. It restores faded or gray hair to its original color, stimulates the growth of the hair, and gives it beautiful, glossy, and silken appearance.

The telegraph poles have been placed in position in Victoria, B. C., for the wire connecting the C. P. R. offices there with Montreal.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. Its record of forty years is one of constant triumph over disease.

In Portland, N. B., two men, both of whom claim the right of cutting grain in a certain field, fought with sickles until one of them had the thumb cut of his right hand.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

The prize natural history anecdote comes from Bishop's Mills, where it is said that a hen, when removed from the nest on which she was sitting, was found to have four kittens which she had adopted, and that she goes around the yard with the kittens following her like chickens.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles entirely cured her.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

Christoper B. Lindsay, one of the oldest settlers in Goderich township, died on Tuesday of last week at the great age of 83 years. He was a native of Ireland and a veteran of 1837.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

Near the shore of English Bay, B. C., on a recent Sunday night, a great fir tree was struck by lightning. There was a loud crackling noise, followed by a shower of sparks, and a few moments afterwards the tree—split right down the centre—was a mass of flame and smoke. The fire continued all night and lasted until daybreak, by which time the tree was entirely consumed.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

A huge bear appeared in the Mennonite village of Schanzenfeld recently. There was no powder in the peace-loving village and a messenger was sent to buy some, but the bear wouldn't wait. In the same village a colt was following a wagon, when some wolves made a rush at it and endeavored to separate it from the wagon and drive it into the timber along the creek.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence recommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength, and soundness of constitution will be established. Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Golden Medical Discovery cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating, and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. It promptly cures the severest Coughs.

For Torpid Liver, Biliousness, or "Liver Complaint," Dyspepsia, and Indigestion, it is an unequalled remedy. Sold by druggists.

DR. PIERCE'S PELLETS—Anti Bilious and Cathartic. 25c. a vial, by druggists.

Forewarned

of danger by the condition of your blood, as shown in pimples, blotches, boils, or discolorations of the skin; or by a feeling of languor, induced, perhaps, by inactivity of the stomach, liver, and kidneys, you should take Ayer's Sarsaparilla. It will renew and invigorate your blood, and cause the vital organs to properly perform their functions. If you suffer from

Rheumatism,

or Neuralgia, a few bottles of Ayer's Sarsaparilla will relieve and cure you. Alice Kendall, 218 Tremont st., Boston, Mass., writes: "I have been troubled with Neuralgia, pain in the side, and weakness, and have found greater relief from Ayer's Sarsaparilla than from any other remedy." J. C. Tolman, 336 Merrimack st., Lowell, Mass., writes: "In no other remedy have I ever found such a happy relief from Rheumatism as in

Ayer's Sarsaparilla

Forearmed

with Ayer's Sarsaparilla, there need be no fear of Dyspepsia, Rheumatism, Neuralgia, Salt Rheum, Tetter, Eczema, Catarrh, Liver troubles, or any of the diseases arising from Scrofulous taints in the blood. Geo. Garwood, Big Springs, Ohio, writes: "Ayer's Sarsaparilla has been used in my family for a number of years. I was a constant sufferer from

Dyspepsia,

but Ayer's Sarsaparilla effected a permanent cure. Seven years ago my wife was troubled with Goitre: two bottles of Ayer's Sarsaparilla cured her, and she has never had any return of the disease. I regard this preparation as the best medicine in use for the blood." B. Barnard Wair, 75 Adams st., Lynn, Mass., writes: "For many years I suffered terribly from Indigestion, Dyspepsia, and Scrofula. Almost hopeless, I took Ayer's Sarsaparilla, and am a well man to-day." Be sure and get Ayer's Sarsaparilla, the most thorough and effective blood purifier. The best is the cheapest.

THE CITY AND SUBURBS

The Battery.

The members of the Right Division of the Durham Field Battery will meet to-night for practice in standing gun drill. Those having clothing out are requested to return the same.

Coming on the 25th.

The Oshawa *Vindicator* says:—"An excursion over the Grand Trunk Railway, from Pickering and Whitby to the beautiful city of Peterborough, will take place on Wednesday, August 25th."

Flattering.

Messrs. Hiram Reynolds, manager of the Norwood cheese factory, and Mr. T. Biezard, of the Westwood factory, might feel flattered at having sold their cheese at an eighth higher then any other in the County at Tuesday's market.

Lamp Exploded.

Early this morning the firemen were dragged out of bed to go and inspect a smouldering bed-tick on Elm street. A lamp had exploded in the house of Mr. Alex. Felion, and he in excitement ran and gave the alarm. When the firemen got up near the place the blaze had been put out by liberal application of water. The engine and hose were returned to the station.

JOHN CLARKE & SONS' Celebrated Razors. GEORGE STETHEM.

Provoking.

On Wednesday forenoon Messrs. Taylor & Macdonald placed a very handsome set of bent doors, with walnut frames and plate glass panels, in the entrance to their drug store. Either the glass was not bent evenly or it was put in too tight; for when the heat struck one of the panels in the afternoon it expanded so much as to crack it. The panels are beautifully ornamented with wheel cut foliations.

A Coming Event.

Preparations are extensively and steadily progressing for the grand two day's races to be held at the Peterborough Driving Part on Thursday and Friday, Aug. 26th and 27th. The purses are all large, and the various races will be hotly contested. Superior and fast horses will enter in most of the events, and in some cases the fastest flyers in this section of country will participate.

Painful Accident.

On Wednesday afternoon Master Ernest Cooper, eldest son of Capt. Cooper, went out to a field near his home to catch the horse. While in the act of doing so the horse turned and kicked up its heels struck the boy a severe blow. Ernest was knocked down and lay stunned for a short time. When he recovered consciousness he raised his hand to his head and was surprised to find that his finger entered a gaping cut over his left eye. Dr. Clarke was called and found that the skull had been laid bare, but was not fractured in the least. A little heavier blow might have cost the little fellow his life.

Wedding Bells.

On Wednesday afternoon at two o'clock the Rev. W. C. Bradshaw, Rector of St. Luke's, Ashburnham, was called upon to officiate in a marriage ceremony at the residence of Mr. J. I. Davidson, George street. Mr. Harry Denne, only son of Mr. Henry Denne, and Miss Anna May, third daughter of Mr. Davidson, were the contracting parties. The bride, beautifully attired, was attended by three bridesmaids, Miss Emily Denne, Miss Flora Lech, and Miss Davidson. Mr. John Walker acted as groomsman. There was a large number of wedding guests, among whom were His Worship the Mayor and some of the Councillors who helped their former fellow legislator, the groom's father, to celebrate the event. The presents were profuse in variety and number, handsome and serviceable. Among the presents was a large quantity of silver plate, and a $50 cheque. Mr. and Mrs. Denne left on the evening train to spend the honeymoon on a trip through the west.

The Party.

No person should fail to attend the Garden Party in St. John's Church grounds in aid of the Fire Brigade Band on Thursday evening, Aug. 12th. Admission 10 cents.

Excursion to Toronto.

On the civic holiday, August 19th, a cheap excursion will be run to Toronto per C.P.R. Return tickets, good for two days, $2.00. Train leaves at 8.30 a.m. Tickets at Elliott's, George street.

Musical.

Get your music lessons on Piano, Violin and Organ, from the successful and well known Established Musician, Prof. J. A. Doucet, who is always to be found at D. Smart's Palace Music store.

Out for a Holiday.

Their Worships Mayor Stevenson and Magistrate Dumble went north to the back lakes this morning for a short holiday. The Council has adjourned for three weeks, and it is not likely the Magistrate will be needed till after the circus.

The Warm Weather

Has not in the least interfered with the Benefit Sale now going on at Bon Marche, and the Goods are, consequently, going fast. Do not wait until the choicest bargains are all gone, but come right off and secure your share of them.

Civic Holiday.

Be sure and go to the P. A. A. A. excursion to Orillia and Sturgeon Point on the Civic Holiday, Aug. 19. First class coaches. Special train leaves G. T. R. station at 7.30 a. m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

Personal.

Mr. T. O'Connell and Miss Kitty Dwyer, of Rochester, are visiting friends in Peterborough.

Capt. Smith and Cadet Wood, of the Salvation Army, who have been here for some time leave, town this evening for Lindsay where they will enter upon duty.

Garden Party.

A garden party was given in Mrs. Orde's lawn, Ashburnham, on Tuesday evening. The grounds were beautifully decorated and lighted by chinese lanterns, while flower stands, refreshment stands, etc, additionally ornamented the place. The Fire Brigade Band was present during the evening and discorsed choice music. The proceeds go towards the St. Luke's Church.

KITCHEN Grindstones, 3 sizes on hand, cheap. GEORGE STETHEM.

Burleigh Bridges.

Mr. John E. Belcher, County Engineer, returned home on Wednesday from inspecting the Burleigh bridges. He had been informed that they were in a dangerous state of repair and he therefore paid a personal inspection. He found them badly worn through the heavy traffic incidental to the Trent Valley works. A re-flooring will be necessary.

Repaired.

The Ashburnham bridge has been re-floored recently. The new flooring has been raised in the centre so as to make a gentle watershed on each side. An opening was left on each side so as to admit of the water running off freely and also to facilitate the sweeping off of refuse. Care should be taken to have the refuse which gathers on the flooring regularly swept off. A little trouble in this way will make the floor last years longer.

The Team.

The following are the names of those who are to represent the Riverside Lacrosse Club at Millbrook to-morrow:—

J. Phelan	Goal
D. Rose	Point
W. Walsh	Cover point
T. Mahar	Defence field
J. Begley	do do
W. McAvella	do do
F. Larone	Centre

Runaway.

On Wednesday night at about nine o'clock Messrs. Charlie McClelland and Frank Mercer came down Hunter street in a buggy behind a pair of horses. When at Mercer & Co's clothing store they stopped, preparatory to going to Stoney Lake. The latter noticing something wrong with the horses, they seemingly being hitched up on wrong sides, objected to driving them and they started off to the livery stable to make a change. Mr. McClelland took the lines. But no sooner had they got in the buggy than one of the horses bolted. Mr. Mercer jumped out at the corner of George and Hunter streets, but Mr. McClelland clung to the lines. The pair dashed down George street at a furious pace, wavering to one side of the road and then to the other, sometimes getting dangerously close to the plate glass windows. Mr. McClelland was thrown out, happily without injury, at the crossing below the Grand Central Hotel. The pair turned at Charlotte street and got straddled on a post a few yards down.

ON THEIR NATIVE HEATH.

The Port Hope Crack Nine Subside Somewhat at Lindsay.

By Telephone to the Review.

LINDSAY, Aug. 12.—There was a big attendance at the Agricultural Grounds yesterday to see the return match between the Port Hope and home baseball nines. The people here always turn out well to see a ball match, but were more than ever interested yesterday because they knew that our nine had a little more use for Port Hope than when they played at Port Hope a few days ago with four of their best men off.

The game was called at half-past two o'clock. The names of the nines and their positions are as follows:—

LINDSAY.		PORT HOPE.
Little	Pitcher	Baker
Bates	Catcher	Lombard
McAdams	1 base	Lumston
McCrimmon	2 base	Allen
Kennedy	s s	Edmonds
Preston	3 base	Hanslan
Tully	centre	Lombard
Robinson	l field	Hambly
Bunting	r field	Thompson

Murphy, the Port Hope regular pitcher, umpired, and during the whole game gravitated towards Port Hope. He flopped right over in the seventh innings, when he gave two men dead against Little. After the second innings Little got into shape and the Port Hope people couldn't find him at all. The field play was sharp on both sides. The score is as follows:—

Lindsay	0 1 1 0 1 3 4 0 0—10
Port Hope	0 7 0 0 0 0 3 0 0—10

The Lindsays wanted to play another innings, but the Port Hope pitcher put his coat on, jumped on a bus and said he wouldn't pitch.

LIGHTNING'S FREAKS.

A Chimney Knocked down—Close to the Fluid.

During the storm on Wednesday the lightning played a few funny tricks.

Mr. J. E. Belcher and R. J. Lee were standing in Messrs. Davis & Co's bookstore when a sharp crack was heard like the discharge of a revolver shot. "Hello" said the two in a breath, "a plate glass broken!" They went to the door and looked at the glass but no damage had been done. They then looked at the iron columns, but they were not even scratched. While they were looking a similar sharp report was heard and then a heavy clap of thunder. Neither could account for the strange sound.

At Matthews' pork packing house the men were engaged in dressing hogs while the rain was pouring down. They all stood still, appalled at the loud noise without, like thunder inside the building. It was found that the lightning had struck a blind chimney and knocked about half of it off, scattering the bricks in all directions.

During the furious rain Mrs. Smith, Brock street, stood in the shelter of the verandah watching the heavy rainfall. As she was standing the lightning struck a poplar tree in front of the garden, only a few feet from her, splitting it downward and shattering the limbs.

During the storm a barn belonging to Mr. Richard Coe, in the township of Cavan, was struck by lightening. It was burnt to the ground. A considerable quantity of hay and barley was destroyed. The loss was covered by insurance. A barn on the same site was burned eight years ago from a similar cause.

The London *Free Press* contains a long account of the doings of the Grand Encampment of I. O. O. F. now being held in London. The names of Elias E. Henderson and D. H. Moore appeared in the list of camp representatives.

Open Air Concert.

The Fire Brigade Band will this evening give their regular weekly open air concert in the St. John's Church beautiful grounds. The band will parade George street in full uniform at 8 o'clock and proceed to the grounds. Refreshments will be dispensed by the ladies.

An Acquatic Adventure.

Bob Macauley, an Irishman employed at Dr. Stephenson's veterinary stables in the capacity of groom, went down the river on Wednesday. On the way down with Alex Patterson and a boy he expatiated on his powers as a swimmer, retailing past experiences which bore favorable comparison with Capt. Webb's aquatic feats. After being in the water a little while, however, Bob didn't seem to keep up the reputation he gave himself. He went down twice and was barely reached after when going down again. He was safely landed, recovering in a short time from the effect of imbibing too much water.

Preparations are now complete for the camp at Grindstone Island. The Peterborough-Lindsay contingent will probably leave by the morning train on Tuesday next. The arrangement about tickets is that each one going gets a certificate signed by the Station agent of the railway of his having purchased a one fare ticket to Gananoque, and then on coming home a return ticket is issued at Gananoque at one third fare on presentation of the certificate endorsed by Dr. Neide, the Secretary of the A. C. A. Blank forms of certificate may be obtained at the post office. The canoes will be shipped in a car by themselves on Friday, and will be sent ahead of the party. Canoes and kit are carried free. A grand time is expected at the camp.

REVIEWS.

CANADIAN METHODIST MAGAZINE.—The August number of this magazine contains four illustrated articles and about thirty high class engravings. "Picturesque Canada" describes a visit to all the conferences from Quebec to Goderich, with numerous cuts of Toronto, Ottawa, Montreal, and quaint old Quebec. Describing the ride from Toronto to Montreal, the writer says: "In about three hours ride we reach the thriving town of Peterborough, the charm of whose environment makes one long for a more intimate acquaintance." Another Canadian article describes and portrays the magnificent scenery of the Canadian Pacific Railway through the Rocky Mountains. "Sauntering in England and Scotland" illustrates with pen and pencil the romantic scenery and historic castles of those lands. "Our Indian Empire" is the first of three sumptuously illustrated articles on the cities, temples, palaces, and peoples of that remarkable country. The quaint irish story of "The Schoolhouse on the Hill" reaches a happy conclusion. The intense interest of "Jan Vedder's Wife" approaches its culmination. Dr. Dewart contributes an able philosophical article on the question, "Does Scientific Materialism furnish a satisfactory explanation of the Universe?" The editor gives a second paper reviewing Lecky's Philosophical History of England, on "Methodism and the 18th Century." No question of greater importance will come before the General Conference than that of University Federation. On this subject Dr. Sutherland contributes an able paper, to which the editor replies, presenting also the views of Dr. Dewart and Dr. Nelles on this topic.

Non-Professional Examinations.

Mr. James Coyle Brown, County School Inspector, has returned from Toronto, where he has been engaged, together with seventy-one others, for the past month in examining the papers sent in by candidates for 2nd and 3rd class certificates. There were altogether over five thousand sets of papers, or seventy thousand separate papers, to examine. The results appear in to-day's Toronto papers. The names of the successful ones who wrote here are as follow:—Second Class—M. Matchett, E. Brodie, C. Martin, A. Peters. Third Class—C. Cairns, M. McDonald, L. Rutherford, M. Young, G. Glaspel, J. Breckenridge, A. Fair. Those who wrote at Norwood and succeeded are: Second Class—M. A. Hunter, M. McLaren, A. Nicoll, T. Haythorne, C. Peterson, A. J. Raddow, M. H. Shephard. Third Class—J. L. Mahoney, M. A. Nicholl, M. Rork, A. Young, A. H. Fowlds, G. Rose.

Grossly Exaggerated.

MANITOWANING, Ont., Aug. 11.—The reports telegraphed about fires on Manitoulin Island are grossly exaggerated. Bush fires certainly destroyed a great deal of valuable timber, some fencing and buildings, but to assert that the whole island was in flames, and settlers, bears and deers fleeing to the water together for safety is a gross and ridiculous exaggeration. In the greater portion of the settlements the fires have done no damage whatever.

FACTS

Concerning Dr. Dorenwend's

Great German

Hair Magic!

It is the only prepration in the world that will do what is claimed for it. It has produced luxuriant growths of hair on bald heads where baldness has existed for years. It has restored the color and vigor to numerous crops of gray and faded hair. It has relieved hundreds of persons of disagreeable Dandruff and has saved many when hair was falling, from becoming bald.

☞ Remember these facts and if your hair is falling out and becoming thin, get a bottle at once and save the growth, or you may lose it for ever. Ask your druggist for HAIR MAGIC and take nothing else.

MURRAY CANAL

Notice to Bridge-Builders.

SEALED TENDERS addressed to the undersigned and endorsed "Tenders for Bridges, Murray Canal," will be received at this office until the arrival of the eastern and western mails on FRIDAY, 20th DAY OF AUGUST, next, for the construction of swing bridges at several places on the line of the Murray Canal. Those for the highway are to be a combination of iron and wood and the one for railway purposes to be of mild steel or wrought iron.

Plans, specifications and general conditions can be seen at this office on and after FRIDAY, 6th DAY OF AUGUST, next, where forms of tender can also be obtained.

Parties tendering are expected to have a practical knowledge of the class of works required, and are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures and nature of the occupation of each member of the same. Further, a bank deposit receipt for the sum of $250, for each bridge for which the offer is made, must accompany the tender, which sum shall be forfeited if the party tendering declines to enter into contract at the rates stated in the offer submitted.

The deposit receipt thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,

A. P. BRADLEY,
Secretary.

AIDING THE BAND.

Over $200 Handed Over on the New Suits Account.

At eight o'clock on Thursday evening the Fire Brigade Band, dressed in their new, jaunty suits, marched up George street and across to the St. John's Church grounds, where a garden party was given under the auspices of the ladies of the different churches in the band's behalf. The attendance was large and the number on the grounds was constantly augmented until after nine o'clock, when there were between 800 and 1000 people present. Refreshment stands, etc., dotted the lawn to the east of the church, while the School room was bright and cheery, containing two rows of tables. All were well patronized. By the excellent way in which the ladies managed the affair no one can doubt that they agree with the political economist as to the utility of the division of labor—the George street Methodist Church ladies managed the coffee department; the Charlotte street Church ladies dispensed the lemonade; the St. Peter's Cathedral ladies with the St. John's Church ladies took charge of all those who thirsted for ice cream; and the ladies of the Baptist Church and St. John's Church also went into partnership in helping everybody to fruit who were lovers of fruit. Flowers were sold by the young ladies of the different churches.

During the progress of the most sociable social an impromptu entertainment was given in the school room. Messrs. Butcher and Doucet gave selections on the piano and flute, succeeded by two beautifully rendered solos, "Home, Sweet Home" and "Annie Laurie," by Mrs. Chambers. Mrs. Smith gave a piano solo, "The Courier," by Ritter. The piano used was the Williams' grand.

At ten o'clock the people began to go away and the proprietors of the refreshment stands began to send in their returns. It was found that the sum of $138.00 had been realized, $77.60 of which was taken at the entrance gates.

The ladies of St. Paul's Church took a different way of helping the band. This morning Mr. Miller received the following note:—

"The ladies of the St. Paul's Church desire to show the grateful appreciation of the services so obligingly rendered by the Fire Brigade Band at their entertainments, and beg their acceptance of the enclosed cheque for $70.

"Signed on behalf of the ladies,

"E. WALSH."

Buffalo Bill's Claim.

NEW YORK, August 11.—William F. Cody, better known as "Buffalo Bill," has received word from his lawyer at Cleveland that he is likely to win his suit for the recovery of propety on Euclid Avenue, Cleveland. The land is valued at $15,000,000, and was illegally transferred by a grand uncle of Mr. Cody.

DEMENTED.

The Incohesive Talk of a Man at the Police Station.

This forenoon a middle aged man, medium sized, with a florid face situated under the shade of a broad straw hat, walked hastily into the Police Station and with a voice trembling with indignation called on the officers to go out and arrest some boys who were throwing stones at him while he was harnessing his horse. "Look" he said unloading the big straw hat with one hand, for the other arm was represented but by a stump, "one stone nearly struck me there."

The officers watched him quietly and said nothing. His short cut, stubby black tuft of whiskers seemed to stick out more stiffly from his chin at this treatment. "Come" he cried, "go and arrest them and starve them for three days." And then he apostrophised: "Oh! If I could only arrest one of you!"

After a little time he cooled down and went off into a rhapsody of his being about to be married to a cook. He earnestly solicited all to come to the wedding. He expatiated rapturously at how his household affairs were to be managed; what horses and carriages he was going to buy; what stock he had decided to purchase; and then left off to say that he was about to make some improvements in fixing the streets. He asserted that he could take two feet off the Peterborough streets, lay down cedar block pavements and have all the work done in three weeks. He next soared to ethereal regions and gazed at the roof of the station as if he saw an angel hovering around. He calmly and seriously asserted to the knot about him that he never slept; that he prayed all night.

"What is your name?" enquired Capt. Cooper.

"Clarke," he replied.

"I thought," returned the Chief, "that you told me it was Dendal a day or two ago.

"Oh!" he said, with a knowing wink and a click of his tongue (and here he showed the sagacity of the Chinamas who applied for a contract in New Zealand under the name of Donald McDonald). "Oh! I was peddling jewellery. There's lots of Clarkes around here, and they thought I was a relation and they bought lots of stuff from me." He laughed heartily at the device.

He was quite angry at the suggestion that he should be locked up, stating that he had $100,000 in the bank.

He will likely be persuaded to return to a western town, where he comes from.

A BRIGHTON SENSATION.

An Hotelkeeper and a Lawyer Arrested on Account of Scott Act Outrages.

The Cobourg *World* says that on Monday evening, Aug. 9th, Messrs. Jas. A. Kelly and L. U. C. Titus were arrested at Brighton and taken to Cobourg. Mr. Kelly, who is an hotelkeeper and auctioneer, of general good character, was charged with malicious injury to property in breaking a large plate glass mirror belonging to James G. Robinson. Titus was charged with having set fire to a barn belonging to Thos. I. Brown in March, 1885. The cases came before Mr. Dumble, Police Magistrate, at Cobourg on Tuesday. Mr. Kelly was committed for trial and released on bail. Titus' case was adjourned.

AGAIN VICTORIOUS.

The Canadians Win Two More Cups at Shoeburyness.

SHOEBURYNESS, Aug. 12.—The Canadian Artillery team so-day won the first prize for the best score in shooting with 64 pounders, winning the Londonderry Cup. They also won the Governor-General's cup for shifting ordinance, which was the cup won by the first Conadian team which competed at Shoeburyness. The cup was given by the Governor-General of Canada, and is for dismounting a 64-pounder gun, moving it to another carriage and remounting it thereon. The team also came in fourth in the ten-inch eighteen-ton gun competition, which is a very comprehensive match, all of the volunteer artillery teams of Great Britain being represented. Great excitement was evinced throughout these competitions, and the Canadians were loudly applauded.

MEXICAN PREPARATIONS.

Getting in Readiness Should War be Declared by the United States.

GALVENSTON, Tex., Aug. 12.—A special to the *News* from Eagle Pass says it is very evident that Mexico is getting in readiness should war be declared by the United States. There are now 200 troops stationed at Piedras Negras. It is stated on good authority that 500 more left Sabinas on Tuesday *en route* for Piedras Negras. It is also known that 100 are stationed at the Pass below Guerrero under command of Lyeanor Valdez. One company of United States Cavalry, consisting of fifty men, is stationed at Eagle Pass, and this place is practically defenceless.

CITY OF MEXICO, August 12.—Public sentiment here regarding the Cutting case is still aroused, owing largely to the threats of war from the State of Texas, and there is a general uneasiness lest international troubles may arise from an unauthorized invasion of Mexican soil.

EL PASO, August 12.—The impression is gaining ground in El Paso that the Cutting case will be the subject for diplomatic correspondence for some months to come. Meanwhile the prisoner will not be released.

LONDON, August 12.—The *Standard* says: "It would be a misfortune if the rather foolish Cutting business should end in war. At all costs Mexico should avoid a struggle that could lead only to defeat and disaster, and which would throw her hopelessly back in commercial progress. Even if Mexico is in the right, it would be better for her to suffer wrong than to attempt to vindicate herself at so ruinous a price."

LONDON, Aug. 12.—Credible information places the total number killed during the riots in Belfast at thirty. The number of wounded is enormous, and will probably never be known exactly.

WILL IT BE WAR.

DUBLIN, Aug. 12.—*United Ireland* says Lord Salisbury in his speech last night proclaimed war a l'outrance. The burden of his speech is twenty years of manacles for the Irish. "Very good," says *United Ireland*, "our race is accustomed to resist tyranny. War let it be, in the name of God."

AN ORANGEMAN SPEAKS.

LONDONDERRY, Aug. 12.—Mr. McClintock, Orange Grand Master here, in a speech to-day ridiculed the story that Orangemen originated the riots, and said that when required to fight the leaders would supply their men with better ammunition than brickbats.

CHURCHILL'S HOME RULE.

DUBLIN, Aug. 12.—The *Irish Times* (Conservative) states that it is reliably informed that Lord Randolph Churchill is engaged in drafting a bill intended to solve the Irish problem. The measure provides for universal local self-government throughout Great Britain and Ireland, giving Ireland, England, Scotland and Wales control each of its own immediate affairs, leaving the supreme power of the Imperial Parliament undiminished. The bill is described as a measure which opens the door to Imperial Federation. The full text of the bill, the *Irish Times* says, will not be completed before next February, "but," adds the paper, "so far as it has gone it has been submitted to the Marquis of Salisbury, the Marquis of Hartington and others, and is broad enough to satisfy all moderate Irishmen."

RIFLES SEIZED IN KERRY.

DUBLIN, Aug. 12.—While the police of towns in the vicinity of Killorgan were engaged in keeping the peace at the fair in that town yesterday, a gang of men scoured the Mid-Kerry country for arms. They were successful in their search, and made away with a large number of weapons, including rifles. They also seized a large quantity of ammunition.

CRISIS IN THE IRON TRADE.

DUSSELDORF, Aug. 12.—The triennial conference of German mine owners will meet on September 1st, and last until the 5th. The meeting will be of usual importance, in view of the crisis in the iron trade. The *Journal Stahl and Eisen*, discussing English rivalry to home producers, says it is a competition involving life or death, and appeals to German railway companies to not except English tenders for metal to the prejudice of German industry.

THE PREMIER IN VICTORIA.

Welcome from the Workingmen of British Columbia.

VICTORIA, B. C., Aug. 20, *via* WINNIPEG, Aug. 11.—A delegation of thirty-five representative workingmen waited upon Sir John this morning on behalf of the workingmen of British Columbia, and presented resolutions passed at a public meeting welcoming him to the province and giving him assurance of their confidence and their appreciation of his great ability and the value of the great services he has renderdd to Canada, and especially to British Columbia. Sir John in reply referred to the legislation of his Government on behalf of the workingmen of Canada, instancing the Act permitting the incorporation of trades unions, the Act relating to convict labor in Canada, and the Act to prevent the importation of the products of United States convict labor. He also explained the reasons why it would not be wise to prevent Chinese entering Canada. After considerable discussion on various points the deputation withdrew, greatly pleased with their cordial reception and the courteous and frank explanations made by the Premier.

The last rail on the Vancouver Island railway was laid to-day. Sir John will drive the last spikes before leaving the island, which he proposes to do next Friday, going to Nanaimo, thence to New Westminster, arriving in Winnipeg the end of next week, —*Mail*.

Caning Ghouls.

OTTAWA, Aug. 10.—A respective and reliable resident in the vicinity of the Catholic cemetery on the Montreal road, tells the following shocking story this morning. He alleges that for some time past a number of dogs have been scratching at the graves in which paupers are buried in the cemetery, and that they succeeded in uncovering some recently buried bodies, which they have gnawed and dragged to pieces over the adjacent grounds. He declares that he has just had to shoot a dog belonging to himself which dragged into his premises the lower half of a human leg with the flesh on all but the foot completely gnawed away. He consider that the guardians of the cemetety are to blame for the fearful occurrence. An immediate investigation will be held.

A Mystery Explained.

THREE RIVERS, Que., August 12.—About the end of last March a young lady of this city disappeared suddenly and nothing more was heard of her until yesterday afternoon, when her body was identified. Coroner Badeaux was notified that a body had been found in the St. Lawrence opposite the Cape church. A jury was empanelled and viewed the body, which was readily identified as that of Miss Lambert. The verdict was, "Found drowned." The young lady was well connected and highly esteemed by all who knew her.

The Daily Review.

FRIDAY, AUGUST 13, 1886.

IN one of its tirades against the Orange Order the *Globe*, in its issue of Tuesday, says "every member of the Grand Lodge, we believe, is a public official drawing a salary from the Dominion treasury." Oh, no; not all of them! One member of the Grand Lodge, at any rate, is a public official drawing a salary from the Provincial treasury. The *Globe* headed its article, "Professional Traders in Orangeism." Does it include the members of the Order who hold offices under the Provincial Government in that category?

IMMIGRATION.

IN a recent issue the *Globe* published two editorial articles on immigration. The first article was based on a denunciation of the statement in the report of the Dominion Minister of Agriculture that "the demand for farm laborers and domestic servants still remained unabated." If the *Globe* really believes that this statement is not correct, and that there is a surplus of farm laborers and domestic servants, it should turn its batteries upon its friends, the Mowat Administration. In the last report of the Hon. A. S. Hardy, the Ontario Commissioner of Immigration, that gentleman states:—

"From the beginning of August till the end of October there was a steady demand for farm laborers, especially for single men. *More than double the number* who arrived could easily have obtained employment by the year at fair wages."

As to female domestic servants, Mr. Hardy says in the same report:—

"During the last immigration season only a few female domestic servants came to Ontario. * * * The demand for this class is so great that the few arriving at Quebec are employed in various parts of the lower province. Wages of experienced servants were higher in 1885 than in the preceeding year. Good general servants can readily find employment at from $8 to $10 per month."

It will be seen, therefore, that the Reform organ is ready to injure one Government for doing the same as another which receives its approval. In Mr. Hardy's report other statements of a similar character are published to the world. On page 18, for instance, it is stated that "there has been an active demand for all kinds of agricultural and general laborers which it was impossible to supply, and the demand for female domestic servants, both for the city and country was largely in excess of the arrivals." And again on the same page:—"Common *and skilled* laborers have been in good demand during the past year, contractors engaged on public works being compelled to import hands from the States to complete their contracts." Such are the statements that the Ontario Government publishes, but the *Globe* will have no word of condemnation for them.

In the second article the *Globe* publishes a statement, taken from another paper, which it states is "from the estimates passed at the last meeting of the Dominion Parliament" showing "the expenditure in immigration during the current year." When figures are given by a Reform paper it is generally good policy not to take them as correct without examination, and this case is no exception. The total given is $100,100 in excess of the sum voted in the estimates for the current year. After giving these false figures, the article concludes with this sentence:—

"Let us keep what population we already have, rather than bring in others to drive a large portion of what is here away to the States."

Yet the journal which professes to hold such opinions supports the Mowat Government, which appropriated $18,000 for immigration purposes at the last session of the Ontario Legislature, and maintains agencies in Europe for the purpose of inducing immigrants to come to Ontario. Mr. Meredith and 24 supporters voted against this appropriation, but it was carried by Mr. Mowat's majority.

The Dominion has large tracts of land unsettled, and it has expended large sums in preparing these for settlement. Some expenditure is necessary to secure settlers, unless the Dominion is willing to allow the energetic efforts of other countries to secure all the people who wish to remove from the thickly populated countries of Europe. If the *Globe* thinks the Dominion spends too much money in this way, it is not consistent in supporting Mr. Mowat in appropriating additional moneys for the same purpose. Its opposition to the course of the Dominion Government, in view of the facts, appears to be hypocritical.

LOSS OF LIFE BY FOREST FIRES.

MILWAUKEE, Aug. 11.—Though the forests in the northern tier of counties in this state are still ablaze, and are likely to remain on fire until rains quench the flames, the danger to the villages and towns is over unless heavy gales should sweep down upon them. While not over a dozen cases of human cremation are reported, it is believed that many backwoods' men and families remote from settlement cannot possibly have escaped. The fatality to live stock has been terrible. Hundreds of charred bodies of cattle lie on the blackened track of the devasting cyclone of fire. It is estimated that in Calumet, Clark, Marathon and a few adjacent counties 500 families are rendered homeless and and will suffer unless immediate relief is sent them. Many of these people had narrow escapes from death, having hidden in wells or submerged themselves up to their necks in streams with wet blankets covering their heads until the fire passed. In some places the fire swooped down so suddenly upon the people that they barely had time to take this method of safety. In other places the roar of the flames was heard for miles, and the terror-stricken people fleed madly before the flames to neighboring villages and towns. The loss cannot even be estimated. Hundreds of homes, dozens of saw mills, lumber camps and millions of feet of lumber are in ashes. Acres upon acres of ripening grain were laid waste.

To-night's advices are that the fires are abating considerably by running into clearings and because the wind has died out. However, fears are entertained of a repetition should high winds prevail again before rain appears Along the valley division of the Chicago, Milwaukee & St Paul railway, heavy rain to-day extinguished all the flames, saving the largest cranberry marshes in that section. To-day the suffocating clouds of smoke from the burning forests were borne by north winds as far south as Milwaukee. On the lakes near Green Bay, Sturgeon Bay, and even further south, the smoke clouds are so dense that the sun is obscured, and vessels experience extreme difficulty in navigating, it being impossible to see 100 feet ahead at midday.

CIRCULATION IN A STEAM BOILER.

The great influence which the circulation of the water in a steam boiler, when it is in operation, exercises upon its efficiency, its tendency to foul up, and its liability to various annoying defects, does not seem to be fully understood o appreciated by many to whom it is of the greatest importance. Were it not for the fact that heat applied to the under side of a body of water is communicated to it, thereby expanding it and causing it to rise through the colder water above and producing a circulation, it would be practically impossible to generate steam in the ordinary manner. The efficiency of any given area of heating surface depends almost wholly upon the perfection of the circulation of the water in contact with it This will probably be better appreciated when it is stated that the experiment has been performed of immersing a cubical metalic box in water and heating it from the inside. The horizontal upper surface of the box generated more than twice as much steam per square foot of surface as the perpendicular sides while the bottom or lower side generated none at all. This was due to the fact that the steam bubbles or vesicles formed in contact with the upper surface, had nothing to interfere with their prompt liberation from that surface, the heated water was equally free to rise its place being immediately filled with a fresh supply of colder water thus forming a rapid circulation; the operation went on with greater difficulty in contact with the vertical surfaces, while with the lower horizontal surface, the steam as formed would have a tendency to hug the surface, and prevent the contact of water with it, thus effectually preventing any circulation. When these facts are appreciated it will be readily seen how essential it is to the proper performance of a boiler that the water spaces should be large and as free from obstruction as possible, in order that the water may have opportunity to circulate rapidly, and the steam when formed be disengaged as freely and quietly as possible.

Comparatively few years ago, it was the universal practice to crowd as many tubes into a horizontal boiler as could be gotten into it They were set in zig zag rows, to enable the greatest number to be put into a given space, on the theory that the more heating surface the more steam the boiler would make, and the natural consequence was the spaces between tubes and shells, soon became filled up with scale and sediment, the result being overheated plates, and leaky seams and tubes, while the steaming capacity of the boiler was greatly reduced Of late years, however, the fact is beginning to be appreciated that tube surface is not heating surface, unless it has plenty of room to act as such, and consequently the number put into boilers of any given size is less; they are arranged in a more rational manner and as a natural result the boiler steams better, and is more easily kept clean, less repairs are necessary, and the life of the boiler is greatly prolonged.—*The Locomotive.*

CAMPBELLFORD.

TON AND A HALF OF HONEY.—Mr. E. R. Buller, bee-keeper, who resides about two miles from Campbellford, informs us that his bees will return him this year 3,000 lbs. of honey. The greater portion of this was gathered within three weeks. Its sale will realize something over $300. Mr. Buller has 86 hives. He says if the season had not been so dry the product would have been 5,000 pounds. Who will say there is no money in bee-keeping?—*Herald.*

DUNN'S BAKING POWDER

THE COOK'S BEST FRIEND

THE LUMBER TRADE.

A *Free Press* representative visited the different mills on the Chaudiere this forenoon to see how the lumber trade was progressing. After conversing with the different lumbermen and managers, it was ascertained that the business was more active this year than last season, and prices were on the whole better. For the past few days there was a lull in the trade and sales were few. Little or nothing has been done in square timber, but a few sales of lumber were effected. An effort is being made to raise the export duty from $2, which it is at present, to $3 per thousand feet. It will be remembered that last session the duty was raised $1 which made it $2, and therefore equal to the duty imposed by the United States on sawn lumber entering there. Canadian lumbermen have discovered that $2 on logs is not sufficient to meet the $2 imposed by the United States on lumbe. It is for this reason, a few thousand feet are never missed in logs, while the lumber can be exactly measured. In this way the correct number of feet is taken as regards lumber while it is the very reverse respecting sawn lumber. Our lumbermen therefore think that it will tak $3 export duty per thousand feet on logs to meet the imposition of $2 per thousand feet import duty by the Americans on sawn lumber. On the Georgian Bay there are quite a number of American lumbermen operating there. They take their logs across to the States by paying the export duty of $2, and in this way take the work of sawing it away from Canada. The $2 American import duty on sawn lumber cannot check this. The Canadian lumbermen think that the $3 export duty on logs will meet the whole trouble. At all events representations to the Government will be made to this effect.

All the mills are working full time. Messrs Bronson & Co. have opened up a new limit on the Desmoine, and operations will commence there this winter. Their yard was entirely cleared out this summer, and now they have nothing to dispose of save this summer's cut. Taking it all in all the lumbermen are particularly happy over the result of trade so far.—*Ottawa Free Press.*

On The Rise.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallible remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

A proposition to run the street cars by electricity is being favorably discussed in St. Thomas.

A Fortunate Escape.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

The St. Catharines City Council has selected the site for a monument to the deceased soldier Watson.

Mr. John Wade, who was born in Cornwall, England, in 1798, died at Port Granby, Ont., on Saturday. He was a man of genial, kindly disposition.

A Wise Precaution.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

The proprietor of a Vancouver, B.C., hotel discharged a Chinese cook out of respect to the opinion of several citizens, and will employ no more Monogolians.

In Bad Humor.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Chinamen are rapidly buying up the gold claims at Lambe Creek, B. C. They employ only their own countrymen, and it is feared before the season is over there will be trouble between them and the white miners.

The first total abstinence pledge offered for signature in Ontario was issued in 1830, in Prince Edward County, by Francis Davis, who recently died at Uxbridge. The 25 persons who signed it were publicly denounced by the minister on the circuit.

At Summerside, P.E.I., a young man, who was the worse for liquor, was annoying a young woman who was taking part in the Salvation Army services. As he refused to desist, a tall powerful woman, also a member of the Army, threw her left hand round his neck, and with her right fist beat him until the policemen took him away, amid the cheers of the people.

	This week.	Last week.
Wheat	34,656,798	32,326,440
Corn	9,247,243	9,317,688
Oats	1,754,796	2,847,243

Montreal Butter and Cheese.

Montreal Gazette.

There has been no special movement in this market, which has remained quiet and unchanged. About the ordinary amount of local business has been transacted, but the attitude of exporters does not indicate any expansion of the export movement. Fine Townships has sold at 14½c and selected Western at 13c. Fancy creamery in New York is quoted at 21c@22c.

The cable has moved up an additional 6d to 42s, in response to the higher prices cabled from this side; but whether it will follow the advance proportionately is an open question. So far as the situation on this side is concerned, it is strong, with an upward tendency to values. Over ½c advance was paid in this market to-day, the sales including a line of 1,000 boxes at a small fraction under 8½c, which, as 8¼c has been freely paid in the country, should represent the top of the market here.

Live Stock.

Toronto Mail.

The chief feature in the trade this week has been the unusually heavy run of cattle. There have also been ample supplies of small stock. In all there were forty-six loads on the market yesterday. There are not many changes to note in the range of quotations, although the prices of cattle and sheep have averaged lower. It looks as if liberal receipts of cattle may be expected from now on. Last year the increase in the supplies began about August 19, about September 29 in 1884, and October 13 in 1883. Small stock has ruled steady since last report.

This week's cables from the British markets show that at Liverpool cattle ruled a shade lower than last week, while in London the market was steady at last week's rates, but the demand was weak. From London prime American steers are cabled at 12½c. At Liverpool on Monday was glutted with Irish cattle, best Canadian cattle sold at 12c; medium and inferior grades were almost unsaleable. There was a heavy supply of sheep, but the market ruled steady; best qualities sold at 12c to 13c; medium at 10½c to 11¼c, and inferior and rams at 8c to 10c.

ADVERTISE IN THE DAILY EVENING REVIEW. IT PAYS.

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

NEW FALL GOODS

that will bear a good square look, both for prices and material.

FRIDAY, AUGUST 13, 1886.

THE CITY AND SUBURBS

In the Gardens.

The Fire Brigade Band will give an open air concert in the Horticultural Gardens this evening.

The Gospel Army.

Capt. Buell, of Brockville, will take part in the Gospel Army meeting this evening. He is said to be one of the best officers in the Army.

Colossal Combination.

The union of the Wild West Show with Forepaugh's Great Circus, Menagerie and Hippodrome makes it the most stupendous amusement confederation ever presented to the public. It comes Aug. 21st.

4 Paws Buglers.

With their special car, will reach here to-morrow, and blow a blast for Forepaugh in town and country. Mr. Fred. Lawrence, the veteran press agent for the show, is at the Grand Central, preparing for the advent of the exhibition.

What Does it Mean?

One would be apt to ask some such question as the above when passing the Bon Marche store, there is such a constant stream of buyers going in and out, all smiling and apparently in the best of humor. It is the bargains they are getting that causes so much joy.

Civic Holiday.

Be sure and go to the P. A. A. excursion to Orillia and Sturgeon Point on the Civic Holiday, Aug. 19. First class coaches. Special train leaves G. T. R. station at 7.30 a. m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

A Reminder.

So that the public may the better be able to keep it in memory, they are once more reminded that the grand two days' races of the Peterborough Driving Park Association will be held on Thursday and Friday, August 26th and 27th, when there will be an opportunity of witnessing some of the best horse races ever held in Canada. Large purses, numerous entries, fast horses and fair, square dealing.

The Eleven.

The names of the eleven of the Peterborough cricketers who are to meet the Campbellford men are as follow:— W. A. Strathy, S. Ray, H. Ray, T. Baker, J. Stirling, C. J. Logan, J. E. Hammond, Max Hamilton, R. B. Rogers, W. Salisbury, and J. H. Long. The match is creating considerable interest. There will likely be a crowd out to see the boomerang throwers, and the eleven whom the boomerang throwers say they can defeat.

Hose, Couplings, Nozzles, Sprinklers, &c. at reduced prices for rest of 1886. GEORGE STETHEM.

Creditable.

At the recent examinations in Toronto Mr. John Stirling, head master of the South Ward School, took a First A certificate. Mr. Stirling got up the work alone and put in study while, at the same time, he discharged the duties of his position, and it is certainly a credit to him that, under these circumstances, he stood at almost the very head of the list. Mr. Geo. B. Marshall, who studied at the Collegiate Institute here, took a creditable stand in the First C.

Peterborough's Representative.

Mr. John O'Meara has been out of town for some time and will not be home for some days yet. He attended the annual convention of the Catholic Mutual Benefit Association in Stratford on the 10th and 11th of August as a delegate from the Peterborough branch. His friends will be pleased to learn of the distinction conceded to him by his being elected Vice-President of the C.M.B.A. and representative to the Supreme Convention of the United States to be held next week. Mr. O'Meara will represent the Peterborough branch of the Irish National League at the National Convention to b held in Chicago on August 18th and 19th.

TARRED and Plain Building Paper, only 2c. lb. GEORGE STETHEM.

The Temperature.

The following are the readings of the thermometer to-day at the hours mentioned:— 8 o'clock, 65; 1 o'clock, 78; 3 o'clock, 83.

Slightly Better.

The friends of Mr. Robert McNeil, who is down with typhoid fever at Ottawa, will be pleased to learn that there is a change in his condition for the better.

Only Once in a Lifetime

Is the opportunity afforded of seeing such a great combination, as Forepaugh's colossal circus in three rings, Roman hippodrome, mammoth menagerie and exciting wild west and frontier show, all combined.

That Acquatic Adventure.

Mr. Bob Macauley, who was reported yesterday to have been nearly drowned, says that his narrow escape was caused by his getting into a hole and having cramps while there. His failure to get to shore under these circumstances had nothing to do with his abilities as a swimmer.

RICHMOND Star and Easy Lawn Mowers, at cost for balance of 1886. GEO. STETHEM

The Cruise Over Again.

The members of the "Dot" cruising party who came from Peterborough are again settled down to work, but to-day they are doing the cruise over again in imagination. Mr. Little, formerly in the photograph business here, was one of the party, and along the route took views of choice scenery. The views have been finished and mounted, and each member of the party have been furnished with a set. Mr. Millar has taken the Dot to Keene, and she will be here in a day or two.

Some Sporting Items.

In its account of the recent lacrosse match between the Riversides and Norwoods, the *Register* says:—"The Riversides are no slouches, but with our regular team we can make it a great deal more interesting for them than we did last Friday."

Hanlan smashed the record on a three mile course at Worcester, Mass., on Thursday, his time being 10m., 18s. Some said the time was 19m., 24s., but in either the record was lowered.

The Oswegos defeated to Torontos by 5 to 2 at Oswego on Thursday.

Mr. Langford's Little Town.

Mr. W. Langford, builder and contractor, while depriving juvenine baseball clubs of a practice ground, has furnished comfortable homes for quite a number of people. The old vacant common at the east of George street, just north of Antrim street, has been almost completely covered with with houses. Last year Mr. Langford built nine in this locality and this year eight, making in all seventeen houses. The last three built, or building, face George street. Though small they are complete houses as they stand and will rent on easy terms. After a time they may be used as kitchens and dining rooms for more pretentious residences.

Turf Notes.

T. J. Vail, of Hartford, Secretary of the American Trotting Association, has written to the Secretary of the Peterborough Driving Park Association, asking for copies of the premium list for speed classes and the published conditions of the meet.

Phillis, the fast trotting mare of Rochester, will participate in the races here on August 26th and 27th.

Harry B., formerly owned by Mr. Harry Reid, Secretary of the Midland Railway, has lowered his record to 2.36¼. He will trot here at the midsummer meet.

Billy B., Scott Act, Lady McDonald and Maggie Roach will constitute part of the field in the running race at the midsummer meet, and already Maud Bartlett, Tariff, Lady Tariff, Fanny B. and Ben Morrell have entered in the different trotting classes.

The Secretary of the Association has sent press badges to the newspapers of the Midland District.

Personal.

Messrs. J. E. Hawkins, Harry Yeoman and M. Cottingham have gone to the back lakes for a camp out.

Mrs. Chambers, now of Montreal, is in town on a short visit. Some time ago a very flattering offer was made to her in behalf of one of the churches to take the position of leading soprano. She communicated with the officers of the Charlotte Street Methodist Church, with whom she was under contract, and they, of course, not wishing to stand in the way of her advancement, freed her from all engagements. Though regretting to lose Mrs. Chambers, her very many friends will rejoice at her upward step.

The Campbellford *News* says:—"A challenge was on Monday received by our cricketers to play the medical students of Toronto at Peterborough. The challenge was accepted, and the match will be played on Friday, Sept. 3rd."

Messrs. D. W. Dumble, Geo. A. Cox, Mayor Stevenson, and Mr. Beach, of the *Mail*, returned to town this morning from a trip to Burleigh. They were much struck with the magnitude of the Trent Valley works there.

RECEIVED this week a job lot of ladies fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

TO MEET IN PETERBOROUGH.

The Grand Encampment and Grand Lodge of I. O. O. F. Decide to do so.

On Thursday afternoon Mayor Stevenson received a telegram from Mr. E. E. Henderson, stating that the Grand Lodge of I. O. O. F. had decided by a vote to hold the next annual session in Peterborough. As the Grand Encampment resolved to hold their meeting at the same place as the Grand Lodge, both bodies will meet here. This is an honor done to Peterborough which its citizens are certain to appreciate. At the time of choosing the place for the next meeting, fully a dozen towns and cities were proposed, but it was carried that Peterborough was the place.

Last year the High Court of Foresters met here, and the kindly impressions they carried away has done much to advertise Peterborough, and give the Foresters here a good name for hospitality. Having another large meeting here like that of the Grand Encampment and Grand Lodge of I. O. O. F., will certainly do the town good, both directly and indirectly.

The Grand Officers elected for the ensuing year are:—

Grand Master, John Ormsby Donogh, Toronto; Deputy Grand Master, J. R. Reid, Brockville; Grand Warden, F. R. Robinson, London; Grand Secretary, J. B. King, Toronto (re-elected); Grand Treasurer, Wm. Badenach, Toronto (re-elected); representative to Sovereign Grand Lodge, Wm. MacDiarmid, P. G. M.; Grand Auditor, Charles Packert, Stratford (re-elected.)

Ladies' Jerseys.

A full assortment of the newest styles in plain and embroidered Ladies' Jerseys at R. FAIR'S.

It May be Remarked.

—That some moonlighters are talking of having a sing on the lake this evening.

—That the Fire Brigade Band will likely have come to the conclusion that there is really more gratitude in people than they thought.

—That two Salvation Army officers bid adieu to Peterborough at the station last evening amid great eclat.

One of the Most Interesting.

The *Builder*, a London, Eng., journal, thus refers to one of the machines in the exhibit of the Wm. Hamilton Manufacturing Company at the Colonial Exhibition:—"The Hamilton Manufacturing Company, of Peterborough, Ont., have in motion one of Covel's Patent Automatic Saw-sharpening machines for circular saws and mill webs. The sharpening is done by an emery wheel in the usual way, but when the saw is once fixed it requires no further attention till completed. An additional advantage in this machine is that the depth of gullet and sharpening of each tooth is absolutely the same—a result quite unattainable in machines guided by hand. Any desired depth of gullet or rake on tooth can be obtained at will. This machine can be used for sharpening large band-saw blades, and, taken altogether, it must be pronounced one of the most interesting machines in the exhibition."

POLICE COURT

ASSAULT.

SATURDAY, Aug. 14.—Patrick McNamara, in behalf of his son John, charged Patrick J. McNamara with having committed an assault on the boy on Thursday.

The defendant pleaded not guilty.

The alleged assault grew out of a scuffle which took place between the son of Patrick McNamara and the son of Patrick J. McNamara.

JOHN, the son of Patrick, said that after the scuffle Mr. Patrick J. McNamara came up and hit him with a lacrosse stick. John said that he had been provoked by the little fellow, who spurted tobacco juice at him.

PATRICK J. MCNAMARA said that he saw his son being thrown down by the older boy and went up to them intending to give both of them a little chastisement. But his own boy got out of sight too quick, so that he visited Mr. Patrick McNamara's boy with a few taps, just.

The COURT—Well, but Mr. McNamara, what does an Irishman call a tap, just?

The DEFENDANT—It's a kind of a light stroke, your Honor.

The MAGISTRATE tried to effect an amicable settlement by suggesting that both boys and parents shake hands all round, but the father of the boy who was assaulted averred that he was not going to allow any man to punish his children. If the defendant had given it to both boys alike he would not have said a word.

The MAGISTRATE fined the defendant $2 without costs.

Some Sporting Items.

Campbellford plays cricket with Peterborough here on Monday.

A rifle match between Orillia and Peterborough is talked of.

Mr. J. J. Sheehy is in possession of a cut of the Irish lacrosse team.

The Riversides looked well in their handsome new uniforms, worn for the first time on Friday. The uniform consists of navy blue knickerbockers and navy blue and cardinal stripe jerseys, which button at the shoulders.

It is understood that no attempt will be made to re-organize the Peterborough Lacrosse Club this season, as the season is too far advanced. Next year, however, lacrosse is going to boom.

The Irish lacrosse team was given a hearty reception at Montreal on Friday. They were, however, beaten by a Canadian team by 6 goals to none.

Toronto defeated Oswego at baseball, at Oswego on Friday, by 4 to 0.

Peterborough to the Front.

Great praise is due to representatives Henderson and Bell of Otonabee Lodge, No 13, I. O. O. F,. for their efforts in bringing the Grand Lodge to Peterborough. The following communication has been received by Mr. T. Workman, N. G. of Otonabee Lodge, from Mr. E. E. Henderson:—

"The Grand Lodge by a large majority decided to hold the next annual session in Peterborough. I moved the resolution. We beat Stratford, St. Catharines, Toronto, Owen Sound, &c. Dr. Bell supported the motion very strong.

"Yours,
"E. E. H."

Representative D. H. Moore, of Mount Hebron Encampment, Peterborough, has been elected Grand Junior Warden of the Grand Encampment.

An Improvement.

Mr. Geo. A. Cox has improved his residence by adding a building 34x42, to be used as a kitchen. It is two storeys high, with a basement. The building was erected under the supervision of Mr. James McLennan, the eavestroughing was done by Messrs. Breeze & Bain, Mr. Geo. Bolton took out a Spence boiler and substituted one of his own, and Messrs. Bennet & Wright, Toronto did the plumbing. Mr. Watson did the painting. Another improvement to Mr. Cox's residence will be the addition of a conservatory 20 feet square to the south of the main building.

Little Poplar Shot.

A dispatch from Maple Creek, N. W. T., says:—"Two white men, just in from Fort Assiniboine, report that the Indian chief, Little Poplar, was shot and killed by a half-breed two miles from that post on Tuesday last. No particulars have been received further than that the breed was looking for stolen horses when the dispute occured. The killing seems to heve been done in self-defence, as Poplar fired seven shots with a revolver at the breed, Ward, who replied with three shots from his Winchester rifle, all taking effect."

The Chicago Murder Mystery.

CHICAGO, Ill., August 12.—The woman whose body was found near the north-western city limits on Tuesday morning has been identified as that of Mrs. Mary Strobel, wife of a Bohemian saloon keeper. It has been ascertained that the man who killed her was one Anton Pekesky, a Bohemian, who shot himself dead in Lincoln Park yesterday morning. Mathias Strobel, the husband of the woman, testified at the inquest to-day that his wife tended bar for him, and was friendly to young Pekesky, but as far as he knew there was no criminal intimacy. The jury returned a verdict to the effect that Mrs. Strobel died from wounds inflicted by Pekesky.

FINE SCOTCH GINGHAMS, regular price 25c., reduced to 12½c. per yard at FAIR'S.

CANADA'S NEW CRUISER.

Capt. McIlhenny of the Marine Department Takes Charge of Her.

NEW YORK, Aug. 12.—John Roach's steam yacht Yosemite, which was chartered by Washington E. Connor for the cruise of the American Yacht Club and a subsequent cruise in Eastern waters, arrived in this port Tuesday morning, and later in the day was formally transferred to the Canadian Government. The transfer, like the sale, was effected through Field & Young, the British consul-general at this port acting for the Canadian Government. Neither the consul-general nor Field & Young would give any particulars of the transfer, but it is reported that the price paid for the Yosemite was $50,000.

She was built by John Roach & Son in 1880, for Jay Gould's former broker, William Belden, and the price that Mr. Belden was to pay was over $100,000. Mr. Belden kept her for something more than a year without paying for her, then returned her to John Roach. She was chartered during the latter part of 1883 and the whole of 1884 to Samuel J. Tilden. Captain McIlhenny, of the Marine Department, who is to take the Yosemite to Canada, has been stopping at the Astor House for two days, and he has studiously avoided reporters. It has not been announced when the Yosemite will sail for Canadian waters.

A MUTINY AT SEA.

The Captain Shoots Three Mutineers but is Imprisoned.

PORTLAND, Me., Aug. 12.—The crew of the schooner Conquest, of New London, say that when on the Grand Banks some four weeks ago they met men from other vessels of whom they obtained the particulars of the tragedy that up to this had remained a mystery. A very little three-masted schooner arrived at the banks and anchored near a French schooner, a sort of ocean saloon. The men of the three-master boarded this schooner and returned not only drunk, but also well supplied with liquor. The captain tried to enforce discipline, but the men were mutinous, and finally not only refused to do duty, but made a rush on the captain, who shot the ring leader dead. This for a moment confused the crew, but they renewed the assault, and the captain fired two more shots while retreating to his cabin. The crew then battened down the hatches, holding the captain a prisoner. Then they headed the vessel shoreward, saying in reply to a question from one of the line boats of the James Armstrong, "The old man's crazy and we're going ashore." A letter received here from one of the crew of a "banker" confirms this report and adds that after the mutineers got under way they threw three bodies overboard, and that at the moment the captain retreated to his cabin a cry of "burn the rat in his hole" was raised. At the time when the schooner was headed for the shore all the crew were drunk and the captain was a prisoner, and it is therefore believed that she went ashore at Cape Race.

THE MEXICAN UNPLEASANTNESS.

No Peace at the Expense of the National Honor.

NEW YORK, August 13.—The *Herald* publishes the following from Governor Ireland, of Texas: "It may be conceded, if necessary, that Cutting has been legally convicted under Mexican law, but the people and Government of the United States can never submit to such a rule of law. Every editor and every other person who writes or prints matter in the United States, obnoxious to the views of the Mexican Courts, can at any time, when found in Mexico, be arrested and punished, as Cutting has been. The person of Cutting is not involved. Surely our Government has not made an idle demand. No one wants war, and I trust no one wants peace at the expense of the national honor and the rights of American citizens. The only way to avoid war is to be ready for it, and show our willingness to accept it if it must be. Outrages have gone far enough, and have been numerous enough."

A special from the City of Mexico says: "Despatches have been received from Washington, indicating that Secretary Bayard will not press his demand for the release of Cutting until the Chihuahua Supreme Court gives its decision. This news causes everybody to take a cheerful view of the situation."

PHILADELPHIA, Aug. 13.—A Washington special to the *Times* says: The secretary of the navy and the chief of the bureaus are in constant conference with regard to the designs and furthering of the work of building the new ships ordered by Congress, and upon the present condition of the navy. With reference to possible complications with Mexico, leading to a naval movement along the coast of that country, the chief of one of the principal bureaus said yesterday that fifty vessels of all kinds could be mustered for immediate use. That would be an ample force to control the coast of Mexico in case of a call upon the department for force to assert the demands on the Mexican Government. As for troop ships, these could be had in numbers sufficient to transport enough men within thirty days to conquer the whole country.

NORWOOD.

THE CONSTABLE FINED.—The magistrates gave their decision in the Newall *vs.* Jones shooting case on Saturday last. Jones was assessed $5 and costs.

OBITUARY NOTE.—We regret this week to have to chronicle the death of Mrs. Catharine Vars, relict of the late Mr. Billings Vars. The sad event occurred on Sunday last at the residence of her daughter, Mrs. J. A. Butterfield. Deceased was in her 86th year and was highly respected by all who knew her. The funeral took place on Monday and was largely attended, showing the high esteem in which deceased was held by the community at large. We tender our sincere sympathy to the bereaved relatives.—*Register.*

A CABINET COUNCIL.

LONDON, Aug. 13.—A two hours' meeting of the Cabinet was held to-day. It was decided, among other things, to appoint a Royal Commission to enquire into the Belfast riots. The Cabinet finally approved of the Queen's speech, and Lord Salisbury will go to Osborne on Sunday to submit it to Her Majesty. The majority of the members of the Cabinet were in favor of proroguing Parliament until February unless unlooked for events in Ireland should make an autumn session necessary. Sir Michael Hicks-Beach, Chief Secretary for Ireland, expressed confidence in the Government's ability to preserve order without having recourse to special legislation.

AT BELFAST.

A Tar and Feather Outrage—Rain Better than Police.

BELFAST, Aug. 13.—The excitement occasioned by the riots has been revived by an outrage committed, by Orangemen of Queen's Island, upon a Roman Catholic named Johnson. The latter was returning to his home from work, when he was seized by the Orangemen and given a coat of tar and feathers. The Roman Catholics are very indignant at the outrage, and vow vengeance against the perpetrators.

Four hundred additional policemen were sworn in to-day.

Since Saturday, fifty serious wounded patients have been treated by the Royal Hospital. Two hundred more have been cared for at private surgeries. It is estimated that probably three hundred others received wounds, whose cases have not been reported.

BELFAST, Aug. 13.—Rain continues to fall keeping the streets clear of people. The authorities intend to order all taverns to be closed at 5 o'clock this evening until 10 o'clock on Monday morning.

HIGHWAY ROBERY.

Lawless Characters Numerous in Belleville—Robbed on the Street.

Lawless characters are becoming so numerous and bold in Belleville that a man is hardly safe from molestation in the middle of the night, unless he is accompanied by a companion. On Thursday night between ten and eleven o'clock, as Thomas Watson was passing up Bridge Street he was assaulted by two men at the corner of William Street, who relieved him of a watch a gold plated chain and $1.75 in change all the money he had about him. Mr. Watson stated to the police, after the affair was over, that he was walking quietly along the south side of Bridge Street. As he neared the corner of Col. Brown's grounds he was suddenly pounced upon by two men. One choaked him to the ground and threatened him with violence if he cried out, whilst the other went through his pockets and relieved him of what valuables he possessed. As soon as the men secured their plunder they made off When Mr. Watson reported to the police he was very much agitated and could give no intelligable description of his assailants. The police have no clue to work upon. This is the second highway robbery in Belleville in a little over a week.—*Intelligencer.*

SATURDAY. AUGUST 14, 1886.

REMOVE THE BEAM.

In a recent speech the Hon. Thomas White, in replying to unpatriotic attacks made upon the financial position of the Dominion, compared the debt of Canada with that of Australian Colonies. The Brockville *Recorder* takes him to task because, it says, he did not say that the colonies owned railways which were built with borrowed money and formed "available assets." We do not know whether Mr. White is correctly represented or not, but the *Recorder* is itself guilty of an act of deception in this article in which it takes Mr. White to task. It cannot say that the Australian colonies have railways as assets, but suppresses the fact that Canada owns railways and other great public works, which represent a large portion of the public debt. The Australians constructed the railways on the same principle as Canada built them or gave aid to railway companies—that of having the highways to build up the country and develop its resources. The railways are of no other benefit to the Australians, and it should be remembered that every cent of the debt of Canada was incurred for the construction of works of public utility. And the public debt of the Australian colonies is far greater per head of the population than the debt of the Dominion, yet the people of those colonies do not make as much ado about it as the Reformers of Canada who persistently decry their own country.

The *Recorder* must possess considerable assurance when it charges any one with practising deception when discussing the public debt of Canada, for it is not very long since that paper stated that the Conservative Government had added to the debt four times the amount added to it by Mr. Mackenzie. It has had time since to correct that statement, if it was made in ignorance of the facts, but it has not done so, although it was grossly untrue. The fact is that the Reform Government increased the public debt more rapidly than the present Government has, while they spent less on public works for the benefit of the people.

CRESCENT STREET.

The street leading around the lake shore to the Little Lake Cemetery is appropriately named Crescent street. Its shape is suggestive of the name, and it has for some time, like the crescent luminary in the sky, been fading away. The action of the water has washed away the earth, and by degrees the road has steadily become narrow. Steps should have been taken years ago to protect and preserve the street, but "better late than never" is true in this instance, as in many others, and it is so far satisfactory to know that the Town Council has taken cognizance of the necessity for something to be done. The matter has been referred to the Street and Bridge Committee to consult with the Cemetery Company, and to ascertain the cost of providing protection against the action of the water and of laying down a sidewalk. A sidewalk would be appreciated by the hundreds who visit the cemetery frequently, as well as by those who live on the street, and now that the matter has been referred to the Street and Bridge Committee it is not likely that the energetic chairman of that committee will allow it to be neglected.

A CURRENT news item says that Joaquin Miller has assumed the editorship of the San Francisco *Golden Era*. As his new duties will take Joaquin farther away from Canada, we are pleased that he has received the appointment. The "poet" who extolled Riel as a hero, and in that connection insulted our Queen, is not one whom we yearn to have for a very near neighbor. If he will not go to Jericho, let him go to 'Frisco.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

BOBCAYGEON.

CUT.—On Wednesday Mr. F. Davis fell on the slabbing saw at Mr. J. Davis' mill, and received a fearful gash in the leg.

VERULAM HONOURED.—Mr. Charles Fairbairn, as one of the progressive farmers of the Province, has been selected as a judge of Hereford cattle at the Provincial Exhibition, which is to be held in Guelph. There can be no doubt that Verulam has made great advances in agriculture, and possesses a large proportion of farmers who, besides being energetic and enterprising, are bringing to bear upon their labors the powers of intelligence and scientific study.

SAD ACCIDENT.—Early on Sunday morning the report was quickly spread through the village, that a deplorable accident had occurred, which had, or would result in death. As the fact became known, it was found that last week Mr. Ollife Anderason, who was endeavoring to locate on a lot near Swamp Lake, and work out a home for himself, drove out to the lot, and gave his wife, who lives near Little Bob bridge, to understand that he would be away until Wednesday, of this week. The horse he drove was known to be vicious, but Anderason had confidence in his ability to control him. It is suppposed that on Saturday evening he determined on coming home, and had reached the gravel pit close by the Bobcaygeon road, when the animal shied or bolted, and colliding with a stump, he was thrown out on to his right temple, and the hind wheels of the waggon turning over hit him in the sides. John Murphy and Ed. Blewett drove along Nogey's Creek road, and on the horse shying they noticed Anderason laying beside the road. He was lying on his face insensible, both hands stretched torward, apparently just as he was thrown from the waggon, the night before, and was within gunshot of where the horse was found. A conveyance was obtained and he was taken home. He died about mid-day on Monday, having remained perfectly unconscious until the last. He was aged thirty-five, and had been only three years out from Norway. He was a son of Mrs. N. Arnberg, by her first marriage, and leaves a wife and six young children.—*Independent.*

LINDSAY.

I. B. & O. RY.—C. J. Pusey, Esq., proprietor of the Irondale, Bancroft and Ottawa Railway, was at the Benson House last Tuesday. We learned that the construction of that portion of the road leading to the iron mines is being pushed forward rapidly. Work in the mines will begin this fall or next spring, and then may north Victoria County look for a great impetus to its prosperity.

MR. LOGAN SLOWLY RECOVERING.—Dr. Aikens, of Toronto, the renowned surgeon, visited Lindsay last Saturday to examine Mr. W. Logan's injury, received several weeks ago. It is cause for regret that the leg is not recovering its wonted action as readily as might be wished, but strong hopes are entertained that it will not be long before Mr. Logan will be himself again. We are sure that the many friends of that estimable gentleman will regret his long confinement and detention from business; and like us be surprised at the slowness of recovery.

SAD ACCIDENT.—On Thursday afternoon of last week a party of young children went berrypicking in the swamps bordering on Goose lake in Fenelon township. One of the children, a little seven-year-old girl named Parasol, strayed from her companions and could not be found that night. Next morning early her tracks were found and followed up, but the little creature, unnerved by her night's horrors, ran from those seeking her, and became mired in the marsh. When found she was imbedded in mud to the neck; but was so worn out with fright and fatigue as to die soon after being extricated.—*Warder.*

KEENE.

From Our Own Correspondent.

STEAM YACHT.—Mr. John Miller, B.A., arrived here on Wednesday last with the neat little steamer Dot. The first intimation of the arrival was a peculiar weird sound. The boat is neatly fixed up for about twenty passengers, and is capable of running 8 or 10 miles an hour. In the afternoon Mr. Miller took a few friends out for a sail and all enjoyed themselves.

DISTRICT METHODIST MEETING.—The Campbellford district financial meeting will be held on Wednesday next, Aug. 18th. There will be an open Sunday school meeting in the evening, when addresses will be delivered by several prominent ministers, and the Rev. J. S. Clark, President, and Superintendent of the District, will give the closing address.

DEATH.—Mrs. Jno. Knox, north of here, was taken sick on Friday of last week and died on the Sunday following. The funeral was held on Tuesday to Fife's Cemetery and was largely attended.

REMOVAL.—Mr. R. J. Stewart has removed to Warkworth, but before he left he sold out his stock of stoves and tinware to Mr D. Howson, who still intends to sell cheap. Great regrets are felt at his removal and especially in lacrosse circles.

PERSONAL.—Mr. and Mrs. Frost and Jas. Millar left on Tuesday last for Rochester.

OMEMEE.

TERRIBLE ACCIDENT.—On Monday afternoon, while attending a threshing machine at work on the farm of Mr. M. McElwain, Emily, Mr. David Stinson, a young man about twenty years of age, met with a terrible accident by which he lost his right hand. It seems that the machine had got choked up and in attempting to clear it out his hand came in contact with the cylinder, smashing it in such a frightful manner as to render it necessary for the medical men in attendance to amputate the hand a few inches above the wrist. The unfortunate man is doing as well as could be expected.

ELECTION.—On Thursday an election was held in Omemee for the purpose of filling the vacancy caused by the death of the late Dr. Norris, Reeve, and a person to fill the vacancy caused by the resignation of Dr. Cornwall, Councillor. The contest was conducted on friendly terms, and was the keenest fought for some years. Dr. Cornwall was elected Reeve by a majority of 14 over Mr. T. Stephenson, and Mr. S. Lamb was elected Councillor by a majority of 5 over Mr. John Beatty.—*Herald.*

ENNISMORE.

From Our Own Correspondent.

PICNIC.—Considering that, on account of the unfavorable weather, the picnic which was held at Bridgenorth under the auspices of the parish church in June was only half a picnic, it has been decided to hold the other half in September.

CROPS.—The crops throughout the township never looked better since "ye olden tyme."

TERRIBLE EXPLOSION.

Forty Miners Lose their Lives in a Colliery at Leigh, Lancashire.

LONDON, Aug. 13.—A despatch from Leigh, Lancashire, states that a terrible explosion occurred this morning in the Wood End colliery at that place. Forty miners were below at the time. Many of them were shockingly burned.

A later despatch from Leigh says that fory miners perished by the explosion.

A Mexican Proposal.

NEW YORK, Aug. 13.—The *World's* Washington special says the Mexican Government has made a proposition that if the State Department will send to the city of Mexico an able envoy of this Government, to confer with the Attorney-General of the Mexican republic as to the proper interpretation of the law under which Cutting is held, they believe an amicable solution of the problem can be arrived at. It is said the Cabinet unanimously decided to accept the proposition, this Government not to be bound by the report that the representative may make.

Popular Hotel Man Dead.

KINGSTON, August 13.—To-day the announcement came of the death in New York of Samuel Thornton, proprietor of the Union Hotel, from heart disease. He was off on a pleasure trip. Deceased was known far and wide as "genial old Sam." He was formerly a locomotive engineer on the Edinburgh and Glasgow Railway, and later on the Great Western road. He was 67 years of age, and prominently identified with the Orange, Masonic and English societies.

Drowned in a Gale.

CHARLOTTETOWN, P. E. I., Aug. 13.—The heaviest thunder, lightning and rain storm for years prevailed yesterday, doing great damage to crops. During the gale Patrick Kehoe, aged seventy, and John Graham, aged sixteen, were drowned, and two others were saved from drowning by a steamer. Fears are entertained for the safety of the fishing boats.

Take a Pill

To regulate the bowels and drive away the sick or bilious headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

Golden Medical Discovery.

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength, and soundness of constitution will be established.

Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-Joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Golden Medical Discovery cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating, and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. It promptly cures the severest Coughs.

For Torpid Liver, Biliousness, or "Liver Complaint," Dyspepsia, and Indigestion, it is unequalled remedy. Sold by druggists.

BEWARE

OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our **genuine Coraline**, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods,

Without which none are genuine.

SEVERAL gangs of men have arrived at Maniwaki, Quebec, en route to the upper depots of Messrs. Hamilton Bros., and Messrs. Gilmour & Co.

A SIDE line has been built from the Messrs. Rathbun's mill at Campbellford to the Grand Junction track. Five sub lines have been laid down in the yards.

THE forest fires in Marathon and Clark counties, Wisconsin, communicated to the towns of Spencer and Colby, laying the former in ashes and considerably destroying the latter.

NEW piers, says the Campbellford *News*, are about to be constructed by Messrs. Rathbun which will greatly improve the appearance of their premises and give stability to the made portion of their yard.

MR. JOHN WOODS' saw mill situated about 15 miles above Maniwaki, Quebec, on the river Desert, was on Aug. 3rd destroyed by fire; the loss is estimated at $1 500, no insurance. It is supposed to be the work of an incendiary.

AN employe of the Delta Lumber Company, at Thompson, upper Michigan, lost an arm in one of the company's mills. He sued for $12,000 damages, and was awarded $5,000. The case has been appealed.

ISRAEL MERRITT, a lumberman, of Bristol, N. B, has assigned. His liabilities are placed at $30,000. He gives preferences to the extent of $12 000. Among his creditors are several St. John firms. To one firm there he owes $4,000, to another $2 000.

Two large fly wheels in the Port Arthur Lumbering Company's mill, at Port Arthur, Ont., recently burst and flew in all directions. The wheels are six feet in diameter, and revolving about 90 times to the minute. Though several men were working a few feet away no one was injured.

RICHARD COX, an Englishman, who works on the steambarge Walker Lilly, was loading ties at the Rockland mills, Ottawa, when a pile of lumber, beneath which he was standing, gave way, and the whole weight of the lumber fell upon him, killing him instantly. Cox had only been in the country a short time.

STETSON & PAST, at Seattle, W. T., lately hired a few Chinamen to pack shingles. In the afternoon of the day after the Chinamen were first employed, the mill hands struck and demanded the discharge of the Mongolians. The firm yielded, and the serenity of a Puget sound climate again brooded over the mill.

OWING to the low price of deals, as well as the limited demand for them, says the St. John *Globe*, some of the mills are closing down and others are likely soon to do likewise. Messrs. Randolph & Baker's mill suspended operations last week; Messrs. S. T. King's, at Mosquito Cove, stopped work on Saturday last.

PARDEE, COOK & Co.'s mill, at Gun Lake, Mich., together with the firms store, tramway, 350,000 feet of lumber, and seven cars belonging to the Flint & Pere Marquette railroad, were burned Aug. 3rd. The mill was valued at $40,000, and the total loss was placed at $80,000, against which there was but $20,000 insurance.

WHAT has come to be recognized as the best or standard speed for the main shaft of sawmills, says the *Timber Trades Journal*, is 250 revolutions per minute, and if a second or third shaft be used to give motion to lighter machines, this speed may be increased with advantage to 300 revolutions per minute, but not above as a general rule.

HOODLESS & SON, through their magnificent display at the Colonial Exhibition, received yesterday a tidy order for bedroom sets in elm, and walnut rockers. The orders came from Gitten & Co., furniture dealers, Camden town, London, who state that their articles have been much admired and that quite a demand may be expected for them. This is news which ought to swell the heart of every Hamiltonian with pride. The order will be shipped at once.—*Hamilton Spectator.*

THE Deseronto *Tribune* says:—On Tuesday morning the tug Rescue brought in a tow of timber from Mill Island near Trenton. They were taken from the old Star mill which was erected many years ago by Messrs. Morton & Baker of Kingston, and afterwards owned by A. S. Page, Esq., of Oswego. The mill has not been run since it came into the hands of the Rathbun Company and now the timbers have been taken out to be used for other purposes. They are large and sound. The island so long known as Baker's or Mill Island is beautifully located and can be utilized for many purposes.

MR. E. WALTER RATHBUN, says the Deseronto *Tribune*, writing from Mr. M. Butler's camp in Algoma, states that they are making fair progress with their survey of the new townships. The country is rather rough in parts, and many sections having been burnt over in former years are now grown up with young poplar, hazel, &c. The weather has been variable, very hot during the day and very cold at night. Water on several nights was frozen in the pail. The expedition is not unaccompanied with hardships. Transportations are difficult, packing being the favorite method, the load being supported by a brand across the forehead. The loads vary from sixty to ninety pounds, though Indians and other natives sometimes carry from one hundred to one hundred and eight pounds weight. The hungry mosquito, ferocious black fly, and maddening sand fly, all abound and make life miserable. The party expect to be through with the survey by the first of September.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

Near Providence Bay, an Indian Chief 107 years old, lay down to rest by the wayside and died.

For its soothing and grateful influence on the scalp, and for removing and preventing dandruff, Ayer's Hair Vigor has no equal. It restores faded or gray hair to its original color, stimulates the growth of the hair, and gives it beautiful, glossy, and silken appearance.

The Victoria rifles, Montreal, are to have a new armory, the buildings and land to cost $25,000.

Ayer's Sarsaparilla is designed for those who need a medicine to purify their blood, build them up, increase their appetite, and rejuvenate their whole system. No other preparation so well meets this want. Its record of forty years is one of constant triumph over disease.

The first Presbytery ever held in British Columbia, met a few days ago in New Wesiminister, B. C.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

David Shark Kerr, Q. C., the eldest practising barrister save one in New Brunswick died recently at the age of 77 years.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

A New Brunswick cow had throat trouble for about three months. Her owner had about concluded to kill her when he discovered a darning needle in her throat.

A FORM OF CANCER.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

A man was charged at the St. Thomas police court with stealing a ride on the M. C. R. was acquitted on the representation that he was going to see his dying mother.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

Seals, similar to those found in Alaska waters, have been seen in large quantities in English Bay, B. C. The Vancouver *News* sees in them a source of great wealth.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

Mr. Van Horn, while in British Columbia, promised that as soon as the C. P. R. is fairly settled and in perfect order the time between Montreal and Vancouver will be covered in 90 hours.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence recommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, Indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Cholera Preventative.

In order to wishstand Cholera and such like epidemics a perfect purity of Blood, and the proper action of the stomach are required. To insure that end, in the cheapest, most available and complete manner, use McGregor's Speedy Cure for Dysyepsia and Impure Blood. There is no purer, safer or more reliable remedy in existence for Indigestion, Dyspepsia, Costiveness, etc. Ask your neigbors or any person who has used it. Sold by John McKee. Trial bottles given free

Constipation

Causes, directly or indirectly, fully one-half the sufferings which afflict mankind. It is usually induced by inactivity of the liver, and may be cured by the use of Ayer's Pills. C. A. Schomerus, Great Bend, Kansas, writes: "I have used Ayer's Pills for Costiveness, with the most beneficial results." J. Windholm, Newark, N. J., writes: "Ayer's Pills cured me of chronic Constipation." Martin Koch, Huntington, Ind., writes: "Last year I suffered much from Biliousness

And Headache

After using one box of Ayer's Pills I was quite well." C. F. Hopkins, Nevada City, Mo., writes: "I have used Ayer's Pills, and think they are the best in the world. They have cured me of Sick Headache and Neuralgia." W. L. Page, Richmond, Va., writes: "I have been a severe sufferer from Headache. Ayer's Pills afford me speedy relief." A. J. Forster, Dauphin st., Mobile, Ala., writes: "For a number of years I have been troubled with Constipation and Headaches. After trying a number of so-called Liver Invigorators, without benefit, I was at last

Cured by Using

Ayer's Pills." Rev. Francis B. Harlowe, Atlanta, Ga., writes: "For years I was subject to Constipation, from which I suffered increasing inconvenience, in spite of the use of medicines of various kinds. Some months ago, I began taking Ayer's Pills. They have entirely corrected the costive habit, and have vastly improved my general health." Hermann Bringhoff, jewelry engraver, Newark, N. J., writes: "Costiveness, induced by my sedentary habits of life, at one time became chronic and exceedingly troublesome. Ayer's Pills afforded me speedy relief, and their occasional use has since kept me all right." Ed. O. Easterly, Rockford, Ill., writes that he has been cured of chronic Constipation by the use of

Ayer's Pills.

ADVERTISE IN THE DAILY EVENING REVIEW. IT PAYS.

GLEY'ED

Gley'ed is a Scotch phrase for "cross-eyed," and the question has been asked what has it to do with DRY GOODS.

Now there is a class of people that often view Dry Goods as if they *squinted*, and go away with the idea that the goods are not right, nor the prices correct.

We have just opened out the contents of eight cases and several bales of

NEW FALL GOODS

that will bear a good square look, both for prices and material.

SATURDAY. AUGUST 14. 1886.

THE CITY AND SUBURBS

To-Night at 8.

The young men's meeting in the Young Men's Christian Association rooms will be held this evening as usual. All men are invited.

Matriculated.

Messrs. R. E. Knowles, J. Bell and C. H. Daly have successfully passed the examin- for entrance to Queen's University. These three were the only candidates from Peterborough.

Make a Note of It.

Of what? The cheap excursion to Toronto on the Civic Holiday, Thursday next. Train leaves at 8.39 a.m. Return Tickets, good for two days, at Alex. Elliott's. $2. Only a limited number issued. Apply early.

Mr. Smith Knows.

The Bobcaygeon *Independent* says:—"Peterborough is have a race meeting on the 26th and 27th, at which $1,100 will be paid in prizes. Anything Peterborough does is done well and may be relied upon."

MOUNTED Grindstones for Hand or Foot Power. GEORGE STETHEM.

Coming Again.

Prof. R. Watkins, the veterinary dentist who was here a few weeks ago, will again visit Peterborough on August 23rd, and will remain at the City Hotel for two weeks. The best of city reference given.

What Does it Mean?

One would be apt to ask some such question as the above when passing the Bon Marche store, there is such a constant stream of buyers going in and out, all smiling and apparently in the best of humor. It is the bargains they are getting that causes so much joy.

Civic Holiday.

Be sure and go to the P. A. A. A. excursion to Orillia and Sturgeon Point on the Civic Holiday, Aug. 19. First class coaches. Special train leaves G. T. R. station at 7.30 a. m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

The Market.

At the market this morning butter sold for 17 cents per pound; eggs at 12 cents per dozen; chickens, at 50 cents per pound; ducks, at 75 cents per pair; lamb, at 8 and 10 cents per pound; new potatoes, at 75 cents per bag; new corn, at 15 cents per dozen ears; onions, rhubard and carrots, at 5 cents per bunch; cabbage, at 50 cents per dozen heads; apples, at from 70 cents to $100 per bag.

Brophy vs. Redman.

Some days ago a case of assault, Redman vs. Brophy, was tried at the Police Court, and judgment was given in favor of the complainant. The defendant then charged Redman with abusing his (Brophy's) dog, and with peddling without a license. The cases were tried at Lakefield before Messrs. Golborne and Garbutt. The dog case was dismissed after hearing the defence, and the peddling without license case was dismissed on the evidence submitted by the prosecution. Mr. Stone, of Peterborough, for the prosecution, and Mr. Green, of Peterborough, for the defence.

Personal.

The Lindsay *Warder* says:—"We regret to announce that Mr. T. E. Bradburn is about leaving Lindsay to reside in his native Peterborough. During their stay of several years here, Mr. and Mrs. Bradburn have earned the esteem and respect of a very large circle of firm friends, friends whose sympathy and affection will last long and remain strong."

Mr. H. O. Fisk, recently assistant electrician in the Royal Electrict Light station, has assumed the position of Superintendent of the Peterborough system in place of Mr. A. Brown who has gone to fill a similar position in London.

Mr. Alex. Elliott left town this morning on a business trip to New York.

ATKIN & SON'S Panel, Hand and Rip Saws are *fully warranted*. GEORGE STETHEM.

CONTINUED SUCCESS.

The Riversides Add Another to Their List of Victories.

The Riverside Lacrosse Club's first twelve went to Millbrook on Friday at noon accompanied by about twenty of their admirers to play the Millbrooks:

They arrived in the village shortly before one o'clock. The game was called at a little after two o'clock, the men taking their respective positions as follows:—

RIVERSIDES.		MILLBROOK.
J. Phelan	Goal	H. Richards
A. Rose	Point	A. Raper
W. Walsh	Cover Point	A. Duncan
T. Meagher	Defence Field	G. Brown
M. Larone	"	S. Skitch
W. McAvelia	"	J. Clarke
F. Larone	Centre Field	J. Sproule
T. Giroux	Home Field	R. McMartin
J. Begley	"	W. Crombe
J. Canning	"	W. Croombe
H. Nell	2nd Home	J. Richard
T. Duncan	1st Home	J. J. Trew

Mr. W. A. Sanderson, who has always taken a lively interest in lacrosse, captained the Riversides and Mr. G. Duncan the Millbrooks. The umpire for the Riversides was Mr. J. Hackett, and, for the Millbrooks, Mr. W. Reynolds.

Mr. J. Allen acted as referee.

The first game was commenced by Sproule, a Cannington man, who played centre for Millbrook, drawing out the ball. McAvelia caught it up and after a little tossing back and forth J. Canning put it through the goal scoring the first game for the Riversides in 6 minutes.

The second game was started similarly. This game lasted much longer and at times some very rough play was shown. Two of the Millbrook team showed themselves to be very viscious. Several of the Riversides were struck when the ball was nowhere near. Leaving out these abnormally savage men, the play was well conducted. The game was won by the Riversides after 40 minutes play, Duncan scoring.

The third game had been in progress about twenty-five minutes when time was called. The Riversides offered to remain and finish the match, but the Millbrooks declined.

The grounds were very good, except that on one side there is a sharp declivity of about 100 feet running down to a creek. When the ball goes over this bank it causes some inconvenience.

The Riversides returned home in the evening on the 5 o'clock train.

The next match to be played will be with the Athletics, of Madoc. It will be played on the Riverside Park.

More.

Mr. John Dixon, of Toronto, writes to the Secretary of the Driving Park Association, asking to enter Blairton in the mile dash for runners and the Duke of Wellington in the half mile dash.

Preliminery Work.

Mr. Geo. B. Sproule is busy just now in preparing views of the different industrial establishments of Peterborough for the illustrations to appear in the *Mail's* illustrated description of the town which will be published two weeks from to-day.

Fast Horses.

The secretary is constantly receiving entries from a distance for the races to be held here on Aug. 26th and 27th. To-day two of Torontos best horses were entered. It is confidently expected that these races will eclipse anything of the kind ever held in the town, and those who attend will have the pleasure of witnessing really grand horse racing. Remember the dates, Thursday and Friday, Aug. 26th and 27th.

Band Concert.

From the pavillion in the Horticultural Gardens the Fire Brigade Band played to about a thousand people who strolled leisurely along the walks on Friday evening. Owing to another engagement the band could not give its usual concert on Tuesday evening, but not to cheat anybody they played out on Friday night. The Gardens were beautifully illuminated by the electric light from the tower.

Gratifying.

The Hamilton Agricultural Works are about to close the most prosperous season in their history. For the past few weeks the ware rooms and shipping department have been a scene of constant activity. Agricultural implements of all sorts being dispatched all over the country to direct buyers and to agents. The success of the Hamilton self binder has been phenomenal. A farmer near Lindsay writes to say that if he couldn't get another of the Hamilton binders he would not take twenty dollars on his bargain. Similar satisfactory accounts are received almost daily. Though a large stock of reapers, mowers and self-binders were built nearly all have been disposed of. The REVIEW congratulates Mr Hamilton on his success.

RECEIVED this week a job lot of ladies fine all-wool Black Cashmere Hose to be sold 30 per cent. below their regular price at R. FAIR'S.

Cows Killed.

Two cows were cut to pieces by the 5.15 o'clock train on the Grand Trunk Railway near Frazerville on Friday evening.

The Temperature.

The following are the readings of the thermometor to-day at the hours mentioned:—8 o'clock, 63; 1 o'clock, 75; 3 o'clock, 83.

Music on the Water.

Several members of the Harmony Club went out for a row on the Little Lake on Friday evening. The party sang several quartetts, duets and trios, with very good effect. "We Measure the time as we row," "Star of the evening" and other moonlight melodies were given. There was quite a number on the shore who sat listening till pattering raindrops drove them and the vocalists to seek shelter.

Omission.

The ladies of St. Luke's Church, Ashburnham, sent generous offerings of cake and flowers towards the garden party held in aid of the band on Thursday evening. Mrs. Bertram Orde and Miss S. R. Burnett were chosen as a committee to act for St. Luke's at the meeting held to make arrangements and they strictly fulfilled their duty. This was not mentioned in the REVIEW'S notice of the garden party. As it is always pleasing to give "honor to whom honor is due," the omission made is atoned for as above.

THE finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

It May be Remarked

—That on and after Monday bread will be reduced in price by Peterborough bakers.

—That the price will be 10 cents per large loaf instead of 12 cents.

—That the consumer won't object.

—That Forepaugh's bugle band arrived in town this morning.

—That they blew their blast and departed.

—That canoeists are busy talking about the A. C. A.

—That the Harmony Club are talking of having another moonlight musicalle.

From Montreal to Stoney Lake.

A genial though not very large party arrived in Peterborough on the early train this morning from Montreal. It consisted of Mr. R. S. White, of the Montreal *Gazette* son of the Hon. Thomas White, Mr. W. J. White, son of Mr. R. White, of the *Gazette*, and Mr. D. English, publisher, of Montreal, brother of Messrs. Wm. and Jas. English of Peterborough. The party paid the REVIEW a visit, and looked over the office in which, no doubt, old associations gave them a friendly interest. They went back to the northern lakes, accompanied by the Messrs. English and others, where they will spend some days.

Rapturous.

For the past couple of weeks the "Rapture" camping party have been spending a serenely happy holiday at Stony Lake. The method of camping adopted by this party diverged a little from the usual mode. They lived in a floating palace moored near Eel's creek. This aquatic mansion is divided into a number of rooms, provided with sleeping berths for the ladies, a bath room, culinary department, cots for the men, and in fact almost all conveniences possible. On an island near by a number of comps were spread, which were found quite useful. The party numbered about twenty-five, but at some times the guests entertained brought up the number to about thirty-five. The names of those who have been basking in this sunshine are as follows:—Mr. and Mrs. W. J. Ross and children, and Mr. Fred Reveille, New York; Mrs. J. C. Sherin, Miss Schofield, Mr. H. Schofield, Lakefield; Miss Mary Brown and Miss Harriet Brown, Nassau; Mr. Geo. Hilliard, M.P., (occasionally), Mrs. Hilliard, Miss Dumble, Miss Bertha Brown, Mrs. W. Mason, Mr. and Mrs. Geo. E. Williams, Miss Mary Ward, Miss Snyder, Miss Hilliard, Messrs. Wm. Snyder, W. F. Hilliard, Albert Mason, Fred Dumble, H. Dumble, J. D. Collins and C. Collins, Peterborough. The party from here are nearly all home now.

The Churches.

The following is a list of services in the several churches to-morrow:—

ST. PETERS CATHEDRAL.—At St. Peter's Cathedral, Roman Catholic, there will be three masses celebrated, the first at 7 a. m., the second at 8 a. m., and the third at 10.30 a. m. Vespers at 7 p. m.,

MONDAY, AUGUST 16, 1886.

THE KNIGHTS AND THE CHURCH.

The Decision of the Holy See Denouncing the Knights is Made Absolute.

Cardinal Taschereau has sent the following circular to the press of Quebec Province requesting its publication:

ARCHBISHOPRIC OF QUEBEC.
July 31, 1886.

MONSEIGNEUR,—On the the 13th of May, I submitted to His Eminence the Cardinal Prefect of the Sacred Congregation of the Propaganda, the divergences of opinion expressed in the newspapers of Canada and the United States concerning the Society of the Knights of Labor condemned in September, 1884. As it was claimed that the effect of this sentence was suspended by an appeal which it was asserted had been made to the Holy See, following on changes made in the constitution of the Society, I begged of His Eminence to make known with certainty what we were to do.

A letter from His Eminence Cardinal Simeoni (No. 3020), dated the 12th of July, informs me that, on the 27th of June last, the Holy Office having again examined the question, has maintained its judgment of 1884 in exactly the same terms reproduced in its letter:

"Considering the principles, organization and statutes of the society of the Knights of Labor, as they are now stated, this society must be placed among those which were condemned according to the instructions of this Supreme Congregation on the 10th of May, 1884; That the Bishops be instructed to proceed against this Society as against all societies of a similar nature, and to employ the remedies recommended in the said instruction."

Your Lordship will remember that in my consultation of the 5th of October, 1883, I myself defined nothing concerning the principles, organization and statutes of this Society, but merely transmitted to the Holy See an authentic printed copy of such constitution, praying that they be examined all the more carefully, because of the fact that the Society seems to include all kinds of trades and tradesmen, as indeed, its name clearly shows.

For a long time past, a pretended appeal to the Holy See has been held out as a reason that, pending a final decision, people might continue to enroll themselves in the Society or remain in it, provided they were sincerely disposed to obey the sentence this appeal might bring forth.

The absolute silence preserved by the Holy Office in regard to this pretended appeal, in the decision which I to-day communicate to your Grace, proves that this appeal has not been sent to the Holy See, and that it has been expected to deceive Catholics by invoking it as a means of protection against the sentence of September, 1884.

If this appeal has really been forwarded, it is impossible that it has not been laid before the Holy Office, as the matter is exclusively within its jurisdiction. Then the decision of the 27th of June, communicated to me by His Eminence Cardinal Simeoni, would be an answer to the same. The first sentence is by this confirmed as to form and tenor.

As by this latter decision, similarly to the first, the Holy Office recommends to the Bishops to proceed against this Society in the manner prescribed by the instructions of May 10, 1884. I can not see that there can no be any doubt on the line of conduct to be followed by the Roman Catholics of the entire world, over whom extends the jurisdiction of this Holy Congregation.

Having fulfilled my duty by communicating to Your Lordship this decision of the Holy See, I beg Your Lordship to accept the assurance of my devotedness.

E. A. CARDINAL TASCHEREAU,
Archbishop of Quebec.

NEWS FROM GASPE.

Fishing Improved Everywhere — Removal of Settlers.

QUEBEC, Aug. 14.—The latest news from Gaspe, under date of Aug. 9th, says; La Canadienne has just returned from a cruise up the river and along the Little North Shore and north side of Anticosti. She reports fishing improved everywhere, though much time has been lost through bad weather, which compelled the fishermen to remain ashore. Mackerel has been taken on the north shore, and a number of Nova Scotian mackerelers are about that coast. They report the mackerel of fine quality. The weather has been wet and foggy about the coast between Godbout and Esquimaux Point. Crops are looking well on the river front, though the wet weather has prevented the people from beginning their hay. The time, however, has not been lost, as most of the farmers are also fishermen, and they have done well at the fish. The Canadienne will coal here and the commander says he expects to be ordered to the Magdalen Islands, as a number of families about Esquimaux Point are anxious to remove to the Magdalen Islands. The commander expects to be ordered to remove them. Some mackerel have struck in Gaspe Bay and are of fine quality. Cod fishing is good, but there is no good weather to cure them. For the last two weeks it has been raining nearly every day.

LIGHTNING'S FREAKS.

Lively Times in a Chicago Office—The Occupants Paralyzed.

CHICAGO, Aug. 13.—The State Grain Inspector's branch office at Centre avenue and 16th street, narrowly escaped being destroyed by a thunderbolt during the rain storm this morning. The bolt struck a telegraph pole which stood against the wall of the building, ran in on the switch-board of the telegraph instruments, and went out of the window on the other side of the office, taking the glass, sash, and all with it. A messenger boy, who was sitting on the table, was thrown ten or twelve feet through the open door and knocked insensible, and the telegraph operator, whose hand was on the key at the time, and had his right arm paralyzed, and partially stunned. The telegraph appuratus was melted, the table thrown across the room, and all of the occupants of the apartment were stunned and partially deafened by the shock. The bolt looked like a round ball of fire, about as large as a man's head. It shot in as far as the table and disappeared with a flash, leaving the crowd standing bolt upright, with their limbs rigid, and their ears ringing painfully. The office took fire, but the flames were speedily extinguished.

Twenty-Six Houses Burned.

FOLSOM, Cal., Aug. 14.—A fire destroyed twenty-six of the principal business houses here yesterday; loss, $150,000.

The Knights of Labor.

NEW YORK, August 14.—Archbishop Corrigan said last night that he had received no instruction from the Holy See, directly or indirectly, regarding the Knights of Labor.

A Canadian Artist.

TILSONBURG, Aug. 13.—Miss Ida Joy, the well known artist, daughter of Dr. S. Joy, Tilsonburg, has received an order for portraits of Victor Hugo and Leon Gambetta at $1000 each.

Railroad Earnings.

NEW YORK, Aug. 14.—The *Daily Stockholder* says: "Railroad earnings for July show a moderate improvement over last year, but the aggregate sum and the average per mile is still discouragingly light."

Raising The Price of Spirits.

CHICAGO, Ill., Aug 14.—The Western Export Association has succeeded in prefecting a new pool. The price per gallon on spirits has been raised from $1.07 to $1.08, and the running capacity fixed at 28 per cent.

The Brant Memorial.

BRANTFORD, Aug. 12.—A procession of Indians and chiefs preceded the laying of the corner stone of the Brant monument yesterday afternoon. President Cleghorn made a speech and Chief Smoke Johnson laid the stone. The chief was a companion of Joseph Brant, to whose memory the memorial is erected, and fought under his son. Chief Johnson's age is 94.

Assault on a Scott Act Magistrate.

FERGUS, Ont., Aug. 11.—Police Magistrate Lowes, who was here to-day trying Scott Act cases, was assaulted twice. The first assault took place at the Commercial House about 6.30 this evening, when he was knocked down and not a word had been spoken. The second offence was committed about half an hour afterwards at the railway station, where he was waiting for the train.

The Quebec Elections.

QUEBEC, Aug. 14.—The *Chronicle* semi-officially announces that the Provincial elections will take place in October. It says they must come on before November, and the revised elector will do well to make up his mind as to the candidate he will support before October next, as it is quite probable that he will be asked to exercise his franchise early in the last named month.

Conciliating the Hungarians.

VIENNA, Aug. 13.—Emperor Francis Joseph has written a letter to Herr von Tisza, the Hungarian Prime Minister, in which he expresses regret that the recent changes in the army—the resignation of Gen. von Edelsheim-Gyulai, and the promotion of Gen. Janski—have been used by unscrupulous agitators to arouse discontent in Hungary. The Emperor instructs Herr von Tisza to meet further agitation with the fullest severity of the law. The letter is intended as a conciliatory manifesto to the Hungarian people.

Outrage at Montreal.

Montreal, Aug 12.—A most mysterious occurrance has taken place here. Two boys and a girl were playing on St. Andre-street, when a well-dressed stranger gave them a dynamite detonator and told them to light the fuse. No sooner had they done so than an explosion occurred, blowing off two of the boy's fingers and wounding the girl in the forehead. This is the second case of the kind that has taken place within the last few days. The police are looking for the miscreant, but as yet without success. Several similar detonators have been found on the street.

A Long Cruise.

OTTAWA, Aug. 13.—The members of the canoe club of Toronto have arrived in Ottawa, after a wonderful cruise of nearly 1,000 miles. The start was made fromB radford on Dominion day. The canoeists paddled up the Holland river to Lake Simcoe, thence *via* Severo river into Georgian Bay, along which they coasted to the mouth of the French river. Up this stream they paddled into Lake Nippissing, across which they sailed in their canoes during fine weather, thence proceeded along the Mattawa river into the Ottawa river, down which they glided to Ottawa. From here they will proceed to the Thousand Islands *via* Rideau River, in order to attend the meeting of the American Canoe Association to be held there.

Mr. Blake's Allies.

Mr. Blake may promise the Rouges that if they help him to carry the country they shall have license to rebel at will, and he may promise the secessionists of Nova Scotia that if they will carry that Province on the cry of secession they shall have ampler subsidies from the Dominion treasury; and there is no doubt that these promises will have their results in large gains to his party. But Ontario must be reckoned with, for all these things. And the people of Ontario do not believe that it is wise to play fast and loose with rebellion and murder. Mr. Blake may strike hands with crime though the compact be sealed with blood; but he cannot carry Ontario into that infamy. For the sake of holding office he may swallow his own words and stultify himself; but he cannot have the approval of the conservative element in his own party when he consents to tread in such devious ways. And, though Mr. Blake may succeed in carrying Quebec on the cry of Riel and revenge, and Nova Scotia on the cry of secession, we have every confidence that his infamy will bring him nothing but disaster—that victories like that in Chambly will prove but Dead Sea fruits to him and to his fellow apologists for murder and defenders of crime.—*Hamilton Spectator.*

MOORS VISITING BERLIN.

LONDON, Aug. 14.—The Moorish Ministers of Foreign Affairs and war have started for Berlin with an autograph letter from the Sultan of Morocco to the Emperor William, and to confer with Prince Bismarck in regard to Germany's relations with Morocco, and study the German army system. They will probably engage German officers to drill the Moorish soldiers, and will contract with Krupp for artillery.

RIOTING RENEWED.

A Fatal Conflict at Belfast on Sunday —Sectarian Riot in England.

LONDON, Aug. 15.—Rioting has been resumed in Belfast. From midnight last night until 4 o'clock this morning a rifle fire was in progress on the Shank Hill road and the old Falls road. One person was killed and many were wounded. The town is seething.

A despatch from Belfast says: "Sectarian strife has recurred in a deplorable cold-blooded fashion. Expert marksmen this morning conducted a rifle fight from roof tops, chimney stocks and street corners. Immense crowds of partizans, who carefully kept out of range, were prepared to to assist by supplying ammunition and removing the wounded. The sides were equally divided. The moon shone brightly throughout the contest. The Orangemen admit that one of their men, named MacFarlane, was killed, and that two more named Smith and Johnson were mortally wounded, also that there were numerous minor casualties on their side. They claim that they killed and wounded many Catholics, but the latter deny that they sustained serious injury. Many houses were riddled by bullets. Whenever the military appeared the combatants shifted their ground. Finally at five o'clock, after the riot act had been twice read, the troops charged upon the crowds and cleared the streets temporarily. An old man and two women, the inmates of a house on Conway street, from which many shots had been fired, were arrested. They stated that three men had forced an entrance into the house and remained there all night, firing from the roof. A howling crowd escorted the prisoners to the jail. The mob to-day repeatedly fired upon the police. A tavern owned by a Catholic situated in a Protestant district was looted. The order instructing the police to use buckshot instead of bullets has been rescinded. The populace is sullen and menacing."

LONDON, Aug. 15.—An Orange procession while passing through the streets of Widnes Lancashire, yesterday evening, was jeered at by the spectators. The Orangemen thereupon broke ranks and attacked the crowd. One of the spectators were stabbed and mortally wounded and two policemen and a number of other persons were injured.

BELFAST, Aug. 14.—The jury in the case of John Edgewater, a laborer, who was shot and killed in the recent riots, brought in a unanimous verdict of wilful murder against unknown members of the police force.

DUBLIN, Aug. 14.—A detachment of Kildare police, while marching from the Durgannon railroad to the barracks, was attacked by a mob with stones and bottles. The crowd was soon dispersed without bloodshed.

LONDON, Aug. 16.—A despatch from Belfast says that at 2 o'clock this morning the city was quiet. The priests, by superhuman exertions, induced the Catholics to retire at midnight. All the wounded were doing well except one little girl, who had been shot in the chest and was said to be dying.

A Report Denied.

BALTIMORE, Md., Aug. 14.—The *Sun* says: In relation to the statement that the cabinet had accepted an offer from the Mexican Government to have the Cutting affair looked into by a special envoy from this country, with a view to arbitration, Secretary Bayard said last night that there was no truth whatever in the report. The story is claimed to be only one of similar rumors set afloat. Secretary Bayard received a despatch from Minister Jackson last night, stating that Rasures, who was sent across the border by the Texan authorities, was killed by Mexicans while trying to escape at night.

ARCHBISHOPRIC OF QUEBEC.
July 31, 1886.

MONSEIGNEUR,—On the the 13th of May, I submitted to His Eminence the Cardinal Prefect of the Sacred Congregation of the Propaganda, the divergences of opinion expressed in the newspapers of Canada and the United States concerning the Society of the Knights of Labor condemned in September, 1884. As it was claimed that the effect of this sentence was suspended by an appeal which it was asserted had been made to the Holy See, following on changes made in the constitution of the Society, I begged of His Eminence to make known with certainty what we were to do.

A letter from His Eminence Cardinal Simeoni (No. 3020), dated the 12th of July, informs me that, on the 27th of June last, the Holy Office having again examined the question, has maintained its judgment of 1884 in exactly the same terms reproduced in its letter:

"Considering the principles, organization and statutes of the society of the Knights of Labor, as they are now stated, this society must be placed among those which were condemned according to the instructions of this Supreme Congregation on the 10th of May, 1884; That the Bishops be instructed to proceed against this Society as against all societies of a similar nature, and to employ the remedies recommended in the said instruction."

Your Lordship will remember that in my consultation of the 5th of October, 1883, I myself defined nothing concerning the principles, organization and statutes of this Society, but merely transmitted to the Holy See an authentic printed copy of such constitution, praying that they be examined all the more carefully, because of the fact that the Society seems to include all kinds of trades and tradesmen, as indeed, its name clearly shows.

For a long time past, a pretended appeal to the Holy See has been held out as a reason that, pending a final decision, people could [illegible] themselves in the Society or remain in it, provided they were sincerely disposed to obey the sentence this appeal might bring forth.

The absolute silence preserved by the Holy Office in regard to this pretended appeal, in the decision which I to-day communicate to your Grace, proves that this appeal has not been sent to the Holy See, and that it has been expected to deceive Catholics by invoking it as a means of protection against the sentence of September, 1884.

If this appeal has really been forwarded, it is impossible that it has not been laid before the Holy Office, as the matter is exclusively within its jurisdiction. Then the decision of the 27th of June, communicated to me by His Eminence Cardinal Simeoni, would be an answer to the same. The first sentence is by this confirmed as to form and tenor.

As by this latter decision, similarly to the first, the Holy Office recommends to the Bishops to proceed against this Society in the manner prescribed by the instructions of May 10, 1884. I can not see that there can no be any doubt on the line of conduct to be followed by the Roman Catholics of the entire world, over whom extends the jurisdiction of this Holy Congregation.

Having fulfilled my duty by communicating to Your Lordship this decision of the Holy See, I beg Your Lordship to accept the assurance of my devotedness.

E. A. CARDINAL TASCHEREAU,
Archbishop of Quebec.

NEWS FROM GASPE.

Fishing Improved Everywhere — Removal of Settlers.

QUEBEC, Aug. 14.—The latest news from Gaspe, under date of Aug. 9th, says; La Canadienne has just returned from a cruise up the river and along the Little North Shore and north side of Anticosti. She reports fishing improved everywhere, though much time has been lost through bad weather, which compelled the fishermen to remain ashore. Mackerel has been taken on the north shore, and a number of Nova Scotian mackerelers are about that coast. They report the mackerel of fine quality. The weather has been wet and foggy about the coast between Godbout and Esquimaux Point. Crops are looking well on the river front, though the wet weather has prevented the people from beginning their hay. The time, however, has not been lost, as most of the farmers are also fishermen, and they have done well at the fish. The Canadienne will coal here and the commander says he expects to be ordered to the Magdalen Islands, as a number of families about Esquimaux Point are anxious to remove to the Magdalen Islands. The commander expects to be ordered to remove them. Some mackerel have struck in Gaspe Bay and are of fine quality. Cod fishing is good, but there is no good weather to cure them. For the last two weeks it has been raining nearly every day.

LIGHTNING'S FREAKS.

Lively Times in a Chicago Office—The Occupants Paralyzed.

CHICAGO, Aug. 13.—The State Grain Inspector's branch office at Centre avenue and 16th street, narrowly escaped being destroyed by a thunderbolt during the rain storm this morning. The bolt struck a telegraph pole which stood against the wall of the building, ran in on the switch-board of the telegraph instruments, and went out of the window on the other side of the office, taking the glass, sash, and all with it. A messenger boy, who was sitting on the table, was thrown ten or twelve feet through the open door and knocked insensible, and the telegraph operator, whose hand was on the key at the time, and had his right arm paralyzed, and partially stunned. The telegraph appuratus was melted, the table thrown across the room, and all of the occupants of the apartment were stunned and partially deafened by the shock. The bolt looked like a round ball of fire, about as large as a man's head. It shot in as far as the table and disappeared with a flash, leaving the crowd standing bolt upright, with their limbs rigid, and their ears ringing painfully. The office took fire, but the flames were speedily extinguished.

The Fund For Mrs Hancock.

NEW YORK, Aug. 14.—The fund for Mrs Hancock now amounts fo $46,396.

Anti-Chinese Movement.

SEATTLE, W. T., Aug. 14.— Advices from Alaska say that the anti-Chinese movement is spread to that territory.

Twenty-Six Houses Burned.

FOLSOM, Cal., Aug. 14.—A fire destroyed twenty-six of the principal business houses here yesterday; loss, $150,000.

The Knights of Labor.

NEW YORK, August 14.—Archbishop Corrigan said last night that he had received no instruction from the Holy See, directly or indirectly, regarding the Knights of Labor.

A Canadian Artist.

TILSONBURG, Aug. 13.—Miss Ida Joy, the well known artist, daughter of Dr. S. Joy, Tilsonburg, has received an order for portraits of Victor Hugo and Leon Gambetta at $1000 each.

Railroad Earnings.

NEW YORK, Aug. 14.—The *Daily Stockholder* says: "Railroad earnings for July show a moderate improvement over last year, but the aggregate sum and the average per mile is still discouragingly light."

Raising The Price of Spirits.

CHICAGO, Ill., Aug 14.—The Western Export Association has succeeded in prefecting a new pool. The price per gallon on spirits has been raised from $1.07 to $1.08, and the running capacity fixed at 28 per cent.

The Brant Memorial.

BRANTFORD, Aug. 12.—A procession of Indians and chiefs preceded the laying of the corner stone of the Brant monument yesterday afternoon. President Cleghorn made a speech and Chief Smoke Johnson laid the stone. The chief was a companion of Joseph Brant, to whose memory the memorial is erected, and fought under his son. Chief Johnson's age is 94.

Assault on a Scott Act Magistrate.

FERGUS, Ont., Aug. 11.—Police Magistrate Lowes, who was here to-day trying Scott Act cases, was assaulted twice. The first assault took place at the Commercial House [illegible] meeting, when he was knocked down and not a word had been spoken. The second offence was committed about half an hour afterwards at the railway station, where he was waiting for the train.

The Quebec Elections.

QUEBEC, Aug. 14.—The *Chronicle* semi-officially announces that the Provincial elections will take place in October. It says they must come on before November, and the revised elector will do well to make up his mind as to the candidate he will support before October next, as it is quite probable that he will be asked to exercise his franchise early in the last named month.

Conciliating the Hungarians.

VIENNA, Aug. 13.—Emperor Francis Joseph has written a letter to Herr von Tisza, the Hungarian Prime Minister, in which he expresses regret that the recent changes in the army—the resignation of Gen. von Edelsheim-Gyulai, and the promotion of Gen. Janski—have been used by unscrupulous agitators to arouse discontent in Hungary. The Emperor instructs Herr von Tisza to meet further agitation with the fullest severity of the law. The letter is intended as a conciliatory manifesto to the Hungarian people.

Outrage at Montreal.

Montreal, Aug 12.—A most mysterious occurrance has taken place here. Two boys and a girl were playing on St. Andre-street, when a well-dressed stranger gave them a dynamite detonator and told them to light the fuse. No sooner had they done so than an explosion occurred, blowing off two of the boy's fingers and wounding the girl in the forehead. This is the second case of the kind that has taken place within the last few days. The police are looking for the miscreant, but as yet without success. Several similar detonators have been found on the street.

A Long Cruise.

OTTAWA, Aug. 13.—The members of the canoe club of Toronto have arrived in Ottawa, after a wonderful cruise of nearly 1,000 miles. The start was made from Bradford on Dominion day. The canoeists paddled up the Holland river to Lake Simcoe, thence *via* Severo river into Georgian Bay, along which they coasted to the mouth of the French river. Up this stream they paddled into Lake Nippissing, across which they sailed in their canoes during fine weather, thence proceeded along the Mattawa river into the Ottawa river, down which they glided to Ottawa. From here they will proceed to the Thousand Islands *via* Rideau River, in order to attend the meeting of the American Canoe Association to be held there.

Mr. Blake's Allies.

Mr. Blake may promise the Rouges that if they help him to carry the country they shall have license to rebel at will, and he may promise the secessionists of Nova Scotia that if they will carry that Province on the cry of secession they shall have ampler subsidies from the Dominion treasury; and there is no doubt that these promises will have their results in large gains to his party. But Ontario must be reckoned with, for all these things. And the people of Ontario do not believe that it is wise to play fast and loose with rebellion and murder. Mr. Blake may strike hands with crime though the compact be sealed with blood; but he cannot carry Ontario into that infamy. For the sake of holding office he may swallow his own words and stultify himself; but he cannot have the approval of the conservative element in his own party when he consents to tread in such devious ways. And, though Mr. Blake may succeed in carrying Quebec on the cry of Riel and revenge, and Nova Scotia on the cry of secession, we have every confidence that his infamy will bring him nothing but disaster—that victories like that in Chambly will prove but Dead Sea fruits to him and to his fellow apologists for murder and defenders of crime.—*Hamilton Spectator.*

MOORS VISITING BERLIN.

LONDON, Aug. 14.—The Moorish Ministers of Foreign Affairs and war have started for Berlin with an autograph letter from the Sultan of Morocco to the Emperor William, and to confer with Prince Bismarck in regard to Germany's relations with Morocco, and study the German army system. They will probably engage German officers to drill the Moorish soldiers, and will contract with Krupp for artillery.

RIOTING RENEWED.

A Fatal Conflict at Belfast on Sunday —Sectarian Riot in England.

LONDON, Aug. 15.—Rioting has been resumed in Belfast. From midnight last night until [illegible] fire was in progress on the Shank Hill road and the old Falls road. One person was killed and many were wounded. The town is seething.

A despatch from Belfast says: "Sectarian strife has recurred in a deplorable cold-blooded fashion. Expert marksmen this morning conducted a rifle fight from roof tops, chimney stocks and street corners. Immense crowds of partizans, who carefully kept out of range, were prepared to to assist by supplying ammunition and removing the wounded. The sides were equally divided. The moon shone brightly throughout the contest. The Orangemen admit that one of their men, named MacFarlane, was killed, and that two more named Smith and Johnson were mortally wounded, also that there were numerous minor casualties on their side. They claim that they killed and wounded many Catholics, but the latter deny that they sustained serious injury. Many houses were riddled by bullets. Whenever the military appeared the combatants shifted their ground. Finally at five o'clock, after the riot act had been twice read, the troops charged upon the crowds and cleared the streets temporarily. An old man and two women, the inmates of a house on Conway street, from which many shots had been fired, were arrested. They stated that three men had forced an entrance into the house and remained there all night, firing from the roof. A howling crowd escorted the prisoners to the jail. The mob to-day repeatedly fired upon the police. A tavern owned by a Catholic situated in a Protestant district was looted. The order instructing the police to use buckshot instead of bullets has been rescinded. The populace is sullen and menacing."

LONDON, Aug. 15.—An Orange procession while passing through the streets of Widnes Lancashire, yesterday evening, was jeered at by the spectators. The Orangemen thereupon broke ranks and attacked the crowd. One of the spectators were stabbed and mortally wounded and two policemen and a number of other persons were injured.

BELFAST, Aug. 14.—The jury in the case of John Edgewater, a laborer, who was shot and killed in the recent riots, brought in a unanimous verdict of wilful murder against unknown members of the police force.

DUBLIN, Aug. 14.—A detachment of Kildare police, while marching from the Durgannon railroad to the barracks, was attacked by a mob with stones and bottles. The crowd was soon dispersed without bloodshed.

LONDON, Aug. 16.—A despatch from Belfast says that at 2 o'clock this morning the city was quiet. The priests, by superhuman exertions, induced the Catholics to retire at midnight. All the wounded were doing well except one little girl who had been shot in the chest and was said to be dying.

A Report Denied.

BALTIMORE, Md., Aug. 14.—The *Sun* says: In relation to the statement that the cabinet had accepted an offer from the Mexican Government to have the Cutting affair looked into by a special envoy from this country, with a view to arbitration, Secretary Bayard said last night that there was no truth whatever in the report. The story is claimed to be only one of similar rumors set afloat. Secretary Bayard received a despatch from Minister Jackson last night, stating that Basures, who was sent across the border by the Texan authorities, was killed by Mexicans while trying to escape at night.

HOME RULE.

THE Ottawa *Free Press*, in an article discussing the annexation of a suburb to the city, says:—

"We believe not only in Home Rule for Ireland and Home Rule for Ontario, but Home Rule for Ottawa also, and the Ontario Ministers are Home Rulers in municipal as well as in provincial affairs."

We can join with the *Free Press* in its belief in home rule—but not such home rule as the Reformers of Nova Scotia desire, when they demand the separation of that Province from the Dominion. But the astounding part of the sentence is that which states that the "Ontario Ministers are Home Rulers in municipal affairs."

The Mowat Administration have shown themselves to be opposed to home rule in municipal affairs. They have pursued a policy of centralizing as much power and patronage in Toronto as they could, minimizing the powers of the municipal authorities for that purpose. They have even gone so far as to direct county officials as to where certain printing should be done. Their action in taking control of the liquor traffic, and a large part of the revenue derived from it, from the municipalities, was an act in accordance with their policy of centralization. Instead of giving the power of appointing such officers as gaolers and turnkeys to the county authorities, they have taken the control of these appointments themselves.

On this question of municipal home rule there is a wide divergence between the views of the Government and the Conservative Opposition. This was shown in several instances during the last session of the Legislature, when the Conservatives advocated the policy of increasing the powers of the County Councils and giving them more direct control of home affairs, but were in each case opposed by the Government and its supporters.

On March 3rd, 1886, Mr. Meredith introduced a bill to give the County Councils the power of appointing Registrars. This was an explicit declaration of the policy of municipal home rule and a direct effort to carry it into practice. Care was taken to guard the interests of those who at the time held those positions, but when the bill came up for the second reading it was opposed and voted down. The Government thus opposed the principles of the bill and voted against the principle of home rule for the municipalities.

When the bill respectiug the provisional County of Haliburton was under consideration the same principle was advocated, Mr. Fell moving that the gaoler of the district be appointed by the County Council, but the motion was lost, the Reformers voting in a body against it. Again, when a bill to amend the Division Courts Act was considered, Mr. Meredith moved an amendment providing that the powers of appointing and altering the division be vested in the county councils, and again the Reformers supported centralization and opposed home rule by voting against the amendment.

When at the last session of the Legislature the Government increased the fees for liquor licenses, they appropriated the whole increase for the benefit of the Province to the exclusion of the municipalities. This was a violation of the plan adopted when the Government took control of the licensing, but when Mr. Creighton moved that the House regretted "that of the proposed additional duties for liquor licenses no portion is to be received by the municipalities," only one Reformer, the member for Prince Edward, voted in favor of it, and the other Reformers voted that they did not regret that no portion of the increase was to be received by the municipalities.

These are instances taken from the record of one session of the Legislature, which proves unmistakably that the Reform party is decidedly opposed to the principle of municipal home rule and acts on the assumption that the municipalities cannot be allowed to control their affairs. An examination of the record of the parties shows how absurd is the claim put forward on behalf of the Ontario Ministers that they are "home rulers in municipal affairs."

ONTARIO'S HARVEST.

Summary of the Report of the Bureau of Industries for August.

The following is a summary of the report of the Ontario Bureau of Industries for August on the progress of harvesting, state of the crops and the estimated yield for August. The information is based on special reports from 578 correspondents of the Bureau on the 2nd inst, and the statistics of areas, number of live stock, etc., being compiled from returns made by farmers on June 25.

The breadth of wheat land sown last fall was 962,753 acres, but the injury by winter exposure was so severe that 76,171 acres were either plowed up or re-sown in the spring. The remaining 886,702 acres in crop have produced an estimate yield of 18,057,794 bushels. The straw was short owing to a period of drought in June and July in the fall wheat districts of the province; but the heads were well filled and the quality of the grain is reported excellent. The reaping season began about the middle of July and nearly the whole of the crop was safely housed by the end of the month. The great drought area of the Mississippi valley appears to have included Ontario about as far eastward as the meridian of Port Hope, and all spring crops have been affected to some extent. Of spring wheat, barley, oats, peas, hay and roots the reports say that growth was visibly arrested at one time, but a succession of showers in the second week of July saved them from serious harm. The cereals and peas are uniformly reported as short in straw and slightly thin on the ground over the whole dry area; but there was no appearance of rust and scarcely any of insect enemies, and the crops were maturing favorably. In the eastern portion of the province, and especially in the St. Lawrence and Ottawa counties the rainfall has been abundant and vegetation is luxuriant. Complaints are made of rust and mildew in localities, and the barley crop is likely to be discolored to some extent. The acreage and estimated produce of crops are presented in the following table:

	Acres	*Bush*	*Per Acre.*
Fall wheat.....	886,402	18,057,794	20.4
Spring wheat....	577,465	9,527,783	16 5
Barley	735,478	19,685,830	26.8
Oats.....	1,621,901	68,231,517	35.0
Rye.....	67,779	1,146,371	16.9
Pease	703,936	16,452,255	23 4

Compared with the average of the past four years, the fall wheat this year is 120,000 acres and 3,219,224 bushels less; the spring wheat, 96,119 acres and 1,255,118 bushels less; the barley, 9,448 acres and 107,987 bushels more; the rye, 70,995 acres and 1,205,080 bushels less; and the pease, 123,798 acres and 4,107,846 bushels more.

The area in hay and clover is 2,295,151 acres and the yield 2,994,446 tons, being an average of 1.30 tons per acre. The average of the previous four years was 2,150,590 acres and 3,125,807 tons, or 1.45 tons per acre.

The area in beans is 21,072 acres, and the estimated yield 461,104 bushels. The area in corn is 156,494 acres, being 26,555 acres less than the average of four years, and the prospect of a good crop is not encouraging.

The numbers of farm live stock are:—Horses, 569,649; cattle, 2,018,173; sheep, 1,610,949; hogs, 860,125; and poultry, 6,958,915. The number of sheep is 144,666 less than last year; in each of the other classes there is an increase. The wool clip is 5,547,867, being 690,480 less than the average of four years.

The average wages of farm hands for the Province is $158 with board and $251 without board, per year; and $17.06 with board and $26.64 without board per month of the seeding and harvesting season. These figures are slightly lower than last year's. The rate of wages of domestic servants is $1.52 per week; last year's rate was $1.51.

THE SOMERVILLE POISONER.

Charged with Poisoning Upwards of One Hundred People.

BOSTON, Aug. 14—The facts coming to light regarding the charges of wholesale poisoning by Mrs. S. J. Robinson, of Somerville, and her alleged accomplice, Thos. S. Smith, are of the most damaging nature. The physicians who attended members of her household that have died during the past four years all say that they have no doubt their respective patients died by poison. all of them were puzzled, and two or three of them were suspicious at the time they were engaged on the cases, but Mrs. Robinson always succeeded in allaying suspicion by her apparently genuine and extreme grief over the state of the patients. She always seemed willing, too, that there should be consultations of physicians, but she would not consent to a *post mortem* examination in any case. It is now charged that Mrs. Robinson is responsible for poisoning upwards of one hundred persons at a strawberry festival of the Park Avenue Methodist Church in June last. It was reported to Hick, Charlestown, the carterer who furnished the ice cream for the festival yesterday, that Mrs. Robinson was one of the ladies who dished out the cream that evening. Upwards of eighty people were poisoned and vomited all night and everybody attributed the cause to the ice cream which they ate. Mr. Hick served several hundred gallons of cream for other parties, and no complaints were made. The symptoms were those of arsenical poisoning. Chief of Police Parkhurst, of Somerville, has a constant stream of people coming into his office offering information regarding the woman, and he will have forty or fifty witnesses for the state.

REVOLUTION IN SAN DOMINGO.

The Greatest Rising in the Republic for Some Years.

BOSTON, Aug. 13.—A letter published here this afternoon from San Domingo gives the first details of a revolution that broke out there attending the late Presidential elections. The letter is dated San Domingo City, July 8th, and reads as follows:—The Presidential elections took place here on the 26th of June last, General Ulysses Hereaux being elected by a large majority. General Mayer, the defeated candidate, left for Savager two days after the election and raised an army of 3,000 men and attacked Santiago and was defeated by the Government forces. General Hereaux, the President-elect, left here today leading 5,000 men to reinforce General Duperon at Santiago. General Scaraman left Portau-Plat on the north side with 5,000 men and will join Hereaux, making an army of 10,000 men. This is the strongest insurrection that has started in San Domingo for some years, but the revolt will be of short life, as Hereaux is a brave man and understands how best to deal with such difficulties.

PICKED UP AT SEA.

The Rescuer of Miss Journeax Rewarded—A Romantic Story.

LONDON, August 14.—The Board of Trade has awarded a gold medal to Capt. Langran of the French brigantine Tombola, of St. Malo, for kindness shown to Miss Louise Journeax, whom he picked up at sea on May 20th. The story of the case is very romantic. Miss Journeaux, who lived at St. Heliers, Isle of Jersey, went rowing from there with her lover on Sunday evening, May 18th. When out quite a distance from land her companion accidentally lost one of his oars, and, in endeavoring to secure it, the second one fel linto the water. He then jumped into the sea and swam after them. Before he could regain them the boat had drifted far out to sea, and to save his own life the man was compelled to swim to shore. The boat drifted about for two days, during which time Miss Journeaux suffered terribly. On Tuesday, May 20th, she was picked up by Captain Langran, of the Tombola, who showed her the greatest kindness. She was given dry clothing and every attention paid to her during twenty-six days until the Tombola reached Bay St. George, Newfoundland, for which place she was destined. From there her friends were communicated with, and she shortly afterwards sailed for home. In the meantime the authorities at St. Heliers had arrested her lover, claiming that he had murdered Miss Journeaux, and had invented the story of the loss of oars and the drifting of the boat to sea, to cover his crime. While the trial was in progress the news of the safe arrival of Miss Journeaux, at Bay St. George, was received and her lover was released.

A CYCLONE'S FREAKS.

A Heavy Roof Torn from a Warehouse and Hurled upon a Steamer.

KINGSTON, Ont., Aug: 14.—Last night a fierce cyclone from the south-west swept over Clayton. N.Y. It tore a roof forty by one hundred feet off Mr. Barney's warehouse, hoisted it high in the air, carried it 200 feet and dropped it upon the steamer St. Lawrence belonging to the St. Lawrence River Steamboat Company. The crash was terrible, but fortunately no one was killed. Captain Estes narrowly escaped. The roof, with timbers eight by ten inches, struck the spar and smoke stack first carrying the former to the deck, demolishing the pilot house, crushing in the light upper works and wrecking the rails. The huge timber was forced through the bulkhead on the port side, and a lifeboat was driven into the purser's quarters. Many plate-glass windows were broken, and fifty chairs on the promenade deck were made kindling wood of. Had the spar been slight and the vessel less staunch it would have been crushed to a shapeless mass. The cap[illegible] of the hurricane deck, immediately behind the pilot house. The room was slightly damaged, but fortunately the major portion of the roof fell forward. The bell was thrown over the port wheel, and the clapper was discovered on the deck on the starboard side. The dial of the clock was in the pilot house, the works, still running, were beyond the walking beam. The vessel has come here for repairs.

SIR CHARLES TUPPER.

The Marquis of Lorne Presents an Address to the High Commissioner.

LONDON, Aug. 14.—The Marquis of Lorne, on behalf of the Canadian exhibitors at the Colonial Exhibition, yesterday presented to Sir Charles Tupper an address expressing appreciation of his efforts to promote Canada's interests.

Lord Lorne, in presenting the address, spoke of the pleasant memories he and the Princess Louise had of their sojourn in Canada. He said he hoped soon to revisit Canada and see the progress which the Dominion had made since he was a resident.

The presentation was followed by a lunch, at which were present one hundred and fifty guests, including Lord Lorne, Sir A. P. Caron, Sir Philip Cunliffe Owen and the executive staff of the Exhibition.

COBOURG.

SUDDEN DEATH.—On Tuesday evening Mrs. Thomas Clarke, mother of Coun. Clarke, and Mrs. Geo. Archer, died suddenly at the family residence, King street west. Deceased had been ailing for some time, and but a few moments before her death was attending to her household duties, and appeared to be no worse in health than usual. Her sudden death is attributed to disease of the heart. She was a kind mother, and a true Christain friend, and the sorrowing husband and family have the heartfelt sympathy to the public.

THE ARSON CASE.—L. U. C. Titus, of Brighton, was before the Police Magistrate on Thursday morning on a charge of arson, in burning the barn of Mr. Brown, now in gaol awaiting trial for counterfeiting. Brown swore that he and Titus had a conversation about the barn. He told Titus it was insured, and Titus asked him why he did not burn it and get the insurance. Titus said he would do it for $100. Afterwards Titus told him he had given Cummings $12 to burn the barn, but he had not done it. Titus said he would do it. He came back and said he guessed it was not going to burn. Brown and Titus went down again and found the fire smouldering. Brown set it off again. The barn burned that time, which was in April, 1885. He got the insurance, and gave Titus $20. Cummings, who is also in gaol awaiting trial for counterfeiting, swore to a conversation with Titus regarding the burning of Brown's barn. They were talking about Snellgrove's barn which had been burned but a short time before. Titus said there was another job on hand and asked him if he would go into it. He asked what it was, and Titus told him it was to burn Brown's barn. Titus offered him $30. He paid him $12; the balance to be paid when the job was done. Cummings had the money still; or at least it was in his house when he was arrested. He never intended to burn the barn, and had no idea of it. After-hearing the evidence the police magistrate committed the prisoner until the fall assizes. Mr. J. W. Kerr appeared for the crown, and Mr. J. Y. Cruikshank for the prisoner.—*Sentinel-Star.*

Cutting off Freight Rates.

NEW YORK, Aug. 14.—The *Tribune* says: "While the trunk line officers here say the cutting of east bound freight rates is not as severe as before the recent Chicago meeting, they admit that irregularities are plentiful and that unless promptly checked they will cause demoralization."

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

The great International Saengerfest at Berlin, Ont., was brought to a close on Friday, having been highly successful from both a musical and financial standpoint.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

The traffic receipts of the Grand Trunk railway for the week ending August 7th were $320,120, an increase of $54,782 compared with the corresponding week last year.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

The North American Caledonian Association opened its annual convention on Friday in Montreal, about sixty delegates being present from all parts of Canada and the United States.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

A meeting was held in Toronto on Friday to discuss the proposed erection of a music hall in the city. Further consideration of the matter was postponed for four weeks.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

The Royal Templars of Temperance on Friday terminated a series of successful prohibition meetings by an excursion to Grimsby Park, the principal address being by Rev. Dr. Purdy, of New York.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

Williams and Mainwaring, London Socialist leaders, who held a Socialist meeting on July 18th. were convicted of "obstructing the streets," and were fined $100, with an alternative of two months' imprisonment.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

A Dubious Compliment.

Miss Ethel—I have such a lovely compliment for you, Clara.

Miss Clara—Yes?

Miss Ethel—Yes, I told Mr. Featherly last evening that you were only a trifle over 22, and very beautiful, and he said that you didn't look it. I suppose, of course, that he meant that you didn't look to be 22. He's delightful.—*New York Sun.*

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

Journalistic.

We desire to congratulate the Whitby *Gazette* on the addition of eight columns to its size and a new press to its plant. The *Gazette* has shown marked improvement during the past year, and we hope that its prosperity will increase.

What Does it Mean?

One would be apt to ask some such question as the above when passing the Bon Marche store, there is such a constant stream of buyers going in and out, all smiling and apparently in the best of humor. It is the bargains they are getting that causes so much joy.

Runaway.

On Saturday night a horse belonging to a Mr. Mann backed out of the sheds at Croft's Hotel and made its way out of the yard. It ran down Water street, across the market and down George street a little way before it was caught. No damage was done.

Claimed.

On Sunday morning at about two o'clock P. C. Adams came across a boy 8 or 9 years of age who was promenading the streets. He took the lad in charge, escorted him to the police station, and laid him on the downy bunk, where he rested till morning. His name is Chard and he came from Stirling. His friends found him out on Sunday and took him away.

As Good As New.

Some time ago the Union Bus Line Co. placed one of the Union busses in Porter Bros'. factory to get repaired. It has come out of the paint shop as trim and neat as a new pin. The gearing has been looked to, it was newly upholstered in crimson plush inside, and the gold and other fancy lettering is a model of what can be done in Porter Bros'. establishment.

Special Attention.

Special attention is directed to Dr Potts' regular monthly visit as per advertisement in another column. It will be seen that Dr. Potts is having very marked success in his treatment of Chronic diseases deformaties and all who are afflicted should not let this opportunity pass without calling upon him. His great success in the treatment of the diseases of the Eye and Ear is being appreciated, many persons deaf for years have had their hearing restored under Dr. Pott's care.

Cruising on Stony Lake.

On Saturday the Cruiser brought down from Stony Lake a number of passengers from the various camping parties that dot the islands, some to return on Monday and some to give place to new arrivals. In all directions may be seen the gleam of white tents and whiter sails, or the flash of a paddle, showing how many have come to the sensible conclusion that the best kind of holiday is an interval spent in the enjoyment of nature. Yet these parties are within easy reach of civilization, and for many comforts, for rapid transportation of supplies and mails, are they indebted to the Cruiser and Capt. Eden, who spares no trouble in his ready willingness to accommodate the campers. Even those who cannot spare a week, may have a very pleasant day's excursion through this beautiful scenery, taking the steamer at Lakefield and returning in time to catch the train for home.

An Acknowledgement.

Mr. F. W. Millar, master of the Fire Brigade Band, acknowledges, with thanks, in behalf of the band, the sum of $137.01 from the united churches' committee, Dr. Burnham and Mr. Nugent, $70 from the St. Paul's Church ladies, and $25 from the Peterborough Water Company, these contributions to be applied towards paying off the debt on the new uniforms.

Laying the Foundation.

The Brown memorial which was built by Mr. Burgess, will be set up in the Central Park this week. A four and a half foot excavation has been dug and filled with solid masonry. On this firm base the fountain will stand. The memorial is all ready at Mr. Burgess' marble works, opposite the Post Office, it having been all carved in sections.

Fast Horses.

The secretary is constantly receiving entries from a distance for the races to be held here on Aug. 26th and 27th. On Saturday two of Torontos best horses were entered. It is confidently expected that these races will eclipse anything of the kind ever held in the town, and those who attend will have the pleasure of witnessing really grand horse racing. Remember the dates, Thursday and Friday, Aug. 26th and 27th.

Sporting Items.

In the international cricket match at Seabright, N. J., on Friday and Saturday the Canadians defeated the United States team, thus winning their third consecutive victory.

The Montrealers defeated the Irish lacrosse team at Montreal on Saturday.

Toronto baseball club beat Oswego, at Oswego on Saturday, by 7 to 5.

The Irish lacrosse team have got a Blow. He plays in the home field.

A baseball umpire was killed at Boston on Saturday. A despatch says it was a foul tip did it. A non-baseballist might think it foul, but would probably call it a severe blow.

THE finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

A Little Museum.

In one of the windows of Mr. J. Erskine's dry goods store there is a sight worth seeing. It consists of views of choice scenery of the Canadian North-West, gold and copper ore and amathyst, and other stones, from the same region. Notable representations in the photographic collection are the driving of the last spike in the Great Canadian Pacific Railway, Sir Donald Smith officiating; scenes from the wreck of the Algoma; Kakebeke Falls in summer and winter; a view of the great wooden bridge, 296 feet high, over Stony Creek; Lansdowne's reception at Port Arthur, giving a view of the triumphal arch; a holiday scene at Port Arthur, where the athletes are contesting for honors on the main street; and a view of the eastern extremity of the Canadian Pacific Railway, with a glimpse of the Pacific ocean a short distance away. This collection is the property of Mr. Albert Dawson, who has recently been here on a visit. The photographs were taken by Mr. J. F. Cooke, of Port Arthur, and some by Mr. W. J. Barrie, of Port Arthur, formerly of Peterborough.

KITCHEN Grindstones, 3 sizes on hand, cheap. GEORGE STETHEM.

Personal.

Mr. John Garvey, a good citizen of Peter-Peterborough for many years who has now almost transplanted himself in London, is in town. He will remain here all week. Mr. Garvey says that the Oddfellows made a great impression on the Forest city people. He also mentioned that the Foresters had a great day there on Saturday. They all came out in fine shining green silk sashes and green velvet coats. He took them for Irishmen till the matter was explained.

Mr. Peter Arnott, formerly of Peterborough, now of the firm of Medlar & Arnott, contractors, Toronto, is in town on a short visit. Mr. Arnott is a son of the second chief of police of Peterborough.

Dr. O'Sullivan and W. J. Fitzgerald left town this evening for Chicago where they will attend the Irish National League conections.

Mr. T. McCarthy, formerly of Peterborough, now of New York, is in town on a visit. Mr. McCarthy looks well, and appears to have made a mark in business as well as in personal appearance, for he now has the management of one of the branch offices of the celebrated dry goods firm Lord & Taylor.

INTERCEPTED BY THE RAIN.

The Peterborough-Campbellford Cricket Match Stopped.

The cricket match between the clubs of Campbellford and Peterborough, which has occasioned considerable talk during the past few days, was to have been played to-day.

The visiting team, composed of Messrs. T. Tate, E. Pratt, R. Bonnycastle, E. Willoughby, A. Robinson, G. Dickson, R. Y. Leslie, J. Mitchell, R. Nancarrow, A. Denmark and J. Ferris, arrived in town on the morning train and quartered themselves at the different hotels. At about eleven o'clock they went to the P. A. A. A. grounds.

The Peterborough team, as will be seen by the following names, was without doubt the strongest that has been put into the field for years. The same team, it need not be feared, would do Peterborough credit if matched even against the best team in Canada. The names of those composing the team are: W. A. Strathy, S. Ray, H. Ray, T. Baker, J. Stirling, C. J. Logan, J. E. Hammond, Max. Hamilton, R. B. Rogers, W. Sailsbury and J. H. Long.

The play commenced at about half past eleven, Peterborough going to the bat. Logan and Ray went in first. The first went out with six. Max. Hamilton came in, and when the rain stopped the play they were just getting nicely warmed up to their work with 70 tallied for Peterborough on the score book.

An adjournment was made to the Association dining room where dinner was served. This is the proper term for the place; for in it old associations were recounted while the viands rapidly disappeared before sharp appetites. When dinner was over both the visitors and the Peterborough's regretted the inclement weather, and all reluctantly left the field, It will be in order to arrange another match to decide this matter of supremacy if there really is such a thing to decide.

The visitors leave this evening by Grand Junction in a special car.

POLICE COURT

ASSAULT.

MONDAY, Aug 16.—James Whitehair was charged by his father, Wm. Whitehair, with having assaulted an assault on his complainant, on March 8th.

The defendant pleaded not guilty.

The testimony of the complainant was taken. From what he said the assault constituted in the son trying to get out of the father's house. He had been commissioned by his sister to go and get some property belonging to her, which he did.

Mrs. WHITEHAIR testified that her son took the goods away with her consent.

The MAGISTRATE—Well, Mr. Whitehair, what do you want done with your son?

The COMPLAINANT—I want the law to take its course.

The law took its course by the case being dismissed.

BOUND OVER.

A charge of using threatening language was preferred against Wm. Whitehair by his wife. The testimony of Mrs. Whitehair was taken in which she stated that she was afraid of her husband.

The defendant was bound over to keep the peace at $500 and two sureties at $250 each.

FENELON FALLS.

DIPTHERIA.—There are three cases of Diptheria in the village—two of them being in the Methodist parsonage, where the Rev. Mr. McAmmond and his only child, a bright little boy about 7 years old, are down with the disease. The recovery of the child, who has been sick since Sunday, is doubtful, but Mr. McAmmond is doing well, the attack in his case having been a mild one. The third patient is Mrs. McDiarmid's eldest son, Thomas, aged about 18, who, according to the latest report as to his condition, is a good deal better than he was a day or two ago. We have since heard that Mrs. McAmmond has also been attacked by the disease.—*Gazette.*

Take a Pill

To regulate the bowels and drive away the sick or bilious headache which is the result of constipation. But don't rack your frame and overburden your organs by taking the old-fashioned great, drastic, griping pills. Science makes rapid advances, and "Dr. Pierce's "Pleasant Purgative Pellets" are the result of careful study and skilful preparation. They are entirely vegetable, and operate without disturbance to the organs of the body, or to the occupation or diet of the patient.

A Murderer at Large.

MONTREAL, Aug. 14.—Last night Police Magistrate Dugas went to Riviere le Lievre, where Joseph Boisclair, a farmer, is accused of murdering his wife. A bailiff of St. Jerome, Godfroi Omemette, signed a deposition giving facts as he had been told them, and saying that all the inhabitants believe Boisclair guilty. He is still at large.

Fire at Cobourg.

COBOURG, Aug. 14.—Fire was discovered about noon to-day in the north portion of the horse and cattle sheds at the Agricultural Fair Grounds. It is supposed to have been caused by a spark of a passing engine on the Grand Trunk Railway. The north and east sides of the building, which enclose the entire grounds, were totally destroyed. They were insured for $250 each in the Liverpool, London and Globe and North British and Mercantile Insurance Companies.

A LARGE STOCK OF NEW NOVELS JUST RECEIVED.

The Daily Review.

TUESDAY, AUGUST 17, 1886.

Personal.

Mr. Watson, formerly of Peterborough, now established in the dry goods business at Trenton, is in town.

READ R. FAIR'S advertisement in first column.

No Concert.

Owing to the unpromising weather the band will not give their usual weekly concert in the Gardens this evening. The concert will be held on Friday evening instead.

A Novelty.

Mr. E. C. Hill, the city bill poster, has put up a novel board at the corner of George and Hunter streets. It is hinged against a post, and folds like the covers of a book. Mr. Hill is evidently on the alert to give his patrons the best possible value for their money.

Attractions at Home on The Civic Holiday.

The "Riverside Lacrosse Club" have endeavored to get up something to amuse those who stop in town on the "Civic Holiday." A grand lacross match will take place in the Riverside Park between the Athletics of Madoc and the Riversides. As the Madocs are the best club they have encountered yet a lively game will be expected. After the lacrosse match is over 'Athletic sports" will take place. A silver cup valued $10 is offered for who gets there first on 220 yards and valuable prizes for other races. Ball to be faced at 5.30 p. m., music furnished by the Fire Brigade Band.

Terrible Expose.

NEW HAVEN, Conn., Aug. 16.—The agent of the Connecticut Humane Society inspected Mr. Porter's baby farm at Westville on Saturday and found the children and the building in a shocking condition. The house is filthy and full of vermin. Twenty-seven children were found huddled together in a room scarcely ten feet square. They were covered with vermin and were much emaciated. Legal steps will be taken to remove the children and break up the farm.

British Association.

A special cable despatch says:—The meeting of the British Association, which will take place at Birmingham on Sept. 1, promises to possess peculiar interest for Canadians. Sir Wm. Dawson has been selected to preside, and will deal in his opening address with the geological history of North America. Prof. Macoun will read a paper on "Canadian Botany"; Alexander Begg will lecture on the Canadian Pacific Railway, and Profs. Fearn and Lawe, of Ottawa, will hold forth on various educational subjects connected with the Dominion.

BELLEVILLE.

RUNAWAY ACCIDENT.—Mr. J. B. Ashley has returned from Adolphustown on Saturday, badly bruised from a runaway accident in which he was thrown 20 feet from the carriage. Mr. Dorland, of that township, was thrown out, striking his hip on a stone. He was partially paralyzed, and is still suffering from the effects of the shock.

FAMOUS COLT DEAD.—The famous two legged colt bought from Mr. Longwall last spring for $500, died at Brockville on Saturday. The owners, Messrs. Fairman, Gauthier and Brown, refused $1,500 in Montreal on Thursday. The carcase has been placed in the hands of a taxidermist. *Intelligencer.*

THE QUEENS SPEECH.

LONDON, Aug. 16.—The Queen held a council this morning at Osborne Castle with the members of the Ministry. The terms of the Queen's speech to be made at the re-assembling of Parliament were read upon. Lord Salisbury returned to London after the council.

A HUNGARIAN ANNIVERSARY.

PESTH, Aug. 16.—Yesterday being the 200th anniversary of the capture of Buda from the Turks Premier Tisza opened an historical museum in commemoration of the day in the presence of all the political and learned notables in Hungary and a large concourse of people. The premier delivered a patriotic speech, which was enthusiastically applauded.

PROTESTANTS CENSURED.

LONDON, Aug. 16.—The *Times* again censures the Protestants of Belfast for their refusal to submit to the authorities.

HOW A BARQUE WAS SAVED.

LONDON, Aug 16.—The British barque Windau, Capt. Harrison, from St John, N. B., for Clonakil, has been towed into Queenstown in charge of a prize crew. Her rudder and spars are gone, and there are several feet of water in the hold. She went on the rocks off Galley Head, in a fog yesterday morning, and was abandoned. Her position was precarious, and the fishermen boarded her, telegraphed to Queenstown for tugs and saved her.

THE PRINCE TO VISIT BERLIN.

BERLIN, Aug. 16.—It is stated that the Prince of Wales will visit the Emperor William in September, and attend the Autumn review of the Guards.

AN OLD SERVANT DEAD.

VIENNA, Aug. 16.—The Emperor Francis Joseph's valet, Haurkoff, is dead. He was 79 years old, and had served the Emperor as valet for 53 years.

CHINESE ON THE RUSSIAN BORDER.

LONDON, Aug. 16.—It is reported that a Chinese army of 10,000 men has quartered on the Sungari River, in Manchooria, near the Russian Boundary.

A WARNING.

ST. PETERSBURG, Aug. 16.—The Czar has warned Paul de Roulede, the advocate of a French war of revenge agninst Germany, that any attempt on the part of the latter to agitate against Germany will be followed by expulsion from Russia.

PETROLEUM IN FRANCE.

PARIS, Aug. 16.—A spring from which flows petroleum of a fine quality has been discovered at Ferrand Auvergne, on the estate of Alfred Arbaux. This is the first petroleum discovery made in France.

THE GERMAN SOCIALISTS.

BERLIN, Aug. 16.—The Socialists of Saxony have collected 3,300 marks for the benefit of their imprisoned leaders.

THE RIVAL MEETINGS.

LONDON, Aug. 16.—The *Daily Telegraph*, referring to the rival meetings at Chicago, says: "The Irish at home will be unable to discern which of the American champions are self-seeking place hunters, and which are genuine, if mistaken, sympathisers with their cause. Davitt's attempt to stem the tide of the American-Irish menace is creditable, but it is likely to be less popular in Ireland than the outspoken Fenianism of the other orators."

KURDS INVADING PERSIA.

LONDON, Aug. 16.—A despatch from Tabris says the Kurds are invading Persia. There has been severe fighting with them, and the Persian Government has appealed to Turkey to stop the incursion.

DEVASTATED BY TORNADOES.

LONDON, Aug. 16.—Central Russia, especially the Moscow district, has been devastated by tornadoes and water spouts. Many buildings and bridges and whole crops have been destroyed.

MILITARY PREPARATIONS.

ST. PETERSBURG, Aug. 16.—A rumor is current that China is hastening her military preparations, and has ordered 200,000 rifles from English firms.

QUIETING DOWN.

BELFAST, Aug. 16.—There was some stone throwing last night, but no one was seriously injured. There are signs that the authorities fear attempts at reprisals to-night on the part of the mob. Public houses are being closed and other precautions are being taken. Scores of persons are being sent to Kilmainham gaol at Dublin to await trial, the local jail being full. The Roman Catholic newspapers here accuse the Orangemen of commencing Sunday's attack, while the Protestant papers say the Orangemen acted in self-defence.

RIOT AT DUNGANNON.

DUBLIN, Aug. 16.—At Dungannon to-day bands of Nationalists paraded the Protestant quarter of the town shouting for Home Rule and cursing the Queen. A riot broke out and several persons were injured. The police had to force their way between the Protestants and the Catholics, thus preventing a desperate fight. One Nationalist was arrested with a knife in his hand. A renewal of the rioting is feared. Party feeling is intense.

A SOCIALIST PROCESSION.

BRUSSELS, Aug. 16.—Twenty thousand Provincial workmen and Socialists took part in the socialist procession yesterday, which was organized as a demonstration in support of the demands for universal suffrage and amenity to Berinage and other rioters. The demonstration was orderly. Thirteen thousand railway were issued to passengers coming to Brussels. The procession dispersed quietly. The council of the labor party has sent to the Premier a petition for universal suffrage, which will be submitted to Parliament.

A GLADSTONIAN BEATEN.

LONDON, Aug. 16.—An election was held in Newton (Lancashire) yesterday to fill the vacancy in the House of Commons caused by the elevation to the peerage of Sir R. A. Cross. Mr. Legh (Conservative) received 4,062 votes and Mr. French (Gladstonian) 3,355.

WON'T VISIT IRELAND.

CORK, Aug. 16.—Mr. Gladstone has written a letter to the Mayor of Cork, in which he says that the report that he intends to visit Ireland is untrue.

CIGAR MAKERS ON STRIKE.

HAVANA, Aug. 16.—Sixty-eight cigar factories working Partido tobacco, have been closed, 6,000 workmen having struck for higher wages. The strike threatens to extend to the Vuelta Abajo factories. The manufacturers have united to resist the demands of the men.

THE NEW CANADIAN CRUISER.

Arrival of the Yosemite at Halifax—Her Name Changed to the Acadia.

HALIFAX, N. S., Aug. 14.—The new fishery flagship, "Yosemite," purchased in New York, arrived here this morning in command of Capt. McElhinney, making the run from New York in forty-two hours, or six hours quicker than the best on record. Her name has been changed to "Acadia," and she will be immediately armed and put in commission under command of the venerable "Admiral" Scott. A few hours after the "Acadia's arrival the United States warship "Galena" steamed up the harbor and anchored abreast the cable steamer "Minna." The Imperial gunboat "Dido" sailed for England yesterday morning. The "Galena" but in here for coal.

WAR ON EVIL DOERS.

Lynch Law Threatened in St. John, N. B.—Crimes to be Severely Dealt With.

ST. JOHN, Aug. 16.—The trial of Daniel Halfield for rape was concluded on Saturday night, and resulted in a verdict of guilty. The prisoner regarded his sentence very complacently. The probability is that he will be sentenced to death. The case is the worst that ever occurred in this place, which of late has been notorious for brutal crimes of this nature. The universal feeling is that the law must be made a terror to evil doers, and nothing less than hanging will suffice. The recent sentence of imprisonment for life on McLaughlan, for breaking into a house and administering chloroform to a sleeping girl with criminal intent, does not appear to have had a deterrent effect on this species of criminals, and it is generally thought that Roberts, now awaiting sentence for indecent assault, will be whipped. The feeling has never been so high in St. John before, and if prisoners are leniently dealt with by a judge an attempt to lynch them will undoubtedly be made.

THE TELEPHONE WAR.

Rumors as to the Ultimate Effect of the Action of the Patent Office.

WASHINGTON, D. C., August 16.—A great variety of rumors and guesses are in circulation as to what is or is not to be done in telephone circles, and as to the ultimate effect of the action of the Patent Office in the case of Gray's application. There seems to be no doubt that the application has been reinstated, and the next question is will it be granted, and will a patent be given to the Gray Company? As the application is now three months old, and as this is the usual time required for getting a patent through, it is expected the coming week will bring an answer to the question. If the patent should be granted there are many who prophesy disaster to the Bell interest, because of the fact that the original Grey claim antedated that of the Bell Company. But there are others who think that the interests are really acting together and have pooled their issues so as to insure a mutual profit from the extension of the telephone monopoly. The Bell patent would run out in about seven years more, while the new patent, if granted now, would have seventeen years to run. Even if the two interests are fighting each other it is not clear how the new dispensation would dispossess the old one under any circumstances, and this is a point to be argued by lawyers, who may be depended on to make as much of it as they possibly can. Extensive litigation, therefore, may be expected.

A TERRIBLE TRIP.

Horrible Sufferings of Fever-Stricken Families in Kentucky.

EVANSVILLE, Ind., Aug. 15—Township Trustee Spreget was notified yesterday that his services were wanted at the river. He was directed to a small family boat lying near the water works. The craft was a nondescript vessel and bore evidences of hard usage. Its bow was staved in and nearly the entire roof blown off. The cabin of the boat was about 10 feet long and 12 feet wide, and in this miserable cooped up box were twelve persons. Hollow-eyed, emaciated, and with scarcely a rag of covering, they lay upon the floor of the boat huddled together, suffering with malarial fever. In the midst of them lay the dead body of an aged woman partially decomposed, the living occupants being to ill to move the body. The sufferers were taken to the hospital, where George Bush, one of the occupants of the boat, told the following story:—Until three weeks ago George and John Bush, Brothers, were farmers in Meade county, Ky., about twelve miles from the mouth of Salt river. Their land was poor and it was with much difficulty that they obtained sufficient food to sustain their families. They finally became disheartened, and determined to try to better their condition further west. To this end they constructed a small boat and on Sunday, July 25th, both families, consisting of the brothers, their wives and nine children—thirteen in all—with their little belongings, embarked in the boat and started on their terrible trip down the river. Two weeks ago to-day Nancy Bush, aged 57, George's wife, was taken ill with malaria, and not being able to procure the necessary medicine it soon developed into typhoid-malaria. The other members were stricken down one by one, until finally all were helpless. In this condition they were overtaken on Thursday night by a heavy thunderstorm, which tossed their vessel about like an eggshell, throwing them from one end of the boat to the other. Their possessions were all swept away by the waves and the roof taken off. During this fearful night Mrs. Bush suddenly grew worse, and began pleading feebly for water, which no one could give her, and she died in intense suffering and agony. All day long they drifted with the current, with the hot sun beating upon the sufferers, while thirst and hunger deprived them of reason. This morning they had drifted nearly opposite the city, when some fishermen saw the apparently tenantless boat and boarded it. Discovering the condition of its occupants they secured their lines and ran the boat ashore. All the sick people were being cared for to-night, but hopes are only entertained for six of them, the fatal and fetid atmosphere tainted with the corpse having had its effect upon the remainder.

CHICAGO, Aug. 16.—A severe storm, accompanied by torrents of rain and a brilliant display of electricity, broke over the city at 4 o'clock this morning. Several buildings were blown down.

CINCINNATI, Aug. 16.—An unusually severe electric storm passed over the country between Cincinnati and Columbus this morning.

Killed by Indians.

NOGALES, Arizona, Aug. 16.—Despatches from Lieut. Richards, dated Bagnechi, Mexico, Aug 13th, state that James H. Kirk and five other ranchers who were out searching for Indian trails were amoushed last Tuesday by Indians in Santa Rosa Canyon. Two of the Kirk's party were killed in the first volley and a desperate fight ensued in which one more rancher was killed and two wounded.

Valuable Cattle Slaughtered.

MONTREAL, Aug. 14.—Pleuro-pneumonia of a very virulent type has broken out at the cattle quarantine station in Quebec. Dr. McEachern, Dominion Inspector of Live Stock, returned from there this morning, having ordered the slaughtering and cremating of two herds, one of Jerseys belonging to Mr. McCrae of London, and another belonging to Andrew Allan. The Jersey herds are valued at $20,000. There are now over 400 imported cattle in quarantine, some of them belonging to J. J. Hill of St. Paul, others to Mr. Dawes of Lachine, some of them being the finest specimens of Jerseys, Galloways and Ayrshires ever brought to this continent. They cost over half a million dollars. Many of these cattle were imported for the Canadian fall shows. Government stands a portion of the loss to owners.

LET US MAKE OUR OWN RAILS.

The Hamilton *Times* in commenting on the *Star's* proposals that the Dominion Government insist that all roads receiving public aid use Canadian made rails and rolling stock, declares that the suggestion implies that Canadian rails and cars would cost more than foreign rails and cars. It does not necessarily imply anything of the the kind. The manufacture of iron requires a great deal of capital and moneyed men are not willing to risk their all in establishing such an enterprise in a new country unless a market is assured them. Canada probably has a larger supply of first class iron ore than any other country. In some of the provinces the coal supply is closer at hand than in any other country and in the others charcoal may be cheaply obtained if the Government by protecting the iron industry makes it worth while to engage in the production of charcoal on a large scale. These being the natural conditions, if capitalists know that the Canadian market will be assured to Canadian iron makers, there is certain to be competition, and there is no reason why Canada should not be able in a few years to make iron and steel and their products at least as cheaply as any other country. The selling price of the Hamilton *Times* is three cents. If the circulation of the paper were doubled it could afford to issue a better paper than at present, for the same money, or to sell as good a paper as it now prints for two cents. It would cost somewhat more to publish twice as many papers, but it would not cost nearly twice as much. For just the same reason, Canadian iron makers could afford to sell rails more cheaply, if they had the market to themselves than if they had to share it with the whole world. But even if the price of rails should be lightly increased for a few years, it would pay the country to develop its resources in this way. If the men who make the rails for the Cape Breton extension of the Intercolonial Railway live in England or the United States, the people of Nova Scotia can only sell them a small proportion of the necessaries of life. If they live in Cape Breton, the Nova Scotians can sell them almost everything they require. The fishermen can sell them fish, farmers vegetables, millers flour, the manufacturers clothing and furniture. In this way every class of the community would be benefitted by the work of the iron makers. Women and children cannot be employed in the iron industry. The work requires able-bodied men, and they are always paid high wages. At a low estimate these men would average families of five each, so that iron making industries employing ten thousand men would directly support fifty thousand people, and indirectly benefit the whole community. Let us make our own rails.—*Montreal Star.*

Wonders of the Yosemite!

A trip to California may be excellent as a means of recreation and sight seeing, but in point of fact it can't compare in its effects upon an invalid's system to Dr. Pierce's "Golden Medical Discovery," universally acknowledged to be the greatest liver invigorator, blood purifier, consumption cure and general revitalizer and tonic in the world. By its use, thousands whom physicians could not help have been restored to health and happy living. All druggists.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

A DIFFERENCE INDEED.

THE leading organ of the Rielites in Ontario remarks:—

"Between Mr. Laurier, the honored leader of the Quebec Liberals, and the leaders of those Quebec Bleus, who still adhere to the Government, how great a difference there is."

The *Globe* is accurate in saying that there is a great difference.

The leaders of the Quebec Bleus, who still adhere to the Government, are honorable, patriotic, loyal men, who have done their share in building up and uniting our Dominion by the statesmanlike policy adopted by the present Administration. They have respected their oaths of office, when their compatriots and co-religionists have endeavored to seduce them into perjury by advocating rebellion. They have proved themselves courageous by adhering to their duty at the cost of the temporary alienation of some of their old supporters, who, being led away by the "race and creed" cry, have joined the Rouges and their Grit allies in a popular clamour for immunity for Quebec criminals.

Mr. Laurier, "the honored leader of the Quebec Liberals," as the *Globe* calls him, but who in reality is only honored by the friends and advocates of criminals, has a very different character. He is not only a sympathiser with rebellion and murder, but is also a self-avowed rebel, a perjurer and a coward. He has been one of the loudest shriekers for vengeance upon the Macdonald Administration for daring to permit justice to be carried out against a French Roman Catholic who was also a rebel and a murderer. He has also repeatedly declared that he would himself have taken up arms against the Canadian forces and authorities if he had been conveniently situated. And he is a privy Councillor for the Dominion of Canada, bound by a special oath of fealty to his Sovereign and his country, so that he is a perjured and forsworn man. That he is a coward is undeniable, for if he is the rebel at heart that he declares himself to be, his taking action depended upon his his finding comparative safety in the midst of fellow rebels; if he was only pretending disloyalty in dread of the popular excitement in his Province, he was a poltroon thus to shirk his duty and break his solemn oath through fear of a deluded mob stirred up to criminal sympathies by the devices of unscrupulous politicians.

Truly the *Globe* is right in saying that there is a great difference between such a man and the loyal leaders of the Quebec Bleus.

Unhappily there is by no means so wide a difference between the perjured rebel Laurier and Mr. Blake. Sitting shoulder to shoulder in the House of Commons, sharing the leadership of the Reform party, as chiefs of the Reformers of the two great Provinces of the Dominion, their policy and, to a certain extent, their means are identical. Mr. Blake, it is true, is not himself an avowed rebel, and, therefore, has avoided breaking the letter of his oath as a Privy Councillor, but he has plainly violated its spirit by a base compact to serve his own ambition and thirst for place and power by aiding in the attempt to punish with dismissal from office the Macdonald Administration for suppressing rebellion and executing a murderer. He even voted and spoke in his place in the House in favour of this iniquity, though he could not carry with him a number of his parliamentary supporters, and he has driven from him hosts of loyal Reform electors, who will not consent thus to debase themselves.

Mr. Laurier is indeed very unlike the loyal Bleu leader, but he is by no means so very unlike Mr. Blake.

Voracious Grasshoppers.

ONEIDA, N. Y., Aug. 14.—Millions of grasshoppers have made their appearance in the Wilcox neighbourhood, three miles north of this village, in the town of Verona. They are devouring all the standing grain and vegetables, leaving the land barren and desolate. The hoppers completely cover the ground and fences and the roads are full of them. The damage will be very severe.

OPINIONS OF THE PRESS

A GHOST STORY.

The Port Hope *Guide* states that the Township of Hope has lost 400 souls, all along of the N. P. We hope our Port Hope friend will explain how the ravages of the N. P. came to be so strictly confined to the Township of Hope. Did it blast the soil so that green things ceased growing? Did the clouds pass by on the other side and refuse their kindly offices? Or was it the Scott Act that produced the drouth in the land? Peradventure the N. P. has a particular spite against Hope because it is a Grit hive? We hope when next the *Guide* man is tempted to tell such a ghost story about the loss of souls he will remember that he has a soul of his own to lose. If he will promise us this we will tell him where he can find a new subscriber.—*Toronto World (Indep.)*

ORANGE REFORMERS.

The result of the Chambly election created no excitement here. The Liberals, having the entire Orange support, dare not raise the Riel cry.—*Charlottetown despatch to the Halifax Herald.*

THE ONE REFORM PLANK.

If Mr. Mercier and his party come back in a majority at the next elections it will not be, as his supporters know, because his policy was one of reform of legal procedure, economy of administration or progress in education, but because he appealed to the French-Canadian people of the Province to unjustly condemn the Provincial Government for the execution of a French-Canadian criminal.—*Montreal Witness (Reform.)*

REFORM EVIDENCE AND OPINION.

At the Commons election for Chambly, in the Province of Quebec, on Friday last, Mr. Prefontaine, the Opposition candidate, was elected by about forty majority over Mr. Jodoin, the Ministerial nominee. The Montreal *Witness* says:—"The personal qualifications of the two candidates counted for little if anything in the struggle. The real issue was the Riel question." If the result may be taken as a true indication of the sentiments of Quebec Province on the "Riel issue," we apprehend it will create a counter-rising in Ontario at the approaching general election which will consign the French speaking representatives to a hopeless and helpless minority.—*Newmarket Era (Reform.)*

WILL HE DO IT?

It is stated that the Tories have only one reply to charges brought against the Government, and that is that "Riel was hanged." This is not exactly true. But if it were true, how easy it would be for their opponents to deprive them of the reply! Let Mr. Blake go down to Quebec and say the criminal was justly punished, and that a Reform Government would have allowed justice to take its course had it been in office, and the Tories will be debarred from claiming support on the ground that they alone uphold the law and administer justice evenly.—*Toronto Mail.*

BROWBEATING WITNESSES.

Courts of justice ought not to be made places from which gentlemen will shrink, nor should the witness stand be turned into an instrument of torture. The lawyer who presumes on the passiveness of the judge to insult and humiliate a witness is a legal product who has had altogether too much honor in his profession. It is the duty of courts having a proper regard for their own dignity to prevent such performances as the smart lawyer too frequently indulges in, and the profession itself which makes great claims to wisdom and honor ought not to be unmindful of the matter.—*Chicago Herald.*

BANFF SPRINGS.

Description of the Park at the Health-Giving Springs.

The following is the description of the park at Banff, N. W. T., is given in a despatch to the Winnipeg *Manitoban*:—

Banff Park, which has been judiciously reserved by the Dominion Government, is on the line of the Canadian Pacific Railway about eighty miles west of Calgary, amid some of the most beautiful scenery in the Rocky Mountains. Its limits are not yet defined, but it will include any objects of interest in the neighborhood, and will probably be about ten miles long from north to south, and five miles wide from east to west. The railway passes through the centre in a southwesterly direction, and the Bow River crosses from west to east a little south of the railway. The Spray river enters near the southeast corner, runs northwesterly and joins the Bow just below the falls, about three miles from the east side of the park. The hot springs are up on the side of a large range of mountains, about a mile south of Bow river. Devil's-head lake lies in the north end of the park, and Devil's-head creek flows from the lake a distant of about seven miles through the park, falling into the Bow River near the east limit. Banff station in on a pretty piece of level prairie, and a few hundred yards to the north of it the gigantic Cascade mountain rises abruptly from the prairie to the hight of about 5,500 feet, presenting a bold, rugged face of bare rock.

Tunnel Mountain stands isolated in the Bow Valley, between the railway station and the falls; its summit is about 1,000 feet above the river; the side facing the north-east is almost perpendicular, but from the southwest the ascent is tolerably easy and and effort expended in climbing it is well repaid by the splended view both up and down the Bow River and also up the valley of Devil's Head Lake

Of course the hot springs are the principal attraction of the park, and they are already being pretty well patronized by invalids and with very gratifying results: there are several of them varing in temperature from 90° to 113° Fah., situated at different elevations from three hundred to eight hundred feet above the Bow River. The highest one is the hottest and is the one most generally used although it is furthest from the station, about three and a half miles. It issues from the side of the mountain in a good sized stream which flows into the Spray River about half a mile from the spring; a bath house has been erected over the stream a few yards from the spring, it is devided into two compartments, one for ladies and the other for gentlemen. There are two boarding houses close by the baths, and about a dozen tents and shanties which are occupied principally by visitors.

The "Cave Spring" has a temperature of about 90°, and is about three hundred feet above the Bow River, and distant from the station two and three quarter miles. The cave is a curiosity itself, it is approximately conical in shape, about thirty-five feet deep and twenty feet wide at the base, with a beautiful sandy bottom, covered with about three feet of warm water, which is continually bubbling up through the sand. The entrance to the cave is at the top, through a hole about three feet in diameter, and the desent in made by means of a ladder. The air inside the cave is veay hot and moist, making a good vapour bath, the water is cooler than the air and quite refreshing in contrast.

A few rods west of the cave there is an open pool with a depth of about five feet and a diameter of about thirty, the temperature of the water is about 93°. It has a very diabolical smell, but is clear as crystal and is credited with unlimited virtues. There are other hot springs between the cave and the one first mentioned but they are not resorted to to any extent.

The scenery in the park is well worth a visit: the falls on the Bow are very picturesque, the river is confined between high rock banks and tumbles down a steep bed of rocks in a mass of snow-white foam. From a high grassy hill about three hundred yards south of the falls there is one of the most beautiful piece of landscape that any one need wish to see. Looking through a gap between two precipitous rocks about one thousand feet high, the Bow River with its numerous wooded islands, winds its way through a park-like valley dotted with groves or spruce and pine; and in the background stands the immence range of rugged mountains which porders the Devil's Head Lake; but this is only one scene out of hundreds that may be obtained from different points in the park. Above the falls the Bow is as smooth and placid as a lake, it is two or three hundred feet wide affording some beautiful stretches of water for boating besides good trout fishing and more lovely scenery.

Great improvement in the facility for reaching the different points of interest are being rapidly carried out by Mr. George A. Stewart, C. E. There is now a good road from the station to the highest hot spring, crossing the Bow near the head of the rapids, about a mile above the falls. The river is crossed by a floating bridge about three hundred feet long. Near the bridge are an hotel and store, besides a number of neatly furnished tents for the use of gents. Dr. Brett is also building a sanitarium near the bridge; this will be completed soon, and will be a great boon to invalids.

A Kingston Fakir.

A well known Kingston fakir visited Brockville while Forepaugh's show was there, and did well, as the following from the *Times* will show: "Where's the chief?" said a well dressed farmer, who visited the circus grounds on Saturday morning to view the sights. "What's the matter?" said a sympathizing friend. "Why, I have been beaten out of my money, all that I earned last month, and more besides, amounting to $50. I came over here to see them work these 'ar machines, and I tried my fuck. At first I won, and then lost, and then won. That tall fellow there told me that it was a countryman's luck to break the banker of the wheel of fortune, and told me to double every time for three times. I did double and now I ain't got a cent. I wish I could find the chief," and away started the victim in search of redress. He had not gone far until the fakir who had given him what they term the "blow" disappeared, and another took his place.

An Old Lover's Suicide.

OTTAWA, Aug. 16.—James Armstrong, aged eighty-three, who had been crossed in love and whose attentions had been rejected by a spinster seventy-six years of age, committed suicide yesterday, at Lowe, about ten miles from the city, by hanging himself to the beam in the barn of a neighbor, where he was found about twenty minutes after life had become extinct. He was a well-to do farmer and before committing the act made a will bequeathing to his fair intended all his property, real estate and personal. He had been attending the Salvation Army meetings during a visit in the city, and it is believed that owing to a weak mind easily influenced he became a religious fanatic, which with his love escapade led him to take his own life.

Fatalities at the Seaside.

SPRING LAKE, N. J., Aug. 16.—Dr. Wm. R. Cruice, of Philadelphia, died in the surf here yesterday. He had been suffering from Bright's disease. Vivian M. Shaw, of Morristown, N. J., was drowned about the same time, having ventured out too far.

THE OUTCOME OF AN INVENTION.

Readers of the *Lumberman* may remember that a few years there in its colums a machine for compressing sawdust, and from occasional inquiries it is evident that the invention is still of interest to people who are of the opinion that sawdust ought to be utilized.

The inventor of the machine was Mr. W. H. Smith, a gentleman of both general and special ability, and who during the war, was a government engineer of high repute. For years following the close of the war he studied on the machine of which we write. Level headed ordinarily, yet an inventor's enthusiasm took possession of him, and he could see millions in the child of his brain. There was no doubt, in his mind, but the invention would revolotionize trade. He would make sawdust into blocks of fuel, into pulleys, into fence posts, and even into railway ties. Sawdust fuel would become an article of commerce. Samples of it were burned in the *Lumberman* office with the best of results, and the engineers in the city who were furnished with a few hundred pounds to test against the same weight of coal recommended the new fuel in high terms. The use of the machine would not stop on sawdust, however. Oats, salt, bran, hay, cotton—in fact any commodity that in its natural state was to bulky for profitable transportation—could be compressed. Special emphasis was laid on bran. A car load or so was put through the machine and shipped to the English market as a test, and while the success of the process was proved, word came back that the bran was worthless; that the miller had taken too much of the food element out of it, and had left nothing but a dry shell that could only stimulate the animals which ate it by scratching their insides. This advice spoke well for the Minneapolis miller from whose mill the bran was taken, but it was a crusher on the would be bran exporter.

Mr. Smith made preparations to build a machine at a foundry on the west side of the city, and for months worked hard. During this period he associated with him Mr. James L. Houghtalling, a gentleman who had both money and leisure, and who at that time was treasurer of the Mackinaw Lumber Company. The machine on trial exhibitions worked fairly satisfactorily, but less of a mechanic than its inventor was could see that its construction was faulty. Tremendous power was required, and parts of the machinery were too delicate to withstand constant use. But improvements were made until it was thought that the machine could be put on the market, and one was built for the big saw-mill concern, the Rathburn Company, Deseronto, Ont. This company ran [illegible] and it was its intention to use sawdust fuel in the steamer furnaces. Whether there was any temporary success in the scheme we have never learned. At present however, the compressor stands idle, for the eason, it is safe to say, that it is unable to stand the heavy work required of it.

Two compressors were built. One, as stated above, is idle in Canada; the original machine is standing under a shed on the west side; Mr. Smith, the inventor, is dead; and Mr. Houghtaling is now engaged in a business that gives him no time to fool with sawdust compressors. The machine, practically, has been a dead failure. It was conceived in a bright brain, but it consumed the years, and we know not but the life of the inventor. To say the least, he died a disappointed man. He saw the work of years of mature manhood come to nought. The sawdust compressor was not only an ambition destroyer but a money eater. Mr. Houghtalling sank $15,000 in the enterprise, and how much it pulled from the pockets of others we have no means of knowing.

Notwithstanding the dismal record presented above the LUMBERMAN is of the opinion that there would be big money in the invention were it perfected. The trouble is with the machine, and not with the process. The principle is all right; and the next man who attempts to carry it out we trust will have a less thorney road than those who have gone before him.—*Northwestern Lumberman.*

THE REAL AGAINST THE FALSE.

The manufacturers and shippers of cherry have for a time complained that the demand throughout the east for their product was decreasing, and prices were not as firm as formerly. It is also conceded that the demand for cherry has increased throughout the west, while buyers in this section are said to be willing to pay asking prices at the mills for good stocks. An inquiry into the situation in the east reveals a few features which are presented for consideration. It is a trait of human nature to imitate, in order to gain a desired effect at a reduced price. A few years ago it was the custom to use cherry in the natural color, or strained just enough to give the wood an even color, slightly darker than the original wood. This process of filling and finishing did not rob the wood of its natural beauty, and a glance revealed, even to a casual observer, the true nature of a most beautiful species of timber. It was about this time that mahogany began to assume an important place in the estimation of manufacturers, especially in the furniture line, and as that wood was expensive there was an immediate and decisive disposition to imitate it. It was found that cherry, by being deeply stained, could be made to so closely resemble mahogany as to require an expert to tell the difference. The process is known as mahogonizing, and it has been adapted in a general way for the finishing of house decorations and even for store work.

The next step was to imitate cherry, and for this purpose popular is used mostly when intended for house finish, and red birch furniture. The habit of staining real cherry to a blood red, or in other words totally obliterating the natural shade of the wood, has paved the way to palming off other woods, deeply stained, upon many unsuspecting purchasers. It has also resulted in a marked diminution in the demand for cherry; and while the manufacturer may be able to increase his profits by a bare pretension, the handlers of the genuine article are forced to complete with a cheap adversary.

This condition of affairs is the direct result of a demand for a grade of cherry superior to the work of nature—a quality of lumber absolutely free from defects in the nature of gum streaks, the very presence of which bears witness to the genuineness of the article. To offset these alleged defects the finisher has stained cherry to a shade so dark that other and cheaper woods could be used to equal advantage, and there are many users of household furniture who take great pride in what they suppose to be cherry sets, who are in reality idolizing a concoction of birch lumber and cherry stain, for which they paid a price nearly, if not fully, sufficient to have purchased a much handsomer article of cherry.

Cherry in its natural color, when dressed, is a pale pink, and if finished without stain, or with just sufficient to give the entire surface an even shade, can never be successfully imitated by any of the cheap woods, and it need never be feared but that it will stand on its own merits.—*Northwestern Lumberman*

Constipation

Causes, directly or indirectly, fully one-half the sufferings which afflict mankind. It is usually induced by inactivity of the liver, and may be cured by the use of Ayer's Pills. C. A. Schomerus, Great Bend, Kansas, writes: "I have used Ayer's Pills for Costiveness, with the most beneficial results." J. Windholm, Newark, N. J., writes: "Ayer's Pills cured me of chronic Constipation." Martin Koch, Huntington, Ind., writes: "Last year I suffered much from Biliousness

And Headache

After using one box of Ayer's Pills I was quite well." C. F. Hopkins, Nevada City, Mo., writes: "I have used Ayer's Pills, and think they are the best in the world. They have cured me of Sick Headache and Neuralgia." W. L. Page, Richmond, Va., writes: "I have been a severe sufferer from Headache. Ayer's Pills afford me speedy relief." A. J. Forster, Dauphin st., Mobile, Ala., writes: "For a number of years I have been troubled with Constipation and Headaches. After trying a number of so-called Liver Invigorators, without benefit, I was at last

Cured by Using

Ayer's Pills." Rev. Francis B. Harlowe, Atlanta, Ga., writes: "For years I was subject to Constipation, from which I suffered increasing inconvenience, in spite of the use of medicines of various kinds. Some months ago, I began taking Ayer's Pills. They have entirely corrected the costive habit, and have vastly improved my general health." Hermann Bringhoff, jewelry engraver, Newark, N. J., writes: "Costiveness, induced by my sedentary habits of life, at one time became chronic and exceedingly troublesome. Ayer's Pills afforded me speedy relief, and their occasional use has since kept me all right." Ed. O. Easterly, Rockford, Ill., writes that he has been cured of chronic Constipation by the use of

Ayer's Pills.

"Make a Note of It."

Of what? the cheap excursion to Toronto on Civic Holiday, Thursday next. Train leaves 8.30 a. m. Return tickets, good for two days, at Alex. Elliott's, $2. Only limited number issued. Apply early.

Civic Holiday.

Cheapest and Pleasantest excursion of them all. Steamer Golden Eye will run its regular Thursday excursion to Harwood and Idyl Wild leaving the wharf at 8 a. m. Return tickets 60 cents. R. W CARSON Master.

More Entries.

It must be highly gratifying to the promoters of the two days' midsummer races in Peterborough to observe by the secretary's books such a large number of foreign entries. Every day the name of some noted flyer is booked, and some days two or three entries are made. It will doubtless be a meeting worthy of Peterborough.

Knights of Pythias.

Those who have interested themselves in the formation of a lodge of the Knights of Pythias here have succeeded in obtaining the requisite number of names and Dr. King will be here shortly to inaugurate the lodge. Branch lodges of "the Knights" are springing up all over Canada, thus speaking as to the popularity of the order. Orillia is soon to have a lodge.

CARPETS.—50 new designs in Tapestry and Brussels Carpets to select from at R. FAIR'S.

Prizes.

The prizes to be given to winners of races in the Riverside Park on Thursday will consist of medals and cups. The trophy to be competed for in the 220 yards dash is on exhibition in the window of Mr. R. Muncaster's store—a handsome silver cup. The winner of the 120 yards race will receive a silver medal, prettily ornamented and hung on corded silk. This was made at Mr. W. A Sanderson's jewellery store. The other prizes will be of a handsome nature.

Special Attention.

Special attention is directed to Dr Potts' regular monthly visit as per advertisement in another column. It will be seen that Dr. Potts is having very marked success in his treatment of Chronic diseases deformaties and all who are afflicted should not let this opportunity pass without calling upon him. His great success in the treatment of the diseases of the Eye and Ear is being appreciated, many persons deaf for years have had their hearing restored under Dr. Pott's care.

Quarterly Board Meeting.

The regular meeting of the Quarterly Board in connection with the George Street Methodist Church was held on Monday evening. The attendance was fairly large. After routine business, and the consideration of the finances, which were found to be in a much better state than at the same time last year, a resolution was passed memorializing the general conference in favor of permitting the minister to stop five years in a place, instead of three years, provided he be invited by a three fourths vote of the Quarterly Board.

Buffalo and Elk Races

Take place in the Wild West Show on the half-mile race track, in connection with Forepaugh's great Circus, Hippodrome and Menagerie. Here on Aug. 21st.

The Finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

The Webb Property

In Englishtown is offered for sale in three lots on Friday, 20th Aug., at 7 p.m., on the ground. The soil and situation are good. There is a small house on one of the lots. See posters.

At the Butts.

The attention of members of the Peterborough Rifle Association is called to the fact that an important practice will be held at the Association range to-morrow, preparatory to going to the Provincial rifle match, which will be held at Toronto on Monday.

Civic Holiday.

Be sure and go to the P. A. A. A. excursion to Orillia and Sturgeon Point on the Civic Holiday, Aug. 19. First class coaches. Special train leaves G. T. R. station at 7.30 a. m. Return fare to Orillia $1.10, Sturgeon Point, 85 cents. Children under 12 to Orillia, 55 cents, to Sturgeon Point, 45 cents.

Norwood High School.

This institution passed fourteen candidates at the recent departmental examinations, all of whom were regular pupils of the school. There were eight candidates for second class certificates and all passed without exception. The following is the list:—Second class—Minnie Harper, M. McLachlan, A. Nicoll, T. Hawthorne, G. F. Patterson, R. Patterson, A. J. Raddon, M. H. Sheppard. Third class—J. L. Mahoney, M. A. Nicoll, M. Rork, A. Young, A. H. Fowlds, Geo. Rose. Such a result needs no comment on our part, and Norwood may justly feel proud, especially when we consider the difficulty of the papers and the small percentage passed of those who wrote throughout the Province.

Disolved.

At three o'clock this afternoon the papers were signed terminating the partnership which has existed between Messrs. F. J. & J. J. Daly, hotel keepers, Peterborough. This firm assumed the proprietorship of the Grand Central Hotel, then Caisse House, November 1st, 1883, and since that time the reputation of the place has rapidly risen until it is now known as one of the best hotels in the south. The business will in the future be carried on by Mr. F. J. Daly, Mr. Joseph J. Daly retiring. Though the many patrons will miss the good natured and popular retiring member they will doubtless find no diminution of effort to maintain the high standing of the hotel. Under the management of such an experienced hotel man as the present proprietor the Grand Central can be no other than a first class hotel in every respect.

Sporting News in Brief.

The first twelve of the Riversides play Madoc on Thursday in the Riverside Park.

A baseball match—to be—between Hamilton and Toronto in Toronto on Monday shared the same fate as the cricket match between the boomerang throwers and the Peterboroughs. It rained.

It is likely that an exhibition match will be arranged between the Riversides and the Orillias.

The Riversides can't play for the championship medal because they are not members of the National Amateur Lacrosse Association.

The Irish gentlemen played lacrosse in Toronto on Monday, resulting in a victory for Toronto by five goals to two. In the evening the Irishmen were banquetted at the Queen's Hotel. Mayor Howland was there.

The Peterborough cricketers go to Orillia on Thursday to play Orillia.

What Caused It?

On Friday last Mr. John Carnegie, at his residence in Smith, lost a Jersey cow and a six months old calf somewhat mysteriously. The first observed of anything ailing them was on the preceeding Thursday evening. When the man went for them for milking he noticed that, on the way to the milking place, they both drank an unusually large quantity of water, that the calf seemed somewhat dull and that the cow had a slight attack of diarrhœa. On giving the cow her usual feed of carrot thinnings he found she rejected them, and that instead of her usual flow of rich milk, what she gave was little better than water. About ten o'clock the same evening he and Mr. Carnegie had a look at them, when nothing further than a little dullness was observable, and they both left them under the impression that, whatever it was, it was passing away. On going to milk the next morning the man found the calf dead (having died apparently when it lay down for the night without a struggle) and the cow, although she had struggled to do so, unable to get on her feet. Vetenary assistance was at once summoned, but without avail, and she died late that night. On opening their stomachs it was found that they were stuffed with coarse green food and presented the appearance of poisoning, while the inner coating thereof peeled off just as if it had been severely scalded. As the animals had not been out of their pasture for weeks, and it was impossible for them to get anything that did not grow therein or was given them, the presumption is that they partook of some poisonous weed, although it seems somewhat strange that with such growing there nothing of the same kind has occurred in the more than quarter of a century during which time this same field has been constantly pastured.

The A. C. A.

The American Canoe Association began its annual meeting at Grindstone Island, St. Lawrence, on Saturday. Three or four hundred canoeists were in attendance. It is expected that four divisions will now be established—Eastern, Western, Canadian and Southern. Messrs. E. B. Edwards, Lieut.-Col. Harry Rogers, R. Meade, D. Myers and W. Scollie left town this morning to attend the meet.

Mock Turtle.

In most cases "mock turtle" might be termed an obvious deception. Were it not for the good offices of the bill of fare the similarity between the original and imitation would scarcely ever be recognized. But one instance of being deceived into taking the "mock" turtle for the real has occurred. In the Gardens a day or two ago a lady was observed to be making frantic efforts with her parasol to induce the turtles to go into the pool under the fountain. If the turtles don't possess obstinate willsthey make up for it by possessing iron bodies. She was much anoyed at the perversity of of the animals.

Personal.

Mr. Arnold Haultain has, we are glad to learn, accepted the request to deliver another lecture in our town. Those who remember his previous lecture on "Decoration", with his able treatment of his subject, his artistic illustrations and the wit with which it was enlivened, will be sure not to miss this opportunity. His theme ont this occasion will be "Woman: her Rights and Duties" The proceeds are to be devoted to the Zenana Mission. The date suggested is Thursday, August 26th. Further particulars will be given later.

Mr. Alex. Elliott returned from New York on Monday night.

Mr. John Corkery has gone to attend the Irish National League Convention in Chicago as one of the Peterborough representatives.

Mr. Geo. Sherin left town on Monday night for St. Paul. He will reside there for some months.

Mr. Daniel Haggart, formerly of Peterborough, is in town making "auld acquaintance" new. Mr. Haggart is engaged in a prosperous insurance business in Toronto.

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

CANADIANS BANQUETTED.

Banquet in Honor of the Canadian Artillery in London.

LONDON, August 17.—A banquet was given in honor of the Canadian artillery team last night. All the members of the team were present, as were also Sir Charles Tupper and numerous other distinguished Canadians. The Right Hon. W. H. Smith, Secretary for War, and the Marquis of Lansdowne sent letters regretting their unavoidable absence. The Earl of Limerick toasted the team, congratulating the members upon their success. Various other toasts were proposed and responded to. In all the replies, expression was given to the sentiment that the visit would tend to knit kindly the feelings between Canada and the Mother Country. Colonel Oswald extended a warm invitation to English artillery men to visit Canada in 1887, and added that if there should be another gathering of Colonists in England in connection with the Queen's jubilee, Canada would not be behind in doing homage to the Soverign they all love so well.

RUSSIAN DUPLICITY.

Pretentions to Afghan Territory — The Ameer Will Yield no Part of It.

The correspondent of the Montreal *Star* telegraphs as follows from London on Aug. 17th:—A fresh Russian sensation has been caused here this morning by a somewhat abruptly worded announcement in the *Standard* in leaded type that it has been determined to recall the English commission engaged in the delimitation of the Afghan frontier at the earliest possible date. In a long and evidently inspired leader the *Standard* regards its own news as of grave import, saying that the Ameer would rather risk war with Russia than waive his rights. Therefore the state of affairs on the Afghan frontier must, for some time to come, cause reasonable anxiety. The withdrawal of our officers from the false position they have taken up is preliminary not to a repudiation of our responsibilities, but to giving them practical effect. The point at issue is a complicated one. On the best English map Khoja Saleh, at which the line of delimitation was to end, is inside the more southern of two bends of the Oxus. To this boundary Russia insists on adhering. The English officers declare that the location of Khoja Saleh at this point is is geographer's error, and that the real spot of some 12 miles north, namely, at the point a the angle of the northern bend of the river. I have just obtained a glimpse at a very carefully guarded private Russian staff-map a huge chart of Central Asia, which strangely confirms the English view by placing Khoja Saleh at the spot where the English officers declare it to be, but where it is not on any of the present maps. This Russian map is extremely significant in another respect, for it shows large tracts of Central Asia which are left quite blank on the best English maps. This to us, practically unknown country, has been surveyed by Russia almost as thoroughly as are the English counties. It is to early to say whether the *Standard's* news is really grave.

Fire in Telegraph Office.

PITTSBURG, Pa., Aug. 17.—Communication by the Western Union Telegraph Company was entirely cut off in all directions tonight shortly before twelve o'clock by fire, caused by lightning, in rear of the switchboard in the main office. The loss was light, but the inconvenience was great. At one o'clock this morning the management succeeded in establishing communication east and west for the press service, and by daylight it is expected that all the wires will be in operation.

THE finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

LATEST WIRE FLASHES.

Very Hot Weather.

ST. LOUIS, Aug. 17.—The heat yesterday was terrific, many reliable instruments recording it as high as 111. During the whole day a regular sirocco prevailed, the breeze feeling like hot air from a furnace. Nine cases of sunstroke were reported, four fatal.

Testimonial to Mr. Egan.

CHICAGO, Aug. 17.—The Irish National League managers will present a testimonial to their President, Mr. Patrick Egan, at meeting on Friday night. It is a massive silver service and will be given to Mr. Egan in behalf of the League in Ireland.

A Brutal Murder.

KOKOMO, Ind., Aug. 17.—The body of Lou Mabitt, abducted a week ago from her home near Young America by a Mr. Green, was found last night four miles east of Lafayette with her head beaten into a jelly. The girl's mother is lying at the point of death with a broken heart. Green is still at large.

The Missing Editor.

BIRMINGHAM Ala., Aug. 17.—Several days ago, near Carthage, some negroes found a white man lying in the road unconscious. They carried him to their cabin and nursed him. He is now able to sit up, but his mind is wandering. Several white men says he bears a striking resemblence to Mr. Conant, the late editor of *Harper's Weekly*.

Another Heavy Storm.

ABERDEEN, Dakota, Aug. 17.—A heavy storm again visited this vicinity yesterday and swept over fifty miles radius, doing more damage than any previous storm. At Newark, four persons were killed and one fatally injured. Among the victims are the wife and child of John Oakes and Mrs. Wait.

The Meeting of the Canoeists.

KINGSTON, August 17.—About one hundred canoeists have arrived at Grindstone Island to attend the annual meeting of the American Canoe Association. The camp location is an excellent one. Some days will be devoted to cruising between Alexandria Bay and Cape Vincent. Then come the races, when the largest number of canoeists are expected.

Serious Fire.

NEW YORK, Aug. 17.—The two and three story brick building at 204 to 210 Elizabeth street, used by the Brush Electric Light Company as a lighting station for a district covering two miles, was burned last evening. The entire district lighted from this station was in darkness. There were thirty-five dynamo machines in the building. The loss is estimated at $90,000.

Wrecking Trains.

CHICAGO, Aug. 17.—Three distinct attempts were made last night to wreck two passenger trains and one freight train on the Rock Island and Lake Shore Railways. Two discharged switchmen were arrested to-day in the act of misplacing a Lake Shore switch and again this afternoon the police at South Chicago found a bomb on the track of the Lake Shore near the depot.

Seizure of a Canadian Vessel.

DETROIT, Mich., Aug. 17.—A despatch from Mackinac Island says:—The Canadian excursion steamer Francis Smith was seized to-day as she landed at the dock with her weekly excursion from Collingwood, by Collector Watson, of Grand Haven. The last two trips of the boat she neglected to go to St. Ignace and take out her papers before clearing. So to-day as she was expected the Collector and Deputy Warren, of St. Ignace, were on hand and took charge of her, removed her engine bars and put her in charge of two custodians. The Canadians are badly worked up over the affair and the passengers had to take another boat for home to-day. The excuse of the captain and clerk was that under the former collectors they were not compelled to obey the strict letter of the law.

An Amusing Case of Libel.

A libel case which is exciting a great deal of fun in police circles has come to the surface. Early yesterday morning detective M. J. Donovan, of this city, and deputy-sheriff Rice, of Orleans county arrested at Albion, Jacob Juirich, captain und owner of the canal boat William McHenry, on the charge named. The complainant in the case is William McHenry, a grocer at Black Rock, after whom the boat was named. On the last trip east made by the boat the captain had a new sign on the craft with the picture of a pig between the Christian and surname, which, it is stated, Mr. McHenry interpreted as a tacit insinuation that the captain considered him a hog. It was also alleged that there was a difference of some kind lately existed between the men, and that the captain adopted this method to get even. Juirich was brought before Justice King, and gave bail for his appearance on Sept. 7.

Discovery of Train Wreckers.

OTTAWA, August 17.—A special detective of the Canada Atlantic Railway Company, claims to have a clue to the identity of the miscreants who attempted to wreck the returning train of the Orange excursionists from Kingston on the 12th of July. He says that two suspicious characters were seen in the vicinity of the scene of the attempted outrage for two days before the affair occurred, and that on the morning after they disappeared. The detective says that a man walking in the bush alongside of the track saw the two men place obstructions on the track. He disturbed them and gave chase for nearly a mile, but the dastards escaped, and he saw nothing more of them. It is said, however, that they came to Ottawa and took the Western train, and that they will likely be arrested to-morrow. The detectives claim to have evidence that the culprits were but tools of parties in Montreal who knew them to be desperate fellows and kept them plentifully supplied with liquor through the assistance of parties near Alexandria. It is said the men were doth discharged employes of the C. P. R.

KING LUDWIG'S HEART.

BERLIN, Aug. 17.—The heart of the late King Ludwig of Bavaria, in a silver urn, was deposited at Neuotting yesterday with great pomp. The requiem mass was attended by thousands of persons.

GOLD AT DURBAN.

DURBAN, Aug. 17.—A speculation fever has been caused here by the discovery of gold.

SALISBURY MUST EXPLAIN.

DUBLIN, August 17.—The *Freeman's Journal* says Mr. Parnell's summons shows that the Parnellites do not intend to await the convenience of the ministry in dealing with the Belfast riots and the alarming condition of the Irish farmers. Lord Salisbury must explain how he intends to meet the contingency of the inability of the farmers to pay their rents, and he will be called upon to declare the policy he intended to substitute for that of "Manacles and Manitoba."

EARTHQUAKE AT MALTA.

LONDON, Eng., Aug. 16.—Three shocks of earthquake were felt in Malta yesterday at entervals of eight hours. No damage was done, but the people were made frantic with fear.

BOULANGER'S BIOGRAPHY.

PARIS, Aug. 17.—The biography of Gen. Boulanger is selling largely on the Boulevards. The pamphlet is supposed to be the work of an enemy whose intention was to ridicule the Minister of War, by means of extravagant laudation. *Figaro* affects to believe that the work is inspired by the General himself, whom it compares with Bornhardt. The publisher has been notified officially to stop the sale of the pamphlet on the ground that General Boulanger had not authorized the publication.

RIOTING AT LURGAN.

DUBLIN, Aug. 17.—Rioting occurred at Lurgan on Sunday, during which isolated shots were fired and the policemen hissed. Troops are now kept in the town under arms.

MEETING OF NATIONALISTS.

LONDON, Aug. 17.—Mr. Parnell requested all the Irish members of Parliament to be present on Thursday at the re-assembling of Parliament. He says that in view of the grave and pressing condition of public affairs it is very necessary there should be a full attendance of the Irish contingent.

MORE FIGHTING IN BELFAST.

BELFAST, Aug. 17.—There was a renewal of fighting to day between the Catholics and Orangemen. Stones were freely used. The military charged the rioters and quickly dispersed them. Several arrests were made.

KILLED BY SAVAGES.

DURBAN, Aug. 17.—Lieut. Bethell and a trooper belonging to the Bechuana police have been brutally murdered by Kaffirs while hunting in the interior of Africa.

CENTENNIAL ANNIVERSARY.

ARREST OF A SPY.

BERLIN, Aug. 17.—Count Seibienski was recently arrested at the Thorn while sketching an old building. Although he gave a full account of himself, he was kept in custody twelve days on suspicion of being a spy and then released. It was explained that his imprisonment was the result of a misunderstanding. The affair has caused a sensation.

MINISTERIAL PROGRAMME.

LONDON, Aug. 17.—Although the speech from the throne will not indicate Lord Salisbury's Irish policy, it is understood that either Lord Randolph Churchill or Sir Michael Hicks-Beach during the debate will intimate that a measure will be introduced next year dealing with the Irish local government and land questions. The Gladstonians will except such intimation as a sufficient pledge of the present, but the Parnellites appear to be determined to press for details, in which event a discussion will probably ensue. As soon as the address has been adopted, the Government will move that the supply bills have precedence.

CHURCHILL'S SCHEME.

LONDON, Aug. 17.—The Government intends to introduce at the next session of Parliament a measure giving local Government to Ireland on a basis of the plan prepared by Lord Randolph Churchill. Lord Hartington's party will support the scheme.

AFGHANISTAN.

LONDON, Aug. 17.—The report that the Government had decided upon an immediate withdrawal of the Afghan Boundary Commission is officially denied. The Government is awaiting Russia's reply, respecting a small portion of the Afghan boundary not yet settled in the Oxus district. Until the reply has been received no decision will be taken respecting the date of the withdrawal of the commission, but whatever may be the nature of the reply, the commission will return to India before winter. In spite of the official denial, it is believed in well informed circles that the *Standard* is virtually correct in stating that the Government has asked Russia for yes or no in reply. It is not likely, however, that such a reply will be given.

WEDNESDAY, AUGUST 18, 1886.

THE PUBLIC DEBT.

RECENTLY the Brockville *Recorder* stated that the Conservative Government had added to the public debt four times the amount added to it by Mr. Mackenzie. The REVIEW on several occasions called on the *Recorder* to correct that statement, which it has not done, but it has attempted to defend itself. The finances of the Dominion is a subject of interest to all, and we will examine the statements now made by the *Recorder*. It begins by saying:—

"The Peterborough REVIEW has on several occasions accused the *Recorder* of stating what was false respecting the public debt of Canada. We are not aware that we have done so—if our figures were incorrect the political friends of the Reform party are responsible, as they were all taken from official figures prepared at Ottawa."

The *Recorder* is still wrong, for the official figures show that, when it stated that the Conservatives had added to the public debt four times the amount added to it by Mr. Mackenzie, it was over $82,000,000 astray! The *Recorder* proceeds:—

"On the other hand the figures of the REVIEW are wrong. It stated in a recent article that the debt in 1885 was $196,407,692, whereas the correct figures, leaving off the odd thousands, are $281,000,000, an increase of $106,000,000 since its friends returned to power in 1878, or at the rate of over fifteen million dollars a year."

If the *Recorder* will take the trouble to refer to the public accounts for 1885, page xviii, it will find that the total public debt is $17,000,000 less than the figures it gives, and the increase less than it states by the same amount. The *Recorder* makes an almost unpardonable blunder, and shows its utter ignorance of the subject it attempts to discuss, when it says:—

"The REVIEW seeks to take away from the effect of these figures by placing a value on our public works, counting them as assets and deducting their value, but the fact remains and cannot be got over, that we have a debt of $281,000,000."

The REVIEW did not do so, but said that the correct method of examining the financial position of the Dominion for the purpose of comparison was to take the net debt, after deducting available assets. If the *Recorder* had a mortgage on its plant, but held a mortage on real estate for as large an amount, it would scarcely consider itself in debt. For similar reasons we deducted from the gross public debt the sum of $68,295,915, available assets, $50,000,000 of which bear interest at rates varying from 3 to 6 per cent. A statement of the assets may be found on page xvii of the public accounts for 1885. This left the net debt of the Dominion $196,407,692. When we compared this with the amount of the public debt in 1878 we, in the same way, deducted the available assets, which showed that the debt in 1878 was $140,362,069. The net debt in 1873 was $99,848,462. This shows that the Mackenzie Government added $40,513,607 to the debt in five years and the Macdonald Government $56,045,623 in seven years, and proves, what we stated, that the Reform Government increased the public debt more rapidly than the Conservative Government has, the average increase per year under the Reform Government being $96,203 greater than under the Conservatives.

There are, in addition to this, other considerations favorable to the administration of the public affairs by the Conservatives. The average interest paid by the Dominion in 1878 was 4.05 per cent., while in 1885 it had been reduced to 3.81 per cent. The average interest received by the Dominion on its assets had increased during the same period from 1.63 per cent. to 3.94 per cent.

Again, the amount expended on capital account from 1873 to 1878, the Reform period, was $38,515,992, while the amount spent on capital account by the Conservative Government has been $80,786,172. The Conservatives having thus expended $24,740,549 more on works of public utility than did the Reformers, while at the same time they have not increased the public debt so rapidly, and have decreased the rate of interest paid.

The *Recorder* makes use of the very dishonest trick of comparing the average increase per year in the net debt during the Reform period with an exaggerated statement of the average increase of the *gross* debt under the Conservative period. Such disreputable trickery cannot avail with sensible people who pay attention to public affairs, and will only result in disadvantage to the person or paper which stoops to such tricky methods.

The figures we have given are from the public records, and they prove plainly that the cry raised by the Reformers regarding the debt of the Dominion is one by which they should not obtain the confidence of the electors. Their misrepresentations are glaring, and the unfounded attacks on the financial position of the Dominion, while they are made with the view of injuring the Government, are of such a character as to be injurious to the country. They should be shown that such misrepresentations and unpatriotic attacks will not be tolerated.

OPINIONS OF THE PRESS.

LEARN THE LESSON.

The lesson of the Chambly contest teaches us that the Riel element is not dead in Lower Canada, but a living factor that will be met in every contituency of the Province.—*Irish Canadian.*

QUEBEC REFORMERS.

The party which exists for the glorious mission of putting Mr. Mercier and his friends into office and which for that lofty purpose is trying to create enmity between the two races which share this province, will get the full benefit of the Chambly vote. —*Montreal Star (Indep.)*

DEFIANCE.

The return of a strong contingent of Rielites from Quebec at the next general election animated by the sentiments which Mr. Prefontaine has expressed would be a distinct defiance to the whole English population, and alliance with such a parcel of demagogues, who are handed over, body and bones, to a despicable spirit of agitation could not but result disastrously to a combination outrageous to every person in Canada of English sympathies and training. The Riel party runs contrary to the prejudices of educated, reasonable Frenchmen; it is despised by every believer in constitutional opposition. To predict the fate of a party allying itself with the Rielites is not therefore a very difficult task.—*Ottawa Journal (Indep.)*

HANDS JOINED.

The Riel platform and that alone was occupied by Mr. Prefontaine and his friends, and it is evident from the telegram of Mr. Edgar, who speaks with authority for Mr. Blake, that the Liberal leaders in Ontario propose to stand side by side with the race and revenge men on the Regina scaffold. The brave words spoken by Mr. Blake at London on December last have been repented. Then he would not erect a political *scaffold* on the Regina scaffold, he would not condemn party ties with the blood of the condemned man, he would not try the future's portals with the past's blood-rusted key, but now in the hope that he may vault into power over the body of Riel he and his friends are ready to join hands with the Nationalists and to aid and encourage them to their work.—*Montreal Gazette.*

A GREAT SUCCESS.

The Premier's visit to the far west has been an unqualified success. To few men does it fall to be able to travel thousands of miles upon a great trans-continental line which realizes one of the bold dreams of his early years, meeting everywhere people among whom his name is a household word. The railway is a mighty fact which speaks for itself, and for the men who had the courage and skill to carry out the scheme with such amazing rapidity. It is with pardonable pride that Sir John points to it as one of the results of his policy. Were it not for it we would still be in the humiliating position of having to use our neighbor's door every time we wish to reach our own garden patch.—*Toronto World (Indep.)*

RIEL'S TRUE CHARACTER.

The *Canadien*, of Quebec, having published the *Minerve* reproduced a letter from a priest residing in the Northwest, in which Riel in treated without reserve, the *Etendard* thinks proper to consider the letter a fabrication. In reply, the *Canadien* offers to put down $500, on condition that *Etendard* does the same, the money to be donated to some charitable institution designated by Cardinal Taschereau, in case the letter proves to be a forgery. If, on the other hand, it be proved to be genuine and valid, the $500 deposited by the *Etendard* will be devoted to the same object. Our Quebec contemporary thinks the *Etendard* should not be so much surprised at hearing of missionaries regarding Riel as an apostate and a wretch. Mgr. Grandin expresses the opinion of the clergy who saw the agitator at work, when in a letter read on the floor of the House of Commons, he declared that Riel was a hypocrite—a renegade— who, in his wickedness and malicious cunning, seemed like one possessed of a devil.—*Montreal Gazette.*

The Indian Railway System.

Some idea of the value and importance of the Indian railway system, with its connected steamer services, may be gathered from the fact that the capital sunk in these undertakings is estimated at £161,917,840. Of this large sum the Government have spent directly £82,255,391. The capital outlay of guaranteed companies stands at £71,032,838, and that of the "assisted" companies at £3,808,232. Native States, the principal in this respect being Mysore and Hyderabad—are responsible for an outlay of £4,821,379 on lines within their territories. When the construction of railways in India was first mooted there were some who warned the projectors that caste prejudices would prevent the natives from using them; but it is an astonishing fact that last year Indian railways carried no fewer than 80,964,779 passengers, who paid for their fares £5,338,126. In 1883 the number of passengers was 73,815,119, and their freight was valued at £5,070,753. The chief income of most railways, however, is derived from its goods traffic, and in this respect the Indian lines yield more than double the receipts obtained from passengers. No less than 18,925,385 tons of goods were carried, the receipts from which amounted to £11,915,375. Both the tonnage transported and the return show an increase over the figures of the previous year, which was credited with a goods traffic of 16,662,007 tons, and receipts therefrom amounting to £10.565,941.

The New Canadian Cruiser.

HALIFAX, Aug. 17.—The exact amount paid by the Canadian Government for the yacht Yosemite, now called the Acadia, was $40,000, or less than one third her cost six years ago. She runs seventeen knots, and averages fourteen knots an hour, consuming eight tons of coal per day. She is luxuriously fitted throughout. The Acadia is to be commanded by Captain Scott.

IMPERIAL FEDERATION.

THOUGH the REVIEW remarks that there is no need of any hurry in framing detailed plans for the Confederation of the British Empire, yet such plans have already been published, and I feel disposed to try my hand at constitution making on paper. As a loyal Canadian, but none the less a loyal subject of the British Empire, I hold that we should keep in view the federation of its various members and aim at linking them more closely together. Discussion of the subject may tend to facilitate this desireable object, and this is the more expedient as annexationists, whether avowedly so or presenting themselves under the transparent guise of independents, secessionists, &c., base their criticisms of Imperial Federation upon misrepresentations of the views of its advocates.

To send representatives from the colonies to the already overburdened Parliament as now existing at Westminster is clearly inadmissible, and is not at all necessarily implied in the idea of Imperial Federation. There would have to be a special Council or Parliament having jurisdiction in imperial matters. In this the various portions of the Empire should be represented, according to population, by a similar arrangement to that determining the number of members from the Provinces in the Canadian Parliament. To give fair play to the minor constituent portions of the Empire, with their diverse interests, it might be deemed expedient to allow each a certain equal number of members in addition to the "representation by population," as among our neighbours, each State, large or small, has two Senators, the same principle being practically observed in Canada in the allowance of a more than normal number of representatives to Manitoba, British Columbia and the Territories. This would minimize the objection that the "colonial" members would be swamped in the greater number from the mother country; an objection, by-the-bye, that might be retorted upon us by the people of the Three Kingdoms if Imperial Federation were long delayed, for in course of time the "colonies" must outnumber the mother country. This consideration will also warrant that the Dominion of Canada, Australia, &c., should each rank as a unit, while the Three Kingdoms conjointly should do the same, not each Kingdom severally. There would have to be an Imperial Cabinet, and a modification of the Judicial Committee of the Privy Council would give us an Imperial Law Court.

The constitution would have to define the limits of Imperial jurisdiction. Peace and war, army and navy, diplomacy, great imperial routes, cables and mail subsidies, inter-dominion differences, imperial franchise and such subjects of general importance would be matters for the Federated Empire. Their tariffs must be left to each constituent portion of the Empire, but they might make mutual agreements to favor each other, and then entrust, if they chose, the supervision of such arrangements to the imperial authorities. Having a voice in Imperial matters each portion of the Empire must contribute towards the expenses. The amount might be based on wealth rather than population, or be of the nature of an assessment rather than a pole tax, or both combined. Canada's expenditure on her militia would have to be taken into account, the cost of her great imperial route, the C.P.R., etc, and so with other portions of the empire.

This is only the sketch of an Imperial constitution, and necessarily so. Many details must be settled by mutual agreement before any plan is adopted, and the situation may be materially changed before the time comes for the federation of the Empire. It has been assumed for instance that groups of colonies, such as those in Australia, will organize themselves into Dominions, and that the Three Kingdoms will adopt a system of Local Legislation. Both seem imminent, but neither may be speedily accomplished. The exceptional case of India has not been dealt with. It would require special treatment and the careful consideration of experts. Clearly it could not be allowed representation according to population, nor could it be called upon to contribute in the ratio either of population or wealth. It would be a difficult question, but surely not insoluble.

The human eye cannot foresee the future with any certainty, so it would be futile to say "Thus shall our Empire be constituted." Circumstances must determine our action, and our growth. But it is surely better to aim at consolidating our Empire than to contemplate severance from a country, from a flag, from a history, in which we are proud to have a share, or to look towards a union with a foreign power. Canada and the great Empire of which it forms part have the opportunity of a noble career in common, and as a contribution to the discussion of the best mode of promoting it, I offer these suggestions as

Newfoundland Fish Trade.

HALIFAX, N.S., Aug. 16.—Advices from St. John's, Nfld., say that the foreign fish market has greatly improved. Large orders have been received from Spain and Portugal. The Governor of St. Pierre has been notified that the new regulations, ordering the French troops to be supplied with cod-fish will create an annual market for one hundred thousand quintals.

A Somnambulist's Death.

NEW IBERIA, La., Aug. 17.—Mrs. Felix Brossard, a prominent lady here, arose last night, carefully dressed herself for the street, and went to the railway track and sat down upon the track. The engineer of the 3 a. m. express noticed her in time to stop, and lifted her from the track, leaving her standing on the street. When the train started she threw herself under the wheels and was crushed to death. It is believed that she was asleep at the time, as she was subject to somnambulism.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

Just as Richard Sullivan, of Farmerton, N. B., had got his last load of hay into his new barn the building was struck by lightening, and all the hay, and some farm machinery, consumed.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

The latest "longevity" item is furnished by a family in Kingston, N. S. It consists of ten members, who are all living, the youngest being 52 years of age. The added ages of the ten equal 700 years.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

A temperance coalmaster was one day returning from a masters' meeting, at which it was resolved to lower the miners' wages, when he saw one of his workmen lying on the roadside "fu'." What is this I see? Drunk again, John and in these hard times." "Just that, sir (hic), but (hic) at my ain expense."

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

A child who was fishing near Syndreal Island, Stoney Creek, caught a small black bass. Before it could be landed a large maskinonge swallowed the bass, bait, and part of the line, and got off with the booty.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

A New Brunswick man while cutting up an old tree for kindling struck what he thought at first was a nail. He began to whittle around it, when he found an old brass door knob thoroughly imbedded in the wood, the tree having grown entirely around it.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of God Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Cholera Preventative.

In order to withstand Cholera and such like epidemics a perfect purity of Blood, and the proper action of the stomach are required. To insure that end, in the cheapest, most available and complete manner, use McGregor's Speedy Cure for Dysyepsia and Impure Blood. There is no purer, safer or more reliable remedy in existence for Indigestion, Dyspepsia, Costiveness, etc. Ask your neighbors or any person who has used it. Sold by John McKee. Trial bottles given free.

Card of Thanks.

At the last regular meeting of the Fire Brigade Band held on Tuesday evening, a vote of thanks was passed, thanking the ladies of the different churches in town for the handsome manner in which they carried out their part of the lawn social, held in the grounds of St. John's Church for the purpose of raising funds to assist in defraying the expenses incurred by the procuring of new uniforms. Especial thanks are due to the ladies of St. Paul's Church for raising such a handsome sum of money, and to the ladies of St. John's Church for the use of their beautiful grounds.

W. C. T. U.

The Women's Christian Temperance Union held a public Union meeting Monday evening last in the Y. M. C. A. Hall. The children's meeting which was announced for seven o'clock, was not as well attended as it might have been, owing we presume to the inclemency of the weather, However Mrs. Jones, superintendent of evangelistical work, succeeded in organizing a Band of Hope. After the children were dismissed Dr. Fife addressed those present on the Royal Templar's work. Miss Sanderson, President of the Union, who has been attending the convention of Royal Templar's at Hamilton, gave a report of the proceeding there. Mrs. Jones then gave a short address.

MOUNTED Grindstones for Hand or Foot Power. GEORGE STETHEM.

Financial District Meeting.

The District meeting of the Peterborough District in connection with the Methodist Church was held at Lakefield on Tuesday. The only matter of importance was the decision as to what amount to recommend the Conference to grant to the missions of this district. There are three missions altogether, Hiawatha, South Cavan and Chandos. The two latter raise about $100, but the Hiawatha (Indian) mission is maintained by conference support solely. The amount recommended to be granted between the three is $1,500.

ATKIN & SON'S Panel, Hand and Rip Saws are *fully warranted*. GEORGE STETHEM.

Personal.

Mr. Geo. W. Rubidge and Mrs. Rubidge arrived home on Tuesday evening after having spent five months at Parry Harbor

The Rev. I. Tovell, the popular pastor of the George Street Methodist Church, will leave town to-morrow morning for Wellington county where he will spend a couple of weeks with his relatives. Afterward he will attend the session of the General Conference in Toronto, which will last two weeks, and then will return home. Arrangements have been made for supplying the pulpit during the four Sundays which he will be absent.

Police Uniforms.

At a meeting of the police supervision committee held on Tuesday night the contract of supplying of the new police uniforms was awarded to Messrs. T. Dolan & Co. The chief's uniform will consist of a blue staff patrol jacket and trousers trimed with maple leaf braid. The Constables uniforms will consist of a blue cloth tunic with white metal buttons, two buttons on each cuff, a standing collar with the number engravable in white metal, on it, blue cloth trousers with scarlet seams down the legs. The contract price without extras is $32 for the chief's uniform $27 for the constables uniforms.

A Good Reputation.

Peterborough's citizens have a good reputation for carrying out everything they go into. Smiff says so, and it must be so. The gentlemen who have the management of the grand two days's races in hand, which are to come off here Thursday and Friday, Aug. 26th and 27th, are determined that they will uphold Peterborough's high reputation on this as well as on all other occasions. They promise the general public and all visitors two days of genuine sport such as they have not seen in this portion of Ontario before. Entries in each event are well in, and some very fast horses from the United States and Canada will compete. The purses are all creditably large, and the races will be carried on in a strictly honest and straightforward manner. Remember the days, Thursday and Friday, August 26th and 27th.

LADIES' JERSEYS.—30 different styles in Jerseys to select from at R. FAIR'S.

Sporting News in Brief.

The Hamilton and Oswego baseball clubs met in Oswego on Tuesday. The Hamiltons were beaten by a score of 5 to 1.

The Irish gentlemen lacrosse team are having a right royal reception. They left Toronto on Tuesday and drove out to Richmond Hill, where they were fairly embraced by the people. An address of welcome was read, the brass band played, banners fluttered, and the evergreen arches opened to let them pass. In a match played with the Young Canadians the latter won by three goals to none.

Gaudaur, the oarsman, has arrived in England.

Harry Gilmore, the light weight, while on a holiday trip to Owen Sound, knocked out a native of that village in the second round.

In settling up the affairs relating to the dissolution of partnership between Messrs. Daly Bros., Mr. J. J. Daly's trotting mare Fanny B., together with her wardrobe, was transferred to Mr. F. J. Daly for the sum of $700. The wardrobe is quite extensive, consisting of several suits, harness, sulky, etc. Fanny will remain in the stable at the Grand Central hotel.

The Webb Property

In Englishtown is offered for sale in three lots on Friday, 20th Aug., at 7 p. m., on the ground. The soil and situation are good. There is a small house on one of the lots. See posters.

Attractions at Home on The Civic Holiday.

The "Riverside Lacrosse Club" have endeavored to get up something to amuse those who stop in town on the "Civic Holiday." A grand lacross match will take place in the Riverside Park between the Athletics of Madoc and the Riversides. As the Madocs are the best club they have encountered yet a lively game will be expected. After the lacrosse match is over 'Athletic sports" will take place. A silver cup valued $10 is offered for who gets there first on 220 yards and valuable prizes for other races. Ball to be faced at 5.30 p. m., music furnished by the Fire Brigade Band.

Civic Holiday Doings.

To-morrow being the day set apart as Civic Holiday, the citizens will observe it in the usual way. The only attraction at home will be the lacrosse match between the Riversides and Athletics. The latter are said to be a strong team, and the Riversides, heretofore victorious, will likely have their hands full. In addition to the match a programme of sports will be run off. Fine medals and cups are offered. The excursion under the auspices of the Peterborough Amateur Athletic Association to Orillia and Sturgeon Point will leave the Grand Trunk station at 7.30 a.m. A number of private picnics are on the tapis. An excursion train to Toronto will leave the C. P. R. station at 8.30 a.m. The return tickets are good for two days.

The Finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

Forepaugh and his Cowboys.

Among the many features of Adam Forepaugh's great combination of Wild West, circus, menagerie, hippodrome, &c., not the least attractive will be the advent of a veritable band of "cowboys," a class whose aid the great gazing Pampas of the West would be valueless, and the Eastern necessities of the table the tan yard, and the factory would be meagre. These will be the genuine cattle herders of a reputable trade, and not the later misnomers of "the road," who, in assuming an honored title, have tarnished it in the East, while being in fact the cowboy's greatest foe, the thieving, criminal "rustler." To *Wilke's Spirit*, we are indebted for a just favorite at description of the American ranchman. "The cowboy! How often spoken of, how falsely he is imagined, how greatly he is despised (where not known), how little understood! I've been there considerable. How sneeringly referred to, and how little appreciated, although his title has been gained by the possession of many of the noblest qualities that form the romantic hero of the poet, novelist and historian; the plainsman and the scout. What a school it has been for the latter? As 'tall oaks from little acorns grow,' the cowboy serves a purpose, and often develops into the most celebrated ranchman guide, cattle king, Indian fighter and dashing ranger. How old Sam Houston loved them, how the how the Mexicans hated them, how Davy Crockett admired them, how the Comanches feared them, and how much you 'beef-eaters' of the rest of the country owe to them, is a large sized conundrum. Composed of many 'to the manner born,' but recruited largely from Eastern young men, they were taught at school to admire the deceased little Georgie in exploring adventures, and though not equaling him in the 'cherry-tree goodness,' were more disposed to kick against the buldozing of teachers, parents and guardians."

PETERBOROUGH RACES.

The Prospect of the Midsummer Meet Being a Great Success.

The 26th and 27th of August promises to be gala days for Peterborough. On those days the Driving Park Association will hold their first grand midsummer meet, at which one thousand one hundred dollars will be laid out in cash prizes.

Special cheap excursions are going to be run on the Canadian Pacific Railway from both east and west, and it is likely that the Grand Trunk will follow suit. The meet has been well advertised throughout the Midland District and it is expected that thousands of people will visit Peterborough on those days.

The liberal prizes offered by the Association have the desired effect. Mr. Alex. Elliott, the secretary, is daily in receipt of letters and enquiries from noted horse owners, and already the various races are well filled with the cream of Canadian trotters and runners, and some from the United States have been entered.

A FARMER MURDERED.

Goes to His Barn and is Killed—The Suspected Murderer.

BRADFORD, Ont., Aug. 17.—On Monday night about 9 o'clock Mr. Andrew Sloan, one of the most respected farmers of the township of West Gwillimbury, County of Simcoe, met with his death in a mysterious way. It seems that a few minutes before nine o'clock Mr. Sloan went out to the barn tell Kelly, a hired man, to extinguish a light which he was using. A few minutes afterwards Kelly entered the house and told the servant girl to tell Mrs. Sloan to go out and see her man, at the same time making the remark, "he won't trouble me any more." On going out Mrs. Sloan found her husband near the barn making efforts to get up, but was unable to do so. With the assistance of the servant girl, Mrs. Sloan carried him into the house, the blood gushing out of his ear. Medical attendance was at once sent for, but before he arrived the man was dead. The young man Kelly was in Mr. Sloan's employ over twelve months, during which time the best of good feeling existed between both employer and employed. A warrant has been issued for the arrest of Kelly, and also for a young lad named Joseph Craig, who was in the barn a few minutes before Mr. Sloan was found.

Tried to Corrupt a Customs Officer.

MONTREAL, Aug. 17.—Information has been laid in the Police Court here, accusing one John N. Waters, insurance agent, of having on the 12th instant endeavored to corrupt Jean Brosseau, customs officer, who made a seizure of the books of Ayer & Co., by offering him $10,000 for the books.

Two Men Killed.

CAYUGA, Miss., Aug. 17.—Dr. Lister, while on his way to see a patient on Saturday night, was accosted by Ben Johnson and W. C. Findley. The former drew a pistol and said he intended to kill Lister. Findley cut Lister with a knife and the doctor shot both men dead. He was acquitted to-day.

DITTO! DITTO! DITTO!

THE RIVERSIDES WIN IN THEIR USUAL WAY.

A Pretty Exhibition of Lacrosse—The Park Full of People—The Races After the Match.

On Thursday afternoon the first twelve of the Riversides, of Peterborough, and the Athletics, of Madoc, made each others' acquaintance in the Riverside Park.

The Athletics arrived in town at 8.20 by the Canadian Pacific Railway, having got aboard at Ivanhoe. They were escorted to their headquarters, the Grand Central Hotel. After taking rooms and relieving themselves of superfluous dust they proceeded to look over the town.

The game was called at 2.30 in the afternoon. The Fire Brigade Band and the two teams marched over to the grounds, followed by about six hundred spectators. While the men were getting ready the first heat of the 220 yard race was run. Archie Moore, A. Rose, of Peterborough, and H. Senklar, of Madoc, entered. Moore won by about two yards, Senklar second. Time 29¼ seconds.

The two teams then appeared on the field; the visitors in jersey blue suits and light blue caps, and the Riversides in their pretty new uniforms. The positions were as follows:—

RIVERSIDES.		ATHLETICS.
J. Phelan	Goal	Geo. Wright
E. Rogers	Point	H. Senkler
W. Walsh	Cover Point	J. R. Orr
T. Meagher	Defence Field	A. Huff
A. Rose	"	W. Wright
W. McAvella	"	P. Corkery
F. Larone	Centre Field	D. Caverly
T. Giroux	Home Field	E. Brough
F. Pakenham	"	H. H. O'Flynn
J. Begley	"	C. McDonald
H. Neil	Outside Home	W. Cross
J. Scott	Inside Home	E. Cross
M. McDonald	Field Captain	Jas. Dolan

Mr. A. Elliott acted as umpire for the Madocs and Mr. R. Stevenson umpired for the Riversides. Mr. A. McNeil was the referee.

THE FIRST GAME.

At ten minutes to three o'clock "Brigham," the Riverside centre, and Caverly knelt before the referee. The rubber was laid in the crevice and Brigham pulled it. Brough was the first to make use of it, though. He made a running shot, but the ball was quickly sent back down the field. Then it travelled to the river's edge, where it had to be faced. About ten minutes was here spent in facing, owing to wild throwing. After this the game went on smoothly and satisfactorily. As the players in the field commenced to warm up with hard play, the people on the grand stand grew proportionately intense in excitement. Toward the last part of the game there was simply a succession of cheers. The ball repeatedly dropped around the Madoc goal, only to be captured and sent out again by Senkler or Wright. Neil and Giroux made some direct shots on goal, which were cleverly stopped by the Madoc defence. After a host of drop shots the game was won by Begley swiping the ball through. Time, 40 minutes, including stoppages.

THE SECOND GAME.

The Peterborough centre again drew the ball. Brough again nabbed it and ran down towards the Riverside's goal. After delivering it Welsh took possession and sent it flying past centre where Begley netted it and gave it another start on. It landed close to the goal where it was picked up and sent coursing down the field by Wright. Packenham secured it and doing some adroit dodging cleared the crowd by which he was hemmed in and threw it to McAvella. It arrived in the proper stick in due time and McAvella ran in with it. But just as he got to within a few feet of the goal and prepared to send it through he slipped and fell. Senkler as usual took it away again but the ball had only about half spent its speed when it was arrested by Roger's stick. Some lively scrimmaging was done here; and the game went on, the excitement only momentairly calming down when a couple of players tumbling over each other in their haste to get the ball would bring out a laugh or when those who had hitherto reclined quietly in the shade of a remote big elm created sport by being driven out of comfortable quarters by a troop of suddenly appearing players in hot chase. Meagher, McAvella, Larone and especially Rose, put in excellent work for the Riversides, and for the visitors the Cross brothers, Orr, Huff and Senkler played well. The second game had the same sort of an end as the first in two respects—there were a lot of drop shots and the home team won. Begley scored. Time 9 minutes.

THE THIRD GAME

was so short that a thirsty spectator hadn't time to go over to where Mr. Trebell and assistants were dispensing the lemonade before it was all settled—the game, not the lemonade. Larone drew the ball again and followed up the advantage by taking it on his stick and running in at the goal with it. Only once did it pass centre, and that was when Senkler put it there. The drop shot put in by Duncan and the rest were incessant for a brief time. Giroux sent it through in lightning style. Time 3 minutes.

AFTER THE MATCH

The players all went out into the centre of the Park. Those on the grand stand couldn't hear what sentiments were expressed, but saw the white caps of the Riversides wave and then heard a cheer, followed by the waving of the blue caps and then more cheering. Then all the hats waved and everybody cheered, and some of the many ladies who were on the grand stand were then noticed to wave their handkerchiefs — perhaps this last demonstration was on Mr. Calcutt's account.

The races came off when the smoke cleared away, and the teams had donned their coats.

Archie Moore won the second heat of the 220 yard race, and got a pretty silver cup.

The 100 yard race was won by Senkler, Moore second. Time, 10½ seconds. A handsome medal was given.

The boys 100 yard race was won by C. Minore with J. McDonough second.

The 100 yard race, open to lacrosse players only, was won by Senkler, of Madoc, with J. Phelan second. Time, 11½ seconds.

REMARKABLE.

Though the Captain of the Athletics persuaded his men till his nose was sunburnt and the sweat ran down his face he could not get the ball through.

Mr. LeBrun had a quartette of his tailors playing on the home team and one on the Athletics. If he doesn't play himself he supplies the material.

The Athletics had a group photograph taken at Sproule's in the forenoon.

Because the Rivverside's centre is a "young" player is that the reason why he is called Brigham?

Some would be spectators refused to pay the fee and went their way. They were observed afterwards to scale the fence. It's a good job for them that Mr. Calcutt's dog didn't see them.

There is one good thing above others to say for the Riversides and that is this: They have never been guilty of rough or unfair play and have always observed the precept "quit ye like men" in the lacrosse sense.

The receipts were something over $90.

Grand Gala Day Parade.

As all our readers know, we are to have the great Forepaugh and Wild Beast Combined shows here, on Saturday, August 21st. At 9 o'clock on the morning of that day the grand street pageant will start from the show ground accompanied by four bands of music. The first section will consist of the mammoth menagerie, led by twelve elephants, and then will follow the costly and elegant dens of the giraffe, rhinoceros, hippopotamus, sea-lions, etc., etc. The second section will be composed of hundreds of handsome horses, gaily decked, and mounted processionists. The third section will be composed of the famous Wild West show. It will be led by a real Cowboy's Brass Band, following which will appear the old Deadwood mail coach, driven by a former knight of the whip of the Overland Mail Company, and a delegation of Far West Indians in full war paint and feathers, and a hundred plainsmen, scouts, savages, sharpshooters, etc., all dressed in wild west garb and mounted on Indian ponies. The fourth section will present the circus celebrities, and special features, such as Cleopatra and her barge of gold, Lalla Rookh, Princess of Delhi, and then comes the great Mikado of Japan and all his royal court, led by the band from the town of Titipu. Thousands are everywhere flocking to see this famous exhibition. Nothing in the show world has hitherto been seen equalling in magnitude, and merit, Forepaugh's Great Combination for this season. The canvas seats 20,000, and with pleasant weather there will be no vacant seat beneath it on the day of the exhibition.

THE IRISH QUESTION.

THE POLICY OF THE SALISBURY ADMINISTRATION FORSHADOWED.

Lord Randolph Churchill's Speech in Reply to Mr. Gladstone—Local Government for the Three Kingdoms.

LONDON, August 19.—Lord Randolph Churchill, in reply to Mr. Gladstone, stated that the Government had come to the conclusion that the adoption of coercive measures for Ireland would be unwise. Continuing, he said the Ministry wished the question of local government to be treated as a question affecting the United Kingdom. In regard to Belfast, the Government would take care that crime should not become chronic there, as was the case in some other parts of Ireland, nor would the Government tolerate any attack upon the Royal Irish Constabulary, whose services were deserving of praise. The Ministry were determined to restore order in Belfast, and would shrink from no responsibility in order to obtain that end without delay. With reference to Kerry, he said the Ministry had resolved to send there a special military officer of high rank, invested with such powers as would enable him to restore order. The moment the Government became conscious that further powers were necessary they would summon Parliament to their assistance. Regarding the land question, he said the Government were not prepared to adopt the judicial rents fixed by the Land Commissioners, as they were considered too high for all present purposes. The Ministry would take their stand on the Land Act of 1881 as a final settlement. At the same time the Government had decided to appoint a Royal Commission—(derisive laughter on the Parnellite benches)—to make a careful enquiry during the ensuing autumn and winter into the working of the existing land system in Ireland. The Government did not intend to deal with the land question by making any reduction in the rents—that was contrary to their policy. The Government, he continued, also proposed to utilize the autumn and winter by procuring the best information obtainable regarding Irish industries. They proposed to appoint a small commission of three gentlemen of position and experience, who would be able to give conclusive information to the Government on such points as the question of a deep sea fishery on the West coast, harbours of refuge, extension of railways, arterial drainage, etc. Continuing, he said the Government intended to devote the recess to a careful consideration of the question of local government for all three Kingdoms. They hoped that when Parliament re-assembled in February they would be prepared to submit definite proposals on that most important of all questions. In conclusion, he said the Government took the verdict of the country in favor of maintaining the union as final and irrevocable. Upon that verdict they placed their policy, and by that policy they, both as a Government and a party, would stand or fall. (Cheers.)

Lord Churchill was followed by several Parnellites, who declared that they were not satisfied with a policy of delay.

A CLUB'S OPINION.

BELFAST, Aug. 17.—At a meeting of the Conservative Club here to-day, at which Mr. DeCobain, M. P. for East Belfast, presided, resolutions were adopted declaring that the police needlessly fired upon the people during the late troubles, and that they had forfeited public confidence; also that the Government must remove the paid magistracy. Mr. DeCobain made a speech in which he said better men were wanted for the magistracy than worn-out military officers and cadets of eminent families.

THE QUEEN AT EDINBURGH.

EDINBURGH, Aug. 18.—The Queen is at Holyrood Castle. Her Majesty visited the Edinburgh Exhibition to-day and was greeted with great enthusiasm.

FOR BURMAH.

LONDON, Aug. 18.—The Indian Government is inviting tenders at Newcastle for transforts to be ready to proceed to Bombay and Calcutta at the end of August. They are to be used, it is presumed, to land reinforcements of troops for Burmah.

THE IRISH LAND PROBLEM.

LONDON, Aug. 18.—The *Times*, speaking of the land problem in Ireland, suggests that if it can be shown that in a certain limited class of cases, the fall of prices has made the position of the occupier of a property under the land act untenable, a remedy might be found, partly in a measure providing means for emigration and partly in a long purchase scheme on indulgent terms. To be applicable only to the tenacies of such limited class. The Government, if it should seriously meditate such a policy, could indirectly mitigate the pressure upon the tenants during the autumn by promise of special consideration under the scheme of purchase to the landlords, who are willing to reasonably abate the existing rents in cases within the scope of the remedial measure.

A BIOGRAPHY.

PARIS, Aug. 19.—Gen. Boulanger has been unable legally to suppress the sale of his biography. Thousands of copies of the pamphlet have been sent into the provinces, and sales in Paris and throughout the country have been enormous.

A TAME OPENING.

LONDON, Aug. 19.—At the hour Parliament met a heavy rain was falling and the crowd gathered about the Westminster building was small. Some enthusiasm was displayed on the arrival of various prominent leaders, but it was generally faint. The attendance in the House was large. Many members arrived before they had breakfast in order to secure good seats.

SAVINGS BANKS.

In an article on "The Government Savings Banks," the *Monetary Times* bases its chief opposition to them on the ground that the deposits are taken from the loanable capital of the country, and that money is thus rendered scarce and dear for the customers of the chartered banks.

We can hardly believe that our contemporary is serious in this contention, so plainly is it contradicted by well-known facts. At the annual meetings of the banks, president after president stated that the difficulty had been to employ their funds, so that large sums of money had to be sent abroad even though it could only be loaned at very low rates of interest.

Another objection made by the *Monetary Times* is that the savings banks' deposits were diverted from floating capital and are fixed in public works, which are not directly productive. A young country like Canada has to borrow money in order to establish means of communication, and these facilities for transport can hardly be said not to assist directly in production, being as necessary for marketing wheat, lumber or manufactured articles, as the plough, the axe, or the machinery in the factory.

A third criticism is against the Government converting these deposits into loans, instead of borrowing a fixed sum abroad. It is argued that the facility of obtaining loans in this form will tend to augment unduly the public expenditure. This is hardly likely to be the case when the exact amounts thus used are published, and are therefore subject to the control of Parliament and the criticism of the press. Any such encouragement of public extravagence could be readily counteracted, and this very slight danger is altogether outweighed by the benefit of encouraging private savings. That these banks, especially those connected with the postoffice, are really used by those who can only make small savings, and not to any considerable extent under subterfuges by capitalists, is amply proved by the classified statistics of the business of the depositors and the amounts of their deposits that have been published.

That the Government Savings Banks have rendered a great service to these small investors, and therefore to the community, is incontestable, and those who would close them or diminish their rate of intefest cannot be regarded as friendly or even fair to the working man, who would slowly accumulate from his earnings a small fund for a rainy day or for his advancement in life.

SECRET SOCIETIES.

Cardinal Gibbons, of Baltimore, if correctly reported, seems to take a different view as to secret societies from that of Cardinal Taschereau of Quebec, and, indeed, of the Pope. He is reported as speaking as follows in the name of his church in reference to Cardinal Taschereau's condemnation of the Knights of Labor:—

"We hold that if a man joins a society, swearing never to reveal any of its work, no matter how criminal, and to obey the dictates of its officers blindly, he surrenders his personal liberty, becomes a slave to his fellowman and cannot partake of the sacraments of the Church. On the other hand, if a man joins an organization swearing to keep secret it workings with the proviso that nothing therein shall be contrary to the laws of the land, his conscience and religious tenets, we hold that his action is perfectly justified. The whole question as to the church attitude towards the Knights of Labor depends upon which of these two oaths the members take."

If this is really the view of Rome, the Masonic and other bodies supposed to be under the ban of the church would certainly be free from its censure. But the dicta, thus ascribed to Cardinal Gibson, seem to differ widely from other pronouncements made by the authorities of the Church of Rome.

That great English journal, the London *Times*, makes an urgent appeal for assistance for the reported sufferers in Labrador. This shows the mischief of such diabolical inventions, for a future tale of real distress may fall upon less attentive ears. It is, however, another instance of there being "good in things evil," for this flagrant exposure will show the civilized world the degree of credit to be given to the imaginative reports of Reform journalists when indulging in their favorite device of decrying this country and its surroundings so long as the people of Canada entrust the administration of their affairs to Conservative statesmen.

A new development of the policy of slander adopted by the Rielite-Reform combination, is the charge brought against Mr. Chapleau of accepting money to advocate the cause of a contractor. They omit to mention that Mr. Chapleau was not then a Cabinet Minister, or even a member of the House of Commons; that, being a barrister, he was simply employed professionally; and that the contractor obtained his money by the judgment of a law court. Yet the Rielites cite this as a case of Ministerial corruption in the hope that the ill-informed may believe their slander.

The Rielite journals are again assailing the wives of members of the Dominion Cabinet. The theory of the Rielites seems to be that it is very laudable for their friends to commit murder and rebellion, but that to be the wife of a Conservative Minister is so heinous a crime as to outlaw any lady and to justify these cowards in slandering her.

THE NATIONAL LEAGUE.

Delegates Arriving at Chicago—Mr. Finerty's Explanation

Chicago, Aug. 17.—The Delegates to the the Irish National League convention arrived in great numbers during the day, and to-night fully 1000 are on the ground. There was active caucausing about the hotel lobbies respecting the election of officers, but neither element laid bare its hand. There will be a sharp passage on the convention floor appears to be assured. John F. Finerty's name is favorably mentioned as President Egan's successor, while others are combatting his nomination in view of his recent physical force utterances.

Mr. Finerty himself says he does not desire his name to be put forward. With regard to his speech in Ogden's Grove, he made the following explanation to-day:—"We have no desire to force the hand of Mr. Parnell or to drive the Irish people into war unprepared. All that we demand is this (and we will be satisfied with nothing less), that no leader of the Irish people who is supposed to speak for them shall commit himself or them to accepting as a final settlement bills of relief unworthy of the dignity of Ireland's national demand. We are perfectly willing to see them accept such bills as that of Mr. Gladstone as settlement on account, but that must not be accepted as closing the transaction. We see no wisdom in it. It lowers the tone of the Irish cause. It lowers the spirit of the true people. To ask them to subside to a species of mere provincialism is an outrage on their struggle for seven hundred years for liberty."

A PEAT AVALANCHE.

Loss of Life and Destruction of Property in Falkland Islands.

London, Aug. 18.—A despatch from Port Stanley, Falkland Islands, gives an account of a slip of peat which occurred on the night of June 2nd, causing loss of life and great destruction of property, extending the entire length of the south shore of the harbor. At a slight elevation is a peat bog, from which the labouring population cut their fuel. There are no channels which drain the bog, and large quantities of water collect there during the long rains, which at certain seasons last for days at a time. For three days previous to the disaster a rain storm had prevailed. About eight o'clock in the evening the bog began to quake, and finally, with a noise like thunder, it broke loose, rushing down upon the town carrying away everything in its course, blocking up the streets and piling up the peat in places to the height of six or eight feet. Solid stone walls were rent asunder; fences, porches and iron lamp posts were torn away, and boats and houses were swept away before its march. The bewildered and terrified population believed the town was being destroyed by an earthquake, and added their piercing yells and cries for help to the indescribable horrors of the night. The avalanche lasted only an hour, but its path was one of great devastation. A mass of scattered peat, amounting to no less than fifty thousand tons, lay over the town. A boy, aged seven years, and an old man named Patrick Keating were lost. The body of the latter has not yet been exhumed, at the date of the despatch, fourteen days after the slide. The people living near the inundated parts were fearing another disaster and were constantly on the alert, as the winter season, when heavy snows and rains prevail, was at hand. The citizens of the part had collected £200 for the relief of the principal sufferers.

A MELODIOUS MOUSE.

A Rodent in Santa Rosa Which Sings Like a Canary.

An animal such as is described in the two words of the above caption belongs to the family of rodents, but, unlike them, is endowed with the power of song. There are very few of these little animals, in fact they are so scarce that they are regarded in the light of curious phenomena. One of these little natural curiosities has taken up its abode in Doctor Gladwell's dentistry. Some five months ago the doctor's attention was attracted by what seemed to be the singing of a canary in the near neighbourhood, and at the same time he noticed a little mouse that was in the habit of scampering across and around the office at all times of the day. The mouse did not annoy him in the least, but for the sake of ladies who came into the office he thought he would trap the inoffensive little thing. Accordingly he set a trap for it—one of those kind that it is easy to get in but hard to get out of. On coming to the office one morning he forgot to look at the trap as usual, but soon his attention was called to it by the peculiar sounds that were issuing therefrom. At first he thought it was the canary bird he had been attracted by for some months past, but on going to the mouse trap he he saw the author of the music. The trap contained a singing mouse, the only one known on this coast. It took him some time to make sure that the little creature was the vocal artist, but he soon became convinced by the actions of the little animal while sending forth its notes. It would stand up on its hind legs and act otherwise like a canary. The little fellow was kept in a trap for a month, during which time he entertained his captor with songs. At the end of this time the care of him became too much for the doctor, so one morning he turned him loose. But great indeed was his surprise when on entering the office the next morning to find the trap occupied by the singer. He was turned loose again, and so it continued. The little fellow goes to his trap every night and is let out the next morning. The song of the mouse differs somewhat from that of the feathery songster, but in its difference is its beauty.—*Santa Rosa Democrat.*

He Desired to Hurrah.

A tall man, with a somber look on his face, entered Major Mackelvene's private office and stammered:

"Major, I have most unpleasant tidings to communicate; try and nerve yourself."

"What is it? My house on fire?"

"No, Major; worse—far worse. Your daughter—my dear sir, prepare yourself—your daughter has brought disgrace on your proud house by eloping with the gardener."

"She has, eh? Take a cigar with me—I'm going to have a holiday. That gardener she refused three weeks ago, when he was an honored guest, worth $800,000, so he disguised himself with a hoe and a straw hat, and inside of two hours she has asked him to enlope with her. I desire to say hurrah."

HARVEY.

From Our Own Correspondent.

Serious Accident.—On Thursday last, Aug. 12th, a very serious accident occurred at Port Nogie Mill. Mr. Finlay Davis and another were taking the stock lumber from the rollers and putting it on the trimmers. These rollers are used chiefly for conveying the slabs to the slab-saw placed at the end of them. Mr. Davis had his foot on one of the rollers near the saw when moving the lumber. A cull plank was being thrown to the other side to be cut into wood when it hit the trip or lever working the saw. Consevuently the saw flew up struck Mr. Davis in the foot and drew him unto it. The calf of the leg was razed but the thigh was severely torn. Fortunately however the main artery was not cut nor the bone injured. Dr. McCamus, of Bobcaygeon, and Dr. Graham, of Fenelon falls, were sent for and on arriving sewed no less than 100 stitches in the cut. The patient is recovering very slowly.

The Maple Leaf.—This little steamer plies daily between Bobcaygeon and Bridgenorth, calling at Oak Orchard and Chemong village on her way. Anyone wishing to view the park of Peterborough County or act the part of spectator at a game of hog-ball will be well-accomodated on their trip by the genial captain of the Leaf.

School Re-opened.—The school of section 2 of this township, re-opened on Monday last, 16th, with an attendance of 40.

Wonders of the Yosemite!

A trip to California may be excellent as a means of recreation and sight seeing, but in point of fact it can't compare in its effects upon an invalid's system to Dr. Pierce's "Golden Medical Discovery," universally acknowledged to be the greatest liver invigorator, blood purifier, consumption cure and general revitalizer and tonic in the world. By its use, thousands whom physicians could not help have been restored to health and happy living. All druggists.

TEAMSTER JIM.

It ain't jest the story, parson, to tell in a crowd like this,
Weth the virtuous matron a frownin,' and childin' the gigglin' mies,
An' the good old deacon a noddin, in time weth his patient snores,
An' the shocked aiest of the capital, stalkin' away through the doors.

But then, it's a story that happened, an' every word of it's true,
An' sometimes we can't help talkin' of the things that we sometimes do,
An' though good society coldly shets it's doors on to Teamster Jim,
I'm thinkin' ther's lots worse people thet's better known than him.

I mind the day he was married, an' I danced at the weddin' too,
An' I kissed the bride, sweet Maggie—daughter of Ben McGrew,
I mind how they set up housekeepin,' two young, poor, happy fools,
When Jim's only stock was a heavy truck an' four Kaintucky mules.

Well, they lived along contented, weth their little joys an' cares,
An' every year a baby come, an' twice they come in pairs;
Till the house was full of children, weth their shoutin' and playin' and wails,
An, their singin' and laughin' an' cryin' made Bedlam wethin its walls.

An'Jim he seemed to like if, an' he spent all his evenin's at home,
He said it was full of music an' light, an' peace from pit to dome,
He joined the church, an' he used to pray that his heart might be kept from sin—
The stumblin'est prain,—but heads an' hearts used to bow when he'd begin.

So, they lived along in that way, the same from day to day,
With plenty of time for drivin' work, an' a little time for play,
An' growin' around 'em the sweetest girls and the livellest, manliest boys,
Till the grey heads of the two old folks was crowned with the homeliest joys.

Eh? Come to my story? Well,' that's all. They're living just like I said,
Only two of the girls is married, an' one of the boys is dead,
An' they're honest an' decent, an, happy, an' the very best Christians, I know.
Though I reckon in brilliant company they'd be voted a leetle slow.

Oh, you're pressed for time—excuse you? Sure, I'm sorry I kept you so long;
Good bye. Now he looked kind o' bored like, An' I reckon that I was wrong
To tell such a commonplace story of two such commonplace lives.
But we can't all git drunk an' gamble an' fight, an' run off with other men's wives.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence recommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Advice to Mothers.

Mrs. Winislow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

A Grand Concert.

Miss Annie Delaney, late of the Boston Conservatory, is contemplating giving a grand evening concert early in September. She will be assisted by Miss Burdett, Belleville, the well known contralto who achieved success at the conservatory, and Miss O'Riely, of Ottawa, soprano, who also carried off honors at the conservatory. The least attraction will be the appearance of Miss Delaney herself. Doubtless her many admirers will be anxious to hear her and judge for themselves what degree of proficiency she has attained while at Boston. Further particulars will be given later on.

The Rifle.

A practice rifle match was held at the Association range on Wednesday afternoon. The ranges were the usual 200, 300 and 500 yards, with seven rounds to each range. An average of magpies is considered good shooting—63 for the three ranges, but the shooting made on Wednesday, considering the gusty weather, was extraordinarily good. The scores are:—

Private Excursions.

About seventy townspeople, young and old, took possession of the Golden-Eye for the day on Thursday. They went down the river as far as Campbelltown, where they enjoyed themselves immensely during the day. The trip up was made pleasurable by song, story and instrumental music. * * * The Olivette Club went to Chemong Lake to spend the day. They picniced in the park and spent a pleasant afternoon. In the evening there was dancing in the ball room of the hotel. The party returned at an early hour. * * * Quite a number took advantage of the cheap rates to go to Toronto. They returned at about 11 o'clock.

Caved In.

At the Riverside Park on Thursday afternoon the western grand stand was packed from one end to the other with spectators. Just before the lacrosse match commenced, Mr. H. LeBrun made his way up through the crowd at the south end of the stand and took a seat. A second or so after there was a great crash. Everybody ran and crowded around. It was found that about thirty feet of the stand had caved in, and those who were sitting on it were precipitated to the ground. It was feared from the fall that some one would have been hurt, but as one after another arose out of the jostling crowd with dusty clothes and broken hats, no one showed marks of injury beyond a few scratches.

Mr. Gibbs is continuing his canvass and will call upon those whom he has not yet had time to see.

THE P. A. A. A. EXCURSION

To Orillia and Sturgeon Point—Peterborough wins at Cricket.

The excursion train on the Grand Trunk railway, run under the auspices of the Peterborough Amateur Athletic Association left the Bethune street station, eight coaches strong, at twenty minutes to eight o'clock on Thursday morning bound for Orillia. The coaches were all comfortably filled but not over crowded. A large crowd were at the station to see the pleasure seekers off.

The run to Lindsay was made in good time. At Lindsay the train stopped to let off the Sturgeon Point contingent. About fifty got off and went down by the steamer Beaubocage to the Point. The excursion train proceeded onward through the pretty country, pleasantly varied by mead, woodland and cultivated land, and reached Orillia in just two hours and a half, having run in that time seventy-five miles. The excursionists quickly spread out to see the sights before dinner, and at noon repaired to the various hotels.

In the meantime the Peterborough cricketers had gone to find the cricket ground, where they were to play the Orillias. They at last found it, and were delighted to see that it was a very pretty one. It describes an oval and is as level as can be imagined. The game was started shortly after the ground was reached. The Peterboroughs won the toss and went to the bat. The Orillia cricketers who played might have, but certainly those on the field as spectators did, feel very confident of victory. The Orillia team had beaten the Torontos the day before, and their admirers looked upon the Peterboroughs as an easy prey. At the commencement the game went against the Peterboroughs badly. Logan, a strong prop of the Peterboroughs, was bowled out before making a single run. But as the game progressed, and as Stratton and Rogers piled up their scores, the day didn't look so gloomy. Stirling and Morris also contributed materially. At the end of the first innings the score stood at a very respectable 131 for Peterborough and 88 for Orillia. Lunch was obtained on the grounds, and the second innings commenced. Two wickets were down for 60 when time was called. The score is as follows:—

While the cricketers were busy on the oval lawn about a hundred and fifty of the excursionists were sailing over the limpid Lake Couchiching, enjoying the cool breezes and the glitter of the waves flashing in the sunlight. They sailed in Capt. McInnis' new steamer Orillia and went down through the lake as far as Strawberry Island, a resort owned by the captain. It is distant about nine miles from Orillia, and is situated in Lake Simcoe, near the narrows. It is a beautiful place, there being about seventy-five acres, part wooded, part under cultivation and part laid out in an attractive manner. The excursionists were surprised to see what strength of soil there was here, as exhibited in the growing corn, the top of which could not be reached on tiptoe with an umbrella. After strolling about for some time the party re-embarked and sailed back to Orillia, well pleased with their eighteen mile trip.

The excursion train left the fair northern town at half past seven o'clock and sped swiftly down to Lindsay where the Sturgeon Point visitors boarded the coaches and filled up the empty seats. They had a pleasant day they said, having sailed down to the Point on the Beaubocage without a mishap. They spent the time enjoyably, some picnicing in the woods, some patronizing the bowling alley, some boating and some bathing. They started for home at a quarter past four and the whole party arrived at the station here at three minutes to nine o'clock.

Gough's Clothing House Entered—An Attempted Entry.

Some time during Wednesday night, Thursday or Thursday night, Gough's Clothing house was entered by some one well acquainted with the place.

The store was left securily locked on Wednesday night, and Thursday being civic holiday it was not opened. When the place was opened up this morning the first thing that presented itself to the gaze of the clerk was the trap door standing open. An investigation was made, but it is not yet ascertained what has been taken. A line of worsted goods recently got in, however, was broken and three suits was taken. Mr. Gough thinks $100 will cover his loss so far as is known.

The way the intrudors got in was by the cellar. The stair door back of the old Darcy house was left open and this left an easy way open to the cellar and thence up through the trap door.

Mr. John McNaughton's shoe shop was also visited. A round hole next the latch was cut, but the place, apparently, was not entered. The key in the door was in the same position as it was left the night before. Mr. McNaughton missed nothing. No clue is yet obtained.

Beware.

The Chief of Police would remind the storekeepers to see that their back doors are closed and their tills safe while the circus procession is passing. Also he would advise householders and others to see that their doors and windows are well fastened. Extra police have been sworn in; but preventives are better than cures. The circus camp followers are people who should be watched.

DYNAMITE STOLEN.

BERLIN, Aug 19.—A large quantity of dynamite has been stolen from a mine at Handorf, near Hanover, and it is feared it has been taken to England by Anarchists. A miner has been arrested on suspicion of having been an accessory.

HOW THE CAT WILL JUMP.

LONDON, Aug. 18.—The *Times* says: "It is somewhat curious, if Mr. Parnell means business, that seven of the leading Parnellites are either already absent or are arranging for an early departure from the scene of parliament. Probably Parnell is waiting to see how the cat jumps in America. It is no matter for surprise that while the Chicago convention is pending many of the separatist party are to-less and uneasy."

THE RENT QUESTION.

LONDON, Aug. 18.—The *Standard* says:—"The Queen's Speech will be empty of any statement of policy or matter leading to controversy. Although the opponents of the Government may raise a discussion over its omission, no one will be able to challenge a single proposition contained in the speech. Parnell may raise the rent question in order to keep the American extremists in good humor, but it must be the business of Sir Michael Hicks-Beach to disabuse the Irish of their belief in the omnipotence of boycotting as a means of whittling rents to zero. When he has done that Irishmen will not be slow to avail themselves of the generous offers of the existent Land Purchase Act."

A NORMAL STATE.

BELFAST, Aug. 19.—Two mobs gathered to day and indulged in stone throwing, but they were soon dispersed. Affairs have almost resumed their normal condition, and no more serious rioting is feared. The military precautions have been relaxed.

POLICEMAN ARRESTED.

BELFAST, Aug. 19.—The magistrates in Belfast are in a quandary as to how to proceed in view of the verdict of wilful murder found against nine policemen. They held a secret sitting to-day. The policemen are charged with unnecessarily firing upon citizens during the recent riots. Nine of them have been arrested and sent to jail. They intend to apply to the Court of Queen's Bench for permission to give bail.

RUSSIA WILL BE AVENGED.

MOSCOW, Aug. 18.—The *Viedmosti* says that the more Russia is forced back from Eastern Europe, the more she will devote her attention to Asia, where her task is far from completed. In regard to the occupation of Port Sazareff the paper says no protests or intrigues will prevent Russia from occupying a worthy position on the Pacific.

THE CHICAGO CONVENTION.

Resolutions Adopted—Officers Elected Boycotting England.

CHICAGO, Aug. 19.—The Irish Convention have adopted resolutions declaring unqualified approval of national self-government; approving the course pursued by Parnell in the Commons; extending thanks to Mr. Gladstone for his efforts on behalf of Irish self-government; and to the English, Scotch and Welsh democracy for the support given Mr. Gladstone; thanking the American people and press for generous support; recording a scense of the forbearance of the people of Ireland in face of the cruel and dishonest system of extortion subjected by rack renting landlords, etc.; and thanking the officers of the Land League for their services.

A telegram was sent to Mr. Parnell endorsing his policy.

A section of the constitution boycotting all English goods was carried after some discussion.

The officers were elected, Judge Fitzgerald being President.

Mr. Finerty read a telegram from Ireland supporting his views. He would accept Gladstone's bill as an instalment, not as a final statement. He advocated force if necessary to win freedom.

Mr. Davitt protested and advocated moral force.

Prof. Dorenwend at Phelan's Hotel.

What a comfort and blessing it must be to ladies and gentlemen, who have been unfortunate enough to lose their hair, to know that they can procure an artificial one just as handsome and natural looking as the departed growth. Prof. Dorenwend, of Toronto, manufactures goods in the hair line which really cannot be detected as being false. His handsome styles in Bangs, Waves, Switches, Wigs, &c., for ladies, his great genius and skill are fully shown in the making of his Toupees for gentlemen who are bald on top. When placed on the head the person wonders how it is possible for them to be made so natural looking, and why he didn't get one sooner. Remember, the Prof. will be in Peterborough, at Phelan's Hotel, on Friday and Saturday, Aug. 27 and 28, with an immense stock of Hair Goods. The unanimous approval of the press of the Professor and his goods his large house and his established reputation, speak for themselves. Don't forget to take advantage of his coming to procure a nice headdress.

CAPT. POPLE.

A Talk With the new Salvation Army Representatives.

A young man of about twenty-five, well built, with wavy hair inclining to golden, easy address, and business like carriage—this is Capt. Pople, the new officer who has taken charge of the Peterborough detachment of the Salvation Army. Though some notice as to how the officers didn't like to have their time wasted was sticking up on the door of the headquarters, on Aylmer street, he seemed quite pleased when the REVIEW reporter called on him.

The new Captain talked away openly, and without a sign of affectation. In answer to a question, he said that he belonged to the English contingent of officers lately come out. Then he counted out where the officers went, keeping tally with his fingers—"Capt. Frazer went to Halifax; Capt. Eaton, to Seaforth; Capt. Young, to Toronto 2; Capt. Brooks, to Toronto 3; Capt. Knowsley, to the Headquarters staff, Toronto; and I came here. We left Lieut. Cook ill of typhoid fever in New York. And, I forgot, Staff.-Capt. Bailey, the Military secretary for Canada, came out, too. Then there was about twenty Canadian officers who were over to the congress, and the Hindoo and French people. Oh, (with a smile) there was a good lot of us aboard."

"How do you like Canada?" put forward the reporter.

"Well," said the Captain, "I had my impression about the country before I came over, and what I have seen confirms those impressions. I like Canada immensely and I think the people are good—"

"Morally, or are you praising their capability to supply Englishmen with juicy beef?" interrupted the reporter.

The Captain, with a laugh, said that he meant both, and then went on seriously:—"Do you know I believe Canadians have a better moral tone, as a people, than the English. There is less aristocracy and more *men* here."

"How about the split in England?"

The Captain pursued the new thread with avidity. He did not approve of the secessionists and not hurt the Army at all. Col. Day, after he seceded, had opened out in Reading, but his followers soon fell away and came back to the Army. Commissioner Corbridge succeeded better in Sheffield, but the Army had six prosperous corps even there.

He said he was well pleased with his new charge. He supposed he would have to conform somewhat to custom, but at the same time he believed in following the dictates of his conscience. He added that he held (so does Bacon) that every man had a right to the full exercise of his religious belief, provided that in such exercise he commit no nuisance. Some people, he said, said the Army was a nuisance when in reality it was no nuisance at all.

BRITISH POLITICAL NOTES.

The Parnellites and the Peers—The Benefits of the Land Acts.

LONDON, August 20.—All the Parnellites supported Mr. Bradlaugh's motion in the Commons last night that the sessional orders relating to the interference of Peers in the election of Commoners be not renewed.

Sir Charles Russell (Liberal), gave notice that he would introduce a bill to enable leaseholders and tenant farmers who were not included in the Gladstone bills to claim the benefits of the Land Acts.

The Irish Conservative members of the House held a meeting last night at which it was decided to ask leave to introduce bills relating to leasehold farms, the linen trade, etc.

The Government will send General Sir Redvers Buller to Kerry.

Mr. Gladstone presided last evening at a meeting of his colleagues in the late Cabinet at the residence of Earl Granville. The object was to discuss a plan of action for the present session of Parliament.

The *Times* says: "Lord Randolph Churchill's speech last evening in the Commons was dignified and impressive throughout. Of course the Government's energy may evaporate in words, as the Parnellites console themselves with predicting; or it may fail to sustain them through a period of anxious trial; but if they act up to their pledges they will materially lighten the Irish difficult. That the real humor of the Parnelites is not bellicose is shown by the Chicago Convention, where Mr. Egan and Mr. Sullivan, having complete control of the wires, are making their pupils jump to anything but martial airs."

The *Daily News* says:—"The Irish Convention at Chicago is becoming slightly ridiculous. When Mr. O'Brien represents England as straining for a rift in the convention, he over-acts his part. Perhaps on the whole, it would be as well if the convention should mind its own business, which seems mainly to be the collection of funds, and leave us to manage ours."

The *Standard* says:—"The country will welcome with a keen sense of relief the appointment of General Buller to the command in Kerry. It is a relief to Lord Randolph Churchill's *physique* as well as nerve that he has emerged unscathed from an ordeal severe enough to try the fibre of a veteran.

Murder at Rustico.

CHARLOTTOWN, P. E. I., Aug. 20.—Mrs. Howard Piercy was fatally shot by Ebenezer Marshall, at Rustico, on Tuesday evening. Two eminent physicians were immediately summoned, but their efforts to extract the bullet proved unsuccessful. Marshall was arrested.

ST. PAUL, Minn., Aug. 20.—The North-Western lumber dealers convention to-day advanced the price of lumber one dollar per thousand.

LATEST BY TELEGRAPH.

NORTH AMERICAN SQUADRON.

LONDON, Aug. 18.—Vice-Admiral Lyons has been selected to succeed the Earl of Clanwilliam in the command of the British squadron in North America.

ITALY AND THE VATICAN.

ROME, August 20.—A rumor is afloat that Queen Margharita is using her influence to bring about a reconciliation between the Italian Government and the Papacy. Under the arrangement contemplated it is said the Pope will receive from Italy the arrears of the endowment to a large amount, which will be devoted to extending Catholic missions.

THE BELFAST TROUBLES.

BELFAST, Aug. 20.—Protestants are very much irritated over Lord Churchill's defence of the police, who have been engaged here during the riots. The Protestants assert that the police officials contrived to mislead Lord Randolph, and declare that the facts of the case warrant the suspicion that a conspiracy exists between the police and the Catholics of Belfast.

SELLING HIS ESTATES.

DUBLIN, August 20.—The Duke of Leinster has arranged to sell to his tenants a large portion of his Kildare estate on the 18 year's purchase plan.

A MANIAC AT ST. PETER'S.

ROME, Aug. 20.—Last night an Italian policeman observed a man hiding in the balcony of St. Peter's, from which the Pope is accustomed to bless the people. They warned the Papal gendarmes, who promptly arrested the man. The prisoner said his name was Storti. An examination showed that he was a maniac. The Pope expressed his gratitude and admiration for the zeal displayed by the police.

A FRENCH ACCUSATION.

PARIS, Aug. 20.—The *Temps*, in discussing the New Hebrides question, accuses the Australian colonies of wishing to establish a kind of Monroe doctrine in Australasia.

A DISASTROUS GALE.

The Most Violent Storm for a Quarter of a Century.

ST. JOHN'S, Nfld., August 20.—Accounts of the destruction caused by the recent gale are fast coming in. The most violent storm swept over St. Pierre on Wednesday night, and was the worst for a quarter of a century. Buildings were blown down in every direction, and considerable damage done to shipping. Two vessels were driven ashore and wrecked, and several men badly hurt. Long Island is strewn with wrecks of fishing vessels, and grave fears are entertained for the safety of the Grand Banks fleet. At Black Island a fishing skiff drove on the rocks, and all hands perished. Five Trepassey skiffs are missing and in all probability they were lost with all hands, as they drove to sea in the gale. At Bird Island cove havoc was caused by the storm and tumultuous sea.

Five fishing vessels were there. The fishing stages were wrecked and blown into the sea. At Old Perlican a fishing vessel was swamped, all hands perishing. Two crafts drove ashore at Lead Cove. One man was drowned and several seriously injured. At Bacalieu, where a large number of vessels were fishing, it is feared the loss of life and property is great. The banker J. K. Mundell was driven ashore at Biscay Bay and wrecked. The ship's side was broken in and such was the fury of the sea that the crew with difficulty clung to the bottom of the wreck all night, being surf-washed till nine o'clock next morning, when they were rescued. It is feared the fishing fleets on the Labrador coast suffered heavily.

THE CHICAGO ANARCHISTS.

All the Prisoners Sentenced to be Hanged with the Exception of One.

CHICAGO, Aug. 20.—The Court officials decided that the relatives of the Anarchist prisoners should be allowed in the Court room. There were present a sister, a brother, and the mother of Spies. Nearly 2,000 people gathered in front of the main entrance of the building, gazing up at the windows. The prisoners were brought into the Court room at 9.52 o'clock. They presented about the usual appearance, though Spies and Fischer looked deathly pale. The jury arrived at 9.55 o'clock.

The verdict rendered was as follows: "We the jury, find the defendants, August Spies, Michael Schwab, Samuel Fielden, Albert R. Parsons, Aldolph Fischer, George Engel and Louis Linzg guilty of murder as charged in the indictment, and fix the penalty at death. We find the defendant, Oscar W. Neebe, guilty of murder in the manner and form as charged in the indictment, and fix the penalty at imprisonment in the penitentiary at seventeen years."

Captain Black said he would desire to make a motion for a new trial.

State Attorney Grunnell said it would be impossible to dispose of the motion during the present term, but by agreement the motion could be argued at the September term. This was agreed to by the defence.

The defendants were taken back to gaol. Hardly had the jury left the room when a piercing shriek was heard, followed by the heavy falling of the wife of Schwab to the floor, to whom the result of the verdict had been intepreted. She is also a sister of Schaubelt, the alleged bomb thrower. She was carried out. Mrs. Parsons looked haggard as she started to leave the Court room, but maintained a moderate degree of composure. It is thought the authorities now contemplate the immediate arrest of all persons, even indirectly connected with the Haymarket tragedy, for conspiracy, and that in this knowledge many of the active leaders are preparing to leave.

Influx of American Tourists.

DIGBY, N. S., Aug. 20.—There is an unprecedented influx of American tourists in Western Nova Scotia. The arrivals averaged one thousand a week during the season, a large proportion being from the Western States.

Haldimand Election.

OTTAWA, Aug. 20.—The writ for the election of a member to represent Haldimand in the Dominion Parliament has been issued. Nominations will take place on the 1st of September and polling on the 8th.

SATURDAY, AUGUST 21, 1886.

PATRIOTISM, POLICY AND PURITY.

A REFORM paper makes a claim on the confidence of the electors on behalf of the leaders of that party on extraordinary grounds—*i. e.*, extraordinary considering the record of that party. It says:—

"The Liberal leaders, with Mr. Blake at their head, have every claim to the confidence of the country on the broadest possible grounds of patriotism, policy and purity."

The grounds for the claim of the Reform party on the confidence of the country are not broad, but are certainly very thin. As to purity, the records of the leaders of the Reform party are not exceedingly bright. The sums spent by Messrs. M. C. Cameron, H. B. Cook and others in bribery scarcely establish a claim for [illegible] Mr. J. D. Edgar, Mr. Blake's embassador to the court of the Rielites, obtained his seat through means not very pure, Mr. Mowat having given a member of parliament an office to get him to make way for Mr. Edgar. In this transaction Mr. Blake was cognizant of the negotiations and urged the Reformers in the constituency to carry out the bargain arranged for through Mr. Mowat to secure the seat for Mr. Edgar. The names of Walker, Cook, Cameron and other leading lights of the Reform party are synonymous for bribery, and the operations of the "dark lantern brigade" in Lennox, led by the mysterious drover, are such recent occurences that they will be fresh in the memories of all. Some of the bribers have been rewarded by the party, as in the case of Walker. But there is no need to multiply evidences of the impurity of Reform leaders.

As to policy, it is difficult to tell what the policy of the Reform party is on any question. Mr. Mills moved a motion in the Commons last session favoring some form of an elective Senate, but it was not very definite in its terms, and the Young Liberals, in conference assembled, declared in favor of the abolition of the Senate, while Mr. Barron, the Reform candidate in North Victoria, objects to an elective Senate while demanding a change. Mr. Mills earnestly declares that the Franchise Act must be repealed, while Mr. Mitchell advocates a Dominion franchise, though favouring changes in the present Act, and Mr. Blake says that the Reformers would repeal the Act, or, if they did not, they would make changes in it. Some Reformers advocate manhood suffrage, while Mr. Mowat and his followers in the Legislature strenuously oppose it. These are instances of the chaotic state of the Reform policy, the party only agreeing in denouncing the Government and in a negative, nagging, nasty policy that can commend itself to no one.

It is amusing, not to say disgusting, to see the confidence of the electors claimed for the Reform leaders on patriotic grounds. By what evidence do they prove that they are more patriotic than the Conservative leaders? By the demands of the Reform leaders in Nova Scotia for repeal of the union? By the encouragement given to rebels in arms? By the onslaughts on the financial position of the Dominion? By the attacks on the military officers and the volunteers of the country? By the declaration of more than one leader of the Reform party that had he been on the banks of the Saskatchewan he would have fought against the volunteers, Canada and the Queen? Perhaps the Hon. W. Laurier's musket that he longed to use against Canadian volunteers will be produced as evidence. And does the fact that Mr. Blake has made an alliance with the friends and avowed avengers of the rebel Riel establish his claim to superior patriotism? Do the votes of a large majority of the Reform party in favor of avenging the punishment of the rebel prove their patriotism? The policy of the Reform party has been, designedly or otherwise, unpatriotic for years. They opposed the building of the Canadian Pacific Railway, which was necessary to maintain the union of the Provinces and for the settlement of the vast acres of our western domain. They assisted the enemies of the railway in their efforts to hinder its construction. They opposed the National Policy, which was necessary for the development and well-being of the country. The Reform party at the present time depends for its political success in two Provinces on unpatriotic demands—repeal of the union in Nova Scotia and revenge for Riel's punishment in Quebec—and unless they are successful in these Provinces through these most unpatriotic and injurious cries they cannot obtain office.

The Conservative Administration has steadily kept in view the cementing of the union, the development of the resources of the Dominion and the upbuilding of the whole country. Its policy is of an essentially national character, and its watchwords patriotism and progress. Can any Canadian, worthy of the name, hesitate in deciding to support that administration in preference to such an Opposition as desires to supplant them?

THE FISHERY DIFFICULTY.

The Halifax Herald Accuses Grit Captains of Causing Trouble.

HALIFAX, Aug. 18.—The *Herald* to-day says: "For some time past sundry papers have been publishing extraordinary stories about '150 sail of vessels' two-thirds of them Americans, fishing inshore in Prince Edward Island waters.' We have been shown a private letter from an officer in the cruiser Howlett in which he says 'the Howlett was off Miminigash, P. E. I., the very day that '150 sail, two thirds of whom were Yankees,' were alleged to have been there. The actual number of fishing vessels in that locality that day was 44, of which twenty were Nova Scotia and Prince Edward Island crafts. Instead of fish being plenty they were very scarce. Instead of being close inshore the Yankees were four to six miles off shore, and, therefore, all outside the limit; fish are not nearly so abundant as has been described. Some Americans who had been in the bay two or three weeks reported only 55 to 100 barrels. This week thirty sail of Canadian and American vessels have been fishing off Cascumpec, but they had very little success. If the cutter was not constantly on the alert I dare say that the Yankees would not miss a favorable opportunity to poach, but they will not poach in two fathoms of water, because their seiners, worth $800 to $1,000 each, are made from fifteen to twenty-six fathoms deep, and if thrown in such shoal water as that their seines would be ruined. The Howlett's station covers a distance of 100 miles, and, of course, she cannot be in more than one place at a time. But one thing is certain. No Yankee vessel has in any way violated any Canadian law or treaty in any locality when the cutter was in the vicinity. The Yankees are mighty careful not to give us a chance to catch them." According to a statement recently published, the Howlett chased a schooner ashore and found her to be a Nova Scotia vessel. The commanders of the cruisers have been put to great trouble, and have met with a great deal of annoyance on account of Nova Scotia vessels commanded by Grit captains when called upon to show their colors refusing to do so, and consequently one who was chased and had a shot fired across his bows admits that he did what he could to give the Government vessels trouble."

AN OIL TRAIN COLLISION.

One Hundred Thousand Gallons of oil in Flames on a Railway.

CASTON, Ia. Aug. 19.—An oil train consisting of 24 cars while descending a grade on the Jersey Central railroad this morning parted, and a few minutes later he seperated parts collided. The concussion caused one of the tanks to explode, and immediately ten thousand gallons of oil were a mass of fire. Eleven cars were scattered about the tracks and all were soon ablaze. One explosion followed another until the oil in the lower cars, estimated at 10,000 gallons, was one sheet of flame. The heat was so intense that it was with great difficulty that four cars near the end of the train was saved. All the iron on the cars and on the railroad was red hot and twisted into every conceivable shape, and could not be got at to be removed. The loss will not fall short of $50,000.

The Queen's Speech.

LONDON, Aug. 19.—Parliament reassembled to-day. The Queens speech is as follows:—

My Lords and Gentlemen:

I have summoned you to meet at this unusual season for the transaction of indispensible business. The session of the last Parliament was interrupted before the ordinary work of the House had been completed, in order that the sense of my people might be taken on certain important proposals with regard to the Government of Ireland. The result of that appeal has been to confirm the conclusion to which the late Parliament had come.

The provisional nature of the arrangement made by the last Parliament for the public charge of the year renders it expedient to postpone any further the consideration of necessary financial legislation.

Gentlemen of the House of Commons:

The estimates which were submitted to the last parliament and only partially voted will be laid before you.

My Lords and Gentlemen:

At a period of the year usually assigned for recess, and after the prolonged and exceptional labors to which many of you have been subjected, I abstain from recommending now for your consideration any measures except those which are essential to the conduct of the public service during the remaining portion of the financial year. I am confident that they will receive your prompt and careful attention.

Down Sixty Feet.

BRATTLEBORO, Vt., Aug.—A mixed train on the Narrow Gauge road broke through a bridge one mile from here to-night. The engineer and one passenger were killed and seven others were seriously injured. The bridge, which was constructed of wood and iron, was sixty feet above the water, and the whole train went down with it, burying the engineer under the locomotive in fifteen feet of water.

A Terrible Death.

CLEVELAND, O., Aug. 18.—Ex-Councilman Thos. Reed met with a terrible death while returning this evening from a convention at Akron. While leaning from the platform of a car on the train his brains were dashed out against a girder on a bridge near Peninsula.

LAKEFIELD.

From Our Own Correspondent.

SPORTING.—The following letter appeared in the sporting columns of Saturday's *Mail*:

FOR THE CHAMPIONSHIP.

To the Sporting Editor of The Mail.

SIR,—The village of Lakefield is presenting a gold medal (value $500, for the amateur single scull championship of Lake Katchewanoonka to be competed for on Wednesday, the 25th inst. G. A. Strickland will probably be the local oarsman. A. Grinstead winner of the junior singles at Lachine, and J. Hartly of the Toronto Rowing club, and others are cordially invited to attend. Distance one mile and a half.

Yours, etc.,
T. BIRD.
Secretary of Committee.

Lakefield, Aug. 12.

PROPOSED CENSURE.—The following letter has been handed to me for puolication as Mr. Hull has not replied to it, nor did he read it at the public meeting on Monday as the writer expected.

LAKEFIELD, August 13, 1886.

John Hull, Esq. Lakefield:

DEAR SIR,—I understand that you have called a public meeting for the purpose of passing a vote of censure on the Village Council for not rescinding the ammendment to By-law No.9, prohibiting the beating of drums, shooting of guns, and other tumultuous noises on the public streets on Sunday.

The inhabitants of the Village seem to be divided on this question, and when this is the case there is always a great probability of hard feeling, being engendered, and if the Magistrates and people of moderation do not counsel a due observance of the laws the agitation might lead to disturbance of the peace; and by virtue of your office (as a Magistrate) you are bound to so counsel the opponents of the said By-law until it is repealed.

I think, therefore, that it would be unwise for your party to pass a vote of censure on the council. I have no objection if you and your party pass a vote of censure on myself at a public meeting, and if you do so I promise I will resign the reeveship on condition that your party will, at a public meeting called for the purpose, nominate a man for the position, and he or his friends depositing a sufficient amount of money with the returning-officer to cover the expenses of the election, I will do the same (if it can be done legally), and whoever is defeated to pay the election expenses. If I feit sure that a majority of the ratepayers desired my resignation I would not ask for this last condition, but as I am not sure, I do not feel justified in throwing the expense of an election on the village at this time of the year. And I can assure you that if I am not returned to the office of Reeve of Lakefield I will counsel my friends, who will then be in the minority, to peacefully abide by the laws of the council, although the said laws may not be in harmony with my feelings.

Yours truly,
R. C. STRICKLAND,
Reeve of Lakefield.

PUBLIC MEETING.—A public meeting was held in the Council room on Monday evening for the purpose of discussing the action of the council regarding the Salvation Army petition. After a somewhat acrimonious discussion, a resolution was passed regarding the action of the council in not passing a motion to amend By-law No 9 and trusting that the Salvation Army would be left alone in the future.

POLITICAL ADVICE.—The following lines on the question now so much discussed are in circulation in the village. They are said to have been picked up after the public meeting on Monday and are in the form of a resolution to the Council.

We are savers of souls, we would have you incline
To our feats in the drum and the tamborine line
If you banish our drum your sinners will go
The old roundabout road to the regions below,
But if you take our advice, and give heed to our call,
St. Peter will open the gate for you all.

STONEY LAKE NOTES.—Mr. McWhinnie of Peterborough is building a cottage on Snake Island between Hurricane Point and Burleigh. It was estimated that the number of those in camp last week was nearly three hundred. Several very good concerts were given last week, one at Mr. Graham's camp, Grassy Island, was largely attended and much enjoyed. On Sunday the Rev. Mr. Gee of Millbrook preached to a large congregation on Ice House Point, Gin Island, in the evening a service of song was held, and was well attended. The number of surveyed islands in Stoney Lake from the head of clear lake to Bochink narrows and Burleigh is one hundred and seventeen of all sizes from Gin Island, with one hundred and four acres, to many small islands containing only one rood.

BOBCAYGEON.

LIGHT HOUSE.—Mr. R. B. Rogers, Supt. Engineer of Trent works, made the necessary arrangements on Tuesday for placing a light at the mouth of the Scugog on dark nights. R. Endicott will be the attendant. It will be of great service to the lakemen.

NAVIGATION.—The old piers between the wharf and the shingle mill, which have for years been an obstruction to navigation, are to be removed. The low water gives a favorable opportunity, and the clearance is much needed.

SURVEYING PARTY.—A surveying party in charge of Mr. E. Coste, is doing the neighborhood of Madoc. They are under instructions from the Geological and Natural History Survey department, and are looking up minerals. Next month they will probably take in hand North Harvey, Galway, and Snowden, and investigate their mineral resources. While going through Hog Lake, the other day, Mr. Coste caught a maskanonge weighing 28½ lbs. The skin will be stuffed and placed in the Dominion Museum.—*Independent.*

Imprisonment for Life.

ST. JOHN, N. B., Aug. 20.—Judge King sentenced Daniel Hatfield to the penitentiary for life for indecent assault on Catherine O'Donnell, a servant girl. Hatfield is a handsome young fellow of twenty-five, and his mother, sisters and young wife are heartbroken over his terrible crime, committed while under the influence of drink, and a life-long sentence. The prisoner was completely unmanned by the sentence. It was said that Judge King was persuaded by his brother judges from inflicting the death penalty. The crime, trial and sentence created greater excitement than any criminal trial has created in New Brunswick for many years.

The new Salvation Army Barracks at Kingston will be much better than the old one. The building will be 69 feet broad and 110 feet long, will be heated by steam and hot air, and will seat 2,000 people. The cost will be $5,000. The Montreal barracks, now building, will seat 3,000 people. All barracks to be henceforth built will be uniform in architecture.

BEWARE
OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name
'CROMPTON CORSET CO.'
is stamped on inner side of all Coraline goods, Without which none are genuine.

FROM ALL OVER.

Out of twenty-four Scott Act trials at Guelph lately, there was only one conviction.

To remove Dandruff—cleanse the scalp with Prof. Low's Magic Sulphur Soap. A delightful medicated soap for the toilet.

Rattlesnakes are found in the neighbourhood of Kamloops, B. C. but not in large quantities.

National Pills is the favorite purgative and anti-billous medicine, they are mild and thorough.

Worms often destroy children, but Freeman's Worm Powders destroy worms, and expel them from the system.

The apple crop of Nova Scotia is going to be a good one, and the indications are that the price will be very low this season.

WILL you suffer with Dyspeps andia Liver Complaint? Shiloh's Vitalizer is guaranteed to cure you. For sale by Ormond & Walsh.

CATARRH Cured health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents. Nasal injector free. For sale by Ormond & Walsh.

A London lady found 410 needles in an old pincushion.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infailable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

Wm. C. Hall, of New York, has been appointed U. S. Counsul at Prescott, in place of Dr. Sleight.

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

Sir Arthur Bass, of "Pale Ale" fame, enters the British peerage as "Baron Burton of Rangemore and Burton-upon-Trent."

Don't fill your system with quinine in the effort to put down fever and Ague. Ayers Ague Cure is a more potent remedy, and it leaves in the body no poisons to produce dizziness, deafness, headache, or other disorders. The proprietors warrant it.

Attention is just drawn to the fact that the Chicago Anarchists, bent on the destruction of life and property, are infidels to a man.

Young, old, and middle aged, all experience the wonderful beneficial effects of Ayer's Sarsaparilla. Young children, suffering from sore eyes, sore ears, scald-head, or with any scrofulous or syphilitic taint, may be made healthy and strong by its use.

It is said that the length of the graving dock at esquimalt, B. C., will be enlarged from 381 feet to 531 feet.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

The C. P. R. promises to build a new passenger depot and freight sheds, and a dock 400 feet long, at Fort William.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Wonders of the Yosemite!

A trip to California may be excellent as a means of recreation and sight seeing, but in point of fact it can't compare in its effects upon an invalid's system to Dr. Pierce's "Golden Medical Discovery," universally acknowledged to be the greatest liver invigorator, blood purifier, consumption cure and general revitalizer and tonic in the world. By its use, thousands whom physicians could not help have been restored to health and happy living. All druggists.

Horsford's Acid Phosphate,

Unequaled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

Cholera Preventative.

In order to withstand Cholera and such like epidemics a perfect purity of Blood, and the proper action of the stomach are required. To insure that end, in the cheapest, most available and complete manner, use McGregor's Speedy Cure for Dysyepsia and Impure Blood. There is no purer, safer or more reliable remedy in existence for Indigestion, Dyspepsia, Costiveness, etc. Ask your neighbors or any person who has used it. Sold by John McKee. Trial bottles given free.

AYER'S HAIR VIGOR
Restores the color, gloss, and youthful freshness of the hair; stimulates a rich and luxurious growth; thoroughly cleanses the scalp; prevents dandruff and humors; and is the most cleanly and effective preparation for the hair ever offered to the public. Rev. J. W. Davenport, Illinois Bend, Texas, writes: "Ayer's Hair Vigor, used in my family for several years, has no equal as a dressing, nor for preventing the hair from falling out or turning prematurely gray. It ranks among the first luxuries of our house." Miss Kate Rose, Ingersoll, Ontario, writes: "While keeping my head clear of dandruff, and preventing Scald Head, Ayer's Hair Vigor has also caused my hair to grow luxuriantly, resulting in my now possessing hair forty-two inches long, and as thick as could be desired." The wife of Dr. V. S. Lovelace, Lovelaceville, Ky., had very bad tetter sores upon her head, causing the hair to fall out. Ayer's Hair Vigor healed the sores, and in less than twelve months produced hair a foot long.

AYER'S HAIR VIGOR.

No More Bald Heads.
To produce a new growth of hair on bald heads, in the case of persons advanced in years, is not always possible. When the glands are decayed and gone, no stimulant can restore them; but, when they are only inactive, from the need of some excitant, the application of Ayer's Hair Vigor will renew their vitality, and a new growth will result. L. V. Templeton, Newbern, N. C., writes: "After a protracted illness, with fever, my hair all came out, leaving me entirely bald. I procured a bottle of Ayer's Hair Vigor, and, before I had used all its contents, a thick growth of hair, nearly two inches long, covered my head." L. D. McJunkin, Perryville, Md., writes: "Baldness is hereditary in my family. Five years ago the hair on the top of my head was becoming weak and thin. I procured Ayer's Hair Vigor, the application of which invigorated the hair roots, and sent out a new growth of young hair. To-day my hair is as thick and vigorous as ever. I still use the Vigor occasionally to keep my scalp in a healthy condition."

THE CITY AND SUBURBS

Piano Tuning.

Mr. Geo. Gumpricht is in town for a few days. Orders may be left at Mr. Thos. Menzies' bookstore, or Messrs. Taylor & McDonald's drugstore.

Coming Again.

Prof. R. Watkins, the veterinary dentist who was here a few weeks ago, will again visit Peterborough on August 23rd, and will remain at the City Hotel for two weeks. The best city reference given.

A Big Flower.

As a specimen of luxuriant growth Mr. William Spenceley has left with us a sunflower head grown in his garden at Auburn. Even without the yellow petals it measures between 15 and 16 inches across and it weighs two pounds.

Junior Lacrosse.

Mr. J. R. Trebell's junior lacrosse team played in the Riverside Park on Wednesday afternoon against Bowmanville and after six hours battle won three straight games. Mr. Trebell is proud of his team. The next time they win he is going to give them a whole bottle of soda water to each "man."

Gun Club.

The Gun Club held a meet in the Riverside Park on Thursday. The scores are as follows:—

R. Tivey	0 0 1 1 0 1 1 0 1 1	6
H. Calcutt	1 1 0 0 1 1 1 0 1 0	6
C. Calcutt	0 1 0 0 1 1 0 0 1 0	4

Personal.

Mr. Charles Metherall, formerly of Peterborough, now of Rochester, is in town on a visit.

Mr. Beach, of the *Mail*, who has been in town for the past three weeks obtaining cuts of the public buildings and manufacturing industries for the illustrated description of Peterborough, which is to be given in the *Mail*, and also writing up a historical sketch of the town, left town on Friday evening, having finished his work.

LADIES' JERSEYS.—30 different styles in Jerseys to select from at R. FAIR'S.

The Gardens.

The Fire Brigade Band gave their regular weekly open air concert in the Horticultural Gardens on Friday evening. The grounds were crowded with people, and never yet did the Gardens present a more beautiful and brilliant appearance. The throng moving about in the dazzle of electricity, groups scattered here and there on the velvet lawn, pairs promenading the walks, and the music of the band all went to make up an exchanting scene.

Prof. Dorenwend's Visit.

The well known Hair Goods Manufacturer, Prof. Dorenwend, of Toronto, will visit Peterborough. He will be at Phelan's Hotel on Friday and Saturday, Aug. 27 and 28. On this occasion he will have with him an unusually large stock of his magnificent goods. Articles to suit everyone, old or young, rich or poor, for to make persons look young and handsome. He is well known in Peterborough, and little need be said of him and his goods. This is the chance for those who need anything in his line, as he will not make another trip for quite a while. Remember, for two days only, Aug. 27 and 28, at Phelan's Hotel.

Y. M. C. A. Notes.

A District Conference of the Associations is to be held in Peterborough on Sept. 23rd and 24th. Representatives of the Toronto, Port Hope, Kingston and Lindsay Associations are expected as well as one or more delegates from the International Committee, New York. The local Association invite ministers and laymen interested in young men's work from neighboring towns where no Association exists. Communications should be sent to the Secretary, Mr. Geo. E. Williams. The anniversary of the Peterborough Association will be held on Thursday, 23rd Sept. Prominent speakers from Toronto are expected. Strangers and young men in town will alike be welcomed to the young men's meeting in the rooms on Saturday night.

TARRED and Plain Building Paper, only 2c. lb. GEORGE STETHEM.

A VERY SAD OCCURRENCE.

While on a Holiday Trip Mrs. C. W. Sawers Meets With a Serious Accident.

On Friday Mrs. C. W. Sawers and her children, together with some of Mr. W. H. Moore's family and her father, Mr. Duncan McLeod, went out on a holiday trip to Stoney Lake. At Burleigh, Crawford Sawers, the eldest little boy, slipped and fell into the water at the shore wetting his clothes. The garments were hung to dry near the boiler of the steamer Cruiser, on which steamer the party took passage.

When the steamer was nearing Boschink a heartrending scene occurred in the engine room. The engine takes up all the space in the room except about four feet square. Mrs. Sawers went down to get Crawford's clothing. Mr. McLeod went with her. Mrs. Sawers was standing with her back to the "Pitman" when her dress was caught in the revolving shaft. In a moment Mr. McLeod saw the peril in which his daughter was placed. He quickly grasped her and held her with all his strength till her clothing was stripped away. With great effort he succeeded in keeping her from the machinery till the clothing became tangled about her ankles, when she was wrenched from him despite his most agonizing offorts. As quick as thought she was thrown around and hurled several feet beyond the shaft. When the first shock was over all on board crowded around eager to render assistance. She was tenderly taken up and the boat sailed back down the lake. At Juniper Island Dr. Might made an examination, finding both legs broken just above the ankles. He did some preliminery bandaging, and the boat again came on till within a few miles of Lakefield, when Dr. Douglass was taken aboard. He did all that was possible under the circumstances. At Lakefield a hammock was suspended in a freight car and in this conveyance Mrs. Sawers was brought home.

The attending physicians made an examination in the evening and found that there was a compound fracture of both legs and also that the right shoulder had been dislocated. There were several bad bruises, but none of a very serious nature.

Though Mrs. Sawers stood the pain with great fortitude, it was deemed advisable to place her under the influence of ether to go through the surgical operations. The fractures were all successfully set, and the shoulder blade was put in its place.

All that could be done was done. It is earnestly to be hoped that the suffering lady will recover.

The physicians are at present of opinion that she will soon recover. All praise and wonder at her uncommon firmness in passing through such excruciating pain without even a complaint. Her sole anxiety is to get better.

A telegram was received from Mr. Sawers this morning. He is ill at one of the New York Spas, suffering from inflammatory rheumatism. He is coming home on Monday.

FOREPAUGH'S CIRCUS.

The Streets Crowded to Witnes the Street Parade.

The circus, with its elephants and lions and tigers and jugglers and athletes and brass bands and prancing horses and camels and red lemonade and toy baloons and big crowd of people and all that, is here once more.

Forepaugh's circus is, however, a good deal different from the ordinary travelling show. The street parade was really a brilliant and sparkling spectacle. The gorgeous pageant was led by a carriage, containing the managers, drawn by six gallant grey steeds. After this followed the slow moving, massive, gilded waggons, a troup of clowns in little carts drawn by tiny ponies, a herd of twelve elephants, some huge animals and some small. Five brass bands were fixed along the progressing procession and succeeded each other in the usual dashing and spirited music; the representation of a court retinue, all mounted on gaily caparisoned horses and robed in jewel-bespangled habits, was a sight of dazzling splendor; the cowboys and western Indians and the cowboys' brass band formed novel features.

As the long line of varied attractions moved slowly down George street it was watched with keen interest by thousands of people on the sidewalk, in the windows, on the tops of buildings and in every possible place of vantage.

Mr. Harry Ewarts, the press agent says that the latest grand menagerial triumph of the great Forepaugh is, that he has secured the Madison Square Garden, New York City, which will be opened on Nov. 22nd, with attractions never before witnessed on this continent.

The seats at the circus this afternoon were well filled. The show is given again this evening.

The Market.

There was a large attendance at this morning's market. A large quantity of huckleberries and thimbleberries came in by rail from the Township of Methuen on Friday evening and were disposed of on the square this morning. The former sold at 9 cents per quart; and the latter at 10 cents per quart; eggs sold at 12 cents per dozen; turkey eggs at 15 cents per dozen; butter, at 15 cents per pound; lamb at 9 and 10 cents per pound; shelled green peas, at 5 cents per quart; string beans, at 20 cents per peck; cabbages, at 7 cents per head; potatoes, sold at 70 and 80 cents per bag, and apples at from 70 to 100 per bag.

JOHN DOUGALL DEAD.

The Founder of the Montreal "Witness" Passes Away at a Ripe Old Age.

MONTREAL, Aug. 19.—There was profound regret expressed to-day by the older inhabitants of this city when a despatch was received from New York that Mr. John Dougall, the founder of the *Witness* here and in New York, had died suddenly at his son's residence in Flushing, Long Island, while at breakfast this morning. Deceased was born in Paisley, Scotland, in July, 1808, and therefore had entered on 79th year. He visited his family here about a month ago and seemed to enjoy excellent health. He came out here in 1826 with the intention of going into the dry goods business, and brought some consignments to start with. In 1832 he joined the first temperance society established in the city, and soon after took charge of the *Temperance Advocate*, which he edited, but still attended to his successful dry goods business until 1846, when he first published the *Weekly Witness*. In 1871, being aided by a resident capitalist in New York, he bought out a one cent daily paper there under the same title, which was carried on for six years, when it expired, the loss incurred being very heavy. Being a man of great energy and perseverence he continued the *Weekly Witness*, which he conducted up to his death, his youngest son, Mr. J. D. Dougall, and his son-in-law, Mr. Cochrane, assisting him. Deceased was connected with the Congregational denomination, and was deeply imbued with religious feelings. He devoted his time to propagating temperance principles both by pen and voice, and was a philanthropist in the strictest sense of the word. Deceased leaves two sons, the elder being the editor of the *Witness* here, and now on a trip to England, and the younger is residing in New York. There are also four daughters surving, one being married.

MURRAY CANAL

Notice to Bridge-Builders.

SEALLED TENDERS addressed to the undersigned and endorsed "Tenders for Bridges, Murray Canal," will be received at this office until the arrival of the eastern and western mails on FRIDAY, 20th DAY OF AUGUST, next, for the construction of swing bridges at several places on the line of the Murray Canal. Those for the highway are to be a combination of iron and wood and the one for railway purposes to be of mild steel or wrought iron.

Plans, specifications and general conditions can be seen at this office on and after FRIDAY, 6th DAY OF AUGUST, next, where forms of tender can also be obtained.

Parties tendering are expected to have a practical knowledge of the class of works required, and are requested to bear in mind that tenders will not be considered unless made strickly in accordance with the printed forms, and—in the case of firms—except there are attached the actual signatures and nature of the occupation of each member of the same. Further, a bank deposit receipt for the sum of $250, for each bridge for which the offer is made, must accompany the tender, which sum shall be forfeited if the party tendering declines to enter into contract at the rates stated in the offer submitted.

The deposit receipt thus sent in will be returned to the respective parties whose tenders are not accepted.

This Department does not, however, bind itself to accept the lowest or any tender.

By order,
A. P. BRADLEY,
Secretary.

TWO HUNDRED LIVES LOST.

Burning of a Passenger Steamer on the River Volga in Russia.

LONDON, Aug. 21.—A despatch from St. Petersburg says that a passenger steamer plying on the river Volga, at Saratova, the capital province of Saratov, in Russia, was burned to-day. Two hundred lives were lost.

FORESTERS DEMONSTRATION.

A City In Gala Array—Generals View the Modern Men of Sherwood.

The city of Stratford, Ontario, was last week the scene of a grand demonstration by the Ancient Order of Foresters, at which not only Canadian Courts but some from the United States were represented, and there were crowds of spectators to the number, it is calcuated, of 12,000. Public and private buildings were illuminated and otherwise decorated. A sermon to the brethren, a procession and review, athletic sports, competitions of the Knights of Sherwood Forest and of Fire Brigades and a banquet were the chief features. Gen. Middleton, commanding the forces of Canada, and Gen. Innis, of Michegan, drove in the procession, reviewed the Courts, and awarded prizes. The banquet was at the Windsor Hotel and was worthy of Mr. Allan Huffman's catering.

RELAYING THE COBBLE STONES.

Belfast Getting Into Shape After the Religious Riots.

BELFAST, Aug. 21.—The city has remained perfectly quiet for the past three days, and the pavers have been hard at work relaying the cobble stones which were torn up by the rioters to use as missiles in their late fights. For the first time in the past two weeks the street lamps in the disturbed districts have been allowed to remain alight. One sad case—an outcome of the riots—has occurred. A Protestant named Treen, married to a Catholic wife, was so much worried by the recent troubles and his inability to aid either side that he became insane, and it was found necessary to take him to an asylum. The outlook, however, is by no means reassuring, and there is some danger that men may be driven to acts of desperation through want. Many persons on both sides have been forced out of work, and the small storekeepers are suffering severely. More severe rioting is expected by both sides in October, when the Sexton disputed election case in West Belfast will be settled. The defeated party, whichever it may be, is sure to make some further attempt at rioting. The troops will control the city for from one to three weeks, according to the temper of the people.

ENNISMORE.

ACCIDENT.—On Saturday night last Robt. Beats lot 22, Con 5, Township of Emily, had a fine horse drowned in a creek which runs along the west end of his land into Mud Lake. Getting sometimes into his crop he tied him down, and having gone through the night to get a drink his foot got caught in the strap, and being unable to extricate himself he was found lying dead on Sunday morning.

Body Found.

WHITBY, Aug. 21.—The body of Frank Lowe, who was drowned at Cobourg in the latter part of June, was found near Whitby harbor and sent east to Cobourg last night. The interment took place this morning. It will be remembered that his brother's body was found near Grafton, so that the body of Frank was found over forty miles from where the accident occurred.

A Backwoods Canard.

MONTREAL, Aug 21.—The backwoods tragedy which was reported to have been enacted in a small settlement north of St. Jerome has turned out to amount to nothing at all, and Judge Dugas, who returned to town last evening, states that the preliminary examination in the affair did not adduce a participle of proof upon which the farmer Boisclair might be indicted on a charge of having murdered his wife.

Mr. Sexton's Seat.

LONDON, Aug. 20.—In the House this afternoon Mr. Biggar (Parnellite) moved that a new writ be issued for an election in the south division of Sligo in place of Mr. Sexton, who, having been elected both for that seat and for the west division of Belfast decided to sit for the latter. The speaker refused to receive the motion, stating that a petition had been presented against granting a seat to Mr. Sexton for West Belfast.

Killing Infected Cattle.

QUEBEC, Aug. 20.—Dr. McEachern, Chief Dominion Inspector of Cattle Quarantine, is in town superintending the slaughter and cremation of Mr. McCrae's infected herd of cattle. The large kiln specially erected for the purpose has been completed. The work of slaughter and cremation commenced yesterday. By evening nine cattle had thus been disposed of, and it is believed that about Tuesday next the whole herd will have been reduced to ashes. The sheds occupied by the infected cattle and all the manure in the quarantine, amounting to over 3,000 loads, will also be burnt.

Discovery of Smugglers' Caves.

Some extensive subterranean caverns have just been discovered by the Rev. A. A. Thorne, beneath a garden at the rear of the house, occupied by him at Westfield, Birchington-on-Sea, England. When lowering a bucket down a well in the garden, the bucket which was swinging mysteriously disappeared in the side of the well. This aroused the curiosity of Mr. Thorne, who himself descended the well and discovered extensive excavations. The place has since been examined, and subterranean passages and chambers representing 20,000 cubit feet of space have been found to exist. The entrance in the side of the wall is thirty-two feet below the surface, and the chambers are of a very roomy description, their height being eight feet and upwards. One very long passage leads in the direction of the shore, which would seem to indicate that the occupants contemplated opening up underground communication with the beach, which, however, they failed to accomplish. Close by the spot there used to be an old lime kiln, and it is conjectured that the smugglers contrived to keep their work secret by means of the kiln. Indications are not wanting that the caverns were used for the storage of contraband goods.

LATEST BY TELEGRAPH.

IMPERIAL PARLIAMENT.

LONDON, Aug. 21.—In the House of Commons last night, Lord Randolph Churchill announced that the Government would oppose all notices of motion and private member bills in order to prolong the session. Mr. Labouchere occasioned laughter by asking if the Government would agree to refer such bills to a Royal Commission.

TENANTS PURCHASE HOLDINGS.

LONDON, Aug. 21.—The tenants of the London Salters Company's estates at Magherfelt, Londonderry, have purchased their holdings under Lord Ashbourne's land purchase act. The price is £220,000, or 19½ years' purchase at a net annual valuation which is 20 to 25 per cent. below the present rent.

THE IRISH PROGRAMME.

LONDON, Aug. 21.—In the House of Commons on Tuesday next, during the debate on the Address, in reply to the Queen's Speech, Mr. Parnell will move an amendment with reference to the land question, including the suspension of evictions in certain cases. Mr. Sexton will defer the raising of the question of the riots until the debate on Mr. Parnell's motion is closed.

THE UNIONISTS DISSATISFIED.

LONDON, Aug. 22.—The silence of the Liberal Unionists in the Commons in the debate now going on over the Tory Government's Irish policy is beginning to attract attention. Rumors are current that the Liberal Unionists disapprove of the Irish land policy outlined by Lord R. Churchill.

EVICTIONS IN DONEGAL.

DUBLIN, Aug. 22.—The evictions at Gweedore, in the district of Donegal, have been concluded. The total amount of rents concerned does not exceed £50 yearly. There were 150 policemen and bailiffs and sixty cars and boats engaged for eleven days in the proceedings, at a cost of £100 a day. The scenes were pitiful, the people being steeped in poverty.

THROUGH NIAGARA RAPIDS

A Man Achieves the Feat of Going Through in a Cork Suit.

PROSPECT HOUSE, NIAGARA FALLS, Ont., Aug. 22.—The only man known to have swum the Niagara rapids and survive is W. J. Kendall, of Boston, who accomplished the feat to-day. He took the water at 1.40 p. m. at a point about a quarter of a mile above the old suspension bridge, clad in a suit of tights and a cork jacket, and struck boldly out for the centre of the river. The eddies took him close to the Canadian shore. In a few seconds he was in a swift drift and was quickly carried to the first high breaker, which he safely rode, and unlike the late Captain Webb, who lost his life in trying to accomplish this feat, Kendall topped all the fierce waves instead of trying to dive through some of them, all the time having command of himself, and keeping his head and shoulders well out of the water. He was dashed through the rapids in just three minutes, and swam out of the whirlpool apparently none the worse for the undertaking. It was in these rapids last Thursday that Scott, of Lewiston, lost his life in a like attempt.

Kendall is a Boston policeman, 24 years of age, 6 feet 2 inches high, and weighs 195 pounds. Over five thousand people had gathered to witness Graham go through the rapids in a barrel, as had been previously announced, but imagine their surprise to see Kendall tossed about in the angry breakers with nothing to protect his body, and swept away before their gaze.

A BULGARIAN REVOLUTION.

Prince Alexander Leaves the Throne—Said to Have Been Forced Out.

LONDON, Aug 22.—A despatch from Sofia, Bulgaria, dated Saturday, says: "The populace and the troops quartered in the capital surrounded the palace early this morning. Prince Alexander abdicated and was escorted over the frontier. There was no disorder. The populace then assembled and adopted the resolution praying the Czar to re-extend his sympathy to the Bulgarian populace. The assemblage proceeded to the palace of the Russian agent and submitted to him the resolution, all kneeling. The agent assured them of the Czar's friendship. A provisional government has been formed."

The Porte has sent a circular note to the powers inviting them to express their views on the Bulgarian crisis.

BERLIN, Aug. 22.—It is stated here that Prince Alexander of Bulgaria was deposed and made a prisoner during an inspection of the troops at Widdin.

The Cologne *Gazette* and the Berlin *Post* express the belief that the event will tend to preserve the peace. They say that Prince Alexander's personal qualities deserved a better fate, but England having refused him active support against Russia, and Turkey being afraid to risk war in behalf of Bulgaria and the Gastien meeting showing that the alliance was unbroken, his position was a hopeless one.

MONDAY, AUGUST 23, 1886.

CRAVING THE VETO.

ACCORDING to Mr. Mowat and to the Rielite *Globe*, Sir John Macdonald has committed another outrage. He actually refuses to veto an Ontario Act, or even call it in question. Mr. Mowat, as leader of the Local Legislature, obtained the passage of a Factory Act, and now he refuses to put it in operation, wailing over Sir John's disturbance of his crafty plans by neglecting to disallow it, or even to call it in question before the Supreme Court. Evidently Mr. Mowat, when he supported this Act, was playing one of those little tricks to which he is so much addicted. He hoped that the exercise of the veto power would give him another excuse for clamouring about an invasion of Provincial rights, and for pretending to be a friend of the operative. The extent of his friendship for the men and women working in the factories is shown by his persistent refusal to put the law into operation. His regard for Provincial rights is also manifested by this bewildered cry for a Dominion veto of his own act. It is the small device of a small trickster.

It will be remembered that Mr. Mowat is not playing this pettifogging game for the first time. Some time ago he supported an Orange Incorporation Bill in the Legislative Assembly as member and leader of the House, so that it was carried. He then, as Attorney-General, advised the Lieutenant-Governor to refuse his assent to the Bill. Such a thing was then and is still unprecedented in the history of constitutional government. No other First Minister has ever been so dishonest and so paltry. If Mr. Mowat thought that the Orange legislation was wrong, he was without justification in supporting it as member and leader of the House. If he thought it was right, he was equally unjustified in refusing assent to it. Either way he acted as a hypocrite and a trickster, neglecting his solemn duty in one capacity or the other, that he might make political capital for himself and against his political opponents.

His present shifty dealing with the Factory Act is as pettely dishonest and nearly as unconstitutional in spirit.

IT appears that a man who is now charged with burglary and horse-stealing wrote nearly a year ago to Sir John Macdonald offering information. Sir John replied that the information might be sent to him in writing, and declined a personal interview. The *Globe* thinks that this proves Sir John's friendship for a horse thief. Some time ago a thief, through his brother, had communication with Sir John Macdonald to obtain an alleviation of the thief's sentence. Does the *Globe* think that Sir John should have kicked out the thief's brother, cringing at his feet on behalf of the thief, or that he should have shown mercy, as he did?

THE Toronto *Globe* continues to obstruct the erection of a new Court House in that city, while it urges forward the construction of new Parliament buildings. This is probably because the new Court House would be at the cost of the locality, while it desires to see the whole Province taxed for a handsome parliament house to beautify Toronto. The next step will be to ask the Province to pay the city taxes on the building.

THE contest for the representation of Haldimand in the House of Commons will be regarded with unusual interest, being the first election in Ontario since the Blake-Riel conspiracy. Haldimand has since confederation been a Reform constituency, the late Mr. Thompson, a pronounced Reformer, having been elected six times in succession. Thus a Conservative gain would be a surprising victory.

THE Rielite organ in Toronto has now discovered a Conservative plot to depose Sir John Macdonald. Yet we constantly read in the *Globe* that with Sir John Macdonald removed the Conservative party in Canada would fall to pieces, that in fact there would be nothing left of it.

POPULATING THE NORTH-WEST.

The Large Influx of Settlers this Year—Good Material.

Mr. S. O. Armstrong, colonization agent of the Canadian Pacific Railway, states that this season has been far in advance of previous years as regards the number of emigrants who have taken up land in the North-West. From the beginning of the present year to the 1st of July, 1000 miles of country in the Province of Ontario between Mattawa depot on the Canadian Pacific Railway and Port Arthur has been settled and partly cultivated. In the Lake Nipissing district, immense tracts of fine land have been recently opened up, and whereas two years ago there was room for a dozen families, the agents now report plenty of good land capable of supporting hundreds. This district is so favorably regarded that 1700 families have settled between Mattawa and Cartier depots, all in the Nipissing district, and some of the little depots have become thriving towns with populations of from 200 to 2,000 people. Among these may be mentioned Mattawa, North Bay and Sturgeon Falls. The extension and completion of the Algoma branch of railway to the Sault Ste. Marie, which was begun this month, will open up a still more extensive region, where settlers will be near the Great Lakes, and take advantage of the facilities for navigation. Westward from Port Arthur there is a great deal of good land called "Brule," or land over which the fire has run several times, clearing it of the timber and which quickly covers itself with a thick covering of grass. North-west from Rat Portage along the Winnipeg river to the Lake is a good stretch of black loam. This section has attracted a large number of French Canadians this year, the Roman Catholic Missionary at Fort Alexander having successfully invited them to come. The French Canadian settlements S. E. of Winnipeg on the Rat river have been strongly reinforced by their fellow countrymen from New England and Provinces of Quebec. On the Manitoba South Western Railway near the Turtle Mountains is a settlement from Labrador and the north coast of the St. Lawerence including families from the islands of St. Pierre in the Gulf. Apart from these the majority of settlers are from Ontario and the old country. Thriving settlements of Germans, Scandinavians and Hungarians have this year been formed on the main line of the C. P. R. beginning about 250 miles west of Winnipeg on the Qu'Apelle River, between White Wood and Regina. About 700 families have settled in this district this year, a larger number than during any previous years. These people all express their intention of becoming naturalized Canadians and British subjects. They all express themselves pleased and satisfied with the country, and many of them have written home to their friends urging them to come over to them. The Calgary district has probably received the largest number and the better class of emigrants that any other section. The large quantity of settlers' effects and the number of cattle imported into this section has been something unprecedented in the history of Canadian Colonization. Five thousand head of cattle were shipped there by one firm alone, that of Messrs. Gilroy & Co., and a constant influx of cattle is going on from the neighboring States of Montana, Idaho and Dakota. Across the Rockies, beginning at Golden City and proceeding southward to the Montana and Idaho boundaries is a most extensive valley country, possessing a fine dry climate, good soil and an abundance of wood and water. Coal has also been found in this district, and is just beginning to be worked. About 100 families have settled in this region and there is ample room for thousands more. From Golden City to the second crossing of the Columbia river there is no land for settlement, but thence westward to Vancouver city and inland there is a great quantity of good land ready to be taken up. A number of settlers have already located themselves there, but the returns have not yet been issued. The Columbia and Kootenay rivers have many streams running into them, where placer mining is going on, the majority of the miners being Chinese.

A steamer has been placed on the Columbia river, running between Golden City and the Columbia Lakes. At several places in the vicinity quartz mining has begun. A considerable amount of capital has been invested, especially at the bend of the river and in the Similkameen and Granite Creek countries, about 200 miles due east of Vancouver city.—*Montreal Star.*

A TEXAS CYCLONE.

Devastation and Destruction in Galveston—Several Lives Lost.

GALVESTON, Texas, August 21.—The easterly gale which set in yesterday forenoon became a veritable cyclone. By 9 p. m. people living in exposed positions of the eastern and southeastern position of the city began to remove from their habitations and seek safety in the central portion of the city. At midnight the wind howled and shrieked fearfully hurling and driving the waves over and across the sand hills far into the city, and all that portion of the city east of 15th street and south of Avenue L was a vast mass of seething waters, while contiguous to the beach a frightful scene of devastation and destruction was in progress. Houses careened and went down before the fury of the gale and the force of the waters like cockle shells, and frighted men, women and children were frantically struggling through the boiling and surging waters for places of safety. Hundreds who occupied cosy homes in apparent security yesterday are lodged at hotels, churches, convents or in other public buildings with scarce sufficient clothing to keep them comfortable, while all else was swallowed up and destroyed by the mad waves. It is estimated that fully 150 houses have been wrecked and ruined, while a great many more have been either knocked from their foundations or flooded with water or badly damaged. At ten yesterday the wind, which had reached a velocity of fifty miles an hour, began to abate and the waters receded. As evening approached, however, the wind began to freshen and at nine last night it had increased to a gale. The schooner Perkins was capsized by the gale last night and three persons were drowned, including Captain Mitchel.

Threatened With Dynamite.

NEW LONDON, Conn., Aug. 20.—It is rumored that Judge Barrett, of New York, who recently sentenced the boycotters in that city has been warned to move out of his present quarters at Hutchison Place, at Letchfield, where he is spending the summer, or expect a dynamite explosion.

A Woman Lynched.

NASHVILLE, Tenn., Aug. 20.—Eliza Woods, a colored cook, who poisoned Mrs. J. P. Wooten, by whom she was employed at Jackson, was taken from gaol by a mob on Wednesday night and hanged.

THE COLONIAL EXHIBITION.

Not Time Enough to Examine all Exhibits—Should be Permenant.

The Preston, Eng., *Guardian* says:—When we think of the immense quantity and variety of articles of Colonial and Indian growth and workmanship assembled this summer at South Kensington, which have been conveyed by land and water so many thousands of miles to the spot in which they were intended to be displayed, the feeling of regret is involuntary that after so short a time for exhibition, these treasures should be sent back again to the places from which they have come, and the fleeting chances of a rapid inspection of a small proportion of the exhibits which the people of London and a proportion of the inhabitants of other parts of the British Isles have had will be gone. The visible evidences of colonial science, and art, and husbandry, and trade and commerce, as well as the wonderful range of natural productions which the territorial expanses of Australasia, Canada, South Africa, and our Asiatic dependencies yield, contained within the walls and enclosures of the Exhibition buildings and grounds, must, unless the effort to preserve the collection and to continue its public display, be quickly withdrawn, and the impression they have made upon the minds of all intelligent people who have seen them will soon fade away. What a useful instruction for intending emigrants before starting from England, respecting the system of industry and the staple articles of consumption and export of different colonies a permanent Colonial Exhibition would supply! Of course, the collection would be subject to frequent changes and replenishments as regards many of its contents, and would in any way preserve a perennial attractivness. Any other site selected must be spacious and readily and cheaply accessible both to the millions of the inhabitants of London and to the hundreds of thousands of country people who visit London a sight seeing year by year. Another question is the financial one. A permanent Exhibition of Colonial and Indian products would not pay its own way by the mere charge for admission, which ought to be very low in order that the working people might visit it freely. A grant from the Imperial Treasury would be necessary, and a point to be tested is whether the Colonial Governments would meet such a grant with smaller grants proportionate to their shares in the Exhibition. Before the time comes for the Exhibition to be closed, and before its costly contents begin to be dispersed, the British and Colonial Notables concerned in the undertaking, with the Prince of Wales at their head, will doubtless consider in all its aspects the proposition to establish a similar Exhibition as a permanent Metropolitan Show, and if the scheme should be pronounced feasile and take definite form, we imagine that the circumstance of its sanction will cause widespread satisfaction to the British public.

A WATERY GRAVE.

Sad End of a Fishing Excusion at Orr Lake—Three Persons Drowned.

TORONTO, August 21.—Mail advices from Hillsdale say that a very sad drowning accident occurred on Monday evening last at Orr Lake, about three and a half miles north of that village, by which three persons lost their lives. Their names were Thomas and William Taylor, (brothers), and John Hamilton, a lad about fourteen years of age. All three went out fishing in an old rickety boat early that evening. His son not having returned during the night, Mr. Hamilton became alarmed and at daybreak started to search for him. Procuring a boat, Mr. Hamilton struck out for the spot where the party were last seen, but had not gone far before he saw a fishing rod sticking up out of the water, which he at once recognized as his son's. Standing straight up in the water, and grasping a pole with a line wrapped round his limbs was the body of William Taylor. Procuring help Mr. Hamilton conveyed the body to shore, and then began to search for the others. Thomas Taylor being found shortly afterwards within twenty feet from where his brother was discovered. The search for the body of young Hamilton was a prolonged and anxious one, not being found until seven o'clock in the evening. Thomas Taylor leaves a wife and four small children to mourn his loss. Wm. Taylor was unmarried. A subscription list has been opened for the benefit of the family of Thos. Taylor.

Confederation Medals.

OTTAWA, Aug. 21.—The Governor-General has granted a copy of the Confederation medal to each of the three following: Joseph Hickson, General Manager of the Grand Trunk Railway; Sandford Fleming, C.M.G., C.E., and the Rev. Dr. Scadding, author of "Toronto of Old."

Wonders of the Yosemite!

A trip to California may be excellent as a means of recreation and sight seeing, but in point of fact it can't compare in its effects upon an invalid's system to Dr. Pierce's "Golden Medical Discovery," universally acknowledged to be the greatest liver invigorator, blood purifier, consumption cure and general revitalizer and tonic in the world. By its use, thousands whom physicians could not help have been restored to health and happy living. All druggists.

ADVERTISE IN THE DAILY EVENING REVIEW. IT PAYS.

THE IRISH AT CHICAGO.

Another Grand Gathering in the Artillery Armory.

CHICAGO, Aug. 20.—There was another great outpouring of Irish Americans at the Artillery Armory on the Lake Front this evening to hear addresses by Davitt and the Irish Parliamentary delegates. An admission fee was charged, the money to be applied to the parliamentary fund. Before eight o'clock there was between 10,000 and 12,000 persons present with an awaiting crowd outside. The entrance of Davitt and the other notables was the signal for uproarious cheering. Alexander Sullivan presided. The interesting feature of the entertainment was the presentation to ex-President Egan of a silver tea service, the gift of Mr. Parnell and other distinguished Irishmen. It was presented by Mr. Davitt, and President Egan made a suitable speech in honor of the gift and givers. The set stands in an ingeniously constructed mahogany case lined with, watered silk of the national colors.

LONDON, Aug. 21.—Mr. Parnell has sent the following cable message to John Fitzgerald, the newly elected President of the Irish National League of America:—"I thank the Chicago convention for its encouraging message. The ratification by the convention of our policy and action, and the order, union and moderation of the proceedings have created a profound impression here and will add great strength to our position."

LONDON, Aug. 21.—The *Times* this morning gives prominence to a letter suggesting the prosecution for treason on their return to their homes of the Canadian delegates and other British subjects who figured in the Chicago convention.

THE TORONTO CONSPIRACY.

The Prosecution Likely to fail Through —Judge O'Connor's Decision.

TORONTO, Aug. 20.—Judge O'Connor gave his decision this morning refusing the motion for the application for an injunction to return P. Burns' books seized by the police. He was of opinion that trespass had been committed, but as the books were in another court as evidence, he could not interfere. This decision was handed to the Police Magistrate and he immediately went on with the hearing of the case against Burns, Venables and the other defendants for conspiracy to defraud the city. After unimportant testimony was given, Symons, Burns' absconding book-keeper, took the stand. His evidence was merely a repetition of the statements previously made by him that false entries had been made in the books to cover up frauds. After Symons had been cross-examined, the further hearing of the case was adjourned till Monday morning, the Magistrate allowing the prisoners out on their own bail. The opinion was freely expressed that the case would break down.

A Ship Blown up by Dynamite.

An alarming dynamite explosion took place at Havre on Saturday week on board a sloop. The vessel, with a cargo of powder and twenty-two tons of dynamite, ran aground on Thursday, near the hotel Frascati. A considerable portion of the dangerous cargo had been got away to a safe place, but the remainder, consisting of one hundred cases of dynamite, and nine hundred kilogrammes of powder, exploded, owing, it is said, to the constant movement of the vessel on the shingly beach. The sloop was, of course, completely pulverized by the explosion, and the debris scattered all over the streets of the lower part of the town, and to a distance of a mile and a half from the port. The shock resembled that of an earthquake. Windows in all directions were smashed. The water was projected in the air in a huge column, and descended like a waterspout in the very heart of the town. Numerous persons were injured by the spars and fragments of iron projected into their houses. A lady living a mile from the port had her leg broken by a beam which fell through the roof of her house on to the bed on which she was lying. The damage is very considerable. Some of the houses, as well as the vessels anchored in the port, present the appearance of having suffered a bombardment. The town museum has been much damaged. Engineers are of opinion that had the entire cargo been on board the largest portion of Havre would have been in ruins. Fortunately the explosion did not occur earlier, when the jetty and adjoining streets would have been crowded with promenaders.

Two Warehouses Consumed.

PORT CREDIT, Aug. 20.—At 2.30 o'clock this morning fire was discovered in one of the grain storehouses on the lake front. The fire spread to the other two warehouses, and as there are no fire appliances in the town the people could do nothing but stand and watch the building burn, and by 6 o'clock the storehouses were totally consumed. About 12,000 bushels of wheat were stored in one of the buildings. The fire completes the destruction of the harbor buildings. At the time of the fire the grain was sold and a vessel was en route to Port Credit to take it away. It was valued at from $9,000 to $10,000. The loss, which is said to be total, will be fully covered by insurance, and there is a policy in the Lancashire for $4,000 and another in the Phœnix which covers the rest. The buildings were owned by the Harbor Company, and were old and very much out of repair.

In Petrolia.

PETROLIA, Aug. 20.—A fire occurred here at about 1.30 this morning in the premises owned by E. A. Archer and occupied by J. H. Fraser & Co. as a grocery and provision store. The flames spread very rapidly, enveloping the building occupied by Mr. Archer as a book and fancy goods store; H. B. B Alley, dry goods; Nelson Wood, barber; D. Manning, butcher; Thomas King, boots and shoes; Henry Canniff, watchmaker; Express office and Bell Telephone Company's office; also damaging goods by removal of John Watson, boots and shoes, and Edward Marshal, butcher. What might have been a very disastrous fire was avoided by the prompt and efficient fire department. The two steamers got in their positions quickly, and with their six branches had the fire soon under control. The probable loss is about $15,000; fully covered by insurance.

Canadian Fisheries.

LONDON, Aug. 20.—In the House of Commons this afternoon Sir J. Ferguson, Under-Secretary for Foreign Affairs, replying to E. T. Gourley (Gladstonian), stated that negotiations for an amicable settlement of the North-west Atlantic fisheries dispute were proceeding between England, the United States and Canada. It was not intended by either the United States or England to appoint a joint commission to amend the treaty of 1818

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

Spratt's large fish, oil, and guano factory, near the C. P. R. wharf on Coal Harbor, was burned last week. There were about 500 gallons of oil in the building.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

The Dominion Government have begun the survey for the purposed subway between Prince Edward Island and the mainland. The *Examiner* says the schooner Cygnet left Pictou with the sets of baring apparatus and a corps of experts, with buoys, anchors, etc., and that work will be prosecuted vigorously during the fine weather.

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

An Indian told this story to a reporter of the St. John *Sun*:—The canoe in which a couple of Micmacs were hunting porpoises off Pisarinco on Thursday last was savagely attacked by a huge shark, which finally siezed the coat tail of one of the Indians as it hung over the edge of the boat. The man was rescued by his companion, but bewails the loss of at least one-half of his coat.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

A story comes from Davisburg that a young lady there who was watching a binding harvester at work fell upon the table and was carried up with the grain, and being about the size of a bundle, she came through with a neat little string around her waist. One of the harvest hands caught hold of her after the machine had "kicked" her out, and stood her up. At the last reports she was convalescent.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

While the Sunderland brass band were pratising in the town hall a lighted lamp was upset. The oil escaped and caught fire. T. H. Glendinning siezed the lamp, the flames from which reached the ceiling, and tried to throw it out of the window. He missed, the lamp struck the wall and broke, and the flames spread over the whole gallery. The fire was extinguished with difficulty.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial bottles given free.

Horsford's Acid Phosphate.

Unequalled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Cholera Preventative.

In order to wishstand Cholera and such like epidemics a perfect purity of Blood, and the proper action of the stomach are required. To insure that end, in the cheapest, most available and complete manner, use McGregor's Speedy Cure for Dyspepsia and Impure Blood. There is no purer, safer or more reliable remedy in existence for Indigestion, Dyspepsia, Costiveness, etc. Ask your neigbors or any person who has used it. Sold by John McKee. Trial bottles given free.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Miscellaneous.

NOTICE.

HAVING bought out the stock of the MARBLE WORKS, opposite the Post Office, George street, and leased the premises, I am prepared to execute all kinds of Monumental Work, both in Marble and Granite. Estimates given on all kinds of cut stone for building purposes. Window sills, door sills, Plinth course always kept in stock. Both lime stone and sand stone.

BEWARE
OF WORTHLESS IMITATIONS

As there are many inferior goods, corded with jute, hemp, etc., offered and sold as Coraline by some unprincipled merchants trading on the reputation of our genuine Coraline, we warn the ladies against such imposition by drawing their attention to the necessity of seeing that the name

'CROMPTON CORSET CO.'

is stamped on inner side of all Coraline goods, Without which none are genuine.

JOHN CLARKE & SONS' Celebrated Razors. GEORGE STETHEM.

Not To-night.

No 6. Company of the 57th will not drill to-night, not until the first Monday in September. Members of the company wishing to drill may join with other companies and their time will be allowed.

New Hand in an Old Stand.

Mr. O. C. Rowse of Oshawa, has leased the store on George street known as the "Robinson House." He intends opening about October the first with an elegant and well assorted stock of dry goods. In the meantime the premises are being entirely renovated and when finished will rank with Peterborough's finest stores.

Excellent Music.

At St. John's Church on Sunday evening the musical portion of the service was really excellent. Chants, anthems, hymns, solos, and in fact everything, went off with a dash and brilliancy that at once gave evidence of the excellent qualities of the organist and choirmaster, Mr. Seward, who has brought such a large number of vocalists, in so short a time, to such a high degree of perfection.

Only One.

The only robbery reported on Saturday (circus day) was by James Kiley, of Otonabee. He said that he had left his buggy inside of the circus grounds and that his overcoat had been stolen. Capt. Cooper put the matter in the hands of Harry Head, detective with the Forepaugh Show, and that official had the missing garment before ten o'clock at night. The coat now awaits Mr. Kiley at the office of the Chief of Police. Harry Head is said to be remarkably shrewd in his business.

Prof. Dorenwend's Visit.

The well known Hair Goods Manufacturer, Prof. Dorenwend, of Toronto, will visit Peterborough. He will be at Phelan's Hotel on Friday and Saturday, Aug. 27 and 28. On this occasion he will have with him an unusually large stock of his magnificent goods. Articles to suit everyone, old or young, rich or poor, for to make persons look young and handsome. He is well known in Peterborough, and little need be said of him and his goods. This is the chance for those who need anything in his line, as he will not make another trip for quite a while. Remember, for two days only, Aug. 27 and 28, at Phelan's Hotel.

An Old Friend.

The Stratford *Advertiser*, speaking of the Foresters' banquet at the Windsor hotel, at which the Mayor presided with Gen. Middleton as a guest, thus gives credit to the host, our old friend Mr. Allan Huffman: "The entire get up of the banquet reflected great credit not only on Mr. Huffman and his excellent wife, who, we understand, takes great pride in carrying out such banquets as this, but also on the excellent staff engaged in the different departments of this popular house. The waiters and waitresses were most attentive to the wants of the guests. The manner in which the whole affair was conducted plainly showed that Mr. Huffman was determined to outdo any previous efforts he had made." The "menu" which we have received bears witness to the truth of these commendations, and is a very pretty specimen of the printer's art.

The Finest lot of Gent's Furnishings in Peterborough at ANDREW MCNEIL'S.

Hopeful.

The many friends of Mrs. Sawers will be glad to know that, up to three o'clock this afternoon, her case is a very hopeful one. As yet no decided symptoms have appeared.

They Still Buy.

Notwithstanding the success that has attended the benefit sale at the Bon Marche during the past few weeks, the people still buy, and as a consequence the store is well filled with customers every day. Come and participate in some of the immense bargains.

Mortuary Statistics.

The Canadian mortuary statistics for July are to hand. Twelve deaths are reported from Peterborough. Two males died from diphtheria, three males from diarrhœal affections, one female from a constitutional disease, two males and one female from local diseases, and one male from dévelopmental disease. Smallpox seems to have completely died away. Not one case is reported from any of the twenty points heard from.

Mr. Rossiter Retreats.

On Saturday afternoon Mr. Harry Rossiter was at the circus grounds watching for violations of the Scott Act. His presence was not appreciated by some of the circus employees, and they made demonstrations that warned Rossiter to go outside the grounds, where he took up a position affording him a view of the grounds. The men followed him and Rossiter left, going west on the boundary. They followed him a short distance, but his fleetness was of a superior kind and they stopped. Rossiter says he did not desire a row, but if it had been necessary he would have used weapons he had with him.

CARPETS.—50 new designs in Tapestry and Brussels Carpets to select from at R. FAIR'S.

The Day in Town.

Though it was apparent that a large amount of intoxicating liquor was consumed in town on Saturday the large crowd was very orderly. Two or three street fights occurred but nothing serious. P. C. McGinty showed off his valor to good advantage in the afternoon. On Hunter Street, near Sullivan's hotel, a row took place. It seemed to be the outcome of some family feud for there were about half a dozen on each side vigorously plying their fists. The crowd soon numbered hundreds. In the heat of the fray P. C. McGinty appeared and drawing his baton succeeded in separating the angry spirits. No one was taken into custody. Owing to a rigid watch on the part of Capt. Cooper and his officers and specials none of the games usually practised at such times was permitted. Several three card monte men set up business but were soon closed down.

LADIES' JERSEYS.—30 different styles in Jerseys to select from at R. FAIR'S.

The Circus.

Forepaugh's circus showed in the agricultural grounds on Saturday, both afternoon and evening. In the afternoon the seating capacity was well taxed, but in the evening there were not above a fair "house" present. The staple articles in the circus line were all good. Knowles' riding was superb, and all the rest, including the lady riders, did well. The trapese acts, though not many, paid for lack of quantity by being thrilling in quality. The contortionists were applauded for their funny posing and wonderful feats. The tricks so successfully performed by the elephants were astonishing. The clowns, however, were not remarkable for their crispness of wit. The novelties were well received. Sullivan, the boxing elephant, created no end of fun. A glove was placed on his trunk, while one of the clowns demanded a pair. When time was called the clown was found to be hoisted out of the ring. He was shampooned artistically by his second and succeeded, the next time, in gloriously defeating his opponent. The aerial feat of the horse Blondin was interesting. The introduction to the performance consisted of the appearance of the cowboys. A stage coach was attacked by Indians and rescued by the cowboys. The scene was a very realistic one. The menagerie interested crowds both going in and coming out.

Remember the auction sale of Mr. Garvey's residence and lot, Brock street, on Tues day Augut 24.

Personal.

Mr. R. T. Goodfellow, formerly of Peterborough, and now of Prince Albert, N.W.T., is in town for a few days holiday. Mr. Goodfellow reports everything about Prince Albert as flourishing, and says their harvest is further on than that of Ontario, and that the result of this year's crop will prove most satisfactory.

The Rev. E. F. Torrance has been granted an additional leave of absence of two weeks. The reverend gentleman is at present in London.

Mr. R. J. Lee has received a letter dated from Dublin, from Mr. A. L. Davis. In his letter Mr. Davis says himself, wife, and family are on their homeward trip. The party have already sailed and are expected to arrive here before Saturday.

Mr. James Bigelow, of Chicago, is here visiting his old home after an absence of twenty-three years.

Dr. Collins has removed into a new and commodious office on Simcoe street, Burnham's Block, one door west of his former office. Dr. Collins now occupies a fine office and suite of rooms, the surgery being in the front and the operating room in the rear. The doctor has, we learn, been very successful since he came to Peterborough, and has the reputation of being careful and skilful.

Mr. A. White, Toronto, and Mr. J. M. Riddel, Belleville, were in town on Saturday.

SHOCKING ACCIDENT.

A Young Man Gets Horribly Torn by Machinery.

On Saturday night Mr. Albert Reid, a young man of about twenty years of age, employed in Messrs. Meldrum, Davidson & Co's. new roller mills, saved himself from a terrible fate but by a miracle.

It was about nine o'clock. Mr. Davidson had just left the mill a few minutes and no one was left but Mr. Reid, the night miller. Finding something going wrong he went upstairs to the third flat and there found that a spout was choked up. The spout he wished to get at is situated behind one of main upright shafts which drives the chests of the bolts. This shaft extends three stories high and is connected with bolts at about every four feet with cog wheels. Where the young man stood he was shielded from these cog wheels by a net work of spouts. He held the lamp in his left hand, and picking up the cover of a spout attempted to save time by reaching through, past the wheel, to tap the spout, instead of going around to the back of it where there would have been no danger. He reached in, but no sooner had he done so than the cog wheels seized his smock sleeve and jerked him towards them. He was pulled in with such force that his body was doubled up. The wheels followed up the sleeve, mangling the flesh of the arm, and then the back of the smock got caught. This threw him almost helplessly into the iron jaws. His head went in, striking against the edges of the revolving wheels above. One by one his garments were stripped from him, while he was frantically trying to effect his escape. He shouted loudly, but no one came to his relief. His smock come off altogether; his suspenders were seized on and torn off; his shirt was torn to ribbons, and nothing remained on him but his trousers, the intervening spouts saving his legs from being drawn in.

By a superhuman effort he at last succeeded in wrenching himself away from the savage wheels, leaving in their teeth a large piece of flesh torn from his left side and back. This is where Mr. Reid showed himself to be possessed of an iron nerve as well as showing himself to be a faithful employee. The lamp luckily had been put out when it fell from his hand. He groped his way in the dark down stairs, and a wonder it was in his state he did not stagger into another pitfall. He reached the wheel connecting with the motive power and succeeded in stopping the machinery. He then went to the door, went out and shut it after him. He started for his boarding house, but he got only as far as the corner of London street when his strength gave way. A boy passing summoned help and he was taken home.

On examination he was found to be dreadfully torn and lacerated. There were fully twenty wounds on his body. The most severe, however, were on his side and head. A great piece of flesh was torn from his side and the skull bone was laid bare for six inches leading from above the neck, forward. Dr. Kincaid performed the surgical operations.

The young man is doing fairly well today. He has never lost consciousness. To-day he says that at one time he thought that his flesh and clothing eased the speed of the machinery, but this is only immagination, as it is driven by water wheels of many horse power. The cogs might be made to slip but the speed could in no way have slackened.

The Coming Races.

Next Thursday and Friday, August 26th and 27th, are the dates set down for the grand two days' midsummer meeting at the Peterborough Driving Park. The success of the races is assured, as the energetic Secretary-Treasurer has had his hands full for some time answering letters of enquiry from strangers at a distance, and in booking entries from all parts. The management are sparing no expense to have everything in connection with the meeting done in a proper manner, and the public can rest assured that these two days' sport will be well worthy of their patronage.

Prof. Dorenwend at Phelan's Hotel.

What a comfort and blessing it must be to ladies and gentlemen, who have been unfortunate enough to lose their hair, to know that they can procure an artificial one just as handsome and natural looking as the departed growth. Prof. Dorenwend, of Toronto, manufactures goods in the hair line which really cannot be detected as being false. His handsome styles in Bangs, Waves, Switches, Wigs, &c., for ladies, his great genius and skill are fully shown in the making of his Toupees for gentlemen who are bald on top. When placed on the head the person wonders how it is possible for them to be made so natural looking, and why he didn't get one sooner. Remember, the Prof. will be in Peterborough, at Phelan's Hotel, on Friday and Saturday, Aug. 27 and 28, with an immense stock of Hair Goods. The unanimous approval of the press of the Professor and his goods, his large house and his established reputation, speak for themselves. Don't forget to take advantage of his coming to procure a nice headdress.

POLICE COURT.

DRUNK.

MONDAY, Aug. 23.— Wm. Connally was charged by P. C. McGinty with having been found drunk in a public place on Sunday.

The charge was admitted and the defendant was mulcted to the extent of $5, with the alternative of living on the hill for ten days.

AN OBSTINATE LOAFER.

Geo. Powers was charged by P. C. Adams with having used profane language on Sunday night.

The defendant pleaded guilty.

P. C. ADAMS gave the circumstances. He said that he was coming down street when he saw the defendant with a crowd of others standing on a corner. He ordered them off. All but the defendant and another went. The defendant declared with an oath that he would do as he pleased. He lodged the defendant in the cooler.

$5 more was demanded by the Court. As Georgo hadn't it just then he was given till three o'clock to get it.

ASSAULT.

Henry Fellsinger was charged by Mrs. Stewart with having assaulted her on the 22nd of August.

The defendant pleaded not guilty.

Evidence was submitted. Mrs. Stewart said that the defendant had boarded at her place for months without paying for his board. She could not get him to pay up and leave. On Saturday he went to leave without paying. She refused to give him his trunk, when he caught her by the wrist to get her out of the way.

The defendant claimed that he had assisted the complainant in washing sufficient to pay the greater part of his bill.

The case was enlarged till Wednesday.

THE STONEY LAKE STEAMBOATS.

To the Editor of the Review.

SIR,—I observe that in giving the details of the late sad disaster on a steamboat on this lake, the town papers attempt to exculpate the officers of the boat, with an unin-quiring readiness that must have been very agreeable to the proprietor and men in charge of the Cruiser, on which it occurred, even if the journals in question for the time did fail in the exposure of gross neglect of the ordinary precautions for the safety of passengers.

What is called an engine room on these crafts is a space of about four feet square, facing which, in front, is the furnace and boiler, and in the rear is the engine and exposed machinery driving the boat's propeller. The other two sides are quite open, so that passengers, many with loose dresses, and without any notion of the peril at hand, may enter and pass to and fro at their free will, except for such objection as the engineer, if at his post, which is not always the case, may make. To a person acquainted with machinery and knowing the power being used, the place looks like a well provided trap for the unwary. Even if steamboat owners are indifferent for the welfare of their living freight, surely it is as much the duty of the authorities to insist on proper protection being provided against exposed machinery, as to ascertain the condition and strength of the boilers and the weight of steam to be carried, and I would suggest it as becoming on the part of our public press to call the attention of the Government to the necessity of supervision in this respect.

I may add that, although it is volunteered as a statement that the officers were in nowise blamable for the melancholy occurrence, the truth is, that the engineer was absent from his post at the engine, and that had he been where his duty called for his presence and vigilance, this sad event could readily have been avoided.

Yours, M.

Backache.

What does that spell? Why, "backache," of course, though you would not suspect it at the first glance. It spells what hundreds and thousands of women are suffering from every day of their lives, but what they need not suffer from, if they knew the virtues of Dr. Pierce's "Favorite Perscription." All those "dragging down" pains and sensations of nausea and weakness, peculiar to women, can be cured by this same boon to womankind. It is almost magical in its results.

SIR JOHN IN WINNIPEG.

Hospitalities Extended to the Premier and His Party.

WINNIPEG, Aug. 23.—Yesterday Sir John and Lady Macdonald attended All Saint's Church, when Archdeacon Pinkham preached.

At one o'clock to-day Sir John Macdonald was entertained at lunch at the the Manitoba Club by Mr. H. H. Smith, land commissioner, a number of personal friends being present. At three o'clock he left by special train for the provincial penitentiary, where Major Bedson extended the Premier and his party the open hospitalities of the mountain. Only a short stay was made there, and this evening Lieutenant-Governor Aikins entertained Sir John and a number of friends at dinner.

Sir John was presented with an address this morning by the St. Peter's Indians, to which he made a happy reply.—*Mail.*

THE CHICAGO CONVICTIONS.

European Papers Applaud the Verdict Against the Bomb Anarchists.

NEW YORK, Aug. 21.—The *Herald's* London special cable says: "The convictions of the Chicago Anarchists and their capital sentences is the sensational topic of the hour in London. The government organ (The *Morning Post*) thus congratulates Chicago: 'In this trial at Chicago the American people have shown very clearly and forcibly that they will not allow their hospitality to be abused. They have sheltered men who conspired against the governments of other countries; they have even allowed them to conspire on American soil; but when the German Anarchists made an attack upon the laws of the United States it was seen at once that toleration might be carried too far. Charity begins at home, and from sound motives of self-protection the legal authorities of Chicago have given their revolutionary guests a salutory lesson. America has shown by the verdict and sentence that they give a short shift to foreign miscreants who have assailed law and order in the United States. It may in time become desirable that some internal action should be taken for the suppression of such conspirators, who, whether they are nihilists from Germany or dynamiters from the school of O'Dodovan Rossa, are enemies to civilization.'" The *Chronicle* says: "Now that the American government has expressed so clearly its refusal to differentiate between the destruction of life and property on alleged political motives and the same offences committed without lame excuse, it can hardly refuse to complete negotiations so recently begun for the conclusion of an extradition treaty expressly intended to deal with crimes committed under the veil of politics'

"The Standard interprets Redmond's speech as advising revival of the old struggle against landlordism with its old concomitants, veiled rebellion, lawlessness boycotting and outrage."

CONVICTS IN COURT.

CHICAGO, Aug. 21.—After his conviction yesterday Fischer said to a reporter: "You can say that this only begins the fight against the system. It is the birth of anarchy." Spies, as he shook hands with his counsel, said, "Gentlemen, we did not expect it." Parsons was almost equally calm. They consulted with Black and Foster, while Neebe and Lingy hovered at their elbows. Salmon in another corner talked with gaunt, wretched-looking Schwab, who with his lank physique, full beard, sparkling eyes and battered slouched hat, presented the ideal appearance of a demoralized convict. Engler and Fischer were being talked to by Attorney Zeisler, who grew decidedly emphatic, and expressed himself in language which sounded strongly like sympathy for the anarchists' cause.

THE WEST INDIES.

They Want a Reciprocal Exchange of Certain Goods with the States.

LONDON, August 21.—A large deputation from the West Indies Committe of Merchants called at the Colonial Office yesterday and had an interview with Mr. Stanhope. They asked his assistance in the promised convention to provide for the mutual exchange of certain goods duty free between the British West Indies and the United States on the same principle as that arranged in the treaty of 1854 between Canada and the United States. The deputation also requested the Government to re-open negotiations with the United States on the proposed treaty, and to arrange for representation of the British West Indies in the congress of the North and South American states which are to convene in Washington in 1887. The deputation asked the minister to use his influence to induce the Foreign Office and Board of Trade to bring about a conference for the purpose of erecting on an effective basis a system of sugar bounties, in the interests of the British sugar products. Mr. Stanhope stated that for obvious reasons he was unable at present to say much on the matters presented. He deeply sympathized with those who suffered from the trade depression in the West Indies. In regard to the proposed convention with the United States, he was afraid he could say but little. The views of the Washington Government were well known. He himself had no very recent information on the subject. He would, however, communicate with Lord Iddesleigh in order to ascertain the precise attitude of the United States government concerning the proposed representation of the British West Indies in the convention of the North and South American States. Mr. Stanhope said he favored it, and would ascertain whether the government at Washington would be willing to permit it. The question of sugar bounties was one which belonged to the Board of Trade, but he would nevertheless exert himself, to further the views expressed by the deputation.

The *Times*, commenting on the conference at the Colonial office yesterday, says that in the former treaty proposed with the West Indies by the United States the latter wanted a monopoly of supplying the West Indies with wood and machinery as the price of opening the United States markets to West Indian sugar. The *Times* says the American Government must be less exacting if it wishes to come to arrangements. It is too much to ask that we agree to be shut out from a market in our own colonies, giving a foreign country free access thereto. An access to each other's markets is the proper basis of a treaty, which is quite apart from such terms as these pointed out, and it is clearly to the interest of both countries to speedily arrange for it.

IRISH HOME RULE.

Mr. Chamberlain Says the Union-Radical Will Support the Government.

LONDON, Aug. 23.—In an interview I had with Mr. Chamberlain to-day, he laughed at the statement made in some quarters of a misunderstanding between the Government and the Union-Radicals. "There is no foundation for these statements," he said. "The only criticism I would have to make on the speech of the Chancellor of the Exchequer would be that he went too far in promising to maintain the rents fixed under Mr. Gladstone, while announcing the intention to re-examine those rents and the present condition of agriculture in Ireland. This is, however, merely a secondary criticism, and there need be no doubt that on the main question, which the Home Rulers seem disposed to revive, they will find the Union-Liberals and the Union-Radicals solidly with the Government. Home Rule is dead and cannot be revived. You may add that at least one well-known Union-Liberals has offered to join the Commission on the land question in Ireland should his services be required."

Fatal Railway Accident.

As an elderly lady and her son-in-law were driving from Forepaugh's circus grounds in Oshawa, last Saturday, they met a man carrying a lot of small colored baloons, at which the horse, a young animal, took fright, turning around suddenly and so very short that horse, buggy and occupants were all thrown into the ditch. The woman's head was dashed against a telegraph pole, the man against the plank crossing, and a child about four years of age, escaped without the slightest injury. The man had his face, neck and side considerably disfigured. The old lady was taken in to a doctor's residence close by, where she only survived about fifteen minutes.—*Port Hope Times.*

The Cutting Case.

EL PASO, Tex., Aug. 21.—It has been learned that yesterday the Second Chamber of the Supreme Tribunal of Chihuahua took up the case of A. K. Cutting, and after reviewing the entire evidence the argument began. This did not last long, as the attorneys, pro and con, had previously come to an agreement that the two months imprisonment already suffered by Cutting should be considered as a complete purgation of his crime. This makes it certain that the sentence, which follows shortly, will conform to this agreement. It is said the judges will order Cutting's release about Tuesday, and that the $600 fine will remitted also.

Attempted Assassination.

MONTEVIDEO, Aug. 21.—President Santos was fired at by an ensign named Cetizon on the night of the 18th in the vestibule of the theatre, The president was wounded slightly in the chin. When the officer was taken prisoner he committed suicide. This attack has caused great sensation, and it is thought a revolution will be the outcome. Several persons have been imprisoned, including the widow of Gen. Pagota and four relatives. Mounted police guard the city at night. The Cabinet held a meeting to decide what measures of precaution should be taken. Traffic has been prohibited in front of the residence of President Santos.

Another Strike.

NEW YORK, August 23.—The conductors and drivers of the Broadway street railways have, it is said, resolved to strike against the increase of their day's work from five to six trips.

The Finest lot of Gent's Furnishings in Peterborough, at ANDREW MCNEIL'S.

LATEST CABLE NEWS.

REVOLT OF CONVICTS.

PARIS, Aug. 23.—The transport Orne sailed from Toulon on Saturday for Martenique, loaded with convicts. She returned yesterday and reported that the convicts had revolted and tried to gain possession of the ship. Two cannons, loaded with grape, had been fired at the mutineers, and many of them killed.

THE CHOLERA RETURNS.

ROME, Aug. 23.—Yesterday's cholera returns are: Barletta, 13 new cases and 7 deaths; Ravenne, 22 cases and 6 deaths; Padua, 10 cases and 3 deaths; elsewhere, 17 cases and 6 deaths.

STRIKE OF BAKERS.

HAMBURG, Aug. 23.—One thousand bakers of this city struck work to-day.

CONGREGATION MOBBED.

BELFAST, Aug. 22.—Enormous forces of military and police, preceded by eight magistrates, paraded the disturbed districts on Saturday night. This had the effect of overawing the rowdy element. A shot was fired at 3 o'clock this morning, being the prearranged signal for the battle between Orangemen and the Catholics, but there was no answer. To-night Albert street Presbyterian Church, which is in the Catholic district, was opened for the first time since the beginning of the riots. When the service was over a mob hooted and stoned the retiring congregation and maltreated the minister in spite of the troops and police called for their protection.

ONE SEASON AT MONTE CARLO.

LONDON, Aug. 22.—A foreign lady, who lost £15,000 at Monte Carlo gaming tables, has committed suicide in a village near Grenoble. This makes the seventy-sixth case of suicide owing to losses at Monte Carlo since the beginning of the season.

A RIOT IN KILKENNY.

DUBLIN, Aug. 24.—During an eviction at Ballyogan, Kilkenny, to-day, a row took place during which the police were stoned and a number of bailiffs severely injured. A faint attempt was made to wreck the barracks.

DYNAMITE EXPLOSIONS.

DUBLIN, Aug. 23.—A portion of the mansion of Judge Rice, at Bushmont, near Lixnaw, County Kerry, was wrecked to-day by an explosion of dynamite. A similar outrage was perpetrated on a Protestant farmer's house at Gortican, Londonderry.

IT MUST BE SETTLED.

LONDON, Aug. 23.—Gladstone, in an address at Chislehurst on Saturday, said: "The enthusiasm of the British friends of the home rule idea is an incentive to me to never be beaten in it, but to continue the struggle for the happiness of Ireland. Although there has been perjudices between Great Britain and Ireland, the fact that in the late electoral contest 1,400,000 English men and Scotchman polled their votes in behalf of Ireland shows that the prejudice is fast disappearing. Let men consult any book or nation in the world and they will not find one which does not say that the relations between England and Ireland under the Union have been miserable for Ireland and dishonorable to England. If the country desires to redeem her honor and enable her parliament to attend to its pressing business of Imperial legislation, the Irish question must be settled."

DYNAMITER ARRESTED.

LONDON, Aug. 23.—The man who stole the dynamite from the mine at Handorf has been arrested. It was thought the intention of the thief was to take it to England.

BELFAST'S CONDITION.

BELFAST, Aug. 23.—This evening a detachment of police attempted to disperce a mob on Shank Hill. The mob became infuriated and threw volley after volley of stones at the police and routed them. The mob then completely wrecked the barracks, which were defended by twenty policemen. The police did not fire upon the mob. The streets were cleared by the military. Nine arrests were made.

PREPARING FOR RUSSIA.

TIENTSIN, Aug. 23.—The Chinese Government has decided to despatch troops to the neighborhood of Port Lazareff as a precautionary measure against the reported design of Russia to seize that place.

THE BRITISH GRAIN TRADE.

LONDON, Aug. 23.—The *Mark Lane Express* in its review of the British grain trade during the past week says: The harvests thus far have been greatly disappointing. A spell of dry weather with hot sunshine may yet redeem what appears to be a bad harvest. The returns of 423 wheat districts show that 39 are above the average, 96 are equal to it and 288 are below it. The yield of barley in 227 out of 427 districts is below the average; of oats in 265 out of 433 districts; of beans in 162 out of 275 districts, and of peas in 115 out of 245 districts. Trade is sluggish. English wheat is generally one shilling dearer.

RAILWAY FATALITIES.

Three Lives Lost—Jumped from a Train Struck by one and Crushed.

QUEBEC, Aug. 23.—A private despatch from Assamelquagan, on the Intercolonial Railway, reports that on Friday last Hypolite Lepage, of St. Blandine, twenty-three years of age, was killed by attempting to jump upon a coal train in motion. The wheels crushed his left leg throughout its entire length and severed his right leg below the knee joint. The unfortunate man was brought to Rimouski, where he died a few hours later, the doctors reporting that he was too weak for amputation.

A woman, name unknown, is reported to have been killed last night by a freight train on the Grand Trunk Railway near Hodlow.

An inquest was held to-day on the body of George Fradet, a laborer, twenty-six years old, who died at the Marine Hospital from the result of injuries sustained by being crushed between two cars on the Lound embankment.

Danger of Collapse.

New York, August 23.—The *Herald's* Albany special says: The massive walls and excessive weight in the finish of the new capitol have prayed too heavy for its foundation, and it now presents unmistakeable evidences of a bad condition. The clerks in the departments are frightened over the dangerous state of the building, and daily declare that they have seen new crevices, and that the old ones are becoming much wider. It is evident that something will have to be done to remedy these serious defects before another year goes by.

SIR JOHN IN WINNIPEG.

Hospitalities Extended to the Premier and His Party.

WINNIPEG, Aug. 23.—Yesterday Sir John and Lady Macdonald attended All Saint's Church, when Archdeacon Pinkham preached.

At one o'clock to-day Sir John Macdonald was entertained at lunch at the the Manitoba Club by Mr. H. H. Smith, land commissioner, a number of personal friends being present. At three o'clock he left by special train for the provincial penitentiary, where Major Bedson extended the Premier and his party the open hospitalities of the mountain. Only a short stay was made there, and this evening Lieutenant-Governor Aikins entertained Sir John and a number of friends at dinner.

Sir John was presented with an address this morning by the St. Peter's Indians, to which he made a happy reply.—*Mail.*

THE CHICAGO CONVICTIONS.

European Papers Applaud the Verdict Against the Bomb Anarchists.

NEW YORK, Aug. 21.—The *Herald's* London special cable says: "The convictions of the Chicago Anarchists and their capital sentences is the sensational topic of the hour in London. The government organ (The *Morning Post*) thus congratulates Chicago: 'In this trial at Chicago the American people have shown very clearly and forcibly that they will not allow their hospitality to be abused. They have sheltered men who conspired against the governments of other countries; they have even allowed them to conspire on American soil; but when the German Anarchists made an attack upon the laws of the United States it was seen at once that toleration might be carried too far. Charity begins at home, and from sound motives of self-protection the legal authorities of Chicago have given their revolutionary guests a salutory lesson. America has shown by the verdict and sentence that they give a short shift to foreign miscreants who have assailed law and order in the United States. It may in time become desirable that some internal action should be taken for the suppression of such conspirators, who, whether they are nihilists from Germany or dynamiters from the school of O'Dodovan Rossa, are enemies to civilization." The *Chronicle* says: "Now that the American government has expressed so clearly its refusal to differentiate between the destruction of life and property on alleged political motives and the same offences committed without lame excuse, it can hardly refuse to complete negotiations so recently begun for the conclusion of an extradition treaty expressly intended to deal with crimes committed under the veil of politics'

"The Standard interprets Redmond's speech as advising revival of the old struggle against landlordism with its old concomitants, veiled rebellion, lawlessness boycotting and outrage."

CONVICTS IN COURT.

CHICAGO, Aug. 21.—After his conviction yesterday Fischer said to a reporter: "You can say that this only begins the fight against the system. It is the birth of anarchy." Spies, as he shook hands with his counsel, said, "Gentlemen, we did not expect it." Parsons was almost equally calm. They consulted with Black and Foster, while Neebe and Lingy hovered at their elbows. Salmon in another corner talked with gaunt, wretched-looking Schwab, who with his lank physique, full beard, sparkling eyes and battered slouched hat, presented the ideal appearance of a demoralized convict. Engler and Fischer were being talked to by Attorney Zeisler, who grew decidedly emphatic, and expressed himself in language which sounded strongly like sympathy for the anarchists' cause.

THE WEST INDIES.

They Want a Reciprocal Exchange of Certain Goods with the States.

LONDON, August 21.—A large deputation from the West Indies Committe of Merchants called at the Colonial Office yesterday and had an interview with Mr. Stanhope. They asked his assistance in the promised convention to provide for the mutual exchange of certain goods duty free between the British West Indies and the United States on the same principle as that arranged in the treaty of 1854 between Canada and the United States. The deputation also requested the Government to re-open negotiations with the United States on the proposed treaty, and to arrange for representation of the British West Indies in the congress of the North and South American states which are to convene in Washington in 1887. The deputation asked the minister to use his influence to induce the Foreign Office and Board of Trade to bring about a conference for the purpose of erecting on an effective basis a system of sugar bounties, in the interests of the British sugar products. Mr. Stanhope stated that for obvious reasons he was unable at present to say much on the matters presented. He deeply sympathized with those who suffered from the trade depression in the West Indies. In regard to the proposed convention with the United States, he was afraid he could say but little. The views of the Washington Government were well known. He himself had no very recent information on the subject. He would, however, communicate with Lord Iddesleigh in order to ascertain the precise attitude of the United States government concerning the proposed representation of the British West Indies in the convention of the North and South American States. Mr. Stanhope said he favored it, and would ascertain whether the government at Washington would be willing to permit it. The question of sugar bounties was one which belonged to the Board of Trade, but he would nevertheless exert himself, to further the views expressed by the deputation.

The *Times*, commenting on the conference at the Colonial office yesterday, says that in the former treaty proposed with the West Indies by the United States the latter wanted a monopoly of supplying the West Indies with wood and machinery as the price of opening the United States markets to West Indian sugar. The *Times* says the American Government must be less exacting if it wishes to come to arrangements. It is too much to ask that we agree to be shut out from a market [illegible] our own colonies, while giving a foreign [illegible] access thereto. An access to each other's markets is the proper basis of a treaty, which is quite apart from such terms as these pointed out, and it is clearly to the interest of both countries to speedily arrange for it.

IRISH HOME RULE.

Mr. Chamberlain Says the Union-Radical Will Support the Government.

LONDON, Aug. 23.—In an interview I had with Mr. Chamberlain to-day, he laughed at the statement made in some quarters of a misunderstanding between the Government and the Union-Radicals. "There is no foundation for these statements," he said. "The only criticism I would have to make on the speech of the Chancellor of the Exchequer would be that he went too far in promising to maintain the rents fixed under Mr. Gladstone, while announcing the intention to re-examine those rents and the present condition of agriculture in Ireland. This is, however, merely a secondary criticism, and there need be no doubt that on the main question, which the Home Rulers seem disposed to revive, they will find the Union-Liberals and the Union-Radicals solidly with the Government. Home Rule is dead and cannot be revived. You may add that at least one well-known Union-Liberals has offered to join the Commission on the land question in Ireland should his services be required."

Fatal Railway Accident.

As an elderly lady and her son-in-law were driving from Forepaugh's circus grounds in Oshawa, last Saturday, they met a man carrying a lot of small colored baloons, at which the horse, a young animal, took fright, turning around suddenly and so very short that horse, buggy and occupants were all thrown into the ditch. The woman's head was dashed against a telegraph pole, the man against the plank crossing, and a child about four years of age, escaped without the slightest injury. The man had his face, neck and side considerably disfigured. The old lady was taken in to a doctor's residence close by, where she only survived about fifteen minutes.—*Port Hope Times.*

The Cutting Case.

EL PASO, Tex., Aug. 21.—It has been learned that yesterday the Second Chamber of the Supreme Tribunal of Chihuahua took up the case of A. K. Cutting, and after reviewing the entire evidence the argument began. This did not last long, as the attorneys, pro and con, had previously come to an agreement that the two months imprisonment already suffered by Cutting should be considered as a complete purgation of his crime. This makes it certain that the sentence, which follows shortly, will conform to this agreement. It is said the judges will order Cutting's release about Tuesday, and that the $600 fine will remitted also.

Attempted Assassination.

MONTEVIDEO, Aug. 21.—President Santos was fired at by an ensign named Cetizon on the night of the 18th in the vestibule of the theatre, The president was wounded slightly in the chin. When the officer was taken prisoner he committed suicide. This attack has caused great sensation, and it is thought a revolution will be the outcome. Several persons have been imprisoned, including the widow of Gen. Pagota and four relatives. Mounted police guard the city at night. The Cabinet held a meeting to decide what measures of precaution should be taken. Traffic has been prohibited in front of the residence of President Santos.

Another Strike.

NEW YORK, August 23.—The conductors and drivers of the Broadway street railways have, it is said, resolved to strike against the increase of their day's work from five to six trips.

LATEST CABLE NEWS.

REVOLT OF CONVICTS.

PARIS, Aug. 23.—The transport Orne sailed from Toulon on Saturday for Martenique, loaded with convicts. She returned yesterday and reported that the convicts had revolted and tried to gain possession of the ship. Two cannons, loaded with grape, had been fired at the mutineers, and many of them killed.

THE CHOLERA RETURNS.

ROME, Aug. 23.—Yesterday's cholera returns are: Barletta, 13 new cases and 7 deaths; Ravenne, 22 cases and 6 deaths; Padua, 10 cases and 3 deaths; elsewhere, 17 cases and 6 deaths.

STRIKE OF BAKERS.

HAMBURG, Aug. 23.—One thousand bakers of this city struck work to-day.

CONGREGATION MOBBED.

BELFAST, Aug. 22.—Enormous forces of military and police, preceded by eight magistrates, paraded the disturbed districts on Saturday night. This had the effect of overawing the rowdy element. A shot was fired at 3 o'clock this morning, being the prearranged signal for the battle between Orangemen and the Catholics, but there was no answer. To-night Albert street Presbyterian Church, which is in the Catholic district, was opened for the first time since the beginning of the riots. When the service was over a mob hooted and stoned the retiring congregation and maltreated the minister in spite of the troops and police called for their protection.

ONE SEASON AT MONTE CARLO.

LONDON, Aug. 22.—A foreign lady, who lost £15,000 at Monte Carlo gaming tables, has committed suicide in a village near Grenoble. This makes the seventy-sixth case of suicide owing to losses at Monte Carlo since the beginning of the season.

LABOR UNIONS AND THE REFORM PARTY.

If by words and professions of friendship, although coupled with acts of hostility, the Reform party could secure the votes of labor reformers and their sympathizers, it might succeed in its efforts to draw them to its aid. The chief Reform organ has spoken some words of seeming kindness, but it has not tried to influence its friends in favor of legislation benefitting the workingmen. Its hypocritical objection to expenditure by the Dominion Government for the purpose of securing immigrants to settle our wild lands, while it approves of the Provincial Government spending money to bring immigrants to the country, shows that it is by words only that it wishes to please the labor unions. It did nothing to assist the Conservatives in the Provincial Legislature when they took the stand that the money expended by the Dominion for immigration purposes was sufficient, and that the funds of the Province should not be expended in that way. The Reform party showed then by its acts that it favors the expenditure of money for such purposes more strongly than do the Conservatives, although they try to make certain persons believe that they are opposed to immigration. Their acts speak louder than their words.

One of the soundest planks in the platform of the Knights of Labor is the one calling for the establishment of Government savings banks. The Knights being of United States origin that plank was put in because they have not such institutions across the line. It is not, however, needed in Canada, because here we have Government savings banks, where small earnings which industry and economy accumulate can be safely deposited. But efforts have been made by leaders of the Reform party to lessen the benefit of these banks, by having the rate of interest paid on deposits reduced, and the Reform press, which profess to be so much in sympathy with the Knights and unions, have seconded their endeavors. If it is desirable to have such banks—and no one, we should think, will say that it is not—it is also desirable that they should be made as largely beneficial to the class of depositors for whose convenience they are maintained, as is consistent with the business interests of the country and Governmental economy. That is the position taken by the Conservatives, but the Reformers, while pretending frendship for the workingmen and artizans, have tried to make these banks of less benefit to them. Their words are words of kindness, but their acts are decidedly hostile.

An instance of this policy of hostility to the wage earners occurred at the last session of the Ontario legislature. Mr. Meredith having at a previous session introduced a bill to secure compensation to workmen in case of injuries, and thus forced the matter on the Government, Mr. Fraser brought in a bill for that purpose at the last session. But there was a loophole in it, which left it open for an employer, who was in a position to do so, to compel his employees to agree not to take advantage of the law. Mr. Meredith moved an amendment, providing that an agreement of that kind would not be lawful, so that no employer could force an emyloyee to relinquish the rights of himself or his family to compensation, but the Reform Government and its supporters voted down the amendment.

The opposition of the Reform party to the National Policy was an act which showed their want of sympathy with artisans and workmen. These are instances in which, by acts and votes, the Reform party appeared in its true colors, and in view of them the *Globe* must think its readers blind or very forgetful when it tries to cajole the workingmen or labor reformers into the ranks of that party. Their interest lie on the other side, from which they have received benefits, and the policy of which is such as is beneficial to them, as well as to the country at large.

OUR GALLANT VOLUNTEERS.

GENERAL MIDDLETON, in returning thanks at the Foresters' banquet at Stratford, spoke as follows, according to the report of the Stratford *Advertiser*:—

"In regard to the North-West rebellion, of which you speak, I must say the credit is not all mine, but must be given to the Canadian militia. If I had been the most perfect General I would be no use in that part of the country unless I had the Canadian volunteer blood with me. (Cheers.) I have met since that campaign good feeling and much praise, and I owe the praise mostly to the men I led. I would only be too glad to have the pleasure to command the Canadian militia on the field again, but I hope for the country's sake that it will not be necessary to call them out for war."

It will be seen that Gen. Middleton, so well qualified to judge on account of his distinguished services in many parts of the globe, and his participation in the North-West operations, holds our gallant volunteers in far higher estimation than that by which they are insulted by the Blake-Riel combination, by the recruits of Mr. Edgar, Mr. Blake's personal representative and agent, or by Mr. Pacaud, Mr. Mowat's standard bearer in Essex, employee in the service of Ontario, and personal friend. Gen. Middleton does not seem to agree with the Rielites in looking upon our volunteers as murderers, insulters of women and thieves. The people of Canada will certainly accept the view of this gallant and distinguished officer, rather than that of the new allies of Mr. Blake and Mr. Mowat.

WE have received from the solicitor of Mr. John A. Cox, of Hamilton, a writ claiming $3,000 damages for an alleged libel in the REVIEW of July 30th. The only reference we can find in that issue to anyone bearing the name of Cox is an account of the elopement of Mr. Preneveau, of Havelock, who is said to have masqueraded under the name of "Cox." If this can be construed as having any reference to Mr. John A. Cox, or has caused him any inconvenience, we beg to express our regret, and to state that Mr. John A. Cox had nothing to do with the matter, and that the report in no way referred to him.

THE FISHERIES.

Despotic Treatment Denied—Captain Quigley Stops Smuggling.

A despatch from Halifax to the Montreal *Star* on Aug. 23rd says:—The cruiser Terror, Capt. Quigley, is in port. On being asked by the *Star* correspondent regarding his alleged despotic treatment of American vessels, Captain Quigley said he was a commissioner to enforce the law, and he had simply done his duty. Instead of setting traps to catch Yankee vessels in, as he has been charged with doing, he has prevented them from falling into traps. Had he been disposed to allow them to violate the law, he could have seized dozens of Yankees. Instead of this he warned them from wrong-doing, and thus aided them to escape capture and punishment, and rendered a real service to American owners. In previous years between five and six hundred fishing vessels frequented the coast between Halifax and Cape Sable, where they they enjoyed every privilege, and carried on a wholesale smuggling trade with the New England, enabled, as they are, to lay down goods at the lowest prices, without paying either duty or freight. He has almost entirely suppressed the illicit business, and has increased legitimate business 50 per cent this year. Only about 140 American vessels have but into western ports, of which he has boarded about 80. He says he has thoroughly protected the coast, no fish being caught inside the limit by the Americans, and the fisheries have been constantly greatly improved for local fishermen. Between the first of September and the first of February in previous years 70 sail of American vessels engaged in the fresh haddock fishery at and near Shelbourne harbor. That trade will be entirely destroyed this year, as we will not allow a solitary Yankee to fish there. Captain Quigley gave his version of the stories of the alleged arbitrary treatment of the American schooners Rattler, Silah Craig, Northern Light and others, and claimed that he had performed his duties courteously but firmly. The Yankee skippers resort to every conceivable little trick to get ahead of the cruisers and Customs officers.

A DISPUTED WILL.

Interesting Developments Expected in a Case Before the Halifax Courts.

HALIFAX, N. S., August 23.—Proceedings have been entered in the Probate Court to upset the will of the late Alexander McLeod, and, if prosecuted, it promises to be the most sensational affair ever tried in Nova Scotia, some of the promised revelations being unusually racy. McLeod was an old soldier, who started a little rum shop in this city without a penny of capital. By native Scotch shrewdness and extraordinary sacrifices of personal comfort, he amassed a fortune by selling liquor. Three years ago he died, his only surviving relative being his brother, Archibald, living in Scotland, whom he had not seen for forty years. His estate was worth a quarter of a million. This he divided up among the children of former business partners and local charities and the Presbyterian Church. He left his brother $500 a year. Besides other amounts to Presbyterian schemes, he gave $40,000 to the widows and orphans, and the aged and infirm ministers' fund, and left the residence, estimated at $.,00,000, to Dalhousie College. Interested Halifax parties, having a power attorney from the brother, now seek to upset the will, on the ground that McLeod was insane and unduly influenced when he made it.

Mexican War Preparations.

GALVESTON, Tex., August 23.—A Laredo special says: "The military authorities of Mexico have purchased all the arms and ammunition to be had in Laredo. In addition to 2,000 regular troops within a few hours' march of Nuevo Laredo there are 2,000 Mexican cavalry posted along the Rio Grande, between Nuevo Laredo and Piedras Negras. At the old town of Polofax, forty miles above, Mexican troops are reported to be throwing up fortifications. Great uneasiness prevails in this part of the border concerning the utterly defenceless condition of the people, and sharp criticisms are heard on all sides of the President fishing in the Adirondacks, while Mexico is pushing her military forces to the Rio Grande in order to strike hard in the event of war being declared."

RUSSIAN TROOPS MOVING.

Proceeding to Bulgaria by Way of Varna—The Effect in Vienna.

LONDON, Aug. 23.—A report reached here that Russian troops are proceeding to Bulgaria by way of Varna.

The *Daily Telegraph* says: "The Bulgarian revolution proves that the Bulgarians are incapable of becoming a united nation, and proclaims that trumpet-tongued Pussea is again lord of the Balkan range and of the Bulgarian ports on the Euxine Sea, and must awaken lively reflections in the minds of the Ottomans."

The *Morning Post* says: "It is evident that Prince Alexander's courage had been worn out by the slow course of incessant intrigue and conspiracy with which he found himself confronted."

The *Standard* says it believes "Prince Bismarck and Count Kalnoky were forwarned of the Bulgarian revolution, which is full of token of larger mischief and widening disturbance, but they were heedless. England must intervene to save Austria from the consequence of her blunders or bad faith."

The *Daily News* says: "It is obvious that Prince Alexander was deprived of his throne by the direct orders of the Czar. The official version of the revolution is so flagrantly and transparently dishonest that it will not deceive a child. Its effects may be extremely serious. Russia's action is absolutely unwarrantable and without excuse. The argument of the Berlin *Post* that the revolution implies a Russian victory over English influence in the East is absurd. No power is less interested than England. Prince Alexander was nominally a vassal of the Sultan, and if it can be shown that he was deposed without the Sultan's consent a grave international Russian difficulty will at once be raised."

VIENNA, Aug. 23.—The news of the revolution in Bulgaria caused a heavy and rapid fall on the Boerse here. One rumor is that Prince Alexander was was imprisoned at Widdin. Another is that he was placed on board a ship, the destinatins of which is unknown. M. Zaskoff, who is the prime mover of the revolution, and the nominal head of the new Government, allows only favorable news to leave Bulgaria.

LONDON, Aug. 23.—The deposition of Prince Alexander of Bulgaria has astound the politicians and financiers of England. Consols have fallen three-eighths, Egyptian securities are down one per cent and Turkish and Russian from one to two each. Other stocks were also flat early in the day, but the market is recovering.

The Sea Serpent.

GLOUCESTER, Mass., Aug. 22.—The sea serpent was again seen off Gloucester this morning by a sailing party. When first seen the monster was only 300 feet away and looked like a huge spar nearly 100 feet long lying upon the surface of the waters, rising and falling with the waves. As the boat drew nearer its huge head was raised six feet from the water and two glittering eyes were plainly seen. It then quickly disappeared, but showed itself some distance away. Another brief glimpse of the monster was obtained, but it quickly passed out of view and was not again seen.

Banquet to Mrs. Parnell.

CHICAGO, Aug. 23.—During the last few days of her stay in Chicago Mrs. Parnell has been the guest of W. P. Rend, a well known owner of coal mines. On Saturday evening she was tendered a banquet. Shortly after nine o'clock the guests began to arrive, and within a short time the north parlor, in which Mrs. Parnell, accompanied by her hostess, received, was well filled. Throughout the evening a string band stationed in a flower-screened alcove, played selections of dance music. The floral decorations were rich and in good taste, and later in the evening luncheon was served.

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

P. P. FLOUR for Pastry, $2.75 per Hundred.

BAKER'S FLOUR, (ground from Manitoba Hard and Ontario Spring Wheat), $2.50 per Hundred.

FAMILY FLOUR, (ground from Ontario Wheat), $2.25 per Hundred.

LOW GRADE FLOUR, $2.00 per Hundred.

ADVERTISE IN THE DAILY EVENING REVIEW. IT PAYS.

BY LAND AND WATER.

A Short Holiday Trip in Two Counties—Oak Orchard.

People in Peterboroqgh, speaking generally, are personally acquainted with the advantages and beauties of the northern lakes, but they are more familiar with Stoney Lake and its environment than with Pigeon Lake and its connections. Yet a short or long holiday can be most pleasantly spent on Chemong and Pigeon Lakes, or by a round trip *via* Lindsay and Bobcaygeon to Bridgenorth. The connection between the railway at Lindsay and the steamers is very good, as the Esturion leaves Lindsay in the forenoon on the arrival of the train from Toronto, and in the evening on the arrival of the train from Peterborough, except on Saturday evenings, when she waits for the Toronto train. The smart little Eva also runs to Sturgeon Point daily and to Bobcaygeon four days a week.

The sail up the Scugog, though pleasant, is not ravishing on account of the scenery. The serpentine stream with its marshy margins is not a too pleasing picture, but the sail across Sturgeon Lake to the Point of the same name is very pleasant indeed. Sturgeon Point is well known, and its beauty not overrated. The spacious grove of magnificient trees, the pleasant cottages, the swings, easy chairs and rustic seats—all whisper of ease and comfort and recuperation, while the stately and well kept hotel offers accommodation of the best kind to the wanderer from busier scenes.

Leaving Sturgeon Point behind Sandy Point is soon passed, and the boat swings along between shores, now wooded and now tilled, not presenting a great variety in scenery, but always pleasant to the sight.

"That island is occupied by a hermit," said a passenger to the writer, as the steamer was passing an island in the lake. There was a small house near the shore, but no other visible signs of habitation.

"Is he an old man?"

"No, not to say old," answered the passenger, "though he has been on the island for some time."

"Alone?"

"Oh, yes; he lives there to keep away from people and does not like any one to go on the island."

"He doesn't desire a female companion, I suppose?"

"Not at all. He is especially averse to female company. I have known him well for I don't know how long and I don't think he shuns intercourse with others."

"Is he a religious recluse?"

"No, it is not that. He prefers solitude and seems to have found its charms."

"Does he try to do much?"

"He occupies himself on the island and on the water. He fishes often."

Soon a point is turned and in a few minutes the village of Bobcaygeon is reached. It is widely known as the location of saw mills, and the village on islands; has a continental reputation among summer tourists, many of whom spend some weeks every year in the palatial Rockland House; and has a world-wide reputation as the home of Mr. Adolphus Smiff, of the *Independent*. Bobcaygeon has swarmed with tourists this season. The hotels have been busy. Last week the Rockland House, large as it is, had more demands upon it than it could supply. Fish are plentiful in the waters and berries in the bushes.

In driving out into the township of Harvey rugged scenery is seen. Hills of peculiar shape, and high bluffs with rocky precipices, are passed, and between them farms bearing evidence of careful cultivation. Not far from the mouth of Nogie's Creek, at the foot of a steep, rock-capped hill, stands the home of Mr. William Ventress, one of the staunchest supporters of good government in the county. Mr. Ventress has waterworks of his own, both for fire and domestic purposes. Pure, cold water which flows from the top of the rocky bluff is led down to the house, and the fall gives sufficient force to throw it out of a small hose over any part of the house. The cooking utensils on the stove can be filled with the best of water by simply holding the hose over them and turning on the stream. Mr. Ventress has solved a problem that has convulsed towns and cities and is now agitating the city of Belleville—that of a good waterworks system. Belleville *may* yet adopt Mr. Ventress' idea, by drawing water from the top of the Oak Hills.

The Maple Leaf, a nice little steamer, plies between Bobcaygeon and Bridgenorth calling at Oak Orchard. The sail down Pidgeon Lake is indeed a beautiful one. The clear water, the picturesque and varied scenery, the absence of marshy shores and drowned lands, the distant hills and the numerous points and bays, are enough to charm the most listless admirer of nature. One of the most pleasant looking spots is on Crowley's Island, at the foot of the lake, where there is a very fine grove.

Oak Orchard is situated in the narrows between Pidgeon and Buckhorn lakes, at a place where the shores are quite distant. It contains ninety acres of land and a splendid grove. The stalwart monarchs of the forest shade the ground, and under them were pitched several tents. Among the trees stands a fine large residence, which, with the land, is the property of the Judge's syndicate. Here Judge Weller, Mr. R. E. Wood, our County Attorney, and others are seeking relaxation from the duties of the offices, and enjoying the scenery and fishing to be found at hand and the refreshing breezes off three lakes. The fifteen acres of fine grove affords ample space for pleasant walks or picnicking, and a short distance down the shore from the residence there is a comfortable pavilion suitable for dancing parties. The wharf, at which the Maple Leaf calls, is almost directly in front of the residence and is large enough for all purposes. Two boat houses hold the sailing and fishing craft of the parties. A more desireable place for camping or picnicking could scarcely be found. To the west is the beautiful Pigeon Lake, on the east Buckhorn Lake leading to Burleigh Falls and Stoney Lake, and a short distance south is Chemong Lake. The orchard has not the regular beauty or artificial adornments of Sturgeon Point, but their absence, to many, would add to it a charm for camping purposes.

From Oak Orchard the Maple Leaf rapidly sails through part of Buckhorn Lake, past the Indian village and pleasantly down Chemong to Bridgenorth. From Bridgenorth to Peterborough is the last stage—literally the only *stage*—of a very pleasureable trip.

The Canadian Pacific Tea Route.

The New York *Journal of Commerce* of Aug. 12th says:—Messrs. Frazer & Co., of China, have received at their house in this city a letter from General Traffic Manager Olds, of the Canadian Pacific Railway, advising that the first consignment of the New York tea, consisting of eight car loads ex "W.B.Flint," over that road was delivered to the New York Central at Utica on the 8th, arriving in New York on the following day. Manager Olds writes: The first consignment left Port Moody on July 30, arriving at Brockville on the 5th inst., showing about six days run from Moody to Brockville, a distance of nearly 3,000 miles, or an average of twenty miles an hour through, which I think you will agree with me, is very good time over a new road and for the great distance transported. I would like to know how this through time from Port Moody to New York will compare with the shipments via San Francisco. I can hardly think they can beat this time, ten days through from Port Moody to New York. Few teas are received in New York via San Francisco, but the Canadia Pacific time compares very satisfactorily with such receipts.

Three Strikes and Out.

"I tell you, Corkey, it was just lively out at the baseball grounds this afternoon. Look at this gash in my forehead, if you don't believe it. The three clubs—"

"What's that, Joe? There weren't three clubs playing."

"Corkey, you can just bet that there was."

"Why, I never heard of a triangular game. All playing at once, were they?"

"Yas."

"What three clubs were there?"

"The home club, the visiting club and the policeman's club."—*Philadelphia Call.*

OVER WORKED Women.

For "worn-out," "run-down," debilitated school teachers, milliners, seamstresses, housekeepers, and over-worked women generally, Dr. Pierce's Favorite Prescription is the best of all restorative tonics. It is not a "Cure-all," but admirably fulfills a singleness of purpose, being a most potent Specific for all those Chronic Weaknesses and Diseases peculiar to women. It is a powerful, general as well as uterine, tonic and nervine, and imparts vigor and strength to the whole system. It promptly cures weakness of stomach, indigestion, bloating, weak back, nervous prostration, debility and sleeplessness, in either sex. Favorite Prescription is sold by druggists under our positive guarantee. See wrapper around bottle. Price $1.00, or six bottles for $5.00. A large treatise on Diseases of Women, profusely illustrated with colored plates and numerous wood-cuts, sent for 10 cents in stamps. Address, WORLD'S DISPENSARY MEDICAL ASSOCIATION, 663 Main Street, Buffalo, N. Y.

SICK HEADACHE, Bilious Headache, and Constipation, promptly cured by Dr. Pierce's Pellets. 25c. a vial, by druggists.

Bac-kac-he.

What does that spell? Why, "backache," of course, though you would not suspect it at the first glance. It spells what hundreds and thousands of women are suffering from every day of their lives, but what they need not suffer from if they knew the virtues of Dr. Pierce's "Favorite Prescription." All those "dragging down" pains and sensations of nausea and weakness, peculiar to women, can be cured by this same boon to womankind. It is almost magical in its results.

Horsford's Acid Phosphate,

Unequaled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Advice to Mothers.

Mrs. Winislow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

TARRANT'S SELTZER APERIENT

A Reliable Remedy.

For Sick Stomach. Torpid Liver. Bilious Headache. Costiveness.

Tarrant's Effervescent Seltzer Aperient.

It is certain in its effects, it is gentle in its action. It is palatable to the taste. It can be relied upon to cure, and it cures by *assisting*, not by outraging nature. Do not take violent purgatives yourselves, or allow your children to take them, always use this elegant pharmaceutical preparation, which has been for more than 40 years a public favorite. *Sold by druggists everywhere.*

AYER'S HAIR VIGOR

Restores the color, gloss, and youthful freshness of the hair; stimulates a rich and luxurious growth; thoroughly cleanses the scalp; prevents dandruff and humors; and is the most cleanly and effective preparation for the hair ever offered to the public. Rev. J. W. Davenport, Illinois Bend, Texas, writes: "Ayer's Hair Vigor, used in my family for several years, has no equal as a dressing, nor for preventing the hair from falling out or turning prematurely gray. It ranks among the first luxuries of our house." Miss Kate Rose, Ingersoll, Ontario, writes: "While keeping my head clear of dandruff, and preventing Scald Head, Ayer's Hair Vigor has also caused my hair to grow luxuriantly, resulting in my now possessing hair forty-two inches long, and as thick as could be desired." The wife of Dr. V. S. Lovelace, Lovelaceville, Ky., had very bad tetter sores upon her head, causing the hair to fall out. Ayer's Hair Vigor healed the sores, and in less than twelve months produced hair a foot long.

AYER'S HAIR VIGOR.

No More Bald Heads.

To produce a new growth of hair on bald heads, in the case of persons advanced in years, is not always possible. When the glands are decayed and gone, no stimulant can restore them; but, when they are only inactive, from the need of some excitant, the application of Ayer's Hair Vigor will renew their vitality, and a new growth will result. L. V. Templeton, Newbern, N. C., writes: "After a protracted illness, with fever, my hair all came out, leaving me entirely bald. I procured a bottle of Ayer's Hair Vigor, and, before I had used all its contents, a thick growth of hair, nearly two inches long, covered my head." L. D. McJunkin, Perryville, Md., writes: "Baldness is hereditary in my family. Five years ago the hair on the top of my head was becoming weak and thin. I procured Ayer's Hair Vigor, the application of which invigorated the hair roots, and sent out a new growth of young hair. To-day my hair is as thick and vigorous as ever. I still use the Vigor occasionally to keep my scalp in a healthy condition."

THE CITY AND SUBURBS

Masonic.

Mr. Walter Paterson, jr, of Peterborough Lodge, has been appointed Grand Steward of the Grand Lodge of Canada.

To Horse Owners.

Prof. R. Watkins, Veterinary Dentist, has arrived at the City Hotel, where he can be consulted for a few days.

Piano Tuning.

Mr. Geo. Gumpricht is in town for a few days. Orders may be left at Mr. Thos. Menzies' bookstore, or Messrs. Taylor & McDonald's drugstore.

Alliance Convention.

A convention of the Dominion Temperance Alliance will be held in the Temperance Hall, Toronto, on Sept. 14th and 15th, the second week of the Toronto Exhibition.

How to Make Money.

This is a very interesting question, and is easily solved by calling at the Bon March. They are selling out a large stock of Dry Goods, Boots and Shoes, General Groceries, etc., at exceedingly low prices.

Ontario Rifle Association.

At the matches of the Ontario Rifle Association at Toronto on Monday Messrs. D. Cameron and A. Blade, of the 57th Battalion, won prizes in the competition for the Canada Company prize, the former standing sixth and the latter seventh.

The Barnardo Home.

A meeting of ladies interested in Dr. Barnardo's work will be held in the rooms of the Y. M. C. A. on Thursday, the 2nd Sept., to arrange for a Garden Social and Sale of Work at Hazel Brae on Thursday, the 9th Sept. Meeting to commence at 3.30 in the afternoon. Mrs. James Wallis will preside.

LADIES' JERSEYS.—30 different styles in Jerseys to select from at R. FAIR'S.

Personal.

Mr. William Cluxton and daughters will set sail for America the day after to-morrow.

Mr. James R. McCrae, who has disposed of his drug business to Mr. Geo. A. Sherin, of Toronto, intends going to Queen's University to take the full medical course. Mr. McCrae has intended to take this step for some time. The REVIEW wishes him the same success in the future as he has had.

In the Empire's Capital.

The London, Eng., *Canadian Gazette* of Aug. 12th, in its notes on the Colonial Exhibition, says:—"The William Hamilton Manufacturing Company, of Peterborough, Ontario, show three pieces, one of Covell's patent automatic saw sharpening machines for circulars and mill-webs, by which results are obtainable which would be impossible with a hand-worked machine. A useful saw-bench for dressing and hammering mill saws is also shown."

Prof. Dorenwend's Visit.

The well known Hair Goods Manufacturer, Prof. Dorenwend, of Toronto, will visit Peterborough. He will be at Phelan's Hotel on Friday and Saturday, Aug. 27 and 28. On this occasion he will have with him an unusually large stock of his magnificent goods. Articles to suit everyone, old or young, rich or poor, for to make persons look young and handsome. He is well known in Peterborough, and little need be said of him and his goods. This is the chance for those who need anything in his line, as he will not make another trip for quite a while. Remember, for two days only, Aug. 27 and 28, at Phelan's Hotel.

The Canoe Camp.

Among the notes on the American Canoe Association camp published in the Kingston *Whig* is the following:—"Among the clubs represented are the Brooklyn, New York and Knickerbocker, New York; Amsterdam, Newburg, Sing Sing, Canton, Lowell, Boston, Hartford, Oswego, Philadelphia, Pittsburg, Florida, Ogdensburg, Royal Military College, Kingston, Brockville, Peterborough, Lindsay, Toronto, Deseronto. The Peterborough Club has the baby canoe. It is ten feet long, with two feet beam, and weighed ten pounds before the oil and varnish were put on."

RICHMOND Star and Easy Lawn Mowers, at cost for balance of 1886. GEO. STETHEM

Returning Thanks.

We are happy to learn that Mrs. C. W. Sawers passed a good night, and that the symptoms are all favorable. Her friends have asked us to express their thanks for the kindness of the people on the boat, at Lakefield and on the railway.

CARPETS.—50 new designs in Tapestry and Brussels Carpets to select from at R. FAIR'S.

Died in the Hospital.

Emma Brooks, a young woman from Ennismore, was taken to the Nicholls Hospital last spring to have a surgical operation performed, died on Saturday night from apoplexy. She had undergone the operation and was recovering nicely when overtaken so suddenly. The remains were taken to Ray Cemetery, near Lakefield.

Visitors Arriving.

The following distinguished luminaries of the turf have arrived and will remain in town till after the races:—Lady M., Rochester; Corkfoot Tom, Toronto; Billie Parker, Oshawa; Strideaway, Bowmanville; Laura C., Brighton, and Louis D., Campbellford. They have registered at the Stewart House and City Hotel stables. The Secretary of the Association has received notification that a large number of other fast horses will enter. New horses are arriving by almost every train. A whole car load came in on Saturday.

We are offering extra good value in every line of General Groceries. Call and inspect. MORROW, TIERNEY & Co.

All in Readiness.

The citizens are again reminded that on Thursday, August 26th, the races commence at the Peterborough Driving Park. For some time past extensive preparations have been going on for this grand two days' meet, and now that all arrangements have been completed, the management are in a position to know that the success of their undertaking is assured. A very large number of entries have been made, and the horses are noted for their speed. On Friday, August 27th, the second day of the meeting, it is expected that there will be a large attendance from the surrounding towns. Don't miss seeing these the best of all races.

Prof. Dorenwend at Phelan's Hotel.

What a comfort and blessing it must be to ladies and gentlemen, who have been unfortunate enough to lose their hair, to know that they can procure an artificial one just as handsome and natural looking as the original growth. Prof. Dorenwend, of Toronto, manufactures goods in the hair line which really cannot be detected as being false. His handsome styles in Bangs, Waves, Switches, Wigs, &c., for ladies, his great genius and skill are fully shown in the making of his Toupees for gentlemen who are bald on top. When placed on the head the person wonders how it is possible for them to be made so natural looking, and why he didn't get one sooner. Remember, the Prof. will be in Peterborough, at Phelan's Hotel, on Friday and Saturday, Aug. 27 and 28, with an immense stock of Hair Goods. The unanimous approval of the press of the Professor and his goods, his large house and his established reputation, speak for themselves. Don't forget to take advantage of his coming to procure a nice headdress.

A Deplored Departure.

Tho young man Fellsinger, who was up before the Police Court charged by Mrs. Stewart with assaulting her, has left town. His departure is deplored, not by any love-sick maiden, but by his boarding housekeeper. The young fellow was a barber, and quite a tony young barber at that. He was earning $8 a week, but out of that he didn't put by enough to pay his board. He went to leave his boarding house without paying arrearages, and when Mrs. Stewart sat on the trunk to prevent him from moving it he took her by the wrist and removed her. At the Police Court he was not disposed to make any proposition. He said he had helped Mrs. Stewart to do her washing and that he should be excused from paying for board. When the Magistrate went to remand him to gaol for a week to think over the matter he abruptly came to the conclusion that he could pay $5 a week. With this understanding they left the court room. On Tuesday night young Fellsinger went to the barber shop on Hunter street where he was employed, unlocked the door with his key, took what was belonging to him, and has not since been heard of.

ENNISMORE.

ACCIDENT.—On Saturday night last Robt. Beats lot 22, Con 5, Township of Emily, had a fine horse drowned in a creek which runs along the west end of his land into Mud Lake. Getting sometimes into his crop he tied him down, and having gone through the night to get a drink his foot got caught in the strap, and being unable to extricate himself he was found lying dead on Sunday morning.

Another Car Strike in New York.

NEW YORK, Aug. 23.—The conductors and drivers of the Broadway Surface Railway all struck this morning, and no cars are running on that line. The men claim that the company has not lived up to the agreements made with them some months ago, and that it shows a disposition to make matters worse and worse for them in the future. They are particularly dissatisfied with changes in the running schedule, that are designed, they say, to restore the time-table that caused the former "tie-up."

More Dynamite Bombs.

CHICAGO, Aug. 23.—Four dynamite bombs were found yesterday in the rear of 565 East 25th street. The police say the bombs were intended to be used in the buildings to which they were to be fastened.

GINGHAMS.—Fine Scotch Ginghams, former prices 20 and 25c., at R. FAIR'S. } Now 12½c.

PETERBOROUGH FLOUR.

DIRECT TRADE ESTABLISHED WITH GREAT BRITIAN.

The Competition which Peterborough Millers Encounter in the Lower Province—The Local Mills Working Night and day.

Yesterday afternoon at the north part of Water street the rain drizzled solemnly down on two sombre outspread umbrellas. Mr. Geo. Hilliard, M. P., of the Blythe Mills, stood under one. It was a dismal afternoon—so dismal that but for the stirring scene one could have settled down in comfortable contemplation of sepulchres, morgues and tombstones. There was nothing of the graveyard aspect here, though. The sound of the busy saws ripping their way through the logs; men and boys hurrying hither and thither in the discharge of their work in the sawmill, and the industrious rumble of the rolls in the flour mill drove away such ideas.

"Yes, sir; we have been doing a good business in flour here" said Mr. Hilliard. "We have been busy all along but more so this last month or two. We have to run night and day to keep up with the orders. What line of work? Well, principally the home trade. We give close attention to that. Then we ship some. It is sent down by rail as far east as Quebec." Mr. Hilliard then went on to explain what keen competiton there was in the Lower Canadian market. The Millers' Union, consisting of the great firms of St. Paul and Minneapolis was as a unit in buying grain. There was

NO COMPETITION.

They bought their wheat cheap (Northwestern wheat) and they had the advantage of fine freight rates. A first quality and a low grade flour was made. The first was consumed at home and the low grade was sent for export. Such a profit was made on the first quality that they were satisfied to get cost for the low grade, which is not bad flour at all. This they send over to Quebec, and notwithstanding the duty of 50 cents per barrel they put a good deal of it into the market in Lower Canada. They have held this trade for years. When the Manitoba wheat came in it was expected that, having a similar sample of wheat to grind from, the American flour could be ousted. Now, however, this gives the Montreal mills an advantage, for the freight through to Montreal is but a trifle more than it is to Peterborough, while the freight rate for flour is 25 cents per barrel. Notwithstanding all this a large amount of flour finds its way from Peterborough to the Quebec market. Better freight rates are expected from the railway companies to this point. If the millers here would combine, like these of the west, to get close freight rates, it is likely that they would make better terms at least.

MELDRUM, DAVIDSON & CO.

This firm are to be applauded on their enterprise in opening up a new trade for themselves. Some time ago a notice appeared in the REVIEW as to the preliminery shipment of flour from this company's mill to Glasgow. This shipment was made to "feel" the market there—simply an experiment. Since then the most gratifying results have followed. For the last couple of months the mill has been shipping regularly a car a day to fill orders from the Old Country. A few days after the flour reached the consignee in Glasgow a rival wholesale firm cabled for prices. Before a reply could be made another cable came making a very good offer, which was at once accepted. But the partners must surely have blushed with pride a few days afterwards, when they perused a letter from this Glasgow firm stating that Meldrum, Davidson & Co.'s flour was the

WHITEST AND BEST

that came to the Glasgow market from Canada. They bear this honor very well, however, and when the REVIEW reporter goes around to see them they are not a bit stuck up over it, but are as cordial as ever. The mill is driving a very prosperous trade now. The hum of diligence is heard from sunset to sunset. Almost every day they are receiving cable despatches. These despatches are very curious affairs. A cable code is adopted, each wholesale house furnishing their own with a set of words and their interpretations. The definitions in this little dictionary are somtewha different from those set down by the Webster and Worcester. Thus the words "pork and beans," which to a river driver would doubtless suggest the midday meal, might mean to Messrs. Meldrum, Davidson & Co., "Send five hundred sacks of No. 1 Mikado at figures quoted," and the word "ecstasy," which, it is presumed, lovers alone can define, might mean "The market is off; don't ship till we wire." The company has been hampered greatly by not having a switch run to their mill. This will be set right soon, however. A switch from the Grand Trunk will be run across from Hazlitt's lumber yards coming up directly in front of the mill so that only one loading will be required. It may be mentioned that the Company send their flour not only to Glasgow but to other points in Great Britain. Orders have been received from Newcastle-on-Tyne and from Liverpool.

THE OLD OTONABEE MILLS

in their palmiest days were never busier than they are now. "I don't think," said Mr. A. H. Mulhern, the proprietor, with his customary caution, "That the old place has ever done a better business. Since I got it fitted up it has been running night and day. That has been ever since last fall."

The Otonabee Flour and Oatmeal Mills do a large local trade as well as a good Midland district business. The output from these mills goes east, west and north Every facility is afforded for shipment. Manitoba wheat comes in and pours directly from the cars into the weighing hopper and the flour goes out by the emptied car. In this, part of the ideal utility of the Trent Valley Canal is already accomplished. The Manitoba wheat does now stop here to be ground and then is sent on eastward.

THE CITY MILLS.

Mr. Henry Denne has now put millwrights to work to give his mill an overhauling preparatory to the fall and winter trade. The mills have closed a very successful season. Like all the rest they have their local and their shipping trade. The shipments were made principally to Lower Canada. Through last winter 500 barrels per week went to this market alone. The mills during last fall and winter ground 40,000 bushels of coarse grains and upwards 100,000 bushels of wheat was required to keep their local and outside trade in flour. The improvements now in contemplation will have the effect of improving the flour by 15 per cent. The mills close down to morrow for stock-taking.

Church Rather than State.

The independent Montreal *Star*, in its report of the public meeting at Lanoraie, makes Mr. Sylvestre, the Libera' candidate, say: if elected he would follow the programme laid down by the leader of the Opposition. He would favor the church rather than the state controlling public education.

Fever Stricken.

PHILADELPHIA, August 23.—The English steamship Craigendern arrived on Saturday with a fever stricken crew. Six of her men have been removed to the hospital. Capt. THE ATLANTIC MAIL SERVICE.

The C. P. R. Likely to Secure the Contract for Carrying Mails to England.

"No, we have no intention of tendering for the Canadian mail service between England and Halifax," said the agent of one of the ocean steamships to-day "and simply because the conditions are so exacting and so onerous as to make it impossible for any of the existing lines to compete. As a matter of fact, the trade understand perfectly that the conditions have been made to give the contract to the Canadian Pacific. For example, the tenders call for steamers capable of making fifteen miles an hour, and they must be of a certain tonnage which none of the existing companies can supply."

"Are the Canadian Pacific people tendering?"

"Yes, I understand they have put in a tender or purpose doing so, which will meet the conditions asked for. They expect four or five subsidies, one from the Imperial Government for the Atlantic service, one for the Transcontinental and one for the Pacific. In addition to this, I believe they have been promised colonial assistance as well. Of course, with such favorable conditions, there is no doubt they will be able to perform the service."

"How can they supply a steamer capable of steaming fifteen miles an hour?"

"There are plenty of high class steamers in the market, the 'Arizona,' the 'City of Rome' and in fact all the best steamers afloat are in the market, provided a certain price is offered. None of the large transatlantic steamers are making money."

"Do the Allans purpose tendering?"

"Mr. Andrew Allan has gone to England in connection with this, but I feel confident that the partners on the other side will never hear of tendering when such conditions are called for. Why even the 'Parisian' is not doing all that was expected of her."—*Montreal Star.*

DISASTER AT MANDALAY.

Bursting of an Embankment of the Irrawaddy—Many Drowned.

MANDALAY, Aug. 24.—One of the embankments of the Irrawaddy river burst in this city yesterday. The breach is sixty yards in length. So rapid was the flow of water that in a few moments the whole district was flooded from four to twenty feet deep. Engineers at once cut a dam south of the city to allow the water to subside, but the result of this manœuvre was as yet unknown. Fifty thousand persons are to-day homeless in the city, their houses and possessions having been either submerged or destroyed. A number of persons were drowned by the sudden inrush of water how many has not yet been ascertained. The flooded district had within its territory many of the food supply stores, and all of these were swept away. The result will be an approach to famine among the homeless population. The river will not fall sufficiently to permit any attempt at reconstruction of the broken embankment until November. British military operations are seriously interfered with by the overflow.

Revolutionary Mexico.

A lively sensation has broken out in Attar district, Sonora, Mexico. It appears that some citizens are tired of old officers and desire a new deal. In Mexico it is the custom to elect new officers in the field beneath banners of a dark hue instead of a ballot box. The same kind of a war is going on in Montezuma district, and there several hard battles have been fought. In the Magdalen district another revolution is rapidly ripening and hostilities are likely to occur any day.

BULGARIAN COUP D'ETAT.

The Hand of Russia—The Deposition of Alexander Done at Night.

LONDON, Aug. 21.—Authentic despatches from Sofia show that the deposition of Prince Alexander was accomplished during the night. According to these advices one thoroughly Russianized regiment of cavalry was detained in the city after nightfall, when the other troops retired to their barracks. This regiment was perfectly under the control of the revolutionists, and surrounded the palace about two hours past midnight. Prince Alexander was in bed and the palace was closed. The revolutionary leaders with the assistance of the soldiers, forced their way into the building, went to the Prince's ante-chamber and had him aroused. They bluntly made known to him the purpose of their intrusion. He was stunned, having been taken completely unawares. When he recovered his self-control and realized the utter helplessness of his situation he bitterly reproached his captors for their treachery. What followed is still rather obscure. The Revolutionists declare that Prince Alexander signed a formal abdication of the throne. Others, however, assert that he firmly declined to sign an abdication, and that in consequence of his refusal he was made a prisoner and confined in a remote prison, being told he would be kept there until he complied with the demands of the Revolutionists. It is said the Prince was removed from Sofia under a strong cavalry escort long before daybreak. The people did not become acquainted with even the fact of the *coup d'etat* until several hours after the Prince had been removed from the palace.

PARIS, Aug. 24.—Reports are current that Servia has begun to place her army on a war footing.

PARIS, Aug. 24.—The *Journal des Debats* announces that Prince Bismarck and M. Degiers, the Russian Foreign Minister, have arranged to have an interview.

LONDON, Aug. 24.—All the towns in Bulgaria and Roumelia, except Widdin, are in a state of siege. It is rumored at Berlin that Prince Alexander was compelled to abdicate by the threat of death.

LONDON, Aug. 24.—Persistent rumors are current in every European capital, to the effect that Austria is about to proclaim the annexation of Herzegovina and Vosnia.

ROME, Aug. 24.—The Italian press unanimously sympathizes with Prince Alexander.

LONDON, August 24.—A Bucharest despatch says: "The authorities have forbidden the Bulgarians to cross the Danube into Roumania. There are rumors that a military movement is impending at Widdin and elsewhere in favor of Prince Alexander also that M. Stambuloff, president of the Bulgarian Chamber heads the protesting party and is organizing a meeting in favor of Prince Alexander.

LONDON, Aug. 24.—The Porte has ordered that a universal Mussleman conscription be proceeded with immediately and that the reserves be summoned for service. The occupation of the frontiers of Macedonia and Roumelia has been ordered.

VIANNA, Aug. 24.—The *Political Correspondence* states that some of the men named as members of the new Bulgarian Cabinet are adherents of Prince Alexander and are actually in prison.

Advices from Widden say the army is dissatisfied with the present state of affairs and that the lower classes are still ignorant of what has happened. The Bulgarian Government has established a blockade on the Servian frontier.

BUCHAREST, Aug. 24.—Prince Alexander embarked on his yacht at Rahova on Saturday, and proceeded to Guirgevo. Thence he will come to this place.

FOR THE PRINCE.

BUCHAREST, Aug. 24.—The garrison of Philippopolis, Eastern Roumelia, has taken arms in favor of Prince Alexander. A regiment of infantry with a band playing marched to the foreign consulates to give notice of their adherence to Alexander. The officer commanding declared that the whole Bulgarian army was opposed to the deposition of Alexander, and was prepared to fight and die for him.

CONSTANTINOPLE, Aug. 24.—A second provisional Government has been set up in Bulgaria with headquarters at Tirnova, the former capital of the country. This Government is in opposition to that of M. Karaveloff and in favor of Prince Alexander. M. Stambuloff has been made President of the Tirnova Government.

LONDON, Aug. 24.—M. Stambuloff, President of the Tirnova Provisional Government, acting in concert with Col. Montdoroff, has summoned the militia of Bulgaria to service in the interest of Prince Alexander. M. Stambuloff declares that the garrison at Sofia, which seconded the revolution, is ready to surrender to any Government properly representing the deposed Prince, provided the soldiers are assured of amnesty.

VIENNA, Aug. 24.—The *Political Correspondence* prints a despatch from Giurgevo stating that the Bulgarian troops in East Roumelia have issued a pronunciamento in favor of Prince Alexander. These troops have proclaimed Col. Mutkuroff the head of the Provisional Government which they have organized to oppose to Government of Karaveloff. The inhabitants of Shumlo and Tarnova have publicly declared for Alexander, and the movement for his restoration is spreading.

A RUSSIAN PRISONER.

LONDON, Aug.—The *Standard's* Berlin correspondent says he has seen a Bucharest telegram which states that Prince Alexander has been landed in Russia, received by Russian Imperial authorities and declared to be a state prisoner.

Merin Woof from Alberta.

It is reported that 70,000 pounds of fine grade merino wool have been furnished by this year's clip in Alberta, North-West Territories. The flocks in Alberta are all imported from Montana sheep, and produce the grade of wool which bears the now well recognized name of Montana. This wool fetched from 22 to 25c. per lb. in the United States market this year. A wool growers' association has been formed in the Alberta district, and there is every prospect that this new and growing industry will become one of the most important in the North-West.

LATEST CABLE NEWS.

IRISH PARLIAMENTARY FUND.

DUBLIN, Aug. 23.—An immense meeting was held to-day at Carrick-on-Suir in aid of the Irish parliamentary fund. Resolutions were adopted declaring that the people would continue the Home Rule struggle for years, if necessary. The wildest enthusiasm was extended, the audience standing with uncovered heads and singing "God Save Ireland." A large sum of money was subscribed.

PREPARING FOR EVENTUALITIES.

LONDON, Aug 24.—Various generals of army districts have ordered the volunteers to practise picket duty and be in readiness to quell rioting during the ensuing autumn ond winter. Each volunteer is to be supplied with twenty ball cartridges. It is understood this action is taken under the expectancy of a renewal of dynamite outrages and Irish disorders in the northern and midland towns of England.

THE BELFAST RIOTS.

BELFAST, Aug. 24.—Mayor Eger has gone to Dublin to confer with the Irish Executive in regard to the riots. The city is quiet to-day. Four more persons, injured during the late disorders, were last night removed to the hospitals.

MR. PARNELL'S AMENDMENT.

LONDON, Aug. 24.—Mr. Parnell's amendment to the address in reply to the Queen's speech is substantially as follows:—"We humbly assure Your Majesty that we fear that, owing to the heavy fall in the price of agricultural produce, the greatest difficulty will be experienced during the coming winter by the Irish tenant farmers in the payment of the present rents. Many will be unable to pay, and numerous evictions and confiscations of rights vested in tenants by the Land Act of 1881 will follow, causing widespread suffering and endangering the maintenance of social order. We deprecate any attempt to transfer the loss, due to the inability to pay rents, from owners of land to the taxpayers of Great Britain and Ireland by any extension of state assisted purchase on the basis of rents fixed when prices were higher than they are now.

THE ANARCHISTS.

LONDON, Aug. 24.—At the usual weekly meeting of the executive council of the Socialist League yesterday the following resolution was adopted: "That the council expresses its abhorrence of the cowardly conduct of the Government of Illinois in passing a sentence for murder against men who have proved their sympathy with the suffering masses."

THE WAR OFFICE CHARGES.

LONDON, Aug. 24.—Right Hon. W. H. Smith, Secretary of War, in answer to an enquiry in the House of Commons last evening by Sir Julian Goldsmid, in relation to the charges made by Colonel Thorpe, in a military publication, to the effect that a corrupt ring existed for the control of ordnance disbursements, said he had carefully considered the charges, but had seen none which amounted to a specific charge of corruption, malversation in office or disgraceful conduct in any particular department or office. He had invited Colonel Thorpe to privately impart to the war department any facts he had in his possession with a view to submitting the matter to a competent tribunal.

LORD R. CHURCHILL'S POLICY.

LONDON, Aug. 24.—The press association says the statement that the Unionists and Conservatives disagree in regard to Lord Randolph Churchill's policy is untrue, and asserts that Lord Hartington and Mr. Chamberlain concur in the policy of the Government.

RIELITES EXPLICIT.

Mr. Mercier has cleared up all doubts as to the platform of the Reform party by explaining at Vercheres that "in the coming struggle there was to be no more Rouge or Bleu, but all should be Nationalists." This is sufficiently explicit for all practical purposes.—*Mail.*

RIEL'S FRIENDS AND FOES.

It is surprising that the *Globe* does not denounce the good people who are lionizing the loyal Indian chiefs now in the city. If Riel was in the right, as the *Globe* contends, these chiefs must have been in the wrong. The *Globe* should do its duty toward its Quebec allies. Mush and milk is no diet for them. They require hot meats. —*Toronto World (Indep.)*

EXPELLED FROM FRANCE.

Paris, August 24.—The Government has expelled from France an English clergyman named Drought, a resident of Chantilly, on the ground that he is a partisan of the Orleans princes.

EVICTED TENANTS' DEMONSTRATION.

DUBLIN, Aug. 24.—Sixty tenants who have been evicted from their homes on the estate of the Marquis of Ely, in Wexford, entered New Ross accompanied by an immense procession. Four hundred horsemen were in the line, and music was furnished by members of brass bands. After attending a political meeting the evicted tenants marched in a body to the workhouse.

FLOODS AND LOSS OF LIFE.

PARIS, Aug. 24.—Five persons were killed here yesterday by the fall of a wall weakened by floods caused by a sudden heavy rainstorm. The rain was accompanied by a heavy hailstorm, some of the hailstones being as large as walnuts.

MR. PARNELL'S AMENDMENT.

LONDON, Aug. 24.—The debate on the address continues, Mr. Parnell moving and supporting his amendment. Mr. Plunket replied. Mr. Gladstone criticed the policy of the Administration, but said he would not take part in the division on Mr. Parnell's amendment. It is expected the division will be reached on Thursday or Friday.

A RAILWAY MURDER.

LEICESTER, Aug. 24.—The inquest on the body of James Lowe, recently found dead in a carriage on the Midland Railway train, develops what may prove a sensational case of railway murder. Lowe, who lived in Manchester, had gone to London to collect a debt of $6,000, which he had in his possession when he left London. The guard of the train bought Lowe's ticket, returning several dollars change, and then locked the doors of the carriage, as Lowe expressed a wish to sleep quietly during the trip. The guard on the arrival of the train at Leicester found a pistol on the foot-board of the locked carriage. This induced him to look into the carriage, when he found Lowe dead on the floor of the carriage surrounded by a pool of blood. He was shot through the head. His money pocket was ripped open, and the change returned by the guard was missing, as was also the $6,000. Medical testimony showed the apparent impossibility of suicide. His friends believe that the London debtor, whose name is unknown, followed him and murdered him.

RIEL THE ISSUE.

In another column we republish the able and manly address of Dr. A. Cameron, M.P.P. for Huntingdon, to his constituents. We do so because so plain a statement of the situation, coming from one who still avows himself a sincere Reformer, must be convincing to all who are not prepared to debase themselves by advocating crime, if the criminal alliance can be turned to political advantage.

As Dr. Cameron says: "The issue upon which the approaching elections are to be fought is that of the Regina execution." And this is not only true of the campaign in Quebec, but equally true of the coming election for the Dominion House of Commons, since Mr. Blake's sole hope of gaining office lies in the alliance made on his behalf and with his approval, by Mr. Laurier and Mr. Edgar, with those who seek to avenge the execution of a murderous rebel by the dismissal from power of the Administration that dared to leave the criminal to the offended laws of our country. It is true that Mr. Blake endeavors to keep this issue in the background in Ontario, but this subterfuge is vain, for he and his are making it the only issue in Quebec, and he and his both spoke and voted in its favor in the House of Commons.

With Dr. Cameron we deprecate the raising of this issue, but with him we see the necessity of meeting it fairly and boldy since it has been raised by the Rielites. They have challenged the verdict on this question, and the people of Canada have to pronounce it. The choice is between the support of law and the support of crime. The question has been forced upon the country by Mr. Blake and his allies, and the country must give its decision.

And a momentous decision it is. As Dr. Cameron truly says: "The issue is not simply whether the Dominion Executive was justified or not in ordering the execution of Riel, but whether there is going to be an *equitable administration of the law irrespective of religion or nationality.*" Well may this life long Reformer hold this issue to be so important as to outweigh all mere party considerations; well may he declare that he cannot do otherwise than oppose with all his strength "those who are appealing to the basest prejudices," and are endangering the future welfare of the country.

Thousands and tens of thousands of honest, loyal Reformers will agree with Dr. Cameron in refusing thus to dishonor themselves and degrade the country.

THE COLONIAL EXHIBITION.

From all quarters there come most gratifying reports of the good results of the contributions made by Canada at the Colonial Exhibition. The completion of our great interoceanic railway, universally regarded as a marvellous enterprise most creditable to our Dominion, and one of the greatest importance from an imperial point of view, in addition to its primary objects of connecting our Provinces and opening up our unsettled territories, is attracting much attention to this country. At this juncture, therefore, an especially timely service is rendered by the very satisfactory proof afforded at the Colonial Exhibition of the resources and progress of the Dominion. Intending settlers have thus learned that Canada can not only produce rich results from its fertile soils, but also that it has made such progress in manufacturing industries and in other evidences of civilization as to show that those who make a home among us are by no means burying themselves in a wilderness. This would naturally have a tendency to determine in favour of Canada many of those who are contemplating emigration to some new home, and especially would those be induced who would be the most desirable settlers, namely, those who have some means and could at once do their share in promoting the progress of the country without having to begin at the very beginning. To another very desirable class, experienced agriculturalists, even if with little means, the sight or the report of the produce of Canadian farms must be equally tempting.

And the expected result has been produced. The immigration this season, especially to the Northwest, has shown an advance both in quantity and quality, while there are abundant indications of a still greater influx to come.

The greatest obstacle to success in attracting settlers to our vacant lands, is the unpatriotic course of too many journals and politicians, who, being disgusted and enraged at having lost the confidence of the people of Canada, seize every opportunity of misrepresenting and decrying the country, its rulers, its policy and its position. This is the more injurious, as our chief competitors for settlers have no such unpatriotic practices. In the United States and the Australasian colonies they have their warm political contests, but the losing side does not avenge itself by decrying the country and misrepresenting its advantages, as do the Canadian Reformers. Fortunately the Dominion continues to make progress in spite of their opposition, but the progress would be more rapid if they desisted from these vindictive attacks upon their country for rejecting them.

POLITICS IN QUEBEC.

An English Speaking Reformer's Address to His Constituents.

The following address to his constituents has been issued by Dr. Cameron, the Reform member for Huntingdon in the Quebec Assembly, who voted against his leader, Mr. Mercier, on the Riel question:—

To the Electors of the County of Huntingdon.

Gentlemen,—After muture reflection and consultation with not a few of my friends, I have decided to offer myself again as a candidate for your suffrages. My own personal inclinations and the requirements of my profession inclined me to withdraw from the political field, and my decision not to do so at the present juncture has been largely influenced by the circumstance that during the late session, I took an emphatic stand upon a certain question which is agitating the province, so that my withdrawal now would be construed as indicating that you would not sustain me in what I did. I need hardly state that I refer to the votes I gave upon the Riel resolutions. The issue upon which the approaching elections are to be found is that of the Regina execution and, therefore, it is due to you, to myself and to the Province, that you should have an opportunity of saying whether you endorse the position I took or not. I deprecate the introduction of this question into the contest pertaining to the Legislative of Quebec, and as calculated to arouse and embitter prejudices of creed and race which threaten the future peace of the province. But since it has been raised, and the elections are to turn upon it, I consider it advisable that you should have an opportunity of declaring your opinion with regard to it by either re-electing or rejecting me, for, as I have already indicated, for me to withdraw would be ascribed by the members of the Parti National to a consciousness on my part that you do not approve of my stand with reference to the Riel agitation. I do not desire to be misunderstood, or to receive your suffrages under a misapprehension, and beg distinctly to state that I do not regret the course I took upon the Riel question, and that if re-elected by you it is my firm purpose to follow it up, no matter how disagreeable it may be to oppose old and valued associates in the Legislature.

I need not tell you that the issue before the country is not simply whether the Dominion Executive was justified or not in ordering the execution of Riel, but whether there is to be an equitable administration of the law irrespective of religion or nationality. I contend that the future welfare of this province, and the dearest interests of the English-speaking population, are bound up in such an administration of the law, and I cannot, therefore, do otherwise than oppose, with all my strength, those who are appealing to the basest prejudices and awaking feelings which may result in endangering the peace of the province. I am thus frank with you, gentlemen, for I have not the remotest desire to continue to represent the county if my course on the Riel question has not met your approval.

In the very serious political complication which has overtaken the Province—more serious than many of you suppose—I felt that there was one gentleman who could be be of very much more service than myself—a gentleman who possesses the confidence of the Liberals and commands the respect of the Conservatives, and who, notwithstanding his nationality, is reckoned as one of the gurdians of the English speaking minority. I need hardly state that I allude to the Hon. H. G. Joly. When, from his high sense of honor, he resigned his seat for Lotbiniere, I felt, in common with you, that his services would be invaluable at the present juncture, and I wrote him last May informing him if he would consent to become a candidate I would retire, and expressed my belief that he would be elected without difficulty, and that, as representative for the County of Huntington, he would be able to advocate the wise, tolerant and patriotic views which so distinguish him, with the full confidence that he was supported by his constituents. I regret much to state that Mr. Joly decisively declined. I allude to this matter because, seeing you were concerned in it, you have a right to know, and because professional slanderers have, in their endeavors to prejudice you against me, been condemning me for not doing the very thing I did.

As to those other questions upon which you have a right to know my views, I regret that the Riel agitation has so complicated the political situation that I cannot indicate as precisely as I would wish the line of conduct I will follow. The present administration is the best Conservative one that has been in office since I became your representative. I honestly believe that the gentlemen who compose it endeavor to do the best they can for the Province, and when they have been factiously and needlessly obstructed, I have considered it my duty to vote against such gratuitous motions. I have not, however, in the past, and will not in the future, should they be retained in office, give them a general support, if they sustain and carry out the policy of their predecessors—a policy which I opposed—to an extent detrimental to the public interests. I would particularly instance their shielding the misdeeds of the Ministers they succeeded and their extension of the railway policy, which is so out of proportion with the ability of the Province.

As you are perfectly well aware, I have been identified for many years with the Opposition, and my desire is to continue to work with the Liberals, for the reason that the reforms they desired to make are necessary for the welfare of the Province. That flagrant abuses exist, and that the financial situation is of the gravest nature, cannot be denied, and the policy advanced and advocated by the Liberal party I feel assured would abate the one and improve the other. But for the agitation that has sprung into being since the 16th of November, I would have no hesitation in declaring that, if re-chosen by you, Mr. Mercier would have my support. As it is, I am not prepared to give such a pledge, for if the choice should be between a Ministry sound upon details of general policy, but unsound in regard to a question involving the rights of the English minority and the peace of the Province, and a Government sound on that vital question, yet whose general administration I disapprove of, I would consider it my duty to vote for the latter, as the lesser of the two evils.

What combinations may arise out of the breaking up of old porty lines no person can foresee, and all I can say is, that I will continue to advocate and vote for all those reforms and changes of policy which I have supported in the past, and irrespective of who may be in office.

My past record as your representative is before you—a record that has been impugned and grossly misrepresented by personal enemies. That it has met your approval in every detail would be absurd to expect, but if it has been such as to command your general approval, I again respectfully ask you for a renewal of your confidence at the approaching election.

I have the honour to be,
Gentlemen,
Your obedient servant,
A. Cameron.

BENEFIT OF CANALS.

To the Editor of the Review.

Dear Sir,—The following is an extract from the Oswego *Palladium* of a recent date which may be of interest to your readers.

There is no doubt that the Trent Valley Canal will build up the country through which it passes as, is shown by this article, the Erie Canal has done in the State of New York.

Yours truly,
R. C. STRICKLAND,

Lakefield, Aug. 23, 1886.

"The Erie Canal has built up cities and towns all along its line through this state, from the lakes to the Hudson River. It has for more that half a century been the chief artery of commerce, carrying the product of New York, Ohio, Indiana, Wisconsin, Michigan and Illinois to the seaboard. It has made the city of New York the principl point of export from the United States. It has built up and added vast wealth to the state, increased the value of the real and personal property of the city of New York from $69,830,753 in 1820, to $1,413,415,020 in the year 1885. Albany county, which was only assessed, for real and personal property, to the amount of $7,631,583 in 1820, has increased in value to $80,113,100 in 1885.

Nearly fifty per cent. of the wheat and corn that arrives in the city of New York during the entire year is delivered there by the Erie canal during the season of navigation, which usually lasts seven months, and of the lumber which is received in Albany and New York, at least eighty per cent. of the entire amount comes by way of the Erie and Champlain canals. The value of the lumber alone which was transported on the canal during the season of 1884 was $26,046,479, while the value of all the property delivered at the port of New York from the canal, during the same season was $53,351,968. These facts alone are quite sufficient to disprove the assertion that the canal has outlived its usefulness. The most practical plan for improving the canal seems to be by lengthening the locks to double their present length, and by adding one foot or two of water to the canal wherever that can be done. This plan would enable a boat to increase the quantity which it carried each trip, and would allow two boats coupled together to be propelled together and locked through at one and the same time. The above plan has been substantially adopted by the State by the appropriations already made for lengthening the locks, and it is doubtful if any other plan will be found to supercede it. What the union proposes to do is to form an organization throughout this State which will exert an influence upon the next Legislature to make adequate appropriations to carry this plan into effect."

MINDEN.

Large Bird.—A few days ago while a couple of young men were working in a field near Horseshoe Lake, they noticed a large nest in a tree. On chopping the tree down, they captured a young fish-hawk, the wings of which measured 4 feet 6 in. from tip to tip.

The Irondale Railway.—After many reverses and disappointments the efforts of Mr. Pusey to build a railway seem likely to be successful. Work on the railway has commenced under the personal supervision of the manager and Mr. Hutchinson. There being a scarcity of laborers we understand that the company are sending a large gang of Italian navvies to work on the road.—*Echo.*

Canadian Tea Trade.

The announcement is made by Messrs. Fraser & Co., New York, that the Carrie Delap, with a cargo of tea, will leave Yokohama for Vancouver on the 25th instant. The F. P. Stafford is now about due in the Sound. The first car loads of teas ex-W. B. Flint, from Port Moody to Brockville, about 3,000 miles, have arrived after a journey of less than six days. This is the quickest continental freight time ever made across the continent.

IN HONORABLE MEMORY.

Capt. Edward T. Brown's Patriotism Commemorated.

The Brown memorial drinking fountain which has been under construction for some months has been set up in the Central Park. It is placed a step or two from the sidewalk about midway between McDonald and Murray streets.

From the first base to the finish it stands twelve feet high and rests on a foundation of solid masonry five feet deep. The first two bases are of Warsaw limestone; the first 7x5.2, and 9 inches thick, and the second 4.9x3.2 and nine inches thick, with top edge beveled. The rest of the memorial is of Ohio sandstone. The first sandstone base is 4.4x2.10 and 1.1 deep. Out of the corners of the second base, which has a beveled face on all sides, there rises four columns. This second base is 4x2.6 by 1.3 deep. At the front of the memorial the bowl, 10 inches in diameter, into which the water runs, projects over the beveled face about eight inches, and from it an exhaust pipe carries off the water. From a sunk Gothic arch, ornamented by mouldings, supported by short columns, the gargoyle in the shape of a wolf's head is to project, from the mouth of which the water will gush into the bowl below. This arch is situated in the die of the memorial. The columns rising from the first base, as they pass up the die, are ornamented with gothic pilasters with sunk panels and crowned with round mouldings. The die is 4 x 26 by three feet deep. The sides and back of the die are ornamented similar to the front. Above the arch containing the gargoyle a plain ribbon of letters runs in a semi circle spelling the words "Edward T. Brown." Above this the cap is ornamented by two overshadowing pieces of mouldings. Between these mouldings the words "Batoche" on the upper and "In memory Of" in the lower will be spelled. From the cap, ornamented by serrated and circular indentations, the plynth rises, which connected with the saddle and the final, completes the height of the memorial.

Around the plynth at each corner the apex stones stand guard, completing the four columns rising from the second base. These four apex stones terminate in cones, and give finish to the structure. The finial is artistically carved, forming a fitting ornament.

The plynth is enriched by a catafoil, from the inflented centre of which protrudes a smooth half of a circle [illegible] groundwork.

This work was done in Mr. John. Burgess' marble works, opposite the Post Office. Mr. Jas. Byrne did the carving. As yet no provision has been made for water, nor has there been an ice box provided. The ice box might be placed underground, and the water, if run through a coil of pipe, might be made quite cool before coming to the bowl.

Capt. Edward T. Brown was the son of the late Edward Brown, of "Goodwood," Douro, and grandson of the late Hon. Thomas Alexander Stewart, of Douro. He joined the 57th Battalion when Colonel, then Captain, Rogers was in command of one of the companies. He went to the Northwest in 1879 with Mr. George Stewart's surveying party and remained there till the outbreak of Riel's rebellion. He joined Bolton's scouts, accepting a captaincy in that force. He was killed in the charge on Batoche on May 11th, 1885, being shot down when in the act of issuing a command. He was in his 28th year at the time of his death. His brother, Mr. Stewart Brown, and his mother still reside at the homestead, "Goodwood."

Capt. Brown was the only member of the volunteer force from the County of Peterborough who suffered death during the rebellion. This memorial was erected to his memory by the citizens of Peterborough and the Town Council of Peterborough. The inscription, which is being prepared by the Rev. W. C. Bradshaw, will be written on the westward elevation of the die.

FENELON FALLS.

DIPHTHERIA.—The Methodist parsonage is now the only house that has the diptheria placed on its door, and it will soon be removed. The Rev. M. McAmmond and wife are out of danger and recovering fast, but their little boy, who was the first of the family to take the disease, died last Monday. Thomas McDiarmid, though still rather weak, is quite well again, and will be able to be out by the begining of next week.

THE LOCK GATES.—Mr. Charles Wynn, of Peterborough, who has the contract for putting the gates in the locks here, arrived at the Falls last Wednesday evening by train, bringing with him four carloads of materials and six men, and the work of drawing the timber, planks, &c., from the station to the canal side, where they will be finished and put together, was begun next day. More men and material will arrive as soon as possible.—*Gazette.*

He Wouldn't Stay in the Devil's House.

When the lamp exploded in the Gananoque rink, at the Salvation Army meeting, one of the Hindoo visitors frantically jumped from the platform and rushed out to the street. And there he remained till the close of the meeting, resisting all attempts of the captain and others to persuade him to go in again. To their arguments that there was no danger he replied: "When I saw the fire I thought the devil was going to burn me up, and I prayed the good God to take me out safe. He did take me out and now do you think I'm going back to the place I prayed to be rescued from?" It seems that Staff Capt. Eadie had told him when they first went into the rink that it was one of the devil's houses, meaning thereby that the pastime it was used for was a worldly and sinful amusement. But the Hindoo accepted the statement literally, and seemed to have the idea that the devil was there in his own proper person, and liable at any moment to spring upon a victim and carry him off, as lions do the natives of eastern countries.—*Kingston News.*

PADDLED A THOUSAND MILES.

Toronto Canoeists Arrive in Kingston After a Long Voyage.

On Saturday afternoon the members of the Ubique canoe club, of Toronto, arrived here from Ottawa, via the Rideau canal after having paddled one thousand miles. The canoeists were: W. P. Thompson, Toronto; J. McHendrick, Galt; G. A. Smith, Galt; C. Fraser, Toronto; and J. E. Bryant, M. A., Toronto. The latter gentleman continued the trip to Ottawa, where he left the party. They were all as brown as berries and in excellent spirits. The party went down the river on the Maud on Saturday afternoon and were given a grand reception by the American canoeists. They started from Brandford of July 1st, the route pursued being up the Holland river to Lake Simcoe, thence *via* the Severn river into Georgian bay, and along which they coasted to the mouth of French river. Passing through this river Lake Nippissing was reached and crossed and the party proceeded down the Mattawa to Ottawa and up the canal to Kingston.—*Kingston News.*

A FORTUNATE ESCAPE.—Mrs. Cyrus Kilborne, Beamsville, Ont., had what was supposed to be a cancer on her nose. She was about to submit to a cancer doctor's treatment, when she concluded to try Burdock Blood Bitters, internally and externally, a few bottles of which entirely cured her.

Four Douglass pines which were recently cut up in British Columbia contained together 20,580 feet. The largest was 35 feet in circumference, and [illegible]

NONE BETTER.—There is no more wholesome or delicious fruit on earth than the Wild Strawberry, and there is no more effectual remedy for Cholera, Dysentery, Cramps, and other summer complaints of infants or adults, than Dr. Fowler's Extract of Wild Strawberry.

WONDERFUL is the effect of West's World's Wonder or Family Liniment in rheumatism, sprains, cuts, bruises, burns, scalds and all diseases requiring external application. It stands without a rival. Price 25 cents and 50 cents per bottle. Sold by J. D. TULLY, druggist.

The municipality of Russell, Man., is considering a proposal to grant $1,000 to assist Dr. Barnardo in establishing an industrial farm within its bounds.

WEST'S PAIN KING acts promptly, cures quickly. Never fails to cure bowel complaint, colic, cholera morbus, cholera. Costs but 25 cents and is always ready. Enquire regarding its merits of J. D. TULLY, druggist.

A committee of workingmen has been formed in England to raise by penny subscriptions a testimonial for presentation to the Marquis of Salisbury.

A WISE PRECAUTION.—During the summer and fall people are liable to sudden attacks of bowel complaints, and with no prompt remedy or medical aid at hand, life may be in danger. Those whose experience has given them wisdom, always keep Dr. Fowler's Extract of Wild Strawberry at hand for prompt relief, and a physician is seldom required.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore, I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

Mr. Gladstone will shortly publish a pamphlet in which he will vindicate his action in the Irish affair, and claim that he has been for many years in favor of Home Rule.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

Seventy thousand pounds of fine grade merino wool have been furnished by this year's clip in Alberta, N. W. T.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallable remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

Mayor Howland refuses to sign the contract for the foundation of the new Court House in Toronto, on the ground that the cost of the building will considerably exceed the sum of $200,000 originally agreed upon as the outside cost. The architect now admits that it will cost $320,000.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Since taking the first bottle I have noticed a decided improvement and can with confidence reccommend it to be one of, if not the best medicine extant for Dyspepsia." This invaluable medicine for Liver Complaint, Indigestion, Kidney Complaint is purely vegetable. Sold at John Mckee's Drug Store. Trial botties given free.

Cost of the Cremated Cattle.

OTTAWA, Aug. 24.—It is said that Messrs. McCrea and Allen's animals, cremated at Levis because of pleuro-pneumonia, will be classed as thoroughbred pedigree animals, but the opinion of the Justice Department will have to be taken on the question as to whether "two-thirds of the value of the animal was to exceed one hundred and fifty dollars" means that the maximum price to be paid for any animal is to be $150, or two-thirds of $150, that is to say $100. As Mr. Allen values his cattle at over $1,200 each, the compensation to be allowed him under the law will in an case be very small.

Golden Medical Discovery.

Thoroughly cleanse the blood, which is the fountain of health, by using Dr. Pierce's Golden Medical Discovery, and good digestion, a fair skin, buoyant spirits, vital strength, and soundness of constitution will be established. Golden Medical Discovery cures all humors, from the common pimple, blotch, or eruption, to the worst Scrofula, or blood-poison. Especially has it proven its efficacy in curing Salt-rheum or Tetter, Fever-sores, Hip-joint Disease, Scrofulous Sores and Swellings, Enlarged Glands, and Eating Ulcers.

Golden Medical Discovery cures Consumption (which is Scrofula of the Lungs), by its wonderful blood-purifying, invigorating, and nutritive properties. For Weak Lungs, Spitting of Blood, Shortness of Breath, Bronchitis, Severe Coughs, Asthma, and kindred affections, it is a sovereign remedy. It promptly cures the severest Coughs.

For Torpid Liver, Billousness, or "Liver Complaint," Dyspepsia, and Indigestion, it is an unequalled remedy. Sold by druggists.

Bac-kac-he.

What does that spell? Why, "backache," of course, though you would not suspect it at the first glance. It spells what hundreds and thousands of women are suffering from, but what they need not suffer from if they knew the virtues of Dr. Pierce's "Favorite Perscription." All those "dragging down" pains and sensations of nausea and weakness, peculiar to women, can be cured by this same boon to womankind. It is almost magical in its results.

Horsford's Acid Phosphate.

Unequaled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics to their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

NATURE'S CURE FOR CONSTIPATION, Sick-Headache, AND DYSPEPSIA. A Reliable Remedy. For Sick Stomach. Torpid Liver. Billous Headache. Costiveness. Tarrant's Effervescent Seltzer Aperient. It is certain in its effects, it is gentle in its action. It is palatable to the taste. It can be relied upon to cure, and it cures by *assisting*, not by outraging nature. Do not take violent purgatives yourselves, or allow your children to take them, always use this elegant pharmaceutical preparation, which has been for more than 40 years a public favorite. *Sold by druggists everywhere.*

FLOUR.

There seems to be some misapprehension relative to the price of Flour. I find a number of purchasers stating that the grade of Flour known as

"BAKERS"

has been reduced to $2.25 per one hundred pounds. This is a mistake. I offer, in common with all other Dealers and Millers, a Good Family Flour at $2.25, but the brand "Bakers" is still retailed at $2.50 per hundred.

P. P. FLOUR for Pastry, $2.75 per Hundred.

BAKER'S FLOUR, (ground from Manitoba Hard and Ontario Spring Wheat), $2.50 per Hundred.

A Chance.

Three second hand pianos for sale cheap. Call and examine. Terms easy. E. J. HARTLEY, Hunter street.

The Rifle.

Private W. A. Bell, of Peterborough, won a prize of $4 at Toronto on Tuesday in the Gordon match. His score was 22. The highest score was 30.

Recovering.

The young man Mr. Fair, who was torn in Meldrum, Davidson & Co.'s mill on Saturday night, is doing very well. His injuries consist of very severe flesh wounds, there being no bones broken.

How to Make Money.

This is a very interesting question, and is easily solved by calling at the Bon March. They are selling out a large stock of Dry Goods, Boots and Shoes, General Groceries, &c., at ridiculously low prices.

The Battery.

All those who have clothing from the armoury belonging to the West Division of the Durham Field Battery are ordered to return it at once. All new recruits who wish to go to camp are requested to apply personally at the drill shed on Thursday evening.

LADIES' JERSEYS.—30 different styles in Jerseys to select from at R. FAIR'S.

The Market.

The attendance at this morning's market was not large. Butter sold at 17 cents per pound, eggs at 13 cents per dozen, chickens at 50 cents per pair, lamb at 8 and 9 cents per pound, onions at 5 cents per bunch, green corn at 10 cents per dozen, new turnips at 3 for 5 cents, cabbage at 4 cents per head, potatoes at 75 cents per bag, apples at $1 per bag.

C. Stapleton's Sales.

Since the 18th, inst., Mr. C. Stapleton, our popular auctioneer, has disposed of the following properties:—

Aug. 18.—The brick house on Antrim St., belonging to Mr. J. P. Metheral, sold to Mr. Robt. Howden for $1,025.

Aug. 19.—House and lot in English town, sold for $400; vacant lot 17 sold for $245; and ot 19 sold for $215. All purchased by Mr. W. H. Ford.

Aug. 24.—The magnificent residence of Mr. John Garvey, north of Brock street, sold to Mr. Thomas Bradburn for $4,300.

The Child's Bible.

Mr. S. S. Cann is now in town canvassing for "The Child's Bible," published by Cassels & Co. It is the Bible narrative consecutively arranged from the authorized version. It is illustrated most profusely by admirable engravings, and the print is clear and large. That its introduction is written by the Rev. Dr. Vincent, Superintendent of the Chatauqua Circle, is high testimony in its favor. It is highly commended by the most competent biblical critics. It is admirably suited for its purpose of making the Bible known to the young in a manner suited to their abilities, and so as to attract them. As the work is offered complete it can be inspected and its merits ascertained by purchasers for themselves.

To-Morrow.

At last the opening day of what will doubtless prove a great sporting event is at hand. To-morrow will be a gala day at the Peterborough Driving Park. For some time past arrangements have been steadily progressing for this grand two days' turf meeting, and so satisfactory have been those arrangements, that every event on the programme will be carried out, as the entries in each race are so numerous that there can be no possibility of any drawback in any particular. Everybody should be on hand punctually, as the races will start sharp on time. The judges are all thoroughly posted in horse racing, the track will be in good condition, and the decisions in each case will be strictly honest and impartial. With fine weather, and some of the best horses in Central and Eastern Canada. Thursday and Friday, Aug. 26th and 27th, will be memorable days for the sporting men of Peterborough.

We are offering extra good value in every line of General Groceries. Call and inspect. MORROW, TIERNEY & Co.

VISITORS.

The Whitby, Port Perry and Lindsay People Come to Town.

This forenoon at half past eleven o'clock twelve coach loads of people, numbering between seven and eight hundred, arrived in town by the Grand Trunk railway. The excursion was run under the auspices of the Whitby Cornet Band. The train started this morning at Pickering, a few miles beyond Whitby, stopping at intermediate stations to take on passengers. After a run in good time the train reached here without a mishap.

There was a large crowd at the station to see the people and their brass bands. A procession was formed, the Lindsay Citizens' Band, nineteen strong, in their neat brown uniform, trimmed with red and gold and jaunty caps, taking the lead. Then came the Warriner Lodge of Oddfellow's Band from Port Perry and the Whitby Cornet Band. The former were dressed in black suits with shining silver braid trimmings, and the latter presented a fine appearance in their jersey blue uniforms, ornamented with light blue and gold. The two latter bands, twenty-four strong, played together.

The bands played alternately coming up the streets leading to the drill shed. Here the people were welcomed by Peterborough friends. Mayor Stevenson was there as a private citizen welcoming the visitors. A number of excellent selections were played by the three bands, after which all dispersed for dinner.

This afternoon a baseball match is being played between the Whitbys and Peterboroughs in the P. A. A. A. grounds.

To Horse Owners.

Prof. R. Watkins, Veterinary Dentist, has arrived at the City Hotel, where he can be consulted for a few days.

Piano Tuning.

Mr. Geo. Gumpricht is in town for a few days. Orders may be left at Mr. Thos. Menzies' bookstore, or Messrs. Taylor & McDonald's drugstore.

Personal.

Mrs. Sawers passed a favorable night. The injury is a very serious one, but with her good constitution and indomitable spirits good hopes are entertained of her ultimate recovery and of the saving of the limbs. Dr. Sawers, of Rochester, N.Y., was telegraphed for to consult with the family physician, Dr. Boucher. He arrived yesterday evening at eight o'clock and remained all day and last night, and returned to Rochester this a.m. He will be here again next week to consult with the attending physician.

Mr. J. W. Meharry of the firm of Lang & Meharry, Port Perry, formerly of Peterborough, and his wife, are expected home about September 1st from a tour in Europe. Mr. Meharry will pay a short visit to friends here.

Mr. Geo. A. Morrison, has just received a commission to take charge of the insurance business of the Mutual Reserve Fund Life Association for Central Ontario. His field of operations include the counties of Peterborough, Victoria, Hastings and Prince Edward. Mr. Morrison well merits promotion, for he has sent in during the last ten months over $200,000 worth of business to the head offices. Mr. Morrison leaves town to-morrow to establish agencies in Hastings and Prince Edward.

Foreign Salvationists.

On Tuesday the French and Hindoo contingent of Salvationists arrived in town. The contingent consisted of Capt. Blonders, of Guernsey, Channel Islands, Capt. Simcoe, of France, and Capt. Chaparaud, of Switzerland, three lasses, Major Jibi, a Hindoolzed Englishmen, and Nurswgopal, a native Hindoo from Guzerat, about three hundreds miles north of Calcutta. Major Jibi's English name is Mr. Paynter. In the evening a meeting was held in the Opera House is which the local corps took part. The Opera House was filled. The lasses appeared on the stage in their usual Army costume and the Major and Mr. Nurswgopal in the Hindoo dress, which consists of a red guernsey, a loose linnen skirt; a plaid thrown about the shoulders and a white turban Odd looking kind of boots were worn but no stockings. During the evening Major Jibi gave an account of the work in India. He was in the wine business in Oxford five years ago. He got converted joined the Army and went to India, going first to Calcutta. At that time the Army was very weak in that great country. Now there were 50 officers and 35 more have started from England three weeks ago so that there will be 85 altogether. There are now more than 5,000 soldiers, most of whom have been converted from heathenism. At the conclusion of the address a collection was taken up in which about a hundred dollars was realized. Quite a number of the ladies present put their gold rings and other pieces of jewelry on the plate. These contributions go towards aiding the Indian work. The receipts at the door amounted to about $90. Ten cents was the admission fee.

POLICE COURT.

D. AND D.

WEDNESDAY, Aug. 25.—Joseph Garland was charged by P. C. Adams with being drunk and disorderly in a public place.

The defendant acknowledged the first part of the charge, but he did not think that he was doing any harm.

P. C. Adams gave evidence and the Magistrate imposed a fine of $5 and costs or ten days.

A WEDDING

At Blair Athol, the Residence of Thos. Menzies, Esq.

At six o'clock on Tuesday evening a felicitous ceremony took place at Blair Athol, the residence of Councillor Menzies, in which Mr. K. Gustave Lech, eldest son of Mr. Wm. Lech, and Tina, third daughter of Mr. Menzies, were united in nuptial bonds. The ceremonial was performed in the east drawing room, in the presence of about 50 wedding guests. The Rev. Alex. Bell, pastor of St. Andrew's Church, officiated. The bride wore a magnificent costume of white satin, with court train and jet front, bordered with seed pearls. A veil to match and a cluster of orange blossoms completed her attire. She was attended by two bridesmaid, Miss Lech, in pale blue satin and oriental lace, and Miss Irene Menzies, a pretty little maid of seven, dressed in pale blue satin and oriental lace. Mr. Fritz Gnetinger, of Montreal, was groomsman. Each of the bridal party held a boquet of tube roses in their hands during the ceremony.

After the marriage the bridal party and wedding guests all sat down to a sumptuous *dejeuner*. It was not till half past eight that the bridal party drove in carriages to the Grand Trunk station followed by the usual emblems of good luck. Arrived at the station a dense crowd of people thronged around so thickly that the party could scarcely make their way to the coach. The heartiest parting wishes of their many friends were showered on them as the train pulled away. Mrs. Lech's travelling dress consisted of elephant grey satin cloth with a silk plush coat and hat to match.

Mr. and Mrs. Lech will spend their honeymoon at Portland and other points on the Atlantic coast.

The presents sent to the bride were spread out on tables, making up a profuse array. They were much admired. Among the many presents was a very fine clock encased in solid ormolu, a pair of silver candlesticks ornamented with silver and bronze statuery, two silver syrup jugs, a silver card receiver, a silver butter cooler, a silver spoon holder, gold lined, with call bell attached, two silver mounted pickle stands, a silver cake basket, a china fruit and flower holder with silver mounting, a China cheese dish encased in silver, a China butter dish encased in silver, a silver knitting holder, two silver sugar bowls, with spoon holders and call bells attached, [illegible] set, hot water urn set on a silver stand, a silver spoon holder with bell attached, a China fruit dish, hand painted, cased in silver, a silver stand containing silver egg cups and spoons, gold lined, a hand painted China toilet stand, cased in silver, a China biscuit bowl with silver lid, two silver butter coolers, a case containing nut crackers, cheese and sugar spoons, a silver tea pot, two sets of steel carvers, a tea set of china, a crystal set, a tinted claret jug and glasses, an embroidered table cover, a set of macrame table mats laced with blue silk, a brown felt piano stool cover lined with blue silk, a Morroco dressing case trimmed with plush, a Turkish table cover, a handsomely worked wall bracket, a large cut glass set of perfume bottles filled with perfume, a perfume sachet, and many others.

In the evening a ball was held at Blair Athol in celebration of the event. There were about one hundred and twenty guests present. The evening was delightfully cool, the orchestral music as brilliant as the light, the costumes rich, some reallly beautiful, and the closing event of the day a decided success in every respect. Lunch was served at half past twelve and carriages were called at fifteen minutes after three this morning.

CHEESE MARKET.

The Regular Fortnightly Meeting—The Cheese all Sold.

MR. GLADSTONE'S HCLIDAY.

LONDON, Aug. 24.—Mr Gladstone will start to-morrow for Munich on a three week's vacation. He has arranged to return if necessary at a moment's notice.

ARRIVALS TO DATE.

Canadian and American Fliers Entering for the Races.

Already a fine field in both days' races is assured, and great sport is anticipated to-morrow and Friday.

For the last week the trotters and runners from different Canadian points have been coming in, and every day now sees the Driving Park the scene of busy activity. Drivers and grooms with their assistants swarm the track the livelong day, while some fast spins are to be seen every morning and afternoon.

The horses to be entered are nearly all here now and are comfortably stalled in the various stables. In Mr. Crevier's stables the Duke of Wellington, of Toronto, half mile runner; Blandon, of Toronto, mile runner; Marcus, of Newcastle, 35 trotter; Little John, of Port Hope, a half mile runner, and Geraldine of Plymouth, who will enter for the free for all, are quartered. In the City Hotel there are the following: Strideway, 45 class, Bowmanville; Billey Parker, 3 minute and 45 class, Oshawa; Corkfoot Tom, 3 minute and 45 class, Brantford. Morgan's Hotel stables accommodate Deadwood and Lady M, of Potsdam, N. Y. The latter will enter for the free for all.

Louis D, and Clara C., both of Picton, the former of the 3 minute and 45 class and the latter on the 35 class, are all in the Stewart House stables.

By reference to the Park Association advertisement in this issue all information may be had as to the races.

SERIOUS SHOOTING AFFRAY.

Cowardly Action of Alleged Constables—Men Brutally Beaten and Shot.

PALMERTON, Aug. 24. — To-day about eleven o'clock three constables arrived in town from Brayton for the purpose of collecting fines under the Scott Act. About two o'clock they went into Watt's hotel, and walking up to a man named Wilson, not in connection with the hotel, attempted to arrest him, refusing explanation or showing any warrants. As they were strangers, Wilson resisted, saying he would not go until they showed some authority or stated for what they wanted him, whereupon they commenced beating him with their batons. They then drew revolvers and one of them fired, wounding, perhaps fatally a man named Douglas, who was not in any way interfering. The ball entered his breast, and the doctors have failed to remove it as yet. Douglas, thinking they meant murder, closed with one of them, together with Wilson, and although both were wounded succeeded in wresting the batons from the constables and used them over their heads till they, thinking things were getting too hot for them, skipped out. Warrants were issued for the arrest of the alleged constables, one of them, named Sheik, of Drayton, a photographer, being arrested and brought before the Mayor. The examination was postponed till Friday next, Sheik being admitted to bail in $800, himself in $400 and two sureties in $200 each. The other two are still at large.

The Knights of Labour.

Mgr. O'Bryen. the Papal ablegate, interviewed in Toronto regarding the Knights of Labor, stated that the Vatican's pronunciamento was absolute, and had been obeyed in all parts of the world. At the same time he could hardly say whether the Knights of Labor was really a secret society, as there was a great difference of opinion as to its character among the members themselves. Still it is hoped that the difficulty between the Knights and the church would be settled and the constitution of the order so altered as to satisfy the Roman authorities.

St. Michael's Church, Belleville.

BELLEVILLE, Aug. 23.—Bishop Cleary, of Kingston, assisted by Monsignor Farrelly and Fathers O'Gorman and Kelly, yesterday laid the corner-stone of the new St. Michael's Church with fitting ceremonies. The cost of the church, which will be a handsome one when finished, will be $50,000. In addition to Monsignor Farrelly's check of $1,000, Bishop Cleary placed one of his own for $500 on the altar, and intimated that he would give $300 more when called upon. Monsignor Farrelly also would give another $1,000 during the next three years.

Stage Robbery.

"THE STONY LAKE STEAMBOATS."

To the Editor of the Review.

DEAR SIR,—In the REVIEW, a correspondent, "M." criticising the newspapers, practically condemns them for not stating that the neglect of the officers of the Cruiser caused the deplorable accident that took place on board that steamer. As one who was on board at the time, and as one who has been and is on board of her frequently, I cannot agree with him. All spaces on the steamer devoted to the use of passengers are as safe as it is possible to be on a craft of the size of the Cruiser. It is true that the engine room is dangerous for ladies, but ladies have no call to enter it. "M" misleads, (I don't say intentionally) the public, when he states that "passengers, many with loose dresses and without any notion of the peril at hand, may enter and pass to and fro at their free will." Of course they may enter the engine room, but, speaking plainly, they have no business there. The engine room of the little steamer is not an inviting place, and, moreover, it is some two feet lower than the deck alongside used by passengers, and not one in a thousand ever enters it. The engine room is a dangerous place, even to the engineer, but his business is to be there, and he has to take the risk. The fireplace of an hotel is dangerous if a guest takes a fancy to thrust his head into it. As to the engine room of the Cruiser, it is not, in the slightest degree, dangerous to any passenger keeping in the space allotted to passengers.

"M" is inclined to blame the engineer for being "absent from his post." But let "M" himself go down into the hot, stuffy engine hold of a little steamer, with the temperature raised by the fire, steam and frying oil to 90 deg., and see if he will not wish, at the end of a couple of hours, to turn his back and get a breath of fresh air. Human nature can't stand it, and according to custom, if the engineer (he is stoker also) has his fires all right, his steam up to the notch, and his machinery oiled, he is allowed to take a little fresh air and rest. He is not required to stand on guard to keep unwary passengers out of danger, with his hand on the throttle in case of accident.

From my knowledge and observation it seems to me to be refining the doctrine of responsibility to an excessive degree, to attempt to fix the blame of the accident in question on the officers of the Cruiser, when so many other contingencies contributed almost entirely to its happening.

Yours, etc.,
N.

Prof. Dorenwend at Phelan's Hotel.

What a comfort and blessing it must be to ladies and gentlemen, who have been unfortunate enough to lose their hair, to know that they can procure an artificial one just as handsome and natural-looking as the departed growth. Prof. Dorenwend, of Toronto, manufactures goods in the hair line which really cannot be detected as being false. His handsome styles in Bangs, Waves, Switches, Wigs, &c., for ladies, his great genius and skill are fully shown in the making of his Toupees for gentlemen who are bald on top. When placed on the head the person wonders how it is possible for them to be made so natural looking, and why he didn't get one sooner. Remember, the Prof. will be in Peterborough, at Phelan's Hotel, on Friday and Saturday, Aug. 27 and 28, with an immense stock of Hair Goods. The unanimous approval of the press of the Professor and his goods, his large house and his established reputation, speak for themselves. Don't forget to take advantage of his coming to procure a nice headdress.

AN EASTERN WAR CLOUD.

Encounter Said to Have Taken Place—Garrisons Awaiting a Signal.

LONDON, Aug. 24.—The *Daily Telegraph* says: "It is stated that a sanguinary encounter has taken place among the troops at Jassy, Roumania, resulting in the killing and wounding of many on both sides." It transpires that an attempt was made to depose Prince Alexander at Burghas about the middle of the summer, but the plot failed. Prince Alexander's father has received no news relative to the Vienna bourse rumor that Prince Alexander had committed suicide. The *Morning Post* denies that Turkey was a party to the deposition.

LETTER FROM PRINCE ALEXANDER

BERLIN, Aug. 24.—A letter from Prince Alexander, written at Sofia a few days before the *coup d'etat*, says: "My position is becoming exceedingly difficult. The people are alarmed at the Servian armaments and the presence of Turkish Commissioners. In order to reassure the people, who have been worked upon by Russian opposition, I requested Count Kalnoky three weeks ago to induce Servia to agree to resume depiomatic relations with Bulgaria. Count Kalnoky consented, but Servia has not replied, and she has continued to fortify her frontier, leading us to expect a resumption of hostilities. The ministry have asked me to order an advance of troops, which I have refused to do, knowing the seriousness of the first steps in such a case. On the other hand the press attacks me on account of the appointment of delegates to the Turkish Commission. I, therefore, am anxious to be absolutely free with regard to Servia in order that I may devote myself entirely to the Turkish question. The excitement is so great against the Commission that an attack upon the delegates is probable. You see how I am beset with troubles. Nobody here wishes war. On the contrary, we would thank Heaven for the restoration of relations with Servia, so that a conflict might by avoided.

THE NATIONAL ASSEMBLY.

CONSTANTINOPLE, Aug. 24.—The electors of Bulgaria and Roumelia have been invited by placards to meet on Sunday to elect a National Assembly. There is sanguinary disunion in the Bulgarian Provisional Cabinet. Several of the members were named without being consulted. The partisans of Prince Alexander refuse to act. MM. Karaveloff and Nicolaioff have been arrested and will be tried by a council of war.

GERMAN SENTIMENT.

BERLIN, Aug. 24.—When the deposition of Prince Alexander was announced at the mess dinners at the baracks on Sunday evening, the officers drank Prince Alexander's health with great enthusiasm.

RUSSIA'S CANDIDATE.

LONDON, Aug. 24.—It is stated that the Prince of Oldenburg, Commander of the Russian Guards, is Russia's candidate for the Bulgarian throne.

PRISONS FULL.

VIENNA, Aug. 24.—It is reported that the prisons at Sofia and Rustchuk are full of Prince Alexander's adherents, and that wholesale arrests continue.

ALL BULGARIA RISING.

NEW YORK, Aug. 24.—The *Times'* London special says:—"News has been received at the Foreign Office from Mr. Kennedy, the British Consul at Bathurst, that all Bulgaria is rising; that troops are declaring against the conspiracy, and that there is an expectation that M. Zankoff will be hanged within forty-eight hours, and Prince Alexander invited back with loud acclamations. It is scarcely doubted that should Russia detain the Prince her action would be treated as a *casus belli* by Turkey or the Powers on her behalf. It is safe to say that every man in authority in England feels that the events of last week have brought immeasurably nearer the great conflict with Russia which has so long been on the horizon."

REVOLUTIONISTS OVERTHROWN.

SOFIA, Aug. 25.—The provisional government created by the Revolutionists has been overthrown, M. Clement, M. Grouefi and M. Zankoff, three of its members, have been arrested and thrown into prison and the old Ministry reinstated. The deception practised upon them by the circulation of a report that Prince Alexander voluntarily abdicated has exasperated the troops and civilians alike, and a revulsion of popular feeling in favour of the deposed ruler is as general as it is intense. A deputation has started out to find the Prince and assure him of the loyalty of the Bulgarian people and army, and to endeavour to persuade him to return.

ORDERED BACK.

BUCHAREST, Aug. 25.—The commander of the yacht on which it has been stated Prince Alexander is kept a prisoner has telegraphed from Reni to Sofia, asking for instructions. He received orders to convey the Prince back to Sofia. Despatches from Widdin state the counter revolution has been successful.

IRELAND.

An estate in the county of Tyrone was sold in Dublin a few days ago in the Land Judge's Court for £1600, which, not many year since, was valued at £17,000.

A farmer named Barrett, living near Skibbereen while looking after his cattle on July 30th, was attacked by a bull and terribly gored. He died after a short time.

The tenants of the Colombkill properity of Mrs. and Miss Llood, of Viewmont, Kilkenny, have been given an abatement of 25 per cent. on the last half-year's rent.

The Lord-Lieutenant has commuted the sentence of death passed on Mary Brophy, convicted at the Cork Assizes of the murder of her brother at Blackpool, County Cork.

The agricultural statistics just published show that during 1885 there was an increase of 84,383 acres under crops compared with 1884. The largest increases were in barley, flax, and meadow and clover, and the largest decrease in oats.

How to Make Money.

This is a very interesting question, and is easily solved by calling at the Bon March. They are selling out a large stock of Dry Goods, Boots and Shoes, General Groceries, etc., at exceedingly low prices.

BROADHURST ATTACKED.

PARIS, August 25.—In the workingmen's congress' yesterday, a German delegate violently attacked English trades unions. He also made an attack on Mr. Broadhurst, member of the British Parliament, whom he accused of having voted for the infamous law against the Irish.

KRAPOTKIN'S SUICIDE.

LONDON, August 25.—Alexander Krapotkin, brother of Prince Krapotkin, translator of Herbert Spencer's works into the Russian language, has committed suicide with a revolver at Tomsk.

WELSH WITHHOLDING TITHES.

LONDON, Aug. 24.—A movement is extending in Denbighshire, Wales, against the payment of tithes. The tenants demand 25 per cent. reduction. The Vicar of Llanarmon refused to make a ten per cent. reduction, and sent bailiffs to collect the tithes. They were attacked by a mob, and one of them nearly killed.

GLADSTONE HOLIDAY MAKING.

LONDON, Aug. 25.—Mr. Gladstone started this morning for Germany, where he expects to spend a three weeks' vacation. He was accompanied by his daughter and Lord Acton, Mrs. Gladstone, Mr. John Morley and a number of personal friends, went to the station to see him off. As the train moved away Mr. Gladstone waved a farewell. He appeared to be in good spirits and presented a jaunty air, though his face was pale. He wore a gray suit and brown felt hat.

HASTY SUMMONS.

LONDON, August 25.—The Government has received a number of important despatches from the East, and the Marquis of Salisbury has been requested by telegraph to return to London immediately.

HONOR A FRENCHMAN.

BERLIN, Aug. 25.—The Emperor William has conferred the order of the Black Eagle upon Baron de Courcil, formerly French Ambassador here.

WARLIKE PREPARATIONS.

VIENNA, Aug. 25.—The *Tageblatt* says the Russian Ministers of War and Marine have been summoned to St. Petersburg. The Black Sea fleet has been ordered to be in readiness for a cruise. Several Russian steamship companies have been ordered to equip troop transports.

NOT A PRISONER.

ST. PETERSBURG, Aug. 25.—It is announced that Prince Alexander arrived at Reni on Sunday, that he immediately proceeded to Austria, and that he was in no wise a prisoner.

RIOTING AT BELFAST.

BELFAST, Aug. 26.—An attempt was made this evening to replace the police in the Protestant quarter of the city, from which they had been withdrawn after the beginning of the riots. Fifty constables tried to patrol Shankhill road. A mob stoned the police, and the latter, after vainly charging the mob, were forced to retreat. Several were injured. The streets were finally cleared by the troops. Six arrests were made. Daly's tavern, on Peter's hill, has again been wrecked. The mob to-night placed chains across the Shankhill road, which tripped the police and troops when they charged the mob. Twenty arrests have been made. The police were terribly stoned.

A NEW POSSESSION.

LONDON, Aug. 25.—The English corvette Diamond took possession in the name of the British Crown of the Kermodec islands, in the South Pacific ocean, on August 14th.

CHILDREN CRUSHED.

LONDON, Aug. 25.—By the collapse of a wall of a steel ingot warehouse at Sheffield to-day, a number of children who had been playing on the pavement were killed and injured. Several dead bodies have already been recovered from the ruins.

FIRE RAGING AT LIVERPOOL.

LIVERPOOL, Aug. 25.—Fire is raging in a block of warehouses owned by J. B. Melladen, in Neptune street. The fire is extending, and it is feared it will destroy the entire block. All the property threatened is well insured.

BEGINNING WELL.

LONDON, Aug. 25.—The *St. Stephen's Review* claims that Lord Londonderry has begun well, for one of his first orders was that fruit from the Viceregal gardens should be distributed through the Dublin hospitals and not sold.

ENGLAND.

A cannon has just been constructed at Sir. Wm. Armstrong's factory which is 44 feet long, 161-4 inches in diameter, and its actual weight 247,795 pounds.

An explosion of coal gas occurred recently on board the Norwegian barque "Tetens" lying in Cardiff Docks. Five men were injured and the vessel's decks torn up.

The fishing smack Weigh, of Colchester, was run down off Sheerness by a steamer, supposed to be the "Roscier," of West Hartlepool. Two persons were drowned.

At a meeting of cotton spinners in Manchester, it was resolved, on condition of two-thirds of the spinners agreeing, to reduce the working hours to half time after the 11th August.

A shocking accident occurred at Plymouth on Aug. 2. An Oddfellows' fete was being held at the drill hall, and in the midst of a foot race a rush was made for a raised platform. This suddenly gave way, and when the struggling mass of people had been extricated it was found that two children had been killed and two dreadfully crushed.

A remarkable instance of rapid promotion is furnished in a recent London *Gazette*, which announces the promotion of Lieut. E C. Knox to a troop in the 18th Hussars. Captain Knox only enlisted in the spring of 1879, and has thus passed from the grade of a private soldier to a captain in seven years, and from the rank of a sergeant to the command of a troop of cavalry in less than four.

The Duc d'Aumale is staying at Wood Norton House, his place in Worcestershire, near Evesham, where he intends to reside for the next two months. The Duchesse de Chartres and her family, are also at Wood Norton; the Comte and Comtesse de Paris are expected shortly for a few days, and it is rumoured that they will become the tenants of a place in the vale of Evesham. The Duc d'Aumale purchased the Wood Norton estate in 1868 from Mr. Holland. It extends to 4,000 acres, and the rental is 7000*l.* a year. The house is a very good and comfortable one, but not large, and the grounds are picturesque and pleasant.

THURSDAY. AUGUST 26, 1886.

IMPERIAL POLITICS.

THE question of the acceptance or rejection of Mr. Gladstone's particular measure for Home Rule was of such engrossing interest at the recent general election for the Imperial House of Commons, that for the time it completely overshadowed all other questions. Now, however, that there is leisure for consideration, there comes to recollection the fact that there are other questions, which, if less exciting, are of great importance to us. Whether Home Rulers, or Unionists, by sympathy, Canadians may remember that they are more directly affected by the foreign and colonial than the home policy of the administration at Westminster. From this point of view the accession of Lord Salisbury to power cannot but be regarded as satisfactory. A Conservative administration is certainly more efficacious in its management of foreign affairs than a Liberal Cabinet. Due firmness is more conducive even to peace than a temporising, timid policy. It is not under Conservatives that the country drifts into war as in the case of the Crimean campaign, when Mr. Gladstone was Lord Aberdeen's chief colleague. It is especially satisfactory that there should be a firm Conservative administration in power just now when there is a question at issue between Canada and the United States as to the invasion of our territorial limits by the New England fishermen. We cannot forget how Mr. Gladstone permitted the Washington authorities to beguile him into consenting to the exclusion of our claims for compensation for the Fenian raids from the consideration of the Joint High Commission. There is no fear that the Salisbury Administration will be so neglectful of our interests, or so subservient to the encroachments of a foreign power.

In general the Conservatives of the Mother Country are more favorable to Colonial interests than the Liberals. It is very advantageous for our Dominion to have in power at Westminster those who will thoroughly appreciate the benefits conferred upon the Empire as a whole by the progress of Canada, and above all the Imperial importance of the C. P. R., with its short route through British territory to India and Australia. Even already projects that remained dormant under the Gladstone Administration are being revived with new vigor and the promise of much benefit to Canada.

THE NORTHWEST POLICY.

Reforms have followed each other of late with a rapidity which leaves little to be desired, and some of these reforms have been such as residents in the territories did not expect for a number of years. Some of these reforms in fact, have been of a most radical character. The abolition of the office of stipendiary magistrates, and the substitution therefor of judgeships under the ordinary restrictions; the establishment of a Court of Appeal at Regina; the extension of the Supreme Court Act to the territories, mark reforms in this administration of justice in the territories which of themselves mark an era in the history of the country. Going further, we have within the past twelve months been granted the most highly prized of our privileges, that of representation in the Commons and Senate of Canada. In that time, also, the halfbreed question throughout the territories has been definitely settled for all time, and the Indian title which has caused two rebellions in Canada has been definitely extinguished. At the same time the old system of reserving land has been directly revised and the land given to the settlers; the lease system has been so far modified as to form no barrier to settlement, and both governemat and C. P. R. lands all through the country placed on the market. Within that time railway and telegraphic communication has been opened straight through the territories to either coast, and the government has constructed other telegraphic lines for the convenience and safety of scattered settlements. All this is a brilliant showing for any government, and must mark the beginning of a period of great and unrestricted prosperity for the whole country.—*Calgary, N. W. T., Herald.*

OPINIONS OF THE PRESS

A FORCED ISSUE.

It is very true that the hanging of Riel should never have been forced into the field, but the Conservatives can hardly be charged with that blunder, a blunder that barely stops short of a crime. The issue, however, has been raised, it is of paramount importance to the English element of the Canadian population and cannot be ignored.—*Ottawa Journal (Ind.)*

APPEAL TO INJUSTICE.

If Mr. Mercier and his party come back in a majority at the next election it will not be, as his supporters know, because his policy was a reform of legal procedure, economy of administration or progress in education, but because he appealed to the French Canadian people of this Province to unjustly condemn the Provincial Government for the execution of a French Canadian crrminal.—*Montreal Witness (Ref.)*

WHAT THEY CALL TRIUMPH.

The Nationalists of Quebec are taking a vigorous and characteristic part in the local contest. Pieces of rope are thrown at the Government speakers, the crowd shout "hagman," "hangman," and the Grit press declares that the meeting is a great triumph for the Grit party.—*St. John, N. B. Sun.*

TRYING TO SINK THE SHIP.

It is only the Canadian Grit who runs down the industries of his own country and even those of his own city. The British journalist acknowledges that our goods "will hold their own in any part of the world" that they are "as well finished as anything ever done in England;" and that at least some Canadian manufactures are "admittedly the best in the world." It is time the Canadian enemies of Canada were properly rebuked. This country must be built up by the earnest effort of all her sons. The fellows who are eternally decrying everything Canadian are like men on a ship trying to bore holes in her bottom.—*Canadian Manufacturer.*

REFORMERS AND RIELITES.

But we are more than surprised, we are dumbfounded, if it really be the case that the Liberals of Toronto regard the triumph of treason at Chambly as a "splendid victory." If they do, we warn them that they and the Liberals of this Province part company. We would like to see the reign of Sir John Macdonald at an end, but we will not march to defeat him under the flag of treason, nor fight against him in the same rank with rebels. If the Liberals of Toronto and of Ontario at large cannot beat Sir John at the polls on the broad issue of his general policy, and his administration of the affairs of the Dominion apart from Northwest troubles, we are not going to share in their disgrace in uniting with bigots and rebels to drive him from office for an act we unanimously approve—his permitting Riel to receive the punishment the law adjudged for his crimes.—*Huntingdon Gleaner (Ref.)*

SACRIFICE OF PRINCIPLES.

If there is one Liberal principle which more than any other the minority of this Province are interested in having embodied in legislation and administration of this Province, it is that the state, and the state alone, should control education. Yet this principle is cast aside when it stand in the way of success and the minority is betrayed. If Mr. Mercier and the Nationalist party are willing to sacrifice their principles in order to attain office, they will with equal readiness sacrifice any remaining principles in order to maintain their power. What hope is there for the minority in a party elected to power through an appeal to the race prejudices and passions of the majority?—*Montreal Witness (Reform.)*

THOSE $8,000 SERVICES.

Hon. Mr. Mills does well to attempt an explanation of the large sums of money received by him for alleged services in the boundary question, But the explanation offered is altogether too bald and destitute of essential particulars to satisfy the intelligent inquirer. The total amount paid him by Ontario from 1872 to 1885, as we recently showed, was $8,385.20. It is a large sum, and the question that naturally occurs is, what did he do for it? Mr. Mills tells us in his paper what became of three of the smaller items aggregating $850. He says they were paid out to other persons for copying various documents. But of the $7,535.20 remaining he offers no account. We get no inkling of what he did for it. The reason for which this money was given him he prefers to leave out of sight; while he confesses judgment in regard to the count indicting him with having sat in the House of Commons voting as a member of Parliament on a cause which he was paid by the opponent of that House for promoting.—*London Free Press.*

MR. BLAKE'S SERVICES.

A man who would libel the United States because his party was out of power would have a poor time of it. Their politicians will quarrel among themselves, but they all stand up for the United States. Canada is the only country in the world in which we find politicians libeling and traducing the land in which they live, as part of political warfare. Mr. Blake's portrait is printed on a circular of a United States land company, and extracts from Mr. Blake's speeches are printed in that pamphlet as evidence that Canada is not a good field for the emigrant. And Mr. Blake's friends see that in fact no cause for shame. They are proud of it rather than the reverse. The shameful utterances which would forever drive from political life any man in the United States, are held by Mr. Blake's followers to be reasons for trusting and honoring him. —*Hamilton Spectator.*

CONTRADICTORY GRIT STATEMENTS.

It is telegraphed that the Blue Noses are indignant because their fisheries are not protected by the Ottawa Government, also, on the same day that the fishermen of New England are indignant at being chased off the banks by the cruisers of the Ottawa Government. The telegraphic liars of Canada and the United States will never be generally believed until they hold a convention and agree upon a policy, like other great bodies.—*Toronto World (Indep.)*

THE PARAMOUNT ISSUE.

This means that, with Dr. Cameron, an intelligent and conscientious man, and until this a consistent Liberal, the Riel cry is one which is calling up so much that is dangerous to the principle of confederation that it overshadows all other issues, and the country will be curious to see.—*Montreal Star.*

WE WILL SEE.

Tenders have been advertized for, according to specified plans now to be seen at Toronto, for the erection of Provincial Assembly Buildings in the Queen's Park, Toronto. Now we will find out whether the Ontario surplus is available or not. *Newmarket Era (Reform.)*

THE chief Rielite organ in Ontario continues to harp upon the foul slander invented by one of its "new allies," and greedily seized upon by itself, attacking the morality of the ladies in the Civil Service at Ottawa. Next to defending and sympathising with criminals, the *Globe's* favorite employment seems to be slandering women. Criminality and cowardice are often linked together.

CAVAN.

THE LATE JAMES JOHNSTON.—The subject of this little memoir was born in the city of New York, in the year 1818. His parents, Richard and Margaret Johnston, who were natives of Ireland, settled in New York, and for a few years were very successful in business, but as the true Britain is never so happy in any land as where the British flag floats upon the breeze, Mr. Johnston and his accomplished wife emigrated to Canada and settled in loyal township of Cavan, then almost a wilderness. The subject of this notice was then about two years old. He soon became useful and industrious, and, by the excellent training he received, he was loyal to his country and to God, and at an early age, he, with the Cavan boys, took up arms to fight the Mackenzie rebels, and while in the volunteers he distinguished himself as a man and a Christian. At about the age of 25 his father placed him on a farm about one mile from Bethany, where he spent the remainder of his life. He was blessed with an excellent wife. The happy couple had nine sons and one daughter. five of them have passed away before him. His superior qualities soon brought him before the public as councillor and magistrate, and in his large acquaintance he was honored and loved by all. His home was a little sanctuary, His Christian virtues shone so brightly, he was admitted to the high office of elder in the Presbyterian church, and nobly he filled this office, and he felt it but his duty to do all that he could for the interest and well being of the church and the whole community. It is vain for me to try and picture all the virtues of this great good man, the whole community know them. The church will feel the blow keenly, and surely it brings a dark cloud on the sorely bereaved wife and family, and they will long remember this sad event. Sunday, the 8th of August, 1886,

His happy spirit took its flight
Beyond the highest star;
And now he reaps a rich reward
Where noblest pleasures are.
His anchor now is safely cast
Within the vale on high,
Where angels chant that lovely muse,
Our old sweet bye-and-bye.

The funeral was very large, and the occasion improved by the Rev. Mr. Bennett.

LAKEFIELD.

HEAVY RAIN.—The rainfall here on Monday between 8 a. m. and 5 p. m. was 2.25 inches. According to the calculations recently published in "the *Mail*," this is equivalent to about 58,832 gallons to the square acre.

COUNCIL MEETING.—An adjourned meeting of the Council was held on Friday evening. Present, Councillor Moore in the chair, Councillors Cox, McWilliams and Isbister. The Village Clerk read the following resolution passed at the public meeting held on Monday, August 16th.—Moved by John Cox, seconded by J. S. Carnegie, Resolved that this meeting regrets the action of the Council in passing the amendment to By-law No. 9 and we hope they will at their first meeting repeal the said amendment to by-law No. 9 and leave the Salvation Army alone. Moved by Councillor Isbister, seconded by Councillor Cox,—That this Council do not at present rescind amendment to by-law No. 9, but instruct the constable to refrain from interfering with the Salvation Army on the Sabbath day.—Carried. Councillor McWilliams called for the yeas and nays, which were as follows:—For the motion, Councillors Cox, Isbister and the chairman; against the motion, Councillor McWilliams. By-laws to borrow money for current expenditure, to amend by-law No. 8, and to fix the rate and levy the taxes for 1886 received their several readings, were passed, sealed and signed by the chairman. An account of P. Baptie's for lumber was left over till next regular meeting. Account of L. Steele's, $2.00, work on road, was ordered to be paid. The Council then adjourned to meet at the call of the Reeve.

"SARAH JANE ON THE SCOTT ACT."

BY SIGMA.

I know I'm country born and bred, but I haint got no more cotton wool about my head than other folks, so I haint: and I can see as far through a grindstone as the neighbour, so I can provided the hole is big enough. Well, about this Scott Act, that's what first turned me agin our church, so it was, I used to be a member and a good one too, and go to meeting, and sing: and I can sing some, you bet, tho' I aint as young as I used to be.

First thing that stuck my dander up, was when I heard a minister say that wine didn't mean wine, leastwise in the Bible. I haint got much edication, mores the pity: but I can read my Bible, and I do, and when he came to say that wine didn't mean wine, then says I to myself, says I, Sarah Jane, if wine don't mean wine, mayhaps heaven don't mean heaven: and hell don't mean hell. So says I, that's enough for *me*, thank you kindly.

I've heard them, as have read history, say that folks have always been found as could twist the meanier of Scripture to suit their own purpose: but I for one, don't hold with such like goings on: and moreover I didn't believe it, and never should, if I hadn't heard that feller say, my very own self, that wine didn't mean wine, leastwise in the Bible.

So, as I said before, I up, and left our church. Tho' mind you, I don't say as there aint others just as bad. They do say, them Romans find Scripture for the selling of "indulgincies" as they call them, meanin' that if a feller pays so much down, he can go and do as he 've a mind to, for a time. And to my mind that's about as bad as trying to persuade folks that what is written in the Bible aint so. But, as I said before, I haint had no edication to speak of, and I do believe that there's them as is mean enough to take advantage of that in me, and in others, so I do. Then the way they worked: the parsons, I mean. First of all they'd get hold of the women folk, and tell them how happy they'd be, and the new gowns they'd have, let alone bonnets, and money to put in the mission boxes, if their men couldn't get drink at the bars. Then the women got hold of the men, and told them how happy they'd be, how they'd always have buttons on their shirts, and not have to sling their pants onto their suspenders with shingle nails; and so, when it came to the vote, Scott Act it was. And after all, says I, what good have it done? The men they club together like, and have it at home, and some of them is mean enough not to tell their wives; moreover, they do say that some of them drink more, in the cedar swamps, or somewhere, in a month now, than they did in a year at the bar.

And as to *town*, why, it's real awful. I used to like going to town, on market days, occasional; but, Lor', *now* it's as dull as a mud puddle. Seems to *me* there's no trade doing. I see, the fellers used to take a drink and feel good, and go and spend a dollar or two. There's none of that now; the fellers feel mean, and they act mean, and if they do get a drop of something, as I'm told some of them does, on the sly, ten to one it's such awful stuff they get cramps, so they do.

Mind *you*, I don't hold with drinking, so as to be the worse of it. That *is* against scripture, and I'll defy all the twisterering parsons on earth to prove the contrary, tho' I daresay some of them would try to, if they thought they could make by it.

What I find is. "Be temperate in all things." So I don't believe the *temperate* use of wine is a sin. I don't use it myself, and I believe that them as can do without it, is best without it, and all honor to them as keeps from it when it's a temptation to them, and especially to them as does it to help a weak brother. But, I don't hold with *laws* to tell us what we are to eat, and what we are to drink, just as if we were children or slaves; so I don't. I've heard as how doctors say that folks can do themselves a pile of harm a drinkin too much tea, and I do believe it's bad for the nerves, myself, so I do. But I wonder how we women folk would take it, if some crank was to start a law prohibitin the sale of tea; and I shouldn't be a bit surprised to see fellers put in jail for sellin it, just as they are for sellin a glass of beer.

Same with baccy. I can't bear baccy myself: but the men folks like it: and says I every man has a right to do as he've a mind to, so long as it ain't downright wicked. And if he'll only remember what's written. "Be temperate in all things," he wouldn't come to much harm. *I've* known folks to git cramps from a drinkin too much *cold water*, so I have. Wonder if they'll ever pass a law to stop folks drinkin water: and to send them to jail for diggin wells? I'll be bound there's them as would find scripture for it, so I would. Talk about liberty, and a free country! don't tell *me*, when them poor fellers is a writhing in jail for *sellin a drop of ale*.

Folks talk about what our grandfathers and great-grandfathers would have said if they could have seen telephones and telegraphs and such like. BUT I WONDER WHAT THEY D HAVE SAID IF THEY COULD HAVE LIVED TO SEE A BRITISH SUBJECT SENT TO JAIL FOR SELLING A GLASS OF ALE. So I DO.

It seems to me as bad as them old persecutors we read of in History, when folks was tormented and fined and sent to jail and sich, for not being Catholics; or may be because they *were* Catholics. Mind you, I aint one to set myself up again keeping the laws. I say, if we have laws lets abide by them. But. *I do think we ought to be very keerful as to what laws is made.* Let's have laws *such as we can respect*, and then folks will keep them; and not only keep them themselves, but see that others does too, without having to hire men to go sneaking and prying around to ketch folks as break them. See when a fellow commits a murder or a robbery, or sich, how all the neighbours turn out and hunt him, and right to, there's scripture for it, in the ten commandments; but there's none agin sellin beer as I can see.

All I says is *if they'd enforced the laws agin puttin pison stuff in liquor*, there'd a been no Scott Act. Well: there's them Salvagion Armies a coming. So I'm off. I never could abide them drums and clang things. Fancy Peter and Paul, and the apostles a going around, dressed up like idjots, with drums and flags, like a lot of school boys a playing sodgers. I can't think what folks *is a coming to now a days*. So I can't.

THE FRANCES SMITH CASE.

Release of the Steamer—Her Seizure Said to have been Illegal.

OWEN SOUND, Aug. 24.—The steamer Frances Smith, which was seized at Mackinaw Island last week, was released on Friday and arrived here last evening. Her officers refuse to give any particulars about her seizure and release by the American authorities. It is reported that she was released on a $16,000 bond, that the seizure was illegal, and that the owners can recover damages from the American Government.

HARVEY.

From Our Own Correspondent.

COUNCIL MEETING.—The Harvey Council met at the Clerk's office on the 23rd Aug. Members all present. Minutes read and confirmed. Communications were read from Mr. Buck, of Norwood, about timber cut on road allowances in Harvey; from E. Pearce, County Clerk, certifying the amount required to be levied for county purposes for the current year; also an account from A. McIntyre for crowbar for Tye's road beat. A by-law was passed to provide for levying the rates and taxes for 1886, for county purposes, $688.27; for township purposes, $750, and for schools as follows:—School section No. 1, $200; s. s. No. 2, $350; s. s. No. 3, $290; s. s. No. 4, $250; s. s. No. 5, $225; s. s. No. 6, $180; s. s. No. 7, $250; s. s. No. 8, $453. Orders drawn on Treasurer as follows:—A. McIntyre, for crowbar for Tye's road beat, $2.50; Lewis Winters, for repairs on Sandy creek bridge, $1.25; Wm. Barcroft, for cutting fallen trees on Squaw River road, 50c. On motion the Council adjourned to meet at the Town Hall on October 12th, 1886.

IN BAD HUMOR.—"A year ago my head was covered with sores, and the eruption covered my face also, and spread even until the backs of my hands were sore. I became weak and ill. Finding no cure I tried Burdock Blood Bitters. Two bottles perfectly cured me." Statement of Miss Minnie Stevenson, Cocagne, N. B.

OFF WORK.—"I was off work for two years suffering from kidney disease, and could get no relief, until advised by a friend to try B. B. B. I was cured by two bottles, and consider it a miraculous cure." The above is the substance of a communication from Wm. Tier, of St. Marys, Ont.

Efforts are being made in Montreal to arrange for a united convention of educationists of Canada and the United States in that city next July, with the object of establishing an educational institution under whose auspices international conventions will be held.

ON THE RISE.—"Leaves have their time to fall," says the poet, but Wild Strawberry leaves are on the rise just now, being utilized in such enormous quantities in making Dr. Fowler's Extract of Wild Strawberry—the infallible remedy for Cholera Morbus, Diarrhœa and other Summer Complaints.

Rev. J. G. Fallis Datton certifies: "For some years my wife has been troubled with Dyspepsia, and has tried one thing after another recommended with but little or no effect till advised to give McGregor's Speedy Cure a trial. Bac-kac-he.

What does that spell? Why, "backache," of course, though you would not suspect it at the first glance. It spells what hundreds and thousands of women are suffering from every day of their lives, but which does not need to suffer from, if they knew the virtues of Dr. Pierce's Favorite Prescription. All those "dragging down" pains and sensations of nausea and weakness, peculiar to women, can be cured by this same boon to womankind. It is almost magical in its results.

Horsford's Acid Phosphate,

Unequaled.

Dr. R. M. Alexander, Fannettsburg, Pa., says: "I think Horsford's Acid Phosphate is not equalled in any other preparations of phosphorus."

Consumption can be Cured.

Not by any secret remedy, but by proper, healthful exercise and the judicious use of Scott's Emulsion of Cod Liver Oil and Hypophosphites, containing the healing and strength-giving virtues of these two valuable specifics in their fullest form. Prescribed universally by Physicians. Take no other.

McGregor's Speedy Cure.

It is popularly admitted everywhere that McGregor's Speedy Cure is the safest, most reliable and by far the cheapest remedy for Constipation, Liver Comalaint, indigestion, Impure Blood, Loss of Appetite, and all similar troubles. It is not necessary to take a great quantity before any result is produced. A few doses will convince you of its merits. Trial bottle given free at John McKee's Drug Store.

Advice to Mothers.

Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes "as bright as a button." It is very pleasant to taste. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels, and is the best known remedy for diarrhœa, whether arising from teething or other causes. 25 cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

NATURE'S CURE FOR CONSTIPATION, TARRANT'S SELTZER APERIENT Sick-Headache, AND DYSPEPSIA.

A Reliable Remedy.

For Sick Stomach. Torpid Liver. Bilious Headache. Costiveness.

Tarrant's Effervescent Seltzer Aperient.

It is certain in its effects, it is gentle in its action. It is palatable to the taste. It can be relied upon to cure, and it cures by *assisting*, not by outraging nature. Do not take violent purgatives yourselves, or allow your children to take them, always use this elegant pharmaceutical preparation, which has been for more than 40 years a public favorite. *Sold by druggists everywhere.*

AYER'S HAIR VIGOR

Restores the color, gloss, and youthful freshness of the hair; stimulates a rich and luxurious growth; thoroughly cleanses the scalp; prevents dandruff and humors; and is the most cleanly and effective preparation for the hair ever offered to the public. Rev. J. W. Davenport, Illinois Bend, Texas, writes: "Ayer's Hair Vigor, used in my family for several years, has no equal as a dressing, nor for preventing the hair from falling out or turning prematurely gray. It ranks among the first luxuries of our house." Miss Kate Rose, Ingersoll, Ontario, writes: "While keeping my head clear of dandruff, and preventing Scald Head, Ayer's Hair Vigor has also caused my hair to grow luxuriantly, resulting in my now possessing hair forty-two inches long, and as thick as could be desired." The wife of Dr. V. S. Lovelace, Lovelaceville, Ky., had very bad tetter sores upon her head, causing the hair to fall out. Ayer's Hair Vigor healed the sores, and in less than twelve months produced hair a foot long.

No More Bald Heads.

To produce a new growth of hair on bald heads, in the case of persons advanced in years, is not always possible. When the glands are decayed and gone, no stimulant can restore them; but, when they are only inactive, from the need of some excitant, the application of Ayer's Hair Vigor will renew their vitality, and a new growth will result. L. V. Templeton, Newbern, N. C., writes: "After a protracted illness, with fever, my hair all came out, leaving me entirely bald. I procured a bottle of Ayer's Hair Vigor, and, before I had used all its contents, a thick growth of hair, nearly two inches long, covered my head." L. D. McJunkin, Perryville, Md., writes: "Baldness is hereditary in my family. Five years ago the hair on the top of my head was becoming weak and thin. I procured Ayer's Hair Vigor, the application of which invigorated the hair roots, and sent out a new growth of young hair. To-day my hair is as thick and vigorous as ever. I still use the Vigor occasionally to keep my scalp in a healthy condition."

One box will cure recent cases. Each box contains one month's treatment. One dollar a box, or six boxes for five dollars; sent by mail prepaid on receipt of price. We guarantee six boxes to cure any case. With each bottle received by us for six boxes, accompanied with five dollars, we will send the purchaser our written guarantee to refund the money if the treatment does not effect a cure. Guarantees issued only by J. D. TULLY, Druggist, Sole Agent for Peterborough.
